Accreditation

Bakersfield College is approved by the Chancellor of the California Community Colleges and is regularly evaluated and accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) of the Western Association of Schools and Colleges. ACCJC is an institutional accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and the U.S. Department of Education. It meets all standards of the California State Department of Education and is listed in the Education Directory, Higher Education, Part 3, published by the United States Office of Education. The University of California, the California State University System, and other colleges and universities give full credit for appropriate courses completed at Bakersfield College.

Student complaints must be in writing and directed to the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges. The ACCJC can be contacted at 10 Commercial Boulevard, Suite 204, Novato, CA 94949; Phone: (415) 506-0234 | Fax: (415) 506-0238 or Email: accjc@accjc.org.

Bakersfield College is approved by the following:
- California Board of Registered Nursing
- California State Colleges and Universities
- California State Department of Education
- University of California

Alternative Catalog Versions

The material in this catalog is available in alternate formats. To access copies of alternative formats, contact Disabled Student Programs & Services at (661) 395-4334.

Disclaimer: Bakersfield College has endeavored to produce the most accurate catalog information available, however, approval of courses, programs and transfer occur asynchronously to the annual schedule. Changes in legislation or mandated reporting often affect the services or academic offerings and are updated as required. Readers should be aware that there might be changes made in any print version of the catalog regarding policies and regulations, coursework and programs that may change information in this publication. Bakersfield College reserves the right to modify its programs, tuition and fees, admission and graduation requirements, schedules, and other policies, procedures, and regulations stated in this catalog without notice. Updated versions are posted on the college website and available in the appropriate administrative offices. Catalog addenda can be found on the Catalog web page.
Guided Pathways Re-design

The 2018-19 Bakersfield College catalog represents a re-design and overhaul of the academic catalog used for many years. Bakersfield College is moving towards the “Guided Pathways” model that requires a significant endeavor to present material in a different manner based upon student pathways, support, and outcomes. This updated catalog will continue to grow and transform over the next year as the pathways model is more fully implemented. The web version of the catalog will be built in an interactive manner to enable students to find information based on “Pathways” programs and courses.

Dear Renegades,

Since our founding year in 1913, Bakersfield College has experienced tremendous growth. With 105 years of rich institutional history, students before you have gained the knowledge and skills they needed to achieve their educational and career goals.

Over a century later, many things have changed but one constant remains: Bakersfield College continues to contribute to the intellectual, cultural, and economic vitality of the communities it serves.

It is the future of Bakersfield, Arvin, Delano, Shafter, McFarland, Wasco and all our neighboring communities, that continually inspires us to become a better BC; one that is defined by our academic excellence, forward thinking, and commitment to every student. This year, programs and courses are being offered in more locations than ever and even online. With our recent expansions, it is our goal that college is closer to home so you can advance more efficiently and comfortably on your journey towards degree and award attainment.

This collection of materials is the first of many valuable tools that you’ll have available during your journey to success, achievement, graduation, and beyond.

I know college is a big step and it can be confusing and often intimidating. I encourage you to seek help from the various student services available to you. They are designed to help you successfully finish your educational plan in the most efficient way possible. Explore our website or visit the Student Welcome Center for more information regarding services, such as academic advising, tutoring, the writing center, and math lab. We have teams of faculty and staff dedicated to providing the best learning experience which enables you to advance on your educational path.

In closing, I invite you to follow Bakersfield College on Facebook and Twitter, and please subscribe to my blog. As the year progresses, you’ll get all the latest news, see highlights from events, and even shout-outs to fellow students, professors, and cohorts.

And finally, to all students, new and returning, I wish you all the best for a successful and rewarding journey as you become a part of our rich history of students who have attended Bakersfield College.

Welcome to the Home of the Renegades!

With Renegade pride and collegiality,

### 2018/2019 Academic Calendar

#### Fall semester 2018 (August 18-December 8)
- **July 1**: Last day to file for graduation
- **August 18**: Instruction begins
- **August 31**: Last day for refund for semester-length classes*
- **September 2**: Last day to drop from a semester-length class without receiving a W*
- **September 2**: Last day to add a semester-length class with approved add form
- **September 3**: Labor Day holiday
- **October 19**: Last day to withdraw from a semester-length class and receive a “W”*
- **November 7**: Early web registration for 2019 Spring semester begins
- **November 12**: Veterans’ Day holiday
- **November 22-23**: Thanksgiving holiday
- **November 28**: Open web registration for 2019 Spring semester begins
- **December 1-8**: Final exams
- **December 8**: End of fall semester

#### Spring semester 2019 (January 12-May 11)
- **October 15**: Last day to file for graduation
- **November 7**: Early web registration begins
- **November 28**: Open web registration begins
- **January 12**: First day of classes
- **January 21**: Martin Luther King, Jr. Day holiday
- **January 25**: Last day for a refund for semester-length classes*
- **January 27**: Last day to drop from a semester-length class without receiving a “W”*
- **January 27**: Last day to add a semester-length class with approved add form
- **February 15**: Lincoln’s Birthday Day holiday
- **February 18**: Washington’s Birthday Day holiday
- **March 29**: Last day to withdraw from a semester-length class and receive a “W”*
- **April 15-19**: Spring Break
- **April 4**: Early web registration for 2019 Summer semester begins
- **April 18**: Open web registration for 2019 Summer semester
- **May 4-10**: Final exams
- **May 10**: Commencement
- **May 10**: End of spring semester

*In courses other than semester-length, consult the Office of Admissions and Records or the instructor regarding drop, withdrawal, and refund deadlines.

About Bakersfield College

History of Bakersfield College
Established in 1913, Bakersfield College is one of the oldest two-year community colleges in the nation. The initial program offered a one-year curriculum, and in 1915 the trustees of the Kern County High School and Junior College District authorized a second year of junior college and normal school courses. The college opened its present day campus high above the Panorama bluffs in 1956. Bakersfield College offers courses at its satellite campuses located in downtown Bakersfield at the Weill Institute, at its Delano Campus, and other locations in Kern County.

The 153-acre Panorama Campus features a state-of-the-art library and technology center and a 19,000-seat stadium that is the crown jewel of community colleges nationwide.

As the majority of the buildings on the Panorama Campus are at least 50 years old, state and bond-funded construction will continue to upgrade facilities to help students achieve their academic goals.

Bakersfield College Mission
Bakersfield College provides opportunities for students from diverse economic, cultural, and educational backgrounds to attain Associate and Baccalaureate degrees and certificates, workplace skills, and preparation for transfer. Our rigorous and supportive learning environment fosters students’ abilities to think critically, communicate effectively, and demonstrate competencies and skills in order to engage productively in their communities and the world.

Bakersfield College Vision
Building upon more than 100 years of excellence, Bakersfield College continues to contribute to the intellectual, cultural, and economic vitality of the communities it serves.

Bakersfield College Core Values
- **Learning:** We foster curiosity, inquiry, critical thinking, and creativity within a safe and rigorous academic environment so that we might be empowered to radically transform our community into one that gives voice and power to all people.
- **Integrity:** We continue to develop and follow an ethical and moral consciousness which places the collective wellbeing and health above the self; this principled environment allows for open, constructive conversations and teaches us to trust each other’s vision so that we will be useful and effective in providing support, resources, and encouragement.
- **Wellness:** We believe health and wellness to be integral and foundational elements, and we understand that a holistic education improves all aspects of the individual and the society including the mind, body, and spirit; through education, we will positively impact the health of the natural environment and the global community.
- **Diversity:** We insist that diversity be valued and promoted, recognizing that multiple perspectives lead to a better education and knowledge of the world; listening and witnessing different experiences helps us to understand and contextualize power and privilege related to gender, race, class, religion, disability, and sexuality in terms of access and barriers to resources and opportunities.
- **Community:** We commit to the wellbeing of all members of our community; we maintain strong ties with the surrounding community, and we respond to their needs by serving as an open institution which engages all students, faculty, and staff; in our college, we have built and continue to build an environment in which all members participate as a community through democratic engagement.
- **Sustainability:** We recognize our responsibility for continuing and maintaining this institution which has been shaped by over 100 years of resolute and tenacious labor and judicious foresight, so we unceasingly place our energies into imagining how we might sustain and renew our fiscal, human, and environmental resources into the future.
Equal Opportunity Employment Statement
In accordance with the requirements of the Civil Rights Act, Bakersfield College provides services and benefits to students regardless of race, color, national origin, ancestry, gender, age, religion, marital status, medical condition, or disability. The lack of English language skills will not be a barrier to administration and participation in vocational education programs. (Title VI and VII of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972; and Section 503 and 504 of the Rehabilitation Act of 1973, as amended and the Americans with Disabilities Act of 1990)

All persons have the right to seek admission to and complete an educational program at Bakersfield College. Interference with students’ access and successful completion of their education by any person through unlawful discriminatory conduct will not be tolerated. The college will initiate disciplinary action against persons found to have interfered with a students’ education through any means of illegal or immoral intimidation.

The Kern Community College District will afford reasonable accommodations for applicants and employees to enable qualified individuals to perform essential job functions. Students with disabilities will be accommodated to ensure accessibility and full participation in educational programs. To request reasonable accommodations, applicants and employees should contact the Human Resources Manager at (661) 395-4660. Students should contact Disabled Student Programs and Services at (661) 395-4334.

Unlawful Discrimination
A complaint of alleged unlawful discrimination may be filed within one year of the alleged discrimination. For complaint forms or additional information, contact one of the following:

Human Resources Manager
1801 Panorama Drive
Bakersfield, CA 93305
(661) 395-4850

Additional inquiries pertaining to federal, state, and local equal opportunity laws, and the governing board policies of Bakersfield College or Kern Community College District (KCCD Board Policy Section 7-D) may be directed to the following office:

Vice Chancellor, Human Resources
Kern Community College District
2100 Chester Avenue
Bakersfield, CA 93301
(661) 336-5141

Declaración De Igualdad de Oportunidad
De acuerdo con los requisitos de la acta de derechos civiles, Bakersfield College provee servicios y beneficios a todos estudiantes sin impedimento de raza, color, origen nacional, raza, género, edad, religión, estado civil, condición marital o impedimento.

La falta de capacidad de hablar inglés no ser un obstáculo por la admisión vocacionales. (Título VI y VII del Acto Civil Derechos Civiles de 1974; Título IX de los Enmiendas de Educación de 1972; las Secciones 503 y 504 del Acto de Rehabilitacion del 1973, como modificado.)

Toda persona tiene el derecho de solicitar admisión y completar un programa educativo en Bakersfield College. No se tolera interferencia alguna con el acceso y termino exitoso de su educación a ninguna persona o estudiante por medio de conducta discriminatoria ilegal. El colegio iniciara acción disciplinaria contra las personas que sean descubiertas interferiendo con la educacion de los estudiantes por medio de cualquier forma de intimidacion ilegal o inmoral.

Discriminación Ilegal
Una queja de discriminación ilegal supuesta se puede ser registradadentro del termino de un ano de ocurrida la supuesta discriminación. Para obtener formas de quejas o información adicional usted puede ponerse en contacto con la siguiente persona:

Human Resources Manager
1801 Panorama Drive
Bakersfield, CA 93305
(661) 395-4850

Para preguntas adicionales referente a las leyes accion afirmativa y igualdad de oportunidad, ya sean al nivel federal, estatal, o local, y referente a la política del consejo de gobierno de Bakersfield College o del Distrito Escolar de la Comunidad de Kern, puede ponerse en contacto con siguiente oficina:

Vice Chancellor, Human Resources
Kern Community College District
2100 Chester Avenue
Bakersfield, CA 93301
(661) 336-5141

Policy Concerning Sexual Misconduct
Bakersfield College is fully committed to all federal, state, and local human rights and equal opportunity laws. Title VII of the Civil Rights Act of 1964, amended 1991, and Title IX of the Educational Amendments of 1972 are strictly enforced. This legislation specifically prohibits sexual discrimination in employment, educational programs, and services respectively.

Students have the right to gain access to and complete an educational program at Bakersfield College. Interference with students’ admission to and successful completion of their education by any person through unlawful sexual conduct will not be tolerated. The college will initiate disciplinary action against persons found to have interfered with a student’s education through any means of sexual harassment or intimidation. Bakersfield College has a zero tolerance policy against any sexual misconduct instances. For more information and resources regarding the Title IX process and sexual misconduct at Bakersfield College, please visit the Title IX web pages.

Board policy sets forth complaint procedures regarding unlawful discrimination and sexual harassment. Students should refer to Section 7-D of the board policy for further information. The board policy can be obtained from the KCCD website.

Póliica con Respecto a la Mal Conducta Sexual
El Colegio de Bakersfield está totalmente comprometido con todos los derechos humanos federales, estatales y locales y las leyes de igualdad de oportunidades. Título VII de la ley de derechos civiles de 1964, enmendado 1991, y el Título IX de las enmiendas
educativas de 1972 se aplican estrictamente. Esta legislación prohíbe específicamente la discriminación sexual en el empleo, los programas educativos y los servicios, respectivamente.

Los estudiantes tienen el derecho de tener acceso y completar un programa educativo en el Colegio de Bakersfield. No se tolerará la interferencia con la admisión de los estudiantes y la terminación de su educación por cualquier persona a través de la conducta sexual ilícita. El Colegio iniciará acciones disciplinarias contra personas acusadas que han interferido con la educación de un estudiante a través de cualquier medio de acoso sexual o intimidación. El Colegio de Bakersfield tiene una póliza de cero tolerancia contra cualquier caso de mala conducta sexual. Para obtener más información y recursos sobre el proceso del Título IX y la mala conducta sexual en el Colegio de Bakersfield, por favor visite las páginas web del Título IX.

La póliza establece procedimientos de quejas sobre la discriminación ilegal y el acoso sexual. Los estudiantes deben referirse a la sección 7-D de la póliza para más información. La póliza se puede obtener en el sitio web KCCD.

**Student Conduct**

The Board of Trustees of the Kern Community College District, in support of public education and the exercise of general supervision of the campuses of the district, believes that student conduct must reflect the standards of good behavior expected by society. Since public education is furnished by the people of the district, it becomes a privilege for students to have this opportunity to further their education.

When working with student complaints, sexual harassment, discrimination, students with reported behaviors, academic integrity, or students of concern, the Office of Student Life at Bakersfield College reviews, investigates, and works with each student case carefully while integrating several student development theories that model after the restorative justice practices. The fundamental premise of restorative justice practices is to engage with the student to lead to a helpful outlook, more cooperative and productive interactions, with students becoming more likely to make positive changes when the Office of Student Life and the Bakersfield community interact with them. It has a greater impact on student learning and success than the typical punitive models.

The Office of Student Life approaches restorative justice with five objectives in mind to assist the student through their development.

1. Reflecting with the student in question about their purpose through self-authorship giving them constructive instruction that allows for self-reflection and clear understandings of self-beliefs.
2. Aiding the students to self-acknowledge their responsibility and resulting in a willingness to gear their situation toward a positive outcome.
3. Providing and connecting students to various on and off campus resources in hopes to achieve positive student success.
4. Assisting the students in connecting their energies and interests with meaningful activities.
5. Finding closure while supporting the students through facing their consequences, learning from their situation, and moving past it for future success.

Taking a restorative justice approach requires a philosophical shift and personable professional to interact with the students, parents, faculty, and the community to repair the balance back into the students’ life, rather than simply following protocol and penalizing. Students are expected to observe a proper standard of conduct, showing such respect for order, morality, personal honor and the rights of others as demanded of good citizens. Failure to do so will be sufficient cause for disciplinary action.

The Student Code of Conduct and the Student Conduct Policy are available in the Office of Student Life, Campus Center 4, or online at Bakersfield College Student Conduct.

**Students of Concern (SOC) Statement**

This team of professionals meet weekly to discuss specific student cases that have been brought to attention (through instructors, early alerts, student conduct, Title IX, etc.), attended trainings and certification courses on best practices, and begun developing procedures (referral processes, suicidal student protocols, expanded informed consent, etc.) to respond to student needs. In the future, the team will begin to provide professional development to help address student concerns and how to refer students to the team. For more information, please contact any of the members of the team.

The Office of Student Life hosts graduate students who attaining their master’s in social work. They are student interns working for Dr. Nicky Damania in the Office of Student Life. Their main mission is to help students to succeed by providing wrap-around services to college students by connecting them to public benefits, institution and community resources, and addressing non-academic barriers that may hinder a student from achieving academic success. They are part of the college’s response team and are mandatory reporters. They also are standing members of the Students of Concern (SOC) team who meet weekly with other BC Staff members to discuss issues that may affect a student’s well-being and self-efficacy such as fair and equal access to financial aid services, employment, disability, and health services.

**Student Complaint Process**

The Student Complaint Procedess is established so that students can resolve difficulties/problems they encounter in College-related activities. The Student Complaint policy is designed to consider an alleged wrong against a student. Efforts will be made to resolve a complaint in a timely and fair manner. Students who contend they have been treated unfairly have the right, without fear of reprisal, to use a written procedure in their attempt to right an alleged wrong.

Student complaints are taken seriously; therefore, the complaint must be of a compelling, substantive, and verifiable nature. Repeated filings of the same complaint, filings of a frivolous nature, or capricious complaints against school personnel will be considered abuse of the student conduct and/or complaint process. Such repeated filings will be referred to the College President for a decision.

If a student feels that there was some injustice from a faculty or staff member, the student can complete the Student Complaint Form. For specific guidelines regarding the complaint process, see Policy 4F10 of the KCCD Board Policy Manual. As laid out in the KCCD policy, the student must first talk to the head of the department and/or respective Dean BEFORE submitting the completed form to the Office of Student Life. Once the student has spoken to either individual and has not received a desired resolution, the Director
of Student Life will assist the student in the process with the completed intake form. This form is only an intake form to start a conversation with parties involved. Submitting this form does not start the KCCD Student Complaint Level I compliant process.

Students with Disabilities
Bakersfield College will make reasonable accommodations and/or academic adjustments to ensure that students with disabilities have an equal opportunity to participate in the college's courses, programs and activities, including extracurricular activities. Students with disabilities who are requesting academic accommodations or auxiliary aids should contact Disabled Student Programs & Services at (661) 395-4334. For DSPS services at the Delano Campus, please contact (661) 720-2000. Participation by students with disabilities in Disabled Student Programs & Services is voluntary. Any student choosing not to participate in the program may elect an alternate path for services through the Vice President, Student Affairs.

The Bakersfield College Curriculum Committee approved the following Accessibility Statement: Bakersfield College recognizes the importance and benefits of using technology to enhance student learning, especially as it helps students, faculty and staff communicate more effectively. Every effort will be made to ensure that the design of instructional material and activities for ALL classes taught at Bakersfield College, both face-to-face and at a distance, are accessible to all students, including those with disabilities.

Estudiantes Incapacitados
Bakersfield College proveerá servicio y/o arreglos académicos para asegurar que estudiantes incapacitados tengan oportunidades iguales para participar en las clases de esta escuela, incluyendo actividades extraescolares. Tales estudiantes que piden arreglos o aparatos auxiliares deben llamar a Disabled Student Programs and Services a (661) 395-4334. Participación es voluntaria. Estudiantes que no desean participar en este programa pueden ponerse en contacto con la oficina del Decano de Aprendizaje/Servicios Auxiliares.

Access to and Confidentiality of Student Records: Privacy Act
Student records are protected by the Family Educational Rights and Privacy Act (FERPA), state law, and Kern Community College District Board Policy from access by casual or unauthorized persons. Access to records is provided to the student; appropriate college staff members, persons having written consent of the student, officials of the United States Department of Education; or by court order or subpoena.

The Privacy Act affords Bakersfield College the right to release such directory information as the student's name, address, e-mail address, photographs, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended. If a student does not want this information released, the student must check the privacy requested box on the admission/update forms.

Present and former Bakersfield College students are given the right to inspect, review, and challenge the contents of all educational records related to them. No information contained in their educational records may be released without their consent, except to those agencies or individuals authorized by the Act. Students wishing to inspect, review, or challenge any of their educational records must make a request in writing to the Director of Enrollment Services, (661) 395-4301, Room A-17E. Copies of the Bakersfield College FERPA Policy are available in the Office of Admissions and Records in the Administration building, room 7.

Student Right to Know
In compliance with the Student Right-to-Know (SRTK) and Campus Security Act of 1990 (Public Law 101-542), it is the policy of our college district to make available its completion and transfer rates to all current and prospective students. Beginning in Fall 2010, a cohort of all certificate-, degree-, and transfer-seeking first-time, full-time students were tracked over a six year period. Their completion and transfer rates are listed below. These rates do not represent the success rates of the entire student population at the College nor do they account for student outcomes occurring after this six-year tracking period.

Based upon the cohort defined below, a Completer is a student who attained a certificate or degree or became ‘transfer prepared’ during a six year period, from Fall 2010 to Spring 2016. Students who have completed 60 transferable units with a GPA of 2.0 or better are considered ‘transfer prepared.’ Students who transferred to another post-secondary institution, prior to attaining a degree, certificate, or becoming ‘transfer prepared’ during an eleven semester period, from Spring 2011 to Spring 2016, are transfer students.

The table below compares BC’s Completion and Transfer Rates to the statewide community college average.

These rates do not represent the completion and transfer rates of the entire student population at Bakersfield College nor do they account for student outcomes occurring after the three-year tracking period. For further information on SRTK methodology, interpretation and rates at other community colleges, you can visit the CA Community College Chancellor’s Office web site.
Matriculation Steps

As a new student…
If you have received a two-year or higher degree from another college but are new to Bakersfield College (BC), you are exempt from the requirements for orientation, assessment, and counseling. All new students who are not exempt must complete the steps below before they can register for classes.

**Step 1 — Admission or Update**
The first step to higher education success is to apply online to attend Bakersfield College (see Bakersfield College Steps):

New Students:
Apply for BC on Open CCCApply, the California statewide web portal that houses the BC application. The following is required:

1. Create an account with CCCApply with your valid email address.
2. Complete the Bakersfield College application. If you do not finish the application completely, you can save your place. Then, return to CCCApply and login again to continue where you left off.
3. After you submit your application and reach the confirmation page, click Continue and then click Activate Your College Account to receive your BC ID and setup your BC Email.

Allow one (1) to three (3) business days to process your application. You will receive an email (also check your spam or junk folder) at the address you provide with information on how to access your BC Student Account. If you do not receive an email response within 3 business days or if you are encountering errors, please contact Admissions & Records at bcadmissions@kccd.edu or (661) 395-4301.

International students holding visas must contact the International Counselor in the Advising and Counseling Office, see the International Students web page.

**Step 2 — Orientation**
The Orientation formally introduces you to BC. Register online for the in-person Orientation, or complete the Orientation online. Orientation schedules can be found on the Bakersfield College Orientation web page.

**Step 3 — Testing and Placement Testing**
Students must participate in placement testing and are strongly advised to prepare for your placement tests in math, reading, and English. These classes are the foundation for all other classes here at BC.

Take the Placement Test at the Testing and Placement Center anytime during their business hours with your photo ID and your BC ID or SSN. Practice tests are available online. Visit the Prepare for Your Assessment Test page.

Students can request accommodations for disabilities by calling (661) 395-4334.

As a continuing student…
Continuing students are enrolled in current semester classes.

Update
Submit update form online at insidebc.

Plan:
(Counseling)
• Individual advising appointment
• SEP workshops
• Student Development courses
• Follow-up Services

As a returning student…
Returning students have been enrolled in Bakersfield College classes in the past, but not in the current semester.

Update
If you attended Bakersfield College before 1987, complete your admissions form as a new student. If you attended Bakersfield College in 1987 or after, complete the update form online at insidebc.

Orientation
Complete if you have not already attended orientation. If you have never attended an orientation, you are expected to participate in orientation before placement testing. Orientation schedules can be found:

• on Orientation web page
• in Admissions & Records on the Panorama Campus or the Delano Campus

Placement Testing
Complete if you have not already taken the Bakersfield College placement test. If not, you must participate in assessment if you plan to:

• take an English, math, or other class with prerequisites
• earn a degree
• earn a certificate
• transfer

Find Placement information online.
Admission and Registration

Academic Eligibility
A high school graduate, or anyone who has a Certificate of Proficiency or a General Education Development degree (GED) may be admitted to Bakersfield College.

Any person 18 years of age or older who is not a high school graduate may be admitted if his/her previous training or experience indicates that he/she will profit from the offerings of the college. Such students must have the approval of the Director of Enrollment Services.

Special Status Admission/Concurrent Enrollment/Dual Enrollment
In accordance with California Education Code regulations, K-12 students may enroll as special part-time students on a seats-available basis. Enrollment must be recommended by the high school principal, have parental consent, and receive approval by the college Director of Enrollment Services. Units earned may be used for high school or college credit or both. Students enrolled under this program are exempted from paying enrollment fees. Concurrent students may not register for courses below college level. Non-resident fees may apply.

Residency Determination
A 'resident' is a student who has physical presence in the state of California for more than one year immediately preceding the residence determination date, which is the day before the first day of classes, and has demonstrated an intent to make California a permanent home.

The resident of any California community college district may attend a community college in any other district in this state, subject to generally applicable admission criteria, and subject to any restrictions set forth in a notice of restriction issued by a district.

In order to determine a person’s place of residence, reference is made to the following statutory rules:
1. Every person has, in law, a residence. However, not all in the United States.
2. Any person who is married or is 18 years of age or older and under no legal disability to do so, may establish residence.
3. In determining the place of residence the following rules are to be observed:
   a. There can be but one place of residence.
   b. A residence is the place where one retains when not called elsewhere for labor or other special or temporary purpose, and to which he/she returns in seasons of repose.
   c. A residence cannot be lost until another is gained.
   d. The residence can be changed only by the union of act and intent.
   e. A person’s residence shall not be derivative from that of his or her spouse.
   f. The residence of the parent with whom an unmarried child maintains his/her place of abode is the residence of the unmarried minor child. When the minor lives with neither parent, his/her residence is that of the parent with whom he/she maintained his/her last place of abode, provided the minor may establish his/her residence when both parents are deceased and a legal guardian has not been appointed.
   g. The residence of an unmarried minor who has a parent living cannot be changed by his/her own act, by the appointment of a legal guardian, or by relinquishment of a parent’s right of control, unless the student qualifies for the self-supporting exception.
   h. Physical presence within California solely for educational purposes does not allow a student to establish residence, regardless of the length of time present in the state.

In general, a resident has citizenship or permanent resident status in the United States and has established residence in California for at least one year immediately preceding the residency determination date (the day before the first day of classes). If you do not have citizenship or permanent resident status in the United States, or have questions regarding your status, please contact the Office of Admissions and Records in the Administration building, room 7 or at (661) 395-4301.

International Students
Students from countries outside of the United States are eligible to attend Bakersfield College if they have the equivalent of U.S. high school diploma, proof of English proficiency as indicated on the International Student Services website, and sufficient financial resources to pay all expenses.

Admissions Form
An admissions form may be completed on the Bakersfield College Apply web page. It must be filed prior to registration. The application should include the prospective student’s Social Security Number. The Social Security Number will not appear on class roll sheets. Students without a social security number, please call (661) 395-4302 for a temporary number before completing the admissions application.

Changing Identification Numbers
All students are assigned an identification number when a completed admissions form is submitted by the Office of Admissions and Records. Students may use the assigned numbers or their Social Security numbers to access their academic records.

Changing Directory Information
Students may change their name by bringing a State issued photo identification and documentation of the name change in person to the Office of Admissions and Records, in the Administration building, room 7. They may change their address, telephone number; or personal email address on the web at InsideBC. To do that, they must login > select MyBanWeb > then select what to update under Personal Information.

Passwords
When prospective students complete their admission forms online, they will be asked to create a password. The password must be 8-20 characters long, and contain letters and numbers. nts should select combinations they will be able to remember but that other people would be unable to know. Please do not add any other symbol.

The first time that students login to register they will be asked to select a security hint question from a drop down menu. They fill in the answer to the question that they select with a one or two word answer. Then, when students forget their passwords, they can
click the “Forgot Password” button, and if they enter the correct response, they will be given a screen on which to enter a new password. If assistance is needed, please call the Help Desk at (877) 382-3508.

Enrollment
All students are required to have an educational/career goal when they fill out their admission form. A student’s educational/career goal is his/her reason for attending college. Bakersfield College is committed to assisting students in successfully reaching their goals. This partnership between the college and the students consists of the following:

The college agrees to provide:
• An admission process
• A testing and placement process
• Academic advising to complete abbreviated and comprehensive educational plans during non-peak times
• Quality instruction
• A wide variety of courses
• Referral to support services as necessary
• Follow up services for academic progress

The college requires that students:
• Complete testing and placement
• Declare a specific educational objective or career path
• Create an abbreviated educational plan for their first semester
• Create a comprehensive educational plan after completing 15 units of course work
• Attend classes regularly
• Complete courses and maintain progress toward an educational/career goal as identified in the individual student education plan
• Seek out support services as needed

Placement
(661) 395-4479
Testing and Placement online
Academic skills assessment is designed to determine students’ entry level skills in reading, writing, mathematics, and English as a Second Language. Placement testing may be waived by providing proof of eligibility for admission to a California State University with the appropriate combination of ACT and SAT scores and high school grade point average.

Placement Testing Policy for Students with Disabilities
(661) 395-4334
Persons with disabilities who might require testing accommodations should contact Disabled Student Programs and Services. In compliance with federal and state laws, Bakersfield College assures each student an equal opportunity to demonstrate competency or knowledge in a subject area at each point in the educational process. Students with disabilities are expected to demonstrate the same competency or knowledge as other students.

Accommodations are made on an individual basis. Such accommodations may include, but are not limited to, an extension of time, the use of a computer, the use of a calculator, and, where appropriate to the disability, an alternative mode of assessment. These tests take place in the Testing and Placement Center.

Procedures
1. Discuss your need for special testing accommodations with each instructor at the beginning of the semester. If requested, show your instructor a copy of your approved Accommodations Checklist. It is not necessary for you to discuss the details of your disability with your instructor unless you want to. It may be best to see your instructor during office hours.

2. One week before each test, pick up a copy of the Test Accommodations Form from the Testing and Placement Center located in the Finlinson Center. Provide the form to the instructor to complete their portion, then return it to the Testing and Placement Center at least 3 days before the test. If you have any questions, call (661) 395-4735.

3. If possible, remind your instructor of special testing arrangements before the test.

4. You may be required to take the test on the same day as the rest of your class, unless other arrangements are made.

5. Once you begin the test, you will not be allowed to leave the testing area until the test is completed. You should discuss any personal needs with the Accommodations Coordinator ahead of time.

6. Your completed test will be returned to the instructor according to the arrangements detailed on the Test Accommodations Form.

Students with Disabilities
Bakersfield College will make reasonable accommodations and/or academic adjustments to ensure that students with disabilities have an equal opportunity to participate in the college’s courses, programs and activities, including extracurricular activities. Students with disabilities who are requesting academic accommodations or auxiliary aids should contact Disabled Student Programs & Services (DSPS) at (661) 395-4334. For DSPS services at the Delano Campus, contact (661) 720-2000. Participation by students with disabilities in Disabled Student Programs & Services is voluntary. Any student choosing not to participate in the program may elect an alternate path for services through the Vice President, Student Affairs.

Estudiantes Incapacitados
Bakersfield College proveerá servicio y/o arreglos académicos para asegurar que estudiantes incapacitados tengan oportunidades iguales para participar en las clases de este colegio, incluyendo actividades extraescolares. Tales estudiantes que pidan arreglos o aparatos auxiliares deben llamar a Disabled Student Programs and Services a (661) 395-4334, o al (661) 720-2000 para el campus en Delano. Participación es voluntaria. Estudiantes que no deseen participar en este programa pueden ponerse en contacto con la oficina del Decano de Aprendizaje/Servicios Auxiliares.

The Bakersfield College Curriculum Committee approved the following Accessibility Statement: Bakersfield College recognizes the importance and benefits of using technology to enhance student learning, especially as it helps students, faculty and staff communicate more effectively. Every effort will be made to ensure that the design of instructional material and activities for ALL classes taught at Bakersfield College, both face-to-face and at a distance, are accessible to all students, including those with disabilities.
Pre-collegiate Pathways

Math Placement
New students are placed into a mathematics course one of the following ways:
- Completing the prerequisite class in the flowchart below
- Through the Bakersfield College Math placement test
- By earning “Ready for CSU college-level math courses” status on the EAP exam
- By passing the AP Calculus AB exam or AP Statistics exam with a score of 3 or above
- Submitting results from completed math assessment taken at another California community college
- By earning a ‘C’ or better grade in a mathematics course taken at another college or university AND submitting an official college/university transcript to admission and records office

Math Course Progression
Courses listed in ascending order (level 0 - 06+).
Students must meet eligibility for courses through prerequisite completion or placement level by the college.
Students completing a course that fulfills a certain level will meet eligibility requirements for the next level, unless noted.

Placement Level

0

01

02

03

04

05

06

TRANSFER LEVEL
Level 04 and higher

Students pursuing an Associate's Degree without transfer need to complete one of the following:
- MATH B70 or TECM B52
- 2 years of high school algebra
- Have an equivalent placement score

Students pursuing an Associate's Degree with transfer or pursuing transfer without a degree need to complete:
- Minimum of one transfer level math course (level 04 or higher)
*Specific math course is dependent on major
*Some majors and/or transfer institutions require more than one transfer level math course
English Placement
New students are placed into an English course one of the following ways:
- Completing the prerequisite class in the flowchart below
- Through the Bakersfield College English placement exam
- By earning “Ready for CSU college-level English courses” status on the EAP exam
- By passing the AP English Language or Literature Composition Exam with a score of 3 or above
- Submitting results from completed English assessment taken at another California public college or university
- By earning a ‘C’ or better grade in an English course taken at another college or university AND submitting an official college/university transcript to admission and records office

English Course Progression
Courses listed in ascending order (level 02 - 06). Degree applicable and transfer level = 06.
Students must meet eligibility for courses through prerequisite completion or placement level by the college.
Students completing a course that fulfills a certain level will meet eligibility requirements for the next level, unless noted.

Completing ENGL B1A or LRNC B530 (C or better) satisfies the degree/transfer requirement for English Composition/Written Communication.

Reading Placement
Many college level courses have reading prerequisites. New students are placed into the reading series which includes traditional and accelerated coursework to help students succeed in all their courses.

Reading Course Progression
Courses listed in ascending order (level 02 - 06). Degree applicable and transfer level = 06.
Students must meet eligibility for courses through prerequisite completion or placement level by the college.
Students completing a course that fulfills a certain level will meet eligibility requirements for the next level, unless noted.

Completion of level 05 reading satisfies all reading competency requirements for degree/transfer level courses.
General Information

Policy for Students whose Primary Language is Not English
Persons whose primary language is not English are encouraged to take the English as a Second Language assessment in the Testing and Placement Center, located at both the Panorama and Delano Campuses. Orientation for students whose primary language is not English is scheduled on both campuses as well.

Exemptions
Only students who have completed an associate degree or higher may be exempt from orientation, assessment, and counseling; however, if a student wishes to enroll in a course that has a prerequisite, he/she must show proof of meeting the prerequisite or take the English, reading, or math assessment.

A student may also decline to participate in the matriculation process, but in so doing relinquishes the right to participate in early registration and may not be able to enroll in courses that have prerequisite requirements. Information is available in the Office of Admissions and Records in the Administration building, room 7, and the Counseling Center in the Center for Student Success (CSS) building.

Students have the right to challenge or appeal any allegation of violation of enrollment regulations. Challenges or appeals should be submitted to the Vice President of Student Affairs.

Course Admission Policy
The policy of the college is that, unless specifically exempted by statute or regulation, every course, course section, or class reported for state aid, wherever offered and maintained by the college, shall be fully open to enrollment and participation by any person who has been admitted to the college and, when applicable, a relevant program, and who meets established prerequisites.

Prerequisites
Many Bakersfield College courses have basic skills or course prerequisites. These prerequisites are established to assist students in selecting courses for which they have the entry level skills. Students who believe that they have the entry level skills without the appropriate placement test score or previous course(s) may challenge the prerequisite. Students have the right to:

1. Appeal a prerequisite course requirement because the required course is not available.
2. Challenge any prerequisite believed to be discriminatory.
3. Challenge any matriculation regulations/procedures that have the effect of being discriminatory based on how the services are applied to students.
4. Be provided alternative services for the matriculation process if necessary for ethnic and language minority students and students with disabilities.

Questions about challenges or appeals for a prerequisite or placement regulation/procedure should be directed to Advising and Counseling in the Center for Student Success (CSS) building.

Student Education Plans (SEPs)
An SEP outlines a suggested course of study for the individual student based on major, transfer plans, and sequence of courses. Students are encouraged to meet with an advisor or counselor or attend an SEP Workshop to develop and update their plan each semester or when a change is made to their major, transfer institution, or other pertinent objectives. Students can make an appointment in the Advising and Counseling Center, located on the lower level of the Center for Student Success (CSS) building or call (661) 395-4421.

Bakersfield College’s educational advising and counseling program’s purpose is to assist students in the development of meaningful educational plans which advance their progress toward a certificate, associate degree, or successful transfer to baccalaureate programs at campuses within either the University of California or California State University systems. The Transfer Center and the Advising and Counseling staff also assist students in identifying and understanding the transfer requirements at private colleges and universities. Additionally, academic advising services assist individuals in need of developmental educational opportunities as well as those who need to retool or retrain. Within this context, advisors and counselors assist students in developing educational plans compatible with a diverse set of career and life goals.

The best time to schedule an appointment for your SEP is:
- Fall Semester: September-October
- Spring Semester: February-March

Students who have completed lower division coursework at other colleges and universities and wish to apply that coursework to completion of a Bakersfield College certificate, associate degree, or to a California State University general education certification, or to an IGETC general education certification should have their transcripts officially evaluated. For more information, visit the Admissions and Records web page.

Early (Priority) Registration Appointments
Bakersfield College recognizes that students who complete all enrollment steps (Orientation, Placement, Testing, Advising and Counseling, and abbreviated and comprehensive Student Educational Plan) are more likely to reach their academic goals. These students are given special registration priority appointments. In order to ensure that students who are progressing successfully toward those academic goals have the opportunity to continue that progress, students who have attempted less than 100 units will be allowed to register earlier than those with over 100 units attempted. For their first semester of registration, students who receive earlier appointments will have completed these enrollment steps. The order of appointment assignments will be as follows:

- Students in special populations such as veterans who have been discharged within the last three years, foster youth, EOP&S, CalWORKS, DSP&S, President’s Scholars, honor’s, MIH program, or athletics.
- Continuing students with less than 100 units attempted at Bakersfield College and prior year graduates of local high schools.
- New students not included above.

Continuing students who have not completed all four enrollment
steps will be assigned appointments during the first few days of open registration based on the date they completed their admission/update forms.

Registering for Classes
All course registration takes place on Bakersfield College’s web registration system. Detailed instructions for the use of this system can be found on the Registration Information web page.

Students must be officially registered or on the official waitlist before attending classes. Registration dates are indicated in the “About the College” section of this catalog and on the Bakersfield College website.

Waitlists
The electronic waitlist allows students to be moved into a class when seats are available. It is a true first-come, first-serve system. Students trying to register for classes that are closed will be able to select waitlist. During the weeks prior to the start of classes, when vacancies occur in classes, the first student(s) on the waitlist will be moved into the class. Students should use the waitlist to ensure themselves a chance of getting into the classes they want.

Students on waitlists still must attend the first meeting of the class or be dropped from the waitlist. The prerequisite, basic skills, time conflict and repeat checks will prevent ineligible students from moving into the classes.

Students waitlisted for a class should check InsideBC regularly. When status changes to registered, the student will have ten days to pay for the class. Students are not charged enrollment fees for waitlist classes until they are actually enrolled in the class.

Students should drop themselves from a waitlist for any class that they no longer wish to take.

Maximum Study Load
Students may enroll in a maximum of 19 units per fall/spring semester and 7 units in summer. Students with strong academic records may be cleared to enroll in more units by completing an overload request form in the Counseling Center.

Minimum Study Load
Students must enroll in a minimum study load in order to meet certain qualifications such as:
1. Certification as a full-time student to the Department of Health and Human Services: 12 units.
2. Approval by the Veterans Administration for training under Chapter 31, 32, 33, 34, 35 or 1606, Title 38 U.S. Code.

3. F-1 Visa (international) student status: 12 units.
4. Eligibility to participate in intercollegiate athletics: 12 units (Repeated courses, previously passed with a C or higher cannot be counted.)
5. Student athletes must maintain a C average (2.0 grade point average) or higher.
6. Eligibility to participate in student government as an officer: 5 units.

Academic Success and Progression
According to the Kern Community College District Board of Trustees Board Policy Manual section 4C6, students must display academic progress in order to graduate from a program of study or meet minimum requirements for prerequisites.

4D1C - 18 units of study must be completed in a discipline or from related disciplines as listed in the Community Colleges Taxonomy of Programs. Each course counted in this section must be completed with a grade of ‘C’ or better, or a ‘P’ if the course is taken on a pass/ no pass basis.

4D1D - 18 semester units of general education must be completed and shall include at least 1 course in each of the following areas:
1. Natural Sciences
2. Social and Behavioral Sciences
3. Humanities
4. Language and Rationality

A course designated by each College as meeting the Ethnic Studies requirement must be taken in at least one of these 4 areas. Courses counted to meet this general education requirement must be completed with a grade point average of 2.0 or better.

4D2B2 - The colleges may award locally approved certificates with fewer than 18 units that certify that a student has completed a credit course or a sequence of credit courses to meet documented workplace needs/ standards by demonstrating a level of knowledge, skill(s), and ability(ies) sufficient to earn a minimum grade of ‘C’ in each required course.

Repeating a Course
Certain Bakersfield College courses are identified in the course description sections of the catalog as repeatable, with the number of times they may be repeated indicated.

Other courses may be repeated once for credit if a grade lower than ‘C’ or its equivalent has been earned. The original and subsequent grades will remain a part of the student’s permanent record. The earlier attempts will be disregarded in the student’s GPA calculation.

If a student earns any combination of ‘D’, ‘F’, or ‘W’ on two attempts in a course taken in the Kern Community College District, that student can only register for a third time with the signature of the faculty chair of the department on a Request to Repeat a Course Beyond the Limit form. This form is available from the Office of Admissions and Records in the Administration building, room 7.

In compliance with Title 5 California Code of Regulations Section 56029, certain course repeats may be authorized for students with disabilities following DSPS policies and procedures.

Courses may also be repeated if the previous grade is at least in part a result of extenuating circumstances such as verified cases of illness, accidents, or other circumstances beyond the control of the student. Approval to repeat under these circumstances should be obtained prior to registration in the Office of Admissions and Records in the Administration building, room 7. In these circumstances, the previous grade will not be disregarded in the calculation of the GPA.

A student may repeat a course to meet a legally mandated training requirement as a condition of continued paid or volunteer
cumulative semester units shall be placed on academic probation.

The college can provide no assurance that repeated courses will be treated in a similar manner by other educational institutions.

Remedial Coursework Limitation
Remedial coursework refers to precollegiate basic skills courses defined as courses in reading, writing, computation, learning skills and English for Multilingual Students, which are designated as non-degree credit courses. No student shall receive more than thirty (30) semester units of credit for remedial coursework within the Kern Community College District, except for the following:
1. Students currently enrolled in one or more courses of English as a Second Language
2. Students identified by Bakersfield College as having a qualifying disability

Auditing a Course
Students who have been admitted to the college may enroll in courses as auditors with the permission of the instructor and subject to the following provisions:
1. Priority shall be given to students who wish to take the course for credit.
2. A student in a course shall not be permitted to change from audit to credit status nor from credit to audit.
3. The cost to audit a class is $15 per unit. (Students enrolled in 10 or more other units will not be charged this fee.)
4. A course audit shall be approved under only one of the following conditions:
   • Participation by audit serves a specific educational purpose necessary to achieve the student’s educational goal
   • Participation by audit benefits other registered participants in performance arts or intercollegiate athletics courses
5. The course instructor and College President or designee shall approve audit enrollments.

Course Audit Forms are available in the Office of Admissions and Records in the Administration building, room 7 beginning on the first day of class.

Holds that Prevent Registration
Financial Holds
Holds may be placed on a student’s record whenever that student is delinquent or has failed to pay any debt owed to the college or failed to return any library books or other college property or equipment. Students with holds will not be allowed to receive transcripts, certificates or diplomas; have transcripts forwarded; and/or receive other services related to student records. They may not be allowed to register. When the student has cleared the obligation with the Office of Business Services at Bakersfield College, the hold will be removed.

Academic Standing
A student who is not in good academic standing will have a hold placed on his/her record until he/she attends an online workshop to make plans to improve his/her grades. These holds will prevent registration.

Probation
Academic Probation—A student who has attempted at least 12 cumulative semester units shall be placed on academic probation when he/she has earned a cumulative semester grade point average below 2.0.

Progress Probation—A student who attempted at least 12 cumulative semester units shall be placed on progress probation when the percentage of all units for which entries of ‘W’, ‘I’, NC and ‘NP’ reaches or exceeds 50 percent.

Students transferring from other collegiate institutions will be placed on probation according to these same standards.

Students on probation may be limited to specific courses and to the number of units for which they may register. The academic status of each student is printed on the student transcript which is updated at the conclusion of each academic term.

Removal From Probation
A student on academic probation for a grade point deficiency shall be removed from probation when the student’s cumulative grade point average reaches 2.0 or higher.

A student on progress probation shall be removed from probation when the percentage of ‘W’, ‘I’, NC and ‘NP’ units falls below 50 percent.

Disqualification
Any student who is placed on academic probation for three consecutive semesters of enrollment shall be disqualified for admission to classes the following semester unless, during the last semester of enrollment, the student earned a grade point average of 2.0 or higher, in which case the student shall be placed on continued probation.

Any student who is placed on progress probation for three consecutive semesters of enrollment shall be disqualified for admission to classes the following semester, unless during the last semester of enrollment, the percentage of units with entries of ‘W’, ‘I’, NC and ‘NP’ was less than 50 percent, in which case the student shall be placed on continued probation.

Reinstatement
A student who is disqualified may be ineligible to attend Bakersfield College. The student may be conditionally readmitted the following semester upon petition to the Advising and Counseling Center.

Administrative Hold
If a student is not in good standing with the college, or has any incomplete sanctions due to a student conduct matter, an administrative hold may have been applied. The hold will prevent students from registering, obtaining a transcript or diploma, making a change to a schedule, or processing an application for admission. To remove this hold, visit the Office of Student Life, Campus Center Room 4, (661) 395-4614.

A readmitted student may be restricted to specific courses or programs, and a limitation will be placed on the number of units attempted. Reinstatement application forms may be obtained in the Advising and Counseling Center, located on the lower level of the Center for Student Success (CSS) building.

Alternate Class Formats
Distance Learning
(661) 395-4635
Distance Learning consists of courses offered from a wide variety of disciplines using non-traditional delivery methods: interactive, online, and hybrid. Dependent upon semester scheduling, Distance Learning provides additional educational options to anyone seeking a college education: students dealing with family and/or job commitments, time limitations or transportation difficulties, individuals willing to explore a less traditional presentation of course content, and students who choose to not come to campus for traditionally presented classes. Regardless of the mode of delivery, students receive the same course content described in the catalog and will have the same course expectations.

Bakersfield College offers a variety of online courses, allowing students to self-select classes free of any geographic and time boundaries. It is vital that students have a basic understanding of computer usage, dependable access to the internet, and know how to send and receive e-mail.

Bakersfield College interactive courses connect with classrooms on the Delano Campus, 35 miles north of Bakersfield. Interactive classes may also connect with classes at Porterville College and/or Cerro Coso Community College. Instructors may teach from an origination site at any of the campuses, using real-time two-way video/two-way audio technology. Students benefit from interactivity with students enrolled at one or more remote locations.

Hybrid courses use the internet as the predominate delivery method combined with traditional face-to-face classroom sessions. Students must be able to come to the main Bakersfield College campus for an orientation session during the semester as well as have access to and be able to use the internet.

**Learning Communities, Compressed, and Accelerated Courses (661) 395-4433**

Bakersfield College offers learning communities, compressed and stacked, and accelerated courses. All give students the opportunity to develop necessary college skills and complete courses while gaining individual support within an organized group of learners.

In a learning community, students are enrolled in two linked courses, with the same cohort, or group of students. In a learning community, the courses may have a theme, such as the African-American Experience Learning Community, which is part of the Umoja African-American Success through Excellence and Persistence (STEP) program. In a compressed and stacked course, two sequential courses are combined, which allows students to complete sequential courses in one semester instead of two or more. Typically, the content of a single course is compressed into an eight-week segment, which is followed immediately by the next course in the sequence, also taught in a compressed format for eight weeks. Notably, students register for the two sequential courses or two linked courses at the start of the semester, but will earn credit for both classes once they complete the sequence.

Bakersfield College continues to offer a variety of learning communities and compressed and stacked courses that combine a variety of courses, most typically in English, math, and study skills. At least one option is offered each semester. Check the schedule of classes under a learning community search to locate the most current learning community and compressed and stacked courses being offered.

An accelerated course is a redesigned course that is open to students who test into more than one level, and that includes increased support. Currently, students at the English placement level of 04 (English 60) or 05 (English 50) level are eligible to take English B53. In this course, students will strengthen their critical thinking and their ability to develop arguments at the college level, and those who are successful in English B53 will be eligible for ENGL B1A. Check the schedule of classes under English to find available sections of English B53.

**Basic Skills/Precollegiate Coursework**

Basic skills courses teach fundamental skills in reading, writing, computation, and study skills that are applicable to any area of study. They provide open access, support services, basic skills courses, resources, and equipment and technology to California Community College students. Basic skills courses are offered in the Academic Development (ACDV), English (ENGL), English for Multilingual Students (EMLS), and Mathematics (MATH) Departments.

The term “Basic Skills” comprises many areas. The essence of college in general, and basic skills in particular, is to develop skills which will allow students to think abstractly, understand complex concepts, synthesize information, solve multi-step problems, read books and articles, communicate effectively, and leave college with the ability to live, work, and become involved in issues and activities within the community (Winston, R. “Basic Skills: the Promise of Access for California Community College Students,” FACCCCTS, Spring 2007: 17-18. Print).

Incoming Bakersfield College students take computerized placement tests that determine their entry levels in reading, writing, and mathematics. Students are encouraged to take their Academic Development, English, Reading, and Math courses early in their college career, as research shows that basic skills courses improve student success rates.

State regulations set a maximum of 30 units for basic skills courses taken by any student. If a student’s skills are such that more than 30 units will be required to reach college level, that student will be counseled regarding other possible ways to build those skills. Exempted from the 30-unit limitation are students enrolled in English for Multilingual Students (EMLS) courses and students identified as having a disability.

**Delano Campus (661) 720-2000**

The Delano Campus provides the community with access to Bakersfield College programs and services. Students live in Delano and the rural communities of northern Kern and southern Tulare counties. Day and evening general education, transfer and vocational courses are available to help students obtain an Associate of Arts degree or technical certification. Student and instructional support services include Counseling, Financial Advising, Educational Advising, Assessment Testing, Disabled Student Programs and Services, Extended Opportunity Programs & Services, Computer Lab, Multi-Subject Tutoring, Admissions, Registration and more. The Delano Campus is located at 1450 Timmons Avenue, Delano, California.

**Weill Institute Compliance School and Entrepreneur School (661) 336-5010**

The Weill Institute is located in downtown Bakersfield at 21st Street and Chester Avenue (with parking and main entry in the parking
lot off of L Street). The evening instructional program provides a variety of vocational, general education, and transfer courses. Both semester-length and short-term courses are available.

**Weill Institute Business Center**  
(661) 395-4104
The Weill Institute Business Center provides economic and workforce development services. The needs of business, industry and the workforce are met with a highly-skilled staff that provide customized training, job skill assessment, bilingual training, performance consulting, organizational development, and many other services. The Business Center also operates the California Compliance School and the Regional Environmental Business Assistance Center.

Also located at the Weill Institute Business Center is the Business Assistance Center, which operates under grants from the U.S. Small Business Administration, the Chancellor’s Office of California Community Colleges, and other agencies. The Business Assistance Center offers free counseling to small business owners and individuals interested in starting a business in Kern, Inyo, and Mono counties. Affordable seminars and workshops are held on a regular basis for practical guidance in owning and operating a small business.

**College Fees, Tuition, Books, and Fee Refunds**

**Community College Enrollment Fees**
Enrollment fees are set by the state of California. Enrollment fees are $46 per unit for the 2017-2018 academic year. If the state of California increases the fees, a supplemental bill will be sent to all students.

**Nonresident Tuition Fee**
Nonresident students are required by state law to pay tuition in addition to enrollment fees. The tuition fee for nonresident students is $212 per unit up to a maximum of 15 units per semester.

**California Nonresident Tuition Exemption For Eligible California High School Graduates**
A law was passed by the Legislature in 2001 known as “AB 540.” Any student, other than a nonimmigrant alien, who meets all of the following requirements, shall be exempt from paying nonresident tuition at the California Community Colleges, the California State University and the University of California.

**Requirements:**
- The student must have attended a high school (public or private) in California for three or more years.
- The student must have graduated from a California high school or attained the equivalent prior to the start of the term (for example, passing the GED or California High School Proficiency exam).
- An alien student who is without lawful immigration status must file an affidavit with the college or university stating that he or she has filed an application to legalize his or her immigration status, or will file an application as soon as he or she is eligible to do so.

Students who are nonimmigrant [for example, those who hold F (student) visas, B (visitor) visas, etc.] are not eligible for this exemption. The student must file an exemption request including a signed affidavit with the college that indicates the student has met all applicable conditions described above. Student information obtained in this process is strictly confidential unless disclosure is required under law.

Students eligible for this exemption who are transferring to another California public college or university must submit a new request (and documentation if required) to each college under consideration. Nonresident students meeting the criteria will be exempted from the payment of nonresident tuition, but they will not be classified as California residents. They continue to be nonresidents. Nonresident students meeting the criteria will be exempt from the payment of nonresident tuition.

Students meeting the criteria will be classified as AB540. AB540 students will be considered for state aid through the California Dream Act application but not for federal financial aid. Please contact the Office of Financial Aid for details.

To request this exemption, a student must complete the form in the Office of Admissions and Records in the Administration building, room 7. The form and more information can be found on the Admission and Records Forms page. Students may be required to submit additional documentation. Contact the Office of Admissions and Records in the Administration building, room 7 if you have questions.

**Student Health Fee**
A $13 student health fee has been authorized by the Board of Trustees for all students during the fall or spring semester. The fee is $10 for summer session. The purpose of the fee is to make health center services available to all students and to provide greater healthcare educational programming.

The following health fee exemptions are authorized by law:
- Students who depend exclusively upon prayer for healing in accordance with the teachings of a bona fide religious sect, denomination, or organization.
- Students who are attending a community college under an approved apprenticeship training program.

Exemption forms are available in the Office of Admissions and Records in the Administration building, room 7.

**Student Center Fee**
Bakersfield College students shall be assessed a Student Center Fee of $1 per unit for courses on the main campus up to a maximum of $5 per fall semester and $5 per spring semester. The fee shall not be assessed for summer session enrollment.

**Student Representation Fee**
A student representation fee of $1 is charged to all students. This fee will be used by the Student Government Association for:
- Attendance at conferences and meetings of student non-partisan organizations.
- Organizational dues and/or special donations to statewide student organizations or any other recognized student lobby association that works on behalf of community college students.
- Purchase of equipment used for lobbying and/or advocacy such as computers, printers, faxes, modems, software, and accessories.
- Subscriptions to newsletters and/or magazines of higher education.
- Travel expenses for lobbying and/or advocacy for students.
• Leadership training, awareness, and information.
• Hosting non-partisan conferences of legislative issues.

**BCSGA Student Services Program**
The purpose of the Bakersfield College Student Government Association (BCSGA) Student Services Program is to maintain and strengthen existing programs as well as to establish new programs that will enhance the student experience at Bakersfield College. BC students are eligible to receive the BCSGA Student Services or new validation sticker when the student opts to pay a $15 fee each fall and spring semester. Other incentives include: free copies up to 10 pages per semester, free faxing up to 12 pages per semester, 2 free blue books per semester, 10 free Scantrons per semester, and discounts at more than 400 local businesses with the KVC sticker. For more information, contact the Office of Student Life at (661) 395-4355.

**Parking Fees**
Parking is restricted to parking permit holders during all twelve months of the year. A semester parking permit is $40 and a summer permit is $25. Parking permits are not required on weekends. Visitor parking and disabled person parking is enforced at all times. Obtain a student permit on our Parking page.

**Books**
It is estimated that the cost of books and supplies will be $650 to $850 per semester for a 15-unit schedule. Books may be purchased or rented at the college bookstore, which is open year-round except during college holidays.

**Refunds**

*Enrollment and Tuition Refunds*
Enrollment and tuition fees will be credited to the student account, when applicable, for program changes through the first two weeks of the fall or spring semester only. In courses other than semester length, consult the Office of Admissions and Records in the Administration building, room 7, regarding withdrawal and refund deadlines.

To receive the enrollment or tuition refund, a student must apply for the refund in the Business Services Office before the end of the second consecutive semester of non-attendance. Summer session is not considered a semester. If a student does not apply for a fee refund within this time frame, funds will revert to the Kern Community College District.

Should the College cancel a class in which a student is enrolled and there is a reduction in units which results in a lower fee, the student should request a refund through the Business Services Office.

*Student Health Fee Refund*
Health fees will be credited to the student account, when applicable, if all classes are dropped and an enrollment fee credit is generated by the transaction. To receive the health fee refund, a student must apply for the refund in the Business Services Office before the end of the second consecutive semester of non-attendance. Summer session is not considered a semester.

**BCSGA Student Services Program Refund**
Students may decline the BCSGA Student Services during course enrollment. However, those that waive the fee will be placed on a list of those students ineligible to take advantage of many BCSGA sponsored events. To fill out an appeal form, requesting a refund, come to the Office of Student Life (Campus Center, Room 4). Refunds will only be dispersed within the first 2 weeks of the fall and spring semester.

**Attendance Policies**

*Class Attendance*
Regular class attendance is expected of all students enrolled in the College. It is especially important that students attend the first sessions of each class for it is during those classes that instructors may distribute syllabi and course requirements and explain what is expected in terms of attendance. Students enrolled in classes that are full may be dropped by the instructor if they do not attend the first class sessions. Students on a course waitlist should also attend the first class meetings to avoid being dropped.

The attendance policy for each course is established by the instructor and communicated to each class in writing. Attendance policies will be reasonably related to course objectives, the requirements of institutional reporting, and legitimate absences. Instructors are responsible for maintaining accurate attendance and scholarship records.

While it is the responsibility of instructors to communicate attendance policies and to apply them equally to all students, it is the responsibility of students to know the policy in each of their classes and to be aware of their current attendance status. Students who have been absent from a class should notify the instructor of the reason for the absence. Absence in no way relieves students of responsibility for work missed. Excessive absence may result in the student being dropped from the course. After drops of first day absentees and waitlist absentees, instructors may drop a student from a course when absences number the equivalent of two weeks of class recorded from the first day of instruction.

Instructors may give consideration to excusing students from classes to participate in scheduled college activities; e.g. athletics, music, field trips, etc. The student must make arrangements in advance to make up the work to be missed.

Students are responsible for officially withdrawing from any class or classes in which they no longer wish to be enrolled. Non-attendance does not release the student from this responsibility.

*First-Day Drop Policy*
Because many classes become filled and are closed, students in lecture and/or lab courses may be dropped if they do not attend classes during the first two weeks without notifying the instructor.

Students in open entry courses may be dropped if they do not begin attending during the first week of classes.

**Distance Learning Attendance and Non-Participation Policy**
All students enrolled in distance learning courses must log in to each course and complete any assignment or other activity, to be determined by the instructor, that are required during the first week. Students who fail to complete first week assignments/activities within the instructor’s deadline may be dropped.

After the first week and during the time period before the final withdrawal date, students are responsible for officially withdrawing from any class or classes in which they no longer wish to be enrolled. (See the section “Withdrawing from Classes” for additional details.)
The Bakersfield College Attendance Policies: Class Attendance states that “instructors may drop a student from a course when absences number the equivalent of two weeks of class recorded from the first day of instruction.” In the case of distance learning, “absences” shall be defined as “non-participation.” Instructors may drop students after the equivalent of two weeks of non-participation from the first day of class. Non-participation shall be defined as, but not limited to:

- Not following the instructor’s participation guidelines as stated in the syllabus
- Not submitting required assignments
- Not contributing to meaningful discussion in required chat rooms, discussion boards, or other online forums
- Not participating in scheduled activities
- Failure to communicate with the instructor as required

It should be noted that simply logging into the course does not constitute participation. Students must demonstrate that they are actively participating in the course by submitting required assignments, contributing to discussion forums, etc. as outlined above.

**Withdrawing from Classes**

Students are responsible for officially withdrawing from any class section, including lab sections, or waitlist in which they no longer wish to be enrolled. After registration has been completed, and within the withdrawal date guidelines, students may drop a class or classes through the web registration system. Nonattendance or nonpayment does not release the student from this responsibility and may result in a failing grade being awarded.

Within the withdrawal date guidelines, instructors may drop students from a course for nonattendance, disruption, or failure to meet the requirements of the course.

A student who withdraws or is dropped from a semester-length course through the 20 percent date of any term will not have the course included on the permanent record. A ‘W’ will appear on the permanent record for courses dropped between the 20 percent date and the 60 percent date of the term. No ‘W’ grades may be issued after the 60 percent date. In courses other than semester length, consult the instructor or Office of Admissions and Records in the Administration building, room 7, regarding withdrawal date deadlines.

A student may contact the Office of Admissions and Records in the Administration building, room 7, regarding the procedure to drop or withdraw after the final withdrawal date deadline if there are verifiable extenuating circumstances. Examples of verifiable extenuating circumstances may be: accidents, illness, death of an immediate family member, or other circumstances beyond the control of the student. This must be done by the last day of classes and prior to the beginning of the final examination period for the term in which the withdrawal will apply. Withdrawal after the end of the 14th week of the semester (or 75 percent of the semester, whichever is less) when the college has authorized such a withdrawal in extenuating circumstances, after consultation with appropriate faculty, shall be recorded as a ‘W’.

A ‘W’ is not used in calculating grade point averages, but excessive ‘W’ notations will be used as factors in progress probation and disqualification. Students who find it necessary to withdraw from the college are required to return all check-out supplies, equipment and library books, and pay all fines and debts owed the college.

**Transcripts**

Bakersfield College has partnered with Credentials Solutions to accept transcript orders via internet through a secured site. Credentials Solutions is the designated agent for processing and sending official transcripts, including electronic EDI transcripts and PDF transcripts. Credentials Solutions has been granted the authority to deliver all such transcript requests on behalf of Bakersfield College and to respond to any inquiries regarding these transactions.

The first two transcripts (lifetime) a student orders are FREE of charge and processed through Bakersfield College. The fee will be deducted at the end of the order if eligible. [Order your transcripts online.](#)

**Verification of Enrollment**

**Current Semester**

The Office of Admissions and Records in the Administration building, room 7, will complete a verification of enrollment upon written request by the student. A fee of $2 is charged for each verification. The $2 fee is waived for financial aid academic progress verification.

Students are considered a student of Bakersfield College when students have completed the matriculation steps, and have fully enrolled into a course. A student is no longer considered a student when either a student has completed a course of study or has been inactive with Bakersfield College courses for more than 6 consecutive months.

**Past Semester(s)**

Past semester(s) can be verified by ordering an official transcript.

**Student Schedule of Classes**

Individual student class schedules are available on [Inside BC](#).
Student Services

Athletics
(661) 395-4266
Educational Advisor - Athletics
(661) 395-4681
gogades.com

Since 1922, the Bakersfield College Athletic Program has provided student athletes with opportunities to compete for one of the most storied community college sports programs in the country: The Bakersfield College Renegades.

Representing Bakersfield College as an intercollegiate competitor is a privilege that comes with great responsibility. Those wishing to participate must be enrolled in at least 12 units per semester (see educational advisor for details) while maintaining a 2.0 grade point average.

Student Athletes also must attend regular practices in season, travel to out of town competitions, and keep themselves in peak physical condition at the direction of award-winning coaches and certified athletic trainers who specialize in injury prevention. These standards have led to 170 conference titles, 13 state championships, and 10 national championships.

Renegade Student Athletes routinely transfer to four-year National Collegiate Athletic Association (NCAA) and National Association of Intercollegiate Athletics (NAIA) schools, and have gone on to professional careers in Major League Baseball, the National Football League (NFL), the National Basketball Association (NBA), and foreign professional leagues, as well as coaching at every level of athletics.

Bakersfield College currently fields women's teams in basketball, cross country, golf, soccer, softball, swimming, tennis, track and field, volleyball, and beach volleyball. Men compete in baseball, basketball, cross country, football, golf, soccer, tennis, track and field, and wrestling.

Bakersfield College Athletic Program is governed by the California Community College Athletic Association, and is a member of the Western State Conference, Southern California Football Association, and the Southern California Wrestling Alliance.

California Work Opportunities and Responsibility to Kids (CalWORKs)
(661) 395-4351 or (661) 395-4047
BC CalWORKS online

The CalWORKs Program is a state funded program. CalWORKs is designed for students enrolled at Bakersfield College who receive CalWORKs/TANF and are not sanctioned. The program can assist these parents with work opportunities and other educational expenses related to attendance at Bakersfield College.

CalWORKs also provides special services which include: academic, career, and personal counseling; workshops for academic success; work study; holiday celebration/spring picnic; awards/recognition ceremonies. The Bakersfield College CalWORKs Program additionally offers confidential liaison and advocacy between students, the College, the Department of Human Services, and other community agencies.

For additional information on CalWORKs and eligibility for these services, please contact the CalWORKs Office. Interested students must attend an orientation. The Kern County Department of Human Services is also on campus at least once a week during the semester to assist students. The CalWORKs Office is located on the second floor of the Center for Student Success (CSS) Building.

Child Development Center
(661) 395-4368
Child Development Center online

The Child Development Center and State Preschool provide a comprehensive early care and education program that serves college student families and their preschool age children.

Placement in the program follows state guidelines to assign each family a priority rank based on income and family size. First priority enrollment is given to those with documented need for services who are Kern Community College District students working towards a specific profession or career goal.

Our services support and assist student families to successfully complete their college courses and achieve their goals. In addition, the Child Development Center provides demonstration/observation laboratory classrooms for college students majoring in child development, health careers, and other helping professions. Student interns can gain hands-on experience in best practices classrooms working with children under the supervision and direction of our licensed teachers.

The center is primarily funded through the California State Department of Education and is licensed through the California Department of Social Services. All teachers have professional training in child development/early childhood education and are certificated through the California Commission on Teacher Credentialing.

The Child Development Center also has a State Preschool Program on campus offering two part day sessions available to the community. The morning session is 8:30-11:30, and the afternoon session is 12:30-3:30. Both sessions are held Monday through Friday. Lunch is provided for both sessions. Children must be 3-5 years of age and meet state income guidelines.

Find further information and applications on BC’s Child Development Center. Click on Apply Now! Follow the instructions to drop off or mail in the completed application. Applications are also available at the Child Development Center Monday-Friday 7:30 a.m. - 5 p.m.
Academic Counseling and Advising at Bakersfield College is an ongoing, intentional, educational partnership dedicated to student academic success. The college is committed to an academic Counseling and Advising system that guides students to:

- Discover and pursue life goals;
- Support diverse and equitable educational experiences;
- Advance students’ intellectual and cultural development; and
- Teach students to become engaged, self-directed learners and competent decision makers.

Comprehensive academic and vocational Counseling and Advising services are available to all Bakersfield College students in the Counseling and Advising Center, located on the lower floor of the Center for Student Success (CSS) Building on the Panorama Campus and at the Delano Campus.

Educational advising for:

- Career and Technical majors is available in FACE 16 (395-4089)
- Allied Health/Nursing students is available in MS 178 (395-4476)
- Science, Technology, Engineering, and Mathematics majors (STEM) is available in SE 40 (395-4811)
- Student athletes is available in GYM 9 (395-4681)
- Veterans is available in CC Veterans’ Lounge (395-4312)

Counselors and advisors are able to provide students with guidance in the following areas:

- Reviewing student placement test results and other information to determine appropriate course options
- Exploring academic and educational goals and identifying possible educational options
- Developing abbreviated and comprehensive education plans
- Explaining certificate programs and degrees available at Bakersfield College
- Assisting with identification of transfer options and course requirements for University of California (UC), California State University (CSU), independent, and out-of-state institutions
- Providing referral information to other student support service programs on the BC and Delano campuses, as well as to other off-campus resources

In addition to one-on-one Counseling and Advising sessions, the center also provides answers to questions, drop-in advising, New Student Counseling workshops, Education Planning workshops, and transfer-related workshops throughout the academic year. Counseling faculty also teach student development courses for education planning, career development, and student success. Students will find these courses listed in the online class schedule under “Student Development.”

Other Counseling and Advising functions include:

- Outreach/support to incoming high school students
- Orientations, both face-to-face and online sessions
- International Students Program
- Support for students on probation

The Counseling and Advising Center on the main campus is located in the Larry Robinson Counseling Center, on the lower floor of the Center for Student Success (CSS) Building. In the Delano Center, Counseling Services are located in Science and Technology and the A&R buildings at the Delano Campus.

Follow Up Support Services

Helping you stay in college is important to us. We realize that there are many reasons why students fall behind in their work, drop classes, and perform lower than the required minimum cumulative grade point average of 2.0. Advisors, counselors, and other support staff will work with students experiencing difficulty. If you fall into academic difficulty and are placed on academic or progress probation or dismissal, counselors can help you create a personalized student success plan to get back on track. If you are on probation, a hold will be placed on your registration, and you will be required to take an online probation workshop.

Disabled Student Programs & Services

- (661) 395-4334 (Main Campus)
- (661) 720-2000 (Delano)

Disabled Student Programs & Services assists the College in providing equal access to educational opportunities for students with disabilities. Disabled Student Programs & Services provides reasonable accommodations to students with documented physical, mental health, and learning disabilities who are enrolled in classes through Bakersfield College. The department provides accommodations and support services which may include, liaison with California State Department of Rehabilitation and other community resources, test-taking assistance, special equipment, mobility assistance, note-taking, assistive computer technology, special classes, sign language interpreters, written materials in alternate format, and learning disability assessment. These services are intended to prepare and support students to participate on an equal basis with their non-disabled peers. For college material in alternate format, contact Disabled Student Programs & Services.

Extended Opportunity Programs and Services (EOP&S) and Cooperative Agencies Resources for Education (CARE)

- (661) 395-4351

The EOP&S Program is a state funded program serving students from low-income and educationally disadvantaged backgrounds. Services include academic, career, and personal counseling, peer mentoring, financial aid advising, scholarship information, transfer assistance, books, and other support services. The EOP&S Program’s primary goal is to encourage the enrollment, retention,
and transfer of students with educational disadvantages to facilitate the successful completion of their goals and objectives in college. Students must complete the Free Application for Federal Student Aid (FAFSA) to determine eligibility and be enrolled in full-time coursework (12 units).

The CARE component offers additional grants and/or services to full-time students who are single parents, TANF recipients, and have as least one child under the age of 14. CARE participants must qualify for financial aid. Services offered include peer mentoring, counseling, tutoring referrals, single-parent workshops, follow-up support, and special events.

For additional information on EOP&S/CARE and eligibility to receive these services, please contact the Office of EOP&S/CARE. The Office of EOP&S/CARE is located on the second floor of the Center for Student Success (CSS) Building. EOP&S services are also offered at the Delano Campus. Apply EOP&S online.

**Financial Aid**

(661) 395-4428 (Main Campus)
(661) 725-2011 (Delano Campus)

Students seeking financial assistance to meet the costs of education are encouraged to contact the Office of Financial Aid, located in the Center for Student Success (CSS) Building (CSS 150). A variety of grants, scholarships, and part-time employment opportunities are available for students who qualify on the basis of financial need, enrollment in six or more units leading to a degree or certificate, and satisfactory academic progress.

All students are encouraged to complete the Free Application for Federal Student Aid (FAFSA) or a California Dream Application to be considered for the following programs. The financial aid priority filing date is March 2.

**Board of Governors Waiver**

The Board of Governors Waiver is supported by the state of California and waives the enrollment fees for eligible California residents. The Board of Governors Waiver is available for students who have already qualified for other types of financial aid and for students who have exceptionally low income including recipients of TANF, SSI, or General Assistance.

**BOG Fee Waiver Requirements**

Once you’ve qualified for the BOG Fee Waiver, it is important to ensure that you are meeting the academic and progress standards in order to avoid losing the fee waiver.

**Academic**

Sustain a GPA of 2.0 or higher. If your cumulative GPA falls below 2.0 for two (2) consecutive primary terms you may lose your fee waiver eligibility.

**Progress**

Complete more than 50% of your coursework. If the cumulative number of courses you successfully complete falls below 50% in two (2) consecutive primary terms you may lose your fee waiver eligibility.

Combination of Academic and Progress Standards

Any combination of two consecutive terms of cumulative GPA below 2.0 and/or cumulative course completion less than 50% may result in loss of fee waiver eligibility.

You will be notified within 30 days of the end of each term if you are being placed on either Academic (GPA) and/or Progress (Course Completion) probation. Your notification will include the information that a second term of probation will result in loss of fee waiver eligibility. After the second consecutive term of probation, you may lose eligibility for the fee waiver at your next registration opportunity.

If you have further questions BOGW appeal process, please contact the Admissions and Records Office for clarification.

**Federal Pell Grant**

Federal Pell Grants are a grant program based upon need, cost of attendance, and level of enrollment.

**Book Vouchers**

Book vouchers are available for Pell Grant-eligible students to purchase books and supplies.

**Cal Grant A**

Cal Grant A is for low to middle incomes students enrolled in the Baccalaureate program.

**Cal Grant B**

Cal Grant B is for students from disadvantaged and low income families.

**Full Time Student Success Grant**

FTSSG is a financial aid program for Cal Grant B recipients attending a California community college full-time.

**Cal Grant C**

Cal Grant C is for students enrolled in a vocational program.

**Extended Opportunity Program and Services (EOP&S)**

Extended Opportunity Program and Services is a state-funded program offering access and retention services, including books, for low-income, educationally disadvantaged students.

**Cooperative Agencies Resources for Education (CARE)**

Cooperative Agencies Resources for Education is a state-funded program offering supportive services and financial assistance for low-income, single parent EOP&S students.

**Federal Supplemental Educational Opportunity Grant**

Federal program that provides additional grant assistance for students with exceptional financial need.

**Federal Work Study**

On campus employment is available through Federal Work Study, a federally funded program for students who can demonstrate financial need and enrollment in six or more units. Employment is used to fund college expenses.

**Full Time Student Success Grant**

FTSSG is a financial aid program for Cal Grant B recipients attending a California community college full-time.

**Scholarships**

Cash awards provided by the Bakersfield College Foundation and local groups and organizations for students who can demonstrate academic merit and/or financial need.
Satisfactory Academic Progress
To be eligible to receive federal and state aid, you must maintain progress toward a degree, certificate or transfer. Maintaining SAP means that you must:
1. complete at least 67% of the units you attempt (pace calculation)
2. maintain a cumulative institutional GPA of 2.0 or higher; and
3. complete your educational program within the Maximum Timeframe allowed

CashCourse
A personal online financial tool to assist students with building essential financial skills. CashCourse promotes positive money management skills to students and recent graduates. To access CashCourse visit: cashcourse.org.

Information concerning financial aid programs at Bakersfield College can be obtained by in-person contact, phone, or on the Financial Aid web page. After you have applied for financial aid, you may check your financial aid status by logging in to InsideBC.

Office of Outreach and School Relations
(661) 395-4276
Outreach and School Relations online

The Office of Outreach and School Relations' primary focus is to facilitate the entry and transition of prospective students into the Bakersfield College community by providing services, resources, and support to enhance academic development and success.

Staff is available to provide general information about the campus, answer questions related to the application process, and to inform students about the many opportunities available at the college. Visit our office and take a tour of the campus.

Student Health and Wellness Center
(661) 395-4336
Student Health and Wellness Center online

The Student Health and Wellness Center is located in the Campus Center. To schedule appointments for any services, come to the clinic. Walk-ins are also welcome.

Medical Services
The Student Health and Wellness Center provides diagnosis and treatment of a wide variety of general medical conditions. The services meet many student healthcare needs, including acute conditions such as fevers, respiratory illnesses, stomach pains, sprains and strains, skin rashes, and minor surgical procedures. The Center also treats and manages patients with chronic conditions such as asthma, diabetes, and other diseases.

Physicals, TB testing, and some vaccines are available free of charge. Students can access medical services free five times per semester. Student health insurance coverage is available for campus-related injuries. Health-related literature and a variety of over-the-counter medications are available free of charge.

Mental Health Services
The Student Health and Wellness Center offers services to address students’ mental health concerns. Students are eligible to receive six free one-hour short term counseling (talk therapy) sessions per semester. Group therapy self-improvement classes are also available.

Clinica Sierra Vista-Delano Campus
Mental Health: (661) 720-2003
Medical: (661) 725-4780
Students at the Delano Campus receive free medical and mental health services from Clinica Sierra Vista. Delano Campus students can access free over-the-counter medication at Delano Admission and Records and health-related literature in the Delano Science and Technology Building. Student health insurance coverage is available for campus-related injuries.

Student Employment
(661) 395-4550
FACE 16
Student Employment online

The Student Employment center supports career readiness and pathway work through on-campus employment, work experience, internships and other work-based learning activities. Assisting both current students and alumni with free services - students can access services such as resume review, job search strategies, mock interviews, labor market information, job coaching, and skills identification through appointments with Job Development Specialists, in addition to the utilizing the Student Employment Lab located in FACE 9. Bakersfield College operates the employment platform Jobspeaker for both on and off-campus job postings. Providing students a more realistic approach to applying for jobs, Jobspeaker is 100% online and can be accessed via smartphone with the free downloadable mobile app. Jobspeaker provides alerts for information about career events, workshops, hot job opportunities, and access to community employers – to register and build your online profile visit Bakersfield College Job Speaker

Office of Student Life
(661) 395-4614
Student Life online

The Office of Student Life works collaboratively with the Bakersfield College Student Government Association (BCSGA) and the Office of the Vice President for Student Affairs to engage, educate, and empower students to take action in the best interest of the student body and the college community. The Office of Student Life provides learning, leadership, and service opportunities outside the classroom.

Research indicates that engagement theory suggests that students involved in any activity on campus or outside of the classroom are more likely to persist and graduate. The Office of Student Life provides participating students the opportunities to develop and hone their leadership skills, ultimately supporting student learning by providing a plethora of programs in which students can be engaged.

The Office of Student Life nurtures a culture that fosters learning outside of the academic classroom by creating an educational environment that connects the campus community to the importance of processes that lead to student self-governance. The Office of Student Life fosters the development of students' civic responsibility, community engagement, leadership, and personal growth. Through innovative experiences in a co-curricular classroom, the Office of Student Life engages students in meaningful interactions and hands-on skill development that fosters academic progress, student success, social justice, and citizenship while serving the diverse breadth and scope of the
Signature BCSGA events include homecoming and traditional events, diversity activities, student forums, Health Fair, free food, student organization funding, leadership workshops, etc. These events are a great way to meet new students while having fun on campus.

The Office of Student Life recognizes that its mission, in cooperation with the learning mission of the College, is accomplished through cultivating a personal standard of ethics and values while providing opportunities that enhance a sense of community between students, the campus, and the local community. Therefore, the Office of Student Life supports Bakersfield College’s mission and core values by contributing to student access, and fostering students’ abilities to think critically, communicate effectively, and demonstrate competencies and skills.

For more information, visit Student Life online.

Bakersfield College Student Government Association
(661) 395-4614
Bakersfield College Student Government Association online

Bakersfield College’s student community through recruitment, persistence, retention, and graduation efforts. The meaningful interactions are the root of our student advocacy that contributes to effective pathways via the leadership and service opportunities provided.

The Office of Student Life provides advising to BCSGA's appointed and elected officers, all student organizations, and its entities. Additionally, the Office of Student Life provides learning opportunities for students to enhance their overall educational experience through involvement with the programs and services funded by BCSGA, the college, and the community. The Office of Student Life makes a concerted effort to recruit, educate, inform, and retain students through student organizations, the student government, and the assorted student activities and workshops hosted. To that end, the Office of Student Life supports student organization development whose focus is to build community through groups focused on academics, culture, campus life, specific interests, community service, and social bonding.

Bakersfield College has guaranteed transfer admission agreements with University of California, Davis; University of California, Irvine; University of California, Merced; University of California, Riverside; University of California, Santa Barbara; and University of California, Santa Cruz. Admission advisors from California State University, Bakersfield are housed in the Bakersfield College Counseling and Advising Center and regularly work with students to ease the transition between Bakersfield College and California State University, Bakersfield. Other college representatives visit campus periodically.

Transfer workshops are offered throughout the year. The Transfer Center maintains current catalog information for California public and private schools. Computers with access to online resources such as www.assist.org to help students with choosing major preparation courses for transfer to California State University and University of California are available. The Transfer Center is located in the Larry Robinson Counseling Center, Center for Student Success (CSS) building.
Veterans Services
(661) 395-4312
Veteran Certifying Officer (661) 395-4760
Educational Advisor – Veterans (661) 395-4312
Veterans Services online

Bakersfield College is approved as an institution of higher learning for the training of veterans, reservist, active duty service members and military connected dependents entitled to educational assistance.

**Education Benefits for Veterans and Military Connected Dependents**

To be eligible for veterans benefits the veteran must have an educational objective for an associate or baccalaureate degree, a certificate of achievement, or a Veterans Administration (VA) approved program. The Veterans Administration will not pay benefits for courses that do not fit in a veteran’s selected program or that are not necessary for the completion of the student’s educational objective. The following students may be eligible for veteran’s education benefits:

1. Veterans who were separated from active duty with the armed forces within the past 10 years who participated in the following programs:
   a. Montgomery GI Bill-Active Duty Educational Assistance program (Chapter 30).
   b. The Post - 9/11 Veterans Educational Assistance Act of 2008 (Chapter 33).
   c. Montgomery GI Bill - Selected Reserve Educational Assistance Program (Chapter 1606).
   d. Vocational Rehabilitation (Chapter 31) - Veterans who served in the Armed Forces are eligible for vocational rehabilitation if they suffered a service-connected disability while on active service. A veteran who plans to enter Bakersfield College under Chapter 31 is required to have the Veterans Administration approve his/her occupational choice prior to enrollment in college.

2. Spouses and/or children may be eligible for:
   a. The Dependent’s Educational Assistance Program (Chapter 35). A student must be the child or spouse of a veteran who is deceased or who has a service-connected disability rated at 100 percent Permanent and Total (P&T).
   b. Post 9/11 (Chapter 33), if transferred by the service member prior to discharge.

**California Department of Veteran Affairs, College Fee Waiver**

Dependents of veterans with disabilities (spouses and/or children) may be eligible to receive tuition-free assistance at any California post-secondary educational institution. This program is California Department of Veteran Affairs, College Fee Waiver Program For Veterans Dependents. Students who are using the Cal Vet College Fee Waiver do not qualify for veteran priority registration. More information can be found at Cal Vet College Fee Waiver.

**Veteran Students Using Their Benefits for the First Time**

Students who believe they are eligible for veterans educational benefits or military connected dependents educational benefits must apply for benefits with the Veteran Administration (VA). Veterans apply by completing VA Form 22-1990 and military connected dependents by completing VA Form 22- 5490. An application and further information may be obtained online from the VA website via the Veterans Online Application (VONAPP).

**Veteran Students Who Have Used Their VA Benefits in the Past**

Any student who has received veterans’ educational benefits while attending another college should complete VA Form 22-1995 (veterans) or VA Form 22-5495 (veterans’ dependents) to request a change of program or place of training. This form is available online from the VA website.

In order to remain eligible, students receiving benefits must comply with the college’s veteran standards of attendance and academic progress policy. A student who fails to maintain the school’s academic standards of progress and is suspended or dismissed from school must be terminated from receiving further VA benefits for unsatisfactory attendance, conduct, or progress.

**All Veteran Students Must Bring In The Following Documents**

- DD-214 – Member, Page 4
- If using VA education benefits:
  - Copy of VA form 22-1990 (Application for Veteran Benefits) or Copy of VA form 22-1995 (Request for change of program or place of training)
  - Copy of VA Form 22-5490 (Dependent Application for Military Connected Benefits) or VA Form 22-5495 (Dependents’ Request for Change of Program or Place of Training)
  - Certificate of Eligibility – This is mailed to Veteran students once they complete the VA form 22-1990 or 22-5490 (Dependent Application for Military Connected Benefits)
  - NOBE – 2384 (Notice of Basic Eligibility) **For Reserve Students Only**
  - Comprehensive Educational Plan – Make an appointment with Veteran Educational Advisor to complete this form
  - Enrollment Card – This card is used to inform the VA how many units the Veteran student is enrolled in and for which semester. The Enrollment Card MUST be completed each semester.

**Priority Registration**

Priority Registration is available for Veteran students eligible for education benefits and eligible military connected students. In order to receive priority registration a student must self-identify as a Veteran or eligible military connected student by:

1. Providing a copy of their VA form DD-214 Member Page 4, to Admissions Window 8 and using their Educational benefits or
2. Be an eligible militarily connected student who is using VA Educational Benefits: Chapter 35 or Post 9/11 that was allocated from the Veteran to his/her dependent by providing a Certificate of Eligibility (COE).

Veteran students who do not want to use their Educational benefits at Bakersfield College but still wants to receive Priority Registration must turn in a copy of their DD-214 Member Page 4 to Admissions, Window 8 and indicate that they only want Priority Registration.

Students who are using the California Department of Veteran Affairs, College Fee Waiver do not qualify for Veteran priority registration.

**Veteran Status and Priority for the Allied Health and Nursing**

A ‘covered person’ is entitled to priority of service under all WIA Title I funding programs e.g. adult, youth, dislocated workers, 10% funded projects, and National Emergency Grant (NEG). For purposes of this policy, the term ‘veterans priority of service’ means that a covered person shall be given priority over non-veterans for the
receipt of employment, training, and placement services provided under that program, notwithstanding any other provision of law.

A 'covered person' is one of the following:
1. A Veteran who is an individual who served in the active military, naval, or air service, and who was discharged or released from such service under conditions other than dishonorable (WIA definition);
2. A recently separated Veteran who applies for participation under this title within 48 months after the discharge or release from active military, naval, or air service (WIA definition); or

The Spouse of:
1. A Veteran who died of a service connected disability;
2. A member on active duty who (at time of spouse's application) is listed as missing in action, captured in the line of duty, or forcibly detained; or
3. A Veteran with a total disability from a service connected disability or one who died while being evaluated for it.

Additional information may be obtained at Window 8 in the Office of Admissions and Records in the Administration building or at the Veterans Lounge.

**WorkAbility III (661) 395-4070**
In cooperation with the State Department of Rehabilitation (DOR), Bakersfield College provides job placement for students with disabilities through the WorkAbility III program. A disability may include physical, communication, learning, or emotional disability. Assistance with part-time jobs, full-time jobs, internships, and work experience placement is provided by WorkAbility III. WorkAbility III also offers job search skills training, including resume writing and interviewing skills. These services are provided to Bakersfield College students who are also clients of DOR. In addition, DOR may provide financial aid, which may cover the cost of fees, books, and other services.

If a student with a disability believes he/she may qualify for services from DOR, the student can visit the DOR office at 1405 Commercial Way, Suite 120, Bakersfield, or call (661) 395-2525. Eligible students are urged to apply for services from Disabled Student Programs and Services (First Floor of the Center for Student Success (CSS) building south side, room 10)

For more information please visit the Workability Office in the CSS 10.
Academic Student Support Services

Bakersfield College data (below) clearly shows that success increases when students participate in support services ranging from specific writing help, to tutoring, to group study sessions. To ensure students have the support needed to be successful in college, Bakersfield College has a network of academic support services available free of charge. Many of these services are in the second floor of the CSS building, above Counseling Services, and the Aera-STEM Center as well as available in Delano.

Learning Center
(661) 395-4654
Learning Center Online

The Jerry Ludeke Learning Center, on the second and mezzanine floors at the west end of the Center for Student Success (CSS) Building, is comprised of various learning opportunities and well-trained instructors and tutors. The center offers tutorial services, reading and writing classes, learning and study skills courses, open-entry math courses, a writing center, and a basic skills computer lab. For students who wish to improve their memory, note taking or test taking skills, the Learning Center has short-term courses in these and other study skills subject areas.

Individuals who want to study mathematics may enroll in a hybrid math course in the Learning Center. Courses are taught using a combination of the Internet-based program ALEKS and one-on-one help from instructors in the Math Lab in the Learning Center. Courses are available in Modern College Arithmetic/Prealgebra (ACDV B72), Elementary Algebra (MATH B60), and Intermediate Algebra (MATH B70). Students work at their own pace and have the opportunity to complete more than one course in a semester.

Library
(661) 395-4461
Library Online

The Grace Van Dyke Bird Library provides access to information in a variety of ways and formats. In addition to the over 89,000 books in the collection, the library subscribes to 140 periodicals and six online full-text periodical and newspaper indexes. The library is fully automated, with access to the catalog and periodical indexes on campus and via the Internet. Reference librarians are available during library hours to assist with research needs.

Other services available to all library users include:
- Library Research workshop
- Individual carrels for quiet study
- Study rooms for group work
- Photocopying & computer printing
- Wireless internet and computer access via computers in Computer Commons
- Telephone reference service

Use your current Renegade Card for library circulation privileges. Community members may also have circulation privileges with a payment of an annual fee. Inquire at the circulation desk for details.

Mathematics, Engineering, & Science Achievement (MESA)
(661) 395-4776
MESA Online

Bakersfield College’s Mathematics, Engineering, & Science Achievement (MESA) program center, located in the AERA-STEM Success Center, is dedicated to serve underrepresented students in the fields of mathematics, engineering, and the sciences and who plan to transfer to a four-year institution to complete a baccalaureate degree. MESA requires participation in at least nine orientation workshops for one semester. In addition, the program requires student involvement in one of the following activities per semester: academic excellence workshop; orientation workshops; professional, career development seminars; or capstone projects. These workshops and activities provide students with critical practice in problem solving techniques as well as exposure to career development in mathematics and science based fields.

MESA offers students book vouchers, scholarships, stipends, free tutoring, field trips to four-year colleges and industries related to students’ fields of study, industry internships, and an environment for studying and networking.
Science, Technology, Engineering and Math (STEM)  
(661) 395-4576  
STEM Online

Bakersfield College's STEM department's mission is to educate STEM students by providing rigorous educational opportunities that emphasize high standards and continuous improvement in science, technology, engineering, and mathematics and to prepare students for transfer opportunities. The STEM program provides tutoring, education planning, employment opportunities, counseling, and speaker series talks.

The STEM Disciplines include:

- Biology
- Chemistry
- Physics
- Engineering
- Math
- Physical Science
- Computer Science

Student Success Lab  
(661) 395-4654  
Student Success Lab Online

With hands-on assistance from faculty and teaching assistants, students can access self-paced online learning modules and computer-assisted tutoring on topics like spelling, vocabulary development, study skills, critical thinking, math skills, and standardized test prep. In addition, the Student Success Lab has created individualized study activities that support students in nursing, welding, chemistry, and other disciplines.

The Student Success Lab also offers developmental courses designed to prepare students for college level courses. The Student Success Lab promotes, encourages, and stimulates the personal, social, and intellectual growth of its student base through its commitment to the following goals and values:

- Our belief in a holistic and comprehensive approach to learning and learners
- Our belief that all student learners have different talents and backgrounds
- Our commitment to identify these diversities in order to foster a supportive, student-centered atmosphere that encourages student academic success
- Our commitment to provide and develop activities and services in the lab that prepare students for college level courses

Supplemental Instruction  
(661) 395-4202  
Supplemental Instruction Online

In contrast to traditional tutoring, supplemental instruction uses peer mentors to support students in class through weekly study sessions. Supplemental instruction leaders (students who have passed the course with a B or better and sit in on the course during the next semester) help bridge the gap between students and instructors, while strengthening their own skills.

Tutoring Center  
Main campus (661) 395-4430  
Delano Center (661) 720-2076  
Tutoring Center Online

The Tutoring Center offers weekly one-on-one 50-minute peer tutoring sessions in many academic subjects and 15-minute drop-in tutoring sessions in English and mathematics.

Writing Center  
Main campus (661) 395-4735  
Delano Center (661) 720-2019  
Writing Center Online

The Writing Center helps students with understanding assignments, planning and writing an essay, creating a resume and filling out scholarship applications at the college's main campus and at the Delano Center. Consultants at the Writing Center provide guidance for every stage of the writing process, from generation of essay ideas, through development and organization, to citation of sources. The Writing Center also offers access to computers so students may work on assignments at their own pace.

The center takes appointments, but consultants can also assist walk-in students on a first-come, first-serve basis. For a successful 30-minute consultation, students are encouraged to bring assignment sheets, hard-copy notes and drafts, and any other needed material, and should be prepared to discuss assignments with consultant. ESL consultants are also available.
Coursework is measured in terms of semester units. A unit equals 18 hours of lecture or 54 hours of lab work per semester in most courses. Lecture courses require additional outside of class work to equal a minimum of 48 hours of student work.

Academic Freedom
The district, the colleges, and unit members will adhere to the following in regard to academic freedom:

1. Education in a democracy depends upon earnest and unceasing pursuit of truth and upon free and unrestricted communication of truth.
2. Faculty members shall be free to exercise academic freedom, including freedom of investigation, freedom of discussion in the classroom, freedom to select texts and other instructional materials, freedom of assignment of instructional exercises, and freedom of evaluation of student efforts.
3. Faculty members acknowledge that in the exercise of academic freedom they have a responsibility to be accurate and comprehensive in making reports, to be fair-minded in making interpretations and judgements, to respect the freedoms of other persons, to exclude irrelevant matters from classroom discussions and instructional exercises, and to make appropriate distinctions between statements of fact made as faculty subject matter specialists and opinions made as private citizens.
4. The college recognizes the fundamental right of the faculty member to be free from any censorship or restraint which might interfere with the faculty member’s obligation to pursue truth and maintain his/her intellectual integrity in the performance of his/her teaching functions.

Academic Integrity
Bakersfield College has the responsibility to ensure that grades assigned are indicative of the knowledge and skill level of each student. Acts of academic dishonesty make it impossible to fulfill this responsibility, and they weaken our society. Faculty, students, administrators, and classified staff share responsibility for ensuring academic honesty in our college community and will make a concerted effort to fulfill the following responsibilities.

Any test, paper, or assignment submitted and that bears BC students’ name is presumed to be the own original work that has not previously been submitted for credit in another course unless you obtain prior written approval to do so from the instructor.

In all of the assignments, including homework or drafts of papers, students may use words or ideas written by other individuals in publications, web sites, or other sources, but only with proper citation. As a general rule, if citing from a published source or from a web site the quotation is short (up to a sentence or two) place it in quotation marks; if a longer passage from a publication or web site, please indent it and use single spacing. In both cases, be sure to cite the original source in a footnote or in parentheses. If a student is not clear about the expectations for completing an assignment or taking a test or examination, be sure to seek clarification from the instructor beforehand.

Finally, students should keep in mind that as a member of the Bakersfield College academic community, students are expected to demonstrate integrity in all of your academic endeavors and will be evaluated on their own merits. Students should be proud of their academic accomplishments and help to protect and promote academic integrity at Bakersfield College. The consequences of cheating and academic dishonesty—including a formal written warning, possible loss of grade—are simply not worth it.

Definition of Plagiarism (KCCD Board Policy Appendix 4F7D)
Plagiarism is defined as the act of using the ideas or work of another person or persons as if they were one’s own, without giving credit to the source. Such an act is not plagiarism if it is ascertained that the ideas were arrived at through independent reasoning or logic or where the thought or idea is common knowledge.

Acknowledgement of an original author or source must be made through appropriate references, i.e., quotation marks, footnotes, or commentary. Examples of plagiarism include, but are not limited to, the following: the submission of a work, whether in part or in whole, completed by another; failure to give credit for ideas, statements, facts or conclusions which rightfully belong to another; in written work, failure to use quotations marks when quoting directly from another, whether it be a paragraph, a sentence, or even a part thereof; close and lengthy paraphrasing of another’s writing or programming. A student who is in doubt about the extent of acceptable paraphrasing should consult the instructor.

Students are cautioned that, in conducting their research, they should prepare their notes by (a) either quoting material exactly (using quotation marks) at the time they take notes from a source; or (b) departing completely from the language used in the source, putting the material into their own words. In this way, when the material is used in the paper or project, the student can avoid plagiarism resulting from verbatim use of notes. Both quoted and paraphrased materials must be given proper citations.

Definition of Cheating (KCCD Board Policy Appendix 4F7D)
Cheating is defined as the act of obtaining, or attempting to obtain, or aiding another to obtain academic credit for work by the use of any dishonest, deceptive, or fraudulent means. Examples of cheating during an examination include, but are not limited to, the following: copying, either in part or in whole, from another’s test or examination; discussion of answers or ideas relating to the answers on an examination or test unless such discussion is specifically authorized by the instructor; giving or receiving copies of an examination without the permission of the instructor; using or displaying notes, “cheat sheets,” or other information or devices inappropriate to the prescribed test conditions, as when a test of competence includes a test of unassisted recall of information, skill, or procedure; allowing someone other than the officially enrolled student to represent the same. Also included are plagiarism as defined and altering or interfering with the grading procedures.

It is often appropriate for students to study together or to work in teams on projects. However, such students should be careful to avoid the use of unauthorized assistance, and to avoid any implication of cheating, by such means as sitting apart from one another in examinations, presenting the work in a manner which
clearly indicates the effort of each individual, or such other method as is appropriate to the particular course.

A student charged with cheating or plagiarism is entitled to appeal that charge by means of the college's Student Code of Conduct. For more information, visit the Office of Student Life web page.

Academic Standing
A student whose last completed semester GPA and cumulative GPA are 2.0 or higher and whose accumulated units of 'W' (Withdrawal), 'NP' (No Pass), and/or I (Incomplete) do not reach or exceed 50 percent shall be in good standing.

Academic Probation
Students who have attempted 12 or more semester units and who then earns a cumulative GPA of less than 2.0 during the Fall, Spring, or Summer semester shall be placed on Academic Probation for the following semester and will not be able to register until an Academic Success Probation Workshop is completed (a hold will be placed on their registration). A student shall be removed from probationary status when the cumulative GPA reaches 2.00 or higher.

In addition, students on academic probation will be limited in the number of units for which they may register. The academic status of each student is available under Academic Standing in the Registration Status section, on the online transcript in BanWeb, or printed on the student transcript updated at the conclusion of each semester.

Progress Probation
Student who have attempted 12 or more units shall be placed on Progress Probation when the percentage of all units attempted for which entries of 'W' (Withdrawal), 'NP' (No Pass), and/or 'I' (Incomplete) reaches or exceeds 50 percent. Students will be unable to register for classes for the next semester until an Academic Success Probation Workshop is completed (a hold will be placed on their registration). Students shall be removed from probationary status when the percentage of all the units a student has attempted with entries of 'W', 'NP', and/or 'I' are recorded is below 50 percent.

In addition, students on progress probation will be limited in the number of units for which they may register. The academic status of each student is available under Academic Standing in the Registration Status section, on the online transcript in BanWeb, or printed on the student transcript updated at the conclusion of each semester.

Subject to Disqualification
Any student who has been placed on Academic and/or Progress Probation for three consecutive semesters of enrollment shall be disqualified for admissions to classes the following semester unless, during the last semester of enrollment, the student earned a GPA of 2.0 or higher or did not receive additional 'W', 'I', or 'NP' notations, in which case the student shall be placed on Continued Probation.

Counseling for Probationary Students
Each student who is on probation and/or subject to disqualification should attend a face-to-face or online Academic Success Probation Workshop each semester under that status. These workshops are designed to assist students with understanding the reasons for their poor performance and help them to take steps to succeed. For more information contact the Counseling Department, (661) 395-4421, or visit the Counseling web page.

Reinstatement
A student who is disqualified is ineligible to attend Bakersfield College and may be conditionally readmitted the following semester upon petition to the Counseling Department. A readmitted student will be limited in the number of units in which he/she can register. Students must make a counseling appointment to fill out a Reinstatement Petition and make a plan for future success. Contact the Counseling Department at (661) 395-4421.

Academic Renewal
Previously recorded substandard academic performance may be disregarded if it is not reflective of a student's demonstrated ability. The District Chancellor shall establish procedures that provide for academic renewal.

At least two years have elapsed since the coursework to be alleviated was recorded; at least eighteen (18) units of satisfactory coursework with a GPA of 2.5 have been completed subsequent to the coursework to be alleviated; and the student would initiate the request for academic renewal. This written petition will go to the Vice President or designee.

Educational Options
Bachelor's Degree
Bachelor's Degrees are awarded after completing at least 120 semester units of study, including major, general education, and graduation requirements. This is the basic degree awarded by “four-year” colleges and universities. Units earned at community colleges count toward the total units needed for a bachelor's degree if they are transferable. A bachelor's degree is usually earned in arts (BA) or sciences (BS), although other more specialized options exist, such as the Bachelor of Fine Arts.

Associate Degrees for Transfer
California Community Colleges are now offering associate degrees for transfer to the California State University (CSU). These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units. To view the most current list of Bakersfield College Associate Degrees for Transfer and to find out which CSU campuses accept each degree, please go to A Degree with a Guarantee's website. Current and prospective community college students are encouraged to meet with an advisor or counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

Associate Degree
Associate Degrees are awarded after completing 60 associate degree or transfer semester units of study to include major and general education requirements. An associate degree certifies the achievement of in-depth knowledge about a field of study (your major) as well as the ability to communicate, use mathematics, think critically, and understand various modes of inquiry. The
degrees can be in arts (Associate of Arts) or sciences (Associate of Science). The associate degree may also be thought of as the “first half” of a bachelor’s degree, although most universities do not require that you earn it prior to transfer. If you complete the requirements for an Associate in Arts for Transfer degree (AA-T) or Associate in Science for Transfer degree (AS-T) at Bakersfield College you will earn an associate degree as well as being transfer ready. The associate degree is a college degree, and as such, has value for employment and on a resume.

Certificates of Achievement
Certificates of Achievement are awarded after completing courses related to a specific occupational area. The required units range from 12-18 or more. They are intended for students seeking employment, improving their job skills, or pursuing career advancement in a specific career field.

Job Skills Certificate
Job skills certificates are awarded upon completion of coursework in a specific occupational area. They are intended for students seeking employment, improving their job skills, or career advancement. The required courses range in unit value from 1-18.

Catalog Rights / Continuous Enrollment
Students graduating within five (5) academic years of initial enrollment shall have the option of completing either: (a) the degree requirements of the College catalog in effect at the time of initial enrollment; or (b) any set of revised degree requirements published in a subsequent Bakersfield College catalog. Students graduating more than five (5) academic years after initial enrollment must adhere to the specific degree requirements in effect in any Bakersfield College catalog within the five-year period prior to the students’ graduation.

For the purposes of continuous enrollment, an academic year begins with the summer semester and includes the following fall and spring terms. Petitions for exceptions should be directed to the Executive Vice President, Academic Affairs. Catalog rights apply only to Bakersfield College graduation and program requirements. If other institutions change their requirements for entrance, graduation, satisfaction of general education patterns, or in other ways it may be necessary for the student to meet the new requirements upon transfer, even if continuous enrollment has been maintained.

Credits Allowed from Other Institutions
Students who wish to receive Bakersfield College credits for work completed at other colleges should have official copies of transcripts from such colleges sent to the Office of Admissions and Records in the Administration building, room 7. Upon student completion of a Request for Evaluation in the Office of Admissions and Records in the Administration building, room 7, those transcripts will be reviewed and credit given where appropriate.

Bakersfield College only accepts transfer credits from schools that are accredited by regional accrediting commissions of schools and colleges. Transcripts from foreign institutions must be evaluated by an approved international academic credential evaluation service. Information is available at the Office of Admissions and Records in the Administration building, room 7. Evaluations made and credits allowed by Bakersfield College are subject to review and evaluation by any college or university to which a student may transfer. Qualifying as credit toward a Bakersfield College degree or certificate does not guarantee that pass-through general education will be granted. Evaluations are completed within 4 weeks from submission.

Advanced Placement Program
Advanced Placement is a program of college level courses and exams for high school students. Bakersfield College grants college credit for students who score a three or higher on Advanced Placement exams. Additional information may be obtained from the Office of Admissions and Records in the Administration building, room 7. A score of 3, 4, or 5 is required for credit in any given course.

Students may submit Request for Evaluation forms to the Office of Admissions and Records in the Administration building, room 7 after they have enrolled at Bakersfield College, and they must have appropriate documentation of their successful completions of the Advanced Placement courses. A maximum of 30 units of credit by examination may be applied to the associate degree.

Refer to the Advanced Placement chart on 32.

Credit by Examination
Credit by exam, sometimes referred to as a “challenge,” is a method for a student to get credit for a specific course, by proving that he/she already has an understanding of the information contained in that course. In order to qualify for credit by exam, a student must be currently enrolled in courses at Bakersfield College.

For some subjects, credit may be obtained by taking an exam called a College Level Examination Program (CLEP). A list of the courses for which CLEP tests are approved is available in the Office of Admissions and Records in the Administration building, Room 7, and in the Testing and Placement Center. Department administered exams will not be used to award credit in a specific course when a CLEP exam exists. Credit may also be awarded for the Advanced Placement Program.

Students may receive “credit by exam” by producing work that equals the coursework that is normally completed in a specific course. Faculty in the department where the course exists must assess the student work and assign a letter grade.

It is the responsibility of the student to work with the specific department to receive credit by exam. The student is also responsible for taking the Credit by Exam Form to Admissions and Records, and paying for the course in order for the course to be posted to the permanent record. It is also the student’s responsibility to obtain a Credit by Exam Form from the Office of Admissions and Records.

The College can provide no assurance that credits awarded for credit-by-examination will be treated in a similar manner by other educational institutions.

The student’s permanent record will be annotated to indicate the credit was granted by examination. A maximum of 30 units of credit by examination may be applied to the associate degree.
California Community College General Education
Advanced Placement

Advanced Placement score of 3, 4, or 5 is required for general education certification.

Note: Advanced Placement Exams that satisfy UC and CSU requirements should be checked for currency and specific college credit.

http://www.calstate.edu/transfer/requirements/AdvancedPlacementAPCourses.shtml

*Only MUSC B4A (3 Units) satisfies transfer General Education requirements. Credit for both MUSC B4A and MUSC B15A requires a score of 3 or better on both the written theory portion (MUSC B4A) and the aural theory portion (MUSCB15A) of the AP Exam. A score of less than 3 on either portion will not be awarded credit for that portion.
Units for which credit is given pursuant to these examinations will not be counted in determining the 12 semester units in residence required for an associate degree.

Military Credit

Bakersfield College will grant veterans from 2 to 12 elective credits for specific service experience and certain educational training while in the service. Evaluation of such experience and training will be made by the Office of Admissions and Records in the Administration building, room 7. Credit evaluations will conform to the regulations set forth by the State Approval Agency of the California State Department of Education and the recommendations of the American Council on Education.

A maximum of 12 semester units will be allowed. On average, a Veteran student will receive the following credits: HLEDB1 (3 Units), Physical Education (2 Units), and General Education (7 Units). Evaluations comply with the regulations and recommendations of the American Council on Education. A copy of the veteran's DD-214, member page 4 (Report of Separation from the Armed Forces) is required along with military transcripts and prior college transcripts. To request Military Transcripts please visit the Joint Services Transcript website.

Students may submit Request for Evaluation forms to Admissions and Records in the Administration building, room 7, after they are enrolled in classes at Bakersfield College, and they must have appropriate documentation of their successful completions of the College Level Examinations courses. A maximum of 30 units of credit by examination may be credited toward the associate degree.

International Baccalaureate Diploma Program

The International Baccalaureate Organization’s Diploma Program is a comprehensive and rigorous two-year curriculum for university-bound students between the ages of 16 and 19. After completing the courses at the participating high school, students take the related International Baccalaureate (IB) examination, and the information is printed on their high school transcripts. Bakersfield College recognizes the high scholastic quality of the International Baccalaureate Diploma Program and awards credit or placement as approved. Students who plan to enroll at Bakersfield College should submit a copy of their official IB transcript to the Office of Admissions and Records in the Administration building, room 7, for evaluation.

Veterans may use their military basic training to satisfy Area E of the California State University (CSU) General Education Requirements or the Bakersfield College General Education Requirement by request on transcript order forms.
Grading System
Grades are earned and awarded in each course and are recorded on the student's permanent record at the end of each academic term. Evaluation of student achievement will be made in relation to the attainment of the specific objectives of the course. At the beginning of a course the instructor will explain these objectives and the basis upon which grades are determined. A student's work is considered satisfactory when he/she maintains an average of 'C' (grade point average 2.0) or higher.

**AU—Audit**
This grade is issued to students who enroll in classes in an audit status. It will not count in GPA.

**P/NP—Pass/No Pass**
Some courses are offered on a pass-no pass basis; the credit, no credit option will no longer be available. Upon successful completion of such a course, unit credit will be awarded. However, courses taken on a pass/no pass basis are not used in the computation of a student's grade point average. Regulations for such courses are:

1. A maximum of 12 units may be taken on a pass/no pass basis and applied toward the Associate of Arts or Associate of Science at Bakersfield College.
2. A maximum of three units per semester may be taken on a pass/no pass basis. Exceptions to this rule may be made by the Executive Vice President, Student Services in cases involving Nursing, Radiologic Technology, and special remedial programs.
3. In courses in which pass/no pass is authorized, the pass grade is granted for performance which is equivalent to the letter grade of 'C' or better.
4. Combination classes (pass/no pass or grades) must have an 'A', 'B', 'C', 'D', 'F' and pass/no pass system.
5. Petitions for pass/no pass must be filed with the Office of Admissions and Records in the Administration building, room 7 no later than the first day of the third week of the semester or the last day of the first week of summer session.
6. When a student has established the basis for grading as pass/no pass or a letter grade, he/she may not elect to change after the established deadline.
7. Courses in which pass/no pass grading may be used must be so designated by the department involved. A department may require majors to obtain letter grades in that department's major subjects. Pass/no pass forms are available in the Office of Admissions and Records in the Administration building, room 7. The following courses are approved for pass/no pass grading:
   - ACDV – B5A, B55, B66, B70A, B70B, B70D, B70C, B70F, B80, B190, B195, B201A, B201B, B201C
   - ADMJ – B60, B63, B72, B81
   - APPR – B60CS, B60EC, B60FA, B60FB, B60PE, B60PT, B65XF
   - ART – B1, B4, B17
   - COMP B2, B10, B31, B32, B33, B43, B72
   - CRIM – B1, B2, B3, B4, B5, B7, B8, B9, B10
   - EMTC – B11, B14, B16, B17
   - ENGL – B60
   - FDSV – B55I, B71
   - FIRE – B25A
   - IND T – B274
   - MEDS – B52, B66, B68
   - MUSC – B5B, B230ABC
   - NURS (VNRS) – all clinical components of nursing courses; NURS B45, B70, B99, B201ABCD
   - ORNH – B2
   - PHED – B3ADP, B6WT
   - PHIL – B6A, B7, B9, B10, B12, B18, B19, B37 (Philosophy majors may not take Philosophy courses for Pass/No Pass grading)
   - RADT – B4A, B4B, B6, B7, B10, B13
   - SPST – B48, B201/B201L
   - STDV – B1, B2, B3, B6
   - WOOD – B2, B6A, B65B
   - WEXP – B250

**I—Incomplete**
Students may request that instructors issue 'I' grades when they have an unforeseeable emergency and justifiable reasons at the end of the term. The instructor must submit a statement of the requirements for clearance of the incomplete and also indicate the grade to be assigned in lieu of the 'I' if the requirements are not completed. And must be made up no later than one year following the end of the term in which it was assigned. An 'I' may not be assigned as a withdrawal grade. If the work stipulated is not completed within the time limitation, the grade assigned in lieu of the work being completed will be entered on the permanent record.

**W—Withdrawn**
The student has withdrawn from a course or has been dropped from a course by the instructor between the dates indicated in these regulations.

**IP—In Progress**
The 'IP' indicates the course extends beyond the normal end of an academic term and work is in progress, or the course is listed as an open-entry/open-exit course, and has been approved by the instructor to register and complete course requirements in the succeeding semester in order to receive credit and a course grade. The grade and unit credit will appear on the student's permanent record for the term in which the course work is completed. The 'IP' cannot be given more than twice for any particular course. If a
student enrolled in an open-entry, open-exit course is assigned an ‘IP’ at the end of an attendance period and does not re-enroll in that course during the subsequent attendance period, the instructor shall assign a grade (‘A’, ‘B’, ‘C’, ‘D’, ‘F’, ‘P’, or ‘NP’) to be recorded on the student’s permanent record for the course.

**RD—Report Delayed**
The ‘RD’ is a symbol assigned by the Office of Admissions and Records in the Administration building, room 7, when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student.

**Grade Reports**
Final grades will be made available to students on the Bakersfield College web registration system as soon as possible after the end of each academic term. There will be no additional notification of grades completed or corrected.

**Grade Changes**
The instructor of each course shall determine the grade to be awarded to each student. The determination of the student’s grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetence. A judgment to change or expunge a grade for reasons of fraud, bad faith, or incompetence shall be made by the college Chief Instructional Officer after consultation with the student, the instructor, and the Department Chair. All parties noted above shall be notified in writing of any changes. Reasons for any grade change shall be documented.

When students request a grade change, provisions shall be made for another faculty member to substitute for the instructor if the instructor is not available or does not respond to communications within a reasonable length of time, the student has filed a discrimination complaint, or the Kern Community College District determines that it is possible there has been gross misconduct by the original instructor.

**Honors**

**Dean’s List**
Special recognition is accorded students who maintain a 3.3 grade point average during a semester in which they accumulate at least 42 grade points earned from enrollment in Bakersfield College courses. Students whose academic achievement is at this level are placed on the Dean’s List by the Office of Academic Affairs and are given general recognition on campus and in the community.

**Graduation with Honors**
Students who have completed at least 60 units in degree applicable letter graded courses, have taken at least 12 of those units at Bakersfield College, and who have earned a cumulative grade point average of 3.50 or higher are eligible for graduation with honors.

The honors designation will appear on the diploma and transcript as follows:

<table>
<thead>
<tr>
<th>Grade Point Average</th>
<th>Honor Designation</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.50 - 3.69</td>
<td>Cum laude</td>
</tr>
<tr>
<td>3.70 - 3.89</td>
<td>Magna cum laude</td>
</tr>
<tr>
<td>3.90 - 4.00</td>
<td>Summa cum laude</td>
</tr>
</tbody>
</table>

**Phi Theta Kappa Honor Society**
Phi Theta Kappa membership is based on academic achievement. Students must be enrolled in a regionally accredited institution offering an associate degree program. They must complete a minimum of 12 hours of coursework leading to an associate degree, must generally have a 3.25 grade point average, and must enjoy full rights of citizenship. After induction, members must maintain a GPA of 3.25 or higher. There is a fee for membership in this organization.

**President’s Scholars**
The president of Bakersfield College invites qualified members of each entering freshman class to participate in the President’s Scholars Program using criteria set up by the President’s Scholars/President’s Re-entry Scholars Program. Honorariums of $100 per semester and priority registration are based exclusively on meeting the program’s criteria each semester.

As of the 2017-2018 Academic Year, Bakersfield College is not recruiting or accepting applications for The Presidents Scholars Program. We invite you to learn more about The Kern Promise on page 52.

**President’s Re-Entry Scholars Program**
The President’s Re-Entry Scholars are re-entry students who have demonstrated, by their achievement at Bakersfield College, a commitment to academic excellence. This program is designed for students who are 25 years old or older, or students who have been out of school for five years. Honorariums are $100 per semester and priority registration is based on meeting the program’s criteria each semester.

As of the 2017-2018 Academic Year, Bakersfield College is not recruiting or accepting applications for The Presidents Re-Entry Scholars Program. We invite you to learn more about The Kern Promise on page 52.
Learning & Career Pathways

Bakersfield College has organized course work and student support into Learning and Career pathways. The pathways provide an opportunity for students to explore specific majors within a broader pathway before selecting a program of study. Pathways benefit students’ goals by providing an opportunity for career exploration, minimizing excess credits and maximizing the credit for each course within the pathways. The 10 pathways are each supported by a Completion Coaching Community of experts in careers, courses, financial aid, study skills, transfer and employment to connect with students’ needs.

Bakersfield College offers a variety of degrees and short term certificates:
- BS in Industrial Automation
- Associates Degrees
- Associate Degrees for Transfer
- Certificates of Achievement
- Job Skills

Each Learning and Career Pathway has a Completion Coaching Community of pathway experts designed to help students complete their educational goals.

- Computer Science (AS-T)
- Engineering (AS)
- Geology (AS-T)
- Mathematics (AS-T)
- Physics (AS-T)
- Pre-Vet
Guided Pathways

By 2020 California will need more than 1 million additional workers with degrees. But there is a looming gap in completion of those degrees and transfer to four-year colleges in California, especially for historically under-represented student populations. The strategy to mitigate this gap lies in an institutional redesign beginning with clarifying and streamlining pathways which includes:

- assessing current pathways leading to degrees and transfer (e.g. ADTs, C-ID, new paths)
- identification of institutional barriers for student progress (e.g. registration, financial aid)
- alignment of expectations (among K-12, Community Colleges and transfer institutions)

Bakersfield College Guided Pathways System (GPS) will redesign institutional policies, practices, systems and culture with the goal of increasing student completion, while decreasing time and cost to completion through high touch, high tech strategies. This innovation represents a college-wide shift in student support and instructional practice, with the goal to serve as a model for all CCC’s through the California Pathways statewide work and Chancellor’s Office work. It will require very heavy lifting, purposefully not superimposing additional initiatives, but rather transforming current policies and practices creating a manageable framework for current initiatives.

Transfer Guide

What is Transfer?
Transfer is the process of continuing your education at a four-year college or university, usually after completing your first two years (freshman and sophomore levels) at a community college. If planned correctly, the courses that you complete in community college will count towards requirements in your bachelor’s degree, just as if they had been taken at the four-year institution. Students enrolled in a transfer program will complete their GE and lower division major requirements before transferring.

Bakersfield College students transfer to a wide variety of universities in California and throughout the United States.

Transfer Services
The Transfer Center is designed to help you during each step of your transfer experience to ensure a smooth and positive transition. A variety of resources are available, including:
- Academic Counseling
- Guidance in researching and selecting a transfer institution
- Individual appointments with representatives from the UC, CSU, and independent colleges and universities
- Transfer workshops including application and Transfer Admission Guarantee (TAG)
- Transfer Admission Agreements with UC, CSU and some private colleges
- A library of catalogs and college publications
- Information on important dates and deadlines
- College research
- Transfer Fairs
- Up-to-Date Transfer website

The Transfer Center is located in the Center for Student Success (CSS) Building or through InsideBC on the Transfer Portal. To make an appointment, call 661-395-4421.

Educational Options
Transfer is one of several different educational options available at Bakersfield College. The college also offers programs and courses designed to prepare students for a new career field or to upgrade work skills related to a current occupation. The following are the most common degrees and certificates awarded:

Vocational Certificates
Awarded after completing specific courses related to a particular occupational area. They are intended for students seeking quick employment or job skills in a specific career field. Vocational Certificates are awarded by community colleges and some private schools.

Certificates of Achievement
Awarded after completing courses related to a specific occupational area. The required units range from 12-18 or more. They are intended for students seeking employment, improving their job skills, or pursuing career advancement in a specific career field.

Job Skills Certificate
Job skills certificates are awarded upon completion of coursework in a specific occupational area. They are intended for students seeking employment, improving their job skills, or career advancement. The required courses range in unit value from 1-18.

To view the most current list of courses required to complete a certificate, please refer to the Bakersfield College Catalog.

Transferability of Coursework
Many courses offered at BC will transfer to meet lower-division (freshman and sophomore) requirements of a four-year university. These courses can include transfer general education as well as preparation-for-the major courses. Transfer coursework is the first step to completing the bachelor’s and higher degrees.

Choosing a College Major
A major is a field of study that students emphasize in their college education. It is what students “specialize” in with their degrees. It is important to remember that a major is what students will study at the university they transfer to. At Bakersfield College, students can prepare to transfer into virtually any major at any university—there are literally thousands to choose from. To narrow down the options, students often begin to select their major by one of the following techniques:
- If students have an idea of a career field they want to enter, you can find majors that are related to, or prepare for, that career field. Majors and career fields are not always “perfectly matched.” However, knowing an intended career field can help narrow options.
- To research possible career pathways, visit the Bakersfield College Career Counseling page or take Student Development B2, a career decision making course at Bakersfield College.
- If students know what university they want to attend, they can select from the list of majors at that university. Lists of majors at California state universities are available at assist.org (click on “Explore Majors”).
- If a students thinks they might be interested in a particular major but are not sure, try taking a general education class in the major. Students often select their major based simply on the courses that are the most interesting to them.
- For a description of the most popular majors in California, visit petersons.com/college-search/popular-majors-west.aspx

Associate Degrees for Transfer (ADT)
California Community Colleges are now offering associate degrees for transfer to the CSU. These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units.

● California State University Campus
📍 University of California Campus
Choosing a Transfer College or University
Each institution may have different transfer requirements, so choosing a transfer college or university early on (or a first, second, and third choice) is important to ensure you complete the right courses. Universities in the United States are organized into different systems and categories. Choosing a transfer institution is important because:

- Each institution has its own program and major requirement.
- Each institution has unique features, including factors like the student body, location, and extracurricular activities.
- You are more likely to do well academically in an educational environment that you have researched and are prepared for.

The most common universities that Bakersfield College students transfer to include:

California State University (CSU)
The CSU system emphasizes undergraduate education (leading to a bachelor’s degree) but also offers master’s degrees. Professors spend more time in the classroom and less time on research than those in the University of California system. CSUs emphasize preparation for specific careers and are relatively inexpensive for California residents.

CSU Minimum Admission Requirements
Transfer students will be eligible for admission if they meet the following requirements:

- Complete a minimum of 60 CSU-transferable semester units or 90 CSU-transferable quarter units.
- Obtain a minimum 2.0 GPA (2.4 for California non-residents).
- Impacted majors, programs, and colleges may have higher GPA requirements.
- Complete the “Golden Four” (Oral Communication, Written Communication, Critical Thinking, and Mathematics/Quantitative Reasoning) with a grade of C or better. Pass/No-Pass grades are not recommended in these areas.

Students are urged to complete a General Education Pattern in its entirety as CSU GE or IGETC (see appropriate section of this guide for details).

Students are strongly recommended to meet with a counselor to discuss additional requirements for competitive admissions based on major and campus choice.

University of California (UC)
The UC system combines undergraduate education (leading to a Bachelor’s degree) with emphasis on graduate programs (Master and Doctor Degrees) and research.

UC Minimum Requirements
Upper Division Transfer students will be eligible for admission if they meet the following requirements:

- Complete a minimum of 60 UC-transferable semester units or 90 UC-transferable quarter units.
- Obtain a minimum 2.4 GPA (2.8 for California non-residents). Note: Admission is competitive and the required GPA can be significantly higher.
- Complete the following seven-course pattern:
  - Two transferable college courses in English composition and one transferable college course in mathematical concepts and quantitative reasoning.
  - Complete 4 transferable college courses chosen from at least two of the following subject areas: arts and humanities, social and behavioral sciences, physical and biological sciences

The UC gives high priority to students who complete major coursework early in their academic career.

Students who complete the Intersegmental General Education Transfer Curriculum (IGETC) pattern prior to transferring to the UC system will meet the transfer eligibility coursework requirement listed above (For details on IGETC, see appropriate section of this guide for details). Students are strongly recommended to meet with a counselor to discuss additional requirements for competitive admissions based on major and campus choice.
Historically Black Colleges and Universities (HBCUs)
Historically Black colleges and universities usually have a majority African-American student body, although students of all races attend them. They may be private or out-of-state public schools. Most are located in the southern United States.

There are 21 HBCUs that have partnered with Bakersfield College to offer students a guaranteed admission. By completing the IGETC requirements or the CSU GE Breadth pattern and obtaining a transfer-level associate degree (60 units) with a 2.5 or higher GPA, students qualify with junior standing to participating HBCUs.

For more information visit: HBCU Transfer

Private Colleges and Universities
Private colleges and universities are not funded by public taxes and are also known as independent institutions. Each institution is unique with its own programs, majors, and degrees. Some offer academic programs grounded in a specific religion or philosophy. Others offer programs in only one discipline, such as the arts or technical degrees. Others specialize in providing continuing education to working adults. They are also usually smaller and more focused in academic emphasis than public universities. For more information visit: National Association of Independent Colleges and Universities (NAICU)

Hispanic Serving Institutions
The Hispanic Association of Colleges and Universities (HACU) is a national educational association that represents colleges and universities committed to Hispanic Higher education success in the United States (including Puerto Rico), Latin America, and Spain. HACU has 193 member Hispanic-Serving Institutions (HSIs) located in 11 U.S. states and Puerto Rico. To be considered a Hispanic-Serving Institution, the Hispanic enrollment at a college or university must be at least 25 per cent of the total student enrollment.

California is home to 54 Hispanic Serving Institutions including Bakersfield College.

Tribal Colleges and Universities
Thirty-five (35) recognized Tribal Colleges and Universities exist in the United States. These are located mainly in the Midwest and Southwest. Tribal Colleges and Universities serve approximately 30,000 full and part-time students. They offer two-year associate degrees in over 200 disciplines, with some providing a bachelor’s and master’s degree. They also offer 200 vocational certificate programs.

Out-of-State Colleges and Universities
These institutions include colleges and universities not in California. They may be public or private and are usually more expensive for out-of-state residents than those who live and pay taxes in the state. This group of colleges offers a huge variety of degrees and graduate programs.

Western Undergraduate Exchange (WUE)
Public out-of-state universities charge higher tuitions to nonresidents, however participating institutions of the Western Interstate Commission for Higher Education (WICHE) can offer reduced tuition to California residents. WICHE offers the Western Undergraduate Exchange Program (WUE, pronounced “woo-wee”). If accepted through WUE, California residents are eligible to request a reduced WUE tuition rate of 150% of the resident rate at any of the 145 participating schools, in 14 neighboring states. The WUE reduced tuition rate is not automatically awarded to all eligible candidates. Many institutions limit the number of new WUE awards each academic year, so apply early!

For more information about WUE, visit WICHE WUE

Preparation for Major Courses
For each major at a four-year institution, there are lower division (freshman and sophomore level) preparatory courses designed to prepare students for upper division study (junior and senior level). Based on the availability of courses, students are strongly encouraged to complete as many major prerequisite courses as possible prior to transfer.

Preparation for Major courses for UC and CSU schools can be found on ASSIST. The ASSIST website is designed to provide students with the most accurate and up-to-date information available. ASSIST lists which community college courses are articulated to their four-year counterparts and/or will meet specific requirements. Students can find valuable information about additional screening requirements, if the major is impacted, and if there is a required GPA for a specific major on ASSIST.

Students looking to transfer to a private/independent or out-of-state school, should first access the Bakersfield College Transfer Center portal on InsideBC or talk to a Counselor to find out if Bakersfield College has an articulation agreement with the school of interest.

If Bakersfield College has no articulation with the school, you should go to the school’s undergraduate admissions page and search for transfer information, or contact the school’s admissions department directly to find out the best way you can take courses towards major preparation.

General Education Courses
General Education (GE) is a set of courses from a variety of different subject areas that every student must complete in order to earn a bachelor’s degree, regardless of major. The goal is to provide a well-rounded or “liberal” education and develop the knowledge, skills, and attitudes that together help make up an “educated person”.

The completion of GE prior to transfer is not required for admission to most universities. However, students should complete an appropriate transfer GE pattern at the community college. GE requirements not fulfilled prior to transfer must be completed later at the university, which often extends the time and expense of a university education.

Students usually follow one of three transfer GE options. These are:

The IGETC pattern (see 44)
IGETC is accepted by all CSU campuses and most UC campuses and majors. IGETC is also accepted by some private/independent or out-of-state universities.

SciIGETC (IGETC for STEM see 47)
IGETC for STEM is a recommended IGETC track available for students planning to major in science, technology, engineering, or mathematics.

SciIGETC curriculum prepares students in high-unit science majors
to transfer from Bakersfield College to a four-year institution to begin upper-division coursework in their respective major in a timely fashion and defer to lower division coursework.

Please consult your counselor to establish your educational plan.

The CSU GE pattern (see 48)
CSU GE is accepted by all CSU campuses and some private/independent or out-of-state universities. CSU GE is not accepted by the UC system.

An alternative general education pattern (see 48)
Alternative general education is usually not recommended for students who plan to transfer to the UC or CSU systems to follow this option. However, students entering high-unit majors such as science or engineering, those transferring to a private/independent or out-of-state institution, or those who plan to apply to only one university may be best served by an alternative general education pattern.

Students are strongly recommended to consult with a counselor to determine which general education pattern is most appropriate for their individual educational goals.

Completion of the IGETC or CSU GE pattern also fulfills the requirements for General Education for a Bakersfield College Associate of Arts or Science degree. Students who complete one of these patterns and additional transfer coursework may also qualify for a Bakersfield College Liberal Arts degree.

General Education Certification (GEC)
General Education Certification is a legal agreement between the UC or CSU systems and the California Community Colleges that permits a student to transfer from a community college to a UC or CSU campus without the need to complete additional lower division general education courses to satisfy university GE requirements after transfer.

Bakersfield College will provide an IGETC or CSU GE certification upon completion of GE coursework when requested by the student on the transcript form. This certification may include selected courses taken from other regionally accredited colleges, or credit earned through other means, such as Advanced Placement (AP) test credit. Students do not have “catalog rights” to a certification pattern. Certification is subject to the following conditions:

- For full certification, no fewer than 39 units will be certified;
- For partial certification, no fewer than 24 units will be certified;
- Only entire areas will be certified.

Pass Along Certification
Students who transfer credits from another California community college often want to “pass along” the general education certifications that they have earned. Any California community college may certify such coursework from another California community college, from a regionally accredited college or university, or from a CSU or UC campus. It is critically important that students transferring coursework from other colleges and universities fill out the Request for Evaluation form available under Admissions and Records, Other Forms on the Bakersfield College website or at window #6 in the Office of Admissions and Records and have official transcripts sent to Bakersfield College Admissions and Records Department to be evaluated.

C-ID - Course Identification Numbering System
The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example COMM 110, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID COMM 110 designation at another community college.

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Since these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Students may consult the ASSIST database at www.assist.org for specific information on C-ID course designations. Counselors can always help students interpret or explain this information.

IGETC - Intersegmental General Education Transfer Curriculum

The IGETC Pattern (See chart on 46)

About the IGETC Pattern
The Intersegmental General Education Transfer Curriculum (IGETC) is a general education pattern that will fulfill all lower division general education requirements at all California State University (CSU) campuses and most University of California (UC) campuses/majors. It is also accepted by some private/independent or out-of-state universities. IGETC is usually recommended for students who intend to transfer to a UC campus, or who are not yet sure of their intended transfer university. Completion of the IGETC pattern is not an admission requirement for transfer to most UC or CSU campuses, nor is it the only way to fulfill the lower division GE requirements of a UC or CSU campus prior to transfer.

Students should consult with a counselor to determine which general education pattern is most appropriate for their individual educational goals.

Rules for using the IGETC pattern:

- Each course must have been IGETC approved at the time it was taken. See ASSIST for a list of certified courses and approval dates.
- Courses may be approved for more than one IGETC area. However, each course may be used to certify only one of the areas it is approved for.
- Students should apply for IGETC certification at the last community college attended prior to transfer. Forms are available under Admissions and Records, Other Forms or at Window 6 in the Office of Admissions and Records.
- AP credit and coursework completed at accredited U.S. colleges and universities may be used to fulfill some IGETC...
IGETC is NOT recommended for the following transfer destinations:
- UC San Diego Revelle and Eleanor Roosevelt Colleges
- UC Berkeley Colleges of Business, Chemistry, Environmental Design (Architecture), Engineering, Natural Resources, Optometry.
- UC Davis College of Engineering
- UC Irvine Schools of Engineering, Biological Sciences, Physical Sciences
- UC Riverside Colleges of Engineering, Natural and Agricultural Sciences
- UC Santa Barbara Colleges of Engineering, Creative Studies
- UC Los Angeles Schools of Engineering and Applied Science

Completion of the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a California Community College (CCC) to a California State University (CSU) or University of California (UC) campus generally without the need, after transfer, to take additional lower-division general education courses to satisfy all lower-division general education requirements. However, individual colleges or majors within a CSU or UC campus may not accept IGETC for meeting general education.

The IGETC pattern is most useful for students who want to keep their options open before making a final decision about transferring to a particular UC or CSU campus. Completion of IGETC does NOT guarantee admission, nor is it required for admission.

The IGETC for STEM Pattern (See chart on page 47)
IGETC for STEM is a separate IGETC track available for students planning to major in science, technology, engineering, or mathematics (STEM). As of March 2015, UC will accept IGETC for STEM only if:
- A student is earning an associate degree for transfer (ADT) in Biology, Chemistry or Environmental Science at a community college that offers IGETC for STEM as an option for those degrees AND
- The UC major program or college the student is applying to accept partial IGETC certification

NOTE: A Course must have a minimum unit value of 3 semester or 4 quarter units to meet requirements of IGETC.

A minimum “C” grade is required for each college course. A “C” is defined as a minimum 2.0 grade points on a 4.0 scale. A grade of credit or pass may be used if the college’s policy states that it is equivalent to a grade of “C” or better.
LEGEND: N = Needed; IP = In Progress; C = Completed

Catalog Rights do not apply to the IGETC.

AREA 1: English Communication - One course from each group. UCs only require Group A and B

GROUP 1A: English Composition (3 units)
ENGL B1A

GROUP 1B: Critical Thinking (3 units)
ENGL B2, B3 PHIL B9

GROUP 1C: Oral Communication (CSU Only)
COMM B1, B4, B8

AREA 2: Mathematical Concepts and Quantitative Reasoning (3 units)
MATH B1A, B1B, B2, B6A, B6B, B6C, B6D, B6E, B22, B23 PSYC B5

AREA 3: Arts and Humanities (9 units) - At least one course from the Arts and one course from the Humanities

GROUP 3A: Arts

GROUP 3B: Humanities

AREA 4: Social and Behavioral Sciences (9 units) - Take three courses from at least two disciplines.

AREA 5: Physical and Biological Sciences (7-9 units) - At least one Physical Science and one Life Science. One laboratory activity is required. Laboratory activities indicated with an asterisk *

GROUP 5A: Physical Sciences (One course)
ASTR B1, B2, B3 CHEM B1A*, B2A*, B11*, B18* ERSC B10 GEOG B1, B3 GEOL B10, B11 PHYS B2A*, B4A*

GROUP 5B: Biological Sciences (One course)
ANTH B1 BIOL B3A*, B3b*, B11*, B16*, B32*, B33* CRPS B5* PSYC B1B

GROUP 5C: Laboratory Science
ERSC B10L GEOG B1L GEOL B10L, B11L or one lab course from Group 5A or 5B indicated by an asterisk *

AREA 6: Language Other than English - UC Requirement Only - Competence demonstrated by one of the following:

1. Completion of two years of a foreign language in high school with grades of “C” or better.
2. Achieve a score of 3 or higher on a College Board Advanced Placement (AP) Examination in a language other than English.
3. Achieve a score of 5 or higher on an International Baccalaureate (IB) Higher Level examination in a language other than English.
4. Completion of one of the following courses with a grade of “C” or better:
   ASL B1, B2, B3, B4 JAPN B1, B2 SPAN B1, B2, B3, B4, B35, B36

CSU U.S. History, Constitution, and American Ideals Certification - Recommended - Take six units from one combination:

POLS B1 and HIST B17A, B17B, B20A, B20B, B30A, B30B, B36
or
HIST B17A and POLS B1 or POLS B12 or HIST B18

Important Notes About IGETC

All courses used on the IGETC pattern must be completed with grades of “C” or better.
SciGETC 2018-19

LEGEND:  N = Needed; IP = In Progress;  C = Completed
Catalog Rights do not apply to the IGETC for STEM (SciGETC).

AREA 1: English Communication - One course from each group. UCs only require Group A and B

GROUP 1A: English Composition (3 units)
ENGL B1A

GROUP 1B: Critical Thinking (3 units)
ENGL B2, B3 PHIL B9

GROUP 1C: Oral Communication (CSU Only)
COMM B1, B4, B8

AREA 2: Mathematical Concepts and Quantitative Reasoning (3 units)
MATH B1A, B1B, B2, B6A, B6B, B6C, B6D, B6E, B22, B23 PSYC B5

AREA 3: Arts and Humanities (6 units) - One course from the Arts and one course from the Humanities

GROUP 3A: Arts

GROUP 3B: Humanities

AREA 4: Social and Behavioral Sciences (6 units) - Take two courses from at least two disciplines.

AREA 5: Physical and Biological Sciences (7-9 units) - At least one Physical Science and one Life Science. One laboratory activity is required. Laboratory activities indicated with an asterisk *

GROUP 5A: Physical Sciences (One course)
ASTR B1, B2, B3 CHEM B1A*, B2A*, B11*, B18* ERSC B10 GEOG B1, B3 GEOL B10, B11 PHYS B2A*, B4A*

GROUP 5B: Biological Sciences (One course)
ANTH B1 BIOL B3A*, B3B*, B11*, B16*, B32*, B33* CRPS B5* PSYC B1B

GROUP 5C: Laboratory Science
ERSC B10L GEOG B1L GEOL B10L, B11L or one lab course from Group 5A or 5B indicated by an asterisk *

AREA 6: Language Other than English - UC Requirement Only - Competence demonstrated by one of the following:

1. Completion of two years of a foreign language in high school with grades of “C” or better.
2. Achieve a score of 3 or higher on a College Board Advanced Placement (AP) Examination in a language other than English.
3. Achieve a score of 5 or higher on an International Baccalaureate (IB) Higher Level examination in a language other than English.
4. Completion of one of the following courses with a grade of “C” or better:
   ASL B1, B2, B3, B4 JAPN B1, B2 SPAN B1, B2, B3, B4, B35, B36

CSU U.S. History, Constitution, and American Ideals Certification - Recommended - Take 6 units from one combination:
POLS B1 and HIST B17A, B17B, B20A, B20B, B30A, B30B, B36
or
HIST B17A and POLS B1 or POLS B12 or HIST B18

Important Notes About IGETC

All courses used on the IGETC pattern must be completed with grades of “C” or better.
The UC will accept the IGETC for STEM if a student is earning an associate degree for transfer (ADT) in Biology or Chemistry at a community college that offers IGETC for STEM as an option for those degrees, and the UC will accept partial certification of IGETC.
California State University General Education Breadth (CSU GE)

About the CSU GE Pattern

The California State University General Education-Breadth (CSU GE) pattern is one option that allows California community college transfer students to fulfill the lower-division general education requirements of any California State University (CSU) campus. The curriculum consists of a 39-unit pattern with five areas of concentration described in the CSU GE pattern.

For assistance in determining the most appropriate general education program, consult a counselor.

Certification of CSU GE Requirements

Official notification from a California community college that a transfer student has completed courses fulfilling lower-division general education requirements occurs through a process of “certification.” Certification is a legal agreement between the CSU and California Community Colleges.

It is the policy of Bakersfield College to provide certification of general education breadth requirements when such service is requested by the student or whenever a student requests that a transcript be sent to a CSU or UC if the student has completed all of 39 units for certification. Certification of general education courses is generally requested when the CSU GE pattern has been completed.

Additional CSU GE Information and Restrictions

- Completion of the CSU GE pattern is not an admission requirement nor does completion guarantee admission to any CSU campus or program.
- Certification is based on approved courses listed in the Bakersfield College CSU GE pattern or from other regionally accredited institutions. Courses taken at other community colleges must fulfill the appropriate GE breadth area as defined by that college.
- Courses completed at a foreign college or university cannot be used to satisfy requirements for certification.
- Certification requires all official transcripts from all colleges and universities attended must be on file before submitting an application for certification.
- Official transcripts from all colleges and universities attended must be on file before submitting an application for certification. The application is available in the Admission and Records office.
- The CSU GE pattern is accepted by some California private and independent colleges and universities in satisfying lower division general education requirements.
- For additional information, consult a counselor.

The CSU GE Pattern (See chart on 4)

The California State University, before awarding a degree, requires students to complete courses or examinations that address:

1. The historical development of American institutions and ideals (Area US-1), and
2. The Constitution of the United States and the operation of representative democratic government under that Constitution (Area US-2), and
3. The process of California state and local government (Area US-3).

This requirement may be fulfilled at a California Community College prior to transfer by completing a combination of courses that satisfies all three areas of the requirement. The requirement may also be completed at a CSU campus after transfer. Courses approved in two US areas may be used to satisfy both areas.

Although this requirement is not part of the General Education requirements for CSU, all students must complete course work in U.S. History, Constitution and Government before graduation from a CSU campus. The courses may also be used to partially fulfill Area D of the CSU General Education Breadth requirements.

Completion of these courses at Bakersfield College is recommended and is not required for Certification.

Students who wish to meet these requirements at Bakersfield College prior to transferring to a CSU campus may take up to six semester units from the combinations below.

POLS B1 and one of the following: HIST B17A, B17B, B20A, B20B, B30A, B30B, B36 or
HIST B17A and one of the following: POLS B1 or POLS B12 or HIST B18.

Other Transfer General Education Options

Some transfer students are best served by following a general education pattern other than the IGETC or CSU GE patterns. These typically include students who fall into one of the following three categories:

1. Students entering high unit majors such as an engineering or science discipline. Major preparation for the engineering and science fields typically consists of a high number of units. Most universities prefer (and some require) that these preparation for major courses be completed prior to transfer. Therefore, it may be more beneficial for students entering these majors to complete relatively fewer GE courses and more major preparation courses at the community college, while still meeting the minimum admission requirements of the university. Students should review the catalog, other published advising materials of the university and major to which they intend to transfer, and www.assist.org for students transferring to the UC or CSU system and a Bakersfield College counselor for assistance in selecting appropriate courses.

2. Students transferring to a private/independent or out-of-state university. Some private/independent and out-of-state universities accept IGETC or CSU GE, but most do not. Instead, each university has its own unique GE pattern.

3. Bakersfield College has established articulation agreements with some of these institutions. These agreements specify the courses students can complete at Bakersfield College to fulfill the university’s GE requirements. They are available at InsideBC on the Transfer Portal. For information on transferring to a private/independent or out-of-state university, visit the Transfer Center.

4. Students may choose to complete the GE requirements for one specific university, rather than the more universally applicable IGETC or CSU GE patterns, for several reasons:
   - Some universities and/or majors do not accept IGETC and instead suggest following the university’s own GE pattern.
   - Some students know that they will attend only one university (such as those with a guarantee of transfer admission) and so plan to complete the specific GE pattern for that institution only.
• Some university-specific GE patterns require fewer total units than IGETC or CSU GE.

Each university’s unique GE pattern can be found in their university catalog. In addition, some UC and CSU campuses have posted general education patterns on the ASSIST website at assist.org.

Guaranteed Admission Programs
Bakersfield College offers a number of Guaranteed Admission Programs with several schools including: UC Davis, UC Irvine, UC Merced, UC Riverside, UC Santa Barbara, UC Santa Cruz, as well as CSUB Stem majors. Come to the Transfer Center for program requirements or go to the Transfer Portal on InsideBC.

Plan early as some agreements must be signed at least a year in advance of the transfer semester/quarter. Interested students are strongly urged to meet with the Transfer counselor or attend a Transfer Admission Guarantee (TAG) workshop for details on eligibility requirements as they change every year.

Applying to a University
Universities require you to apply and be admitted before you start attending school there. All students who apply must meet the minimum requirements (usually certain coursework requirements and a minimum transferable GPA). Some schools accept all transfer students who meet the minimum requirements, while others go through a selection process to determine which students will be offered admission.

Application dates and deadlines
Different systems have different dates and deadlines to apply. If you plan to attend a private/independent or out-of-state university, you should check with that school to find their application deadline and procedures. The following dates and deadlines apply to California public universities only:

**California State University**

All campuses are open for any given Fall term. For Winter/Spring terms, students should verify that the specific campus accepts transfers for that specific term. Check Cal State Apply for CSU campuses and University of California for UC campuses.

Each campus accepts applications until the end of the filing period or until capacities are reached. If applying after the initial filing period check the campus websites to verify if the campus is still open.

How to apply
The UC and CSU systems strongly encourage all students to apply using the online application process. Not only does it make it easier to read and evaluate the application, but the websites also “check your work” to make sure students are not missing any required information before submitting the final application.

The UC application is available at: University Of California Admissions

The CSU application is available at: Cal State Apply
CSU General Education Breadth 2018-2019

LEGEND: N = Needed; IP = In Progress; C = Completed
Catalog Rights do not apply to the CSU GE Breadth.

AREA A: English Language Communication and Critical Thinking (9 units) - Take three units in A.1., three units in A.2, three units in A.3. All courses in Area A must be completed with a grade of “C” or better.

A.1. Oral Communication (3 units)
COMM B1, B4, B8

A.2. Written Communication (3 units)
ENGL B1A

A.3. Critical Thinking (3 units)
ENGL B1B, B2, B3, PHIL B7, B9, COMM B5

AREA B: Scientific Inquiry and Quantitative Reasoning (9 units) - At least one course each in Areas B.1., B.2, B.4. A grade of “C” or better is required for Area B.4. One laboratory activity is required. Laboratory activities are indicated by an asterisk.*

B.1. Physical Sciences (One course)

B.2. Life Sciences (One course)
ANTH B1, BIOI B3A*, B3B*, B11*, B18*, B32*, B33*, CRPS B5*, PSYC B1B

B.3. Laboratory Activity
ERSC B10L, GEOG B1L, GEOL B10L, B11L or one lab course from Area B.1. or Area B.2 indicated by an asterisk.*

B.4. Mathematics/Quantitative Reasoning (One course)

AREA C: Arts, Literature, Philosophy, and Foreign Language (9 units) - At least one course each from Area C.1. & C.2.

C.1. Arts

C.2. Humanities

AREA D: Social Sciences (9 units) - Take three courses in at least two different discipline areas

AREA E: Lifelong Learning and Self-Development - Take three units. A maximum of one unit of credit is allowed for PE.

CSU U.S. History, Constitution, and American Ideals Certification - Recommended - Take 6 units from one combination.

POLS B1 and HIST B17A, B17B, B20A, B20B, B30A, B30B, B36 - OR - HIST B17A and POLS B1 or POLS B12 or HIST B18

Important Notes About CSU General Education Certification

A total of 39 units will be credited towards General Education. For certification, student must complete at least 24 units in residence.
**Final Steps to Transfer**

Many universities require you to submit documents, take assessment exams, attend mandatory orientations, or meet other requirements before you enroll. It is very important that you check your email regularly so that you do not miss deadlines. It’s also a good idea to apply for your local Bakersfield College degree and General Education certification from Bakersfield College prior to transfer. You should do as much as you can now to make the transition to your university as smooth as possible.

**Graduation - Candidacy for Graduation Application**

*Completing Degrees, Certificates and Transfer at BC*

Graduation from Bakersfield College is not automatic. You must fill out a Graduation Petition and a degree analysis with a counselor or advisor. Petition to graduate even if you are only completing transfer coursework. Some transfer students may be eligible to receive a Liberal Arts Associate degree. Petitions to graduate should be submitted prior to your last semester at Bakersfield College according to these dates:

It is recommended that students apply early in the academic year as a response will be sent from the Office of Admissions and Records to the student’s address which will detail the progress and any courses that may still be needed to complete degree requirements. Students are encouraged to meet with their counselor if there are questions about academic program requirements.

**Transcripts from Other Colleges**

All official college transcripts or other appropriate verifying documents must be on file with Bakersfield College in order for the Office of Admissions and Records to review applications and determine eligibility.

Students who qualify will receive their diploma in the mail approximately eight (8) weeks after the end of the semester.

**File for General Education (GE) Certification**

GE Certification is a legal agreement between Bakersfield College and a California public university (UC or CSU campus) that all of your lower division GE requirements have been completed. Certification can be awarded for either the entire IGETC or CSU GE patterns, or for part of the CSU pattern. Some California private/independent institutions also accept IGETC or CSU GE certification. You should file for GE certification when you are enrolled in your final GE courses and know which university you will be attending. Apply at the Office of Admissions and Records, Transcript window.

**Attend Commencement**

You don’t have to attend Bakersfield College graduation to transfer or to receive your degree, but it’s a great way to celebrate and be publicly recognized for your achievement. You earned it! Commencement ceremonies are held once a year in May. Students who complete their degree requirements during the fall, spring, or summer prior to the ceremony or will complete them during the following summer are eligible to participate.

**Other Transfer Information**

*Submit Intent to Register and Transcripts*

After offering you admission, most universities require you to send a statement of intent to register (SIR), official transcripts, a deposit, and sometimes additional materials. Review your university admission paperwork for details. Information on ordering transcripts from Bakersfield College is available online on the Transcript page.

*Attend New Student Orientation*

Most universities offer a new student orientation day (some require that you attend), where you learn about university services and requirements, get academic advising, tour the campus, etc. Review your university admission paperwork for details.

*Complete Assessment Tests*

Some universities require transfer students to complete assessment tests either prior to enrollment or during their first year of attendance. Review your university admission paperwork for details.

*Find Housing*

Are you going to live on campus? If so, you will need to apply for campus housing. Check your university online portal account for housing submission dates. If you are going to live off campus, visit your university housing office for listings.

*Send Your Final Transcripts*

You are usually required to send your university a final official transcript after the end of your last regular semester prior to transfer. Information on ordering transcripts from Bakersfield College is online on the Transcripts page.

*Meet Immunization Requirements*

Most universities require documentation of immunization against certain communicable diseases like measles or rubella. Review your university admission paperwork for more information.

*UC Transfer and Physical Education Courses*

The University of California grants a maximum of four semester units of credit for appropriate Physical Education activity courses. Courses that are subject to this limit are listed as such on the college’s UC Transfer Course Agreement, available at ASSIST.org under the UC Transferable Courses link.

*UC Transfer and Variable Topics Courses*

These courses are also called “Independent Studies”, “Special Studies”, “Special Topics”, “Internships”, “Field Work”, etc. Credit for variable topics courses is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. UC does not grant credit for variable topics courses in Journalism, Photography, Health, Business Administration, Architecture, Administration of Justice (Criminology), or Library Departments because of credit restrictions in these areas.
The Kern Promise

What is the Kern Promise Program?
The Kern Promise is a commitment to help students complete their Associate Degree for Transfer (ADT) within two instructional years through structured support and priority access to courses. Upon successful completion of The Kern Promise and Associate Degree for Transfer, students will be guaranteed junior standing admission at one of the 23 campuses of the California State University system.

Eligible students interested in participating in the program will need to apply during the application period for the cohort beginning in Fall.

Eligibility Requirements
- First time, incoming college student
- Graduating from a Kern County high school during the year of application to the Kern Promise Program
- Declared an Associate Degree for Transfer Pathway
- Have a completed FAFSA or California Dream Act Application on file
- Eligible for enrollment in college level English (ENGL B1A) and Math applicable to the declared major (MATH B22, B1A, B1B, B4A, B6A, PSYC B5, or higher)
- Ability to attend full-time (30 units per year)
- An incoming cumulative (9th - 11th grade) GPA of 2.6

The following matriculation steps must be completed prior to application to the Kern Promise:
- Application to the college
- Orientation
- Assessment

How to apply to the Kern Promise Program
Please see the Kern Promise application website.

Once accepted into The Kern Promise, you are required to attend Promise Day and complete a Promise Agreement, signifying your commitment to the program and its requirements to begin your two-year journey toward graduation and/or transfer. Information about “Promise Day” can be found on the Kern Promise application website.

Majors that qualify for the Kern Promise Program:
- Administration of Justice (AS-T)
- Agriculture Animal Science (AS-T)
- Agriculture Business (AS-T)
- Agriculture Plant Science (AS-T)
- Anthropology (AA-T)
- Art History (AA-T)
- Biology (AS-T)
- Business Administration (AS-T)
- Chemistry (AS-T)
- Communication Studies (AA-T)
- Computer Science (AS-T)
- Early Childhood Education (AS-T)
- Economics (AA-T)
- Elementary Teacher Education (AA-T)
- English (AA-T)
- Geology (AS-T)
- History (AA-T)
- Journalism (AA-T)
- Kinesiology (AA-T)
- Mathematics (AS-T)
- Music (AA-T)
- Philosophy (AA-T)
- Physics (AS-T)
- Political Science (AA-T)
- Psychology (AA-T)
- Public Health (AS-T)
- Sociology (AA-T)
- Spanish (AA-T)
- Studio Arts (AA-T)
- Theatre Arts (AA-T)

Benefits of the Kern Promise Program
- Renegade Scholarship financial support*
- Priority registration to ensure you get the classes you need
- A Comprehensive Student Educational Plan (CSEP) that maps out your classes from your first semester to your last
- A Completion Coach to serve as a resource and provide structured support to enable completion of a degree and/or transfer within 2 years
- Connections with peers on similar paths and timelines
- Recognition at the annual Student Leadership and Involvement Awards Ceremony
- Free tickets to home football games

*Financial support available to eligible students
Graduation Requirements

Certificates and Degrees
Students have many different goals in mind when they enroll at Bakersfield College. Some plan to earn a certificate to enhance their job skills while others want to earn an associate degree and/or transfer to a four-year university. Bakersfield College offers the following certificate and degree programs:

- Associate of Arts and Associate of Science degrees can be used to obtain necessary skills for a range of possible careers, or they may be used to transfer to a four-year institution.
- Associate in Arts/Associate in Science for Transfer degrees (AA-T, AS-T). Students will earn an associate degree as well as being transfer-ready.
- Certificates of Achievement are awarded to students who complete formal instructional programs of at least 18 units designed to prepare them for a specific field or endeavor.
- Job Skills Certificates are awarded upon the satisfactory completion of coursework (less than 18 units) in a specific area of study.

Students who plan to seek immediate employment rather than to transfer usually choose to meet the Bakersfield College General Education Requirements.

Graduation with an Associate Degree
The awarding of an associate degree is intended to represent more than an accumulation of units. It symbolizes a successful attempt on the part of the college to lead students through patterns of learning experiences designed to develop certain capabilities and insights: the ability to think and to communicate clearly and effectively both orally and in writing; to solve problems and to use mathematics; to understand the modes of inquiry of the major disciplines; to be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capability for self-understanding. In addition to these accomplishments, the student shall possess sufficient depth in some field of knowledge to contribute to lifetime interest. (Title 5)

The associate degree shall be conferred by the Board of Trustees of the Kern Community College District upon a Bakersfield College student who has satisfactorily completed the requirements. These requirements are consistent with those prescribed by the Board of Governors of the California Community Colleges and the Board of Trustees of the Kern Community College District.

Associate in Arts/Sciences Degrees for Transfer (AA-T/AS-T)
California Community Colleges are now offering associate degrees for transfer to the California State University. These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a California State University major and baccalaureate degree.

California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the California State University system and given priority admission consideration to their local California State University campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units.

To view the most current list of Bakersfield College Associate Degrees for Transfer and to find out which California State University campuses accept each degree, please visit the A Degree with a Guarantee website at www.adegreewithaguarantee.com. Current and prospective community college students should meet with an advisor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

Graduation
Completing Degrees, Certificates and Transfer at BC
Graduation from Bakersfield College is not automatic. You must fill out a Graduation Petition and a degree analysis with a counselor or advisor. Petition to graduate even if you are only completing transfer coursework. Some transfer students maybe eligible to receive a Liberal Arts Associate degree. Petitions to graduate should be submitted prior to your last semester at Bakersfield College according to these dates:

It is recommended that students apply early in the academic year as a response will be sent from the Office of Admissions and Records to the student’s address which will detail the progress and any courses that may still be needed to complete degree requirements. Students are encouraged to meet with their counselor if there are questions about academic program requirements.

Transcripts from Other Colleges
All official college transcripts or other appropriate verifying documents must be on file with Bakersfield College in order for the Office of Admissions and Records to review applications and determine eligibility.

Students who qualify will receive their diploma in the mail approximately twelve weeks after the end of the semester.

Commencement Ceremonies
Commencement ceremonies are held once each year in May. Students who complete their degree requirements during the fall, summer, or spring prior to the ceremony or who will complete them in the following summer are eligible to participate. Students planning to complete during the following summer must:

- file a candidacy request between October 15 and April 1
- need only one course or less than five units for completion
- submit documentation of registration for the required course(s)
General Requirements

1. Educational Planning: Completion of a designated course and a student education plan within the first 15 units at Bakersfield College. Choose from the following:
   • Agriculture: AGRI B1
   • Allied Health: NURS B99
   • Applied Science and Technology: INDT B10
   • FACE: FDSV B50
   • Physical Education: PHED B1A
   • Physical Science: ARCH B1; ENGR B47
   • Student Development: STDV B1, B2, B3, B6
2. Completion of 60 degree applicable units, with a ‘C’ (2.0) grade point average or better
3. Completion of at least 12 of the 60 units at Bakersfield College.
4. Completion of an A.A. or A.S. Program of Study offered at Bakersfield College. Required courses of the program must be completed with a grade of ‘C’ or better.
5. Competency Requirements:
   • Composition: Successful completion of Area A.2. with a grade of ‘C’ or better.
   • Mathematics: Successful completion of MATH B1A, B1B, B2, B4A, B6B, B6C, B22, B23, B70 PSYC B5, B6 TECM B52 with a grade of ‘C’ or better.
   • Reading: a satisfactory score on the Bakersfield College Placement Test.
6. Complete one of the following General Education Patterns.
   • Bakersfield College General Education, or
   • California State University General Education Breadth, or
   • Intersegmental General Education Transfer Curriculum (IGETC). (See General Education Requirements)
7. Completion of at least one course that meets the Multicultural Requirement with a grade of ‘C’ or better.

Multicultural Requirement

Multicultural study promotes awareness of and sensitivity to diverse beliefs and practices in contemporary society. Bakersfield College requires students to take courses that are inclusive of multicultural perspectives found in American and global society. This requirement may be satisfied through studying the distinctive cultures of the United States or the world, including but not limited to ethnicity, gender, class, political systems, religions, or human geography.

American Cultural and Ethnic Groups

This requirement includes courses that lead to an understanding of ethnic groups and cultures in American society. Courses will focus on themes that address the theoretical or analytical issues relevant to understanding race, culture, and ethnicity. This exploration can be accomplished through the study of, but not limited to: African Americans, Native Americans, Asian Americans, Chicano/Latino Americans, and European Americans from integrative and comparative viewpoints as they relate to the larger context of American history, society, and culture.

World Cultures

Students may develop a multicultural perspective through a study of world cultures and their relationship to America in a global society. The study of the history, society, or culture of a foreign country and its relationship to America can demonstrate the interdependence of all nations in a global political, economic and social infrastructure. Courses meeting this requirement should not be based solely on Western Civilization.

Multiple Degrees

An associate of arts or associate of science degree will be awarded to those already possessing an associate or higher degree if:
1. All requirements in a different major from that of previous associate or higher degree are satisfied; and
2. All general education requirements in effect when beginning the new degree program are satisfied; and
3. The student is enrolled at Bakersfield College during the semester in which the degree requirements are completed.

General Education

The General Education Program at Bakersfield College includes those courses required of all students, regardless of major or career goals, for the associate degree or for transfer to some four-year institutions. The program is intended to be more than a requirement; it can be an exciting, dynamic, and essential part of a student’s education.

The General Education Program has been designed to address the needs of men and women of all ages, abilities, ethnic identities, life styles, and goals. Through general education, the college seeks to foster knowledge, skills, and attitudes that will empower students to shape the direction of their lives and their environment. Its goal is to encourage students to strive for the highest quality of life, both at leisure and at work, for themselves, their families, and the larger community.

Recognizing the certainty of change, the college, through the General Education Program, hopes to prepare students to meet the challenges of the twenty-first century. Specifically, the program will assist them to develop and acquire the following:

- Global Consciousness: an awareness of the complexity and diversity of the world, with its interplay of environmental, social, cultural, political, and economic forces, and an understanding of the unique role that each person plays in the system of relationships which extends from family to the international community.
- Communication Skills: the ability to convey ideas, values, feelings, and knowledge accurately and effectively through written, oral, aesthetic, and technological media across personal, cultural, and national boundaries.
- Adaptability: the willingness and confidence to accept and respond creatively to change, and the ability to analyze, think critically, solve problems, and resolve personal and interpersonal conflicts.
- Responsibility: A respect for ethics, citizenship, and leadership, and a commitment to personal health and emotional growth which enable one to participate in life rather than react to it.
- Knowledge: the body of information, reflecting both quantitative and qualitative reasoning, in the arts, sciences, and technology, their modes of inquiry and expression, their interrelationships, and the methods of accessing information in all areas of study.

The general education program thus seeks to assist students to succeed in the present and to inspire them to approach the future with a commitment to life-long learning.

Because certain basic competencies are necessary for an educated person, the General Education Program specifically requires competency testing (or course alternatives) in reading, written expression, and mathematics.
Institutional Level Learning Outcomes

Upon completion of an associate degree, a student will:

I. Pursue knowledge and evaluate its consequences
   A. Think critically, abstractly, logically, and algorithmically to evaluate and solve problems.
   B. Integrate new information to formulate principles and theories and display openness to different opinions.
   C. Share the desire for intellectual creativity and acquisition of knowledge.

II. Communicate clearly and effectively in both written and oral forms.

III. Demonstrate knowledge and abilities in a chosen area of study.
   A. Demonstrate an understanding of resources and procedures of a field and the ability to use them.
   B. Demonstrate the ability to use current technology to acquire, organize, and analyze information appropriately.
   C. Possess a core of knowledge and skills in a chosen field.

IV. Appreciate civic responsibilities.
   A. Reflect upon the cultural and ethical dimensions of life.
   B. Contribute to society as an actively engaged citizen.

General Education Student Learning Outcomes

A.1. Oral Communication
   1. Form and present informative persuasive messages.
   2. Demonstrate competence in both active and emphatic listening.
   3. Present oral messages to appropriate audiences and adhere to conventions of message delivery.
   4. Manage personal communication apprehension and anxiety.

A.2. Written Communication
   1. Identify the controlling idea and the main points of college-level expository and argumentative essays.
   2. Evaluate expository and argumentative essays through the application of critical thinking techniques.
   3. Write logical and coherent expository and argumentative essays, summaries, and paraphrases using correctly the standard conventions of written English.

B.1. Natural Sciences
   1. Demonstrate a knowledge of natural phenomena and recognize the processes that explain them.
   2. Demonstrate a knowledge of scientific methodologies when solving a problem.
B.2. Mathematics and Logic (Analytic Thinking)
1. Apply formal systems of reasoning in solving problems or analyzing arguments.

C.1. Introduction to the Arts
1. Demonstrate an understanding of and an ability to describe the ways in which arts, literature, philosophy or foreign languages reflect historical, intellectual, and cultural contexts, as well as aesthetic tastes.
2. Demonstrate the ability to recognize, describe and/or produce various components of an art form or language either visually and/or auditorily.

C.2. Introduction to the Humanities
1. Demonstrate an understanding of and an ability to describe the ways in which arts, literature, philosophy or foreign languages reflect historical, intellectual, and cultural contexts, as well as aesthetic tastes.

D.1. Foundations in the Behavioral Sciences
1. Demonstrate an understanding of the perspectives, theories, methods, and core concepts of the behavioral sciences.
2. Explain the major problems and issues in the disciplines in their contemporary, historical, and geographical contexts.
3. Demonstrate an understanding of and an ability to describe the contributions and perspectives of women, ethnic and other minorities, and Western and non-Western peoples.

D.2. Foundations in the Social Sciences
1. Demonstrate an understanding of the perspectives, theories, methods, and core concepts of the social sciences.
2. Explain the major problems and issues in the disciplines in their contemporary, historical, and geographical contexts.
3. Demonstrate an understanding of and an ability to describe the contributions and perspectives of women, ethnic and other minorities, and Western and non-Western peoples.

D.3. American (U.S.) Institutions
1. Demonstrate an understanding of the perspectives, theories, methods, and core concepts of the social sciences.
2. Explain the major problems and issues in the disciplines in their contemporary, historical, and geographical contexts.
3. Demonstrate an understanding of and an ability to describe the contributions and perspectives of women, ethnic and other minorities, and Western and non-Western peoples.

E. Lifelong Understanding and Self-Development
1. Critically examine the development of the individual as an integrated physiological, psychological, spiritual, and social being.
2. Identify, describe and explain the interactions of the internal and external influences and effects in human development and behavior over the course of the human life span.

- Primary Care Physician Assistant
Administration of Justice

Degree
Administration of Justice, Associate of Science Degree for Transfer
Administration of Justice
Associate in Science Degree for Transfer

The Associate in Science in Administration of Justice for Transfer degree (AS-T in Administration of Justice) is intended to prepare students to transfer to CSU campuses that offer bachelor’s degrees in Administration of Justice or Criminal Justice. Students who complete this degree will receive “priority admission with junior status to the California State University system”. This degree requires students to complete 60 CSU transferable units including completion of CSU GE or IGETC and 18-20 units in the major with a cumulative GPA of 2.0 or better. Title 5 requires that students earn a grade of ‘C’ or better in all major coursework. A ‘P’ (Pass) grade is not acceptable for courses in the major. There are no additional graduation requirements. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

Program Learning Outcomes
Upon successful completion, the student will:

• be able to identify, analyze, and apply the fundamental theories and concepts underlying the American Criminal Justice system.
• be able to identify and describe the operational elements of the major components comprising the American Justice system.
• be able to identify, analyze, and apply basic legal principles and rules to factual situations.
• be able to identify and implement the principles and procedures utilized in legitimate scientific and criminal investigation.

• be able to demonstrate multicultural awareness and respect for constitutional and human rights.
• be able to identify, analyze, and apply the ethical components of discretionary decision-making in the three major components of the criminal justice system: police, courts, and corrections.
• be able to demonstrate respect for the dignity and humanity of victims, perpetrators, and wrongfully convicted persons.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:

• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Total Units: 18-19

Agriculture - Animal Science
Associate in Science Degree for Transfer

The Associate in Science in Agriculture Animal Science for Transfer is designed to provide students a clear pathway to the CSU Animal Science major and completion of the Animal Science baccalaureate degree. The Animal Science major prepares students for occupations in those areas of agriculture involving production, managing, and marketing of livestock. Both the scientific and practical aspects of the production of horse, beef, sheep, swine, dairy cattle and companion animals are stressed in the courses.

Program Learning Outcomes
Upon successful completion, the student will:
- Demonstrate artificial insemination procedures, proper record keeping in the field of animal science, and skills in day to day animal production such as proper care, feeding, and reproduction.
- Practice the proper basic principles of animal safety, evaluate performance such as growth and feed conservation.
- Demonstrate specific skills in animal science such as production, genetics, and nutrition within the animal science discipline needed for employment.
- Identify conformation qualities in cattle, sheep, swine, and dairy cattle.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
- A minimum of 18 semester units in a major area of emphasis, as determined by the district.
- The obtainment of a minimum grade point average of 2.0.
- The completion of all courses required for the major with a 'C' or better. A 'P' (Pass) grade is not acceptable for courses in the major.

Total Units: 20-21

Agriculture - Animal Science
Associate of Science Degree

The Animal Science major prepares students for occupations in those areas of agriculture that involve livestock production and related agribusinesses. Both the scientific and practical aspects of the production of horse, beef, sheep, swine, dairy cattle, poultry, and companion animals are the focus of courses.

Program Learning Outcomes
Upon successful completion, the student will:

• demonstrate AI procedures, proper record keeping in the field of animal science, and skills in day to day animal production such as proper care, feeding, and reproduction.
• be able to practice proper basic principles of animal safety, evaluate performance such as growth and feed conservation.
• demonstrate specific skills in animal science such as production, genetics, and nutrition within the animal science discipline needed for employment.
• identify conformation qualities in cattle, sheep, and swine.

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Associate of Science degree.

Total Units: 26
Required Courses
Course # Name Units
AGBS B2 Agricultural Economics 3.0
AGRI B1 Agriculture, Environment and Society 3.0
ANSC B1 Introduction to Animal Science 3.0
WEXP B248 Occupational Work Experience Education 3.0
AGRI B49 Agriculture Leadership Training 2.0

Select 6 units from the following
Course # Name Units
ANSC B2 Beef Production 3.0
ANSC B3 Sheep Production 3.0
ANSC B4 Dairy Production 3.0
ANSC B10 Horse Production 3.0
ANSC B5 Swine Production 3.0

Select 6 units from the following
Course # Name Units
ANSC B6 Applied Animal Nutrition 4.0
ANSC B7 Animal Diseases 3.0
ANSC B11 Livestock Selection & Evaluation 3.0

Agriculture - Animal Science Certificate of Achievement

Agriculture - Animal Science Certificate of Achievement prepares students for entry level employment in food animal production and animal management and care. This program prepares students for careers in Animal Science and entry level production jobs such as feed mill technician, beef technician, swine technician, poultry technician, animal groomer, small animal assistant technician, and pet store employee.

Program Learning Outcomes
Upon successful completion, the student will:

• identify and implement sustainable livestock management practices that will improve livestock quality, provide efficacious management, protect the natural resources, and ensure economic viability of the livestock industry.
• demonstrate specific skills in animal science such as production, genetics, and nutrition within the animal science discipline needed for employment.
• demonstrate a working knowledge of animal production life cycles to develop a ranch management calendar that incorporates scientifically based management decisions and the latest technological advances in livestock husbandry.
• identify and evaluate livestock anatomy and physiology and relate form to function.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Agriculture - Animal Science Certificate of Achievement.

Total Units: 33
Required Courses
Course # Name Units
AGRI B1 Agriculture, Environment and Society 3.0
ANSC B1 Introduction to Animal Science 3.0
AGRI B49 Agriculture Leadership Training 2.0

Select 22 units from the following
Course # Name Units
ANSC B2 Beef Production 3.0
ANSC B3 Sheep Production 3.0
ANSC B4 Dairy Production 3.0
ANSC B6 Applied Animal Nutrition 4.0
ANSC B7 Animal Diseases 3.0

ANSC B11 Livestock Selection and Evaluation 3.0
ANSC B22 Animals and Society 3.0
ANSC B83 Introduction to Veterinary Technology 4.0
ANSC B10 Horse Production 3.0
ANSC B6 Applied Animal Nutrition 4.0

Select 3 units from the following
Course # Name Units
ANSC B11 Livestock Selection and Evaluation 3.0
CRPS B2 Forage Crops 3.0
NRES B1 Range Management 3.0
Agriculture Business
Associate in Science Degree for Transfer

The Associate in Science in Agriculture Business for Transfer degree is designed to provide students a clear transfer pathway to the CSU agriculture business major and completion of the agriculture business baccalaureate degree, to grant guaranteed admission to a CSU to a similar major with junior standing, and the ability to complete their remaining requirements within 60 semester or 90 quarter units. Students must complete 60 semester units of 90 quarter units of degree-applicable courses. This must be accomplished with a minimum overall grade point average of 2.0, a minimum grade of “C” (or “P”) for each course in the major and completion of the IGETC and/or CSU GE-Breadth.

The Associate in Science in Agriculture Business for Transfer degree provides a study of key Agribusiness concepts. Careers in agriculture such as farm management, accounting, marketing of agricultural products, sales, and services require training in business courses such as accounting, computers and salesmanship. Agriculture Business majors will be able to apply the concepts, principles, and terminology of business (economics, management, finance, marketing, and others) to real-world issues and opportunities in the agricultural and life sciences industries.

Program Learning Outcomes
Upon successful completion, the student will:

• upon completion of the Agriculture Business Associate of Science Degree for Transfer the student will demonstrate the ability to explain microeconomic and macroeconomic concepts, analyze and evaluate agribusiness problems and management decisions, and perform basic algebra and introductory calculus operations in the context of applied economic analysis and optimization.

• upon completion of the Agriculture Business Associate of Science Degree for Transfer the student will demonstrate skills in fundamental agribusiness principles and analysis techniques into logical decision-making constructs.

• upon completion of the Agriculture Business Associate of Science Degree for Transfer the student will develop strong communication skills, both oral and written, for the purpose of conveying the results of business analyses in a clear, persuasive, and informative manner.

• upon completion of the Agriculture Business Associate of Science Degree for Transfer the student will apply the concepts, principles, and terminology of business (economics, management, finance, marketing, and others) to real-world issues and opportunities in the agricultural and life sciences industries.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:

• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.

• A minimum of 18 semester units in a major area of emphasis, as determined by the district.

• The obtainment of a minimum grade point average of 2.0.

• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Agriculture Business Management Certificate of Achievement

The Certificate of Achievement in Agriculture Business Management is intended for those students who plan to enter the workforce.

The Agriculture Business Management major is made up of agriculture and agricultural business courses pertaining to the industry. Many jobs in agriculture require training in business courses such as accounting, computers and salesmanship. Career opportunities include farm management, marketing of agricultural products, sales and services.

Program Learning Outcomes

Upon successful completion, the student will:

- understand economic concepts and quantitative methods.
- demonstrate critical, integrative, and evaluative thinking.
- have well-developed verbal and written communication skills that are necessary for efficient and clear dissemination of economic analysis, as well as for success in private and public sector careers.
- understand and interpret economic news and trends using economic theory and apply them to agricultural operations for employment that will enhance opportunities and success in agriculture business in the 21st century.
- demonstrate specific skills in agriculture business.
- have an understanding of the business and economics of the agricultural industry, agricultural business, and the implications to the agricultural producer, consumer, and the food system.
- have an understanding of management principles encountered in the day to day operation of an agricultural enterprise.
- understand the production and marketing disciplines needed for employment.

Career Opportunities:

Field Representative: $35,000 - 45,000  
Sales Assistant: $30,000 - 40,000 (possible commission options)  
Marketing Assistant: $30,000 - 40,000  
Business Development Assistant: $40,000 - 50,000  
Warehouse Supervisor: $30,000 - 40,000  
Procurement Assistant: $30,000 - 40,000

To Achieve the Certificate of Achievement

Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Agriculture Business Management Certificate of Achievement.

Agriculture - Plant Science
Associate in Science Degree for Transfer

The Associate in Science in Agriculture Plant Science degree for Transfer is designed to provide students a clear pathway to the CSU agriculture plant science major and completion of the agriculture plant science baccalaureate degree, to grant guaranteed admission to a CSU to a similar major, with junior standing, and the ability to complete their remaining requirements within 60 semester or 90 quarter units.

This program is designed for the plant science student who is interested in transferring to a CSU after graduation. The student may emphasize either the horticultural or crop production aspects of plant science including studies of soils, plant propagation, plant identification, plant pest control, and irrigation.

To Transfer Coursework:
A minimum of 18 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

Bachelors of Science Degree Names:

Program Learning Outcomes
Upon successful completion, the student will:
• identify and utilize pertinent concepts of plant physiology, anatomy, nutrition, reproduction, and pest control to solve plant production problems under field, greenhouse, or landscape conditions.
• identify and utilize pertinent concepts of soil physical, chemical, and biological properties and their interactions with plants to solve plant production problems under field, greenhouse, or landscape conditions.
• identify and utilize pertinent concepts of plant propagation to effectively reproduce plants from seed, stems, leaves, roots, natural propagules, and/or small amounts of tissue in culture and to produce grafted plants.

Career Opportunities:
Ag Business Consultant, Arborist, Botanist/Plant Biologist, Floriculturist / Flower Grower, Floral Designer / Florist, Forester, Greenhouse Grower / Manager, Landscape Designer or Garden Consultant, Sports Turf Superintendent, Tree Technician, Urban Forester, Farm Managers.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Agriculture - Plant Science - Horticulture Emphasis
Associate of Science Degree

This program provides instruction in the planting, growing, harvesting, and marketing of field, forage, and vegetable crops as well as irrigated and range pasture crops. Environmental Horticulture focuses on the science and art concerned with landscape design and installation, floral arts, urban forestry, the urban environment, culture, marketing, and utilization of high value, intensively cultivated flowers, fruits, vegetables, ornamental plants and trees. Career opportunities in Crop Science include farm management, agricultural pest control, fertilizer sales and application, soil laboratory technician, irrigation equipment supply and sales, and agricultural research technician.

The Plant Science AS with a Horticulture emphasis has multiple pathways for BC Gen Ed, CSU and IGETC.

To Transfer Coursework:
A minimum of 28 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

Bachelors of Science Degree Names:

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate managerial and leadership abilities in plant science classes for employment that will enhance opportunities and success in the plant science industry in the 21st century.
• master academic proficiency and demonstrate specific skills within plant science disciplines needed for employment within the industry.
• master skills needed for baccalaureate level education or obtain a certificate

Career Opportunities:
Environmental Horticulture career earnings will range from $25,000 to $85,000 / yr - Ag Business Consultant, Arborist, Botanist/Plant Biologist, Christmas tree farmer, Floriculturist / Flower Grower, Floral Designer / Florist, Forester, Greenhouse Grower / Manager, Landscape Designer or Garden Consultant, Sports Turf Superintendent, Tree Technician, Urban Forester, Horticultural Writer.

To Achieve the Associate of Science:
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Agriculture - Plant Science - Horticulture Associate of Science degree.

The program provides a broad general experience in the arts and science to develop an individual with a well-rounded education, and a core of basic courses which furnish the student with a perspective of the scientific and professional area of forestry, natural resources, fisheries and wildlife. The pre-forestry, resource conservation and wildlife management program at Bakersfield College should conform to the recommended program as prescribed by the school to which the student wishes to transfer. Students planning to go to work after completing a two-year degree should complete the Associate in Science degree and not the Associate in Arts degree. Career opportunities include forestry, fishing industries and wildlife management.

Program Learning Outcomes

Upon successful completion, the student will:

- demonstrate managerial and leadership abilities in agriculture classes for employment that will enhance opportunities and success in the agriculture industry in the 21st century.
- master skills needed for baccalaureate level education or obtain a certificate.
- demonstrate specific skills within agriculture disciplines

To Achieve the Associate of Arts

Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded a Forestry Associate of Arts Degree.

Forestry Certificate of Achievement

The Certificate of Achievement in Forestry is designed for students desiring to enter the workforce after completing one year of college. Many technician level careers are available in the forestry/natural resources/wildlife fields. Career opportunities include Forestry, natural resources, wildlife, parks and outdoor recreation, fisheries, rangeland and watershed technician positions.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate managerial and leadership abilities in agriculture classes for employment that will enhance opportunities and success in the agriculture industry in the 21st century.
• master skills needed for baccalaureate level education or obtain a certificate.
• demonstrate specific skills within agriculture disciplines needed for employment.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Forestry Certificate of Achievement.

Registered Veterinary Technician Job Skills Certificate

This certificate prepares students for the California Veterinary Medical Board RVT Licensing Exam. Students must also complete the CVMB required clinic hours by working in a veterinary hospital/clinic. Course eligibility expires five years from the time it is completed for the state exam. Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Registered Veterinary Technicians Job Skills Certificate. Students who do not choose to become licensed RVT’s are still able to work in the field as Animal Health Technicians.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in animal care procedures and skills required for employment and enhancement of opportunities and success in the veterinary/pet care industry.
• master academic proficiency in veterinary medicine needed to obtain a jobs skills certificate.
• improve program graduate success rates for passing California Veterinary Medical Board licensing exam.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Registered Veterinary Technician Job Skills Certificate.

The Heavy Equipment Technician Certificate Signifies that the student has developed the knowledge and skills required for an entry level career in heavy equipment repair. Training in this field prepares students for employment as an equipment repair technician in industries such as but not limited to: Agriculture, Industrial, Construction, Material Handling, and Mining.

Students earning this certificate will have been prepared to earn additional individual stackable job skills certificates.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate their ability to be part of a safe working environment and conditions as well as the appropriate use of PPE’s
• demonstrate a thorough understanding of diesel engine operation theory and the ability to identify all parts and components of a diesel engine
• demonstrate proficiency in diagnosing failures in modern diesel engines, emissions systems, hydraulic systems and integrated equipment systems
• demonstrate the ability to communicate repairs to the customer through written explanations.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Heavy Equipment Technician Certificate of Achievement.

American Sign Language

Degree
American Sign Language, Associate of Arts
American Sign Language
Associate of Arts Degree

The major in American Sign Language provides a linguistic exploration of the various components of ASL and an in-depth examination of the culture of deaf people. The objective of the program is to provide students with a foundation for achieving fluency and the opportunity to transfer to a four-year institution. With additional training, employment opportunities include interpreting, teaching, and social service. If transferring to an institution other than UC or CSU, students should check with the receiving institution to ensure transferability of ASL courses as foreign language credit.

The AA degree is designed to provide students with multiple career pathways including interpreting, social services, and teaching, among others.

Program Learning Outcomes
Upon successful completion, the student will:
• communicate clearly and effectively in ASL, expressing and recognizing specific manual and non-manual language elements.
• share critical insight into the nature of language and culture through continued participation in the deaf community.
• Employ video technology for self-, peer-, and mentor-feedback for ongoing skills development, assessment, and communication.
• produce college level American Sign Language and English texts demonstrating knowledge of, and critical inquiry into, key concepts or issues in American Sign Language, the Deaf Community, and Deaf Culture.

To Transfer Coursework
A minimum of 19 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

To Achieve the Associate of Arts
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an American Sign Language Associate of Arts Degree.

Anthropology

Degree
Anthropology, Associate in Arts for Transfer
Anthropology
Associate in Arts Degree for Transfer

The Associate of Arts in Anthropology Degree for Transfer is designed to provide students a clear pathway to the CSU anthropology major and completion of the anthropology baccalaureate degree, to grant guaranteed admission to a CSU to a similar major, with junior standing, and the ability to complete their remaining requirements within 60 semester or 90 quarter units.

Anthropology is the scientific study of humanity, examining human biology and culture today and in the past; and biological and cultural change through time. Students with an Anthropology major concentrate in one of the following areas: cultural anthropology, linguistic anthropology, biological/physical anthropology or archaeology. The major in anthropology prepares students for a variety of research/academic positions (e.g. museums, colleges and universities, 2003); and non-academic/research positions (e.g. in business, medicine, cultural resource management, government and NGO’s). The objective of this program is to prepare students for transfer to a four-year university. Anthropology’s emphasis on research skills, organizational skills, critical thinking, technical writing, project management and use of a holistic perspective make it an excellent undergraduate major for a variety of fields and graduate programs.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate an understanding of the biocultural nature of humanity through application of the core concepts, methods, and theories, in cultural anthropology, biological anthropology, and archaeology to explanations of human diversity.
• describe the origins and history of the discipline of American anthropology; its unique perspectives and approaches to the study of humanity; its ethical challenges; its dual nature as the humanistic/scientific study of humanity; and its uses and value in today’s world.
• critically evaluate information about human societies and origins without reliance on taken-for-granted assumptions, using a combination of skills, including the scientific method, qualitative social analysis, and reflective writing.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the District.
• The attainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. ‘P’ (Pass) grade is not acceptable for courses in the major.

Apprenticeship

Degree
Apprenticeship, Associate of Arts

Certificate
Apprenticeship, Certificate of Achievement

Fields of Apprenticeship Available:
Carpentry Apprenticeship
Electrician Apprenticeship
Operating Engineer Apprenticeship
Plumbers & Steamfitters Apprenticeship
Sheetmetal Apprenticeship
Apprenticeship
Associate of Arts

Apprenticeship courses are designed for indentured apprentices under the Shelley-Maloney California Apprenticeship Standards Act. The Apprentice Agreement states that the student will supplement on-the-job training with related classroom instruction during each year of apprenticeship. Apprentice classes meet three to eight hours per week and yield two to six units of credit. Joint Apprenticeship Committees administering each program are composed of representation from labor, management, California State Division of Apprenticeship Standards, and Bakersfield College. These committees adopt state approved standards for operation and assure equal opportunity for applicants. Related training in apprenticeable occupations, in addition to those listed below, may be offered as the need arises. Information for entry into apprenticeship programs may be obtained from the college coordinator of apprenticeship training. Interested persons are encouraged to apply for any of these programs and may contact the Bakersfield College Apprenticeship Department at 661/395-4408 for further information.

Program Learning Outcomes

Upon successful completion, the student will:

• successfully transition to the Journeyman level designation and certification, upon successful completion of requirements by the California Division of Apprenticeship Standards.
• demonstrate measures used by trades in use of tools, techniques, hands-on skills, and competencies for practices in specific occupations.
• identify and use equipment of specific trade in meeting standards for measurement and calibration.
• read, and apply specific trade instructions and design for construction or production outcomes as required by the specific trade practices and standards.

To Achieve the Associate of Arts Degree

Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Apprenticeship Associate of Arts Degree.

**Required Courses**

Architectural Drafting, Associate of Science

Certificate
Architectural Computer Aided Drafting, Job Skills Certificate
Architectural Drafting
Associate of Science Degree

This degree covers the principles of architectural CAD to include basic 2D and 3D AutoCAD application as well as BIM related software covering architectural practices including both residential and light commercial working documents. Emphasis is also placed on architectural delineation using software.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills required for employment in the architecture industry.
• demonstrate problem solving skills used in architectural design.
• demonstrate a deep understanding of the core material required for transfer to a four-year university architectural degree program or for certification in architecture.

To Transfer Coursework
A minimum of 40.5 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Architectural Drafting Associate of Science degree.

Art History
Associate in Arts Degree for Transfer

The Associate in Arts in Art History for Transfer Degree will engage students in the study of art created by individuals and groups from various cultures, geographies, and time periods. Students will explore specific periods, cultures, movements, and styles of art while learning to interpret and critique the art work from multiple perspectives. This degree requires: completion of 60 semester units or 90 quarter units of degree-applicable courses; minimum overall grade point average of 2.0; Minimum grade of “C” for each course in the major, and; Completion of IGETC and/or CSU GE-Breadth.

Program Learning Outcomes:
• Upon completion of the AA-T in Art History, the student will:
• Demonstrate an understanding of the principles, elements, and language of art/design.
• Demonstrate the ability to critique their own work, as well as the work of other students; and defend their creative choices verbally.
• Demonstrate an understanding of a portfolio or “body of work”

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Total Units: 18
Required Core (9 units)
Course #      Name                           Units
Art B35      Survey of Western Art I        3.0

Related General Education (3 units)
Any course not already used above or any course from the following:
• Any Art or Humanities course articulated as CSU GE Area C1 or IGETC Area 4.
• Any course articulated as CSU GE Area C2 or IGETC Area B3 in: a language other than English (except ASL); Art, History, Humanities, Philosophy, Religion/Religious Studies, or The History of Costume.
• Any course articulated as CSU GE Area D1, D3, D4, or D6 or IGETC Area 4.

Category                      CSU      IGETC
Units in Major                 18.0      18.0
Possible double counting of GE’s 6.0       6.0
General Education              39.0      37.0
Electives (CSU Transferable)   9.0       11.0
Degree Total                   60.0      60.0
The Associate in Arts in Studio Arts for Transfer is intended for those transfer-directed students who plan to complete an AA in Art because it guarantees admission to the CSU system (but not to a particular campus or major). In order to earn the degree, students must complete a maximum of 60 required semester units of CSU-transferable coursework which includes the CSU General Education Breadth or IGETC requirements with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the Associate in Arts in Studio Arts for Transfer degree will be required to complete no more than 60 units after transfer to earn a bachelor’s degree (unless the major is a designated “high-unit” major).

This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. This degree eliminates the additional Bakersfield College graduation requirements.

The Bakersfield College Art Department wishes to expose students to study in a wide variety of media, and to prepare them to make societal contributions by becoming citizens who are visually literate, culturally aware, skilled in creative problem-solving, and aesthetically sensitive.

**Program Learning Outcomes**

The successful student will be able to:

- demonstrate an understanding of the principles, elements, and language of art/design.
- demonstrate the ability to critique their own work, as well as the work of other students; and defend their creative choices verbally.
- demonstrate an understanding of a portfolio or “body of work.”

**Requirements for AA-T or AS-T degrees:**

The completion of 60 semester units that are eligible for transfer to the California State University, including the following:

- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
- A minimum of 18 semester units in a major area of emphasis, as determined by the district.
- The obtainment of a minimum grade point average of 2.0.
- The completion of all courses required for the major with a 'C' or better. A 'P' (Pass) grade is not acceptable for courses in the major.

**Total Units: 24**

**Required Core - 12 Units**

**A student can choose any other “Local studio course” or “Second Semester course” to complete the 9 unit “Curricular” requirement:

No additional local requirements for this degree will be imposed.
Graphic Design Certificate of Achievement

The program is designed to prepare students for entry level positions in graphic design related fields such as: advertising, graphic design, illustration, and digital imaging. The core learned disciplines are the principles of design, an understanding of the visual elements, exposure to art and design history, conceptual visual problem solving, and the production of portfolio using industry-standard software and processes.

Program Learning Outcomes
At the end of the program, students will:
- demonstrate an understanding of the principles, elements, and language common to graphic design.
- demonstrate the ability to critique their own work, as well as the work of other students; and defend their creative choices verbally and in writing.
- demonstrate an understanding of a portfolio or “body of work”.
- demonstrate the ability to use industry standard software and hardware to complete projects.
- demonstrate proficiency in the use of images and typography to create successful design solutions.
- demonstrate an understanding of historic and contemporary graphic design practices.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a “C” grade in each course, a student will be awarded a Graphic Design Certificate of Achievement.

Media Arts Certificate of Achievement

The Bakersfield College Media Arts Program is designed to prepare students for entry-level positions in media arts. Visual communicators increasingly need media arts skills, and this program will provide entry-level competencies for a number of career paths, such as: videographer, photographer, motion graphics designer, animator, video editor, film editor, and filmmaker. This program is a logical extension of the photography and graphic design certificates currently offered in the Bakersfield College Art Department.

Program Learning Outcomes
At the end of the program, students will:
- produce a portfolio of original digital content, using industry standard software and hardware.
- demonstrate an understanding of the visual principles and elements of as they pertain to media arts.
- demonstrate the ability to think critically about their own work and the work of others.

To achieve the Certificate of Achievement
Upon completion of the following courses with at least a “C” grade in each course, a student will be awarded a Media Arts Certificate of Achievement.

Photography
Certificate of Achievement

The program is designed to prepare students for entry level positions in photography. The core learned disciplines are photography, photographic lighting, an understanding of the visual elements, exposure to art and design history, conceptual visual problem solving, and the production of a portfolio using industry-standard software and processes.

Program Learning Outcomes
At the end of the program, students will demonstrate:
• an understanding of the principles, elements, and language common to photography.
• the ability to critique their own work, as well as the work of other students; and defend their creative choices verbally and in writing.
• an understanding of a portfolio or “body of work”.
• the ability to use industry standard raster imaging applications.
• the ability to use lighting equipment, cameras and industry standard photographic equipment.
• an understanding of historic and contemporary photographic practices.

To achieve the Certificate of Achievement
Upon completion of the following courses with at least a “C” grade in each course, a student will be awarded a Photography Certificate of Achievement.

Suspension and Steering, Certificate of Achievement
Automotive Management, Job Skills Certificate
Automotive Technology
Associate of Science Degree

The Associate of Science in Automotive Technology is designed to prepare students for optimal success in higher education and technical careers in an environment that will encourage a lifelong pursuit of learning. Completers are prepared to become ASE Certified in a variety of subjects ranging from General Service, Licensed Smog Technician, Engine Rebuilding, Transmission Repair, Brakes, Alignment, Diesel Service, Automotive HVAC and many more. Teaching and learning strategies will include student-centered, competency-based, and hands-on instruction. In addition, the program will set in place quality customer/technician and employer/employee relationship skills to assure workplace and educational competencies have been met. Upon completion of the associate’s degree program, graduates will be eligible for entry level employment at automotive, agricultural and commercial equipment dealerships and independent repair facilities. Graduates have the potential to work in management and other related areas of service operations.

Automotive Technology
Associate of Science Degree

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for industrial employment.
• demonstrate their ability to assess, evaluate and solve problems common to automotive, industrial, and agricultural industries.
• demonstrate a thorough understanding of the core material required for transfer to a four year university or certification in the department programs.

Career Opportunities:
Automotive Technician, Automotive Brakes Technician

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Automotive Technology Associate of Science Degree.

Auto Engine Overhaul* Certificate of Achievement

This program develops student’s knowledge and skills in the areas of automotive and light truck engine overhaul and machining procedures. Program includes instruction in theory of operation, diagnostic, and repair procedures.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for industrial employment.
• demonstrate problem solving skills used in industrial design and product development.
• demonstrate a deep understanding of the core material required for transfer to a four-year university degree program or for certification in the department programs.

Career Opportunities:
Automotive Technician, Steering Technician.

* NOTE: This Certificate of Achievement is being replaced by: “Engine Overhaul and Repair.” (page 94) Consult with department for more information.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Auto Engine Overhaul Certificate of Achievement.

Total Units: 23-24

Required Courses — Day Students
Course # Name Units
AUTO B2A Engine Repair & Machining 9.0
AUTO B2B Advanced Engine Repair & Machining 9.0
INDT B10 Occupational Readiness (or equivalent) 3.0

Required Courses — Night Students
Course # Name Units
AUTO B75A Introduction to Engine Overhaul 3.0
AUTO B75B Engine Repair Techniques 3.0
AUTO B75C Advanced Engine Overhaul 3.0
AUTO B75D Advanced Engine Machining 3.0
INDT B10 Occupational Readiness (or equivalent) 3.0

Electives — for a total of at least 23 units
Course # Name Units
AUTO B1AB Introduction to Automotive Technology 4.0
AUTO B14 Auto Tune-Up: Electrical/ Ignition/Accessories 11.0
AUTO B15 Auto Tune-Up:Fuel Systems and Emission Control 11.0
AUTO B64 Automotive Electricity and Electronics 4.0
AUTO B61 Basic & Enhanced Area Clean Air Car Course 4.0
INDT B275 Special Problems in Automotive Technology 2.0
WELD B1A Introduction to Oxygen Acetylene Welding and Cutting 2.0
WELD B1B Introduction to the Welding Processes 2.0

Auto Tune-Up and Emission* Certificate of Achievement

This program develops student’s knowledge and skills in the areas of automotive and light truck tune-up and emission control systems. Program includes instruction in theory of ignition, fuel, and computer control systems as well as emission test procedures and complete diagnostic and repair procedures.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for industrial employment.
• demonstrate problem solving skills used in industrial design and product development.
• demonstrate a deep understanding of the core material required for transfer to a four-year university degree program or for certification in the department programs.

* NOTE: This Certificate of Achievement is being replaced. Consult with department for more information.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Auto Tune-Up and Emissions Systems Certificate of Achievement.

Total Units: 26

Required Courses
Course # Name Units
AUTO B14 Auto Tune-Up: Electrical/ Ignition/Accessories 11.0
AUTO B15 Auto Tune-Up:Fuel Systems and Emission Control 11.0
INDT B10 Occupational Readiness (or equivalent) 3.0

Electives — for a total of at least 26 units
Course # Name Units
AUTO B59 Automotive Air Conditioning 4.0
AUTO B64 Automotive Electricity and Electronics 4.0
AUTO B61 Basic & Enhanced Area Clean Air Car Course 4.0
AUTO B75A Introduction to Engine Overhaul 3.0
AUTO B2A Engine Repair & Machining 9.0
ELET B1 Basic Electronics (DC and AC) 4.0
ENGL B50 Introduction to College Composition 4.0
INDT B275 Special Problems in Automotive Technology 2.0
Automatic Transmissions Certificate of Achievement

The Automatic Transmission Certificate signifies that the student has developed skills in the diagnosis, repair of various types of automatic transmissions found in automotive, agriculture and industrial applications. Students can implement the skills developed in these courses in performance shops, independent repair shops, dealerships, construction companies, agriculture companies, government agencies, etc.

Students earning this certificate will be prepared to further pursue certification through ASE in the A2 area.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for employment in the automatic transmission rebuilding industry.
• demonstrate their ability to assess, evaluate and solve problems common to automatic transmission repair in the automotive, industrial, and agricultural industries.
• demonstrate a thorough understanding of the core material of automatic transmission rebuilding required for transfer to a four year university or certification in the department programs.

Career Opportunities:
Automotive Technician, Automotive Transmission Technician, Industrial Mechanic.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Automatic Transmissions Certificate of Achievement.

Total Units: 13
Required Courses

Automotive Heating & Air Conditioning Certificate of Achievement

The Automotive Heating and Air Conditioning Certificate signifies that the student has developed skills in the diagnosis and repair of various types of heating and air conditioning systems found in automotive, agriculture and industrial applications. Students can implement the skills developed in these courses in dealerships, independent repair shops, performance shops, construction companies, agriculture companies, government agencies, etc.

Students earning this certificate will be prepared to further pursue certification through ASE in the A7, T7, H7, and S7 areas as well as MACS certification under Section 609 of the Clean Air Act.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for employment in the automotive heating and air conditioning industry.
• demonstrate their ability to assess, evaluate and solve automotive heating and air conditioning problems common to automotive, industrial, and agricultural industries.
• demonstrate a thorough understanding of the core material automotive heating and air conditioning required for transfer to a four year university or certification in the department programs.

Career Opportunities:
Automotive Technician, Automotive HVAC Technician.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Automotive Heating & Air Conditioning Certificate of Achievement.

Total Units: 17

Automotive Management Certificate of Achievement

The Automotive Management Certificate signifies that the student has developed the knowledge and skills to seek entry level employment in the customer service areas found in automotive, agriculture and industrial applications. Students can implement the skills developed in the these courses in parts distribution, the Department of Motor Vehicles (DMV), dealerships, independent repair shops, performance shops, construction companies, agriculture companies, government agencies, etc.

Students earning this certificate will be prepared to further pursue certification through ASE in the C1, P2, and P4 areas.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for employment in the automotive management industry.
• demonstrate their ability to assess, evaluate and solve automotive management problems common to automotive, industrial, and agricultural industries.
• demonstrate a thorough understanding of the core automotive management material required for transfer to a four year university or certification in the department programs.

Career Opportunities:
Automotive Technician, Automotive Service Writer, Automotive Service Manager.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Automotive Management Certificate of Achievement.

Brake System Certificate of Achievement

The Brakes Certificate signifies that the student has developed skills in the diagnosis and repair of various types of brake systems found in automotive, agriculture and industrial applications. Students can implement the skills developed in the these courses in dealerships, independent repair shops, performance shops, construction companies, agriculture companies, government agencies, etc.

Students earning this certificate will be prepared to further pursue certification through ASE in the A5, T4, H4, and S4 areas as well as certification for the Brake Adjuster License.

This program prepares students for careers in Transportation Industry and Automotive Industry. The focus of the Automotive Department as a whole is to equip students with the necessary knowledge and technical skills to successfully enter the workforce in the automotive industry, transportation industry, agriculture industry, and other related industrial and mechanical fields. This certificate will equip students to perform service, diagnosis, and repair on brake systems in the above listed industries.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for employment in the transportation and related industries performing brake system work.
• demonstrate their ability to assess, evaluate and solve brake systems problems common to automotive, industrial, and agricultural industries.
• demonstrate a thorough understanding of the core brake systems material required for transfer to a four year university or certification in the department programs.

Career Opportunities:
Automotive Technician, Automotive Brakes Technician

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Brake System Certificate of Achievement.

**Electrical and Electronic Systems Certificate of Achievement**

The Electrical and Electronic Systems Certificate signifies that the student has developed skills in the diagnosis and repair of various types of electrical and electronic systems found in automotive, agriculture, and industrial applications. Students can implement the skills developed in these courses in dealerships, independent repair shops, performance shops, construction companies, agriculture companies, government agencies, etc.

Students earning this certificate will be prepared to further pursue certification through ASE in the A6, T6, H6, S6, and L3 areas as well as certification for the Lamp Adjuster License.

**Program Learning Outcomes**
Upon successful completion, the student will:
- Demonstrate proficiency in technical skills and safety principles required for employment in the transportation and related industries performing electrical and electronic repair work.
- Demonstrate their ability to assess, evaluate, and solve problems common to electrical and electronic repair in the automotive, industrial, and agricultural industries.
- Demonstrate a thorough understanding of the core material of electrical and electronic systems required for transfer to a four-year university or certification in the department programs.

**Career Opportunities:**
Automotive Technician, Automotive Electronics Technician

**To Achieve the Certificate of Achievement**
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Electrical and Electronic Systems Certificate of Achievement.

**Engine Overhaul and Repair Certificate of Achievement**

The Engine Overhaul and Repair Certificate signifies that the student has developed skills in the diagnosis, repair, and machining of various types of internal combustion engines, including gas and diesel engines found in automotive, agriculture, and industrial applications. Students can implement the skills developed in the engine rebuilding courses in engine machine shops, performance shops, dealerships, construction companies, agriculture companies, government agencies, etc.

Students earning this certificate will be prepared to further pursue certification through ASE (Automotive Service Excellence) in the A1, A8, H1, H2, S2, T1, T2 areas as well as certification through the Automotive Engine Rebuilders Association (AERA).

This program prepares students for careers in Automotive, Transportation, Agricultural, Oilfield, and Construction Industries. The focus of the Automotive Department as a whole is to equip students with the necessary knowledge and technical skills to successfully enter the workforce in the automotive industry, transportation industry, agriculture industry, and other related industrial and mechanical fields. This certificate will equip students to perform service, diagnosis, and repair of various types of internal combustion engines, including gas and diesel engines, in the above-listed industries. This certificate also provides necessary training for students to pursue certification in many areas through ASE and AERA.

**Program Learning Outcomes**
Upon successful completion, the student will:
- Demonstrate proficiency in technical skills and safety principles required for employment in the engine rebuilding industry.
- Demonstrate their ability to assess, evaluate, and solve problems common to engine repair in the automotive, industrial, and agricultural industries.
- Demonstrate a thorough understanding of the core material of engine repair required for transfer to a four-year university or certification in the department programs.

**Career Opportunities:**
Automotive Technician, Engine Repair Technician, Industrial Engine Technician, Industrial Mechanic

**To Achieve the Certificate of Achievement**
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Engine Overhaul and Repair Certificate of Achievement.

**Engine Performance Certificate of Achievement**

The Engine Performance Certificate signifies that the student has developed skills in the diagnosis and repair of various types of fuel, emission, and computer controlled systems found in automotive, agriculture and industrial applications. Students can implement the skills developed in these courses in dealerships, independent repair shops, performance shops, construction companies, agriculture companies, government agencies, etc.

Students earning this certificate will be prepared to further pursue certification through ASE (Automotive Service Excellence) in the A8 and L1 areas as well as certification for the BAR (California Bureau of Automotive Repair) Specified Diagnostic and Repair training.

This program prepares students for careers in Transportation Industry and Automotive Industry. The focus of the Automotive Department as a whole is to equip students with the necessary knowledge and technical skills to successfully enter the workforce in the automotive industry, transportation industry, agriculture industry, and other related industrial and mechanical fields. This certificate will equip students to perform service, diagnosis, and repair of fuel and emission systems in the above listed industries. This certificate also provides necessary training for students to obtain their California State Smog Repair License.

**Program Learning Outcomes**

Upon successful completion, the student will:

- demonstrate proficiency in technical skills and safety principles required for employment in the transportation and related industries performing engine performance work.
- demonstrate their ability to assess, evaluate and solve engine performance problems common to automotive, industrial, and agricultural industries.
- demonstrate a thorough understanding of the core engine performance material required for transfer to a four year university or certification in the department programs.

**Career Opportunities:**

Automotive Technician, Smog Technician.

**To Achieve the Certificate of Achievement**

Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Engine Performance Certificate of Achievement.

**Light Duty Diesel Performance Certificate of Achievement**

The Light Duty Diesel Performance Certificate signifies that the student has developed skills in the diagnosis and repair of various types of diesel engine, fuel, and emission systems found in automotive, agriculture and industrial applications. Students can implement the skills developed in theses courses in dealerships, independent repair shops, performance shops, construction companies, agriculture companies, government agencies, etc. Students earning this certificate will be prepared to further pursue certification through ASE in the A9 and L2 areas.

This program prepares students for careers in Transportation Industry and Automotive Industry. This is a strong and growing area of the automotive repair industry especially in Bakersfield and the surrounding areas where many diesel vehicles are used for private use, work in the oil fields, agriculture industry, and other transportation fields.

**Program Learning Outcomes**

Upon successful completion, the student will:

- demonstrate proficiency in technical skills and safety principles required for employment in the transportation and related industries performing diesel performance work.
- demonstrate their ability to assess, evaluate and solve diesel performance problems common to automotive, industrial, and agricultural industries.
- demonstrate a thorough understanding of the core diesel performance material required for transfer to a four year university or certification in the department programs.

**Career Opportunities:**

Automotive Technician, Diesel Technician.

**To Achieve the Certificate of Achievement**

Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Light Duty Diesel Performance Certificate of Achievement.

Manual Drivetrain and Axles Certificate of Achievement

The Manual Drivetrain and Axles Certificate signifies that the student has developed skills in the diagnosis, repair of various types of manual transmissions and drive axles found in automotive, agriculture and industrial applications. Students can implement the skills developed in these courses in performance shops, independent repair shops, dealerships, construction companies, agriculture companies, government agencies, etc. Students earning this certificate will be prepared to further pursue certification through ASE in the A3 area.

This program prepares students for careers in Transportation Industry and Automotive Industry. The focus of the Automotive Program as a whole is to equip students with the necessary knowledge and technical skills to successfully enter the workforce in the automotive industry, transportation industry, agriculture industry, and other related industrial and mechanical fields. This certificate will equip students to perform manual transmission and drive axle service, diagnosis, and repair in the above listed industries.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for employment in the manual transmission and drive axle rebuilding industry.
• demonstrate their ability to assess, evaluate and solve problems common to manual transmission and drive axle repair in the automotive, industrial, and agricultural industries.
• demonstrate a thorough understanding of the core material of manual transmission and drive axle rebuilding and repair required for transfer to a four year university or certification in the department programs.

Career Opportunities:
Automotive Technician, Automotive Transmission Technician, Industrial Mechanic

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Manual Drivetrain and Axles Certificate of Achievement.

Total Units: 12
Required Courses
Course #     Name                               Units
AUTO B11     Introduction to Automotive Technology     4.0
AUTO B30     Electrical and Electronic Systems         4.0
AUTO B48     Manual Transmissions and Drivetrain       4.0

Suspension and Steering Certificate of Achievement

The Suspension and Steering Certificate signifies that the student has developed skills in the diagnosis, repair of various types of suspension and steering systems found in automotive, agriculture and industrial applications. Students can implement the skills developed in these courses in performance shops, independent repair shops, dealerships, construction companies, agriculture companies, government agencies, etc. Students earning this certificate will be prepared to further pursue certification through ASE in the A4, H5, S5, and T5 areas.

This program prepares students for careers in Transportation Industry and Automotive Industry. The focus of the Automotive Department as a whole is to equip students with the necessary knowledge and technical skills to successfully enter the workforce in the automotive industry, transportation industry, agriculture industry, and other related industrial and mechanical fields. This certificate will equip students to perform service, diagnosis, and repair on steering and suspension systems in the above listed industries.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for employment in the transportation and related industries performing suspension and steering work.
• demonstrate their ability to assess, evaluate and solve problems common to suspension and steering system repair in the automotive, industrial, and agricultural industries.
• demonstrate a thorough understanding of the core suspension and steering system material required for transfer to a four year university or certification in the department programs.

Career Opportunities:
Automotive Technician, Steering Technician.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Suspension and Steering Certificate of Achievement.

Total Units: 12
Required Courses
Course #     Name                               Units
AUTO B11     Introduction to Automotive Technology     4.0
AUTO B30     Electrical and Electronic Systems         4.0
AUTO B40     Suspension, Steering and Wheel Alignment  4.0
Automotive Management
Job Skills Certificate

This program develops the student’s knowledge and basic skills to seek entry level employment in the automotive services industry. These include a general technical knowledge of the automobile and light truck; automotive service writing including California legal requirements set forth by the Bureau of Automotive Repair; customer satisfaction including telephone and face-to-face interpersonal communications skills; handling warranty claims and documentation; DMV documentation and processing; use and understanding of general office keyboarding skills, and automotive parts sales and stocking systems.

Career opportunities include automotive repair front desk, occupations requiring a general technical knowledge of the automobile and light truck, automotive service writing including California legal requirements set forth by the Bureau of Automotive Repair, handling warranty claims, DMV documentation and processing, automotive parts sales and stocking systems.

Program Learning Outcomes
Upon successful completion, the student will:
• understand shop and office personal safety and environmental hazards related to the automotive industry.
• understand how to write service repair orders using both written and computerized formats.
• demonstrate proper telephone and interpersonal communication skills.
• have knowledge of and practice in creating DMV documentation and processing.
• understand California consumer protection laws and the Bureau of Automotive Repairs regulations.
• have knowledge and practice of accepted work ethics in the automotive repair business.
• have knowledge of the automotive parts handling systems and sales techniques.
• have knowledge and practice of handling consumer warranty claims and documentation.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a 'C' grade in each course, the student will be awarded an Automotive Management Job Skills Certificate.

Biology

Degrees
Biology, Associate in Science Degree for Transfer
Human Biology, Associate of Science
## Biology
### Associate in Science Degree for Transfer

The Associate in Science in Biology for Transfer degree is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Biology or similar major.

### Program Learning Outcomes
The successful student will be able to:
- be able to demonstrate proficiency using a microscope.
- be able to research a topic, design experiments, synthesize and evaluate the information they find and will be able to justify and express their opinion on virtually any topic using the Scientific Method.

Additionally, the Associate in Science in Biology for Transfer allows students to learn the fundamental principles and practices of biology in order to create a solid foundation for their future personal, academic, or vocational endeavors. The Associate in Science in Biology Degree for Transfer also provides solid preparation that is appropriate for a variety of scientific disciplines.

Biology is the study and application of principles of cell biology, ecology, evolution, genetics, anatomy and physiology as it relates to humans and other organisms. Laboratory and field trip activities emphasize the integrated and interdependent nature of living systems. Course work trains students to use observation and investigation to identify questions and pursue answers using the scientific method. Graduates with baccalaureate degree may pursue jobs in a variety of fields including: biochemistry, biotechnology, botany, ecology, entomology, genetics, health, immunology, medicine, molecular biology, oceanography, pharmacy, teaching, wildlife management, zoology and related clinical fields. Biology majors may choose to specialize in research based on a particular organism or an aspect of biology related to those listed above.

### Career Opportunities:
Biochemistry, biotechnology, botany, ecology, entomology, genetics, health, immunology, medicine, molecular biology, oceanography, pharmacy, teaching, wildlife management and zoology.

### Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
- A minimum of 18 semester units in a major area of emphasis, as determined by the district.
- The obtainment of a minimum grade point average of 2.0.
- The completion of all courses required for the major with a 'C' or better. A 'P' (Pass) grade is not acceptable for courses in the major.

Human Biology
Associate of Science Degree

Courses required for the Human Biology Associate of Science degree include biology and chemistry courses necessary for transfer to allied health programs such as nursing, physical therapy, Physician Assistant, and radiology. Please refer to the Suggested Program information and check with a counselor concerning specific degree requirements to specific programs and transfer institutions. Please note that many of the courses have prerequisites that are best taken in the appropriate order to ensure success. Students transferring to a four-year institution for a Bachelor of Science in Biology generally take the CHEM B1A, B1B sequence.

Program Learning Outcomes
The successful student will be able to:
- identify medical problems and apply appropriate and effective solutions.
- analyze a clinical situation using anatomical terminology, select the correct technology to use for further examination, analyze and determine a diagnosis when a pathology is described, create a plan of action.
- demonstrate proficiency using a microscope.

Career Opportunities:
Nursing, physical therapy, medical technologist, and physician assistant.

To Achieve the Associate of Science Degree
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Biology - General Biology Associate in Science degree. To Transfer Coursework A minimum of 18 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

Total Units: 18
Required Courses
Course # Name Units
BIOL B32 Human Anatomy and Physiology I 4.0
BIOL B33 Human Anatomy and Physiology II 4.0
BIOL B16 General Microbiology 5.0

Electives — Select 5 units from the following:
Course # Name Units
BIOL B21 Special Projects in Biology 1.0-5.0
CHEM B2A Introductory General Chemistry 4.0
CHEM B11 Introduction to General, Organic, and Biochemistry 5.0
CHEM B1A General Chemistry I 5.0
CHEM B1B General Chemistry and Chemical Analysis 5.0
MEDS B60 Medical Terminology 3.0
NUTR B10 Elementary Nutrition 3.0

Note: Students transferring for a Bachelor of Science in Nursing should consult the university of choice as to which chemistry sequence meets transfer needs.
Business Administration

- General Business, Job Skills Certificate
- Office Assistant, Job Skills Certificate
Business Administration
Associate in Science for Transfer

The Associate in Science in Business Administration for Transfer degree (AS-T in Business Administration) is designed to provide students a clear transfer pathway to the CSU business administration major and completion of the business administration baccalaureate degree, to grant guaranteed admission to a CSU to a similar major with junior standing, and the ability to complete their remaining requirements within 60 semester or 90 quarter units. The Associate of Science in Business Administration for Transfer degree provides a study of key business concepts. Business Administration majors will be able to analyze business scenarios and use numerical, graphical, symbolic, and verbal representations to effectively solve problems and communicate those solutions. Business Administration majors will be able to communicate economic effects, effectively convey financial information, and explain social, political, and ethical implications of business decision-making.

Program Learning Outcomes
Upon successful completion, the student will be able to:
- analyze a business scenario and use numerical, graphical, symbolic, and verbal representations to effectively solve problems and communicate those solutions.
- analyze a business scenario and correctly prepare financial statements to effectively convey financial information for management decision-making.
- analyze a business scenario using the tools of economic theory to communicate economic effects on business decision making.
- analyze a business scenario and appropriately apply computer information systems and business concepts to designing and managing business documents.
- analyze a business scenario and effectively explain the social, political and ethical implications of the law to actual and hypothetical business transactions.

To Transfer Coursework
A minimum of 26 semester units in the major with a grade of 'C' or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

Requirements for AA-T or AS-T degrees:
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
- A minimum of 18 semester units in a major area of emphasis, as determined by the district.
- The obtainment of a minimum grade point average of 2.0.
- The completion of all courses required for the major with a ‘C’ or better. A 'P' (Pass) grade is not acceptable for courses in the major.

Accounting Associate of Arts

An Accounting degree provides students with the knowledge and skills necessary for employment and growth in the accounting profession. Using the language of business, accountants assemble and analyze, process, and communicate essential information about financial operations.

Program Learning Outcomes
Upon successful completion, the student will be able to:
• analyze and record financial transactions in a manual or computerized general ledger system.
• prepare financial statements; analyze and prepare financial information for management decision making.
• utilize current income tax resources to prepare personal income tax returns.
• communicate financial information effectively within a business environment.
• process payroll transactions in accordance with current payroll reporting requirements.

To Achieve the Associate of Arts
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Accounting Associate of Arts degree.

Administrative Office Assistant Associate of Arts

The Administrative Office programs are designed to provide the skills and competencies needed to become an efficient, productive member of an office support team. Courses are designed to help students learn to analyze and coordinate office duties and systems, develop proficiency in the use of integrated software, and improve oral and written communication. Emphasis is placed on non-technical as well as technical skills. Students have the option of completing certificates and/or a two-year degree program. Designed to prepare the student for employment as office support staff to assist managers, executives, and professionals.

Program Learning Outcomes
Upon successful completion, the student will be able to:
• interact effectively in oral and written communication.
• participate in office related work experience to achieve the following desirable job qualities:
  • function as a team member.
  • demonstrate interpersonal skills on the job.
  • manage multi-tasks efficiently.
  • model professional and ethical behaviors.
  • identify soft skills such as being on time.
• demonstrate minimum acceptable skills in ten-key, keyboarding, and document processing.
• demonstrate minimum filing competencies.

To Achieve the Associate of Arts
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Administrative Office Assistant Associate of Arts degree.

Bookkeeping Certificate of Achievement

The Bookkeeping program provides students with the knowledge and skills necessary for employment and growth in the accounting profession. Using the language of business, accountants assemble and analyze, process, and communicate essential information about financial operations.

Program Learning Outcomes
Upon successful completion, the student will be able to:
• analyze and record financial transactions in a manual or computerized general ledger system.
• prepare financial statements; analyze and prepare financial information for management decision-making.
• utilize current income tax resources to prepare personal income tax returns.
• communicate financial information effectively within a business environment.
• process payroll transactions in accordance with current payroll reporting requirements.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Bookkeeping Certificate of Achievement.

Total Units: 25.5
Required Courses
- BSAD B53A: Introduction to Accounting 1, 3.0 units
- BSAD B53B: Introduction to Accounting 2, 3.0 units
- BSAD B54: Payroll Accounting, 3.0 units
- BSAD B55: Computer Accounting Applications, 3.0 units
- BSAD B51: Business Mathematics, 3.0 units
- BSAD B264: Ten-Key Proficiency, 0.5 units

- BSAD B5: Human Relations and People Skills, 3.0 units

Office Assistant Certificate of Achievement

An Office Assistant Certificate of Achievement increases the student’s employability as office support staff.

Program Learning Outcomes
Upon successful completion, the student will be able to:
• interact effectively in oral and written communication.
• participate in office related work experience to achieve the following desirable job qualities:
  • function as a team member.
  • demonstrate interpersonal skills on the job.
  • manage multi-tasks efficiently.
  • model professional and ethical behaviors.
  • identify soft skills such as being on time.
• demonstrate minimum acceptable skills in ten-key, keyboarding, and document processing.
• demonstrate minimum filing competencies.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Office Assistant Certificate of Achievement.

Total Units: 27-29
Required Courses
- BSAD B292A,B,C: Computer Keyboarding, Parts 1-2-3 (3 Courses, 1 unit each) 3.0 units
- BSAD B253A,B,C: Document Processing, Part 1-2-3 (3 Courses, 1 unit each) 3.0 units
- BSAD B287: Filing 1.5 units
- BSAD B285: Business English 3.0 units

- BSAD B88: Office Procedures 3.0 units
- BSAD B280: Machine Transcription 1.5 units
- WEXP B248: Occupational Work Experience Education 1-3.0 units
- BSAD B20: Introduction to Business 3.0 units
General Business Job Skills Certificate

A Job Skills Certificate in General Business will provide the student with broad-based knowledge and skills in business. These core classes provide the foundation for a variety of successful careers in business.

Program Learning Outcomes
Upon successful completion, the student will be able to:
• analyze and record financial transactions in a manual or computerized general ledger system.
• perform the duties of a supervisor or middle level manager
• effectively communicate within an organization in both written and oral media.
• make legal and ethical decisions that achieve organizational objectives.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a General Business Job Skills Certificate.

Chemistry

Degree
Chemistry, Associate in Science Degree for Transfer
Chemistry, Associate of Science Degree
Chemistry
Associate in Science Degree for Transfer

The Associate in Science in Chemistry is an appropriate degree for students interested in transferring to a four-year university as a major in the sciences. This major will provide students with a full two years of chemistry education as well as a solid foundation in math and physics. Additionally, the degree provides the student employment opportunities within local industries as a laboratory technician.

Career opportunities in Chemistry for transfers are varied and broad, ranging from all chemical industries, physics, all other areas of the physical sciences, engineering, and all areas of the biological and environmental sciences and allied health fields including medicine. Examples of local industries include: agriculture, geo- and petrochemical businesses, analytical services and laboratories.

The AS-T degree offered is designed specifically for the California State University system. As suggested below, transfer to other colleges or universities may require additional courses; students must be sure to speak with completion advisors if they have any intentions of transferring to one of these other schools.

Program learning outcomes
Upon successful completion, the student will:
• The student shall be able to apply logical quantitative and qualitative reasoning in solving problems.
• The student shall be able to apply the methodologies of chemistry when approaching a problem.
• The student shall demonstrate a knowledge of and recognize the processes that explain natural chemical phenomena.

The Associate of Science for Transfer (“AS-T”) Degree in Chemistry provides a pathway to students who are pursuing a career in the chemical-related sciences. This may be a position at a local industry’s analytical, petroleum, or medical laboratory; or transfer to a CSU in the field of chemistry, biochemistry, other related sciences (biology/medicine); or perhaps a career in secondary teaching; or satisfying the needs of various disciplines within engineering. It serves the diverse needs of students who wish to obtain a strong understanding of the chemical sciences. In particular, the AS-T Degree in Chemistry allows students to learn the fundamental principles and practices of chemistry in order to create a solid foundation for their future personal, academic, or vocational endeavors. The AS-T Degree in Chemistry truly provides a solid preparation that is appropriate for a variety of scientific disciplines.

Students transferring to a CSU campus that accepts the AS-T Degree in Chemistry will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system (though many of those find it fully satisfies their requirements). Students should consult with an advisor/counselor when planning to complete the degree for more information on university admission and transfer requirements. This degree eliminates the additional Bakersfield College graduation requirements.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Total Units: 36

Note: The CSU GE Breadth pattern is not an option for students to complete this degree within 60 units because double counting is capped at 7 units maximum. Students must use the IGETC for STEM which allows students to take one Arts or Humanities course and one Social or Behavioral Science course after transfer.
The Associate of Science in Chemistry is appropriate for students interested in transferring to a four-year university as a major in the sciences. The major will provide students with a complete general education in math and core physical sciences as well as an introduction to some basic computer systems skills. Additionally, the degree provides the student employment opportunities within local industries as a laboratory technician. Career opportunities in Chemistry for transfers, are varied and broad, ranging from all chemical industries, physics, all other areas of the physical sciences, engineering, and all areas of the biological sciences and allied health fields. Examples of local industries include: agriculture, geo and petrochemical businesses, analytical services and laboratories.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate a knowledge of and recognize the processes that explain natural phenomena.
• apply the methodologies of science when approaching a problem.
• apply logical quantitative and qualitative reasoning in solving problems.

To Achieve the Associate f Science
Upon completion of the following courses with at least a 'C' grade in each course, the student will be awarded a Chemistry Associate of Science degree.

Note: BIOL B3B no longer has BIOL B3A as prerequisite.

The courses in physics (PHYS B4A, B4b, B4c), math (MATH B6A through MATH B6C) and chemistry (CHEM B1A and B1B) are required as preparation for the major in chemistry at most transfer colleges and universities. See www.assist.org for specific major preparation courses for the CSUs and UCs. Two courses in English composition (ENGL B1A and ENGL B2 or PHIL B9) as well as general education courses are also required. Please consult with a counselor for more specific information and study the catalog of the senior institution to which you intend to transfer.

- Child Development Associate Teacher, Job Skills Certificate
- Child Development Assistant Teacher, Job Skills Certificate
Early Childhood Education
Associate in Science Degree for Transfer

Career Technology Education (CTE) and Transfer Degree. Due to a continued increase of parents in the labor force, there is an increased demand for child care workers and early childhood educators. The most recent California Child Care Portfolio (2015) indicates 63% of children aged 0-12 have parents in the labor force, but there is not enough child care centers or homes to meet child care needs. In Kern County there was an increase of 10% for subsidized child care while California overall had an increase of 1%.

The Associate in Science in Early Childhood Education for Transfer degree is designed to train students to work in a variety of early childhood settings. The two-year program primarily serves students desiring an early childhood background, supervised student teaching experience and fulfillment of academic requirements for a Child Development Teacher Permit. Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Associate in Science in Early Childhood Education for Transfer. This degree prepares students for seamless transfer to a CSU.

Career Opportunities
Early Childhood Education Careers (ECE): ECE Site Supervisor, ECE Assistant Teacher, ECE Associate Teacher, ECE Master Teacher, ECE Program Director, Licensed Day Care Provider, After School Coordinator, ECE Mental Health Case Manager, Family Service Advocate, Child Advocate, Social Worker/Child Protective Services, Elementary Education Credentialed Teacher, Marriage Family Counselor, School Psychologist, College Instructor, Doula, Lactation Consultant.

Program Learning Outcomes
Upon successful completion, the student will be able to:
• demonstrate an understanding of developmentally appropriate curriculum and explain principles and practices pertaining to child development.
• explain topics concerning the child, family, and community, and will be able to demonstrate pediatric CPR and first aid.
• compose observations and assessments, compare and contrast the development of children on children from infancy to adolescents considering culture and typical and atypical needs.
• demonstrate an understanding of the needs of infant/toddler and children with special needs, according to their mastery specialization. The master teacher will be able to design a care plan for the needs of infant and toddlers or special education children commensurate to their specialization.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainsment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Elementary Teacher Education
Associate in Arts for Transfer

The Associate in Arts in Elementary Teacher Education for Transfer degree is designed to prepare students for transfer to a California State University traditional or integrated teacher preparation program. The Associate in Arts in Elementary Teacher Education for Transfer degree incorporates the elementary subject matter competence requirements as established by the California Teacher Credentialing Commission and prepares students for the California Subject Examinations for Teachers (CSET) Multiple Subjects exam. Additionally, the degree may also serve as preparation for paraprofessional positions in the K-12 classroom, meeting unit requirements for paraprofessionals as established by the No Child Left Behind Act.

Program Learning Outcomes
Upon successful completion, the student will be able to:
• evaluate elements of diversity and diverse learning styles in student populations.
• analyze how teachers and schools can promote learning for all students.
• demonstrate proficiency in 14 content areas required for subject matter competency for elementary teachers.

Requirements for AA-T or AS-T degrees
The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a 'C' or better. A 'P' (Pass) grade is not acceptable for courses in the major.

Child Development Master Teacher - Infant Toddler
Certificate of Achievement

The Certificate of Achievement for Child Development Master Teacher - Infant Toddler may be earned by taking the 27 units of child development courses required for the Child Development Teacher Certificate of Achievement and the following courses.

Program Learning Outcomes
Upon successful completion, the student will be able to:
• articulate 12 units with California State University, Bakersfield.
• acquire a teacher permit from the Commission on Teacher Credentialing.
• meet all requirements for the Associate in Science degree in the major.
• receive a job as a master teacher in a publicly funded or private child development program.
• have a pediatric CPR and First Aid certification.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a 'C' grade in each course, the student will be awarded a Child Development Master Teacher - Infant Toddler Certificate of Achievement.

Child Development Teacher Certificate of Achievement

This course work meets the Child Development requirements for the Child Development Teacher Permit. Students may apply for the Permit at the Kern County Superintendent of Schools, Office of Credentials, 661/636-4750 or 661/636-4751. Students must also meet the General Education requirement and Experience requirement in accordance with the California Commission on Teacher Credentialing.

Program Learning Outcomes
Upon successful completion, the student will be able to:
• articulate 12 units with California State University, Bakersfield.
• acquire a teacher permit from the State of California Teacher Commission.
• meet all requirements for the Associate in Science degree in the major.
• be employable as a teacher in publicly funded or private child development programs.
• have pediatric CPR and First Aid certification

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a 'C' grade in each course, the student will be awarded a Child Development Teacher Certificate of Achievement.

Child Development Associate Teacher Job Skills Certificate

This course work meets the requirements for the Child Development Associate Teacher Permit. This course work also meets the Child Development requirements for a fully qualified teacher in a licensed Preschool Child Development Center or School-Age Center.

Program Learning Outcomes
Upon successful completion, the student will be able to:
• articulate 12 units with California State University, Bakersfield.
• be employable as an associate teacher in a publicly funded or private child development program.
• have pediatric CPR and First Aid certification.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Child Development Associate Teacher Job Skills Certificate.

Communication

Degree
Communication Studies, Associate in Arts for Transfer

Certificate
Communication, Certificate of Achievement
Communication Studies
Associate in Arts Degree for Transfer

The Associate in Arts in Communication Studies for Transfer is intended for all students who plan to complete an AA in Communication studies. This degree is especially valuable for those students planning on completing a bachelor’s degree in Communication or a similar major at a CSU campus because the Associate in Arts in Communication Studies for Transfer guarantees admission to the CSU system (but not to a particular campus or major).

Students transferring to a CSU campus that does accept the Associate in Arts in Communication Studies for Transfer will be required to complete no more than 60 units after transfer to earn a bachelor’s degree (unless the major is a designated high-unit major).

This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. No additional graduation requirements are required to complete this degree.

The Associate in Arts in Communication Studies for Transfer equips students with relational and presentation skills that provide a foundation for success throughout students’ educational careers, business careers and personal interactions. Students learn about verbal and nonverbal channels of communication that inform, persuade, manage, interpret, direct, or influence social interaction in diverse contexts. The degree introduces students to both established and contemporary theories of human communication pertaining to societal construction, maintenance, and perpetuation of acceptable patterns of communicative conduct. Students choosing this degree also acquire pragmatic communication skills enabling them to competently navigate social interaction within interpersonal, small group, public, organizational, and intercultural contexts. Students learn field-specific nomenclature as well as effective oral, listening, and critical thinking skills needed to successfully manage communication encounters in a variety of professional and personal environments. Students will be prepared in this lower division work for a baccalaureate degree in Communication Studies, Speech Communication, or a similar degree.

Program Learning Outcomes
Upon successful completion, the student will:
- construct, use, and interpret messages across multiple channels to inform, persuade, manage, negotiate, relate, and generally influence each other within and across varying cultural venues.
- identify and value disparate systems of social norms and values that influence the human communicative process. Understand the various theoretical and pragmatic skills that enable them to navigate social interaction within multiple interpersonal, small group, public, and intercultural contexts.
- become familiar with both field-specific nomenclature as well as effective oral, listening, and critical thinking skills.

To Transfer Coursework
A minimum of 18 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
- A minimum of 18 semester units in a major area of emphasis, as determined by the district.
- The obtainment of a minimum grade point average of 2.0.
- The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Communication Certificate of Achievement

The Communication Certificate is designed to enhance a student's ability to communicate in social, professional, and relational contexts. This certificate is intended to enhance the communication skills of students from all majors and career plans. Students are required to take four classes for a total of twelve units.

Program Learning Outcomes
Upon successful completion, the student will:
• construct, use, and interpret messages across multiple channels to inform, persuade, manage, negotiate, relate, and generally influence each other within and across varying cultural venues.
• identify and value disparate systems of social norms and values that influence the human communicative process.
• understand the various theoretical and pragmatic skills that enable them to navigate social interaction within multiple interpersonal, small group, public, and intercultural contexts.
• become familiar with both field-specific nomenclature as well as effective oral, listening, and critical thinking skills.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a 'C' grade in each course, the student will be awarded a Communication Certificate of Achievement.

Computer Studies

**Degree**
Computer Science, Associate in Science for Transfer

**Certificate**
CompTIA, Certificate of Achievement
Computer Science
Associate in Science Degree for Transfer

The Associate in Science in Computer Science for Transfer degree (AS-T in Computer Science) is designed to provide students a clear transfer pathway to the CSU computer science major and completion of the computer science baccalaureate degree, to grant guaranteed admission to a CSU to a similar major, with junior standing, and the ability to complete their remaining requirements within 60 semester or 90 quarter units. Students will take courses in computer science and related fields that will provide the theoretical and practical knowledge necessary to work in a variety of computer related fields such as Software Engineering, Computer Engineering, Computer Systems Analysis, Network Engineering, Cloud Computing, Mobile Application Development, Computer Support, Computer Information Systems, Database Administration, Network Security, and Web Development.

Program Learning Outcomes
Upon successful completion, the student will:
- identify the appropriate software development technologies, algorithms, and scientific and mathematical principles to apply to a given program.
- effectively design and implement programming constructs, including functions, control structures, arrays/lists, classes and objects for a given programming problem.
- effectively implement the appropriate data structures using the principles and techniques of object-oriented programming for a given programming problem.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
- A minimum of 18 semester units in a major area of emphasis, as determined by the district.
- The obtainment of a minimum grade point average of 2.0.
- The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

CompTIA
Certificate of Achievement

The program curriculum prepares students interested in learning computer concepts and technologies; preparing them for employment in many areas of Information Technology. Each course in the program approaches topics in a vendor-neutral (more generalized) fashion so that they can easily be applied to specific industries. The curriculum is designed to support students seeking to pass CompTIA’s certification exams. CompTIA is an internationally recognized certification program for the information technology industry. Acquiring such certifications will assist students in finding employment in Information Technology and Computer Infrastructure related fields.

Some of these fields include:
- Network and Systems Administrators
- Computer Network Architects
- Computer Network Support Specialists
- Computer Support Specialists
- Information Security Analysts
- Network and Computer Systems Administrators
- Information Security Analysts
- Computer Hardware Support

Program Learning Outcomes
Upon successful completion, the student will demonstrate:
- an understanding of computer hardware and software terminologies and digital infrastructure troubleshooting techniques.
- the ability to install and administer Operating Systems.
- an understanding of networking infrastructure concepts and security.
- an understanding of those technologies that aid in the support of computer and communications infrastructures.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a CompTIA Certificate of Achievement.
Construction

Degree
Construction Management, Associate of Science

Certificate
Construction Technology, Certificate of Achievement
Construction Management
Associate of Science Degree

This two-year program is designed to prepare students for positions as first-line supervisors and managers in the construction industry. Graduates of the program will be prepared to work with contractors, architect, engineer, and suppliers and perform such duties as material takeoff, cost estimation, purchasing, and timekeeping.

Program Learning Outcomes
The successful student will be able to:

- safely execute technical skills in lab environments that are required for employment in the construction industry.
- investigate and resolve problems in construction planning, scheduling and management
- demonstrate the ability to interpret architectural and construction drawings and documents, demonstrating knowledge of various building materials and methods and related building technologies.

Career Opportunities:
Construction Supervisor, Construction Manager.

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a 'C' grade in each course, the student will be awarded a Construction Technology Associate of Science Degree.

Construction Technology Certificate of Achievement

The requirements for the Construction Technology Certificate of Achievement are intended to provide students with the opportunity to develop skills and knowledge to enter into the diverse residential construction field. So each student can explore and design their respective career path, emphasis is placed on blending technical skill development, industrial safety with practical lab activities. Students can obtain these courses from within the Construction Technology area and from the various related disciplines (architecture, industrial drawing, industrial technology and wood technology).

Program Learning Outcomes
The successful student will be able to:
• demonstrate proficiency in technical skills and safety principles required for industrial employment.
• demonstrate problem solving skills used in industrial design and product development.
• demonstrate a deep understanding of the core material required for transfer to a four year university degree program or for certification in the department programs.

Career Opportunities:
Construction Worker, Construction Manager.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Construction Technology Certificate of Achievement.

Correctional Administration

Degree
Correctional Administration, Associate of Arts
Correctional Administration
Associate of Arts Degree

This program includes classes that will guide students toward careers in law enforcement, the courts and the law, and state, local, and private corrections. These courses have been endorsed by the Joint Apprenticeship Committee of the California Department of Corrections, California Youth Authority, and the California Correctional Peace Officers Association.

Program Learning Outcomes
Upon successful completion, the student will:

- identify, analyze, and apply the fundamental theories and concepts underlying the American correctional system.
- identify and describe the operational elements of the major components comprising the American prison and jail systems.
- identify, analyze, and apply basic legal principles and rules to factual situations.
- identify and implement the principles and procedures utilized in legitimate scientific and criminal investigation.
- demonstrate multicultural awareness and respect for constitutional and human rights.
- identify, analyze, and apply the ethical components of discretionary decision-making in probation, parole, and institutional corrections.
- demonstrate respect for the dignity and humanity of victims, perpetrators, and wrongfully convicted persons.
- demonstrate the ability to communicate effectively orally and in writing.

To Transfer Coursework
A minimum of 24 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

To Achieve the Associate of Arts Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded a Correctional Administration Associate of Arts Degree.

Economics

Degree
Economics, Associate in Arts for Transfer
The Associate in Arts in Economics for Transfer Degree is designed to prepare students for transfer into the CSU system to complete a baccalaureate degree in Economics or a similar major. It is designed for students interested in preparing for advanced degrees in Economics, Business, or Law, and for those students concerned with the economic behavior of consumers, businesses, and governments. Economics majors have a wide variety of career opportunities in business, law, journalism, education, politics, finance and banking, government, public and private overseas service, and labor leadership. Many economics majors go on to pursue graduate study in a related professional area, such as law, business, or public administration.

The Associate in Arts in Economics for Transfer Degree is designed to provide students a clear pathway to the CSU economics major and completion of the economics baccalaureate degree, to grant guaranteed admission to a CSU to a similar major, with junior standing, and the ability to complete their remaining requirements within 60 semester or 90 quarter units.

Program Learning Outcomes
Upon successful completion, the student will:

• be able to explain the nature and functioning of the market system.
• be able to define criteria for assessing efficiency in the provision of goods and services.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:

• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a 'C' or better. A 'P' (Pass) grade is not acceptable for courses in the major.

Electronics Technology, Certificate of Achievement
Electronics - Industrial Automation, Job Skills Certificate
Electronics - Industrial Communication, Job Skills Certificate
Electronics - Industrial Maintenance, Job Skills Certificate
Electronics - Manufacturing Automation, Job Skills Certificate
Industrial Technology, Electronics Option
Associate of Science

Technology runs the planet, with electronics playing an essential role. It is a digital world, and those who understand this world can become valuable additions to technology-focused employers. The Industrial Technology Degree, Electronics Option, teaches essential skills that can be put to use as an industrial technician, electronics technician, field service representative, salesperson or computer technician. A degree holding student will also be looked at for quick promotions into supervision and management positions.

Program Learning Outcomes
The successful student will be able to:
• demonstrate proficiency in technical skills and safety principles required for employment in the electronics industry.
• demonstrate problem solving skills used in electrical design and product development.
• demonstrate a deep understanding of the core material required for certification in the electronics program.

To Transfer Coursework
A minimum of 33 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

To Achieve the Associate in Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Industrial Technology, Electronics Options Associate in Science degree.

The Bakersfield College Electronics Certificate program will show the world that you have gained the necessary knowledge and skills to perform better on the job. This program of study is widely recognized and modeled after local industry competency standards. A certified electronic professional often appears more dedicated, more skilled and thus more attractive to prospective employers. Program includes study in the following areas: Electrical theory and components, soldering, wiring diagrams, safety, advanced analog semiconductor and digital devices, power supplies, test equipment, programmable logic controllers, Allen Bradly SLC 500 and CLX 5000 Instrumentation, temperature, pressure, level detectors, radio communications, antenna and transmission lines, telecommunications, video, data, network technology, motor theory and wiring, computer integrated manufacturing, installation and wiring standards, and mechanical systems. Career opportunities in Electronics Technology include entry level positions in petroleum/energy, manufacturing automation, instrumentation/process control, logistics and distribution, ancillary services, telecommunications, radio communications, food and materials processing, and industrial maintenance.

Program Learning Outcomes
The successful student will be able to:
• demonstrate proficiency in technical skills and safety principles required for industrial employment.
• demonstrate a deep understanding of the core material required for transfer to a four year university degree program or for certification in the department programs.

Career Opportunities:
Industrial Maintenance Mechanic, Instrumentation Technician, Process Technician, Communications Technician, Controls Technician, Automation Technician

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Electronics Technology Certificate of Achievement.

Total Units: 33

Electronics, Industrial Automation
Job Skills Certificate

The Bakersfield College Electronics Certificate program will show the world that you have gained the necessary knowledge and skills to perform better on the job. This program of study is widely recognized and modeled after local industry competency standards. A certified electronic professional often appears more dedicated, more skilled and thus more attractive to prospective employers. Program includes study in the following areas: electrical theory and components, soldering, wiring diagrams, safety programmable logic controllers, Allen Bradley SLC 500 and CLX 5000 computer integrated manufacturing. This program prepares students for careers in electronics technology. Entry level positions in petroleum/energy, manufacturing automation, process control, logistics and distribution, material processing, and industrial maintenance.

Program Learning Outcomes
The successful student will be able to:
• demonstrate proficiency in automation programming/troubleshooting related to programmable logic controllers and safety principles required for industrial employment.
• demonstrate problem solving skills used in ladder logic and sequential function charts, to include design and development of programmable logic controllers circuits.
• demonstrate an understanding of the core material and theory related to programmable automation controllers that is required for transfer to a four year university degree program or for certification.

Career Opportunities:
Industrial Maintenance Mechanic, Instrumentation Technician, Process Technician, Controls Technician, Automation Technician

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Electronics, Industrial Automation Job Skills Certificate.

Electronics, Industrial Communication
Job Skills Certificate

The Bakersfield College Electronics Certificate program will show the world that you have gained the necessary knowledge and skills to perform better on the job. This program of study is widely recognized and modeled after local industry competency standards. A certified electronic professional often appears more dedicated, more skilled and thus more attractive to prospective employers. Program includes study in the following areas: electrical theory and components, soldering, wiring diagrams, safety advanced analog semiconductor and digital devices, power supplies, test equipment, radio communications, antenna and transmission lines, telecommunications, video, data, network technology, and installation and wiring standards. This program prepares students for careers in electronics technology. Entry level positions in ancillary services, telecommunications, and radio communications.

Program Learning Outcomes
The successful student will be able to:
• demonstrate proficiency in technical skills and safety principles required for employment in the communication field.
• demonstrate problem solving and troubleshooting skills used in multi-spectrum industrial equipment for wired and over the air systems.
• demonstrate an understanding of theory and core material related to industrial communication, radio and telecommunications, that is required for transfer to a four year university degree program or for certification.

Career Opportunities:
Communications Technician

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Electronics, Industrial Communication Job Skills Certificate.

Emergency Medical Technician

Certificate
Emergency Medical Technician, Job Skills Certificate
Emergency Medical Technician
Job Skills Certificate

The Emergency Medical Technician job skills certificate complies with state requirements and ensures that the student has met the local EMS (Kern County authority) approval for county protocol training. The Emergency Medical Technician-1 (EMT-1) course consists of 162 hours, which includes 24 hours of emergency room/fire engine ride-along experience. The course prepares the student to perform basic emergency care as part of a mobile emergency team. It also provides the student with an understanding of the skills and assessment techniques needed to care for an ill or injured person in the prehospital setting. Upon successful completion of the course, students are eligible to take an examination for certification as an Emergency Medical Technician 1. The course is required for ambulance personnel, and many other first care providers. Students may later choose to become paramedics.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate the ability to comprehend, apply, and evaluate the clinical information relative to his/her role as an entry level EMT-1.
• demonstrate technical proficiency in all skills necessary to fulfill the role of the entry level EMT-1.
• demonstrate personal behaviors consistent with professional and employer expectations for the entry level EMT-1.

Pre-admission Requirements:
• Each student must possess a current American Heart Association BLS -Healthcare Provider card. (Bakersfield College offers a BLS course (MEDS B52).
• Each student must be at least 18 years of age by the completion date of the course.
• Mandatory physical examination/immunizations and fit testing must be completed 4 weeks after start of the course. Costs of meeting health requirements are paid by the student. Failure to meet these requirements will result in student ineligibility for clinical rotations.
• Completion of the 3 unit Medical Terminology Course (MEDS B60) is strongly recommended.

Conditional Enrollment:
As a condition of enrollment in any Nursing/Allied Health Program, students are required to submit to and pass a designated drug and alcohol screening, a background screening, and physical examination clearance (at the student’s expense). Please note the following:

Accreditation and Program Approval
Bakersfield College is accredited by the Western Association of Schools and Colleges. The Emergency Medical Technician Program is approved by Kern County Emergency Medical Services and meets all state and county requirements.

Licensure/Certification Eligibility
Students with a misdemeanor and/or felony arrest conviction, either current or prior, may not receive certification or licensure from the State or County. Also, proof of citizenship (social security card and certified birth certificate) and fingerprinting are required by state certification/licensure agencies. Anyone who wishes clarification may contact the Kern County Emergency Medical Services Office at 661/868-5200.

Career Opportunities:
EMT-1’s are employed by fire departments, hospitals, and a variety of healthcare settings statewide. On average EMT’s annual average salary is $27,000.

To Transfer Coursework
A minimum of 7.5 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Emergency Medical Technician Job Skills Certificate.

Total Units: 8

Engineering

Degrees
Engineering, Associate of Science
Engineering Technology, Associate of Science
The Associate of Science in Engineering program provides the necessary foundation for a career in the various fields of engineering. People working in the field of engineering and related technical fields “bridge the gap” between scientific principles and the application of these principles to the needs of society. The field is quite diversified with exciting job opportunities for people with varied mathematic, scientific, and technical skills.

An engineer uses experience and judgment, as well as advanced training in engineering, science, and mathematics to formulate ideas and designs, and to determine standards, specifications, work orders and schedules so that projects can be economically beneficial to mankind. A Bachelor of Science Degree in Engineering is required for this field, although students with the Associate of Science in Engineering degree can obtain employment as Engineering Technicians.

**Program Learning Outcomes**

Upon successful completion of the Associate of Science in Engineering degree, the student will:

- Demonstrate proficiency in technical skills and safety principles required for employment as an engineering technician.
- Apply problem solving skills used in engineering design and product development.
- Demonstrate a deep understanding of the core material required for transfer to a four year university degree program in engineering.

**Career Opportunities:**

Engineering Technician (with AS degree), Engineer (with BS degree)

**To Achieve the Associate of Science Degree**

Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Engineering Associate of Science Degree.

**Total Units: 44**

Engineering Technology
Associate of Science Degree

Engineering technologists and engineering technicians are members of a technical team that also includes scientists, engineers and craftsmen. The members of the technical team perform job functions that are complementary and sometimes overlapping. By virtue of their education, training and interests, engineering technologists and engineering technicians are usually differentiated as follows: An engineering technologist uses applied and basic training in mathematics, science, and engineering classes, engineering methods learned through classes and experience, and developed technical (hands-on) skills in direct support of engineering activities. A Bachelor of Science degree in Engineering Technology is required. An engineering technician operates in a support role to aid in design, production, manufacturing, operations, and maintenance. Under professional direction, the engineering technician conducts tests, trouble shooting and analysis, and other similar projects, or carries out functions such as drafting, surveying, designing and technical sales. An Associate in Science degree or a Certificate of Engineering Technology is required. Bakersfield College offers courses required for two years of engineering technology education. Completion of these courses, called the engineering technology core prepares students either for transfer to the colleges and universities offering bachelor’s degrees in Engineering Technology, or for completion of an Associate in Science degree in Engineering Technology. A beginning engineering technology student should have completed high school mathematics through intermediate algebra or MATH BD/MATH B70 at Bakersfield College, one year of high school drafting, and be eligible for ENGL B50.

Program Learning Outcomes
Upon successful completion, the student will:
- demonstrate proficiency in technical skills and safety principles required for employment as an engineering technologist.
- demonstrate problem solving skills used in engineering technology design and product development.
- demonstrate a deep understanding of the core material required for transfer to a four year university degree program in engineering technology.

Career Opportunities:
Engineering Technology, Sales Engineer, Drafter, Industrial Designer

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Engineering Technology Associate of Science Degree.

English

**Degree**
English, Associate in Arts for Transfer
English
Associate in Arts Degree for Transfer

The Associate in Arts in English for Transfer degree is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in English or similar major. The Associate in Arts in English for Transfer degree provides a study of literature and expository writing. English majors will be able to analyze literary work and will be able to demonstrate an understanding of and an ability to describe ways in which literature reflects historical, intellectual, and cultural contexts, as well as aesthetic tastes; English majors will be able to evaluate literature and expository and argumentative papers and essays through application of critical thinking techniques; and they will be able to write logical and coherent expository and argumentative papers, essays, summaries, and paraphrases using correctly the standard conventions of written English. Many employers value the writing and critical thinking skills acquired by English majors.

Program Learning Outcomes
Upon successful completion, the student will:
• write logical and coherent expository and argumentative papers, essays, summaries, and paraphrases using correctly the standard conventions of written English.
• demonstrate an understanding of and an ability to describe ways in which literature reflects historical, intellectual, and cultural contexts, and well as aesthetic tastes.
• evaluate literature and expository and argumentative papers and essays through application of critical thinking techniques.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Fire Technology
Associate of Arts Degree

This degree program of study was developed to assist students who desire to become a firefighter, or desire Fire Technology as a career. This certificate or degree will aid existing firefighters in promoting/advancing through the ranks of engineer, captain, battalion chief, etc. The Bakersfield Fire Department requires an associate degree before a captain can take the promotional exam for battalion chief. This course of study will transfer to a four-year institute.

Note: FIRE B1 can be waived if the student has completed either academy (B62, B63 or B64) and B2 can be waived for students who have a minimum of two years continuous experience as a full-time paid firefighter. A GPA of at least 2.0 is required in the fire technology program. Of the 18 units required, a minimum of 12 units must be completed at Bakersfield.

Bakersfield College’s Regional Fire Technology Academy (RFTA) was authorized by the California Fire Service Training and Education System in 1980, with programs of study leading to Certified Company Officer, Chief Fire Officer, Executive Chief Officer. RFTA sponsors many cooperative training programs with federal, state, and local fire protection agencies. Individuals may develop a program suitable to their career goals with the aid of a college counselor. Courses may lead to the achievement of specific career goals, immediate employment, an associate degree, or transfer credits that satisfy requirements for a bachelor’s degree in Fire Technology.

Program Learning Outcomes
Upon successful completion, the student will:
• identify minimum qualifications and entry-level skills for fire fighting hiring.
• demonstrate the ability to analyze, appraise and evaluate fire and emergency incidents.
• identify and comprehend laws, regulations, codes and standards that influence fire department operations and identify regulatory and advisory organizations that create and mandate them, especially in the areas of fire prevention, building codes and ordinances, and firefighter health and safety.
• analyze the causes of fire, determine extinguishing agents and methods, differentiate the stages of the fire and fire development, and compare methods of heat transfer.
• identify and describe the apparatus used in the fire service, and the equipment and maintenance of fire apparatus and equipment.
• identify and describe common types of building construction and conditions associated with structural collapse and firefighter safety.
• differentiate between fire detection and fire suppression systems.

To Achieve the Associate in Arts
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded a Fire Technology Associate of Arts degree.

Wildland Firefighting
Associate of Science Degree

This degree is designed for people who desire to enter or enhance their career in a state or federal wildland firefighting agency. The course material is linked with the National Multi-Agency Coordinating Group certification process.

Additional course work is designed to meet or exceed the National Fire Protection Association’s 1051 Standard on Wildland Fire Fighter Professional Qualifications. The elective material is designed to allow a student to obtain some degree of specialization that may tailor a student’s education to qualify for supervisor positions in a wildland organization. Students may be placed in paramilitary and physically demanding environments designed to introduce the student to the job tasks and skills required to operate in the wildland fire services.

Career opportunities Include:
Forest Service and the Bureau of Land Management. Discharged military service personnel can use their military service time towards their career in the Forest Service or the BLM.

Program Learning Outcomes
Upon successful completion, the student will:
- differentiate influences effecting fire behavior.
- determine safety zones and escape routes.
- establish suppression priorities.
- describe the role of the public information officer in overall incident organization.
- compose planning section written objectives.

To Achieve the Associate of Science
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded a Wildland Fire Technology Associate of Science degree.

The Fire Fighter I Academy Certificate of Achievement is designed to meet the training and educational requirements established by the State Fire Marshal’s Office for Fire Fighter I certification. The program will prepare students for the national registry exam and certification as a California State Emergency Medical Technician. After successful completion of this certificate, students will be authorized to take the National Registry EMT examination.

Program Learning Outcomes
Upon successful completion, the student will:
• perform skills that meet National Fire Protection Association Standard 1001 for Fire Fighter and California State Fire Marshal Standards for Fire Fighter.
• demonstrate written and verbal communication skills required for entry-level fire fighter positions.
• analyze emergency and hazardous conditions that are inherent to the firefighting profession.

To Achieve the Certificate of Achievement
Upon completion of the following courses with a grade of ‘C’ or better in each course, the student will be awarded a Fire Fighter I Academy Certificate of Achievement.

Total Units: 20.5-24.5
Required Courses
Course #  Name                      Units
FIRE B64  State Firefighter I Academy or Firefighter I 16.5
FIRE B62  Firefighter I Academy and Certification 12.5
EMTC B50  Emergency Medical Technician 8.0

The courses can be taken out of order. If students take these courses in the following sequence, they can complete the program in one year (two semesters):
1. EMTC B50 taken in fall of year 1.
   (with a “C” or higher grade.)
2. Fire B64 OR B62 taken in spring of year 1.
   (with a “C” or higher grade.)
Fire Technology Certificate of Achievement

This certificate was developed to assist students who desire to become a firefighter, or desire Fire Technology as a career. This certificate will aid existing firefighters in promoting/advancing through the ranks of engineer, captain, battalion chief, etc. The Bakersfield Fire Department requires an associate degree before a captain can take the promotional exam for battalion chief. This course of study will transfer to a four-year institution.

**Note:** FIRE B1 is a prerequisite and must be completed before taking other core fire technology courses. FIRE B1 can be waived if the student has completed either academy (B62 or B63) and B2 can be waived for students who have a minimum of two years continuous experience as a full-time paid firefighter. A GPA of at least 2.0 is required in the fire technology program. Of the 30 units required, a minimum of 12 units must be completed at Bakersfield College.

Bakersfield College's Regional Fire Technology Academy (RFTA) was authorized by the California Fire Service Training and Education System in 1980, with programs of study leading to Certified Fire and Certified Fire Chief. RFTA sponsors many cooperative training programs with federal, state, and local fire protection agencies. Individuals may develop a program suitable to their career goals with the aid of a college counselor. Courses may lead to the achievement of specific career goals, immediate employment, an associate degree, or transfer credits that satisfy requirements for a bachelor's degree in Fire Technology.

### Program Learning Outcomes
Upon successful completion, the student will:

- identify minimum qualifications and entry-level skills for fire fighter hiring.
- describe the following elements:
  - application process.
  - written exam process.
  - physical agility exam.
  - oral interview.
  - chief’s interview.
  - background investigation.
  - fire fighter probationary process.
  - identify fire service history, culture, and diversity.
- demonstrate the ability to analyze, appraise, and evaluate fire and emergency incidents and identify components of emergency management and fire fighter safety, including:
  - size-up.
  - report on conditions.
  - Incident Command System.
  - RECEO.
  - 10 Standard Firefighting Orders.
  - 18 Situations that shout “Watch Out.”
  - common factors associated with injuries and line of duty deaths.

### To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Fire Technology Certificate of Achievement.

*ENGL B60 may be substituted for ENGL B50 or ENGL B1a for Fire Technology Certificate of Achievement only.

**Note:** FIRE B1 and B2 are waived for students who have a minimum of two years service as a paid, full-time firefighter. A GPA of at least 2.0 is required in the certificate program. Of the 33.5-36.5 units required, a minimum of 12 units must be completed at Bakersfield College.
Fire Academy
Job Skills Certificate

The Fire Academy Job Skills Certificate will prepare the student for entry level firefighter positions, and provides the minimum training required to become a reserve firefighter. It provides the basic educational and practical training essential for firefighting, including the advanced study of organizational procedures; forcible entry tools; protective breathing apparatus; inspection procedures; fire protection equipment and systems; wildland fire control; EMR; fire behavior; and petroleum fire procedures.

Program Learning Outcomes
Upon successful completion, the student will:
• perform skills that meet National Fire Protection Association Standard 1001 for Fire Fighter and California State Fire Marshal Standards for Fire Fighter 1.
• demonstrate written and verbal communication skills required for entry-level fire fighter positions.
• analyze emergency and hazardous conditions that are inherent to the firefighting profession.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a 'C' grade in each course, the student will be awarded a Fire Academy Job Skills Certificate.

Total Units: 12.5-18.0
Required Courses
Course #   Name                              Units
FIRE B62   Fire Fighter I Academy           12.5
           or Firefighter I Academy
FIRE B64   Firefighter I Academy           15.0
           and Emergency Medical Responder
EMTC B51   Emergency Medical Responder     3.0

Wildland Firefighting
Job Skills Certificate

The Wildland Firefighting Job Skills Certificate will prepare students for a career in wildland firefighting, to work on the fire ground, and be red carded. This job skills certificate is required for the student to apply for a wildland firefighter position. The certificate will provide students with a basic understanding of wildland firefighting principles, tactics, organization, and fireline safety. It includes training in the identification and operation of wildland fire tools and equipment, water-handling equipment, and fireline construction practices.

Program Learning Outcomes
Upon successful completion, the student will:
• explain and demonstrate an understanding of wildland fire service organizations.
• describe and explain the environmental factors of fire behavior which affect a wildfire.
• demonstrate an understanding of important safety practices involved in wildland firefighting.
• identify and operate common wildland firefighting hand tools and equipment.
• explain and demonstrate how to construct a fireline.
• analyze information on water-handling equipment.

To Achieve the Job Skills Certificate
Upon completion of the following courses with a grade of ‘C’ or better in each course, the student will be awarded a Wildland Firefighting Job Skills Certificate.

Culinary Arts Associate of Science Degree

D egree emphasizes quality food production and service in commercial and institutional food service operations. Course work includes practical training in the campus restaurant, the Renegade Room. National Restaurant Association ServSafe certificate is required for completion of the degree.

Program Learning Outcomes
Upon successful completion, the student will:
• perform dining room service function using a variety of types of service and demonstrate an understanding of quality customer service.
• practice proper basic principles of food safety (sanitation) and their application to food service operations and procedures.
• practice the principles and methods of food preparation emphasizing use of standardized recipes, industry production standards, and development of work skills.
• maximize nutrient retention in food preparation and storage and application of nutritional principles and to apply fundamentals to the preparation of a variety of products.
• have an understanding of a supervisor’s role and responsibilities in managing a food service operation.

Career opportunities: Include sous chef, food service manager, food buyer, and cook.

To Achieve the Associate of Science
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Culinary Arts Associate of Science degree.

Dietetic Services Supervisor Program Certificate of Achievement

Program provides training for students planning employment in the food service department of a health care operation. Courses in this program meet State of California Department of Health Services certification requirements. Consult with a member of the Foods and Nutrition Program staff before scheduling courses in the program. At this time appropriate clinical field experience will be planned. A sanitation certificate such as ServSafe or equivalent is required for this certificate.

Program Learning Outcomes
Upon successful completion, the student will:

• locate the state and federal laws and regulations applicable to food service operations in health care (California Code of Regulations, Title 22 Federal Code of Regulations, Business and Professions Code of Registered Dietitians and Dietetic Technicians Registered, FDA Food Code, etc.).
• utilizing the above references laws, and in conjunction with the registered dietitian, determine compliance with regulations and acceptable standards of care.
• identify the role and limitations of the Dietary Service Supervisor under Title 22.
• review, with a registered dietitian, a facility’s policies and procedures to ensure that they are in compliance with regulations and standards of practice.
• locate diet manuals and show ability to use them by making menu substitutions to meet the nutritional needs of residents/patients in accordance with standard of care.
• help registered dietitian ensure that menus and standardized recipes are followed by food service staff. Help develop

standardized menus.

• ensure that food is prepared and served by methods that conserve nutritive value, flavor, and appearance. Ensure that food is prepared to meet individual texture and nutrient needs and that substitutions are of similar nutritive value.
• ensure that residents/patients receive and consume foods as prescribed by the physician. Document diet prescriptions, food preferences, and the possible need for texture modification and/or assistance during meal times by maintaining and updating card profiles.
• protect food in all phases of preparation. Ensure that food is inspected for quality upon receiving, then stored, prepared, and served under sanitary conditions to prevent food borne illness. Sanitation oversight includes all food service department areas and components such as storage rooms, refrigerators/freezers, food preparation, and service equipment and surfaces, tray lines, and carts.
• assist with day to day operations such as:
  • food forecasting, ordering, storage, preparation, and service.
  • employee staffing schedules.
  • employee health and safety programs.
  • labor relations.
  • employee orientation and ongoing planned staff development.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Dietetic Services Supervisor Program Certificate of Achievement.

Geology

Degree
Geology, Associate in Science for Transfer
Geology
Associate in Science Degree for Transfer

The Associate in Science in Geology Degree for Transfer is designed to provide students a clear pathway to the CSU Geology major and completion of the Geology baccalaureate degree; to grant guaranteed admission to a CSU in a similar major, with junior standing; and the ability to complete their remaining requirements within 60 semester or 90 quarter units.

The Associate in Science in Geology Degree for Transfer provides a path to students who wish to transfer to a CSU in the field of geology and serves the diverse needs of students who wish to obtain a broad and an in-depth understanding of the geological sciences. Additionally, the Associate of Science in Geology Degree for Transfer allows students to learn the fundamental principles and practices of geology in order to create a solid foundation for their future personal, academic, or vocational endeavors.

The Associate of Science in Geology Degree for Transfer also provides solid preparation that is appropriate for a variety of scientific disciplines.

The major in geology is appropriate for interested students who desire to be employed within the local petroleum industry working as a geology technician or seeking a solid science background for the teaching profession. The major is designed to provide students with a strong general education in math and science, introduction to physical and historical geology, as well as a general introduction to basic engineering skills.

Program Learning Outcomes
Upon successful completion, the student will:
- demonstrate the knowledge of and recognize the processes that explain natural phenomena.
- apply the methodologies of science when approaching a problem.
- apply logical quantitative and qualitative reasoning in solving problems or analyzing arguments

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
- A minimum of 18 semester units in a major area of emphasis, as determined by the district.
- The obtainment of a minimum grade point average of 2.0.
- The completion of all courses required for the major with a 'C' or better. A 'P' (Pass) grade is not acceptable for courses in the major.

Total Units: 26

Health Information Technology

Degree
Health Information Technology, Associate in Science for Transfer
Health Information Technology
Associate in Science Degree

The Associate in Science in Health Information Technology program prepares students for a career working with health information in a variety of healthcare settings in diverse roles. Health Information Technology professionals perform the essential functions of acquiring, analyzing, maintaining and securing health information vital to providing quality patient care. Health Information Technology graduates are employed in hospitals, clinics, physician's offices, ambulatory care facilities, long term care facilities, home health agencies, consulting firms, and any organization that uses patient data or health information, such as pharmaceutical companies, law and insurance firms, and health product vendors.

Requirements:
Conditional Enrollment: As a condition of enrollment in any Allied Health Program, students are required to submit to and pass a designated drug and alcohol screening, a background screening, and physical examination clearance (at the student's expense). Please note the following:

- A history of felony conviction(s), exclusion or other ineligibility for federal program participation could render a student ineligible for clinical placement, as determined by the clinical agencies.
- If a student cannot obtain background clearance from the clinical agencies, it will not be possible to place the student in the clinical areas, which is a required component of the program. In the event that a student cannot obtain a background clearance, the space will be forfeited. Students who are found to be ineligible for clinical placement by the clinical agency after admission to the program shall be subject to dismissal from the program, as they will be unable to complete mandatory clinical rotations.
- A physical examination completed by a physician of the student's choice is required after acceptance to the Program to demonstrate that a student meets the technical standards necessary to meet the Program objectives. Appropriate immunizations and/or vaccinations and mask fit testing are also required and are performed at the student's expense.
- More information can be found in the Bakersfield College Allied Health Office, MS 178.

In addition to the required Bakersfield College general education pattern, students must complete the core courses listed below for the Associate of Science in Health Information Technology Degree. Students must also obtain a minimum grade point average of 2.0 with a grade of C or higher in all courses required for the major. A “P” (Pass) grade is not an acceptable grade for courses in this major.

Program Learning Outcome:
Upon completion of the Associate of Science in Health Information Technology, the student will be able to:

- Apply the knowledge and skills needed to perform Health Information Technology Associate Degree entry-level competencies as defined by the American Health Information Management Association’s (AHIMA) Council for Excellence in Education (CEE).
- Apply the knowledge and skills needed to successfully pass the national Registered Health Information Technician (RHIT) exam.
- Compete in the job market in the field of health information technology or enroll in an advanced degree program.
- Demonstrate the ability to work effectively as an individual and collaboratively in a group to resolve health information challenges in a changing healthcare environment.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:

- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
- A minimum of 18 semester units in a major area of emphasis, as determined by the district.
- The obtainment of a minimum grade point average of 2.0.
- The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Total Units: 54-59

History

Degree
History, Associate in Arts for Transfer
History
Associate in Arts Degree for Transfer

The Associate in Arts in History for Transfer Degree is designed to provide students a clear transfer pathway to the CSU history major and completion of the history baccalaureate degree, to grant guaranteed admission to a CSU to a similar major, with junior standing, and the ability to complete their remaining requirements within 60 semester or 90 quarter units.

Historians analyze the events and processes of the past, both to gain more understanding of human nature, in any place and at any time, and to explain the distinctive dynamics of particular societies, usually in regional and chronological contexts. Historical study is an important part of the liberal arts program and the development of critical thinking skills. Most careers in history require education beyond the associate degree and some require a graduate degree. The study of history can serve as preparation for graduate study in education, law, business, government and journalism. Many employers value the writing and critical thinking skills acquired by History majors. Successful completion of the Associate in Arts in History for Transfer Degree guarantees the student acceptance to a local California State University to pursue a baccalaureate degree.

1. If used for List A requirements, cannot be used again.

Program Learning Outcomes

Upon successful completion, the student will:
- analyze major forces, events, and people instrumental in shaping human history.
- examine past social/cultural value systems which have formed a basis for human beliefs and challenges to those beliefs.
- analyze the various racial, ethnic and social subgroups which have played a role in the shaping of human history.
- evaluate historical evidence using both primary and secondary sources.

Requirements for AA-T or AS-T degrees:

The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
- A minimum of 18 semester units in a major area of emphasis, as determined by the district.
- The obtainment of a minimum grade point average of 2.0.
- The completion of all courses required for the major with a 'C' or better. A 'P' (Pass) grade is not acceptable for courses in the major.

*It is recommended that students complete additional GE units prior to entering the program if they choose not to take more than 15 units per semester.

**Note: Additional information to consider for BC:**

** Students must complete at least one class identified with an (*) to satisfy the Multicultural Requirement for graduation.
History
Associate in Arts Degree for Transfer

(continued)

1. Arts/Humanities: 9 units to be earned, from both groups.
2. Students must have a life science and a physical science course. Only one must be a lab class. If the science taken does not include a lab, that term a 1 unit transferable elective should be taken.
3. Any course from BC GenEd B2 or CSU Breadth B4 areas count, but Psych B5 encouraged.
4. Hist B1 must be paired with Hist B2, and Hist B4a must be paired with Hist B4b.

**Note for those pursuing Single-Subject Credential in Social Sciences at CSUB:**
CSUB will accept BOTH Econ classes we offer toward an Econ Minor, leaving only 2 upper division courses to complete at CSUB for said minor.

**Note for History Majors pursuing graduate studies in History:**
- Translation ability of primary sources in the foreign language of their origin is frequently required.
- Many universities use either a transcript evaluation of 2 collegiate years of B or higher in the language, or successful completion of a translation exam.
  - CSUB encourages foreign language skills, but does not have a foreign language requirement for the M.A. in History.
  - UC’s generally require translation fluency in a minimum of 1 foreign language for Doctoral work.
- As such, History Majors interested in graduate programs are encouraged to use foreign language classes for 2 of their Arts/Humanities area requirements.

Human Services, Job Skills Certificate
Human Services
Associate of Arts Degree

The major in human services provides the student with an academic background for entry-level positions in various human services agencies. It also prepares the student for upper-division work in human services and other behavioral sciences. The field is interdisciplinary with the overall career goal of helping people.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate an understanding of the perspectives, theories, methods and core concepts of the behavioral sciences.
• explain the major problems and issues in the disciplines in their contemporary, historical and geographical contexts.
• demonstrate an understanding of an ability to describe the contributions and perspectives of women, ethnic and other minorities and Western and non-Western peoples.

To Transfer Coursework
A minimum of 19 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

To Achieve the Associate of Arts
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded a Human Services Associate of Arts degree.

Total Units: 19

Human Services
Job Skills Certificate

The Human Service Job Skills Certificate emphasizes classroom instruction as well as hands-on-experience through interning with community human services agencies. The field of human services is very broad. It is concerned with meeting human needs and improving the overall quality of people’s lives. The field is interdisciplinary, meaning that knowledge from a variety of other fields of study is applied to the overall goal of helping people.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate an understanding of the perspectives, theories, methods and core concepts of the behavioral sciences.
• explain the major problems and issues in the disciplines in their contemporary, historical and geographical contexts.
• demonstrate an understanding of an ability to describe the contributions and perspectives of women, ethnic and other minorities and Western and non-Western peoples.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Human Services Job Skills Certificate.

Industrial Automation

Degree
Industrial Automation, Bachelor of Science Degree
Industrial Automation, Associate of Science Degree
Industrial Automation
Bachelor of Science Degree

Industrial automation represents the technology-driven business model of the 21st century. In today's industry, engineers involved in developing new products or processes work closely with technologists who apply scientific and technical knowledge in the design, manufacturing, and repair of automation systems. Bakersfield College's Baccalaureate Degree Program in Industrial Automation will train students with the skill set those technologists require, meeting the needs of a host of local employers, including major companies in the agriculture, distribution, and manufacturing sectors.

This degree focuses on the application of electronics and computer technology to industrial automation systems, which may apply to various categories of job titles in the following areas:
- Maintenance of Industrial Equipment
- Automation (Programmable Logic Controllers/PAC's, robotics, materials and product handling, motion control motor drives, networked control systems, automated production equipment, integration of various technologies into solutions, and related areas)
- Process Control and Measurement (Instrumentation, Industrial Measurement)
- Quality Assurance/Quality Control
- Industrial Safety and Hygiene
- Technical Management (managing technical employees)
- Operations Management (managing company operations)
- Facilities Planning, Infrastructure, Upgrade Supervision
- Operations Management
- Technical Sales and Marketing
- Design and Engineering Operations (positions that do not require the employee to have completed a four-year Engineering degree and/or be licensed)

The program prepares students for careers in the design, operation, and management of industrial automation systems focusing on the local industries that utilize these technologies, such as petroleum production, food production, fabrication, and logistics. Significant emphasis is placed on project based learning facilitated by significant laboratory work.

There will be approximately 62 units of general education and major coursework for lower division requirements of the degree. The lower division general education pattern closely follows the CSU GE Breadth Course pattern, including specific GE courses required for this program. In addition, most of the lower division core electronics courses will need to be completed such as: basic electronics, computer integrated manufacturing, programmable logic controllers, and instrumentation/process control.

There will be 60 units of upper division coursework, including new upper division technical and general education courses. Upper division technical courses will cover a broad range of industrial topics including automation networks and systems, automation measurement and motion control, and automation applications in manufacturing and production processes, but will also include courses in project management, leadership and entrepreneurship, quality assurance and facilities planning and operations.

Mission
The Baccalaureate Program in Industrial Automation is designed to prepare individuals for technical management careers in industries that utilize automation, including the petroleum, manufacturing, logistics and agriculture industry sectors, in order to improve the regional economy.

Program Learning Outcomes:
Upon successful completion, the student will:
- apply critical and analytical problems solving skills to industry related problems dealing with safety, quality assurance and maintenance of systems.
- display effective communication skills including presentation and technical writing skills.
- consider mathematical and scientific principles in proposing solutions in the field of industrial automation and manufacturing.
- appraise and document industrial automation processes to propose solutions that integrate instrumentation and control hardware with software for manufacturing operations.
- evaluate and manage automation and manufacturing projects by applying their knowledge of resource allocation principles in an ethical environment.

Prerequisite Requirements
All prerequisite coursework must be completed with a “C” grade or higher.
- ENGL B1A (Expository Composition); 3 units at Bakersfield College or equivalent course at another accredited college.
- MATH B1A (Precalculus I), MATH B2 (Basic Functions and Calculus for Business), OR MATH B6A (Analytic Geometry/Calculus I); 4 units at Bakersfield College or equivalent course at another accredited college.
- PHYS B2A (General Physics-Mechanics and Heat) OR PHYS B4A (Mechanics and Wave Motion); 4 units at Bakersfield College or equivalent course at another accredited college.
- Critical Thinking (CSU GE Area A3) - PHIL B7, or B9, or ENGL B1B, or B2, or B3, or COMM B5; 3 units at Bakersfield College or equivalent course at another accredited college.
- Communication (CSU GE Area A1) - COMM B1, or B4 or B8; 3 units at Bakersfield College or equivalent course at another accredited college.
- ny six of the following eight courses must be completed for admittance to the Baccalaureate Degree Program. However, all eight lower division technical core courses must be completed prior to graduation. Demonstrated competency in lower division core courses may satisfy this requirement subject to evaluation by program faculty.
  1. ELET B1 (Basic Electronics) 4 units
  2. ELET B4 (Computer Integrated Manufacturing) 3 units
  3. ELET B5 (Programmable Logic Controllers) 3 units
  4. ELET B5A (Electric Motors - Controls) 4 units
  5. ELET B56 (Instrumentation and Process Control) 3 units
  6. ELET B58 (Advanced Programmable Logic Controllers) 3 units
  7. ELET B61 (Telecommunications) 3 units
  8. INDR B12 (Introduction to Drafting and CAD) 2 units
Industrial Automation  
Bachelor of Science Degree  
(continued)

General Education
General Education courses meeting the CSU General Education Pattern are required to graduate with the BS in Industrial Automation from Bakersfield College. Twenty-nine of the 41 CSU GE units must be completed for admittance to the Baccalaureate Degree Program. Within these 29 units, CSU GE Areas A, B1, B3, B4 (as outlined above) must be satisfied. However, all 41 lower division GE units must be completed prior to graduation.

A. English Language Communication and Critical Thinking (9 units)  
   A.1. Oral Communication (3 units)  
       COMM B1, or B4 or B8  
       (COMM B8 recommended)  
   A.2. Written Communication (3 units)  
       ENGL B1A  
   A.3. Critical Thinking (3 units)  
       PHIL B7, or B9, or ENGL B1B, or B2, or B3, or  
       COMM B5 (COMM B5 recommended)  

B. Scientific Inquiry and Quantitative Reasoning (9 units)  
   B.1. Physical Universe (4 units)  
       PHYS B2A or higher (prerequisite course)  
   B.2. Life Science  
       Any course listed in Area B.2 of the CSU General Education Pattern in the Bakersfield College Catalog (Crop Science B5 recommended)  
   B.3. Laboratory Activity  
       PHYS B2A Lab or higher (prerequisite course)  
   B.4. Mathematics/Quantitative Reasoning (4 units)  
       MATH B1A or higher (prerequisite course)  

C. Arts and Humanities (9 units)  
   Any course as listed in Area C of the CSU General Education Pattern in the Bakersfield catalog.  
   Note: At least one course must be taken from Arts and one from Humanities  
   C.1. Arts - one course (ART B4 recommended)  
   C.2. Humanities - one course; (PHIL B10 recommended)  
   C.1 or C.2 – Any one course (SPAN B1 recommended)  

D. Social Science (9 units)  
   Any three courses listed in Area D.1 – D.10 of the CSU General Education Pattern in the Bakersfield College Catalog.  
   (ECON B1 or B2, HIST B17A or B17B, or POLS B1 recommended)  

E. Lifelong Understanding and Self-Development (3 units)  
   Any one, three unit course as listed in Area E of the CSU General Education Pattern in the Bakersfield College Catalog (PSYC B1A recommended)
## Industrial Automation

Industrial Automation
Associate of Science Degree

The Associate of Science in Industrial Automation is designed to prepare students for optimal success in higher education and technical careers in an environment that will encourage a lifelong pursuit of learning. This degree teaches essential skills that can be put to use as an industrial technician, electronics technician, field service representative, or salesperson. A degree holder will also be considered for potential promotions into supervision and management positions. They will also become valuable additions to technology-focused employers. Teaching and learning strategies will include student-centered, competency-based, and hands-on instruction. In addition, the program will set in place quality customer/technician and employer/employee relationship skills to assure workplace and educational competencies have been met.

Program Learning Outcomes
Upon successful completion, the student will:

- Safely execute technical skills in lab environments that are required for employment in automation industries.
- Apply problem solving skills to automation design and product development.
- Demonstrate a deep understanding of the core material required for certification in automation programs.

To Achieve the Associate of Science Degree
In addition to the required general education pattern, students must complete the core courses listed below for the Associate of Science in Industrial Automation Degree. Students must also obtain a minimum grade point average of 2.0 with a grade of C or higher in all courses required for the major. A “P” (Pass) grade is not an acceptable grade for courses in this major.

Certificate
Industrial Drawing, Certificate of Achievement

AutoCAD, Job Skills Certificate
Introduction Drawing
Associate of Arts Degree

This degree covers the principles of industrial drawing/CAD with the emphasis on using the AutoCAD software package from basic 2D principles through 3D solid modeling to obtain graphic solutions, design refinements, modifications and delineations. Software customization is also emphasized. Career opportunities include drafter, CAD operator, engineering tech, CAD manager, and architecture CAD operator.

Program Learning Outcomes
Upon successful completion, the student will:
- demonstrate proficiency in technical skills and safety principles required for industrial employment.
- demonstrate problem solving skills used in industrial design and product development.
- demonstrate a deep understanding of the core material required for transfer to a four year university degree program or for certification in the department programs.

Career Opportunities:
Architectural and Civil Drafters, Electrical and Electronics Drafters, Engineering Technician, Mechanical Drafters

To Achieve the Associate of Arts Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Industrial Drawing Associate of Arts Degree.

Industrial Technology: Industrial Drawing Option
Associate of Science Degree

Students who complete the Industrial Technology degree with the Industrial Drawing option will acquire information, skills, and training in a variety of fields that will enable them to apply their knowledge in an array of situations, including engineering and manufacturing settings. Students will acquire the practical knowledge and skills to successfully enter industry employment or to advance within their organization. Career opportunities include architecture, engineering, industrial technology draftsman, CAD Technician, engineering technician, CAD Manager, and detailer.

Program Learning Outcomes
Upon successful completion, the student will:
- demonstrate proficiency in technical skills and safety principles required for industrial employment.
- demonstrate problem solving skills used in industrial design and product development.
- demonstrate a deep understanding of the core material required for transfer to a four year university degree program in industrial technology.

Career Opportunities:
Architectural and Civil Drafters, Electrical and Electronics Drafters, Engineering Technician, Mechanical Drafters

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Industrial Drawing Associate of Science Degree.

Industrial Drawing
Certificate of Achievement

The Industrial Drawing Certificate of Achievement prepares students for entry-level employment in the various specialized fields of Industrial Drawing. Students will grow in their use of Computer-Aided Drafting (CAD) skills in addition to acquiring the industry specific knowledge used across the spectrum of major industries employing CAD technicians and designers. Career options include: drafter, CAD detailer, CAD modeler, industrial designer, engineering technician, and CAD manager. These options cross the spectrum of fields requiring CAD technicians, including: Architecture and Construction, Civil Engineering and Surveying, Electrical and Electronics, Mechanical and Process Piping, Manufacturing and Fabrication.

Program Learning Outcomes
Upon completion of the Certificate of Achievement in Industrial Drawing, the student will:
• Utilize CAD software to create technical drawings for specialized fields of Industrial Drawing
• Perform the technical calculations required of an entry-level CAD drafter in the Civil, Piping, Electrical, and Industrial Design fields.
• Demonstrate proficiency in technical skills and safety principles required for industrial employment.
• Demonstrate problem solving skills used in industrial design and product development.
• Demonstrate a deep understanding of the core material required for transfer to a four year university degree program in industrial technology.

Career Opportunities:
drafter, CAD detailer, CAD modeler, industrial designer, engineering technician, and CAD manager. These options cross the spectrum of fields requiring CAD technicians, including: Architecture and Construction, Civil and Surveying, Electrical and Electronics, Mechanical and Process Piping, Manufacturing and Fabrication.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Industrial Drawing Certificate of Achievement.

Industrial Technology

Degree
Industrial Technology, General, Associate of Science

Fields of Study Available:
Electronics (See page 130)
Industrial Drawing (See page 169)
Manufacturing Technology (See page 180)
Welding (See page 236)
Woodworking and Cabinetmaking (See page 239)
Industrial Technology (General) 
Associate of Science Degree

Students who complete the Industrial Technology degree with the Industrial Drawing option will acquire information, skills, and training in a variety of fields that will enable them to apply their knowledge in an array of situations, including engineering and manufacturing settings. Students will acquire the practical knowledge and skills to successfully enter industry employment or to advance within their organization. Career opportunities include architecture, engineering, and Industrial Technology, draftsman, CAD Technician, Engineering Technician, CAD Manager, and detailer.

Program Learning Outcomes
Upon successful completion, the student will:

• demonstrate proficiency in technical skills and safety principles required for industrial employment.
• demonstrate problem solving skills used in industrial design and product development.
• demonstrate a deep understanding of the core material required for transfer to a four year university degree program in industrial technology.

To Transfer Coursework
A minimum of 22 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

To Achieve the Associate of Science Degree
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded an Industrial Technology (General) Associate of Science degree.

Journalism

Degree
Journalism, Associate in Arts for Transfer
Journalism
Associate in Arts Degree for Transfer

The Associate in Arts in Journalism for Transfer degree is intended for those transfer-directed students who plan to complete an AA in Journalism because it guarantees admission to the CSU system (but not to a particular campus or major). In order to earn the Associate of Arts in Journalism for Transfer, students must complete 60 required semester units of CSU-transferable coursework which includes CSU General Education or IGETC requirements with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the Associate of Arts in Journalism for Transfer will be required to complete no more than 60 units after transfer to earn a bachelor’s degree (unless the major is designated “high-unit” major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system.

Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. This degree eliminates the additional Bakersfield College graduation requirements.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate the ability - through learned skills, critical thinking and organization - to perform the function of reporter, photographer or editor on a print and online publication.
• demonstrate how to conduct the process of reporting.
• demonstrate how to conduct the process of photojournalism and multimedia.
• discuss various forms of media and how they relate to society through historical and current knowledge of mass communication.
• demonstrate an understanding of journalism ethics and standards.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University - Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtaining of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a 'C' or better. A 'P' (Pass) grade is not acceptable for courses in the major.

Total Units: 18-20

Kinesiology

Degree
Kinesiology, Associate in Arts for Transfer
The Associate in Arts in Kinesiology for Transfer (AA-T) is intended for all students who plan to complete an Associate in Arts in Kinesiology. This degree is especially valuable for those students planning on completing a bachelor's degree in Kinesiology at a CSU campus because the Associate in Arts in Kinesiology for Transfer guarantees admission to the CSU system (but not to a particular campus or major).

Students transferring to a CSU campus that does accept the Associate in Arts in Kinesiology for Transfer will be required to complete no more than 60 units after transfer to earn a bachelor's degree (unless the major is a designated "high-unit" major).

This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. This degree eliminates the additional Bakersfield College graduation requirements.

Program Learning Outcomes

Upon successful completion, the student will:

• analyze the history, research, and current information in Kinesiology and their current applications.
• demonstrate and explain the basic anatomy and physiological principles at work in both sport performance and general fitness activities.
• demonstrate an understanding of the value and significance of physical activity for human development, human interactions and quality of life.
• demonstrate and describe the primary aspects of injury and trauma response as a first responder.
• recognize the principles of physical fitness development and maintenance as well as the body's responses to physical activity.

Requirements for AA-T or AS-T degrees:

The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:

• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a 'C' or better. A 'P' (Pass) grade is not acceptable for courses in the major.

Liberal Arts

Degree
Liberal Arts, Associate of Art Degree
The Liberal Arts major at Bakersfield College is designed to provide students with the opportunity to earn an associate in arts degree in a broad area of study. The major is interdisciplinary and allows students to develop a variety of skills transferable to numerous occupations and fields of study. The major is intended to provide general knowledge and to develop the intellectual capacities, such as reasoning and judgment, as opposed to professional or vocational skills. This major is suitable for transfer students preparing for upper division study in a variety of fields in the liberal arts and for those students undecided as to major or further study.

Students may satisfy requirements for the Liberal Arts major by completing one of the two options listed below. With any option selected, students must also complete all graduation requirements for Bakersfield College including a total of 60 degree applicable units with an overall grade point average of 2.0.

To Transfer Coursework
A minimum of 18 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

To Achieve the Associate of Arts
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Liberal Arts Associate of Arts degree.

Select one of the following options:

**Option One**
- Complete the Intersegmental General Education Transfer Curriculum (IGETC) with a “C” average.
- Complete at least 18 units from recommended lower division major preparation for the major at the approved university of your choice with a “C” grade in each course.
- UC transferable elective units, if needed, to total 60 units.

**Option Two**
- Complete CSU General Education Breadth with a “C” average.
- Complete at least 18 units from recommended lower division major preparation for the major at the approved university of your choice with a “C” grade in each course.
- CSU transferable elective units, if needed, to total 60 units.
Manufacturing/Machine Technology

**Degrees**
Industrial Technology, Manufacturing Technology Option, Associate of Science

**Certificates**
Manufacturing Technology, Certificate of Achievement

Computer Numerical Control Programming, Job Skills Certificate
Industrial Technology, Manufacturing Technology Option, Associate of Science Degree

This program teaches students the spectrum of tools utilized in the manufacturing industry: manual machining, computer-controlled machining (CNC), welding, computer aided design, and mathematics. General education courses may be selected to prepare for career advancement or to help meet transfer requirements for the California State University system.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for employment in the manufacturing industry.
• demonstrate problem solving skills used in manufacturing design and product development.
• demonstrate a deep understanding of the core material required for transfer to a four year university program or for certification in the manufacturing program.

Career Opportunities
Machinist, CNC Operator, CNC Programmer, and drafter/designer.

To Transfer Coursework
A minimum of 24 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

To Achieve the Associate of Science
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Industrial Technology, Manufacturing Technology Option Associate of Science degree.

Manufacturing Technology Certificate of Achievement

This program teaches students the spectrum of tools utilized in the manufacturing industry: manual machining, computer-controlled machining (CNC), welding, computer aided design, and basic math.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for employment in the manufacturing industry.
• demonstrate problem solving skills used in manufacturing design and product development.
• demonstrate a deep understanding of the core material required for transfer to a four year university program or for certification in the manufacturing program.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Manufacturing Technology Certificate of Achievement.

Basic Machine Tool Operations
Lathe, Mill - Job Skills Certificate

This certificate covers the principles of machine tool technology to include the use of precision measuring, drilling machines, saws, lathes and milling machines. Career opportunities include machinist.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for industrial employment.
• demonstrate problem solving skills used in industrial design and product development.
• demonstrate a deep understanding of the core material required for transfer to a four year university program or for certification in the department programs.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a 'C' grade in each course, the student will be awarded a Basic Machine Tool Operations - Lathe, Mill Job Skills Certificate.

Mathematics

Degree
Mathematics, Associate in Science for Transfer
Mathematics
Associate in Science for Transfer

The Associate in Science in Mathematics for Transfer is intended for all students who plan to complete an AS in Mathematics. This degree is especially valuable for those students planning on completing a bachelor’s degree in Mathematics at a CSU campus because the Associate of Science in Mathematics for Transfer guarantees admission to the CSU system (but not to a particular campus or major).

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate an understanding of functions from multiple perspectives.
• use numerical, graphical, symbolic, and verbal representations to solve problems and communicate with others.
• use technology as a tool for exploring mathematical concepts.
• demonstrate an ability to work with mathematical abstractions, analyze mathematical relationships, make plausible conjectures, and develop proofs.
• synthesize their mathematical knowledge of engineering technology.

Requirements for AA-T or AS-T degrees
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Music

Degree
Music, Associate in Arts for Transfer

Certificate
Commercial Music, Certificate of Achievement
Music
Associate in Arts for Transfer

Students who plan to major or minor in music should commit themselves to the highest possible level of proficiency in theory, piano, literature, group performance, and applied (individual) instruction in their performance area. Students should take the required courses in music and complete courses in general education for the transfer college of their choice. Elective courses will both enrich the student’s background and balance weak areas of knowledge for later academic growth.

Prerequisites
In order to register for MUSC B7 Applied Music, students must first pass a qualifying audition. The audition includes solo performance, music sight-reading, and a music theory placement exam. Auditions are scheduled prior to the start of each semester. Interested students should contact the current Performing Arts Department Chair for guidance on when and how to audition.

Program Learning Outcomes
Upon successful completion, the student will:

• demonstrate the ability to recognize, describe and/or effectively produce various components of music including elements of pitch and rhythm.
• demonstrate an understanding and appreciation of the ways in which arts reflect historical, intellectual, and cultural contexts, as well as aesthetic tastes.

Baccalaureate Degree Names:
BA in Music, B. Mus in Music

To Transfer Coursework
A minimum of 19 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

Requirements for AA-T or AS-T degrees:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

The Commercial Music Certificate of Achievement provides experience and exposure to key components of commercial music, allowing students to combine their passions for technology and music. Students will gain basic knowledge in technologies crucial to the modern recording studio, including use of popular digital audio workstations such as Logic and Pro Tools. Exposure to sound synthesis will provide perspective on the infrastructure of today’s music software. Experience with audio hardware and software, along with courses in music business and commercial music composition will provide skills necessary to pursue a career in audio engineering, production, performance, composition, promotion, publishing, and many other options.

The Commercial Music Ensemble is a 1 credit ensemble that students are welcome to join and put to use the skills they learn in the CA courses. This is not required, but serves to mimic real world commercial music opportunities and challenges.

Program Learning Outcomes
Upon successful completion, the student will:
- be able to identify and make use of pertinent components of audio recording systems, digital audio workstations, and other musical technologies affiliated with commercial music applications.
- demonstrate knowledge and application of key concepts in music business. Concepts include digital marketing, contracts, publishing, royalties, and booking.
- be able to identify and make use of relationships between audio hardware and software. Concepts include consoles, software synthesis, analog synthesis, microphone and microphone technique, signal processing, mixing, and mastering.
- demonstrate knowledge and familiarity with commercial music composition. Concepts include composing within genres and styles relevant to commercial music, creating production music and jingles, creating composition reel.

Career Opportunities:
Recording Studio Engineer, Live Sound Engineer, Private Music Instructor, Instrument Designer Music Marketing, Booking Agent, Performing Musician, Composer, Audio Editor

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Commercial Music Certificate of Achievement.

Nursing

Degrees
Registered Nursing, Associate of Science
LVN to Associate Degree Nursing Program, Associate of Science

Certificates
Vocational Nursing Program, Certificate of Achievement Nurse Assistant, Job Skills Certificate
LVN to Non-Degree Nurse (30 Unit Option)
Registered Nursing
Associate of Science Degree

The study of nursing is the application of knowledge from the arts and sciences. The purpose of the Bakersfield College Associate Degree Program is to provide the foundation for students to become competent registered nurses. The ADN Program respects the individuality of students and recognizes that each student has different educational, experiential, cultural, spiritual, economic and social backgrounds and a unique support system. The aim of the program is to provide a positive, innovative learning model that fosters the development of critical thinking and problem-solving skills so that the graduate nurse is equipped to deliver care to a culturally diverse population in a variety of healthcare settings.

Program Learning Outcomes
Upon successful completion, the student will:

- utilize the nursing process and evidenced based practice to facilitate optimal client outcomes for diverse cultures across the lifespan and in a variety of settings.
- demonstrate knowledge, skills, and attitudes required of the professional nurse as defined by the California Nursing Practice Act, standards of nursing practice, considering legal, moral and ethical principles.
- communicate and collaborate effectively, in both oral and written formats, employing patient care technologies and information systems, with individuals, families, populations, communities, and the interdisciplinary team across the healthcare continuum.
- collaborate with healthcare professionals to enhance quality improvement and safety initiatives at individual and systems levels of care.
- assume the roles of provider of care, manager of care, and member of the profession as an entry level nurse.

Career Opportunities:
Employment in a variety of healthcare facilities and settings.

Estimated Program Costs (Gainful Employment):
The estimated cost for the entire program is approximately $7,435. (This includes tuition for Nursing courses only.) For information on Estimated Program Costs, please visit our Registered Nursing web page.

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Registered Nursing Associate of Science Degree.

Requirements for the Registered Nursing (AS) program:
Conditional Enrollment: As a condition of enrollment in any Nursing/Allied Health Program, students are required to submit to and pass a designated drug and alcohol screening, a background screening, and physical examination clearance (at the student’s expense). Please note the following:

- A history of felony conviction(s) or any bar, exclusion or other ineligibility for federal program participation could render student ineligible for clinical placement, as determined by the clinical agencies.
- If a student cannot obtain background clearance from the clinical agencies, it will not be possible to place the student in the clinical areas, which is a required component of the program. In the event that a student cannot obtain a background clearance, the space will be forfeited. Students who are found to be ineligible for clinical placement by the clinical agency after admission to the program shall be subject to dismissal from the program, as they will be unable to complete mandatory clinical rotations.
- A physical examination completed by a physician of the student’s choice is required after acceptance to the Program to demonstrate that a student meets the technical standards necessary to meet the Program objectives. Appropriate immunizations and/or vaccinations and mask fit testing are also required and are performed at the student’s expense.

**Pursuant to SB 1393, a student of a registered nursing program with a baccalaureate degree from a regionally accredited institution is not required to complete any coursework other than that which is unique and exclusively required to earn a nursing degree from that institution. All course work must meet the graduation requirements and licensure eligibility requirements as set forth by the Board of Registered Nursing.**
LVN to Associate Degree Nursing Program
Associate of Science

The study of nursing is the application of knowledge from the arts and sciences. The purpose of the Bakersfield College LVN to Associate Degree Program is to provide the foundation for students to become competent registered nurses. The LVN-ADN Program respects the individuality of students and recognizes that each student has different educational, experiential, cultural, spiritual, economic and social backgrounds and a unique support system. The aim of the program is to provide a positive, innovative learning model that fosters the development of critical thinking and problem-solving skills so that the graduate nurse is equipped to deliver care to a culturally diverse population in a variety of healthcare settings. Mission: The mission of the Bakersfield College LVN-Associate Degree Nursing Program is to prepare entry-level registered nurses as providers and managers of care across the health/illness continuum and as members within the profession. Graduate nurses will collaborate with members of the health care team, be effective communicators, be politically aware, and demonstrate a commitment to lifelong learning.

Estimated Program Costs (Gainful Employment):
The estimated cost for the entire program is approximately $7,435. (This includes tuition for Nursing courses only.) For information on Estimated Program Costs, please visit our website at: https://www.bakersfieldcollege.edu/nursing/lvn-rn

Program Learning Outcomes
Upon successful completion, the student will:

- demonstrate the standards of competent performance as defined by the California Board of Registered Nursing. The successful graduate will be considered competent when he/she consistently demonstrates the ability to transfer knowledge scientific knowledge from social, biological, and physical sciences in applying the nursing process as follows:

- formulates a nursing diagnosis through observation of the client’s physical condition and behavior, and through interpretation of information obtained from the client and others, including the health team.

- formulates a care plan, in collaboration with the client, which ensures that direct and indirect nursing care services provide for the client’s safety, comfort, hygiene, and protection, and for disease prevention and restorative measures.

- performs skills essential to the kind of nursing action to be taken, explains the health treatment to the client and family and teaches the client and family how to care for the client’s health needs.

- delegates tasks to subordinates based on the legal scopes of practice of the subordinates and on the preparation and capability needed in the tasks to be delegated, and effectively supervises nursing care being given by subordinates.

- evaluates the effectiveness of the care plan through observation of the client’s physical condition and behavior, signs and symptoms of illness, and reactions to treatment and through communication with the client and health team members, and modifies the plan as needed.

- acts as the client’s advocate, as circumstances require, by initiating action to improve health care or to change decisions or activities which are against the interests or wishes of the client, and by giving the client the opportunity to make informed decisions about health care before it is provided. (Title 16, California Code of Regulations, Division 14 – Board of Registered Nursing, Article 4, Section 1443.5)

- perform Nursing practice, which includes those functions, including basic health care, that help people cope with difficulties in daily living that are associated with their actual or potential health or illness problems or the treatment thereof, including all of the following:

  - direct and indirect patient care services that ensure the safety, comfort, personal hygiene, and protection of patients; and the performance of disease prevention and restorative measures. (Business and Professions Code, Division 2, Chapter 6, Section 2725)

  - observation of signs and symptoms of illness, reactions to treatment, general behavior, or general physical condition, and:

    - determination of whether the signs, symptoms, reactions, or behavior, or general appearance exhibit abnormal characteristics.

    - implementation, based on observed abnormalities, of appropriate reporting, or referral, or standardized procedures, or changes in treatment regimen in accordance with standardized procedures, or the initiation of emergency procedures

Requirements for the LVN to ADN program:
Conditional Enrollment: As a condition of enrollment in any Nursing/Allied Health Program, students are required to submit to and pass a designated drug and alcohol screening, a background screening, and physical examination clearance (at the student’s expense). Please note the following:

- A history of felony conviction(s) or any bar, exclusion or other ineligibility for federal program participation could render student ineligible for clinical placement, as determined by the clinical agencies.

- If a student cannot obtain background clearance from the clinical agencies, it will not be possible to place the student in the clinical areas, which is a required component of the program. In the event that a student cannot obtain a background clearance, the space will be forfeited. Students who are found to be ineligible for clinical placement by the clinical agency after admission to the program shall be subject to dismissal from the program, as they will be unable to complete mandatory clinical rotations.

- A physical examination completed by a physician of the student’s choice is required after acceptance to the Program to demonstrate that a student meets the technical standards necessary to meet the Program objectives. Appropriate immunizations and/or vaccinations and mask fit testing are
LVN to Associate Degree Nursing Program
Associate of Science
(continued)

also required and are performed at the student’s expense.

• Proof of IV Certification is required. Students may meet this requirement by taking MEDS B66 prior to entering the LVNADN Program.
• One year experience working as an LVN.
• Possession of current California Vocational Nurse License
• American Heart Association BLS - Healthcare Provider card - current within one year. (MEDS B52 fulfills this requirement).
• Graduation from high school or an equivalent education.
• Overall GPA of 2.5

General education courses are required to graduate from Bakersfield College with an Associate Degree in Nursing. It is suggested that most of these courses be completed prior to beginning the Nursing Program.

Courses must be completed with a C grade or better

Prerequisite Coursework
• ENGL B1A Expository Composition 3 units at Bakersfield College or equivalent course at another accredited college.
• MATH BD/B70 Intermediate Algebra or higher 3 units at Bakersfield College or an equivalent course at another accredited college.
• CHEM B11 Introduction to General, Organic and Biochemistry

or
• CHEM B1A General Chemistry at Bakersfield College or an equivalent Chemistry course (3-5 units) from another accredited college.
• BIOL B16 General Microbiology 5 units at Bakersfield College or equivalent course at another accredited college.
• BIOL B32 Anatomy & Physiology I 4 units at Bakersfield College or equivalent course at another accredited college.
• BIOL B33 Anatomy & Physiology II 4 units at Bakersfield College or equivalent course at another accredited college.
• Anatomy and Physiology requirement can also be met with Human Anatomy (min. of 4 units) AND Human Physiology (min. of 4 units) of equivalent courses from another accredited college.
• Social Science (3 units) – any course listed in Area D3 of the Bakersfield College General Education Pattern
• Arts, Literature, Philosophy, and Foreign Language (3 units) – any course listed in Area C of the Bakersfield College General Education Pattern.
• COMM B1* 
• ANTHB2* or SOC B1*
• PSYC B1A*
• Physical Education (1 unit) required from PHED courses numbered from B2-B33 or B49.
• HLED Health Education (3 units) is waived for RN students
• NURS B100 Educational Planning - recommended or any course listed under Bakersfield College General requirements for graduation.
(A student development course is recommended to be taken during the first semester of courses at Bakersfield College to assure priority registration.)

Career Opportunities:
Employment in a variety of healthcare facilities and settings

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded a LVN to Associate Degree Nursing Program Associate of Science Degree.

Total Units: 20
Required Courses
Semester 1
Course # Name Units

*The prerequisites of microbiology and physiology equal 10 units.

Pursuant to SB 1393, a student of a registered nursing program with a baccalaureate degree from a regionally accredited institution is not required to complete any coursework other than that which is unique and exclusively required to earn a nursing degree from that institution. All course work must meet the graduation requirements and licensure eligibility requirements as set forth by the Board of Registered Nursing.

The following courses must be completed with a grade of ‘C’ or higher:
- Introductory Physiology (with lab) must meet Board of Registered Nursing requirements in Physiology.
- General Microbiology (with lab) must meet Board of Registered Nursing requirements in Microbiology.

Additional Prerequisites:
- Graduation from high school or an equivalent education.
- Possession of a current California Vocational Nurse License.
- Employment as a LVN for at least 1 year.
- IV Certification.
Vocational Nursing Program
Certificate of Achievement

Vocational Nursing Program Mission: The mission of the Bakersfield College Vocational Nursing Program is to prepare entry-level vocational nurses as providers of care across the health/illness continuum and as members within the profession.

Upon completion of the program of study for Vocational Nursing, the student is eligible for a Certificate of Achievement.

Estimated Program Costs (Gainful Employment):
The estimated cost for the entire program is approximately $5,910. (This includes tuition for Nursing courses only.) For information on Estimated Program Costs (and program information), please visit our website.

Program Learning Outcomes
Upon successful completion, the student will:

• demonstrate an understanding of how to use and practice basic assessment (data collection), participate in planning, execute interventions in accordance with the care plan or treatment plan, and contribute to evaluation of individualized intervention related to the care plan or treatment plan.

• Perform direct patient/client care by which the student:
  • performs basic nursing services.
  • administers medications.
  • applies communication skills for the purpose of patient/client care and education.
  • contributes to the development and implementation of a teaching plan related to self-care for the patient/client.

Requirements for the Vocational Nursing program:
Prerequisite Requirements
All prerequisites must be completed prior to the start of the Program with a C grade or higher. Priority is provided to students with all prerequisite courses completed at the time of submitting an enrollment form.

• Proof of graduation from high school or an equivalent education.
• BIOL B18 (Essentials of Human Anatomy and Physiology) at Bakersfield College or an equivalent course at another accredited college.
• PSYC B1A (General Psychology) at Bakersfield College or an equivalent course at another accredited college.
• MATH B60 (Elementary Algebra) at Bakersfield College or an equivalent course at another accredited college.
• Eligibility for ENGL B1A (Expository Composition) as demonstrated by qualifying scores on the college assessment test or completion of ENGL B53 or ENGL B50 at Bakersfield College or equivalent course from another accredited college with a C or higher.
• Nurse Assistant certification – required (Effective Fall 2016).
• MEDS B60 (Medical Terminology) – highly recommended. Note: Students desiring to continue their education and become a registered nurse need to refer to the prerequisites required for the Associate Degree Nursing Program.

Note: Students desiring to continue their education and become a registered nurse need to refer to the prerequisites required for the Associate Degree Nursing Program.

Application Procedure
The Allied Health office must receive all application forms and transcripts during the designated filing periods. For detailed information on the application period and procedures, please refer to the Allied Health website or in the Bakersfield College Allied Health Office in MS 178.

Conditional Enrollment
As a condition of enrollment in any Nursing/Allied Health Program, students are required to submit to and pass a designated drug and alcohol screening, a background screening, and physical examination clearance (at the student's expense). Please note the following:

• A history of felony conviction(s) or any bar, exclusion or other ineligibility for federal program participation could render student ineligible for clinical placement, as determined by the clinical agencies.

• If a student cannot obtain background clearance from the clinical agencies, it will not be possible to place the student in the clinical areas, which is a required component of the program. In the event that a student cannot obtain a background clearance, the space will be forfeited. Students who are found to be ineligible for clinical placement by the clinical agency after admission to the program shall be subject to dismissal from the program, as they will be unable to complete mandatory clinical rotations.

• A physical examination completed by a physician of the student’s choice is required after acceptance to the Program to demonstrate that a student meets the technical standards necessary to meet the Program objectives. Appropriate immunizations and/or vaccinations and mask fit testing are also required and are performed at the student's expense.

Program Costs
An estimated cost for the first semester of the program is approximately $3,200.

Transfer and Challenge by Exam Policy
For transfer and challenge by exam policies, contact the Nursing Department for further information.

Program Approval/Accreditation
The California Board of Vocational Nursing and Psychiatric Technicians accredits the Bakersfield College Vocational Nursing Program. The Western Association of Schools and Colleges accredits Bakersfield College.

Licensure/Certification Eligibility
Conviction of any offenses other than minor traffic violations must be reported to the Board of Vocational Nursing and Psychiatric Technicians at the time of application for licensure. For clarification contact the VN Program Director or the Board of Vocational Nursing and Psychiatric Technicians, 2535 Capitol Oaks Drive, Suite 205, Sacramento, California, 95833, (916) 263-7800. Applicants for VN Licensure must submit a valid Social Security number at the time of application.
Certificate of Achievement
Upon completion of the program of study for Vocational Nursing, the student is eligible for a Certificate of Achievement.

Career Opportunities:
Employment as a Licensed Vocational Nurse can be in a variety of health care settings. Additional employment information can be found online.

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Vocational Nursing Certificate of Achievement.

Nurse Assistant Job Skills Certificate

The Nurse Assistant job skills certificate prepares the student to provide services to those who need health care. The student will learn the role of the caregiver, the healthcare environment, health care safety, adult needs in health and illness, and basic caregiving skills.

The mission of the Bakersfield College Nurse Assistant Program is to provide vocational education that will prepare the student to provide basic services to those who need healthcare. The program is committed to improving and advancing the health and welfare of our community by preparing competent, safe, health care professionals.

Program Learning Outcomes
Upon successful completion, the student will demonstrate an understanding of knowledge and skills necessary to provide basic patient care including but not limited to the following skills:

- performing basic hygiene • taking and documenting vital information (vital signs, height, weight)
- documenting patient care
- assisting with elimination needs
- collecting specimens
- demonstrate an understanding of effective communication and interpersonal skills
- promote the independence of patients
- demonstrate an understanding of protection of patient privacy and patient rights
- demonstrate an understanding of safety and emergency procedures including the Heimlich maneuver

Requirements for the Nurse Assistant (JSC) program:
Conditional Enrollment: As a condition of enrollment in any Nursing/Allied Health Program, students are required to submit to and pass a designated drug and alcohol screening, a background screening, and physical examination clearance (at the student’s expense). Please note the following:

- A history of felony conviction(s) or any bar, exclusion or other ineligibility for federal program participation could render student ineligible for clinical placement, as determined by the clinical agencies.
- If a student cannot obtain background clearance from the clinical agencies, it will not be possible to place the student in the clinical areas, which is a required component of the program. In the event that a student cannot obtain a background clearance, the space will be forfeited. Students who are found to be ineligible for clinical placement by the clinical agency after admission to the Program shall be subject to dismissal from the program, as they will be unable to complete mandatory clinical rotations.
- A physical examination completed by a physician of the student’s choice is required after acceptance to the Program to demonstrate that a student meets the technical standards necessary to meet the Program objectives. Appropriate immunizations and/or vaccinations and mask fit testing are also required and are performed at the student’s expense.

Program Costs
An estimated cost for the program (fees, textbooks, uniforms, and examination) is approximately $1,000. Financial aid may be available.

Program Approval Accreditation
The California Department of Public Health approves the Bakersfield College Nurse Assistant Program. The Western Association of Schools and Colleges accredits Bakersfield College.

Licensure/Certification
Upon successful completion of the Nurse Assistant course, the student is eligible to take the competency exam for a Certified Nurse Assistant administered by the American Red Cross. This job skills certificate provides proof to the California Department of Public Health that the student has met the requirements for licensure. Students must complete the required courses with at least a ‘C’ grade.

Career Opportunities:
Employment as a Licensed Vocational Nurse can be in a variety of health care settings.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Nurse Assistant Job Skills Certificate.

Occupational Safety and Risk Management

 Degree
Occupational Safety and Risk Management, Agriculture, Associate of Science
Occupational Safety and Risk Management, Business, Associate of Science
Occupational Safety and Risk Management, Health Science, Associate of Science
Occupational Safety and Risk Management, Industrial Technology, Associate of Science
Occupational Safety and Risk Management, Agriculture
Associate of Science

The Associate of Science in Occupational Safety and Risk Management, Agriculture provides broad based professional preparation in the field of occupational safety and risk management. Safety professionals strive to protect people, property, and the environment using hazard identification and risk control techniques, working to balance safety and compliance with production and profit. The curriculum uses scientific foundations and regulatory frameworks and includes courses in occupational safety, occupational health, risk management, and environmental health. Additional courses, paired with the core courses, provide for a cohesive area of emphasis in Agriculture. Students are academically prepared to make contributions to society by anticipating, evaluating, and controlling occupational and environmental hazards and risks.

Students who earn an AS in Occupational Safety and Risk Management, Agriculture will be equipped to pursue careers as safety professionals in all sectors of agriculture from farm to processing, including government agencies. The degree also satisfies the educational requirement for pursuing the Certified Safety Professional (CSP) designation, which is the highest level of certification for safety professionals offered through the Board of Certified Safety Professionals. Obtaining the CSP designation increases salary and career opportunity.

This degree is based upon Bakersfield College general education requirements and does not meet all CSU transfer requirements. Therefore, students desiring transfer to CSU may need additional coursework or should pursue the Occupational Safety and Risk Management, Environmental Resources degree/pathway.

Program Learning Outcomes:
Upon successful completion, the student will:
• demonstrate competency in risk assessment and the measurement, analysis, and interpretation of health and safety data.
• be able to design and provide appropriate safety education and training.
• be able to design and apply appropriate risk control methods, procedures, and programs incorporating current regulations and utilizing appropriate technology.
• demonstrate knowledge of contemporary occupational safety and risk management issues within the local, regional and societal context and apply the applicable regulatory framework.

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Occupational Safety and Risk Management, Agriculture Associate of Science Degree.

Occupational Safety and Risk Management, Business
Associate of Science

The Associate of Science in Occupational Safety and Risk Management, Business provides broad based professional preparation in the field of occupational safety and risk management. Safety professionals strive to protect people, property, and the environment using hazard identification and risk control techniques, working to balance safety and compliance with production and profit. The curriculum uses scientific foundations and regulatory frameworks and includes courses in occupational safety, occupational health, risk management, and environmental health. Additional courses, paired with the core courses, provide for a cohesive area of emphasis in Business. Students are academically prepared to make contributions to society by anticipating, evaluating, and controlling occupational and environmental hazards and risks.

Students who earn an AS in Occupational Safety and Risk Management, Business will be equipped to pursue careers as safety professionals in general industry, business, human resources, and insurance. The degree also satisfies the educational requirement for pursuing the Certified Safety Professional (CSP) designation, which is the highest level of certification for safety professionals offered through the Board of Certified Safety Professionals. Obtaining the CSP designation increases salary and career opportunity.

This degree is based upon Bakersfield College general education requirements and does not meet all CSU transfer requirements. Therefore, students desiring transfer to CSU may need additional coursework.

Program Learning Outcomes:
Upon successful completion, the student will:
• demonstrate competency in risk assessment and the measurement, analysis, and interpretation of health and safety data.
• demonstrate ability to design and provide appropriate safety education and training.
• design and apply appropriate risk control methods, procedures, and programs incorporating current regulations and utilizing appropriate technology.
• demonstrate knowledge of contemporary occupational safety and risk management issues within the local, regional and societal context and apply the applicable regulatory framework.

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Occupational Safety and Risk Management, Business Associate of Science Degree.

Paramedic

**Degree**
Paramedic Program, Associate of Science

**Certificates**
Paramedic Program, Certificate of Achievement
Paramedic Program
Associate of Science Degree

The mission of the Paramedic Program is to provide a strong educational foundation so the future paramedics may improve the health and welfare of Kern County by providing the highest quality prehospital emergency medical care. The Paramedic Program is designed to provide students with the education and experience to perform as competent, entry level Paramedics. The Paramedic Program received its initial accreditation by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP) on March 17, 2006. The program has received continuing accreditation by CAAHEP and is approved by Kern County Emergency Medical Services as meeting the EMS Education Standards as specified in Title 22 of the California Code of Regulations and the National Highway Transportation and Safety Administration (NHTSA) Paramedic Curriculum. The program consists of a minimum of 1090 hours of instruction which is divided into three distinct sessions: didactic/classroom instruction (minimum of 450 hours) clinical lab (minimum of 160 hours) and field internship (minimum of 480 hours). Upon completion of the program, graduates will earn an Associate Degree and are eligible to take the National Registry Examination for the Emergency Medical Technician - Paramedic examination (NREMT-P) which is required for paramedic licensure in the state of California.

Program Learning Outcomes
Upon successful completion, the EMT-Paramedic student will:
• demonstrate the ability to comprehend, apply, and evaluate the clinical information relative to the role of an entry level paramedic. Assessment: Written exams, verbal reports.
• demonstrate technical proficiency in all skills necessary to fulfill the role of the entry level paramedic. Assessment: Skill competency demonstrations, successful completion of field internship.
• demonstrate personal behaviors consistent with professional and employer expectations for the entry level paramedic. Assessment: Effective assessment tool, successful completion of field internship.

Requirements for the Paramedic (AS) program:
Application Procedures:
Seats are limited, therefore, in order to be fully eligible for enrollment into the Paramedic Program, it is the student’s responsibility to make sure that the following is completed prior the end of the application period held in the month of March:
• Fill out an application form obtained from the BC Paramedic Program website, or from the Fire Tech office located in room 125 at the Weill Institute (2100 Chester Avenue).
• Provide proof of high school completion (diploma or high school transcript) or GED – general education equivalent
• Provide a copy of current valid EMT card (State of California EMT and/or NREMT)
• Provide a copy of a current American Heart Association Healthcare Provider CPR card
• Provide a copy of California driver’s license

Health Requirements and Screenings
After a student receives notification of enrollment into the Program and as a condition of enrollment students must complete all of the following:
• Background Check - As a condition of enrollment into any Allied Health Program with a clinical laboratory component, students are required to submit to and pass a designated background screen. Please note the following:
  • A history of legal conviction(s), or any other convictions which bar a person from participation in a federal program, could render a student ineligible for clinical placement (see section 100174 of California’s Title 22 - Division 9, Chapter 4).
  • If a student cannot obtain background clearance from the clinical agencies, it will not be possible to place the student in the clinical areas, which is a required component of the Program.
  • In the event that a student cannot obtain a background clearance due to background restrictions, the space will be forfeited.
  • Students who are found to be ineligible for clinical placement by the clinical agency after admission to the radiography program shall be subject to dismissal from the Program, as they will be unable to complete mandatory clinical rotations.
• For more information on the background check, go to Allied Health website.
• Drug/Alcohol Screening - As a condition of enrollment into any Allied Health Program with a clinical laboratory component, students are required to submit to and pass a designated drug and alcohol screening.
• Vaccinations / Immunizations / Titers – Students must show proof the appropriate immunizations/vaccinations have been obtained. More information as well as the appropriate forms can be found on the Allied Health website.
• Mask Fit Test - The clinical education centers affiliated with Bakersfield College require all Nursing/Allied Health students to be fitted for a mask that will be used when treating patients with respiratory conditions such as pneumonia, tuberculosis, H1N1, flu, etc. The mask type is called N95 and comes in small and regular sizes. Students need to be properly fitted to determine which mask size best fits their facial anatomy. Testing of all students will be done annually as facial size may change. This test is mandatory for all students. For more information on the mask fit test, go to the Allied Health website.
• Physical Exam - A physical examination, must be completed by a physician or Nurse Practitioner/Physician Assistant of the student’s choice using the college’s forms. The Physical Exam, drug and alcohol screen, background screen, Immunizations, and health tests are performed at the expense of the student. The physical exam demonstrates the student is able to achieve the physical and technical standards necessary to meet the Program’s objectives.
• CPR & AED Card – The student must possess a current American Heart Association BLS for Healthcare Providers (CPR & AED) card. This card must be provided at the start of the Program and be kept valid during the entire Program.
**Paramedic Program**

**Associate of Science Degree**

* (continued) *

**Limitation on Enrollment:**
As a condition of enrollment in any Allied Health Program, students are required to submit to and pass a designated background check. Every student offered space in the program will be required to submit to a background screening as part of his or her clinical requirements for admission.

Please note the following:

- A history of felony conviction(s) or any bar, exclusion or other ineligibility for federal program participation could render a student ineligible for clinical placement, as determined by the clinical agencies.
- If a student cannot obtain background clearance from the clinical agencies and field internship agencies, it will not be possible to place the student in the clinical/internship areas, which is a required component of the program. In the event that a student cannot obtain a background clearance, the space will be forfeited. Students who are found to be ineligible for clinical placement by the clinical agency and/or field internship after admission to the program shall be subject to dismissal from the program, as they will be unable to complete mandatory clinical/field internship rotations.
- A physical examination completed by a physician of the student’s choice is required after acceptance to the Program to demonstrate that a student meets the technical standards necessary to meet the Program objectives. Appropriate immunizations and/or vaccinations and mask fit testing are also required and are performed at the student’s expense.

**Licensure/Certification Eligibility**

Upon completion of the program students are eligible to take the National Registry of Emergency Medical Technicians examination for licensure as a paramedic. Conviction of any offenses other than minor traffic violations must be reported to the Sacramento Emergency Medical Services Authority of California at the time of application for licensure. Anyone who desires further clarification may contact the EMS Authority at (916) 322-4336.

**Accreditation**

The Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP). The program is also approved by Kern County Emergency Medical Services as meeting the EMS Education Standards as specified in Title 22 of the California Code of Regulations and the National Highway transportation and Safety Administration (NHTSA) Paramedic Curriculum. The Western Association of Schools and Colleges accredits Bakersfield College.

**To Achieve the Associate in Science Degree**

Upon successful completion of the core requirements with a ‘B’ grade or better in each course AND successful completion of the General Education courses with a ‘C’ grade or better, the student will be awarded a Paramedic Associate in Science Degree.

**Program Prerequisite Requirements**

Emergency Medical Technician (EMT) course with current EMT card

**Program Costs**

An estimated cost for the program is $2000.

**Career Opportunities:**

Paramedics are typically employed by ambulance companies, private industry, and fire departments to provide emergency care in case of illness or injury. Median Hourly Earnings - $16.53/hr.

More information can be found on the [Allied Health website](#) or in the Bakersfield College Allied Health Office, MS 178.
Paramedic Certificate of Achievement

The mission of the Paramedic Program is to provide a strong educational foundation so the future paramedics may improve the health and welfare of Kern County by providing the highest quality prehospital emergency medical care. The Paramedic Program is designed to provide students with the education and experience to perform as competent, entry level Paramedics. The Paramedic Program received its initial accreditation by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP) on March 17, 2006. The program has received continuing accreditation by CAAHEP and is approved by Kern County Emergency Medical Services as meeting the EMS Education Standards as specified in Title 22 of the California Code of Regulations and the National Highway transportation and Safety Administration (NHTSA) Paramedic Curriculum. The program consists of a minimum of 1090 hours of instruction which is divided into three distinct sessions: didactic/classroom instruction (minimum of 450 hours) clinical lab (minimum of 160 hours) and field internship (minimum of 480 hours). Upon completion of the program, graduates will earn an Associate Degree and are eligible to take the National Registry Emergency Medical Technician - Paramedic examination (NREMT-P) which is required for paramedic licensure in the state of California.

Program Learning Outcomes
Upon successful completion, the EMT-Paramedic student will:
• demonstrate the ability to comprehend, apply, and evaluate the clinical information relative to the role of an entry level paramedic. Assessment: Written exams, verbal reports
• demonstrate technical proficiency in all skills necessary to fulfill the role of the entry level paramedic. Assessment: Skill competency demonstrations, successful completion of field internship
• demonstrate personal behaviors consistent with professional and employer expectations for the entry level paramedic. Assessment: Effective assessment tool, successful completion of field internship

Requirements for the Paramedic (CA) program:
Application Procedures:
Seats are limited, therefore, in order to be fully eligible for enrollment into the Paramedic Program, it is the student’s responsibility to that the following is completed prior the end of the application period held in the month of February:
• Fill out an application form obtained from the BC Paramedic Program website, or from the Fire Tech office located in room 125 at the Weill Institute (2100 Chester Avenue).
• Provide proof of high school completion (diploma or high school transcript) or GED – general education equivalent
• Provide a copy of current valid EMT card (State of California EMT and/or NREMT)
• Provide a copy of a current American Heart Association Healthcare Provider CPR card
• Provide a copy of California driver’s license

Health Requirements and Screenings
After a student receives notification of enrollment into the Program and as a condition of enrollment students must complete all of the following:
• Background Check - As a condition of enrollment into any Allied Health Program with a clinical laboratory component, students are required to submit to and pass a designated background screen. Please note the following:
  • A history of legal conviction(s), or any other convictions which bar a person from participation in a federal program, could render a student ineligible for clinical placement (see section 100174 of California’s Title 22 - Division 9, Chapter 4).
  • If a student cannot obtain background clearance from the clinical agencies, it will not be possible to place the student in the clinical areas, which is a required component of the Program.
  • In the event that a student cannot obtain a background clearance due to background restrictions, the space will be forfeited.
  • Students who are found to be ineligible for clinical placement by the clinical agency after admission to the radiography program shall be subject to dismissal from the Program, as they will be unable to complete mandatory clinical rotations.
  • For more information on the background check, go to Allied Health web site
• Drug/Alcohol Screening - As a condition of enrollment into any Allied Health Program with a clinical laboratory component, students are required to submit to and pass a designated drug and alcohol screening.
• Vaccinations / Immunizations / Titers – Students must show proof the appropriate immunizations /vaccinations have been obtained. More information as well as the appropriate forms can be found on the Allied Health web site
• Mask Fit Test - The clinical education centers affiliated with Bakersfield College require all Nursing/Allied Health students to be fitted for a mask that will be used when treating patients with respiratory conditions such as pneumonia, tuberculosis, H1N1, flu, etc. The mask type is called N95 and comes in small and regular sizes. Students need to be properly fitted to determine which mask size best fits their facial anatomy. Testing of all students will be done annually as facial size may change. This test is mandatory for all students. For more information on the mask fit test, go to the Allied Health web site
• Physical Exam - A physical examination, must be completed by a physician or Nurse Practitioner/Physician Assistant of the student’s choice using the college’s forms. The Physical Exam, drug and alcohol screen, background screen, Immunizations, and health tests are performed at the expense of the student. The physical exam demonstrates the student is able to achieve the physical and technical standards necessary to meet the Program’s objectives.
• CPR & AED Card – The student must possess a current American Heart Association BLS for Healthcare Providers (CPR & AED) card. This card must be provided at the start of the Program and be kept valid during the entire Program.
Limitation on Enrollment:
As a condition of enrollment in any Allied Health Program, students are required to submit to and pass a designated background check. Every student offered space in the program will be required to submit to a background screening as part of his or her clinical requirements for admission.
Please note the following:

- A history of felony conviction(s) or any bar, exclusion or other ineligibility for federal program participation could render a student ineligible for clinical placement, as determined by the clinical agencies.
- If a student cannot obtain background clearance from the clinical agencies and field internship agencies, it will not be possible to place the student in the clinical/internship areas, which is a required component of the program. In the event that a student cannot obtain a background clearance, the space will be forfeited. Students who are found to be ineligible for clinical placement by the clinical agency and/or field internship after admission to the program shall be subject to dismissal from the program, as they will be unable to complete mandatory clinical/field internship rotations.
- A physical examination completed by a physician of the student’s choice is required after acceptance to the Program to demonstrate that a student meets the technical standards necessary to meet the Program objectives. Appropriate immunizations and/or vaccinations and mask fit testing are also required and are performed at the student’s expense.

Licensure/Certification Eligibility
Upon completion of the program students are eligible to take the National Registry of Emergency Medical Technicians examination for licensure as a paramedic. Conviction of any offenses other than minor traffic violations must be reported to the Sacramento Emergency Medical Services Authority of California at the time of application for licensure. Anyone who desires further clarification may contact the EMS Authority at (916) 322-4336.

Accreditation
The Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP). The program is also approved by Kern County Emergency Medical Services as meeting the EMS Education Standards as specified in Title 22 of the California Code of Regulations and the National Highway Transportation and Safety Administration (NHTSA) Paramedic Curriculum. The Western Association of Schools and Colleges accredits Bakersfield College.

Program Prerequisite Requirements
Emergency Medical Technician (EMT) course with current EMT card

Program Costs
An estimated cost for the program is $2000.

Career Opportunities:
Paramedics are typically employed by ambulance companies, private industry, and fire departments to provide emergency care in case of illness or injury. Median Hourly Earnings - $16.53/hr.

To Achieve the Certificate of Achievement
Upon successful completion of the core requirements with a ‘B’ grade or better in each course, the student will be awarded a Certificate of Achievement.

More information can be found on the Allied Health website or in the Bakersfield College Allied Health Office, MS 178.
Philosophy

Degree
Philosophy, Associate in Arts for Transfer
The Associate in Arts in Philosophy for Transfer degree is designed to provide students a clear transfer pathway to the CSU philosophy major and completion of the philosophy baccalaureate degree, to grant guaranteed admission to a CSU to a similar major, with junior standing, and the ability to complete their remaining requirements within 60 semester or 90 quarter units. Philosophy has always been and continues to be one of the strongest traditional liberal arts majors in higher education. Some students major in Philosophy as a precursor to graduate work and academic careers, teaching and conducting research in Philosophy and Education. The emphasis on critical thinking, theories of knowledge, value and reality, truth, rational argument and proof make Philosophy an excellent pre-professional undergraduate major (e.g., for law, theology, medicine, business, computer science) or minor (e.g., for the natural, physical and social science and humanities majors).

Program Learning Outcomes
Upon successful completion, the student will:
• explicate and evaluate arguments.
• explain major philosophical or religious ideas.
• defend personal positions on important philosophical issues.
• demonstrate clear writing and speaking about philosophical or religious ideas.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a 'C' or better. A 'P' (Pass) grade is not acceptable for courses in the major.

Physics

Degree
Physics, Associate in Science for Transfer
Physics
Associate in Science Degree for Transfer

The goal of the program is to help students better understand the physical world and its analysis using both qualitative and quantitative reasoning based on mathematical techniques. The coursework prepares students to think critically and apply reasoning skills to analyze real-world situations.

Students will be able to successfully transfer to any institution of higher learning armed with the foundation needed to pursue a baccalaureate degree in physics and will be prepared for careers as physicists in fields such as research, industry and education. Students will complete comprehensive curriculum to meet degree and transfer needs. This new degree builds upon the existing degree’s emphases in mathematical modeling, reasoning and critical thinking skills. In addition, it will guarantee transfer to a California State University in the physics major (or a similar or equivalent program).

The Associate in Science degree in Physics for Transfer is designed to prepare students to begin upper division coursework in pursuit of a bachelor’s degree (or ultimately a graduate degree) in physics upon transfer to a four-year college or university. Earning this degree should allow the student to become acquainted with the basic knowledge of physics contained in a calculus-based introductory physics sequence and the mathematics that supports that level of competency. The student will demonstrate proficiency in communication, critical thinking, quantitative problem solving, and laboratory science skills. This degree represents a step in a path preparing students for careers in any of the many branches of physics, physics education, and other technical fields, such as some engineering disciplines in which physics is an integral part.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate a knowledge of and recognize the processes that explain physical phenomena.
• apply the methodologies of science when approaching a physics problem.
• apply logical quantitative and qualitative reasoning in solving physics problems or analyzing arguments.

Requirements for AA-T or AS-T degrees
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Students transferring to a CSU campus that does accept the AS-T will be required to complete no more than 60 units after transfer to earn a bachelor’s degree (unless the major is a designated “high-unit” major).

This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. This degree eliminates the additional Bakersfield College graduation requirements.

Political Science

Degree
Political Science, Associate in Arts for Transfer
The Associate in Arts in Political Science for Transfer degree is designed for students interested in gaining an understanding of the structure and functions in governments. This degree provides a foundation for further study for students planning to transfer into a baccalaureate program in political science. Successful completion of the Associate in Arts in Political Science for Transfer degree guarantees the student acceptance to a California State University (but not to a particular campus) to pursue a baccalaureate degree in Political Science. This degree may not be the best option for students intending to transfer to a particular CSU campus or a university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university and transfer requirements. This degree eliminates the additional Bakersfield College graduation requirements.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate their understanding of the relevance of state and local politics, determining and developing an objective appraisal of major trends in social, economic, and political life.
• evaluate the power relationships between legislative, executive and judicial branches of government.
• compare and contrast the factors that determine the emergence of republican or authoritarian systems of governance.
• evaluate the influence of conflict and cooperation in the international bargaining process.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.

Psychology

Degree
Psychology, Associate in Arts for Transfer
Psychology
Associate in Arts Degree for Transfer

The Associate in Arts in Psychology for Transfer is intended for those transfer-directed students who plan to complete an Associate of Arts in Psychology because it guarantees admission to the CSU system (but not to a particular campus or major). In order to earn the Associate in Arts in Psychology for Transfer, students must complete a minimum of 60 required semester units of CSU-transferable coursework which includes the CSU General Education or IGETC requirements with a minimum GPA of 2.0.

Students transferring to a CSU campus that does accept the Associate in Arts in Psychology for Transfer will be required to complete no more than 60 units after transfer to earn a bachelor’s degree (unless the major is a designated high-unit major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. This degree eliminates the additional Bakersfield College graduation requirements.

The major in psychology provides a study of the behavior of individuals and groups. The four-year degree in this major contributes to the foundational knowledge for positions in research and teaching, counseling, and working in clinical settings.

Program Learning Outcomes
Upon successful completion, the student will:

• demonstrate an understanding of the major concepts of behavior, theoretical perspectives, empirical findings, and historical trends in psychology.
• demonstrate an understanding of basic research methods and information competency in obtaining relevant information about the science and profession of psychology.
• exhibit an awareness of the ethical and professional factors related to the diversity of individuals and groups within the discipline of psychology.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:

• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtaining of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. This degree eliminates the additional Bakersfield College graduation requirements.

To Transfer Coursework
A minimum of 21 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

Public Health Science

Degree
Public Health Science, Associate in Science for Transfer
Public Health Science
Associate of Science Degree for Transfer

The Associate Science in Public Health Science for Transfer Degree (AS-T) focuses on disease and injury prevention strategies for community and individual wellness. The AS-T in Public Health Science is designed to provide students a clear transfer pathway to the California State University (CSU) within the health science field major and the completion of baccalaureate degree, with guaranteed admission to a CSU to a similar major with junior standing (but not to a particular campus or specific major), and the ability to complete their remaining requirements within 60 semester or 90 quarter units. This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. This degree eliminates the additional Bakersfield College graduation requirements.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate the ability to comprehend, apply the multi-dimensional approach of public health sciences.
• identify proactive factors for disease prevention and risk factors for disease and disability.
• demonstrate and apply behavior-changing techniques to maximize health and wellness.
• demonstrate the concepts of research, program planning and evaluation strategies.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The obtainment of a minimum grade point average of 2.0.

Radiologic Technology

Degree
Radiologic Technology, Associate of Science

Certificates
Principles of Venipuncture, Job Skills Certificate
Principles of Fluoroscopy, Job Skills Certificate
Radiologic Technology
Associate of Science Degree

Radiologic Technology is a health care profession whose practitioners work in hospitals, imaging centers, and private physicians’ offices. The radiologic technologist (radiographer) is a member of the health care team who works directly with the patient and the physician performing a wide variety of diagnostic x-ray procedures. The role of the graduate radiographer may be that of staff radiographer, special imaging radiographer, supervisor, administrator or educator, depending upon the level of education and experience obtained.

The Bakersfield College Associate in Science degree Radiologic Technology Program provides concurrent didactic and clinical education. The program is 24 months in length (excluding prerequisite coursework) and begins each year in June. Students should anticipate making a full time commitment to the program during the school year. Summer sessions are required and semester/ terms may be scheduled beyond the regular college session dates. The Program is primarily scheduled during the day; however an evening clinical rotation will be completed during the second year of the program. Clinical education sites include hospitals and imaging centers located in Bakersfield, California and Delano, California. Students may be assigned to any clinical education center in any geographical location and must provide their own transportation to these centers.

The program provides the theory, skill and experience necessary to apply for admission to the licensure exam administered by the American Registry of Radiologic Technologists; and for certification from the State of California, Department of Public Health, Radiologic Health Branch, as a Certified Radiologic Technologist. The student is also eligible to write the State Fluoroscopy Permit exam. Students must earn a minimum grade of ‘C’ in all radiography courses, have met the State mandated curriculum and clinical hours, met all clinical education competencies and earned the Associate in Science degree to be recommended for these examinations/certifications. For program information, brochure and enrollment application form, consult the following website at www.bakersfieldcollege.edu/allied-health/radtech.

Program Mission
The mission of the Bakersfield College Readiedic Technology Program is to promote student success by providing quality instruction for graduates to competently practice radiography at the entry level

Program Learning Outcomes
Upon successful completion, the student will:

1. be clinically competent.
   • apply positioning skills.
   • select exposure factors.
   • utilize radiation protection.
   • demonstrate and employ knowledge of equipment operation.

2. develop critical thinking skills.
   • demonstrate the ability to formulate technical factors.
   • adapt standard procedures for non-routine patients.
   • demonstrate independent judgment.
   • critique images to determine diagnostic quality.

3. communicate effectively.
   • demonstrate effective communication.
   • use correct pronunciation.

4. model professionalism.
   • demonstrate knowledge of professional imaging organizations.
   • summarize the value of life-long learning.
   • demonstrate work ethics.

5. the Program will graduate entry-level radiographers.
   • Program graduates will pass the ARRT exam on the 1st attempt.
   • Graduates seeking employment will obtain employment within 12 months of graduation.
   • Students will successfully complete each course.
   • Students will successfully complete the program.
   • Graduates will be satisfied with their education.
   • Employers will be satisfied with graduate performance.

Requirements for the Radiologic Technology (AS) program:
Enrollment Procedures and Application Filing Period
Application forms and all required documents must be received by the Radiologic Technology Program Office during the application month of February. Late applications will not be accepted.

Application Procedures:
It is the student’s responsibility to ensure that the following items are completed prior to the end of the application period held in the month of February:

- Complete required prerequisite courses (see list).
- Obtain application form from the Allied Health Department located in Room 178 of the Math-Science Building on the main campus, or on the Allied Health website.
- Arrange for an official copy of your high school transcript to be mailed directly to: Radiologic Technology Program, Bakersfield College, 1801 Panorama Drive, Bakersfield, CA 93305. An official copy of High School Equivalency (GED) is required if your high school transcript does not identify graduation.
- If you have taken courses from any college other than BC courses: Provide the Program with an unofficial copy of your transcripts from your previous college(s);
- If you have taken courses from any college other than Bakersfield College:
  - Apply for admission to Bakersfield College either in person or online at www.bakersfieldcollege.edu and click on Admissions & Records. Follow the information under Enrolling.
  - Have your college transcript(s) evaluated by: Ordering an Official copy of your transcripts from your previous college(s);
  - Submit the Official copy of your transcripts along with a form “Request for Evaluation”. You can obtain this form from the Admissions and Records office or the Admissions and Records web-page.
  - Once your transcripts have been evaluated and posted to your Bakersfield College transcripts, either order an official copy to be sent from the Admission and Records office or print your
Radiologic Technology
Associate of Science Degree
(continued)

unofficial transcript and submit along with the Application Form to the Radiologic Technology Program during the application filing period during the month of February. If you have taken courses from Porterville or Cerro Coso Community College, you only need to submit the “Request for Evaluation” form. You do not need official copies of transcripts from Porterville or Cerro Coso Community College

• Late application materials will not be considered for the current application period. Applicants are responsible for ensuring that their application is complete. The Program is not responsible for late materials or incomplete applications. The application must be thoroughly complete and signed to be considered for eligibility.
• Students on the waitlist must reapply annually during the enrollment month of February. This is required every year to keep the applicant’s file current. If the student does not reapply, the student will be removed from the waitlist.

Conditional Enrollment:
As a condition of enrollment in any Allied Health Program, students are required to submit to and pass a designated background check. Every student offered space in the program will be required to submit to a background screening as part of his or her clinical requirements for admission. Please note the following:

• A Physical examination will be required after the students receive notification of enrollment into the program to demonstrate that a student meets the technical standards necessary to meet the objectives of the program. A copy of the Essential Technical Standards required for Radiologic Technologists may be obtained in the Allied Health Division Office located in the Math-Science building, room 178 or on the program website at www.bakersfieldcollege.edu/allied-health.
• As a condition of enrollment to the Radiologic Technology Program, all students are required to submit to and pass a designated drug and alcohol screen.
• A history of felony conviction(s) or any bar, exclusion or other ineligibility for federal program participation could render student ineligible for clinical placement, as determined by the clinical agencies.
• If a student cannot obtain background clearance from the clinical agencies, it will not be possible to place the student in the clinical areas, which is a required component of the program. In the event that a student cannot obtain a background clearance, the space will be forfeited. Students who are found to be ineligible for clinical placement by the clinical agency after admission to the program shall be subject to dismissal from the program, as they will be unable to complete mandatory clinical rotations.
• Immunizations/health tests are needed for acceptance in a clinical education center and to protect the health and welfare of the student and community. Immunizations may include, but not be limited to, rubella, varicella, Hepatitis B, and Tuberculosis screening and the seasonal flu vaccine is also required.
• The medical exams, drug/alcohol screens, background screen, immunizations and tests are performed at the expense of the student.

• The student must possess a current Basic Life Support/CPR (cardiopulmonary resuscitation) card by the American Health Association (Healthcare Provider card). This card must be provided at the start of the program and be kept valid during the entire 24-month program.

General Education Requirements:
General education courses are required to graduate from the Bakersfield College Associate in Science Degree Radiologic Technology Program. It is suggested that these courses be completed prior to program enrollment. Refer to the Bakersfield College General Education and Graduation Requirements in the Graduation Requirements in the college catalog (www.bakersfieldcollege.edu) for more specific information and requirements for the college (the list below does NOT identify all requirements). All students are encouraged to regularly check the course requirements for graduation and/or meet with a Counselor to ensure that AS degree requirements will be met at the end of the Radiography Program. Completion of the AS Degree is required to meet eligibility requirements for certification and licensure. Courses must be completed with a “C” grade or better

• Oral Communication (3 units); COMM B1 recommended; Any course listed in Area A.1 of the Gen Ed Pattern in BC Catalog
• Written Communication (3 units); ENGL B1A– prerequisite course
• Mathematics and Logic (3-5 units); MATH B70 (5 units) -prerequisite course.
• Physical Universe and Life Forms (6 units)
• Natural Sciences (4-8 units); BIOL B18 or BIOL B32 & BIOL B33 (prerequisite course)
• Foundations in the Social Sciences (3 units); Any course listed in Area D.1 of the Gen Ed Pattern in the BC Catalog
• Lifelong Understanding and Self-Development (4 units)
• Foundations in the Behavioral Sciences (3 units); Any course listed in Area D.1 of the Gen Ed Pattern in the BC Catalog
• Foundations in the Social Sciences (3 units); Any course listed in Area D.2 of the Gen Ed Pattern in the BC Catalog
• American (U.S. Institutions) (3 units); Any course listed in Area D.3 of the Gen Ed Pattern in the BC Catalog

Radiologic Technology Program Prerequisite Requirements
All prerequisite coursework must be completed prior to applying for the Radiologic Technology Program. Students are strongly
Radiologic Technology
Associate of Science Degree
(continued)

encouraged to complete prerequisite courses prior to enrolling in general education courses. This will improve a student’s opportunity to apply for program enrollment. The following prerequisite courses must be completed with a C grade or higher.

- BIOL B18 (Essentials of Anatomy and Physiology)
- BIOL B32 (Human Anatomy and Physiology I) and
- BIOL B33 (Human Anatomy and Physiology II) or
- Equivalent course(s) at another accredited college.

*Note: BIOL B14 (Human Anatomy) and BIOL B15 (Human Physiology) were previously taught at Bakersfield College and they meet this requirement.*

- MATH BD/B70 (Intermediate Algebra-5 units) at Bakersfield College or equivalent course at another accredited college. A higher level college math course will be accepted in lieu of this algebra requirement.
- MEDS B60 (Medical Terminology - 3 units) at Bakersfield College or equivalent course at another accredited college.
- ENGL B1A (Expository Composition - 3 units); or an equivalent course at another accredited college.

- Minimum cumulative grade point average of 2.7 with MATH BD/B70 passed on the first attempt; or
- Minimum cumulative grade point average of 2.9 with MATH BD/B70 passed on the second attempt.

*Note: All course attempts including grades of ‘D’, ‘F’ and withdrawals (W) are included in the review of the course attempts. Students with more than two math attempts are not initially eligible for the program. In addition, for students who use a higher level math course in lieu of Intermediate Algebra these same requirements for minimum cumulative grade point average and course attempts apply in order to meet program prerequisites.*

Remediation Plan:
Students who do not initially meet the eligibility requirement for passing the MATH BD/MATH B70 prerequisite within two attempts must complete all of the following remediation requirements to be considered eligible to apply for the Radiologic Technology Program.

- Completion of ACDV B70A-B70F- Study Skills courses with a grade of ‘B’ or better
- Completion of MATH B22 Elementary Probability and Statistics with a minimum grade of ‘C’ on the first course attempt
- Successful completion of the Remediation Program must be completed within 1 year of initial application to the program. Students who do not meet the grade point average (GPA) eligibility requirement of either 2.7 or 2.9 are advised to research and complete, if applicable, an Academic Renewal request through the Bakersfield College established process identified in the college catalog for a recalculation of their GPA. Documentation of completion of the remediation plan must be submitted to the Program at the time of application. Documentation is made through college transcripts.
- Graduation from high school or an equivalent education.

Estimated Program Costs (Gainful Employment):
Students will be required to purchase uniforms, textbooks, and supplies, pay current college fees and provide transportation to off campus clinical education centers in Bakersfield, California and Delano, California. For information on Estimated Program Costs, please visit our [Radtech website](#):

Licensure/Certification Eligibility
The American Registry of Radiologic Technologists (ARRT) requires review of any conviction, misdemeanor or felony, or a sanction by the Program regarding an academic honor code, or review of suspension or dismissal by a radiography program and review of licensure suspension, denial or other disciplinary action by a regulatory authority or certification board other than the ARRT. This review may be conducted prior to or during the program. For more information contact the ARRT at: 1225 Northland Drive, Mendota Heights, MN 55120, (651) 687-0048, or www.arrt.org. The State Department of Public Health, Radiologic Health Branch and the American Registry of Radiologic Technology requires possession of either a Social Security number or Taxpayer ID number to apply for licensure and/or registration.

Accreditation
Bakersfield College is accredited by the Western Association of Schools and Colleges. The Radiologic Technology Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), 20 N. Wacker Drive, Suite 2850, Chicago, Illinois 60606-3182, (312) 704-5300 or www.jrcert.org. The program is also approved by the State of California, Department of Public Health, Radiologic Health Branch, P.O. Box 997414, MS- 7610, Sacramento, CA, 95899-7414, (916) 327-5106 or [www.cdph.ca.gov/alth](http://www.cdph.ca.gov/alth). The American Registry of Radiologic Technologists (ARRT) requires that during the course of the Program the student must demonstrate a commitment to the ethical responsibilities of the radiologic technologist, and the ability to practice in a manner consistent with the ethical responsibilities outlined in the Code of Ethics for Radiologic Technologists. The American Registry of Radiologic Technologists (ARRT) requires completion of all college courses with a grade of ‘C’ or better. Radiologic Technology is accredited by the Joint Review Committee on Education in Radiologic Technology. The Program is approved by the State of California, Department of Public Health, Radiologic Health Branch and the American Registry of Radiologic Technology requires possession of either a Social Security number or Taxpayer ID number to apply for licensure and/or registration.

Career Opportunities:
The AS Degree Radiologic Technology prepares graduates for both State licensure and national certification in radiography. Employment outlook is excellent for radiographers with a median salary of $32/hr for Kern and Tulare Counties (2015) with an 8.6% increase in projected openings from 2016-2021.

Radiologic Technology Associate in Science Degree
The following courses are taken after students have been enrolled in the Radiologic Technology Program. To Achieve the Associate in Science Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Radiologic Technology Associate in Science degree.

More information can be found on the [Allied Health website](#) or in the Bakersfield College Allied Health Office, MS 178.

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded a Radiologic Technology Associate of Science Degree.

Note: The clinical components of all radiologic technology courses are graded on a Pass/No Pass basis only. Radiologic Technology students are exempt from the maximum of three Pass/No Pass units which may be taken in a semester and from the maximum of 12 Pass/No Pass units which may be applied toward the AS degree at Bakersfield College.
Principles of Venipuncture Job Skills Certificate

The purpose of this certificate is for successful completion of the Principles of Venipuncture course taught at Bakersfield College. The venipuncture regulations and requirements are part of the Health and Safety Code of California, Section 106985. The certificate is necessary for job readiness and to indicate competency for the performance of venipuncture at the job site. The State of California code requires a certificate to indicate proficiency. The certificate is part of the Career and Technical Education program which prepares students for employment in medical imaging and permits individuals to administer contrast media for x-ray examinations as part of their job as a radiologic technologist.

Prerequisite

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate competency by successfully performing venipuncture techniques on humans in the laboratory setting.

Career Opportunities:
The Venipuncture Job Skills Certificate permits Certified Radiologic Technologists (CRT’s) to perform venipuncture at their job site. Median salary is $32/hr for Kern and Tulare Counties.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Principles of Venipuncture Job Skills Certificate.

(offer spring semester only)

Principles of Fluoroscopy Job Skills Certificate

This certificate provides fluoroscopy skills for students completing the Associate in Science Radiologic Technology program. The certificate is required as proof of completion to meet the regulations specified by the California Code of Regulations, Title 17: Public Health, Article 8: Additional School Requirements and Record Keeping, Section. 30437. The certificate is part of the Career and Technical Education program which prepares students for State licensure which is necessary for employment in the field of x-ray technology.

Program Learning Outcomes
Upon successful completion, the student will:
• employ appropriate radiation protection practices for patients and themselves.
• competently perform radiographic positioning.

Career Opportunities:
The Fluoroscopy Job Skills Certificate permits Certified Radiologic Technologists (CRT’s) to perform fluoroscopy at their job site. Median salary is $32/hr for Kern and Tulare Counties.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Principles of Fluoroscopy Job Skills Certificate. This certificate provides fluoroscopy skills for students completing the Associate in Science Radiologic Technology program.

Sociology

Degree
Sociology, Associate in Arts for Transfer
Sociology
Associate in Arts Degree for Transfer

The Associate in Arts in Sociology for Transfer is intended for those transfer-directed students who plan to complete an AA in Sociology because it guarantees admission to the CSU system (but not to a particular campus or major). In order to earn the Associate in Arts in Sociology for Transfer, students must complete a minimum of 60 required semester units of CSU-transferable coursework which includes the CSU General Education or IGETC requirements with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the Associate in Arts in Sociology for Transfer will be required to complete no more than 60 units after transfer to earn a bachelor’s degree (unless the major is a designated high-unit major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. No additional graduation requirements are required to complete this degree.

Sociology is the study of groups, institutions, social relationships, and social problems in contemporary society. The sociology major prepares the student for careers in law, social work, human services, urban development, law enforcement agencies, public service, counseling, mental health, teaching, and community service. Students will be prepared for a baccalaureate degree in Sociology or a similar degree.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate an understanding of the perspectives, theories, methods and core concepts of sociology.
• explain the complex interplay between individual, culture, and social structure contributing to the historical development of the discipline of sociology.
• demonstrate the ability to utilize the sociological perspective to critically analyze and describe the diverse intersections of social categories, including race, ethnicity, class, gender, sexuality, age, religion, and nationality.

To Transfer Coursework
A minimum of 19 semester units in the major with a grade of ‘C’ or better while maintaining a minimum grade point average of at least 2.0 in all California State University transferable coursework.

Requirements for AA-T or AS-T degrees:
The completion of 60 semester units that are eligible for transfer to the California State University, including the following:
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.
• A minimum of 18 semester units in a major area of emphasis, as determined by the district.
• The attainment of a minimum grade point average of 2.0.
• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Spanish

Degree
Spanish, Associate in Arts for Transfer
Spanish

Associate in Arts Degree for Transfer

The Associate in Arts in Spanish for Transfer degree provides a linguistic study of the language and an in-depth look into the culture of the Spanish-speaking world. The objective of the program is to provide students with opportunities to obtain an AA degree in Spanish, transfer to a four-year college, and achieve their academic goals. Graduates of this program will be better prepared for employment in both academic and non-academic fields, such as schools, corporations, business entities, and not-for-profits.

Program Learning Outcomes

Upon successful completion, the student will:

• demonstrate the ability to speak using appropriate grammatical forms as well as vocabulary appropriate to the level of those students who are seeking an AA-T degree in Spanish. They will show this through dialogs, prepared presentations, impromptu conversations with other students and the professor.

• demonstrate the ability to understand spoken Spanish as evident in responses through prepared dialogs and presentations as well as impromptu conversations with other students and the professor. Students will also demonstrate understanding of spoken Spanish on graded exams and directed interview questions.

• demonstrate the ability to write using appropriate grammatical forms as well as vocabulary appropriate to the level of those students who are seeking an AA-T degree in Spanish. They will show this through informal writing and formal writing.

• exhibit reading comprehension of informal and formal written texts including informal letters or short essays as well as literature and news articles from various parts of the Spanish speaking world.

Requirements for AA-T or AS-T degrees:

The completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:

• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University – Breadth Requirements.

• A minimum of 18 semester units in a major area of emphasis, as determined by the district.

• The obtainment of a minimum grade point average of 2.0.

• The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Departmental placement evaluation determines the course level where individual students begin the core courses. Credit or placement equivalent to two years of college level Spanish is required. If a student places out of any course and is not awarded units for that course, the student will need additional coursework to reach at least 19 total units in the major.

Due to differences in unit values, it may be necessary to substitute two 3 unit courses for each 4 unit required core course not taken.*

Total Units: 19-21

Theatre Arts

Degree
Theatre Arts, Associate in Arts for Transfer
The Associate in Arts in Theatre Arts for Transfer Degree (AA-T in Theatre Arts) is designed to provide students a clear transfer pathway to CSU campuses that offer bachelor’s degrees in Theatre Arts. Ed Code Section 66746-66749 states that students earning the Associate in Arts in Theatre Arts for Transfer Degree (AA-T in Theatre Arts) will be granted priority for admission as a Theatre major to a local CSU, as determined by the CSU campus to which the student applies. This degree requires students to complete 60 CSU transferable units including completion of CSU or IGETC and 18 units in the major with a cumulative GPA of 2.0 or better. Title 5 requires that students earn a grade of ‘C’ or better in all major coursework. This degree provides students with an understanding and an appreciation for the art of theatre and includes courses in acting, technical theatre, rehearsal and performance as well as an introduction to the theatre and play analysis. Completion of this curriculum will provide preparation for future theatre studies.

**Program Learning Outcomes**

Upon successful completion, the student will:

- demonstrate the ability to recognize, describe, and/or effectively produce various components of a performing art form.
- demonstrate an understanding and appreciation of the ways in which arts reflect historical, intellectual, and cultural contexts, as well as aesthetic tastes.
- demonstrate through successful group or individual performance acquired skills and knowledge appropriate to a particular performing art form.

**Requirements for AA-T or AS-T degrees:**

The completion of 60 semester units that are eligible for transfer to the California State University, including the following:

- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University - Breadth Requirements.
- A minimum of 18 semester units in a major area of emphasis, as determined by the district.
- The obtainment of a minimum grade point average of 2.0.
- The completion of all courses required for the major with a ‘C’ or better. A ‘P’ (Pass) grade is not acceptable for courses in the major.

Welding

**Degree**
Industrial Technology, Welding Option, Associate of Science

**Certificates**
Welding, Certificate of Achievement

Blueprint Reading and Layout for Welders, Job Skills Certificate
Gas Metal Arc/Gas Tungsten Arc Welding/Flux Core Arc Welding, Job Skills Certificate
Shielded Metal Arc Welding, Job Skills Certificate
Welding Certification, Job Skills Certificate
Industrial Technology, Welding Option
Associate of Science Degree

Students must comply with the requirements as shown in the catalog under graduation requirements. Students should seek the advice of a welding instructor, counselor or advisor for assistance in planning for a associate degree. Career opportunities include jobs requiring skills in welding and layout.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for employment in the welding industry.
• demonstrate problem solving skills used in product design and development in the welding industry.

To Achieve the Associate in Science
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded a Industrial Technology, Welding Option Associate in Science degree.

Total Units: 39-40
Required Courses
Course # Name Units
WELD B1A Introduction to Oxygen Acetylene Welding and Cutting 2.0
WELD B1B Introduction to the Welding Processes 2.0

INDT B12 Introduction to Drafting and CAD 2.0
INDT B271 Special Problems in Welding 2-3.0
INDT B10 Occupational Readiness or equivalent 3.0

Welding
Certificate of Achievement

Students must comply with the requirements as shown in the catalog under certificate requirements. Students should seek the advice of a welding instructor, counselor or advisor for assistance in planning for a welding Certificate of Achievement. Career opportunities include jobs requiring the ability to weld in multiple processes, to interpret and create blueprints, to perform layout operations, and to perform basic machining tasks.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for industrial employment.
• demonstrate problem solving skills used in industrial design and product development.
• demonstrate a deep understanding of the core material required for transfer to a four year university degree program or for certification in the department programs.

Career Opportunities:
Welder, Structural Fabricator

To Achieve the Certificate of Achievement
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Welding Certificate of Achievement.

Total Units: 32
Required Courses
Course # Name Units
WELD B1A Introduction to Oxygen Acetylene Welding and Cutting 2.0
WELD B1B Introduction to the Welding Processes 2.0
WELD B53A Shielded Metal Arc Welding 2.0

WELD B55D ASME Pipe Certification 2.0
WELD B65AB Welded Steel Structures 3.0
WELD B74A Introduction to GMAW & FCAW 2.0
WELD B74B Introduction to Gas Tungsten Arc Welding 2.0
MFGT B1AB Machine Tool Processes 3.0
WELD B54A Blueprint Reading for Welders & Machinists 3.0
INDT B10 Occupational Readiness or equivalent 3.0
Blueprint Reading and Layout for Welders, Job Skills Certificate

This certificate covers the principles of blueprint reading as it applies to welders. Emphasis is placed on the ability to visualize and interpret working drawings. Welding symbols and basic shop math are included. Layout techniques including mathematical and pipe fitting technology are covered. Career opportunities include blueprint reading and layout in the welding industry.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for industrial employment.
• demonstrate problem solving skills used in industrial design and product development.
• demonstrate a deep understanding of the core material required for transfer to a four year university degree program or for certification in the department programs.

Career Opportunities:
Welder, Structural Fabricator

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Blueprint Reading and Layout for Welders Job Skills Certificate.

Gas Metal Arc/Gas Tungsten Arc/Flux Core Arc Welding, Job Skills Certificate

This certificate emphasizes welding processes of gas metal arc welding (GMAW), gas tungsten arc welding (GTAW) and flux core arc welding (FCAW). Theory and application as well as safety of these applications while welding on mild steel, aluminum and stainless steel are emphasized.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for industrial employment.
• demonstrate problem solving skills used in industrial design and product development.
• demonstrate a deep understanding of the core material required for transfer to a four year university degree program or certification in the department programs.

Career Opportunities:
Welder, Structural Fabricator

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a ‘C’ grade in each course, the student will be awarded a Gas Metal Arc/Gas Tungsten Arc/Flux Core Arc Welding Job Skills Certificate.

Shielded Metal Arc Welding
Job Skills Certificate

This certificate emphasizes welding processes from oxy-acetylene cutting and brazing through shielded metal arc welding using many different welding electrodes and all positions. Blueprint reading and pattern layouts for welding are highlighted. Career opportunities include entry level welding jobs requiring the use of the SMAW process, blueprint reading, and layout.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for industrial employment.
• demonstrate problem solving skills used in industrial design and product development.
• demonstrate a deep understanding of the core material required for transfer to a four year university degree program or for certification in the department programs.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a 'B' grade in each course, the students will be awarded a Shielded Metal Arc Welding Job Skills Certificate.

Welding Certification
Job Skills Certificate

This certificate emphasizes welding processes of SMAW, GMAW, FCAW, Oxy/Acetylene cutting, and Blueprint Reading. Theory and application as well as safety of these processes while welding on mild steel are emphasized. This program prepares students for careers in Welding Entry Level Welding Job.

Program Learning Outcomes
Upon successful completion, the student will:
• demonstrate proficiency in technical skills and safety principles required for employment in the welding industry.
• Students will demonstrate problem solving skills used in product design and development in the welding industry.
• Students will demonstrate an understanding of the core material required for A.W.S. certification in the welding program.

To Achieve the Job Skills Certificate
Upon completion of the following courses with at least a 'B' grade in each course, the students will be awarded a Welding Certification Job Skills Certificate.

Woodworking and Cabinetmaking

**Degree**
Industrial Technology, Woodworking & Cabinetmaking Option, Associate of Science

**Certificates**
Cabinetmaking, Certificate of Achievement

Woodworking & Cabinetmaking, Job Skills Certificate
Industrial Technology, Woodworking & Cabinetmaking Option
Associate of Science Degree

This degree covers the principles of woodworking to include materials, hand tools, wood cutting machinery and wood finishing. Emphasis will be put on designs to include modular construction, new materials and processes. Advanced bidding techniques are discussed.

Program Learning Outcomes
The successful student will be able to:

• demonstrate proficiency in technical skills and safety principles required for employment in the woodworking/cabinetmaking industry.
• demonstrate problem solving skills used in product design and development in the woodworking industry.
• demonstrate a deep understanding of the core material required for certification in the woodworking program.

Career Opportunities:
Cabinetmaker, Carpenter.

To Achieve the Associate of Science Degree
Upon completion of graduation requirements and the required degree courses with at least a ‘C’ grade in each course, the student will be awarded an Industrial Technology, Woodworking & Cabinetmaking Option Associate of Science Degree.

Additional Preparatory Pathways Information

Primary Care Associate/Physician’s Assistant

Prerequisites and Course Requirements
Stanford University Medical Center administers a program to train individuals who function in association with physicians in the maintenance and delivery of primary health care to medically underserved communities.

Upon completion of the prerequisite pre-clinical program at Bakersfield College or other accredited institutions, students admitted to the program have a 21-month curriculum (seven quarters) which integrates classroom learning and clinical practice, coordinated through Stanford University Medical Center. Over the course of 7 quarters students participate in approximately 34 weeks of didactic and skills training, and 46 weeks of preceptorship experience. A large portion of the didactic training takes place in quarters 1-3, with most of the clinical preceptorship experience occurring during quarters 4-7. All lectures and skills training take place at Stanford/Foothill campus. For their clinical preceptorship experience students are placed with a physician in their home community. Students return to Stanford each quarter for integrated instruction and testing. For complete program information visit http://pcap.stanford.edu/.

Program Academic Prerequisites
A minimum grade of ‘C’ must be attained in each of these courses. Only work from a regionally accredited college can be accepted.

- Intermediate Algebra – MATH BD/B70 at Bakersfield College
- Introductory or General Chemistry – CHEM B11, B1A, or B18 at Bakersfield College
- Cultural Anthropology or Introduction to Sociology – ANTH B2 or SOC B1 at Bakersfield College
- English/Expository Composition – ENGL B1A at Bakersfield College
- General Psychology – PSYC B1A at Bakersfield College
- General Microbiology (with lab) – BIOL B16 at Bakersfield College
- Human Anatomy and Physiology I (with lab) – BIOL B32 at Bakersfield College
- Human Anatomy and Physiology II (with lab) – BIOL B33 at Bakersfield College

Clinical Prerequisites
Minimum requirements for application and admission include:

- United States citizen or permanent visa.
- High School Diploma or equivalent.
- A minimum of 3,000 hours of direct patient care experience (this requirement can be met with 18 months of full-time work experience or equivalent part-time hours).
- Satisfactory completion of the following academic prerequisites or their equivalents.

General Education courses are required for the Primary Care Associate program. It is recommended that an associate degree at Bakersfield College (AS in Biology - Human Biology Emphasis) be completed prior to applying to the program.

Clinical Preceptorship Experience
The PCA Program takes responsibility for approving and placing students in clinical settings. The goal is for students to train at primary care sites in their community. The student may be required to relocate or travel if an appropriate preceptor site cannot be located in their immediate area. These primary care practices include a mix of family medicine, internal medicine, pediatrics and women's health sufficient to provide a broad base of experience in health care of all genders, ages, and across the life span. Continuity of care is emphasized. In keeping with our mission students are required to have a portion of their primary care training occur at an officially-determined underserved site.

Pre-Veterinary Medicine Option
Students are referred to UC Davis School of Veterinary Medicine and Western University School of Health Sciences, College of Veterinary Medicine for the most current program information.
Pre-Med

Bakersfield College has a very active Pre-Med club to help students get lower division coursework and experience in preparation for transfer with a goal of Medicine. Please visit the Pre-med club website.

The club was re-instated in the fall of 2001 in an attempt to help students interested in all health professions achieve their goals through:
• attending pre-med conferences
• internship opportunities
• research opportunities
• informative seminars
• volunteer work

Contact the Pre-Med faculty adviser for more information:
Faculty Adviser - Joe Saldivar, Ph. D.

California Medical Schools
This is a list of Medical Schools in California. If you are considering Med-School, you should consider checking out these sights so that you may develop a course plan with the school(s) of your choice. These sights are for all medical professions. These sights can also be helpful even if medical school is not your primary health field.

• Keck School of Medicine of the University of Southern California

• Loma Linda University School of Medicine

• Stanford University School of Medicine

• University of California, Davis, School of Medicine

• University of California, Irvine, College of Medicine

• University of California, Los Angeles, UCLA School of Medicine

• University of California, San Diego, School of Medicine

• University of California, San Francisco, School of Medicine

Pre-Law Program

Pathway to Law School Program
In partnership with The State Bar of California, the Pathway to Law School initiative at Bakersfield College enhances opportunities and advancement in the legal profession for diverse populations, particularly those who have been underrepresented in the practice of law.

Why Study Law?
Studying law explores many aspects of human life and allows you to develop a range of skills. Legal training fosters a broad and deep understanding of the law as well as develops abstract and critical thinking, practical problem solving skills and strong communication skills. The legal profession offers professional growth, opportunities, intellectual challenge, social activism empowerment, financial rewards, prestige and personal fulfillment in diverse areas such as: criminal law, corporate law, real estate law, tax law, family law, education law, patent law, product liability law and many other areas.

Career Possibilities
Career paths and opportunities for lawyers are endless. A law degree can be used in traditional legal employment, non-traditional legal employment and non-legal employment. Below are just some of the careers paths that you can take with a law degree.
• Lawyer
• Judge
• Mediator
• Paralegal
• Secretary
• Consultant
• Educator
• Corporate attorney
• Court Administrator
• Governmental administrator
• Politician

Participating Schools: Colleges/Law Schools
• University of San Francisco School of Law
• Santa Clara University School of Law
• University of California at Davis School of Law
• University of Southern California Gould School of Law
• Loyola Law School
• University of California at Irvine School of Law

Please refer to the “Pre Law Pathway” on page 244.
### Pre-Law Pathway

**Pre-law Pathway** covers major and IGETC general education courses for college-ready students earning a **AA-T Political Science** degree in 2 years and transferring to a UC.

Faculty Lead for Pathway: **Edward Borgens**  
Student Affairs Lead for Pathway: **Pearl Urena**

*At least 19-20 units of Political Science courses are required.  
*The IGETC (general Education requires one lab in either the physical scienc or life science.
Courses
ACDV - Academic Development Courses

ACDV B5 Tutor Training and Practicum Level 1
1 unit
Prerequisite: Minimum grade of ‘B’ in subject to be tutored and approval of subject area instructor and evaluation of prerequisites by the Tutor Trainer and/or Tutor Coordinator.
Recommended: BC placement into reading level 06.
Description: Essential human relations skills and methods of effective tutoring, placing these skills into practice with tutees assigned by the Tutor Coordinator. This course is required for Level 1 International Tutor Training Program Certification (ITTPC). Tutors are referred by subject area instructor(s).
Note: Must have the ACDV B5 instructor’s signature to enroll in any ACDV B5 class.
Hours: 18 lecture
Transferable: CSU and private colleges.

ACDV B5A Tutor Training and Practicum Level 2
.5 unit
Prerequisites: Minimum grade of ‘B’ in subject to be tutored or approval of subject area instructor or evaluation of prerequisites by the Tutor Trainer and/or Tutor Coordinator.
Recommended: BC Placement into reading level 06.
Description: Designed for returning tutors to build tutoring skills. Skills include essential human relations skills and methods of effective tutoring, placing skills into practice with tutees referred by the Tutor Coordinator. This course is required for Level 2 International Tutor Training Program Certification (ITTPC). Students may be referred by subject area instructor(s).
Hours: 9 lecture
Transferable: CSU and private colleges.

ACDV B50 Advanced Reading and Critical Thinking
3 units
Prerequisite: BC placement into reading level 05 or successful completion of ACDV B62 or equivalent with a grade of C or better.
Recommended: BC placement into writing level 05 or successful completion of ENSL B51/EMLS B61.
Description: Recommended for students who have not met the reading competency graduation requirement at entrance or for those who wish to improve their skills in academic reading. Emphasizes critical reading and thinking and reading flexibility with college-level material. Focuses on application, analysis, synthesis, and evaluation in both oral and written form. Successful completion of ACDV B50 meets graduation requirement for reading competency.
Hours: 54 lecture
Transferable: Not transferable. Not degree applicable.

ACDV B55 First Year Student Success
0.5-2 units
Description: Introduces students to the college's academic, social, and physical environments and promotes personal and academic locus of control necessary for student success in college. Designed to increase students' probability for college success as students locate, navigate, and utilize the campus' academic and student services resources. The course covers note-taking, test-taking, textbook reading, effective communication, time-management, and library research and other skills necessary for college success.
Hours: 9 lecture for each .5 unit (9-36)
Transferable: Not transferable. Not degree applicable.

ACDV B61 Accelerated Reading
4 units
Prerequisite: BC placement into reading level 04 or successful completion of ACDV B80 or equivalent with a grade of C or better.
Description: This course is recommended for students who place at Reading Level 3 or 4 who need to improve academic vocabulary, reading comprehension, critical thinking, research skills, and reading flexibility with college level material. Students who successfully pass this course will have fulfilled the reading competency requirement for graduation.
Note: Not open to students with credit in ACDV B62 or ENSL B51 or EMLS B61
Hours: 72 lecture
Transferable: Not transferable. Not degree applicable.

ACDV B70A Time Management Strategies for Academic Success
0.5 unit
Description: This course includes hands-on instruction for developing effective strategies for both personal and academic time management as it relates to academic success in college. Students work on time management activities and assignments both independently and interactively in groups on guided, hands-on activities related to developing time management skills. There are additional outside of class computer lab hours required for students to practice working on a variety of time management strategies.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

ACDV B70B Note Taking Strategies for Academic Success
0.5 unit
Description: This course includes hands-on learning for developing effective strategies for note taking as it relates to academic success in college. Students work on note taking skills independently and interactively in groups on guided, hands-on activities related to developing note taking skills. There are additional outside of class computer lab hours required for students to practice working on a variety of note taking strategies.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

ACDV B70C Textbook Reading Strategies for Academic Success
0.5 unit
Description: This course includes hands-on learning for developing effective textbook reading strategies to improve academic success in college. Students work on textbook reading strategies both independently and interactively in groups on guided, hands-on activities related to developing textbook reading skills. There are additional outside of class computer lab hours required for students to practice using a variety of effective textbook reading strategies.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

ACDV B70D Test Taking Strategies for Academic Success
0.5 unit
Description: This course includes hands-on learning for developing effective test taking strategies related to academic success in college. Students work on test taking strategies both independently and interactively in groups on guided, hands-on activities related to developing test taking skills. There are additional outside of class computer lab hours required for students to practice working on a
variety of test taking strategies.
**Hours:** 9 lecture
**Transferable:** Not transferable. Not degree applicable.

**ACDV B70E Memory Strategies for Academic Success**
**0.5 unit**
**Description:** This course includes hands-on learning for developing effective memory strategies related to academic success in college. Students work on memory techniques both independently and interactively in groups on guided, hands-on activities related to developing memory skills. There are additional outside of class computer lab hours required for students to practice working on a variety of memory strategies.
**Hours:** 9 lecture
**Transferable:** Not transferable. Not degree applicable.

**ACDV B70F Vocabulary Improvement Strategies for Academic Success**
**0.5 unit**
**Description:** This course includes hands-on learning for developing effective vocabulary improvement strategies related to academic success in college. Students work on vocabulary improvement both independently and interactively in groups on guided, hands-on activities related to developing vocabulary improvement skills. There are additional outside of class computer lab hours required for students to practice working on a variety of vocabulary improvement strategies.
**Hours:** 9 lecture
**Transferable:** Not transferable. Not degree applicable.

**ACDV B72 Basic Arithmetic & Pre-Algebra**
**4 units**
**Prerequisite:** BC placement into Math level 01.
**Recommended:** BC placement into reading level 05 or successful completion of ACDV B62 or equivalent with a grade of C or better.
**Description:** This course offers an accelerated, intensive option for preparation for Elementary Algebra. The material covered is equivalent to that covered separately in ACDV B77 (Basic Arithmetic) and Math B50 (Pre-algebra). Reviews basic arithmetic including addition, subtraction, multiplication, and division of whole numbers, integers, decimals, fractions, and also includes percent, measurement, and reading tables. Includes real life applications emphasizing estimation and word problems. To prepare for algebra, factoring, exponents, solving simple equations, introduction to plane geometry, averages, ratios, rates, and proportions are included.
**Hours:** 72 lecture
**Transferable:** Not transferable. Not degree applicable.

**ACDV B80 Foundations of College Composition and Reading**
**4 units**
**Prerequisite:** BC placement into reading level 03 or writing level 03.
**Description:** This course is designed to prepare students for success in English and reading courses 2 levels prior to transfer. Students will learn basic multi-paragraph writing skills in response to thematic, mostly non-fiction reading passages. The course curriculum emphasizes critical reading skills, writing and revision processes, and basic MLA formatting and English writing conventions. Due to the integrated curriculum, students can progress in both English and reading levels in one semester.
**Hours:** 72 lecture
**Transferable:** Not transferable. Not degree applicable.

**ACDV B195 Basic Computer Literacy**
**1-3 units**
**Recommended:** BC placement into reading level 05 or successful completion of ACDV B62 or equivalent with a grade of C or better and BC placement into writing level 05 or successful completion of ENGL B60 or equivalent with a grade of C or better.
**Description:** The student will learn how to identify the parts and the functions of personal computers. Students will be introduced to such varied topics as use of an internet browser, how to establish and maintain an email account, how to navigate such programs as basic word processing and function keys, how to use established databases and search engines to find information on the internet, and how to copy, save, print, and send documents from various sources.
**Hours:** 18-54 lecture
**Transferable:** Not transferable. Not degree applicable.

**ACDV B201A Reading for Academic Success**
**0.5-1 unit**
**Description:** This course offers individually prescribed lessons in reading fluency and comprehension, vocabulary development, study skills, critical thinking, and writing with supervised practice in the computer lab on assigned tasks. Open entry/open exit. Students should report to SS 143 as soon as possible to take orientation and complete enrollment paperwork.
**Hours:** 27 lab hours for each .5 unit (27-54)
**Transferable:** Not transferable. Not degree applicable.

**ACDV B201B Writing for Academic Success**
**0.5-1 unit**
**Description:** This course offers supervised, self-paced computer lab activities with individually prescribed lessons in English language development and writing skills. Open entry/open exit lab courses. Students should report to SS 143 as soon as possible to take orientation and complete enrollment forms. ACDV B281b is recommended as a supplement to all English and Academic Development classes.
**Note:** ACDV B201B is recommended as a supplement to all English and Academic Development classes.
**Hours:** 27 lab hours for each .5 unit (27-54)
**Transferable:** Not transferable. Not degree applicable.

**ACDV B201C Basic Math Skills for Academic Skills**
**0.5-1 unit**
**Description:** This course offers supervised, self-paced computer lab activities with individually prescribed lessons to develop basic math skills. Open entry/open exit. Students should report to SS 143 as soon as possible to take an orientation and complete enrollment forms. ACDV B281c is recommended as a supplement to all basic skills math courses.
**Hours:** 27 lab hours for each .5 unit (27-54)
**Transferable:** Not transferable. Not degree applicable.

**ACDV B280 Strategies for Student Success**
**0 unit**
**Description:** Provides tutoring in various academic subjects in a designated learning center to augment classroom instruction. Referral by subject-area instructor, counselor, or tutor trainer is suggested.
**Note:** Weekly hours are decided jointly by the instructor and student. Open entry/open exit.
**Hours:** 1-99 lab
**Repeat:** Unlimited
**Transferable:** Not transferable. Not degree applicable.
ACDV B281A Supervised Tutoring-Computer: Reading
0 unit
Description: This course offers individually prescribed lessons in reading fluency and comprehension, vocabulary development, study skills, critical thinking, and writing with supervised practice in the computer lab on assigned tasks problems. Open entry/open exit. Students should report to SS 143 as soon as possible to take orientation and complete enrollment paperwork.
Note: Weekly hours are decided jointly by the instructor and students. Students cannot register by the web for this section; see instructor in SS 143 to complete enrollment.
Hours: 1-99 lab
Repeat: Unlimited
Transferable: Not transferable. Not degree applicable.

ACDV B281B Supervised Tutoring-Computer: Writing
0 unit
Description: This course offers supervised, self-paced computer lab activities with prescribed lessons in English language development and writing skills. Open entry/open exit lab courses. Students should report to SS 143 as soon as possible to take orientation and complete enrollment forms. ACDV B281b is recommended as a supplement to all English and Academic Development classes.
Note: Weekly hours are decided jointly by the instructor and student. Students cannot register by the web for this course; see instructor in SS 143 to complete enrollment.
Hours: 1-99 lab
Repeat: Unlimited
Transferable: Not transferable. Not degree applicable.

ACDV B281C Supervised Tutoring-Computer: Mathematics
0 unit
Description: This course offers supervised, self-paced computer lab activities with prescribed lessons to develop basic math skills. Open entry/open exit lab courses. Students should report to SS 143 as soon as possible to take orientation and complete enrollment forms. ACDV B281C is recommended as a supplement to all basic skills math courses.
Note: Weekly hours are decided jointly by the instructor and student. Student cannot register by the web for this course; see instructor in SS 143 to complete enrollment.
Hours: 1-99 lab
Repeat: Unlimited
Transferable: Not transferable. Not degree applicable.
ADMJ - Administration of Justice Courses

ADMJ B40 Law and Democracy
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: An overview of practical aspects of civil, criminal, and constitutional law; development of skills in critical reading, writing, problem solving, and oral communication with an emphasis on preparation for success in legal education; preparation for civic engagement and community-based learning.
Hours: 54 lecture Transferable: CSU, UC, and private colleges. CSU GE D; IGETC 4

ADMJ B60 Arrest and Control Techniques. PC 832
2.5 unit
Description: Introduces methods and regulations used by peace officers regarding the powers of arrest, and laws of search and seizure. Students will engage in weaponless self defense and physical arrest activities. Course is designed to meet the requirements of California Penal Code section 832 (PC 832), which establishes a minimum mandatory standard of training for peace officers in the State of California. Meets the Commission on Peace Officers Standards and Training (P.O.S.T) requirements.
Hours: 45 lecture Transferable: Not transferable. Not degree applicable.

ADMJ B61 Firearms Training P.C. 832
1.5 unit
Prerequisites: ADMJ B60 with a grade of ‘C’ or better.
Limitation on Enrollment: Per penal code section 13511.5, Students must obtain written clearance from the California Department of Justice (DOJ) verifying that they are NOT prohibited from possessing firearms. LiveSCAN and a DOJ clearance is required prior to registration for this course. Approval of equivalent enrollment eligibility is not a guarantee that state regulatory and licensing authorities will also grant equivalency for licensure or employment purposes. Fingerprinting is required by law to take this course and legally apply for a permit.
Description: Provides students with the competencies required for certification by Peace Officer Standards and Training (P.O.S.T) 80101. Students will engage in the use of firearms, which will include handgun familiarization; safety; care, cleaning and storage; firearms range qualifications.
SPECIAL NOTICE: Per Penal Code section 13511.5, students must obtain written clearance from the California Department of Justice verifying that they are not prohibited from possessing firearms which involves completion of LiveSCAN and DOJ clearance.
Hours: 27 lecture Transferable: Not transferable. Not degree applicable.

ADMJ B63 Power to Arrest (Security Guard Course)
0.5 unit
Description: Provide students with the knowledge and skills to pass the State of California mandated exam for a Security Guard Card and to function at the entry level of the security profession. Class meets the certification requirements for the Bureau of Security and Investigative Services from the California State and Consumer Services Agency.
Hours: 9 lecture Transferable: Not transferable. Not degree applicable.

ADMJ B72 Peace Officer's Basic Academy
21 units
Prerequisite: Limitation on Enrollment: Per penal code section 13511.5, Students must obtain written clearance from the California Department of Justice (DOJ) verifying that they are NOT prohibited from possessing firearms. LiveSCAN and a DOJ clearance is required prior to registration for this course. Approval of equivalent enrollment eligibility is not a guarantee that state regulatory and licensing authorities will also grant equivalency for licensure or employment purposes. Required by Statute.
Description: Course provides students with the competencies set forth by Peace Officer Standards and Training (P.O.S.T) to obtain a position as an entry-level peace officer. Covers introduction to law enforcement, administration of justice, criminal law, evidence and investigation, community-police relations, patrol procedures traffic control, juvenile procedure, physical fitness, defensive tactics, firearms, first aid and CPR, vehicle operations, domestic violence, field training, and evaluation, and other related basic law enforcement topics.
Hours: 5 lecture, 864 lab Transferable: Not transferable. Not degree applicable.

ADMJ B81 Special Topics for Security Guards
0.2 unit
Description: Provides the required training security guards must complete within six months of employment as a security guard. Also covers the annual review and practice of security guard skills. Course meets the training requirements as set forth by the California Department of Consumer Affairs, Bureau of Security and Investigative Services.
Hours: 8 lecture Repeat: Unlimited Transferable: Not transferable. Not degree applicable.
AGBS - Agriculture Business Management Courses

AGBS B2 Agricultural Economics
3 units
Description: Course covers the role of agriculture in the economic system. Basic economic principles are applied to agriculture production, pricing and marketing. Emphasis placed on effects of state and federal farm programs on production agriculture economic position.
C-ID: AG + AB 124
Hours: 54 lecture
Transferable: CSU and private colleges; CSU GE D; BC GE D.2

AGBS B3 Introduction to Agriculture Business
3 units
Description: Provides a basic understanding of the business and economics of the agricultural industry; an introduction to the economic aspects of agriculture and their implications to the agricultural producer, consumer and the food system; management principles encountered in the day to day operation of an agricultural enterprise as they relate to the decision making process.
C-ID: AG + AB 104
Hours: 54 lecture
Transferable: Transferable: CSU, UC, and private colleges.

AGBS B5 Agricultural Computer Applications
3 units
Description: Computer use in the workplace with emphasis on agribusiness situations. Computer applications including word-processing, spreadsheets, databases, and presentation managers will be covered. Also included will be accessing information through the Internet and World Wide Web, telecommunications, an introduction to web page design and other software appropriate to agribusiness. Application of these concepts and methods through hands-on projects developing computer-based solutions for agriculture business.
C-ID: AG + AB 108
Hours: 54 lecture
Transferable: CSU, UC, and private colleges.

AGBS B6 Agriculture Sales and Communication
3 units
Description: Course of study includes how to structure, present and evaluate speeches as they relate to business practices. Critical analysis of how to communicate effectively in the business world will be presented. Students will take part in the selling process by demonstrating product knowledge, creating sells strategy approaches, understanding consumer behaviors and persuading customers to purchase a product or service.
Hours: 54 lecture
Transferable: CSU and private colleges.

AGBS B7 Introduction to Agricultural Accounting
3 units
Description: The study of the principles of agricultural accounting systems and types of records, their use and how to compute and use measures of earnings and cost of production to improve agribusiness efficiency. Farm income tax, Social Security, and employee payroll records also included. Application of these concepts and methods through hands-on projects developing computer-based solutions for agriculture business.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges. Degree applicable.

AGBS B48WE Occupational Work Experience Education/Internship
1-8 units
Prerequisites: Declared major or occupational goal and evaluation of student’s qualifications and objectives.
Description: College credit for agricultural business related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 SSS253.
Hours: Non-paid 60 hours for each 1 unit (60 - 480). Paid 75 hours for each 1 unit (75 - 600).
Transferable: CSU and private colleges.
AGRI - Agriculture Courses

AGRI B1 Agriculture, Environment, and Society
3 units
Recommended: BC placement into reading level 06.
Description: Involves the sociology of agriculture presented through an examination of relationships between societies and their environments, economics, and agriculture. Emphasis on the analysis of agriculture’s use of technology and the corresponding impact on the environment, economy, and society. Satisfies the 0.5 unit educational planning requirement for graduation from Bakersfield College.
Hours: 54 lecture
Transferable: CSU and private colleges; CSU GE D; BC GE D.2

AGRI B49 Agriculture Leadership Training
2 units
Description: In Agriculture Leadership Training students will learn about California agriculture and Bakersfield College and discover their own leadership and communication styles. Agriculture Leadership Training is the application of individual and group leadership techniques. This course teaches the dynamics of leadership methods and provides each student with an in-depth investigation into personal and interpersonal leadership skills. Students will strengthen their leadership influence through a personal application of leadership skills, attitudes, and dispositions. Students will participate in leadership development, team building, information gathering, and service skill development activities. Outside of the class meeting time, students will experience the benefits of volunteerism through participation in various service learning activities within their community industries, and the college.
Note: Elective credit only.
Hours: 18 lecture, 54 lab
Transferable: CSU and private colleges
**ANSC - Animal Science Courses**

**ANSC B1 Introduction to Animal Science**  
3 units  
**Recommended:** BC placement into reading level 06.  
**Description:** Survey of the livestock industry, supply of animal products and their uses; special emphasis on the origin, characteristics, adaptation and contributions of farm animals to the global Ag industry; analysis of the economic trends and career opportunities in animal agriculture. Nutrition, digestive systems, breeds, selection, and reproduction are included in course. Field trips may be required.  
**C-ID:** AG + AS 104  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges; BC GE B.1

**ANSC B2 Beef Production**  
3 units  
**Description:** Defines and appraises all segments of the beef industry, focusing on production, reproduction, marketing and processing. History and development of important breeds and their contribution to the U.S. beef industry will be emphasized. Selection, nutrition, health management, handling, and processing will be defined, analyzed, and applied.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**ANSC B3 Sheep Production**  
3 units  
**Description:** Defines and appraises all segments of the sheep industry focusing on production, reproduction, marketing and wool. History and development of important breeds and their contributions to the U.S. sheep industry will be emphasized. Selection, nutrition, health management, handling, and processing will be defined, analyzed, and applied.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**ANSC B4 Dairy Production**  
3 units  
**Description:** Defines and appraises all segments of the dairy industry focusing on production, reproduction, marketing and milk/dairy processing. History and development of important breeds and their contribution to the U.S. dairy industry will be emphasized. Selection, nutrition, health management, handling, and processing will be defined, analyzed, and applied.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**ANSC B5 Swine Production**  
3 units  
**Description:** Application of the principles of nutrition, physiology, herd selection, breeding, and marketing to swine production and management. Structure of the industry, enterprise establishment, systems of production, production practices and herd improvement programs will be discussed. Evaluation of production responses and economic returns will be defined, analyzed, and applied.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**ANSC B6 Applied Animal Nutrition**  
4 units  
**Description:** Covers fundamentals of feeding livestock, including feed composition, feed nutrients, and values; digestive systems of major livestock species and their utilization of feedstuffs, ration balancing, computer analysis of feed, and least cost formulation.  
**Hours:** 54 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**ANSC B7 Animal Diseases**  
3 units  
**Description:** Covers major and common diseases of farm livestock, focusing on the cause, symptoms, treatment and prevention of the specific diseases. Students will learn fundamentals of the immune system and use of vaccines and pharmaceuticals. Safe use, particularly in food animals is stressed.  
**Hours:** 54 lecture  
**Transferable:** CSU and private colleges.

**ANSC B10 Horse Production**  
3 units  
**Description:** Survey of the equine industry, encompassing the evolution and role of the equine species throughout history, breed selection and development, nutrition, disease, preventative health, reproductive management, basic horsemanship, and stabilizing alternatives. Laboratory required.  
**C-ID:** AG-AS 116L  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**ANSC B11 Livestock Selection and Evaluation**  
3 units  
**Description:** Detailed analysis of visual, analytical, and physical methods of appraising beef, sheep, swine and horses concerning functional and economic value; written and oral summaries of evaluation; specific reference made to performance data and factors determining carcass value. Lab required.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU, UC, and private colleges.

**ANSC B22 Animals and Society**  
3 units  
**Description:** Deals with the human/animal bound and the positive/controversial aspects of animals in human lives. Includes topics covering the scientific and psychological implications of animals in our society. Students will encounter and analyze social and ethical issues that affect society and veterinary medicine.  
**Hours:** 54 lecture  
**Transferable:** CSU, UC, and private colleges.

**ANSC B48WE Occupational Work Experience Education/Internship**  
1-8 units  
**Prerequisites:** Declared major or occupational goal and evaluation of student's qualifications and objectives.  
**Description:** College credit for animal science related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students.
must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 55253.
**Hours:** Non-paid 60 hours for each 1 unit (60 - 480). Paid 75 hours for each 1 unit (75 - 600).
**Transferable:** CSU and private colleges.

**ANSC B83 Introduction to Veterinary Technology**
4 units
**Description:** Introductory course designed to orientate and instruct students in knowledge required for success in advanced veterinary technology courses. Topics include: anatomy and physiology of domestic animals (Integumentary, cardiovascular, respiratory, reproductive, gastrointestinal, and neurological systems), nutrition, pharmacology, basics of chemistry, biology, microbiology, (including cellular anatomy/physiology), genetics and heredity, and career opportunities. Medical terminology, regulations, office management and record keeping skills are also covered, as they pertain to working in a veterinary practice. Field trips may be required. Occupational Education.
**Note:** Formerly ANSC B80 and ANSC B82.
**Prerequisite:** Successful completion of either ANSC B80 or both ANSC B80 and ANSC B82.
**Hours:** 72 lecture
**Transferable:** Not transferable. Degree applicable.

**ANSC B84 Small Animal Diseases**
1.5 units
**Prerequisites:** Successful completion of ANSC B83 with a grade of ‘C’ or better.
**Description:** Presents knowledge of diseases in small domestic animals, including prevention and treatment programs. Includes instruction in physical diagnosis and discussion of tests and procedures needed for proper diagnosis that the technician uses to assist veterinarian. Also covers animal husbandry procedures relating to disease prevention. Disease entities to be taught include: mechanical, genetic, infectious, nutritional, endocrine, and metabolic conditions.
**Hours:** 27 lecture
**Transferable:** Not transferable. Degree Applicable

**ANSC B85 Large Animal Diseases**
1.5 units
**Prerequisite:** Successful completion of either ANSC B83 or both ANSC B80 and ANSC B82 with grades of C or better.
**Description:** Covers diseases in large animals, including diagnosis, prevention, and treatment programs. Includes instruction in physical diagnosis and discussion of tests and procedures needed for proper diagnosis. Instruction in animal nursing and husbandry procedures relating to disease prevention will also be included. Disease entities taught include infectious, nutritional, endocrine, mechanical and metabolic conditions.
**Hours:** 27 lecture
**Transferable:** Not transferable. Degree applicable.

**ANSC B86 Pharmacology for Veterinary Technicians**
1.5 units
**Prerequisite:** Successful completion of either ANSC B83 or both ANSC B80 and ANSC B82 with a grade of C or better.
**Description:** Instruct students with required knowledge of pharmacological and biological agents used in veterinary medicine, including calculations, classifications, action, and methods of administration, dispensing and labeling. FDA, USDA, and DEA guidelines regarding restricted and scheduled drugs, as they relate to small animals and residue avoidance in food animals. Dosages, agents, and administration of pharmaceuticals are covered.
**Hours:** 27 lecture
**Transferable:** Not transferable. Degree applicable.

**ANSC B88 Surgery, Dental, Anesthesiology for Veterinary Technicians**
1.5 units
**Prerequisite:** Successful completion of ANSC B83 with grade of C or better.
**Description:** Instruction in the identification and care of instruments, the importance of asepsis and sterilization techniques, surgical pack preparation, anesthetic instrumentation, induction and monitoring, surgical nursing, assisting and instrumentation, and suturing techniques used in veterinary medicine.
**Hours:** 27 lecture
**Transferable:** Not transferable. Degree applicable.

**ANSC B90 Emergency Medicine, Surgery/Nursing Procedures for Veterinary Technicians**
2 units
**Prerequisite:** Successful completion of either ANSC B83 or both ANSC B80 and ANSC B82 with grade of C or better.
**Description:** Provides the student with knowledge required to recognized and provide emergency and critical care to veterinary patient, including establishing a patent airway, administering oxygen, controlling hemorrhage, performing CPR, and stabilizing patient to prevent and/or treat shock.
**Hours:** 36 lecture
**Transferable:** Not transferable. Degree applicable.

**ANSC B92 Clinical Pathology for Veterinary Technicians**
2 units
**Prerequisite:** Successful completion of either ANSC B83 or both ANSC B80 and ANSC B82 with grade of C or better.
**Description:** Course covers biology, microbiology, parasitological cytology, urinalysis, hematology, serology, and pathology necessary for a career as a Registered Veterinary Technician. The student will be instructed in normal and abnormal test values. Course covers the understanding, reading and application of specific test results, as well as specimen handling and necropsy techniques.
**Hours:** 36 lecture
**Transferable:** Not transferable. Degree applicable.

**ANSC B94 Caged Birds, Lab, and Exotic Animal Medicine**
2 units
**Prerequisite:** Successful completion of either ANSC B83 or both ANSC B80 and ANSC B82 with grade of C or better.
**Description:** Covers anatomy, physiology, disease descriptions, and identification of caged birds, lab, and exotic animals. Instruction in restraint, physical examination, anesthesia, surgery, specimen collection, species identification, and the legal ramifications of owning exotic animals.
**Hours:** 36 lecture
**Transferable:** Not transferable. Degree applicable.

**ANSC B96 Radiology, Ultrasound, and Diagnostic Imaging for Veterinary Technology**
1.5 units
**Prerequisite:** Successful completion of either ANSC B83 or both ANSC B80 and ANSC B82 with grade of C or better.
**Description:** Course is intended to give the student a sound knowledge of the techniques used in physical imaging in veterinary medicine. Includes history, statutes, and regulations, positioning techniques, developing, and film and screen characteristics.
Instruction includes knowledge for preparing patient for imaging (radiograph and ultrasonography), positioning patient for imaging, safety during imaging, processing images/radiographic film, and maintenance of imaging equipment.

**Hours:** 27 lecture

**Transferable:** Not transferable. Degree applicable.
ANTH - Anthropology Courses

ANTH B1 Physical Anthropology
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: Study of human biology through time. Examines the biological development of the hominin lineage with consideration of cultural developments. Topics include biology and genetics, evolutionary processes and speciation, nonhuman primates, examination of the hominin lineage through fossils and molecular data, technological developments, and human diversity.
Hours: 54 lecture
C-ID: ANTH 110
Transferable: CSU, UC, and private colleges; IGETC 5.B; CSU GE B.2; BC GE B.1

ANTH B2 Introduction to Cultural Anthropology
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: Scientific study of contemporary cultures and their lifeways. Focuses on behavioral patterns, learning, diversity, and culture as an adaptive mechanism. Emphasis is on examining the constituents of cultural systems holistically, and comparatively analyzing world cultures. Examples from cultures worldwide are presented in various formats.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2

ANTH B3 Introduction to Archaeology
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: This course is an introduction to the study of concepts, theories, data and models of anthropological archaeology that contribute to our knowledge of the human past. The course includes a discussion of the nature of scientific inquiry; the history and interdisciplinary nature of archaeological research; dating techniques; methods of survey; excavation; analysis and interpretation; cultural resource management; professional ethics; and selected cultural sequences. This course may contain a lab component.
Hours: 54 lecture
C-ID: ANTH 150
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2

ANTH B5 Native Peoples of North America
3 units
Description: This course is a detailed examination and comparative study of indigenous societies in North America, from the initial peopling of the New World to today. Cultures at contact, in prehistory, and today are explored, with emphasis on pre-contact lifeways, cultural interactions and migrations, and cultural adaptations to environmental situations through time.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2
AODS - Alcohol and Other Drug Studies

AODS B1 Introduction to Alcohol and Other Drug Studies
3 units
**Description:** This course provides an overview of the theoretical models of substance use and abuse. Substance use research, treatment, and policy will be discussed and critiqued. Additional factors such as historical context, life span development, and socio-cultural influences will be explored as they relate to substance use and treatment.

**Hours:** 54 lecture
**Transferable:** Not transferable Degree applicable.

AODS B2 Legal and Ethical Issues in Substance Abuse Counseling
3 units
**Description:** This course provides an overview of the legal and ethical requirements in the field of substance abuse counseling. Emphasis is placed on professional responsibility and patients' rights. Ethical decision making, confidentiality, safety assessment, and documentation will be explored.

**Hours:** 54 lecture
**Transferable:** Not transferable Degree applicable.

AODS B3 Substance Abuse Counseling and Interviewing
3 units
**Description:** This course provides an overview of the legal and ethical requirements in the field of substance abuse counseling. Emphasis is placed on professional responsibility and patients' rights. Ethical decision making, confidentiality, safety assessment, and documentation will be explored.

**Hours:** 54 lecture
**Transferable:** Not transferable Degree applicable.
ARCH - Architecture Courses

ARCH B1 Intro to Architecture and Environmental Design
1.5 units
Description: Familiarization with the professional fields of architecture, landscape architecture, structural engineering construction and city/regional planning. Introduction to schools of architecture programs as they relate to individual aptitudes and the design process. Guest speakers.
Note: Satisfies 0.5 unit counseling requirement for graduation from Bakersfield College.
Hours: 27 lecture
Transferable: CSU and private colleges.

ARCH B6 Materials of Construction
3 units
Description: Use of application of construction processes and materials. Field trips required.
Hours: 36 lecture, 108 lab
Transferable: CSU and private colleges.

ARCH B11 Design and Perspective Drawing
4 units
Description: Basic techniques used in graphic communications for the environmental design fields including orthographic projection, pictorials, perspectives, shades and shadows. Exercises to develop basic skills and speed in the representation of ideas.
Hours: 36 lecture, 108 lab
Transferable: CSU, UC, and private colleges.

ARCH B12 Design, Drawing and Color
4 units
Prerequisite: Successful completion of ARCH B11 or equivalent with a grade of C or better.
Description: Drawing as a communication tool in the environmental design fields with further development of freehand and digital drawing with the addition of color application. Demonstrates the link between graphics, design process and communications. Field trips may be required.
Hours: 36 lecture, 108 lab
Transferable: CSU, UC, and private colleges.

ARCH B16 Digital Tools for Graphics Communication
3 units
Description: An introduction to the use of digital tools in architectural design and visual communication in the areas of 3D modeling, image editing, 2D graphics and page layout.
Hours: 27 lecture, 81 lab
Transferable: CSU and private colleges.

ARCH B21 Architectural Design Fundamentals I
4 units
Prerequisite: Successful completion of ARCH B1 and B11 and B12 or equivalent with a grade of C or better.
Description: Theories, principles, methods and means pertaining to the creation of two-and three-dimensional visual organizations to communicate intended concepts and meanings. Field trips required.
Materials Fee: $15.00
Hours: 36 lecture, 108 lab
Transferable: CSU, UC, and private colleges.

ARCH B22 Architectural Design Fundamentals II
4 units
Prerequisite: Successful completion of ARCH B21 or equivalent with a grade of C or better.
Description: Continuation of the content and issues introduced in ARCH B21 plus the theories, principles, methods and means pertaining to the creation of architectural forms, space and organizations and incorporation of function and light as issues that shape the built environment and support the communication of intended concepts and meanings. Field trips required.
Materials Fee: $15.00
Hours: 36 lecture, 108 lab
Transferable: CSU, UC, and private colleges.

ARCH B30 Residential Building Information Modeling
4 units
Prerequisite: Successful completion of ARCH B6 with a grade of C or better.
Description: Introduction to the application of computers in architecture with the use of Building Information Modeling (BIM), including operating systems, applications and graphic systems as they relate to construction documents and design technology. Residential wood construction methods and processes including construction documents. Not open to students who have successfully completed ARCH B31 and/or ARCH B32.
Materials Fee: $15.00
Hours: 36 lecture, 108 lab
Transferable: CSU and private colleges.

ARCH B33 Architectural Computer Practice
3 units
Prerequisite: Successful completion of ARCH B30 with a grade of C or better.
Description: This course uses computer applications as a communication instrument in the design development and construction document phases of a light commercial project. Theory and application of laws and codes as they affect such buildings are studied. Field trips are required.
Materials Fee: $15.00
Hours: 27 lecture, 81 lab
Transferable: CSU and private colleges.

ARCH B48WE Occupational Work Experience Education/Internship
1-8 units
Prerequisites: Declared major or occupational goal and evaluation of student's qualifications and objectives.
Description: College credit for architecture related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 55253.
Hours: Non-paid 60 hours for each 1 unit (60-480). Paid 75 hours for each 1 unit (75-600).
Transferable: CSU and private colleges.
ARCH B55 Residential Building Codes
3 units
Recommended: BC placement into reading level 06.
Description: Study of the uniform building codes, local codes and related ordinances. Fundamental structural concepts involved in code work, code interpretation and enforcement. Field trips required.
Hours: 54 lecture
Transferable: Not transferable. Degree applicable.

ARCH B56 Commercial Codes
3 units
Recommended: BC placement into reading level 06.
Description: Study of the uniform building, plumbing, mechanical and electrical codes as they relate to Commercial Construction. A companion course to ARCH B55 offering a greater in-depth study of the various codes which make up the Code of Building Regulations. Field trips may be required.
Hours: 54 lecture
Transferable: Not transferable. Not degree applicable.
ART - Art Courses

ART B1 Art Appreciation
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Lecture course which presents a broad introduction to the visual arts from prehistory to the present. The role of art in the creation of world culture, as well as art processes and visual vocabulary are examined. Intended for non-Art majors.
Hours: 54 lecture
C-ID: ARTH 100
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

ART B2 Drawing I
3 units
Recommended: BC placement into reading level 06.
Description: Course introduces the fundamentals of representational drawing. The visual vocabulary and design principles and elements are covered, as related to drawing. Media may include pencil, ink, charcoal, conte, pastels, and watercolor.
Hours: 27 lecture, 81 lab
C-ID: ARTS 110
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

ART B3 Drawing II
3 units
Prerequisite: Successful completion of ART B2 or equivalent with a grade of C or better.
Description: A continuation of ART B2. Course builds on the conceptual and technical aspects of drawing, as well as an increased exploration of media and techniques. An increased use of color is required.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B4 Two-Dimensional Design
3 units
Recommended: BC placement into reading level 06.
Description: Course examines the principles and elements of two-dimensional design. Content includes: elements and principles of design, color theory, art terminology and analysis of form and content.
Note: Not open to students who have successfully completed ART B3A, ART B3B, or ART B3AB.
C-ID: ARTS 100
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

ART B5 Three Dimensional Design
3 units
Recommended: BC placement into reading level 06.
Description: An introduction to form, structure, the elements of design and three dimensional design theory. This course includes an exploration of various materials and techniques, with an emphasis on the creative process.
Hours: 27 lecture, 81 lab
C-ID: ARTS 101
Transferable: CSU, UC, and private colleges; BC GE C.1

ART B6 Acrylic Painting I
3 units
Prerequisites: Successful completion of ART B2 or equivalent with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: Introduction to principles, elements, and practices of painting. Focus on exploration of painting materials, perceptual skills and color theory, paint mixing and technique, as well as creative responses to materials and subject matter.
Note: Not open to students who have successfully completed ART B4A, B4B or ART B4AB.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B7 Acrylic Painting II
3 units
Prerequisites: Successful completion of ART B6 or equivalent with a grade of C or better.
Description: A continuation of ART B6. Students review and refine techniques using acrylic paint as an expressive medium. Emphasis is placed upon personal explorations.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B8 Figure Drawing I
3 units
Prerequisites: Successful completion of ART B2 or equivalent with a grade of C or better.
Description: An introductory course in drawing from live models. Emphasis is placed upon an understanding of the structure, anatomy, and expression of the human figure. Media may include pencil, ink, charcoal, conte, pastels, and watercolor. Not open to students who have successfully completed ART B2E, ART B2F, or ART B2EF.
C-ID: ARTS 200
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B9 Figure Drawing II
3 units
Prerequisites: Successful completion of ART B8 or equivalent with a grade of C or better.
Description: A continuation of ART B8. Emphasis is placed upon a more personal expression of the human figure. Media may include pencil, ink, charcoal, conte, pastels, and watercolor.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B10 Ceramics I
3 units
Recommended: BC placement into reading level 06.
Description: An introductory level ceramics course in which students design and construct hand-built and wheel-thrown ceramic objects. Students learn form and surface enrichment, use glazes, and load kilns. Serves students interested in developing fundamental ceramic skills.
Materials Fee: $15.00 for finished ceramic artwork, glazes, and some clay.
ART B11 Ceramics II
3 units
Prerequisites: ART B10 or equivalent with a grade of ‘C’ or better.
Description: A continuation of ART B10. Expanding the skills in forming techniques, wheel throwing and slab construction; various glaze applications. Exploration of building and surface treatments including slip casting, site specific and installation work. Raku and other firing techniques are covered.
Materials Fee: $15.00 covers cost of glazes and some clay, and students will receive finished ceramic artwork.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B12 Ceramics III
3 units
Prerequisite: Successful completion of ART B11 or equivalent with a grade of C or better.
Description: Designed for students interested in developing a personal style in their work. Advanced wheel-throwing and hand building techniques, glaze application and formulation. Includes theory and practical application of kiln operation, electric and gas fired, oxidation and reduction.
Materials Fee: $15.00 covers cost of glazes and some clay, and students will receive finished ceramic artwork.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B13 Sculpture I
3 units
Prerequisite: Successful completion of ART B5 with a grade of C or better.
Description: Introduces sculptural concepts and investigates their translation into three-dimensional forms. Problems involving various technical means are explored. Students investigate the role of materials and techniques in the creative process.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges; CSU GE C.1

ART B14 Sculpture II
3 units
Prerequisite: Successful completion of ART B13 with a grade of C or better.
Description: Advanced study in sculptural concepts and three-dimensional forms. Explores the expressive meaning of form and the expressive potential of materials.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B16 Digital Photography
3 units
Recommended: BC placement into reading level 06.
Description: Introduction to the possibilities of digital photography. Topics covered include digital cameras, scanning, printing, color management and file management. Students create original images for use in class, and explore photo manipulation with raster software. A suitable digital camera is required.
Materials Fee: $15.00 covers cost of ink and paper for printing student projects. Students receive a portfolio of prints.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges; BC GE C.1

ART B17 Black and White Photography
3 units
Recommended: BC placement into reading level 06.
Description: In this black and white photography course, students study the basic principles of cameras, optics, light, film development, exposure, exposure meters, and enlarging. Photographic quality, exploration of the photographer’s environment, and personal expression is emphasized. A suitable 35mm film camera is required.
Materials Fee: $25.00
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges; BC GE C.1

ART B20 Digital Art - Vector
3 units
Recommended: BC placement into reading level 06.
Description: A foundational course introducing vector art and the use of digital technology as a design tool. Through a series of projects, students create original artwork and explore elements and principles of design.
Materials Fee: $15.00 for toner and paper. Students will receive a portfolio of printed work.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges; BC GE C.1

ART B24 Digital Art - Raster
3 units
Recommended: BC placement into reading level 06.
Description: Introduces raster art as used in commercial digital media. Through a series of projects, students create original artwork and refine their design skills. Image creation, scanning, editing, composition, re-touching, and problem solving are explored. Elements, principles and language of design are reviewed.
Materials Fee: $15.00 for toner and paper. Students will receive a portfolio of printed work.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges; BC GE C.1

ART B25 Typography
3 units
Prerequisites: Successful completion of ART B20 and ART B24 or equivalent with a grade of C or better.
Description: This course focuses on effective typographic usage in visual media. Students explore the evolution of type from ancient to contemporary, and create original typographic design solutions. Projects feature investigation of structure, format, legibility, and expression.
Material Fee: $15.00 for toner and paper. Students receive a portfolio of printed work.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B26 Multimedia
3 units
Description: This course introduces students to multiple digital mediums used for creating multimedia productions. This project based course teaches students to work with production gear such as tripods, cameras, and storage media. Students will learn best practices for digital workflows and the management of a variety of digital assets.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges.
ART B29 Special Studies in Art
1-3 units
Prerequisites: Limitation on Enrollment - student must have successfully completed a sequence of courses within an art discipline or exhibit skills equivalent to student learning outcomes for a specific discipline in art as determined by the portfolio review by the professor.
Description: Independent study course intended for students pursuing deep exploration into a specific body of work. Content and unit credit are determined by instructor and student in consultation. Enrollment by permission of instructor only.
Hours: 54 lab hours for each unit (54-162)
Transferable: CSU and private colleges.

ART B35 Survey of Western Art I
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: This course is a historical survey of Western architecture and visual arts beginning in the Paleolithic age (30,000 BC) and continuing through Proto-Renaissance Europe (1400 CE).
C-ID: ARTH 110
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

ART B36 Survey of Western Art II
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: This lecture course is a historical survey of Western architecture and visual arts from 1400 CE to the present day.
C-ID: ARTH 120
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

ART B37 Survey of Art - Latin America
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Historical survey of the arts in Latin America. Focuses on the Spanish-speaking regions of the Americas, as well as Cuba and the Dominican Republic. Students examine artistic contributions by Latin American artists from pre-history through colonial and modern art forms.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

ART B38 Survey of Art-Asian Art
3 units
Recommended: BC placement into writing level 06 or successful completion of ENGL B50 or ENGL B53 or EMLS B50 or equivalent with a grade of C or better.
Description: This course is a historical survey of artistic heritages of Asia from the Neolithic period to the present. Art from Asian regions will be examined from a historical, political, and socio-cultural background. Students will identify styles, techniques, principles, and formal elements; and will critique and analyze artwork in the appropriate historic context.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.

ART B40 Digital Illustration
3 units
Prerequisites: Successful completion of ART B25 with a grade of C or better.
Description: Course introduces illustration for editorial, technical, scientific, and informational publication. Emphasis is placed on problem solving and the importance of concept development. Typography is considered as an integral element to illustration projects.
Materials Fee: $15.00 for toner and paper. Students receive a portfolio of printed work.
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B41 Advertising Design
3 units
Prerequisites: Successful completion of ART B25 with a grade of C or better.
Description: Course focuses on the design of advertising. Through concept development, type and images, students create original advertising solutions. A broad study of advertising media will be explored.
Materials Fee: $15.00 for toner and paper. Students receive a portfolio of printed work.
Hours: 27 lecture, 81 lab
Transferable: CSU and private colleges.

ART B42 Graphic Design
3 units
Prerequisites: Successful completion of ART B40 and ART B41 or equivalent with a grade of C or better.
Description: Course focuses on the design of visual communication. Through concept development, type, and images, students create original design solutions. Corporate identity and branding development is introduced.
Materials Fee: $15.00
Hours: 27 lecture, 81 lab
Transferable: CSU and private colleges.

ART B43 Video Production
3 units
Prerequisites: Successful completion of ART B26 with a grade of C or better.
Description: This course will introduce students to the fundamental elements and concepts of non-linear video editing. Through this project based learning course students will learn the foundations of editing. Material covered will include shooting digital video, asset acquisition, editing, rendering, and uploading media to online platforms such as YouTube and Vimeo.
Hours: 27 lecture, 81 lab
Transferable: CSU and private colleges.

ART B44 Motion Graphics
3 units
Prerequisites: Successful completion of ART B26 with a grade of C or better.
Description: This course will cover all of the foundational elements of motion graphics. Through a series of short form productions, students will learn how to set up projects, how to prepare assets for motion, how to key frame those assets, and how to render a final composition. Students will learn about the connection between motion and music with a culminating short film exploring this connection.
ART B45 Animation
3 units
Prerequisites: Successful completion of ART B43 and ART B44 with a grade of C or better.
Description: In this project-based course, students will take a hands-on approach to learning the art of animation. Through pre-production, production, and post production, students will create a series of animated films.
Hours: 27 lecture, 81 lab
Transferable: CSU and private colleges.

ART B46 Advanced Photography I
3 units
Prerequisites: Successful completion of ART B16 or ART B17 or equivalent with a grade of C or better.
Description: Course focus is on review and refinement of photography skills, with an emphasis on personal expression. A suitable SLR camera is required.
Materials Fee: $15.00
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B47 Advanced Photography II
3 units
Prerequisites: Successful completion of ART B46 or equivalent with a grade of C or better.
Description: Course is a study of photography in an area of specialized and personal interest. Advanced work is done in camera technique, printing practices and studio lighting. Students create technically proficient work of an expressive and original nature. A suitable SLR camera is required.
Materials Fee: $15.00
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges

ART B48 Advanced Photography III - Independent Study
1-3 units
Prerequisites: Successful completion of ART B47 or equivalent with a grade of C or better.
Description: Strengthening of graphic visualization and technical skills through challenging individual assignments, in preparation for professional experience. A suitable manually adjustable camera is required. Content and unit credit are determined by the instructor and student in consultation. Must be taken for three units to count for the photography certificate. Enrollment by permission of instructor only.
Materials Fee: $15.00
Hours: 54 lab hours for each unit (54-162)
Transferable: CSU and private colleges.
ASL - American Sign Language Courses

ASL B1 American Sign Language 1
4 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: Study of the fundamentals of American Sign Language. Introduces basic vocabulary and grammatical structure of ASL, conversational strategies, numbers, fingerspelling, and non-verbal aspects of American Sign Language. Provides an overview of Deaf history and Deaf cultural values. Outside assignments require practice and assessment with video programs. Field trips required.
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; IGETC 6.A; CSU GE C.2; BC GE C.2

ASL B2 American Sign Language 2
4 units
Prerequisites: Successful completion of ASL B1 or equivalent with a grade of C or better.
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: Continued study of the fundamentals of American Sign Language. Emphasizes conversational strategies such as keeping others informed, minimizing interruptions, and turn-taking, as well as grammatical forms such as verb agreement, negation, and role-shifting. Further instruction in specialized fingerspelling and numerical proficiency. Exploration of Deaf culture, emphasizing cultural norms and notable Deaf persons. Outside assignments require practice and assessment with video programs. Field trips required.
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.B; IGETC 6.A; CSU GE C.2; BC GE C.2

ASL B3 American Sign Language 3
4 units
Prerequisites: Successful completion of ASL B2 or equivalent with a grade of C or better.
Recommended: BC placement reading level 06 and writing level 06.
Description: Study of advanced aspects of American Sign Language. Emphasizes advanced narrative fluency. Focus on temporal aspects, when clauses, classifiers, and mouth morphemes. Develops advanced narrative skills such as inflecting verbs, durative aspect, and transitions. Discussion of various aspects of American Deaf culture with a focus on literary tradition. Outside assignments require practice and assessment with video programs. Field trips required.
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.B; IGETC 6.A; CSU GE C.2; BC GE C.2

ASL B4 American Sign Language 4
4 units
Prerequisites: Successful completion of ASL B3 or equivalent with a grade of C or better.
Recommended: BC placement reading level 06 and writing level 06.
Description: Continued study of advanced aspects of American Sign Language. Emphasizes receptive and expressive narrative fluency and Deaf rhetorical approaches. Focuses on specific linguistic aspects of ASL such as classifier combinations, role-shifting, conditionals, and expansion. Advanced practice with receptive and expressive fingerspelling. Also includes exploration of issues pertinent to Deaf culture. Outside assignments require practice and assessment with video programs. Field trips required.
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; IGETC 6.A; BC GE C.2

ASL B6 American Deaf Culture
3 units
Prerequisites: Successful completion of ASL B3 or equivalent with a grade of C or better.
Recommended: BC placement reading level 06 and writing level 06.
Description: Introduction to the practical and philosophical components of American Deaf culture, such as types and causes of deafness and the Deaf community as defined according to language, values, culture, and attitudes. Included is a study of Deaf advocacy, services, education, and legal rights of Deaf people. Field trips required.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges

ASL B7 American Sign Language Literature
3 units
Prerequisites: Successful completion of ASL B3 or equivalent with a grade of C or better.
Recommended: BC placement reading level 06 and writing level 06.
Description: Exploration, interpretation, and analysis of storytelling, folklore, poetry, and plays of the American Deaf community. Study and performance of ASL poetry, hand-shape and ABC stories. Study of Deaf folklore and other forms of “oral” storytelling traditions. Criticism and analysis of Deaf plays in written English.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges, BC GE C.2

ASL B62 Fingerspelling, Numbers & Classifiers
3 units
Prerequisites: Successful completion of ASL B2 or equivalent with a grade of C or better.
Description: This course will focus on fingerspelling, numbers and Classifiers. We will be working towards comprehension and knowledge of the process of fingerspelling and ability to produce fingerspelling appropriately. Students will also work on expanding their use of ASL by incorporating Classifiers in their interpreting.
Hours: 54 lecture
Transferable: Not transferable. Not degree applicable.

ASL B63 Ethics and Decision Making
3 units
Prerequisites: Successful completion of ASL B4 with a grade of C or better.
Description: This course will introduce the professional code of conduct used by various professional interpreting organizations. Student will explore individual ethics and subjective belief systems along with techniques used to remain unbiased in professional situations/settings. Students will apply their training to real life scenarios such as medical, educational, mental health, and other settings.
Hours: 54 lecture
Transferable: Not transferable. Not degree applicable.
ASL B64 Introduction to Translation
3 units
Prerequisites: Successful completion of ASL B4 with a grade of C or better.
Description: Focus primarily on building extensive specialized vocabularies essential for gaining sign language fluency and conversational competence for professionals working with Deaf and Hard of hearing individuals.
Hours: 54 lecture
Transferable: Not transferable. Not degree applicable.

ASL B66 Introduction to the Interpreting Profession
3 units
Prerequisites: Successful completion of ASL B4 with a grade of C or better.
Description: This course will introduce students to the profession of sign language interpreting. Topic will include, history of sign language interpreting, history of professional organizations, evolution of interpreting models, professional practices, hearing versus deaf culture, job market prospects, and the process of interpreting.
Hours: 54 lecture
Transferable: Not transferable. Not degree applicable.

ASL B68 Interpreting I
4 units
Prerequisites: Successful completion of ASL B64 with a grade of C or better.
Description: This course will provide students with the cognitive and practical skills necessary for interpreting between American Sign Language and English. This will include discourse analysis of the source and target language. Students will develop the steps necessary to effectively produce an equivalent target language message through translation, consecutive interpreting, and peer collaboration. This course will help students develop a stronger foundation in features of ASL.
Hours: 72 lecture
Transferable: Not transferable. Not degree applicable.

ASL B70 Business Practices
3 units
Prerequisite: Successful completion of ASL B4 with a grade of C or better.
Co-requisite: ASL B71 and ASL B73.
Limitation on enrollment: Admission to the program requires a video recorded skills demonstration and an essay expressing reason for interest in program
Description: Business Practices will examine the various aspects of the business of sign language interpreting. Topics will include freelance work, employment opportunities, pro bono interpreting, billing, invoices, resumes, taxes and records, insurance, and interpreting specializations.
Hours: 54 lecture
Transferable: Not transferable. Not degree applicable.

ASL B71 Specialized Settings
3 units
Prerequisite: Successful completion of ASL B4 with a grade of C or better.
Co-requisite: ASL B70 and ASL B73.
Limitation on enrollment: Admission to the program requires a video recorded skills demonstration and an essay expressing reason for interest in program
Description: Specialized Settings will explore the various and varied settings that freelance and academic sign language will encounter. Topics include interpreting in settings such as mental health, theatrical, legal, medical, religious, platform, televised, deaf-blind and video relay services, among others. In addition, elementary, secondary, and post-secondary academic interpreting will be examined in depth.
Hours: 54 lecture
Transferable: Not transferable. Not degree applicable.

ASL B72 Structure of American Sign Language
3 units
Prerequisites: Successful completion of ASL B4 with a grade of C or better.
Description: Structure of ASL explores various linguistic aspects of American Sign Language, including basic concepts, phonology, morphology, syntax, semantics, and pragmatics.
Hours: 54 lecture
Transferable: Not transferable. Not degree applicable.

ASL B73 Interpreting II
4 units
Prerequisite: Successful completion of ASL B4 with a grade of C or better.
Co-requisite: ASL B70 and ASL B71.
Limitation on enrollment: Admission to the program requires a video recorded skills demonstration and an essay expressing reason for interest in program
Description: Consecutive interpreting is a foundational bridge to the simultaneous interpreting process. The course will focus on developing skills in areas that include fidelity, comprehension, memory, message reformulation, self-monitoring, and correction.
Hours: 72 lecture
Transferable: Not transferable. Not degree applicable.

ASL B74 Interpreting III
4 units
Prerequisite: Successful completion of ASL B4 with a grade of C or better.
Co-requisite: ASL B75 and ASL B77.
Limitation on enrollment: Admission to the program requires a video recorded skills demonstration and an essay expressing reason for interest in program
Description: Interpreting III focuses on developing the skill of listening to a source-language message while concurrently reorganizing information into appropriate linguistic structures for the target language. Areas of skill development will include sources of error, source-language comprehension, message transfer and reformulation, and self-monitoring and correction.
Hours: 72 lecture
Transferable: Not transferable. Not degree applicable.

ASL B75 Interpreting IV
4 units
Prerequisite: Successful completion of ASL B4 with a grade of C or better.
Co-requisite: ASL B74 and ASL B77.
Limitation on enrollment: Admission to the program requires a video recorded skills demonstration and an essay expressing reason for interest in program
Description: Interpreting IV focuses on the application of consecutive and simultaneous interpreting skills in various mock situations, based on real-world settings. This course will emphasize...
educational and team interpreting. Students will implement peer feedback strategies, including Demand-Control Schema

**Hours:** 72 lecture

**Transferable:** Not transferable. Not degree applicable.

---

**ASL B77 Interpreting Practicum**

*4 units*

**Prerequisite:** Successful completion of ASL B4 with a grade of C or better.

**Co-requisite:** ASL B74 and ASL B75.

**Limitation on enrollment:** Admission to the program requires a video recorded skills demonstration and an essay expressing reason for interest in program.

**Description:** This course is the capstone course for the BC ASL/English Interpreting Program and will focus on the integration and demonstration of all aspects of the material presented in the program. In addition, under supervision, students will be placed in 30 hours of authentic and actual interpreting settings. Opportunities may include course labs, tutoring sessions, team interpreting in classrooms and the community, interpreting for non-profit entities, and mock interpreting in classrooms. In every case, interpreters will only be placed in low-stakes, low-risk settings without interference to certified interpreters or for entities that have a legal obligation to hire qualified interpreters.

**Hours:** 72 lecture

**Transferable:** Not transferable. Not degree applicable.
ASTR - Astronomy Courses

ASTR B1 Physics of the Cosmos
3 units
Prerequisites: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Recommended: BC placement into writing level 06 and math level 02.
Description: Introductory course emphasizing the application of physics to understand the physical processes on the Earth and beyond the Earth and how we know those processes are occurring while still being bound to the Earth (or our solar system). The process and philosophy of science are examined from the astronomical perspective. Among topics included: the motions, properties, and evolution of the Sun, planets (including exoplanets), stars, galaxies, and the universe and how we know about them; the analysis of electromagnetic radiation; atomic structure; astronomical instruments; brief history of astronomy; Newton's law of gravity; general relativity.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 5.A; CSU GE B.1; BC GE B.1

ASTR B2 Life in the Universe
3 units
Prerequisites: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Recommended: BC placement into writing level 06 or successful completion of ENGL B50, ENGL B53 or EMLS B50 or equivalent with a grade of C or better and BC placement into math level 02 or successful completion of ACDV B72 or equivalent with a grade of C or better.
Description: Introductory course on the scientific search for life in the universe. The process and philosophy of science are examined from the astronomical and biological perspectives. Among topics included: the definition and nature of life, the formation and development of the Earth and life on the Earth, other places in our solar system that might have habitats for life, habitable zones around other stars, how we detect extrasolar planets, how we could detect biological activity on extrasolar planets, the search for extraterrestrial intelligence, interstellar travel, and implications of making contact.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 5.A; CSU GE B.1; BC GE B.1

ASTR B3 Solar System
3 units
Prerequisites: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: Introductory course on the Sun, Earth, other planets, moons, rings, comets, asteroids, and extra-solar planets, formation and development of the Earth and solar system, and possibility of life on other worlds.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 5.A; CSU GE B.1; BC GE B.1
AUTO - Automotive Technology Courses

AUTO B3 Fundamentals of Automotive Management and Services
4 units
Prerequisite: Successful completion of AUTO B10 or equivalent with a grade of C or better or may be taken concurrently.
Description: The course covers critical knowledge and skills necessary to prepare traditional and non-traditional students for employment in four positions within the service management operations of automotive dealerships/businesses and shops. The positions are: 1) Service Writer/Adviser, 2) Parts-Sales and Service (Parts Counter Person), 3) Warranty Specialist and 4) DMV Specialist.
Hours: 54 lecture, 54 lab
Transferable: CSU and private colleges.

AUTO B10 Automotive Safety
1 unit
Description: This course offers the students the knowledge and awareness they need to stay safe as they work in the automotive industry. Upon successful completion of this course student will receive a certificate of completion certifying that they have been safety trained in compliance with federal mandates. This course is required for all automotive students. Not open to students who have previously received credit for AUTO B1AB, AUTO B15, AUTO B2A, AUTO B2B, AUTO B75A, AUTO B14, AUTO B64, AUTO B112, or AUTO B106.
Hours: 18 lecture
Transferable: Not transferable. Not degree applicable.

AUTO B11 Introduction to Automotive Technology
4 units
Prerequisites: Successful completion of AUTO B10 with a grade of C or better or may be taken concurrently.
Recommended: BC placement into reading level 06.
Description: This is an introductory automotive course that provides students with theory, knowledge, and skills necessary to understand the basic engine, drive-train, and other support systems. The lab component of the class will focus on general inspection procedures, maintenance and light repair work that is common in automotive, agricultural and industrial applications. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. Prepares students for Automotive Maintenance and Light Repair (G1) ASE exam. This course is a prerequisite to most of the automotive courses. Not open to students who have previously received credit for AUTO B1AB.
Hours: 54 lecture, 54 lab
Transferable: Not transferable. Degree applicable.

AUTO B20 Engine Theory, Design and Diagnosis
4 units
Prerequisites: Successful completion of AUTO B11 with a grade of C or better.
Description: This course offers the student the advanced skills required for accurate diagnosis and repair of internal combustion engines. The theory and construction of gasoline and diesel engines found in automotive, agricultural and industrial applications will be covered. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. Students are encouraged, but not required, to supply their own project. Preparation for the ASE A1 and A8 exams will be covered. Not open to students who have previously received credit for AUTO B2A.
Hours: 54 lecture, 54 lab
Transferable: Not transferable. Degree applicable.

AUTO B21 Upper Engine Systems and Machining
4 units
Prerequisites: Successful completion of AUTO B20 with a grade of C or better.
Description: This course offers the student the advanced skills required for accurate repair and machining of the cylinder head and valvetrain systems in gasoline and diesel engines found in automotive, agricultural and industrial applications. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. Students are encouraged, but not required, to supply their own project. Preparation for the ASE A1 and A8 exams will be covered. Not open to students who have previously received credit for AUTO B2A.
Hours: 54 lecture, 54 lab
Transferable: Not transferable. Degree applicable.

AUTO B22 Lower Engine Systems and Machining
5 units
Prerequisites: Successful completion of AUTO B21 with a grade of C or better.
Description: This course offers the student the advanced skills required for accurate repair and machining of the cylinder block, crankshaft and connecting rods in gasoline and diesel engines found in automotive, agricultural and industrial applications. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. Students are encouraged, but not required, to supply their own project. Preparation for the ASE A1 and A8 exams will be covered. Not open to students who have previously received credit for AUTO B2B.
Hours: 72 lecture, 54 lab
Transferable: Not transferable. Degree applicable.

AUTO B23 Engine Assembly and Performance
4 units
Prerequisites: Successful completion of AUTO B22 with a grade of C or better.
Description: This class offers the student the application of engine overhaul theory and repair procedures, including reassembly, initial startup and tuning of gasoline and diesel engines found in automotive, agricultural and industrial applications. Advanced engine theory, design, practical and theoretical high performance modifications are all part of this course. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. Students are encouraged, but not required, to supply their own project. Preparation for the ASE A1 and A8 exams will be covered. Not open to students who have previously received credit for AUTO B2B.
Hours: 54 lecture, 54 lab
Transferable: Not transferable. Degree applicable.

AUTO B30 Electrical and Electronic Systems
4 units
Prerequisites: Successful completion of AUTO B11 with a grade of C or better.
Description: This is an introductory electrical course that provides students with theory, knowledge, and skills necessary to understand electrical flow and electronic concepts. Instruction is
given and lab experience provided which will enable students to successfully perform diagnostics and repair on basic electrical and electronic circuits found in automotive, agricultural and industrial applications. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. Preparation for the ASE A6 and California State Lamp Adjuster examination will be covered. Not open to students who have previously received credit for AUTO B14.

**Hours:** 54 lecture, 54 lab

**Transferable:** Not transferable. Degree applicable.

### AUTO B33 Engine Performance

4 units

**Prerequisites:** Successful completion of AUTO B20 with a grade of C or better.

**Description:** This course offers the student the skills required for accurate diagnosis and repair of fuel, emission, and engine management systems related to engine performance. The theory and construction of engine performance systems found in automotive, agricultural and industrial applications will be covered. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. The course prepares students for the A-8 engine performance ASE exam. Not open to students who have previously received credit for AUTO B15.

**Hours:** 54 lecture, 54 lab

**Transferable:** Not transferable. Degree applicable.

### AUTO B34 Advanced Engine Performance

5 units

**Prerequisites:** Successful completion of AUTO B33 with a grade of C or better.

**Description:** This course offers the student the advanced skills required for accurate diagnosis and repair of fuel, emission, and engine management systems related to engine performance. The theory and construction of advanced engine performance systems found in automotive, agricultural and industrial applications will be covered. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. The course prepares students for the A-8 and L1 ASE exams. Not open to students who have previously received credit for AUTO B15.

**Hours:** 72 lecture, 54 lab

**Transferable:** Not transferable. Degree applicable.

### AUTO B36 Light Duty Diesel Performance

4 units

**Prerequisites:** Successful completion of AUTO B33 with a grade of C or better.

**Description:** This course offers the student the advanced skills required for accurate diagnosis and repair of diesel engines. The theory and construction of diesel engine systems found in automotive, agricultural and industrial applications will be covered. Students will also study various manufacturers’ engine platforms and examine how diesel power and performance is achieved. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. The course prepares students for the A9 and L2 ASE exams.

**Hours:** 54 lecture, 54 lab

**Transferable:** Not transferable. Degree applicable.

### AUTO B39 Level 1 and Level 2 Smog Inspector Training

4 units

**Prerequisites:** Successful completion of AUTO B10 with a grade of C or better.

**Description:** This is a Bureau of Automotive Repair certified course which includes Level 1 and Level 2 certificate training. The Level 1 (L1) Engine and Emission Control training is intended to provide students with fundamental knowledge of engine and emission control theory, design, and operation. The Level 2 (L2) Smog Check Training is intended to provide students with the knowledge, skills, and abilities needed to perform Smog Check inspections. Students who successfully pass both Level 1 and Level 2 training courses will have met the eligibility requirements to take the Smog Check Inspector State License examination.

**Hours:** 54 lecture, 54 lab

**Transferable:** Not transferable. Degree applicable.

### AUTO B40 Suspension, Steering and Wheel Alignment

4 units

**Prerequisites:** Successful completion of AUTO B11 or AUTO B30 with a grade of ‘C’ or better.

**Description:** This course provides the students with theory, knowledge, and skills necessary to accurately diagnose and repair suspension and steering systems. Instruction is given and lab experience provided for removal, disassembly, inspection, re-assembly, installation and wheel alignment of suspension and steering systems found in automotive, agricultural and industrial applications. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. The course prepares students for ASE A-4 Suspension and Steering Systems Certification exam. Not open to students who have previously received credit for AUTO B106.

**Hours:** 54 lecture, 54 lab

**Transferable:** Not transferable. Degree applicable.

### AUTO B43 Brake Systems

4 units

**Prerequisites:** Successful completion of AUTO B11 or AUTO B30 with a grade of C or better.

**Description:** This course provides the students with theory, knowledge, and skills necessary to accurately diagnose and repair brake systems on passenger cars, light trucks, and heavy duty applications. Instruction is given and lab experience provided for removal, disassembly, inspection, re-assembly, precision measurement, machining, and installation of braking systems found in automotive, agricultural and industrial applications. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles may be used. The course prepares students for the A-5 Brake ASE and California state Brake Adjuster Certification examination. Not open to students who have
previously received credit for AUTO B106.
**Hours:** 54 lecture, 54 lab
**Transferable:** Not transferable. Degree applicable.

**AUTO B46 Automatic Transmissions**

5 units

**Prerequisites:** Successful completion of AUTO B11 or AUTO B30 with a grade of C or better.

**Description:** This is an advanced level course that provides the students with theory, knowledge, and skills necessary to accurately diagnose and repair automatic transmissions and transaxles. Instruction is given and lab experience provided for removal, disassembly, inspection, re-assembly and installation of transmissions and transaxles found in automotive, agricultural and industrial applications. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. Prepares students for ASE A-2 Automatic Transmission and Transaxle Certification examination. Not open to students who have previously received credit for AUTO B112.

**Hours:** 72 lecture, 54 lab
**Transferable:** Not transferable. Degree applicable.

**AUTO B48 Manual Transmissions and Drivetrain**

4 units

**Prerequisites:** AUTO B11 or AUTO B46 with a grade of ‘C’ or better.

**Description:** This is an advanced level course that provides the students with theory, knowledge, and skills necessary to accurately diagnose and repair manual transmissions and drivetrains. Instruction is given and lab experience provided for removal, disassembly, inspection, re-assembly and installation of manual transmissions and drivetrains found in automotive, agricultural and industrial applications. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. Prepares students for ASE A-3 Manual Drive Train and Axles Certification examination.

**Hours:** 54 lecture, 54 lab
**Transferable:** Not transferable. Degree applicable.

**AUTO B48WE Occupational Work Experience Education/Internship**

1-8 units

**Prerequisites:** Declared major or occupational goal and evaluation of student’s qualifications and objectives.

**Description:** College credit for automotive technology related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 55253.

**Hours:** Non-paid 60 hours for each 1 unit (60-480). Paid 75 hours for each 1 unit (75-600).
**Transferable:** Not transferable. Degree applicable.

**AUTO B49 Automotive Air Conditioning**

4 units

**Prerequisites:** Successful completion of AUTO B10 with a grade of C or better.

**Description:** This course offers the student the skills required for accurate service, diagnosis and repair of heating and air conditioning systems. The theory and construction of heating and air conditioning systems found in automotive, agricultural and industrial applications will be covered. Demonstrated lecture, simulated problem diagnosis and practical application on “live” vehicles will be used. Preparation for the ASE A7 and T7 exams will be covered.

**Hours:** 54 lecture, 54 lab
**Transferable:** Not transferable. Degree applicable.
BIOL - Biology Courses

BIOL B3A General Biology I
5 units
Prerequisites: BC placement into reading level 06 and math level 04 or successful completion of ACDV B50 or ACDV B61 or equivalent and MATH B70 or equivalent with a grade of C or better.
Description: This is intended for biology majors. It is considered a survey course, as it covers basic biology and the diversity of unicellular and multicellular organisms. This course also emphasizes general biological principles, classification, structure, function and evolutionary adaptations of organisms (including plants, fungi, animals, and unicellular organisms) to their environments.
Hours: 54 lecture, 108 lab
C-ID: BIOL B13SS (When BIOL B3A and B3B are both taken)
Transferable: CSU, UC, and private colleges; IGETC 5.B; IGETC 5.C; CSU GE B.2; CSU GE B.3; BC GE B.1

BIOL B3B General Biology II
5 units
Prerequisites: Successful completion of CHEM B1A or equivalent with a grade of C or better.
Description: Principles of cell biology, molecular biology, metabolism, biochemistry, molecular genetics, and physiology. Field trips required.
Hours: 54 lecture, 108 lab
C-ID: BIOL 135S (When BIOL B3A and B3B are both taken)
Transferable: CSU, UC, and private colleges; IGETC 5.B; IGETC 5.C; CSU GE B.2; CSU GE B.3; BC GE Area B.1

BIOL B8 Introduction to Environmental Science
3 units
Recommended: BC placement into reading level 06 or successful completion of ENGL B50 or ENGL B53, or EMLS B50 or equivalent with a grade of C or better.
Description: Introduction to environmental issues from a scientific perspective, focusing on physical, chemical, and biological processes within the Earth system, the interaction between humans and these processes, and the role of science in finding sustainable solutions. Topics include ecological principles, biodiversity, climate change, sustainability, renewable and no-renewable energy, water resources, air and water pollution, and solid waste management.
Hours: 54 lecture
Transferable: CSU and private colleges.

BIOL B11 Concepts of Biology
4 units
Prerequisites: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Description: A non-majors introductory course that applies biological concepts to issues of everyday life. Concepts considered include scientific method; ecosystems and energy flow; organization, structure, function, behavior and evolution of organisms; inheritance; disease; ethics. Field trips may be required.
Hours: 54 lecture, 54 lab
Transferable: CSU, UC, and private colleges; IGETC 5.B; IGETC 5.C; CSU GE B.2; CSU GE B.3; BC GE B.1

BIOL B16 General Microbiology
5 units
Prerequisites: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Description: Introduction to the study of microorganisms including: survey of microorganisms, history of microbiology, microbial control through physical and chemical agents, bacterial genetics and biogenetic engineering, bacterial metabolism, bacterial, fungal, protozoal, helminth and viral diseases by transmission. In addition, immunology, public health epidemiology, nosocomial infections, and microbial applications to food, water and sewage treatment are discussed. Field trips required.
Hours: 54 lecture, 108 lab
Transferable: CSU, UC, and private colleges; IGETC 5.B; IGETC 5.C; CSU GE B.2; CSU GE B.3; BC GE B.1

BIOL B18 Essentials of Human Anatomy and Physiology
4 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better and reading level 06 or successful completion of ACDV 50 or ACDV B61 or equivalent with a grade of C or better.
Description: An integrated life science course specifically targeted for students in allied health programs. Topics include microscopic and gross anatomy as well as physiology of all human organ systems; skeletal, muscular, cardiovascular, lymphatic/imune, respiratory, digestive, excretory, nervous, endocrine, reproductive and integumentary. Additional topics will address cell structure and function, human development and human heredity.
Hours: 54 lecture, 54 lab
Transferable: CSU and private colleges; CSU GE B.2; CSU GE B.3; BC GE B.1

BIOL B21 Special Projects in Biology
0.5-2 units
Prerequisites: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better and any college biology course with a grade of C or better.
Description: Individually directed work in biology lab. Students will learn biological preparation, and/or development of teaching materials while assisting in a biology lab.
Hours: 27 lab hours for each .5 unit (27-108)
Transferable: CSU and private colleges.

BIOL B32 Human Anatomy and Physiology I
4 units
Prerequisites: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Description: This is the first part of a two-semester integrated anatomy and physiology sequence that covers the structure, function, integration and homeostasis of the human body at the cellular, tissue, organ, organ system and organism level, including the integumentary, skeletal, muscular, nervous, sensory, cardiovascular, lymphatic, immune, respiratory, urinary, digestive, endocrine, and reproductive systems. This series meets the diverse needs of students seeking careers in such allied health fields as nursing, pharmacy, and physician's assistant. It is strongly recommended that students complete the entire Anatomy and Physiology sequence at the same institution as the material may...
not be covered in the same semester order at different schools. Therefore students taking one semester at one school may not be given credit for the same semester at a different school.

**Note:** Completion of BIOL B32 and B33 is equivalent to C-ID BIOL 115S, where credit is given for both Human Anatomy (C-ID BIOL 110) and Human Physiology (C-ID BIOL 112) by completing a two-semester blended course. BIOL B32 or BIOL B33 alone do not give credit for C-ID BIOL 110 (Anatomy) or C-ID BIOL 112 (Physiology) but only 4 units for a GE lab science.

**Hours:** 54 lecture, 54 lab  
**C-ID:** BIOL 115S (When BIOL B32 and B33 are both taken)  
**Transferable:** CSU, UC, and private colleges; IGETC 5.B; IGETC 5.C; CSU GE B.2; CSU GE B.3; BC GE B.1

**BIOL B33 Human Anatomy and Physiology II**

4 units

**Prerequisites:** Successful completion of BIOL B32 with a grade of C or better.

**Description:** This is the second part of a two-semester integrated anatomy and physiology sequence that covers the structure, function, integration and homeostasis of the human body at the cellular, tissue, organ, organ system and organism level, including the integumentary, skeletal, muscular, nervous, sensory, cardiovascular, lymphatic, immune, respiratory, urinary, digestive, endocrine, and reproductive systems. This series meets the diverse needs of students seeking careers in such allied health fields as nursing, pharmacy, and physician's assistant. It is strongly recommended that students complete the entire Anatomy and Physiology sequence at the same institution as the material may not be covered in the same semester order at different schools. Therefore, students taking one semester at one school may not be given credit for the same semester at a different school.

**Note:** Completion of BIOL B32 + BIOL B33 is equivalent to C-ID BIOL 115S, where credit is given for both Human Anatomy (C-ID BIOL 110) and Human Physiology (C-ID BIOL 112) by completing a 2 semester blended course. BIOL B32 or BIOL B33 alone do not give credit for C-ID BIOL 110 (Anatomy) or C-ID BIOL 112 (Physiology) but only 4 units for a G.E. lab science.

**Hours:** 54 lecture, 54 lab  
**C-ID:** BIOL 115S (When BIOL B32 and B33 are both taken)  
**Transferable:** CSU, UC, and private colleges; IGETC 5.B; IGETC 5.C; CSU GE B.2; CSU GE B.3; BC GE B.1
BSAD - Business Administration Courses

BSAD B1 Financial Accounting
4 units
Prerequisites: BC placement into reading level 06 and math level 04 or successful completion of ACDV B50 or ACDV B61 or equivalent and MATH B70 or equivalent with a grade of C or better.
Description: This is the study of accounting as an information system, examining why it is important and how it is used by investors, creditors, and others to make decisions. The course covers the accounting information system, including recording and reporting of business transactions with a focus on the accounting cycle, the application of generally accepted accounting principles, the financial statements, and statement analysis. Includes issues relating to asset, liability, and equity valuation, revenue and expense recognition, cash flow, internal controls, and ethics.
Hours: 72 lecture
C-ID: ACCT 110
Transferable: CSU, UC, and private colleges

BSAD B2 Managerial Accounting
3 units
Prerequisites: Successful completion of BSAD B1 or equivalent with a grade of C or better.
Description: This is the study of how managers use accounting information in decision-making, planning, directing operations, and controlling. Focuses on cost terms and concepts, cost behavior, cost structure and cost-volume-profit analysis. Includes issues relating to cost systems, cost control, profit planning, and performance analysis in manufacturing and service environments.
Hours: 54 lecture
C-ID: ACCT 120
Transferable: CSU, UC, and private colleges

BSAD B5 Human Relations and People Skills
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: A behavior approach to the business environment including self-understanding, motivation techniques as related to the workplace and issues affecting morale, discrimination and developing leadership techniques for success. Provides insight on the effects of drugs and alcoholism on the individual and work group. Emphasizes career selection and the important facets of communication and skill building.
Hours: 54 lecture
Transferable: CSU and private colleges

BSAD B18 Business Law
3 units
Recommended: BC placement into reading level 06.
Description: Fundamental legal principles pertaining to business transactions. Introduction to the legal process. Topics include sources of law and ethics, contracts, torts, agency, criminal law, business organizations, and judicial and administrative processes.
Hours: 54 lecture
C-ID: BUS 125
Transferable: CSU, UC, and private colleges

BSAD B20 Introduction to Business
3 units
Recommended: BC placement into reading level 06.
Description: A survey in business providing a multidisciplinary examination of how culture, society, economic systems, legal, international, political, financial institutions, and human behavior interact to affect a business organization's policy and practices within the U.S. and a global society. Demonstrates how these influences impact the primary areas of business including: organizational structure and design; leadership, human resource management, organized labor practices; marketing; organizational communication; technology; entrepreneurship; legal, accounting, financial practices; the stock and securities market; and therefore affect a business ability to achieve its organizational goals.
Hours: 54 lecture
C-ID: BUS 110
Transferable: CSU, UC, and private colleges; BC GE D.2

BSAD B40 Personal Finance
3 units
Recommended: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better and BC placement into math level 03 or successful completion of MATH B60 or equivalent with a grade of C or better.
Description: Principles and skills of budgeting, making intelligent consumer choices related to consumer credit, banking services, insurance, taxes, transportation, investing for personal retirement, and real estate planning.
Hours: 54 lecture
Transferable: CSU and private colleges.

BSAD B48WE Occupational Work Experience Education/Internship
1-8 units
Prerequisites: Declared major or occupational goal and evaluation of student's qualifications and objectives.
Description: College credit for business related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 55253.
Hours: Non-paid 60 hours for each 1 unit (60 - 480). Paid 75 hours for each 1 unit (75 - 600).
Transferable: CSU and private colleges.

BSAD B51 Business Mathematics
3 units
Description: Basic arithmetic skills reviewed and applied to the solution of business problems. Emphasizes bank records, invoices, cash and trade discounts, markup and markdown, inventory valuation, payroll, simple and compound interest, promissory notes, installment buying, stocks and bonds, amortization, real estate loans, property tax, personal income tax, depreciation, and insurance.
Hours: 54 lecture
Transferable: Not transferable. Degree applicable.

BSAD B53A Introduction to Accounting 1
3 units
Recommended: BC placement into reading level 05.
Description: An introduction to modern financial accounting theory
and practice. Analysis of financial transactions using the rules of double-entry bookkeeping. Accounting cycle including adjusting entries, the expanded worksheet, the use of special journals, bank reconciliations and the preparation of financial statements.

**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

**BSAD B53B Introduction to Accounting 2**  
**3 units**
**Prerequisites:** Successful completion of BSAD B53A or equivalent with a grade of C or better.
**Description:** A continuation of an introduction to modern financial accounting theory and practice. Analysis of financial transactions peculiar to the partnership and inventory, accounts receivable, notes payable, notes receivable and drafts, depreciation, depletion and amortization, capital stock transactions, bonds and other long-term liabilities and Statement of Cash Flows.

**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

**BSAD B54 Payroll Accounting**  
**3 units**
**Prerequisites:** Successful completion of BSAD B1 or BSAD B53A or equivalent with a grade of C or better.
**Description:** A foundation in payroll computations, payroll record keeping, and the filing of quarterly and annual payroll tax reports. Involves the study of California Disability Insurance, California Unemployment Insurance, Federal Social Security, Federal Unemployment Insurance, Federal Income Tax and California Income Tax, and how these taxes affect the employee/employer.

**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

**BSAD B55 Computer Accounting Applications**  
**3 units**
**Prerequisites:** Successful completion of BSAD B1 or BSAD B53B or equivalent with a grade of C or better.
**Description:** Review and practical application of accounting principles, electronic spreadsheets, word processing and data management as they pertain to solution of accounting problems and situations on a microcomputer. Emphasizes analysis of problems and student initiative to solve the problems presented using computerized software available.

**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

**BSAD B61 Human Resources Management**  
**3 units**
**Description:** A comprehensive study and review of human resources management. The course focuses on strategic planning, the nature and function of hiring, recruitment, training, development and retention of employees and staff. Topics include performance appraisals, compensation, motivation, retraining, disciplinary action, labor relations, and contract negotiations. The course also emphasizes federal, state, and local laws as they apply to employers and employees in both the private and public sectors.

**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

**BSAD B65 Principles of Organizational Communication**  
**3 units**
**Description:** Examination of written and oral communication in the business world. Course will examine the processes of human behavior and communication within the organizational context. It will test the principles of English writing skills and communication in the business office. Focuses on writing letters, memorandums, e-mails, resumes, reports and oral presentations. Course will define the barriers to effective communication and teach the appropriate techniques to overcome poor communication skills.

**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

**BSAD B85 Business English**  
**3 units**
**Description:** Basic English grammar course focusing on nouns, pronouns, verbs, adjectives, adverbs, conjunctions, and prepositions. Also includes standard punctuation, capitalization, number usage, and vocabulary development.

**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

**BSAD B88 Office Procedures**  
**3 units**
**Description:** A finishing course for students completing their training in office assisting. Course focuses on the techniques currently taking place in the office environment and is designed to develop knowledge and skills necessary for success in the workplace. Topics such as job attitudes, communications, human relations, and time and stress management are featured. Also included are telephone techniques, processing mail, travel arrangements, appointment scheduling, arranging meetings, the job application process, and interviewing techniques.

**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

**BSAD B92 Fundamentals of Marketing**  
**3 units**
**Description:** Survey of marketing, including consumer behavior, company and environmental analysis, market segmentation, product development, pricing, promotion, and distribution.

**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

**BSAD B252A Computer Keyboarding, Part 1**  
**1 unit**
**Description:** Students learn the basic techniques of the touch system in the mastery of the alpha/numeric keyboard and develop speed and accuracy in keying data. This is a basic course in the Office Technology curriculum and is a life-long learning skill.

**Hours:** 54 lab
**Transferable:** Not transferable. Degree applicable.

**BSAD B252B Computer Keyboarding, Part 2**  
**1 unit**
**Prerequisites:** Successful completion of BSAD B252A or equivalent with a grade of C or better.
**Description:** A continuation course where students learn the basic techniques of the touch system in the mastery of the alpha/numeric keyboard and develop speed and accuracy in keying data. This is a basic course in the Office Technology curriculum and is a life-long skill. Open entry/open exit course with individualized instruction in a supervised lab.

**Hours:** 54 lab
**Transferable:** Not transferable. Degree applicable.
BSAD B252C Computer Keyboarding, Part 3
1 unit
Prerequisites: Successful completion of BSAD B252B or equivalent with a grade of C or better.
Description: The third part in a series where students learn the basic techniques of the touch system in the mastery of the alpha/numeric keyboard and develop speed and accuracy in keying data. They also develop the basic formatting skills necessary to produce letters, memorandums, reports, and tables. This is a basic course in the Office Technology curriculum and is a life-long skill. Open entry/open exit course with individualized instruction in a supervised lab.
Hours: 54 lab
Transferable: Not transferable. Degree applicable.

BSAD B253A Document Processing, Part 1
1 unit
Prerequisites: Successful completion of BSAD B252C or equivalent with a grade of C or better.
Description: Further develops keyboarding speed, accuracy, and production rates on letters, reports, tables, forms, rough drafts, newsletters, and other documents using Microsoft Word applications. Emphasis is on producing usable copy for employment purposes and increasing keyboarding skill levels. Open entry/open exit course with individualized instruction in a supervised lab.
Hours: 54 lab
Transferable: Not transferable. Degree applicable.

BSAD B253B Document Processing, Part 2
1 unit
Prerequisites: Successful completion of BSAD B253A or equivalent with a grade of C or better.
Description: The second part in the series where students further develop keyboarding speed, accuracy, and production rates on letters, reports, tables, forms, rough drafts, newsletters, and other documents using Microsoft Word applications. Emphasis is on producing usable copy for employment purposes and increasing keyboarding skill levels. Open entry/open exit course with individualized instruction in a supervised lab.
Hours: 54 lab
Transferable: Not transferable. Degree applicable.

BSAD B253C Document Processing, Part 3
1 unit
Prerequisites: Successful completion of BSAD B253B or equivalent with a grade of C or better.
Description: The third in the series where students further develop keyboarding speed, accuracy, and production rates on letters, reports, tables, forms, rough drafts, newsletters, and other documents using Microsoft Word applications. Emphasis is on producing usable copy for employment purposes and increasing keyboarding skill levels. Open entry/open exit course with individualized instruction in a supervised lab.
Hours: 54 lab
Transferable: Not transferable. Degree applicable.

BSAD B264 Ten-Key Proficiency
0.5 unit
Description: Skill and proficiency in the use of the ten-key calculator by touch and the application of such skill and proficiency in the solution of the more frequently encountered business problems. Open entry/open exit course with individualized instruction in a supervised lab.
Hours: 27 lab
Transferable: Not transferable. Degree applicable.

BSAD B280 Machine Transcription
1.5 units
Prerequisites: Successful completion of BSAD B252C and BSAD B85 or BSAD B285 with a grade of C or better.
Description: Students learn the skill of operating transcribing machines and develop skill in keying documents while listening to dictated material. Practice in transcribing letters, memoranda, and other business correspondence is stressed. Course emphasizes English usage, punctuation, spelling/word usage, and proper document formatting when transcribing data. Open entry/open exit course with individualized instruction in a supervised lab.
Hours: 81 lab
Transferable: Not transferable. Degree applicable.

BSAD B285 Business English
3 units
Description: Basic English grammar course focusing on nouns, pronouns, verbs, adjectives, adverbs, conjunctions, and prepositions. Also includes standard punctuation, capitalization, number usage, and vocabulary development.
Hours: 162 lab
Transferable: Not transferable. Degree applicable.

BSAD B287 Filing
1.5 units
Description: Training in principles of filing and records management according to the Association of Records Managers and Administrators (ARMA). Study and practice in filing by alphabetic, numeric, geographic, and subject methods. Open entry/open exit course with individualized instruction in a supervised lab.
Hours: 81 lab
Transferable: Not transferable. Degree applicable.
CADM - Correctional Administration Courses

CADM B54 Corrections Officer Core Course
12 units
Description: This course is designed to meet the Corrections Standards Authority requirements for entry-level Corrections Officers in Adult Detention Facilities. This course covers various legal issues in dealing with incarcerated offenders as well as supervision of inmates. Transportation, report writing, blood borne pathogens, CPR, First Aid, receiving and releasing of inmates, weaponless defense, Fire and Life Safety.
Hours: 216 lecture
Transferable: Not transferable. Not degree applicable.

CADM B56 Criminal Justice Training-Special Topics
0.5-7 units
Description: This is a series of workshop/seminar sessions devoted to instruction in specialized topics pertinent to criminal justice administration. The course will feature speakers or panels of specialists from the law enforcement or corrections fields who have expertise in the particular subject area.
Hours: 8 lecture hours for each .2 unit (9-126)
Transferable: Not transferable. Not degree applicable.

CADM B58 Supervisor Core Course
4.5 units
Description: This course teaches supervisory skills such as supervisory role identification, leadership styles, values, ethics, principles, assertion, employee performance appraisals, liability issues and legal updates, discipline, employee counseling, planning and organization, communication, investigations, report review, and team building. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections (STC) Program (as described in Section 181, Title 15, CCR).
Hours: 81 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70A Prisoner Transportation
0.5 units
Description: This course teaches skills associated with the transportation of prisoners and covers various modes of prisoner transportation, the risks involved, and how to achieve a secure transportation, including the application and use of mechanical restraints. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70B Prison Gangs
0.5 units
Description: Topics include identifying known prison gangs, gang member identification/activities, policies on gang validation, gang recruitment measures, interviewing techniques and protective custody measures for gang dropouts. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Note: Registration will be held during the first hour of the first class meeting.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70C Escape Prevention
0.5 units
Description: Teaches escape prevention procedures that deal primarily with basic institutional security principles, accountability of inmates, human error, and techniques used for escape prevention. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70D Suicide Prevention
0.5 units
Description: Covers identifying the potential for suicide, prevention techniques, intervention and responses including proper communication techniques during a crisis. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70E Handling Aggressive and Assaultive Inmates
0.5 units
Description: Provides training to corrections staff. Examines the violent criminal, explains the reasons for inmate violence, and offers tools to de-escalate confrontations. Provides demonstrations and an opportunity to practice evasive defense tactics. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70F Sexual Harassment Prevention
0.5 units
Description: Identifies Sexual harassment from a legal, moral, and social concept. Provides advice and counsel on how to prevent sexual harassment in the workplace. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70G Understanding Prejudice
0.5 units
Description: Teaches tolerance of others who are unlike oneself, to make for cultural differences, values and beliefs. Adjusts preconceptions and misconceptions, attitudes and encourages communication styles without implications of discrimination. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70H Crime Scene Preservation and Investigation
0.5 units
Description: Provides the required competencies to identify a crime
scene, preserve evidence, mark and collect physical, trace and transient evidence. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Description: Designed to provide students with tools to control their own anger as well as provide a process to deal with angry people. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70I Anger Management
0.5 units
Description: Designed to provide students with tools to control their own anger as well as provide a process to deal with angry people. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70J Informant Development and Management
0.5 units
Description: Provides the communication tools and legal framework necessary for successful implementation, use and protection of informants in a correctional institution. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70K Anatomy of a Set-Up; Games Inmates Play
0.5 unit
Description: Students will develop a greater understanding of criminal thinking & behavior. This course will provide the student with the knowledge and communication skills to prevent or stop a set-up. Students will be able to identify and recite the signs and behaviors that contribute and make employees receptive to a set-up and to attempts at “game playing” by inmates.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70L Use of Force and Civil Liabilities
0.5 units
Description: Students will identify and discuss specific trends in civil liabilities in the field of corrections with a focus on use of force. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70M Drug Recognition and Under the Influence
0.5 units
Description: Prepares students to identify specific illicit drugs and the signs and symptoms of drug use and influence. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70N Fire and Life Safety
0.5 units
Description: Hands-on training for corrections institution staff in fire prevention and suppression. Provides the knowledge and skills necessary for fire and emergency responses. Topics include evacuation management, tactical control measures, use of fire suppression equipment, use of the SCBA, search and rescue techniques. Meets the certification requirements for Standards and Training in Corrections (STC) from the California Board of Corrections.

Note: Registration will be held during the first hour of the first class meeting.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70O Positive Inmate Staff Relations Through Communication and Ethics
0.5 units
Description: Develops practical communication and ethical skills toward a positive inmate/staff working relationship in a jail/institutional environment. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70P Emergency Procedures
0.5 units
Description: Designed for corrections staff. Provides an overview of various emergencies arising within a correctional facility, including natural disasters, riots, work strikes, escapes. Policy, planning and response are discussed. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70Q Women in Corrections
0.5 units
Description: Explores the history of women in corrections and the career developments for women that have evolved in the field of corrections. Other topics include: special training needs, problems and restrictions placed on women, developing a mentoring program for the female correctional staff. This course meets the training requirements as set forth by Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70S Women in Corrections
0.5 units
Description: Prepares students to supervise inmates in a correctional environment and provide a better understanding of prisoner programs. State law mandates that “every inmate shall have a reasonable opportunity to participate in a full-time credit qualifying assignment, consistent with institutional security and available resources.” This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70T Blood Borne Pathogens, T.B. Awareness, Psychotic Inmates
0.5 units
Description: Learn how to prevent the transmission of blood borne pathogens; identify Tuberculosis awareness factors; recognize and deal with psychotic inmates. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70U Conflict Resolution and Hostage Survival
0.5 units
Description: Covers Conflict Resolution: develop skills to defuse and de-escalate confrontational situations. Course includes: tactics and techniques to avoid being taken hostage, and what to do if you are taken hostage in a correctional setting. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70V Facility and Inmate Searches
0.5 units
Description: Develops and enhances the knowledge and skills of searching both inmates and facilities. This course covers: searching techniques, clothed and unclothed body searches, and the current trends of introduction of contraband into a Correctional Facility. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70W Restraint Gear Application
0.5 units
Description: Provides explanation and hands-on practice for the proper application and use of restraints gear. Explains how some gear can be slipped, picked, shimmed or broken. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70X Cell Extraction
0.5 units
Description: Provides knowledge and skills to perform calculated and emergency cell extractions in a safe manner. Course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Note: Registration will be held during the first hour of the first class meeting.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B70Z Inmate Classification/Disciplinary Process
0.5 unit
Description: Provides an introduction to the inmate classification process. Describes the basic procedure for assigning an inmate to a particular job based on security level and defines how the disciplinary process is a part of the classification process. Class meets the certification requirements for Corrections Standards Authority for countries participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71A Basic Principles in Management
1 unit
Description: An introduction to best practices of two-way communication between administration and line staff to ensure good facility management. Students will develop their leadership and communication skills. The art of discipline and grievances will be explored. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 18 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71F Drug and Alcohol Awareness for Supervisors
0.5 units
Description: Provides training to law enforcement, corrections and security supervisors (also recommended for educators). Prepares students to identify and determine whether an employee is under the influence of alcohol or drugs. Other topics include how supervisors can solicit help for employees to overcome substance abuse/addiction. The course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71G Advanced Report Writing
0.5 units
Description: This course is designed to provide advanced skills in report writing. Students will refresh and enhance the writing skills they developed in the basic course. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Note: Registration will be held during the first hour of the first class meeting.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71H Transportation and Escape Procedures
0.5 units
Description: Intended for peace officers, correctional officers, juvenile institutions staff, and probation officers. Introduces students to various modes of transportation of adult and juvenile inmates. Includes proper use of restraints and proper searching techniques. Covers risks and techniques to prevent escapes. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71I Violence in the Workplace
0.5 units
Description: A discussion of fatal and nonfatal violence in the workplace to determine the focus needed for prevention. Emphasis made on changes to help minimize or remove the risk of workplace violence. Meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the
CADM B71K Rights of Prisoners
0.5 unit
Description: An introduction and discussion of the rights and privileges that inmates have while they are incarcerated. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71L Progressive Discipline
0.5 units
Description: This course teaches methods of progressive discipline utilized in a correctional setting to ensure uniform consistency, avoid confusion, follow due process requirements, and create a positive behavior change among inmates. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71M Stress in the Corrections Environment
0.5 units
Description: Intended for people working in corrections. Course will identify and discuss what stress is, how it affects both the physical and mental health of individuals. Topics include identifying symptoms of stress, recognizable physical and psychological reactions to stress, and stress reducers/relaxation techniques. Course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71N Positive Thinking in Corrections
0.5 units
Description: This course identifies and discusses the premise that a positive attitude in the correctional workplace fosters job satisfaction, builds self-esteem, and reinforces desired performance. Course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71O Assertiveness Training for Corrections
0.5 units
Description: Trains Correctional Officers to present themselves as confident, effective communicators and therefore enjoy better inmate control and institutional effectiveness. Course meets the training requirements as set forth by the Corrections Standards for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71P Employee Post Trauma
0.5 units
Description: This course covers basic assessment tools, methods of coping, as well as tools and skills to facilitate post traumatic recovery. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71Q Liability Issues and Courtroom Demeanor
0.5 units
Description: This course is an introduction to the legal liabilities and responsibilities of corrections personnel while at work and expectancies when called to testify in a court of law. Other topics include: identification of adverse employees, insufficient training, and negligent supervision among others. Course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B71R Prison Rape Elimination Act (PREA)
0.5 units
Description: Provides the skills necessary to investigate complaints, threats, or signs of sexual assault/rape against inmates. Course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B72 Chemical Agents
0.5 units
Description: This course provides the required competencies and certification for the use of chemical agent sprays. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B73 Basic Baton Course
0.5 units
Description: Provides students with the practical, safe, legal and technical aspects of the use of the police baton. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Note: Registration will be held during the first hour of the first class meeting.
Hours: 9 lecture
Transferable: Not transferable. Not degree applicable.

CADM B74 Weaponless Defense and Control Tactics
0.5 units
Description: This course provides training to perform their daily tasks with less danger to themselves and to increase their ability to control suspects and prisoners in a humane and lawful manner. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.
Note: Registration will be held during the first hour of the first class meeting.
Hours: 9 lecture  Transferable: Not transferable. Not degree applicable.

**CADM B75 Surviving Sharp Edged Weapons**

*0.5 units*

**Description:** The course teaches responses to the mounting threat of “knife culture” offenders. Topics covered included safe positioning, communicating commands to inmates, how to access an edged weapon assailant, evasive defensive tactics and disarming techniques. This course meets the training requirements as set forth by the Corrections Standards Authority for counties participating in the Standards and Training for Corrections Program.

Hours: 9 lecture  Transferable: Not transferable. Not degree applicable.

**CADM B76 Basic Firearms Familiarization**

*0.5 units*

**Description:** Designed to give the first-time shooter hands-on experience as well as knowledge of the operation of a handgun and range safety. Students will engage in the use of firearms, which will include handgun familiarization; safety; care, cleaning and storage; firearms range qualification.

**Note:** Per Penal Code section 13511.5 students must obtain written clearance from the California Department of Justice verifying that they are not prohibited from possessing firearms.

**Note:** Registration will be held during the first hour of the first class meeting.

Hours: 9 lecture  Transferable: Not transferable. Not degree applicable.

**CADM B77 Intermediate Firearms Course**

*1 unit*

**Description:** Designed to expand upon the skills and knowledge of firearms familiarity and range safety. Students will engage in the use of firearms, which will include safe handling; care, cleaning and storage; firearms range qualification.

**Note:** Per Penal Code section 13511.5, students must obtain written clearance from the California Department of Justice verifying that they are not prohibited from possessing firearms.

Hours: 18 lecture  Transferable: Not transferable. Not degree applicable.

**CADM B79 Federal Prison Emergency Response Training**

*4.5 units*

**Description:** This course teaches advanced training for Correctional Emergency Response Team (CERT) skills. Covers the duties of a CERT team member including transport of high risk inmates, extracting uncooperative prisoners from their cells, searches, high profile security, barricaded persons, mass arrest and responding to hostage situations. This course meets the Training for Corrections Standards Authority for counties participating in the Standards and Training for Corrections Programs.

Hours: 81 lecture  Transferable: Not transferable. Not degree applicable.
CHDV - Child Development Courses

CHDV B13C Child Growth and Development: The Infant Toddler Years
3 units
Description: Study of theory, research, cognitive and sensory development of the Infant Toddler Years. Class will look at mother-child interactions as well as role of caregivers along with age appropriate curriculum and infant programs.
Hours: 54 lecture
Transferable: CSU and private colleges.

CHDV B20 Principles and Practices
3 units
Description: An examination of the underlying theoretical principles of developmentally appropriate practices applied to programs and environments. Emphasis is on the key role of relationships, constructive adult-child interactions, and teaching strategies in supporting physical, social, creative and development for all children. Course includes a review of the historical roots of early childhood programs and the evolution of the professional practices promoting advocacy, ethics and professional identity.
Hours: 54 lecture
C-ID: ECE 120
Transferable: CSU and private colleges.

CHDV B21 Child Growth and Development: Birth through Adolescence
3 units
Prerequisite: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Recommended: Successful completion of CHDV B20 with a grade of C or better and BC placement into reading level 06.
Description: This introductory course examines the major physical, psychosocial, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development at various stages.
Hours: 54 lecture
C-ID: CDEV 100
Transferable: CSU, UC, and private colleges. CSU GE D; CSU GE E; IGETC 4; BC GE D.1

CHDV B22 Observation and Assessment - Birth through Adolescence
3 units
Prerequisites: Successful completion of CHDV B21 or equivalent with a grade of C or better.
Description: This course focuses on the appropriate use of a variety of assessment and observation strategies to document child development and behavior regarding children's physical, cognitive, language, social and emotional development from birth to adolescence. Child observations will be conducted and analyzed.
Hours: 54 lecture
C-ID: ECE 200
Transferable: CSU and private colleges.

CHDV B32 Teaching in a Diverse Society
3 units
Description: The relationship between critical aspects of culture and the social-emotional development of children, adolescents and adults is analyzed from an anti-bias, multi-cultural perspective. Diversity is examined through the different values, beliefs, modes of communicating, behaving and perceiving the world.
C-ID: ECE 230
Hours: 54 lecture
Transferable: CSU and private colleges.

CHDV B33 Survey of Special Education
3 units
Description: Introduction to special education in the public schools. Emphasizes legal aspects, assessment and placement. Includes examination of all disabilities served in the public schools and day care settings and the role of the child care professionals and paraprofessionals in the field of special education.
Hours: 54 lecture
Transferable: CSU and private colleges.

CHDV B36 Developmentally Appropriate Curriculum
3 units
Description: Planning for and implementation of developmentally appropriate curriculum for children ages birth - 8 years. Includes major concepts and theories of child growth and development for children in infant/toddler, preschool, kindergarten and early primary grades. Students will be expected to observe and assess classroom environments and provide an appropriate environment.
C-ID: ECE 130
Hours: 54 lecture
Transferable: CSU and private colleges.

CHDV B40 Creative Art, Movement, and Music Activities for Young Children
3 units
Recommended: BC placement into reading level 06.
Description: Materials, methods, and objectives in teaching art, movement, and music activities for children birth to six years old. The growth of creativity through developmentally appropriate activities, and communicating to parents the value of play will be emphasized. Meets Child Development Associated Options, Competencies #4-7.
Hours: 54 lecture
Transferable: CSU and private colleges.

CHDV B41 Supervised Field Experience in Early Childhood Education
3 units
Prerequisites: Successful completion of CHDV B20 and CHDV B21 and CHDV B22 and CHDV B36 and CHDV B42 or equivalent with a grade of C or better and BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Description: In this course the student will practice and demonstrate developmentally appropriate early childhood program planning and teaching competencies under the supervision of ECE/CD faculty and other qualified early education professionals. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional
behaviors, and build a comprehensive understanding of children and families. Child centered, play-oriented approaches to teaching, learning, and assessment; and knowledge of curriculum content areas will be emphasized as student teachers design, implement and evaluate experiences that promote development and learning for all young children.

**Note:** Not open to students who have successfully completed CHDV B41A or CHDV B41B.

**C-ID:** ECE 210

**Hours:** 18 lecture, 108 lab

**Transferable:** CSU and private colleges.

**CHDV B42 Child, Family, and Community**

**3 units**

**Description:** Course includes the study of the socializing of children in developmental, family, and community contexts, with an emphasis on historical and socio-cultural factors. In addition, identity development will be highlighted, showing the importance of respectful, reciprocal relationships that support and empower families. Field trips may be required.

**C-ID:** CDEV 110

**Hours:** 54 lecture

**Transferable:** CSU, UC, and private colleges. CSU GE D; CSU GE E

**CHDV B45A Administration of Programs for Young Children: Business Procedures**

**3 units**

**Recommended:** BC placement into reading level 06.

**Description:** Administration of programs for young children including private and publicly-funded child care centers and preschool programs. Emphasizes business procedures and public policy. Field trips required.

**Hours:** 54 lecture

**Transferable:** CSU and private colleges.

**CHDV B45B Administration of Programs for Young Children: Personnel Management Procedures**

**3 units**

**Description:** Administration of programs for young children including private and publicly-funded child care centers and preschool programs. Emphasizes personnel management and public policy.

**Hours:** 54 lecture

**Transferable:** CSU and private colleges.

**CHDV B48WE Occupational Work Experience Education/Internship**

**1-8 units**

**Prerequisite:** Declared major or occupational goal and evaluation of student’s qualifications and objectives.

**Description:** College credit for early childhood related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 55253.

**Hours:** Non-paid 60 hours for each 1 unit (60-480). Paid 75 hours for each 1 unit (75-600).

**Transferable:** CSU and private colleges.

**CHDV B49 Child Health, Safety and Nutrition**

**3 units**

**Description:** Introduction to the laws, regulations, standards, policies and procedures and early childhood curriculum related to child health safety and nutrition. The key components that ensure physical health, mental health and safety for both children and staff will be identified along with the importance of collaboration with families and health professionals. Focus on integrating the concepts into everyday planning and program development for all children. Pediatric CPR and First Aid certification are completed (books and certification costs are at the student’s expense) Totally fulfills California licensing mandate of 15 hours of training in preventative health practices.

**C-ID:** ECE 220

**Hours:** 54 lecture

**Transferable:** CSU and private colleges.

**CHDV B52 Care of Infants and Toddlers with Disabilities**

**3 units**

**Description:** Interdisciplinary course designed to prepare child care workers and education aides to care for disabled and chronically ill infants and toddlers.

**Hours:** 54 lecture

**Transferable:** Not transferable. Degree applicable.

**CHDV B53A Early Childhood Education: Adult Supervision**

**2 units**

**Description:** A study of the methods and principles of supervising and teaching adults in early childhood classrooms. Emphasis is on the role of experienced classroom teachers who function as a supervisor and/or mentor for staff or new teachers in a child care environment while simultaneously addressing the needs of the children and parents.

**Hours:** 36 lecture

**Transferable:** Not transferable. Not degree applicable.
CHEM - Chemistry Courses

CHEM B1A General Chemistry I  
5 units  
**Prerequisites:** BC placement into reading level 06 and writing level 06 and math level 04 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent and MATH B70 or equivalent CHEM B2A or High School Chemistry, or equivalent with a grade of C or better.  
**Description:** Basic principles of chemistry, including atomic structures, stoichiometry, reaction energy, chemical bonding, periodic relationships of the elements, states and properties of matter, solutions, introduction to acids and bases, a brief introduction to descriptive chemistry of the elements, and other topics as appropriate. The lab emphasizes quantitative methods.  
**C-ID:** CHEM 110 (Taking both CHEM B1A AND CHEM B1B is the C-ID Equivalent of CHEM 120S)  
**Hours:** 54 lecture, 108 lab  
**Transferable:** CSU, UC, and private colleges; IGETC 5.A; IGETC 5.C; CSU GE B.1; CSU GE B.3; BC GE B.1

CHEM B1B General Chemistry and Chemical Analysis  
5 units  
**Prerequisites:** BC placement into math level 04 or successful completion of MATH B70 and CHEM B1A or equivalent with a grade of C or better.  
**Recommended:** Chemistry prerequisite accomplished within two years prior to taking this class.  
**Description:** Continuation of CHEM B1A. Includes kinetics; equilibrium; thermodynamics; equilibrium as it applies to acid-base, solubility, and electrochemistry; nuclear chemistry; coordination chemistry; the descriptive chemistry of selected elements; and an introduction to organic chemistry. The lab includes qualitative analysis, quantitative techniques, and descriptive experiments.  
**C-ID:** CHEM 120S (for taking CHEM B1A + B1B)  
**Hours:** 54 lecture, 108 lab  
**Transferable:** CSU, UC, and private colleges

CHEM B2A Introductory General Chemistry  
4 units  
**Prerequisites:** BC placement into reading level 06 and writing level 06 and math level 03 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent and MATH B60 or equivalent with a grade of C or better.  
**Description:** Course covers the principles and applications of general college chemistry. It is designed for liberal arts, physical education and some baccalaureate nursing majors. Recommended also for students who need additional background for the more intensive course, CHEM B1A.  
**Note:** Not open to students with credit in CHEM B1A.  
**C-ID:** CHEM 101  
**Hours:** 54 lecture, 54 lab  
**Transferable:** CSU, UC, and private colleges; IGETC 5.A; IGETC 5.C; CSU GE B.1; CSU GE B.3; BC GE B.1

CHEM B11 Introduction to General, Organic, and Biochemistry  
5 units  
**Prerequisites:** BC placement into reading level 06 and math level 03 or successful completion of ACDV B50 or ACDV B61 or equivalent and MATH B60 or equivalent with a grade of C or better.  
**Description:** An introduction to general, organic, and biochemistry using a qualitative and quantitative approach. Topics include physical principles of chemistry, inorganic compounds and reactions; a survey of organic chemistry-classification, compounds, reactions, nomenclature; biochemistry-classification, composition, reactions in living organisms.  
**Hours:** 54 lecture, 108 lab  
**Transferable:** CSU, UC, and private colleges; IGETC 5.A; IGETC 5.C; CSU GE B.1; CSU GE B.3; BC GE B.1

CHEM B18 Elementary Organic Chemistry  
5 units  
**Prerequisites:** Successful completion of CHEM B1A or equivalent with a grade of C or better or CHEM B2A or equivalent with a grade of B or better or instructor’s approval.  
**Description:** Introduction to and study of the chemistry of organic compounds: the functional groups, representative types of, theory behind, organic reactions, and the biological classes of proteins, fats, carbohydrates, and nucleic acids. Will prepare students well for further study in organic chemistry, and serve those interested in the sciences and related fields, including ones requiring a semester of organic chemistry for transfer/entrance. The lab covers fundamental techniques including separations, synthesis, identification, and instrumental analysis.  
**Hours:** 54 lecture, 108 lab  
**Transferable:** CSU, UC, and private colleges; IGETC 5.A; IGETC 5.C; CSU GE B.1; CSU GE B.3; BC GE B.1

CHEM B30A Organic Chemistry for Science Majors, I  
5 units  
**Prerequisites:** Successful completion of CHEM B1B with a grade of C or better.  
**Description:** This is the first semester of a one-year course in organic chemistry intended for majors in the natural sciences (chemistry, biochemistry, biology, physics, pre-medicine, and related areas). Taken as a sequence, the course covers fundamental principles and concepts of organic chemistry including (but not limited to) bonding, molecular structure, the standard functional groups, nomenclature, stereochemistry, reactions, and mechanisms. Strong emphasis is placed on reaction mechanisms, stereochemistry, multi-step syntheses, and structure elucidation using hands-on modern instrumental methods (multinuclear NMR, FT-IR, GC, etc.). In addition, various modern computational techniques and an introduction to bio-molecules are presented. The lab covers preparative and modern analytical techniques and instrumentation, exposure to a variety of reactions and procedures, performing multistep syntheses, and safety and ecologically friendly protocols.  
**Hours:** 54 lecture, 108 lab  
**C-ID:** CHEM 160S (Taking both CHEM B30A AND CHEM B30B is the C-ID Equivalent of CHEM 160S)  
**Transferable:** CSU, UC, and private colleges; CSU GE B.1

CHEM B30B Organic Chemistry for Science Majors, II  
5 units  
**Prerequisites:** Successful completion of CHEM B30A with a grade of C or better.  
**Description:** This is the second semester of a one-year course in organic chemistry intended for majors in the natural sciences (chemistry, biochemistry, biology, physics, pre-medicine, and related areas). Taken as a sequence, the course covers fundamental
principles and concepts of organic chemistry including, but not limited to structure, bonding, nomenclature, stereochemistry, the standard functional groups, reactions, and mechanisms. Special emphasis is placed on reaction mechanisms, stereochemistry of reactions, multi-step syntheses, and structure elucidation using modern instrumental methods (multinuclear NMR, FT-IR, GC, etc.). In addition, various modern computational techniques and an introduction to bio-molecules are presented.

**Hours:** 54 lecture, 108 lab

**C-ID:** CHEM 160S

**Transferable:** CSU, UC, and private colleges; CSU GE B.1
CNST - Construction Technology Courses

**CNST B1 Introduction to Construction**
3 units
**Description:** Basic concepts of the construction industry. Overview of careers in construction, related safety and math, print reading, and construction techniques investigated.
**Hours:** 54 lecture
**Transferable:** CSU and private colleges.

**CNST B2 Estimating and Scheduling**
3 units
**Description:** Students will learn techniques in managing and organizing a construction project including plan reading, estimating, scheduling are covered. The extraction of the information necessary to calculate quantities and costs is investigated. The use of computer programs to manage a construction project and to calculate the cost and keep track of the scheduling is explored and practiced.
**Hours:** 54 lecture
**Transferable:** CSU and private colleges.

**CNST B3 Construction Supervision and Project Management**
3 units
**Description:** The combination of designing, estimating, contracting, financing and building must be understood and practiced. Leadership in this field means being responsible for many people, their work and their safety.
**Hours:** 54 lecture
**Transferable:** CSU and private colleges.

**CNST B4 Contractor's License Law**
2 units
**Description:** Preparation for the California State Contractor Examination in any classification. Includes state license law, civil code, civil procedure, labor law, contract law, and asbestos regulations.
**Hours:** 36 lecture
**Transferable:** CSU and private colleges.

**CNST B5 Building Construction I**
4 units
**Description:** Technical and practical experience to complete floor and wall framing of a house including underpinning, wall layout, and wall construction up to the ceiling joists. Estimating of materials, basic surveying, and concrete foundation formwork are also covered.
**Hours:** 54 lecture, 54 lab
**Transferable:** CSU and private colleges.

**CNST B6 Building Construction II**
4 units
**Description:** The study of roof design and cutting, the use of the framing square in roof layout, and prefabrication techniques in housing with field research assignments. Frame estimating for the building trades and the application of various roofing materials are also covered.
**Hours:** 54 lecture, 54 lab
**Transferable:** CSU and private colleges.

**CNST B7 Residential Finish Construction**
4 units

**Description:** This course covers interior and exterior building finishes, including layout fabrication and installation of stairs, door and window materials, construction, hardware and installation, interior and exterior millwork, molding and cabinetry; interior drywall and exterior siding, stucco plastering and EIFS systems. Building codes and finish estimating are included.
**Hours:** 54 lecture, 54 lab
**Transferable:** Not transferable. Degree applicable.

**CNST B8 Plumbing I**
4 units
**Description:** A course designed to provide students with entry-level instruction involving the theory and skills of residential plumbing systems. Knowledge of basic principles, functions, and design, as well as the physical ability to install and test the rough-in plumbing in a single family dwelling.
**Hours:** 54 lecture, 54 lab
**Transferable:** Not transferable. Degree applicable.

**CNST B9 Residential Electrical Wiring**
4 units
**Description:** Residential electrical construction, wiring principles and practices, study and application of National Electrical Code (NEC) to comply with building requirements.
**Hours:** 54 lecture, 54 lab
**Transferable:** Not transferable. Degree applicable.

**CNST B10 Plumbing II**
4 units
**Description:** A course designed to provide students with entry-level instruction involving the theory and skills of residential plumbing systems. Topics include basic principles, function, design, installation of finish plumbing, repair and service of plumbing systems, installation of solar, spa, and sprinkler systems in a single family dwelling.
**Hours:** 54 lecture, 54 lab
**Transferable:** Not transferable. Degree applicable.

**CNST B11 Residential Light Steel Frame Construction**
4 units
**Description:** A comprehensive hands-on course that covers the fundamentals of utilizing light frame steel for residential framing in place of wood. Raised floor construction, wall framing, trussed roof fabrication and installation including applicable building codes, blueprint reading, estimating, and inspections are covered.
**Hours:** 54 lecture, 54 lab
**Transferable:** Not transferable. Degree applicable.

**CNST B48WE Occupational Work Experience Education/Internship**
1-8 units
**Prerequisites:** Declared major or occupational goal and evaluation of student's qualifications and objectives.
**Recommended:** BC placement into reading level 06.
**Description:** College credit for construction related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid work experience or 60 volunteer hours of work.
experience per unit. Repetition allowed per Title 5 55253.

**Hours:** Non-paid 60 hours for each 1 unit (60-480). Paid 75 hours for each 1 unit (75-600).

**Transferable:** Not transferable. Degree applicable.
COMM - Communication Courses

COMM B1 Public Speaking
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Instruction in the composition, presentation and evaluation of original speeches and critical assessment of other communication events. Emphasizes topic selection, research, organization, development, delivery, audience analysis and critical analysis of persuasive communication.
Hours: 54 lecture
C-ID: COMM 110
Transferable: CSU, UC, and private colleges; IGETC 1.C; CSU GE A.1; BC GE A.1

COMM B2 Interpersonal Communication
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: An introduction to interpersonal communication as it pertains to exploration of the individual’s relationships to others and the broader society including romantic, friendship, family and professional relationships at every age. Emphasis will be put on social, physiological and cultural influences such as social interaction, verbal communication, nonverbal communication, touch, human interaction and emotion that shape personal identity and interpersonal relationships, ethical communication founded on communication theory and research, and effective conflict resolution methods. Focus will also include participation in experiences designed to enhance competence and develop skills in interpersonal communication.
Hours: 54 lecture
C-ID: COMM 130
Transferable: CSU, UC, and private colleges; CSU GE: E; BC GE: E

COMM B4 Persuasive Communication
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Principles and practices of persuasion in various communication settings. Prepare and deliver persuasive speeches for specific audiences.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 1.C; CSU GE A.1; BC GE A.1

COMM B5 Rhetoric and Argumentation
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Theoretical and practical aspects of argumentation and public debating to develop students’ critical thinking abilities. Emphasis is on composition, presentation, and evaluation of speeches in argumentative, debate, and advocacy contexts. Identification of public issues, research and organization of evidence, building sound and effective arguments, and facility with debate formats are the primary learning outcomes of this course. Introduces logical reasoning and builds competence with formal reasoning before applying those to argumentation and debate about public issues.
Hours: 54 lecture
C-ID: COMM 120
Transferable: CSU, UC, and private colleges; CSU GE A.3; BC GE B.2

COMM B6 Intercultural Communication
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Introduction to intercultural communication in domestic and/or global contexts. Influence of cultures, languages, and social patterns on how members of groups relate among themselves and with members of different ethnic and cultural groups. Theory and knowledge of effective communication within and between cultures. Appreciation and comparison of communication among diverse groups within the larger context of American culture. Practical application of skills will be highlighted.
Hours: 54 lecture
C-ID: COMM 150
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.1

COMM B7 Organizational Communication
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Course concentrates on a global look at communication in an organizational setting; theory and practice of communication in private and public organizations, interpersonal and group communication patterns within organizations, systems of ethical internal and external communication, leadership in the organization, organizational cultures impact on communication, and the role of communication in achieving organizational goals. Course includes team projects that will require work outside of class and visits to a community location of your teams choosing.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; CSU GE D; BC GE D.2

COMM B8 Small Group Communication
3 units
Description: This oral communication class examines small group processes such as group formation and development, conflict, problem solving, and group climate. Covers an understanding of diversity, leadership roles, and theory. Students participate in class groups where experiential learning and presentations are part of the class experience. Small group meetings outside of class time are required. Field trips may be required.
Hours: 54 lecture
C-ID: COMM 140
Transferable: CSU, UC, and private colleges; IGETC 1.C; CSU GE A.1; BC GE A.1

COMM B9 Health Communication
3 units
Description: Course introduces student to the theory and practice of health communication in dyadic, small group, organizational, and mass media contexts. Students examine topics such as provider-client communication, the influence of diversity and culture on health communication, and the role that the mass media plays in disseminating health information. Selected topics and theories of human communication are directly applied to communication situations in health care settings through the use of
case studies. Emphasis is on understanding and improving health communication among health professionals, between health professionals and clients, and with the general public.

**Hours:** 54 lecture

**Transferable:** CSU and private colleges.

### COMM B10 Leadership and Communication

3 units

**Description:** Course presents theories of communication, leadership and followership as they explore the essential role communication plays in leadership at all levels. Course emphasizes the study of communication skills that are central to performing successfully as a leader in a variety of contexts including organizational, familial, team and public settings. Specific attention is given to self-assessment of leadership and communication skills, self-reflection, and creation of a personal leadership communication plan.

**Note:** Not open to students who have successfully completed COMM B49 or COMM B49B.

**Hours:** 54 lecture

**Transferable:** CSU and private colleges.

### COMM B21 Oral Interpretation of Literature

3 units

**Description:** Study of the theoretical and technical aspects involved in the selection, analysis, interpretation and oral performance of various forms of literature, including poetry, prose, and drama (plays, scripts, and screenplays). Includes participation in various types of performance exercises including presentation of prose, poetry, drama and group ensemble.

**Hours:** 54 lecture

**C-ID:** COMM 170

**Transferable:** CSU and private colleges; BC GE C.2
COMP - Computer Science Courses

COMP B2 Introduction to Computer Information Systems
3 units
Prerequisites: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Description: Introduction to the concepts of computer information systems as problem-solving tools in business, economics, mathematics, and the sciences. Includes the history of computer system components, and sequential and direct-access processing. Database management systems, teleprocessing, and distributed processing are covered. An overview of personal computer applications software (word processing, electronic spreadsheets, and personal database management systems) is also included.
Note: Not open to students who have successfully completed COMS B2, COMS B3, COMP B3.
C-ID: BUS 140
Hours: 54 lecture
Transferable: CSU, UC, and private colleges

COMP B5 Introduction to Microsoft Office
3 units
Recommended: BC placement into reading level 06.
Description: Intended for home users and business people who desire a working knowledge of personal computer hardware and software. Special emphasis on software that is most widely used in Kern County as well as the nation. Mainly focuses on business and home applications of personal computers. Hands-on training with word processing, spreadsheets, database management systems, electronic presentations, and the necessary operating system fundamentals to the listed application software.
Note: Not open to students who have successfully completed COMS B5.
Hours: 54 lecture
Transferable: CSU and private colleges

COMP B10 Introduction to Programming Methodologies using Python
3 units
Recommended: BC placement into reading level 06.
Description: This course is designed as a first course in software engineering for mixed-majors, with an emphasis on the Computer Science major. Students will use the object-oriented programming language Python to learn the fundamentals of programming. Topics include: variables, sequence, selection, iteration, the software life-cycle, as well as common programming algorithms such as sorting and searching.
Note: Not open to students who have successfully completed COMS B10.
Hours: 54 lecture
C-ID: COMP 112
Transferable: CSU, UC, and private colleges

COMP B11 Programming Concepts and Methodology I
3 units
Prerequisites: BC placement into reading level 06 and math Level 04 or successful completion of ACDV B50 or ACDV B61 or equivalent and MATH B70 or equivalent with a grade of C or better.
Recommended: Successful completion of COMP B10 with a grade of ‘C’ or better or instructor approval.
Description: This course is an introduction to the discipline of computer science, with a focus on the design and implementation of algorithms to solve simple problems using a high-level programming language. Topics include fundamental programming constructs, problem-solving strategies, debugging techniques, declaration models, and an overview of procedural and object-oriented programming languages. Students will learn to design, implement, test, and debug algorithms using pseudocode and a high-level programming language.
Note: Not open to students who have successfully completed COMS B14.
Hours: 54 lecture
C-ID: COMP 122
Transferable: CSU, UC, and private colleges

COMP B12 Programming Concepts and Methodology II
3 units
Prerequisites: Successful completion of COMP B11 or equivalent with a grade of C or better.
Description: This is a software engineering course focused on the application of software engineering techniques for the design and development of large programs. Topics include object oriented programming, data abstraction, data structures and their associated algorithms, and recursion. Students will learn to design, implement, test, and debug programs using an object-oriented language.
Note: Not open to students who have successfully completed COMS B35.
Hours: 54 lecture
C-ID: COMP 132
Transferable: CSU, UC, and private colleges

COMP B13 Computer Architecture and Organization
3 units
Recommended: Successful completion of COMP B11 with a grade of C or better.
Description: This course is an introduction to the organization and behavior of computer systems at the assembly language level. Topics include numerical computation, the internal representation of simple data types and structures, data representation errors, and procedural errors. Students will learn how to map statements and constructs of high-level languages onto sequences of machine instructions.
C-ID: COMP 142
Hours: 54 lecture
Transferable: CSU, UC, and private colleges

COMP B14 Discrete Structures
3 units
Prerequisites: Successful completion of COMP B11 or equivalent with a grade of C or better.
Description: This course is an introduction to the discrete structures used in Computer Science with an emphasis on their applications. Topics covered include functions, relations and sets, basic logic, proof techniques, basics of counting, graphs and trees, and discrete probability.
C-ID: COMP 152
Hours: 54 lecture
Transferable: CSU, UC, and private colleges
COMP B21 Database Systems - Design & Structured Query Language (SQL)
3 units
Recommended: BC placement into reading level 06.
Description: Course emphasizes “best practices” for relational database design (modeling) and the use of Structured Query Language (SQL) for database manipulation. Normalization, data diagramming, concurrency and other key database concepts will be discussed. Microsoft Access, MySQL, Microsoft SQL Server, and other database management systems will be used to demonstrate concepts. Upon successful completion of this course, students will be able to design real world databases and manipulate them using SQL.
Note: Not open to students who have successfully completed COMS B34.
Hours: 54 lecture
Transferable: CSU and private colleges.

COMP B22 Introduction to Systems Analysis and Design
3 units
Prerequisite: Successful completion of COMP B2 with a grade of C or better.
Description: The course presents a systematic methodology for analyzing a business problem or opportunity, determining what role, if any, computer-based technologies can play in addressing the business need, articulating business requirements for the technology solution, specifying alternative approaches to acquiring the technology capabilities needed to address the business requirements, and specifying the requirements for the information systems solution in particular, in-house development, development from third-party providers, or purchased commercial-off-the-shelf packages.
Hours: 54 lecture
Transferable: CSU and private colleges.

COMP B31 CompTIA Network Security - Security+ 3 units
Recommended: BC placement into reading level 06.
Description: Course is designed for individuals interested in a career in computer network security. Course prepares students for the vendor-neutral CompTIA Security+ certification exam. Topics covered are: network security, types of security threats, hacking, computer forensics as a profession, the computer investigation process, understanding operating systems boot processes and disk structures; data acquisition and analysis, technical writing, and a review of familiar computer forensics tools.
Note: Not open to students who have successfully completed COMS B34.
Hours: 54 lecture
Transferable: CSU and private colleges.

COMP B32 CompTIA Linux+
3 units
Recommended: BC placement into reading level 06.
Description: A general introduction to Linux Installation and Administration. Covers the essentials of installing, configuring, maintaining, administering and troubleshooting the Linux Operating System.
Note: Not open to students who have successfully completed COMS B41.
Hours: 54 lecture
Transferable: CSU and private colleges.

COMP B33 CompTIA Networking Technologies - Network+
3 units
Recommended: BC placement into reading level 06.
Description: Designed for individuals interested in a career in computer networking. Course prepares students for the vendor-neutral CompTIA Network+ certification exam. Topics covered are: networking fundamentals, the OSI model, network protocols, logical and physical architectures in both local and wide area networks, the physical parts of a network (wiring, NICs, hubs, routers, bridges and switches), popular network operating systems, network troubleshooting and security.
Note: Not open to students who have successfully completed COMS B34.
Hours: 54 lecture
Transferable: CSU and private colleges.

COMP B34 CompTIA A+
4 units
Recommended: BC placement into reading level 05 or successful completion of ACDV B62 or equivalent with a grade of C or better.
Description: This course provides an introduction to the computer hardware and software skills needed to help meet the growing demand for entry-level ICT professionals. The fundamentals of computer hardware and software as well as advanced concepts such as security, networking, and the responsibilities of an ICT professional will be introduced.
Preparation for the CompTIA A+ certification exams.
Hours: 54 lecture, 54 lab
Transferable: CSU and private colleges.

COMP B35 Digital Forensics
3 units
Prerequisite: Successful completion of COMP B31 with a grade of C or better.
Recommended: Successful completion of COMP B34 with a grade of C or better.
Description: This course is an introduction to the methods used to properly conduct a computer forensics investigation beginning with a discussion of ethics, while following the objectives of the International Association of Computer Investigative Specialists (IACIS) certification. Topics covered include an overview of computer forensics as a profession, the computer investigation process, understanding operating systems boot processes and disk structures; data acquisition and analysis, technical writing, and a review of familiar computer forensics tools.
Hours: 45 lecture, 18 lab
Transferable: CSU and private colleges.

COMP B36 Introduction to Cybersecurity: Ethical Hacking
3 units
Recommended: COMP B31 and COMP B33 with a grade of C or better.
Description: This course introduces the network security specialist to the various methodologies for attacking a network. Students will be introduced to the concepts, principles, and techniques, supplemented by hands-on exercises, for attacking and disabling a network within the context of properly securing a network. The course will emphasize network attack methodologies with the emphasis on student use of network attack techniques and tools and appropriate defenses and countermeasures. Students will receive course content information through a variety of methods: lecture and demonstration of hacking tools will be used in addition to a virtual environment. Students will experience a hands-on practical approach to penetration testing measures and ethical hacking.
Hours: 45 lecture, 18 lab
Transferable: CSU and private colleges.
COMP B41 Web Design: Design Tools
3 units
**Recommended:** BC placement into reading level 06.
**Description:** This course is an introductory web design course, focusing on the use of web design tools such as Adobe Dreamweaver and other similar WYSIWYG (What you see is what you get) tools to create web pages from a design perspective. Not open to students who have previously received credit for COMS B74A.
**Hours:** 54 lecture
**Transferable:** CSU and private colleges.

COMP B42 Web Design: HTML & CSS
3 units
**Recommended:** BC placement into reading level 06.
**Description:** This course is an introductory course in designing web pages using HTML and CSS coding. Rather than using a program to write the code, students will learn how to create basic web pages and sites from the ground up using standards-compliant coding techniques. Not open to students who have previously received credit for COMS B74B.
**Hours:** 54 lecture
**Transferable:** CSU and private colleges.

COMP B43 Web Design: JavaScript
3 units
**Prerequisites:** Successful completion of COMP B42 or equivalent with a grade of C or better or instructor assessment of student’s knowledge/experience with HTML and CSS.
**Description:** This is an advanced level course in the web design area. Students will build upon previous knowledge of HTML and CSS to create dynamic and interactive web pages using JavaScript. Not open to students who have previously received credit for COMS B74C.
**Hours:** 54 lecture
**Transferable:** CSU and private colleges.

COMP B48WE Occupational Work Experience Education/Internship
1-8 units
**Prerequisites:** Declared major or occupational goal and evaluation of student's qualifications and objectives.
**Description:** College credit for Computer Science related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 hours per semester unit of paid work experience; 60 hours per semester unit of volunteer work experience. Repetition allowed per Title 5 55253.
**Hours:** Non-paid 60 hours for each 1 unit (60-480). Paid 75 hours for each 1 unit (75-600).
**Transferable:** Not transferable. Degree applicable.

COMP B72 Applied Software Design
3 units
**Prerequisites:** Successful completion of COMP B10 and COMP B11 and COMP B21 or equivalent with a grade of C or better or approval of instructor.
**Description:** The course integrates many aspects of modern end-user computer application design. This includes the SDLC needs assessment, database modeling, SQL, user interface design and the programming that ties these components together. Internal and end-user documentation will also be covered. This course should be taken as the final course for those pursuing the Software Development Certificate of Achievement.
**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

COMP B94 Web Design: PHP & MySQL
3 units
**Prerequisites:** Successful completion of COMP B42 or equivalent with a grade of C or better or assessment of student’s HTML and CSS skills and knowledge by the instructor.
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** This is an advanced web design course. Building on a foundation of the HTML coding principles and practice, students in this class will learn to develop server-side solutions using PHP and MySQL as a platform. Not open to students who have previously received credit for COMS B75C.
**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.
CRIM - Criminal Justice Courses

CRIM B1 Introduction to Criminal Justice
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: An overview of the American criminal justice system and its sub-systems; roles and role expectations of criminal justice professionals; theories of crime causation, punishment and rehabilitation; ethics, and multicultural awareness.
Hours: 54 lecture
C-ID: AJ 110/SOCI 160
Transferable: CSU, UC, and private colleges; CSU GE D; BC GE D.2

CRIM B2 Criminal Law
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Historical development, philosophy of law and constitutional provisions, definitions, classification of crimes and their application to the criminal justice system, legal research, review of case law, methodology and concepts of law as a social force. Explores crimes against persons, property, and the state as a social, religious, and historical ideology.
Hours: 54 lecture
C-ID: AJ 120
Transferable: CSU, UC, and private colleges

CRIM B3 Introduction to Evidence
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Origin, development, philosophy and constitutional basis of the law of evidence; constitutional and procedural considerations affecting arrest, search and seizure, kinds of degrees of evidence and rules governing admissibility; judicial decisions interpreting individual rights and case studies reviewed from a conceptual level.
Hours: 54 lecture
C-ID: AJ 124
Transferable: CSU and private colleges

CRIM B4 Constitutional Criminal Procedure
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Legal processes from pre-arrest, arrest through trial, sentencing and correctional procedures; a review of the history of case and common law; conceptual interpretations of law as reflected in court decisions; a study of case law methodology and case research as the decisions impact upon the procedures of the justice system.
Hours: 54 lecture
C-ID: AJ 122
Transferable: CSU and private colleges

CRIM B5 Community Relations
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: This course examines the complex, dynamic relationship between communities and the justice system in addressing crime and conflict with an emphasis on the challenges and prospects of administering justice within a diverse multicultural population. The evolving nature of multiculturalism; Multicultural populations; Managing/Policing diverse populations in correctional settings. Topics may include the consensus and conflicting values in Cultural, Religion, and Law.
Hours: 54 lecture
C-ID: AJ 160
Transferable: CSU, UC, and private colleges; CSU GE D; Hours: 54 lecture
Transferable: CSU and private colleges.

CRIM B7 Criminal Profiling of Violent Offenders
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Contemporary issues and controversies associated with criminal profiling.
Hours: 54 lecture
C-ID: AJ 140
Transferable: CSU and private colleges. Degree applicable.

CRIM B8 Criminal Investigation
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Fundamentals of criminal investigation; investigator skill requirements; modus operandi determination; the collection, identification and preservation of physical evidence; crime scene investigation; interviews and interrogations; sources of information; surveillance; field note-taking and report writing; courtroom preparation; and the investigation of specific crimes.
Hours: 54 lecture
C-ID: AJ 120
Transferable: CSU and private colleges

CRIM B9 The Juvenile Justice System
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Techniques of handling juvenile offenders and victims; prevention and suppression of delinquency; diagnosis and referral; organization of community resources; juvenile law and juvenile court procedures.
Hours: 54 lecture
C-ID: AJ 220
Transferable: CSU and private colleges

CRIM B10 Organized Crime
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Interrelations of organized crime to the community; impact of covert criminal activities upon the social structure; symptoms of organized crime activity, i.e. narcotics and white collar crime; political influences in the legal system; and management of crime control units.
Hours: 54 lecture
Transferable: CSU and private colleges.
CRIM B12 Forensic and Scientific Aspects of Evidence  
3 units  
**Recommended:** BC placement into reading level 06 and writing level 06.  
**Description:** The examination and evaluation of evidence using scientific principles and procedures for use in a legal setting including forensic (autopsy), entomology, anthropology, trace evidence (hair and fiber), fingerprints, serology, ballistics, and DNA. Emphasis on the importance of forensic evidence and science to exonerate the innocent as well as to convict the guilty.  
**Hours:** 54 lecture  
**C-ID:** AJ 150  
**Transferable:** CSU and private colleges.

CRIM B21 Introduction to Correctional Administration  
3 units  
**Recommended:** BC placement into reading level 06 and writing level 06.  
**Description:** A survey of the total ‘correctional cycle’ and the relationships of its components. Included are: historical, theoretical and philosophical explanations of criminal behavior; statistics and research findings; employment opportunities; employment requirements.  
**Hours:** 54 lecture  
**C-ID:** AJ 200  
**Transferable:** CSU and private colleges.

CRIM B22 Institutional Treatment and Supervision of Offenders  
3 units  
**Recommended:** BC placement into reading level 06 and writing level 06.  
**Description:** A survey of the basic knowledge and skills required of corrections personnel including treatment and supervision of offenders; programs, procedures, legal issues and research in the correctional setting.  
**Hours:** 54 lecture  
**Transferable:** CSU and private colleges.

CRIM B23 Fundamentals of Interviewing and Counseling  
3 units  
**Recommended:** BC placement into reading level 06 and writing level 06.  
**Description:** A survey of the basic theories and techniques employed in interviewing and counseling by the correctional worker; traces the development of the meaningful relationship between client and caseworker; explores the various types of counseling employed with a correctional relationship, including group counseling.  
**Hours:** 54 lecture  
**Transferable:** CSU and private colleges.

CRIM B24 Probation, Parole and Community Corrections  
3 units  
**Recommended:** BC placement into reading level 06 and writing level 06.  
**Description:** Theory and techniques of probation and parole supervision, including historical development with emphasis on recent programs, research, and development in the field.  
**Hours:** 54 lecture  
**Transferable:** CSU and private colleges.

CRIM B50 Criminal Justice Report Writing  
3 units  
**Recommended:** BC placement into reading level 06 and writing level 06.  
**Description:** Emphasizes the practical aspects of gathering, organizing, and preparing written reports for correctional activities on local, state, and federal levels. Covers techniques of communicating facts, information, and ideas effectively in a simple, clear and logical manner for various types of criminal justice system reports, letters, memos.  
**Hours:** 54 lecture  
**Transferable:** Not transferable. Degree applicable.

CRIM B60 Legal Aspects of Corrections  
3 units  
**Recommended:** BC placement into reading level 06 and writing level 06.  
**Description:** A survey of legal issues in the corrections environment, the civil rights of prisoners and responsibilities and liabilities of corrections officials. The historical framework, concepts and precedents that guide correctional practice.  
**Hours:** 54 lecture  
**Transferable:** Not transferable. Degree applicable.
**CRPS - Crop Science Courses**

**CRPS B1 Principles of Crop Production**
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** Fundamental practices for field, vegetable, tree, and vine crops; basic botany, classification of plants, soils, seeding, fertilizers, irrigation, pest control, and harvest plus specific practices for crops grown in the San Joaquin Valley. Students who have previously successfully completed the course may repeat when needed for State mandated pest control license. Students must obtain a special override from the Office of Admissions and Records in the Administration building.
**Hours:** 36 lecture, 54 lab
**Transferable:** CSU and private colleges; BC GE B.1

**CRPS B2 Forage Crops**
3 units
**Description:** Study of important forage crops of California and the nation; species, varieties, adaptations, production methods, feeding qualities, and processing.
**Hours:** 36 lecture, 54 lab
**Transferable:** CSU and private colleges.

**CRPS B3 Integrated Pest Management**
3 units
**Recommended:** BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better and BC placement into math level 03 or successful completion of MATH B60 or equivalent with a grade of C or better.
**Description:** Fundamental principles of pest control and management in commercial agriculture. Includes pest identification, pestilence diagnosis, and methods of chemical, physical, and biological control. Students who have previously successfully completed the course may repeat when needed for State mandated pest control license. Students must obtain a special override from the Office of Admissions and Records in the Administration building. Field trips required.
**Hours:** 36 lecture, 54 lab
**Transferable:** CSU and private colleges.

**CRPS B4 Vegetable Production**
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** Principles and practices of vegetable crop production. Methods used in seeding, propagation and culture of vegetables and the application of the principles underlying vegetable production techniques.
**Hours:** 36 lecture, 54 lab
**Transferable:** CSU, UC, and private colleges

**CRPS B5 Plant Science**
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** This course is designed to provide the students with a working knowledge of the fundamental structures and processes of plants. Principles to be applied cover plant structures, physiology, heredity, environmental relationship to growth, adaptation, and management of crops. Techniques of research, exploration of plant growth, and identification of economical crops will be included.
**Hours:** 36 lecture, 54 lab
**C-ID:** AG-PS 104
**Transferable:** CSU, UC, and private colleges; IGETC 5B, 5C; CSU GE B.2, B.3; BC GE B.1

**CRPS B16 Introduction to Viticulture**
3 units
**Description:** An introduction to viticulture including grape growing, history, distribution, biology, anatomy, propagation, cultivated varieties, rootstocks, climate, vineyard practices, common diseases and pests.
**Hours:** 36 lecture, 54 lab
**Transferable:** CSU and private colleges.

**CRPS B48WE Occupational Work Experience/Internship**
1-8 units
**Prerequisites:** Declared major or occupational goal and evaluation of student's qualifications and objectives.
**Description:** College credit for crop science related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 55253.
**Hours:** Non-paid 60 hours for each 1 unit (60 - 480). Paid 75 hours for each 1 unit (75 - 600).
**Transferable:** CSU and private colleges.
DANC - Dance Courses

DANC B6BLB Beginning Ballet (PHED B6BLB)
1 unit
**Description:** Coeducational beginning ballet course, includes proper warm-up exercise, technical skills and terminology.
**Hours:** 54 lab
**Transferable:** CSU, UC, and private colleges; BC GE E

DANC B6JD Jazz Dance (PHED B6JD)
1 unit
**Description:** Fundamental Jazz techniques and fundamental terminology of ballet as they relate to jazz dancing; including warm-up exercises for the preparation of the human body as an instrument for dance. Different styles and rhythms of jazz dance and music for jazz dance will be introduced.
**Note:** Not open to students who have completed PHED B6JD.
**Hours:** 54 lab
**Transferable:** CSU, UC, and private colleges. BC GE E
ECON - Economics Courses

ECON B1 Principles of Economics-Micro
3 units
Prerequisites: BC placement into math level 03 or successful completion of MATH B60 or equivalent with a grade of C or better.
Recommended: BC placement into reading level 06, writing level 06, and math level 04.
Description: This is an introductory course focusing on choices of individual economic decision-makers. Topics include scarcity, specialization and trade, market equilibrium, elasticity, production and cost theory, market structures, factor markets, and market failure.
Hours: 54 lecture
C-ID: ECON 201
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2

ECON B2 Principles of Economics-Macro
3 units
Prerequisites: BC placement into math level 03 or successful completion of MATH B60 or equivalent with a grade of C or better.
Recommended: BC placement into reading level 06, writing level 06, and math level 04.
Description: An introductory course focusing on aggregate economic analysis. Topics include: market systems, aggregate measures of economic activity, macroeconomic equilibrium, money and financial institutions, monetary and fiscal policy, international economics, and economic growth.
Hours: 54 lecture
C-ID: ECON 202
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2
EDUC - Education Courses

EDUC B24 Early Field Experience for Elementary Teachers
3 units

Description: This course introduces students to the concepts and issues related to teaching diverse learners in today’s contemporary schools, Kindergarten through grade 12 (K-12). Topics include teaching as a profession and career, historical and philosophical foundations of the American education system, contemporary educational issues, California’s content standards and frameworks, and teacher performance standards. In addition to class time, the course requires a minimum of 50 hours of structured fieldwork in public school elementary classrooms that represent California’s diverse student population, and includes cooperation with at least one certificated classroom teacher.

Note: Special Education majors must complete 25 hours in a special education classroom.

Hours: 54 lecture
C-ID: EDUC 200
Transferable: CSU, UC, and private colleges
ELET - Electronics Technology Courses

ELET B1A Basic Electronics (DC)  
3 units  
**Description:** An introduction to basic electricity and electronics, DC circuit types and circuit analysis, basic electronic components and electronic schematic diagram symbols, interpreting schematic diagrams, soldering skills, basic electronic test equipment use and measurement methods, and electromagnetic relays and relay circuits.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

ELET B1B Electronics and Electric Technology  
3 units  
**Prerequisite:** Successful completion of ELET B1 or ELET B1A with a grade of C or better.  
**Description:** This course is the companion to ELET B1A, Basic Electronics (DC).  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

ELET B3 Programmable Logic Controllers  
3 units  
**Description:** The function and application of programmable logic controllers. Students will become familiar with the programming and wiring of Allen Bradley SLC-500 series controllers with RSLogix software. Topics covered include bit-level input and output instructions, timers, counters, latches, documentation, and troubleshooting.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

ELET B4 Computer Integrated Manufacturing  
3 units  
**Prerequisites:** Successful completion of ELET B3 or equivalent with a grade of C or better.  
**Description:** Introduction to industrial automation technologies and the procedures utilized when troubleshooting automated control systems. Topics include programmable logic controllers (PLC), machine control, industrial robots, and material handling systems. Students will be exposed to cutting edge systems utilizing Industry 4.0 Standards.  
**Note:** Not open to students who have completed MFGT B4 or MFGT B50.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

ELET B6 Analog and Digital Electronics  
3 units  
**Prerequisites:** Successful completion of ELET B1 or equivalent with a grade of C or better.  
**Description:** Applications of analog and digital electronic circuits and systems. Content includes: semiconductor components, analog circuits (power supplies, amplifiers, and oscillators), digital electronic circuits (logic gates, sequential logic circuits), digital signal processing (A/D and D/A conversion).  
**Note:** Not open to students who have taken ELET B9 and ELET B12.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

ELET B48WE Occupational Work Experience Education/Internship  
1-8 units  
**Prerequisites:** Declared major or occupational goal and evaluation of student's qualifications and objectives.  
**Description:** College credit for Electronic Technology related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 hours per semester unit at paid work experience; 60 hours per semester unit volunteer work experience per unit. Repetition allowed per Title 5 55253.  
**Hours:** Non-paid 60 hours for each 1 unit (60-480). Paid 75 hours for each 1 unit (75-600).  
**Transferable:** Not transferable.

ELET B55A Electric Motors - Controls  
3 units  
**Prerequisites:** Successful completion of ELET B1 or ELET B1A with a grade of C or better.  
**Description:** A basic study of electric motors, control systems, and electrical power, including: safety and personal protective equipment, NFPA 70e code, electrical drawings and diagrams, motor control devices and circuits, electric motor types, three phase power and transformers, and power factor correction. Lab activities include simulation and wiring of control circuits, DC and AC motor types, motor performance characteristics, transformer configurations, and other industrial motion applications. Not open to students with credit in ELET B55.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** Not transferable. Degree applicable.

ELET B56 Instrumentation and Process Control  
3 units  
**Prerequisites:** Successful completion of ELET B1 or ELET B1A with a grade of C or better.  
**Description:** Basic principles of process instrumentation and control. Topics include: Properties of and methods to perform direct or inferred measurement to manage pressure, temperature, level and flow. Operation of common final control elements. Identifying and configuring basic open and closed loop control algorithms with their associated communication methods. System for identification and labeling of instrumentation and control elements.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** Not transferable. Degree applicable.

ELET B58 Advanced Programmable Logic Controllers  
3 units  
**Prerequisites:** Successful completion of ELET B5 with a grade of C'
Description: The function and application of programmable logic controllers. Students will become familiar with the programming of Allen Bradley Control Logix series controllers with RSLogix 5000 software, providing all of the basics of using the Rockwell Automations Control Logix platform of PLCs. It will allow students to be involved with either maintenance, or engineering of control systems and machinery with the latest technology from Rockwell Automation. Students will have both theory and lab time, learning how to put a system together, understanding the memory and data structure of the PLC, and writing simple programs. Documenting the written program utilizing the features of the programming software as well as troubleshooting techniques will also be emphasized throughout the course.

Hours: 36 lecture, 54 lab
Transferable: Not transferable. Degree applicable.

ELET B61 Telecommunications
3 units
Prerequisites: Successful completion of ELET B1 or ELET B1A with a grade of C or better.
Description: Elements of residential and commercial phone systems, electronic communications “basics,” communication protocols, copper and fiber-optic transmission line characteristics, fiber-optic cabling and systems, commercial premise structured cabling systems, and other non-radio-based communication topics will be covered in this course.

Hours: 36 lecture, 54 lab
Transferable: Not transferable. Degree applicable.

ELET B62 Radio Communications
3 units
Prerequisites: Successful completion of ELET B1 or ELET B1A with a grade of C or better.
Description: Introduction to the basic circuits and systems used for RF communications systems, including microwave and satellite communications, two-way radio systems, AM, FM, NBFM, and SSB modulation, WiFi, antenna systems, and transmission lines.

Hours: 36 lecture, 54 lab
Transferable: Not transferable. Degree applicable.

ELET B63 Electronic Systems Installation
3 units
Prerequisites: Successful completion of ELET B1 or ELET B1A with a grade of C or better.
Description: Electronic System Installation covers the design, installation, integration, and certification of residential low-voltage wiring systems, such as: telephone, data communications, video systems, cable and satellite systems, audio systems, home automation, security systems, and other integrated home technologies. Hands-on installation, testing, and certification of these systems will occur during the lab portion of this course. Students will be prepared for residential low-voltage industry certifications.

Hours: 54 lecture, 54 lab
Transferable: Not transferable. Degree applicable.

ELET B70 Mechanical Systems
3 units
Description: Introduction to machinery and machining processes, essential elements of mechanical systems, mechanical drives (gears, belts and pulleys, clutches), mechanical hardware, bushings, bearings, lubrication systems, basic properties of materials, hydraulics and pneumatics, preventive maintenance, basic hand and power tools, and basic precision dimensional measurement.

Hours: 36 lecture, 54 lab
Transferable: Not transferable. Degree applicable.
EMLS - English for Multilingual Students

EMLS B50 Introduction to College Composition
4 units
Prerequisites: BC placement into writing level 05 or successful completion of EMLS B60 or equivalent with a grade of C or better.
Description: Recommended for international and multilingual students who need to improve their skills in composition and persuasion as well as comprehension and analysis of reading. Stresses both organization and in-depth essay development as well as critical thinking. Prepares students for ENGL B1A.
Note: Not open to students who have completed ENSL B50 or ENSL B1.
Hours: 72 lecture
Transferable: Not transferable. Not degree applicable.

EMLS B50NC Introduction to College Composition
0 units
Prerequisites: BC placement into writing level 05 or successful completion of EMLS B60 or equivalent with a grade of C or better.
Description: Recommended for international and multilingual students who need to develop their skills in composition and persuasion as well as comprehension and analysis of reading. Stresses both organization and in-depth essay development as well as critical thinking. Prepares students for ENGL B1A.
Note: Not open to students who have completed ENSL B50, EMLS B50, or ENSL B1.
Hours: 72 lecture
Repeatable: 3
Transferable: Not transferable. Not degree applicable.

EMLS B51 Advanced Reading
3 units
Prerequisites: BC placement into reading level 05 or successful completion of EMLS B61 or equivalent with a grade of C or better.
Description: Recommended for international and multilingual students who need to improve reading comprehension and build vocabulary in English. Emphasis is on identifying main ideas, summarizing, inferring, analyzing, drawing comparisons, and developing more advanced vocabulary by reading complex academic and literary texts. Prepares students for college level reading.
Note: Not open to students who have completed ENSL B50.
Hours: 54 lecture
Transferable: Not transferable. Not degree applicable.

EMLS B51NC Advanced Reading
0 units
Prerequisites: BC placement into reading level 05 or successful completion of EMLS B61 or equivalent with a grade of C or better.
Description: Recommended for international and multilingual students who need to improve reading comprehension and build vocabulary in English. Emphasis is on identifying main ideas, summarizing, inferring, analyzing, drawing comparisons, and developing more advanced vocabulary by reading complex academic and literary texts. Prepares students for college level reading.
Note: Not open to students who have completed ENSL B50.
Hours: 54 lecture
Repeatable: 3
Transferable: Not transferable. Not degree applicable.

EMLS B52 Advanced Communication Skills
3 units
Prerequisites: BC placement into reading 05 or successful completion of EMLS B62 or equivalent with a grade of C or better.
Description: Recommended for international and multilingual students who need prescriptive training in pronunciation, stress and intonation in spontaneous speech. Development of oral communication skills through formal presentations and debates. Analysis of lectures, arguments, and academic discussions.
Note: Not open to students who have completed ENSL B22.
Hours: 54 lecture
Transferable: Not transferable. Not degree applicable.

EMLS B52NC Advanced Communication Skills
0 units
Prerequisites: BC placement into reading 05 or successful completion of EMLS B62 or equivalent with a grade of C or better.
Description: Recommended for international and multilingual students who need prescriptive training in pronunciation, stress and intonation in spontaneous speech. Development of oral communication skills through formal presentations and debates. Analysis of lectures, arguments, and academic discussions.
Note: Not open to students who have completed ENSL B22.
Hours: 54 lecture
Repeatable: 3
Transferable: Not transferable. Not degree applicable.

EMLS B60 Basic Skills Writing
4 units
Prerequisites: BC placement into writing level 04 or successful completion of EMLS B70 or equivalent with a grade of C or better.
Description: Recommended for international and multilingual students at the advanced level of English who require grammar and composition skills necessary to take essay exams, improve personal and professional writing, or prepare for EMLS B50 or ENGL B50.
Note: Not open to students who have completed ENSL B60.
Hours: 72 lecture
Transferable: Not transferable. Not degree applicable.

EMLS B60NC Basic Writing Skills
0 units
Prerequisites: BC placement into writing level 04 or successful completion of EMLS B70 with a grade of C or better.
Description: Recommended for international and multilingual students at the advanced level of English who require grammar and composition skills necessary to take essay exams, improve personal and professional writing, or prepare for EMLS B50, EMLS B50NC, or ENGL B50. Note: Not open to students who have completed ENSL B60 or EMLS B60.
Hours: 72 lecture
Repeatable: 3
Transferable: Not transferable. Not degree applicable.

EMLS B61 Intermediate Reading
4 units
Prerequisites: BC placement into reading level 04 or successful completion of EMLS B71 or equivalent with a grade of C or better.
Description: Recommended for international and multilingual students who need to improve reading comprehension and build
vocabulary in English. Emphasis is on identifying main ideas, summarizing, making inferences, and developing vocabulary, using more complex academic reading selections than in EMLS B71.

**Note:** Not open to students who have completed ENSL B51 or ACDV B61.

**Hours:** 72 lecture

**Transferable:** Not transferable. Not degree applicable.

### EMLS B61NC Intermediate Reading

**0 units**

**Prerequisites:** BC placement into reading level 04 or successful completion of EMLS B71 or equivalent with a grade of C or better.

**Description:** Recommended for international and multilingual students who need to improve reading comprehension and build vocabulary in English. Emphasis is on identifying main ideas, summarizing, making inferences, and developing vocabulary, using more complex academic reading selections than in EMLS B71.

**Note:** Not open to students who have completed ENSL B51 or EMLS B61.

**Hours:** 72 lecture

**Repeatable:** 3

**Transferable:** Not transferable. Not degree applicable.

### EMLS B62 Intermediate Communication Skills

**3 units**

**Prerequisites:** BC placement into reading level 04 or successful completion of EMLS B72 or equivalent with a grade of C or better.

**Description:** Recommended for international and multilingual students who need communication and pronunciation skills. Emphasis is on critical listening skills, oral presentations, class discussions, and pronunciation practice.

**Note:** Not open to students who have completed ENSL B21.

**Hours:** 54 lecture

**Transferable:** Not transferable. Not degree applicable.

### EMLS B62NC Intermediate Communication Skills

**0 units**

**Prerequisites:** BC placement into reading level 04 or successful completion of EMLS B72 or equivalent with a grade of C or better.

**Description:** Recommended for international and multilingual students who need communication and pronunciation skills. Emphasis is on critical listening skills, oral presentations, class discussions, and pronunciation practice. Note: Not open to students who have completed ENSL B21 or EMLS B62.

**Hours:** 54 lecture

**Repeatable:** 3

**Transferable:** Not transferable. Not degree applicable.

### EMLS B70 Grammar and Composition

**4 units**

**Prerequisites:** BC placement into writing level 03.

**Description:** Recommended for international and multilingual students at the high-intermediate level of English who require grammar and composition skills necessary to take essay exams, improve personal written communication, or prepare for EMLS B60.

**Note:** Not open to students who have completed ENSL B70 or ENSL B3.

**Hours:** 72 lecture

**Transferable:** Not transferable. Not degree applicable.

### EMLS B70NC Grammar and Composition

**0 units**

**Prerequisites:** BC placement into writing level 03.

**Description:** Recommended for multilingual students at the high-intermediate level of English who require grammar and composition skills necessary to take essay exams, improve personal written communication, or prepare for EMLS B60.

**Note:** Not open to students who have completed ENSL B70, EMLS B70, or ENSL B3.

**Hours:** 72 lecture

**Repeatable:** 3

**Transferable:** Not transferable. Not degree applicable.

### EMLS B71 Basic Reading

**4 units**

**Prerequisites:** BC placement into writing level 03.

**Description:** Recommended for international and multilingual students who need to improve reading comprehension and build their vocabulary in English. Emphasis is on identifying main ideas, summarizing, making inferences, developing vocabulary, and using academic language.

**Note:** Not open to students who have completed ENSL B61.

**Hours:** 72 lecture

**Transferable:** Not transferable. Not degree applicable.

### EMLS B71NC Basic Reading

**0 units**

**Prerequisites:** BC placement into writing level 03.

**Description:** Recommended for international and multilingual students who need to improve reading comprehension and build their vocabulary in English. Emphasis is on identifying main ideas, summarizing, making inferences, developing vocabulary, and using academic language.

**Note:** Not open to students who have completed ENSL B61 or EMLS B71.

**Hours:** 72 lecture

**Repeatable:** 3

**Transferable:** Not transferable. Not degree applicable.

### EMLS B72 Basic Communication Skills

**4 units**

**Prerequisites:** BC placement into reading level 03.

**Description:** Recommended for international and multilingual students who need to improve their listening and speaking skills in small groups as well as in larger settings. The focus is on improving pronunciation, intonation, rhythm, and stress patterns as well as listening comprehension in small group settings and classroom lectures.

**Note:** Not open to students who have completed ENSL B71CD.

**Hours:** 72 lecture

**Transferable:** Not transferable. Not degree applicable.

### EMLS B72NC Basic Communication Skills

**0 units**

**Prerequisites:** BC placement into reading level 03.

**Description:** Recommended for multilingual students who need to improve their listening and speaking skills in small groups as well as in larger settings. The focus is on improving pronunciation, intonation, rhythm, and stress patterns as well as listening comprehension in small group settings and classroom lectures.

**Note:** Not open to students who have completed ENSL B71CD or EMLS B72.

**Hours:** 72 lecture

**Repeatable:** 3

**Transferable:** Not transferable. Not degree applicable.
EMLS B75NC College and Career Transitions

0 units

Description: This course is designed for ESL students currently enrolled in level 5 of Bakersfield, Wasco, or Delano Adult School in order to assist them in their transition to Bakersfield College. They will learn about various departments at Bakersfield College as well as the educational paths and employment opportunities associated with various career options.

Hours: 36 lecture

Repeatable: 3

Transferable: Not transferable. Not degree applicable.
EMTC - Emergency Medical Technician Courses

EMTC B10 Paramedic 1
6 units
Prerequisites: Limitation on enrollment, acceptance into the Paramedic Program.
Corequisite: EMTC B11 must be taken concurrently.
Description: This course introduces the student to the roles and responsibilities of the Paramedic within the Emergency Medical System. The student will be expected to apply basic concepts of anatomy, pathophysiology, pharmacology, patient assessment, the health and safety of the paramedic, documentation, and medical legal issues to be able to formulate a ‘field impression’ of patient status.
Hours: 108 lecture
Transferable: CSU and private colleges.

EMTC B11 Paramedic Skills Lab 1
1 unit
Prerequisites: Limitation on enrollment, acceptance into the Paramedic Program and possess a high school diploma or general education equivalent and possess a current EMT certificate or NREMT-Basic registration or possess a current AEMT certificate in the State of California or be currently registered as an EMT-Intermediate with the NREMT and possess a current basic cardiac life support (CPR) card equivalent to the current American Heart Association’s Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care at the healthcare provider level.
Corequisite: EMTC B10 must be taken concurrently.
Description: The focus of this skills lab course is to allow the student hands-on practice as well as to test for competency in patient assessment, medication administration, airway management, and cardiology. The topics taught in this course will be coordinated to align with the weekly lessons taught during lecture in order to meet the performance objectives of the program. This lab course is hosted in a simulation lab and is the corequisite for EMTC B10 and EMTC B12.
Hours: 54 lab
Transferable: CSU and private colleges.

EMTC B12 Paramedic 2
6 units
Prerequisites: Limitation on enrollment, acceptance into the Paramedic Program.
Corequisite: EMTC B11 must be taken concurrently.
Description: This course includes the foundational material necessary to assess and manage patients in need of prehospital advanced life support at the paramedic level. Topics include: Prehospital Pharmacology, Cardiology, and Airway Management.
Hours: 108 lecture
Transferable: CSU and private colleges.

EMTC B13 Paramedic 3
6 units
Prerequisites: Limitation on enrollment, acceptance into the Paramedic Program and successful completion of EMTC B10, EMTC B11, and EMTC B12 with a minimum GPA of 80%.
Corequisite: EMTC B14 must be taken concurrently.
Description: This course builds upon previous paramedic content and introduces the basic concepts of gastroenterology, genitourinary, hematology, non-traumatic musculoskeletal conditions, toxicology, psychology, medical ailments of the head, eyes, ears, nose, and throat, pulmonology, endocrinology immunology, neurology, and communicable diseases.
Hours: 108 lecture
Transferable: CSU and private colleges.

EMTC B14 Paramedic Skills Lab 2
1 unit
Prerequisites: Limitation on enrollment, acceptance into the Paramedic Program.
Corequisite: EMTC B13 must be taken concurrently.
Description: The focus of this course is to build upon the knowledge gained in the first semester paramedic classes and to prepare the student for real hands-on experience in the clinical setting. This course tests for competency in patient assessment, medication administration, airway management, cardiology, medical emergencies and traumas. The topics taught in this course will be coordinated to align with the weekly lessons taught during lecture in order to meet the performance objectives of the program.
Hours: 54 lab
Transferable: CSU and private colleges.

EMTC B15 Paramedic 4
6 units
Prerequisites: Limitation on enrollment, acceptance into the Paramedic Program.
Corequisite: EMTC B14 must be taken concurrently.
Description: This course builds upon the content from the first semester paramedic courses and introduces the basic concepts of shock, traumas/burns, environmental emergencies, geriatrics, abuse, home health/special needs, ambulance operations, and weapons of mass destruction, Hazmat, bio terrorism, and the incident command system.
Hours: 108 lecture
Transferable: CSU and private colleges.

EMTC B16 Paramedic Clinical Lab
3.5 units
Prerequisites: Limitation on enrollment: acceptance into the Paramedic Program and EMTC B15 successful completion (within 6 months) of paramedic didactic courses with an 80% or higher GPA.
Description: This course involves clinical experience in the hospital setting enabling the paramedic student to utilize theory and practice learned during the didactic phase. The clinical rotation puts an emphasis on patient assessments and utilization of paramedic skills in the hospital setting under the direct supervision of an RN and/or MD as the clinical preceptor.
Materials Fee: $24.00
Hours: 189 lab
Transferable: CSU and private colleges.

EMTC B17 Paramedic Field Internship
10 units
Prerequisite: Limitation on Enrollment, Acceptance into the Paramedic Program. Successful completion of EMTC B16 with a grade of C or better and successful completion (within 3 months) of EMTC B30 with an 80% or higher GPA.
Description: This is the final course of the paramedic program. Field training is performed in a 911 system on an advanced life support ambulance under the direct supervision of a qualified paramedic preceptor. Field training continues the refinement of learned skills.
It also advances student understanding by introducing them to a wide variety of prehospital emergencies in the form of on the job training.

**Materials Fee:** $24.00  
**Hours:** 540 lab  
**Transferable:** CSU and private colleges.

**EMTC B50 Emergency Medical Technician-1**  
8 units  
**Prerequisites:** Limitation on Enrollment, Student must be 18 years of age by the completion date of the course. Mandatory physical examination/immunizations and fit testing must be completed 2 weeks after the start of the course. Costs of meeting health requirements are paid by the student. Failure to meet these requirements will result in student ineligibility for clinical rotations. Students must have a copy of a current BLS (American Heart Association Health Care Provider) card.  
**Recommended:** Successful completion of MEDS B60 with a grade of ‘C’ or better.  
**Description:** Provides foundational skills and assessment techniques to care for an ill or injured person in the pre-hospital setting. Closely follows state regulations for EMT-1 training and leads to certification at the local, county, and state level. Required for all ambulance personnel and appropriate for many other first responders such as law enforcement and fire personnel. The student must meet health requirements to participate in the lab section of the course. Any expenses involved in meeting the health requirements are the student’s expense. Mandatory physical examination/immunizations will be required within 2 weeks of the beginning of the course and are at the student’s expense. Failure to meet these requirements will result in student ineligibility for clinical objectives.  
**Materials Fee:** $24.00  
**Hours:** 135 lecture, 27 lab  
**Transferable:** Not transferable. Degree applicable.

**EMTC B50R Emergency Medical Technician I Recertification Preparation**  
1 unit  
**Prerequisites:** Must possess current EMT-1 certification or certification that has expired in less than one year.  
**Description:** A review of material in EMTC B50 with updates on EMT-1 issues and new material or skill techniques. An approved refresher course that follows state regulations and leads to a recertification completion certificate. Required to continue practice of pre-hospital emergency care.  
**Materials Fee:** $24.00  
**Hours:** 24 lecture  
**Repeat:** Legally Mandated Training  
**Transferable:** Not transferable. Degree applicable.

**EMTC B51 Emergency Medical Responder**  
3 units  
**Description:** This course is designed to train fire service personnel to render pre-hospital basic life support care under field emergency conditions. The CDCR FIRE EMR course complies with the National EMS Education standards for Emergency Medical Responder. This course has been approved by the California EMS Authority.  
**Hours:** 54 lecture  
**Transferable:** Not transferable. Degree applicable.

**EMTC B60 Paramedic Preparation**  
1.5 units  
**Prerequisite:** Possess a high school diploma or general education equivalent; and possess a current basic cardiac life support (CPR) card equivalent to the current American Heart Association’s Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care at the healthcare provider level; and possess a current EMT certificate or NREMT-Basic registration; or possess a current AEMT certificate in the State of California; or be currently registered as an EMT Intermediate with the NREMT.  
**Recommended:** One year full-time experience working on an ambulance as an EMT  
**Description:** The Paramedic Preparatory Course is designed to aid in the transition from the level of emergency medical technician (EMT) to the level of paramedic student. The course is designed to prepare the student for the rigorous intensity of the paramedic program and introduce the student to the study skills necessary to be successful in the Bakersfield College’s paramedic program. Other topics included in this course will be reviewing of the basic life support skills (BLS) learned in the EMT course, as well as introducing the student to basic advanced life support (ALS) topics, such as electrocardiogram (ECG) rhythms, pathophysiology, pharmacology, and advanced airway maintenance.  
**Hours:** 27 lecture  
**Transferable:** Not transferable. Not degree applicable.
ENGL - English Courses

ENGL B1A Expository Composition
3 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50 or ENGL B53, or EMLS B50 or equivalent with a grade of C or better.
Description: Critical reading, writing, and thinking. Students will critically read and write primarily expository and argumentative texts that respond to a variety of rhetorical situations and contexts and incorporate college-level research. Minimum 6,000 words formal writing.
Hours: 54 lecture
C-ID: ENGL 100
Transferable: CSU, UC, and private colleges; IGETC 1.A; CSU GE A.2; BC GE A.2

ENGL B1B Introduction to Types of Literature
3 units
Prerequisites: Successful completion of ENGL B1A or equivalent with a grade of C or better.
Description: Introductory course in literature, comprising critical analysis of notable works in prose fiction, drama, and poetry, with emphasis on evaluating the logical relationship between form and content and on formulating criteria for artistic judgment. Continued instruction in the communication skills of writing, listening, and discussing.
Hours: 54 lecture
C-ID: ENGL 120
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE A.3; CSU GE C.2; BC GE C.2

ENGL B2 Advanced Composition and Critical Thinking
4 units
Prerequisites: Successful completion of ENGL B1A or equivalent with a grade of C or better.
Description: An interdisciplinary team-taught course. Expository writing, reading of expository and literary works; study of the most important ideas in great works in disciplines such as philosophy, natural science, literature, and the social and behavioral sciences; survey of methods of critical thinking and advanced composition.
Hours: 72 lecture
C-ID: ENGL 105
Transferable: CSU, UC, and private colleges; IGETC 1.B; CSU GE A.3; BC GE A.2

ENGL B3 Argumentative Writing and Critical Thinking Through Literature
4 units
Prerequisites: Successful completion of ENGL B1A with a grade of C or better.
Description: This course offers instruction in argumentative, critical, and analytical writing, critical thinking, research strategies, information literacy, and proper documentation through the study of literary works from major genres, while developing students' close reading skills and promoting an appreciation for the aesthetic qualities of literature.
Hours: 72
C-ID: ENGL 110
Transferable: CSU, UC, and private colleges; IGETC 1.B; CSU GE A.3; BC GE A.2

ENGL B5A Survey of English Literature
3 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better.
Recommended: Successful completion of ENGL B1B with a grade of C or better.
Description: A historical survey of English literature, emphasizing critical reading of representative works from Beowulf through the seventeenth century. Recommended for students whose major or minor is English and for students who desire to extend their knowledge of the literary tradition.
Hours: 54 lecture
C-ID: ENGL 160
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

ENGL B5B Survey of English Literature
3 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better.
Recommended: Successful completion of ENGL B1A with a grade of C or better.
Description: A historical survey of English literature, emphasizing critical reading of representative works from eighteenth century through the twenty-first century. Recommended for students whose major or minor is English and for students who desire to extend their knowledge of the literary tradition.
Hours: 54 lecture
C-ID: ENGL 165
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

ENGL B10 Introduction to Shakespeare
3 units
Prerequisites: Successful completion of ENGL B1A or equivalent with a grade of C or better.
Description: Study of the drama and sonnets of William Shakespeare. Recommended as an elective for majors in the humanities, history, or education. Historical information pertaining to Shakespeare and Elizabethan England will also be covered to increase students' appreciation of the Bard's accomplishments. Classroom discussions, oral presentations, and performance footage will provide further examples of the ongoing relevance of Shakespeare's work today.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

ENGL B20A Survey of World Literature
3 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better.
Recommended: Successful completion of ENGL B1A with a grade of C or better.
Description: A study of representative works of world literature in historical and cultural contexts, focusing on their aesthetic significance and the enduring human values which unite the different literary traditions. Covers antiquity to approximately 1650.
Hours: 54 lecture
C-ID: ENGL 140
ENGL B21 African-American Literature
3 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better.
Recommended: Successful completion of ENGL B1A with a grade of C or better.
Description: A historical survey of major authors, works, genres, themes, and movements in African-American literature in America from colonial times to the present.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

ENGL B24 Latino/a Literature
3 units
Prerequisites: BC placement into reading level 06 or successful completion of ENGL B50 or ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Description: This course will study works written by Latinas/os in the United States and Latin America in order to discover the ways in which these works have interacted with specific cultures and contexts, from colonialism to the present.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

ENGL B25B Survey of World Literature
3 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better.
Recommended: Successful completion of ENGL B1A with a grade of C or better.
Description: A study of representative works of world literature in historical and cultural contexts, focusing on their aesthetic significance and the enduring human values which unite the different literary traditions. Covers approximately 1650 to present. Not open to students who have completed ENGL B20B.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.

ENGL B27 The Bible as Literature
3 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better.
Recommended: Successful completion of ENGL B1A with a grade of C or better.
Description: Interpretation and analysis of Old and New Testament genres: Narrative, poetry, drama, epistles, didactics, wisdom, and prophecy.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

ENGL B28 Classical Mythology
3 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better.
Recommended: Successful completion of ENGL B1A with a grade of C or better.
Description: A study of classical myth, saga, and local legend, primarily Greek and Roman. Relates classical myths to historical and modern culture.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

ENGL B30A Survey of American Literature
3 units
Prerequisites: BC placement into level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better.
Recommended: Successful completion of ENGL B1A with a grade of C or better.
Description: Study of the most notable American authors from the colonial period to the American Civil War with emphasis on the intrinsic value of the literature.
Hours: 54 lecture
C-ID: ENGL 130
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

ENGL B30B Survey of American Literature
3 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better.
Recommended: Successful completion of ENGL B1A with a grade of C or better.
Description: Study of the most notable American authors from the second half of the 19th century to the present with emphasis on the intrinsic value of the literature.
Hours: 54 lecture
C-ID: ENGL 135
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

ENGL B33 Children's Literature
3 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50, ENGL B53 or equivalent with a grade of C or better.
Description: This course introduces major works and develops students' reading and analytical writing skills while promoting an appreciation for the aesthetics, history, authors, genres, and themes of children's literature. Readings will include folklore, oral tradition, contemporary stories, illustrated books, poetry, and juvenile novels from a variety of cultures and critical perspectives.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.B, CSU GE C.2, BC GE C.2

ENGL B41A Introduction to Creative Writing
3 units
Prerequisites: BC placement into writing level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better.
Recommended: Successful completion of ENGL B1A with a grade of C or better.
Description: Introduction to the craft of creative writing of poetry, fiction, and other genres. Students will read, discuss, and analyze various literary works, and will produce and revise their own works. In addition, they will give and receive constructive criticism in a workshop environment.
Hours: 54 lecture
C-ID: ENGL 200
Transferable: CSU and private colleges.
ENGL B50 Introduction to College Composition
4 units
**Prerequisites:** BC placement into writing level 05 or successful completion of ENGL B60 or equivalent with a grade of C or better.
**Description:** Emphasizes the writing of expository and argumentative essays and the comprehension and analysis of readings. Prepares transfer students for English B1A.
**Hours:** 72 lecture
**Transferable:** Not transferable. Not degree applicable.

ENGL B53 Reading, Reasoning, and Writing
4 units
**Prerequisites:** BC placement into writing level 04 or successful completion of ACDV B80 or equivalent with a grade of C or better.
**Description:** Emphasizes developing arguments and strengthening critical thinking, organizing, and reading and writing skills relevant to college work through a thematic approach. Prepares students for English B1A.
**Note:** For courses that list ENGL B50 as a prerequisite, either ENGL B50 or ENGL B53 with a grade of ‘C’ or better may be used.
**Hours:** 72 lecture
**Transferable:** Not transferable. Not degree applicable.

ENGL B60 Basic Writing Skills
4 units
**Prerequisites:** BC placement into writing level 04 or successful completion of ACDV B80 or equivalent with a grade of C or better.
**Description:** Review and application of fundamentals of standard English. Emphasizes sentence, paragraph, and short essay writing.
**Hours:** 72 lecture
**Transferable:** Not transferable. Not degree applicable.

ENGL B100 Technical Writing
3 units
**Prerequisites:** Admissions to the Bachelor of Science, Industrial Automation Program
**Description:** Study of the process of technical writing and written communication. Students review various formats and writing purposes and produce technical and business-related documents.
**Hours:** 54 lecture
**Transferable:** Bachelor’s Degree Applicable–
ENGR - Engineering Courses

ENGR B17 Introduction to Electrical Circuits
3 units
Prerequisites: Successful completion of PHYS B4B or equivalent with a grade of C or better.
Corequisite: Math B6D with a grade of ‘C’ or better, or may be taken concurrently.
Description: Principles and techniques of D.C. and A.C. circuit analysis, including Kirchhoff’s laws, mesh and nodal analysis, Thevenin’s and Norton’s theorems, impedance, phasors, frequency response, power calculations, natural and forced responses, analog building blocks, operational amplifiers, and Laplace transforms.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges

ENGR B17L Electric Circuit Lab
1 unit
Prerequisites: Successful completion of ENGR B17 or equivalent with a grade of C or better or may be taken concurrently.
Description: An introduction to the construction and measurement of electrical circuits. Basic use of electrical test and measurement instruments including multimeters, oscilloscopes, power supplies, and function generators. Use of circuit simulation software. Interpretation of measured and simulated data based on principles of circuit analysis for DC, transient, and sinusoidal steady-state (AC) conditions. Elementary circuit design. Practical considerations such as component value tolerance and non-ideal aspects of lab instruments. Construction and measurement of basic operational amplifier circuits.
Hours: 54 lab
Transferable: CSU, UC, and private colleges

ENGR B19C Introduction to Programming Concepts and Methodologies for Engineers
4 units
Prerequisites: Successful completion of MATH B1B or equivalent with a grade of C or better.
Description: The purpose of this course is expose students to (1) the fundamental concepts of procedure oriented programming, (2) associated abstraction mechanisms and design processes, (3) the interface of software with the physical world (e.g., the use of sensors), and (4) the application of programming concepts to numerical analysis techniques. This course utilizes the C/C++ programming language.
Hours: 54 lecture, 54 lab
Transferable: CSU, UC, and private colleges

ENGR B20 Programming and Problem-Solving in MATLAB
3 units
Prerequisites: Successful completion of MATH B6A with a grade of C or better.
Description: This course utilizes the MATLAB environment to provide students with a working knowledge of computer-based problem-solving methods relevant to science and engineering. It introduces the fundamentals of procedural and object oriented programming, numerical analysis, and data structures. Examples and assignments in the course are drawn from practical applications in engineering, physics, and mathematics.
Hours: 36 lecture, 54 lab
Transferable: CSU transferable. Degree applicable.

ENGR B24 Engineering Graphics and Descriptive Geometry
3 units
Prerequisites: BC placement into math level 06 or successful completion of MATH B1B with a grade of C or better or evidence of prior coursework in Trigonometry, including High School Math Analysis with a grade of C or better.
Description: This course covers the principles of engineering drawings in visually communicating engineering designs and an introduction to computer-aided design (CAD). Topics include the development of visualization skills; orthographic projections; mechanical dimensioning and tolerancing practices; and the engineering design process. Assignments develop sketching and 2-D and 3-D CAD skills. The use of CAD software is an integral part of the course.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges

ENGR B36 Engineering Mechanics-Statics
3 units
Prerequisites: Successful completion of MATH B6B and PHYS B4A or equivalent with a grade of C or better.
Description: A first course in engineering mechanics: properties of forces, moments, couples and resultants; two- and three-dimensional force systems acting on engineering structures in equilibrium; analysis of trusses, and beams; distributed forces, shear and bending moment diagrams, center of gravity, centroids, friction, and area and mass moments of inertia.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges

ENGR B37 Engineering Mechanics-Dynamics
3 units
Prerequisites: Successful completion of ENGR B36 or equivalent with a grade of C or better.
Description: Fundamental principles of motions of particles and rigid bodies and their application to engineering problems. Velocity, acceleration, relative motion, work, energy, impulse and momentum. Mathematical modeling and analysis of mechanical systems.
Hours: 54 lecture
C-ID: ENGR 230
Transferable: CSU, UC, and private colleges

ENGR B40 Surveying
3 units
Prerequisites: Successful completion of MATH B1B or equivalent with a grade of C or better or High School Geometry or Trigonometry with a grade of C or better or evaluation by instructor.
Description: The course applies theory and principles of plane surveying: office computations and design; operation of surveying field equipment; and production of engineering plans/maps. Topics include distances, angles, and directions; differential leveling; traversing; property/boundary surveys; topographic surveys/mapping; volume/earthwork; horizontal and vertical curves; land description techniques; and GPS. Extensive field work using tapes, levels, transits, theodolites, total stations, and GPS.
Hours: 36 lecture, 54 lab
Transferable: CSU, UC, and private colleges
ENGR B45 Properties of Materials
4 units
Prerequisites: Successful completion of CHEM B1A and PHYS B4A or equivalent with a grade of C or better.
Description: Internal structure of engineering materials. Characteristics of single and multiple phase metals; polymers, ceramics and composite materials. Mechanical, thermal, chemical and electrical behavior of engineering materials. Lab investigation of the physical properties of metals, wood, soils, concrete, and polymers.
Hours: 54 lecture, 54 lab
Transferable: CSU, UC, and private colleges

ENGR B47 Introduction to Engineering and Design
2 units
Description: Introduction to the engineering profession and the engineering design process. Explores the branches of engineering, the functions of an engineer, and the industries in which engineers work. Explains the engineering education pathways and explores the effective strategies for students to reach their full academic potential. Presents an introduction to the methods and tools of engineering problem solving and design including the interface of the engineer with society and engineering ethics. Develops communication skills pertinent to the engineering profession.
C-ID: ENGR 110
Hours: 18 lecture, 54 lab
Transferable: CSU, UC, and private colleges
ERSC - Earth Science Courses

ERSC B10 Introduction to Earth Science
3 units
Prerequisites: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Description: Introduction to the fundamentals of Earth Science, including the solid Earth, atmosphere, hydrosphere, and Earth's place in the universe. Investigations include interactions between Earth's systems including the rock cycle, plate tectonic cycle, weathering cycle, hydrologic cycle, and global climate. Two Saturday field trips are optional.
Hours: 54 lecture
C-ID: GEOL 120
Transferable: CSU, UC, and private colleges; IGETC 5.A; CSU GE B.1; BC GE B.1

ERSC B10L Earth Science Lab
1 unit
Prerequisites: Successful completion of ERSC B10 or equivalent with a grade of C or better or may be taken concurrently.
Description: Earth Science lab exercises are designed to enhance lecture topics from Earth Science 10. Lab work will include the identification of rocks and minerals, the rock cycle, weather systems and the effect of weather on landforms, ocean systems and the solar system.
Note: This lab course can be taken subsequent to or concurrently with the lecture, ERSC B10.
Hours: 54 lab
C-ID: GEOL 120L
Transferable: CSU, UC, and private colleges; IGETC 5.C; CSU GE B.3; BC GE B.1
FDSV - Food Service Courses

FDSV B48WE Occupational Work Experience Education/Internship
1-8 units
Prerequisites: Declared major or occupational goal and evaluation of student's qualifications and objectives.
Description: College credit for food service related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 55253.
Hours: Non-paid 60 hours for each 1 unit (60 - 480). Paid 75 hours for each 1 unit (75 - 600).
Transferable: CSU and private colleges.

FDSV B50 Introduction to the Foodservice Industry
2 units
Recommended: BC placement into reading level 06.
Description: An introduction to the foodservice industry including history, trends, organization and job opportunities. Entry skills to be taught include communication techniques, terminology, work simplification, application of computational skills, safety procedures, time management, equipment identification and operation, and knife skills and cutting techniques. Provides career and educational planning. Satisfies the 0.5 unit counseling requirement for graduation from Bakersfield College. Fields trips required.
Hours: 36 lecture
Transferable: Not transferable. Degree applicable.

FDSV B51 Food and Nutrition Orientation
0.5 unit
Recommended: BC placement into reading level 06.
Description: Provides a basic understanding of professional standards used in food service industry as well as orientation to the kitchen equipment, storage practices and the use of a recipe. Covers skills development for organizational skills, time management and goal setting. Preparations for the construction of student projects and portfolios are included in this course.
Hours: 9 lecture
Transferable: Not transferable. Degree applicable.

FDSV B52 Foodservice Sanitation and Safety
2 units
Recommended: BC placement into reading level 06.
Description: Basic principles of sanitation and safety standards set by regulatory agencies. Causes and prevention of food-borne illnesses. Application of food safety production and service, personal hygiene and facilities maintenance procedures. Food safety regulations and inspection including HACCP system are emphasized. Course meets minimum food safety certification requirements of California legislation effective January 1, 2000. Upon passing the required exam, course certificate of completion is awarded from the Education Foundation of the National Restaurant Association. Field trips may be required.
Hours: 36 lecture
Transferable: Not transferable. Degree applicable.

FDSV B55A Food Service Production Theory I
2.5 units
Description: Basic principles and techniques involved in commercial and non-commercial food production. Emphasizes recipe standardization, equipment and sanitation and safety principles. Cookery principles relating to stocks, sauces, soups, meats, vegetables, salads, potatoes, and starches. Field trips may be required.
Hours: 45 lecture
Transferable: Not transferable. Degree applicable.

FDSV B55B Food Service Production Theory II
2.5 units
Description: Basic principles and techniques involved in commercial and non-commercial food production. Emphasizes nutritional standards, equipment use and sanitation/safety principles. Cookery principles relating to poultry, fish and shellfish, sandwiches, hors d'oeuvres, breakfast cookery, vegetarian cookery, food presentation and garde manger. Field trips may be required.
Hours: 45 lecture
Transferable: Not transferable. Degree applicable.

FDSV B55C Food Service Production Lab I
2.5 units
Prerequisites: Successful completion of FDSV B50 and FDSV B55A or FDSV B55B may be taken concurrently with a grade of C or better.
Description: Practical experiences in the preparation of foods typical to a dinner house/a la carte menu in the campus restaurant. Work station rotations in kitchen and dining room with emphasis on professional skill development, work ethics and presentation skills for plate service. Uniforms are required. Field trips may be required.
Hours: 108 lab
Transferable: Not transferable. Degree applicable.

FDSV B55D Food Service Production Lab II
2.5 units
Prerequisites: Successful completion of FDSV B50 and FDSV B55A or FDSV B55B may be taken concurrently with grades of C or better.
Description: Practical experiences in the preparation of buffets and garde manger in the campus restaurant. Work station rotations in the kitchen and dining room with emphasis on professional skill development, work ethics and presentation skills for buffet service. Uniforms are required. Field trips may be required.
Hours: 108 lab
Transferable: Not transferable. Degree applicable.

FDSV B55E Advanced Food Service Practicum
3 units
Prerequisites: Successful completion of FDSV B52, B55A, B55B, B55C, and B55D with a grade of C or better.
Corequisite: Successful completion of FDSV B59 with a grade of ‘C’ or better or may be taken concurrently.
Description: Practicum application of acquired knowledge, skills, work ethics, and technology in developing a broader understanding of production, service and management function in on-campus and off-campus foodservice operations. Uniforms are required. Transportation provided by the student. Practicum sites must be approved by their instructor.
Hours: 18 lecture, 108 lab
Transferable: Not transferable. Degree applicable.
FDSV B55F Fundamentals of Baking
2 units
**Prerequisites:** Successful completion of FDSV B50 with a grade of C or better.
**Description:** Fundamental baking experience in the production of cakes, basic creams, icings, dessert sauces, tarts, eclairs, meringues, cookies, yeast breads, quick breads and specialty cookies. Decorative work and display pieces, product presentation and marketing techniques demonstrated.
**Hours:** 108 lab
**Transferable:** Not transferable. Degree applicable.

FDSV B55I Food and Nutrition Internship
2 units
**Prerequisites:** Successful completion of FDSV B52 and B55A and B55B and B55C and B55D with a grade of C or better.
**Corequisite:** Successful completion of FDSV B59 with a grade of ‘C’ or better or may be taken concurrently.
**Description:** Advanced practicum application of required knowledge, skills, work ethics and technology in developing a broader understanding of the food service industry. Off campus work internship under supervision of a food service professional. Practicum sites must be approved by the instructor. Course emphasizes integrating theory with practical food service applications. Participation criteria may vary among the participating food service professional organizations. Uniform is required. Transportation provided by the student.
**Hours:** 18 lecture, 54 activity
**Transferable:** Not transferable. Degree applicable.

FDSV B59 Food Service Production Management
3 units
**Prerequisites:** FDSV B50 and FDSV B52 (or may be taken concurrently) and FDSV B55A (or may be taken concurrently) or FDSV B55B (or may be taken concurrently) with grades of ‘C’ or better.
**Description:** Emphasizes basic knowledge of the first-line hospitality supervisor’s roles and responsibilities. Principles of good people management are presented in how they apply to the job. Food purchasing activities for foodservice operations and product information from a management’s perspective are discussed in relation to supervisory roles. Basic principles of cost control are discussed along with applications of basic accounting procedures to cost controls and profitability. Field trips may be required.
**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.
FIRE - Fire Technology Courses

FIRE B1 Fire Protection Organization
3 units
Description: Career opportunities in fire protection and related fields; philosophy and history of fire protection; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations offering the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics. Field trips required.
Hours: 54 lecture
Transferable: CSU and private colleges.

FIRE B2 Principles of Fire and Emergency Services Safety and Survival
3 units
Description: This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency services.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.

FIRE B3 Fire Command, Strategy, & Tactics
3 units
Description: This course will cover fire department organization, management, resources, and the use of those resources to control various types of emergencies. The course will also cover the incident command system, tactics, and strategies. This course also provides an introduction to the national incident management system.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.

FIRE B4 Fire Behavior and Combustion
3 units
Description: Theory and fundamentals of how and why fires start, spread and are controlled; an in-depth study of fire chemistry and physics, fire burning characteristics of materials, extinguishing agents, and fire control techniques.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.

FIRE B5 Fire Prevention
3 units
Description: Provides fundamental information regarding the history and philosophy of fire prevention, organization and operation of a fire prevention bureau, use of fire codes, identification and correction of fire hazards, and the relationships of fire prevention systems, fire investigation and fire safety education.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.

FIRE B6 Fire Protection Equipment and Systems
3 units
Description: This course provides information relating to the features of design and operation of fire detection and alarm systems, heat and smoke control systems, special protection and sprinkler systems, water supply for fire protection, and portable fire extinguishers.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.

FIRE B7 Building Construction for Fire Protection
3 units
Description: The study of the components of building construction that relate to fire/life safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at fires/collapse emergencies. The development and evolution of building and fire codes will be studied in relationship to past fires/collapses in residential, commercial, and industrial occupancies.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.

FIRE B25A Wildland Fire Behavior
3 units
Description: Provides the knowledge to understand wildland fire behavior at the supervisory level in the Incident Command System. Conforms to curriculum requirements of the National Wildfire Coordinating Group. Includes, but is not limited to, the material contained in S-290 Intermediate Fire Behavior.
Hours: 54 lecture
Transferable: CSU and private colleges.

FIRE B25B Wildland Firefighter Safety and Survival
3 units
Description: Study of factors that lead to unsafe working conditions in wildland firefighting and procedures to limit risk. Emphasis is placed on avoiding situations and conditions which have resulted in the fire shelter deployments, injuries, and fatalities. The Ten Standard Fire Orders and the Eighteen Situations that resulted in the fire shelter deployments, injuries, and fatalities.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.

FIRE B25C Wildland Fire Operations
3 units
Description: Study of factors that lead to unsafe working conditions in wildland firefighting and procedures to limit risk. Emphasis is placed on avoiding situations and conditions which have resulted in the fire shelter deployments, injuries, and fatalities. The Ten Standard Fire Orders and the Eighteen Situations that resulted in the fire shelter deployments, injuries, and fatalities.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.

FIRE B25D Wildland Public Information Officer, Prevention, and Investigation
3 units
Description: Presents the information necessary to understand the roles and functions of the Wildland Fire Information Officer, Wildland Fire Prevention Officer, and Wildland Fire Investigation Officer.
Hours: 54 lecture
Transferable: CSU and private colleges.
FIRE B25E Wildland Fire Logistics, Finance, and Planning
3 units
Description: Explains the roles, responsibilities, and functions of the logistics, and finance sections that are utilized during the control of wildland fires. Meets National Wildfire Coordinating Group curriculum criteria. Prepares students for employment with wildland fire management agencies and municipal fire departments.
Hours: 54 lecture
Transferable: CSU and private colleges.

FIRE B26A S-200 Initial Attack Incident Commander (ICT 4)
1 unit
Description: Prepares the student to function as an initial attack incident commander at the ICT4 level in the incident Command System. Includes preparation, mobilization, size up, leading the initial attack, and initial attack strategy. Meets National Wildfire Coordinating Group curriculum criteria. Prepares students for employment with wildland fire management agencies and municipal fire departments.
Hours: 18 lecture
Transferable: CSU and private colleges.

FIRE B26D Interagency Incident Business Management S-260
1 unit
Description: Provides knowledge to perform the tasks of the position in the Incident Command System (ICS) for which basic incident business management is required. Provides policy and direction for incident business management. Intended for students to pursue a career with a wildland fire suppression agency or for a specialty with a municipal fire control agency.
Hours: 18 lecture
Transferable: CSU and private colleges.

FIRE B26E S-215 Fire Operations in the Wildland/Urban Interface
1.5 units
Description: Designed to meet the training needs for incident commanders (Type 4), strike team leaders, and company officers confronting wildland fire that threatens life, property, and improvements in the wildland urban interface. Course meets National Wildfire Coordinating Group curriculum criteria. Prepares students for employment with wildland fire management agencies and municipal fire departments.
Hours: 27 lecture
Transferable: CSU and private colleges.

FIRE B26G S-230 Crew Boss Single Resource
1.5 units
Description: This is a classroom course designed to produce student proficiency in the performance of duties associated with the single resource boss position from initial dispatch through demobilization to the home unit. Topics include operational leadership, preparation and mobilization, assignment preparation, risk management, entrapment avoidance, safety and tactics, offline duties, demobilization, and post-incident responsibilities.
Hours: 27 lecture
Transferable: CSU and private colleges.

FIRE B26K S-244 Field Observer
1.5 units
Description: This course provides the student with the skills necessary to perform as a field observer (FOBS) and/or a fire effects monitor (FEMO). Topics include roles and responsibilities of the FOBS and FEMO; how to make observations and document those observations; how to produce hand drawn and GPS field maps; and how to navigate using a compass and GPS. The navigation unit has field exercises, and the final field exercise will total 8 hours. Meets National Wildfire Coordinating Group/California State Fire Marshal curriculum criteria. Prepares students for employment with wildland fire management agencies and municipal fire departments. Offered: As a National Wildfire Coordinating Group / State Fire Marshal CFSTES class.
Hours: 36 lecture
Transferable: CSU and private colleges.

FIRE B26M Display Processor
1 unit
Description: This course provides students with the skills necessary to perform as a display processor (DPRO). Topics include general roles and responsibilities and how to assist the situation unit leader with producing incident maps, inputs for the Incident Status Summary (ICS-209) and other incident products. Pre-course work, students need to read specific chapters in Basic Land Navigation (NFES 2865). This class is a National Wildfire Coordinating Group / State Fire Marshal CFSTES class.
Hours: 18 lecture
Transferable: CSU and private colleges.

FIRE B27B 1-300 Incident Command System
1.5 units
Description: Provides description and detail of the organization and operation of the ICS. Covers management of resources, duties of all positions including the Air Operations organization, and example of how the essential principles are used in incident and event planning. Meets the curriculum requirements of the National Wildfire Coordinating Group. Applicable to wildland fire management agencies and municipal fire departments. Offered as a National Wildfire Coordinating Group / State Fire Marshal CFSTES class.
Hours: 27 lecture
Transferable: CSU and private colleges.

FIRE B28B L-280 Followership to Leadership
1 unit
Description: This training course is designed as a self-assessment opportunity for individuals preparing to step into a leadership role. The course combines classroom and lab (in the field) instruction, with students working through a series of problem solving events in small teams (Field Leadership Assessment Course).
Hours: 20 lecture
Transferable: CSU and private colleges.

FIRE B29 S-212 Wildland Fire Chain Saws
2 units
Description: Prepares students to become a wildfire powersaw operator within the National Interagency Management System. Covers safety considerations, techniques of saw operation, maintenance, and repair. Wildland Fire Chain Saws (S-212) is identified training in the National Wildfire Coordinating Group Suppression/California State Fire Marshal Curriculum. Intended for students to pursue a career with a federal or state wildland fire management agency or as specialty training with a municipal/county fire agency.
Hours: 36 lecture
Transferable: CSU and private colleges.
**FIRE B30 RT130 Wildland Skill Refresher**
2 units  
**Description:** Annual fireline Safety Refresher Training is designed to provide up-to-date fireline safety information to anyone who will be working on the fireline. The RT130 class was developed to recognize hazards, mitigate risk, maintain safe practices, and reduce accidents and near misses on the fire ground.  
**Hours:** 9 lecture, 81 lab  
**Repeat:** Legally mandated training  
**Transferable:** Not transferable. Not degree applicable.

**FIRE B51F Fire Investigation 1A**  
2 units  
**Description:** This course provides the participants with an introduction and basic overview of fire scene investigation. The focus of the course is to provide information on fire scene indicators and to determine the fire's origin. Arson investigators will successfully carry out their responsibilities in arson detection and explosives investigation. Emphasizes essential elements of fire and explosives behavior, types and use of lab services, and investigative responsibilities of an investigator at location of arson and explosives incidents. Meets P.O.S.T. certification requirements. Offered as a State Fire Marshal CFSTES class.  
**Hours:** 40 lecture  
**Transferable:** Not transferable. Not degree applicable.

**FIRE B51G Training Instructor 1A**  
2 units  
**Description:** This is the first of a three-course series. Topics include methods and techniques for training in accordance with the latest concepts in career education; selecting, adapting, organizing, and using instructional materials appropriate for teaching cognitive lessons; criteria and methods to evaluate teaching and learning efficiency; and an opportunity to apply major principles of learning through teaching demonstrations. Two student teaching demonstrations are required of each student.  
**Hours:** 40 lecture  
**Transferable:** Not transferable. Not degree applicable.

**FIRE B51H Training Instructor 1B**  
2 units  
**Description:** This is the second of a three-course series. Topics include methods/techniques for training in accordance with the latest concepts in career education; selecting, adapting, organizing, and using instructional materials appropriate for teaching psycho-motor lessons; criteria and methods to evaluate teaching and learning efficiency; and an opportunity to apply major principles of learning through teaching demonstrations. Two student teaching demonstrations are required of each student.  
**Hours:** 40 lecture  
**Transferable:** Not transferable. Not degree applicable.

**FIRE B51J Fire Investigation 1B**  
2 units  
**Description:** Topics of discussion include the juvenile fire setter, report writing, evidence collection and preservation procedures. Course meets P.O.S.T. certification requirements.  
**Hours:** 40 lecture  
**Transferable:** Not transferable. Not degree applicable.

**FIRE B51K Fire Command 1C**  
2 units  
**Description:** This course is designed around the responsibilities of the Company Officer at a wildland/urban interface incident. It will bring the structural Company Officer out of the city and into the urban/interface; in other words, from his or her comfort zone into an area that could very well be quite unfamiliar for Fire Service Officers.  
**Hours:** 32 lecture, 8 lab  
**Transferable:** Not transferable. Degree applicable.

**FIRE B51L Fire Apparatus Driver/Operator 1A**  
2 units  
**Transferable:** Not transferable. Degree applicable.

**FIRE B51M Fire Apparatus Driver/Operator 1B**  
2.5 units  
**Prerequisite:** California driver’s license, Class A, B or C, with a fire fighter endorsement.  
**Description:** This course was developed to reflect the 2009 NFPA 1002 Standard for Fire Apparatus Driver/Operator Professional Qualifications. This course provides the student with information on driver responsibilities, recognized standards, and related laws for fire apparatus reflecting current California Vehicle Code requirements and the 2009 NFPA 1002 Standard for Fire Apparatus Driver/Operator Professional Qualifications. Topics include basic inspections, documentation, maintenance, and troubleshooting fire apparatus, and techniques on driving and positioning fire apparatus. Each student also has the opportunity to increase his or her driving skills during simulated driving conditions.  
**Hours:** 24 lecture, 16 lab  
**Transferable:** Not transferable. Not degree applicable.

**FIRE B51N Fire Apparatus Driver/Operator 2A**  
1 unit  
**Prerequisite:** Successful completion of FIRE B62 or FIRE B64 with a grade of 'C' or better and a California Class B driver's license, fire fighter restricted.  
**Description:** This course provides the student with information on pump construction and theory of pump operations. Topics include methods for performing basic hydraulics and techniques on basic inspections, documentation, maintenance, and troubleshooting fire pumps. Each student also has the opportunity to increase his or her pumping skills during simulated pumping conditions.  
**Hours:** 12 lecture, 8 lab  
**Transferable:** Not transferable. Degree applicable.

**FIRE B51N Fire Apparatus Driver/Operator 2B**  
1.5 units  
**Prerequisite:** Successful completion of FIRE B62 or FIRE B64 with a grade of 'C' or better.  
**Description:** This course provides information on general administrative functions, the implementation of department policies and procedures, and addresses conveying the fire department's role, image, and mission to the public.  
**Hours:** 7 lecture  
**Transferable:** Not transferable. Degree applicable.

**FIRE B51N Fire Apparatus Driver/Operator 3A**  
2 units  
**Prerequisite:** Successful completion of FIRE B62 or FIRE B64 with a grade of 'C' or better.  
**Description:** This course provides information on general administrative functions, the implementation of department policies and procedures, and addresses conveying the fire department's role, image, and mission to the public.  
**Hours:** 27 lecture  
**Transferable:** Not transferable. Degree applicable.

**FIRE B51N Fire Apparatus Driver/Operator 3B**  
2 units  
**Prerequisite:** Successful completion of FIRE B62 or FIRE B64 with a grade of 'C' or better.  
**Description:** This course provides information on general administrative functions, the implementation of department policies and procedures, and addresses conveying the fire department's role, image, and mission to the public.  
**Hours:** 27 lecture  
**Transferable:** Not transferable. Degree applicable.

**FIRE B51N Fire Apparatus Driver/Operator 3C**  
2 units  
**Prerequisite:** Successful completion of FIRE B62 or FIRE B64 with a grade of 'C' or better.  
**Description:** This course provides information on general administrative functions, the implementation of department policies and procedures, and addresses conveying the fire department's role, image, and mission to the public.  
**Hours:** 27 lecture  
**Transferable:** Not transferable. Degree applicable.

**FIRE B51N Fire Apparatus Driver/Operator 3D**  
2 units  
**Prerequisite:** Successful completion of FIRE B62 or FIRE B64 with a grade of 'C' or better.  
**Description:** This course provides information on general administrative functions, the implementation of department policies and procedures, and addresses conveying the fire department's role, image, and mission to the public.  
**Hours:** 27 lecture  
**Transferable:** Not transferable. Degree applicable.

**FIRE B51N Fire Apparatus Driver/Operator 3E**  
2 units  
**Prerequisite:** Successful completion of FIRE B62 or FIRE B64 with a grade of 'C' or better.  
**Description:** This course provides information on general administrative functions, the implementation of department policies and procedures, and addresses conveying the fire department's role, image, and mission to the public.  
**Hours:** 27 lecture  
**Transferable:** Not transferable. Degree applicable.
Prerequisites: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.

Description: This course provides information on conducting inspections, identifying hazards and addressing violations, performing a fire investigation to determine preliminary cause, securing the incident scene and preserving evidence.

Hours: 45 lecture
Transferable: Not transferable. Degree applicable.

FIRE B52D Company Officer 2D
2.5 units
Prerequisites: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.

Description: This course provides information on conducting incident size-up, developing and implementing an initial plan of action involving single and multi-unit operations for various types of emergency incidents to mitigate the situation following agency safety procedures, conducting pre-incident planning, and develop and conduct a post-incident analysis.

Hours: 45 lecture
Transferable: Not transferable. Degree applicable.

FIRE B52E Company Officer 2E
2.5 units
Prerequisites: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.

Description: This course provides information on evaluating and reporting incident conditions, analyzing incident needs, developing and implementing a plan of action to deploy incident resources completing all operations to suppress a wildland fire, establishing an incident command post, creating an incident action plan, and completing incident records and reports.

Hours: 45 lecture
Transferable: Not transferable. Degree applicable.

FIRE B52F Chief Fire Officer 3A
1.5 units
Prerequisites: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.

Description: This course provides students with a basic knowledge of the human resources requirements related to the roles and responsibilities of a Chief Fire Officer including developing plans for providing employee accommodation, developing hiring procedures, establishing personnel assignments, describing methods of facilitating and encouraging professional development, developing an ongoing education training program, developing promotion procedures, developing proposals for improving employee benefits, and developing a measurable accident and injury prevention program.

Hours: 27 lecture
CCS: Credit Course
Transferable: Not transferable. Degree applicable.

FIRE B52G Chief Fire Officer 3B
1 unit
Prerequisites: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.

Description: This course provides students with a basic knowledge of the budgeting requirements related to the roles and responsibilities of a Chief Fire Officer including developing a budget management system, developing a division or departmental budget, and describing the process for ensuring competitive bidding.

Hours: 18 lecture
CCS: Credit Course
Transferable: Not transferable. Degree applicable.

FIRE B52H Chief Fire Officer 3C
1.5 units
Prerequisites: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.

Description: This course provides students with a basic knowledge of the administration requirements related to the roles and responsibilities of a Chief Fire Officer including directing a department record management system, analyzing and interpreting records and data, developing a model plan for continuous organizational improvement, developing a plan to facilitate approval, preparing community awareness programs, and evaluating the inspection program of the AHJ.

Hours: 45 lecture
Transferable: Not transferable. Degree applicable.

FIRE B52I Chief Fire Officer 3D
1.5 units
Prerequisites: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.

Description: This course provides students with a basic knowledge of the emergency service requirements related to the roles and responsibilities of a Chief Fire Officer including developing a plan for the integration of fire services resources, developing an agency resource contingency plan, evaluating incident facilities, supervising multiple resources, developing and utilizing an incident action plan, obtaining incident information to facilitate transfer of command, developing and conducting a post-incident analysis, and maintaining incident records.

Hours: 45 lecture
Transferable: Not transferable. Degree applicable.

FIRE B52J Executive Chief Fire Officer 4A
2 units
Prerequisites: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.

Description: This course provides the skills and knowledge needed for the Executive Chief Fire Officer to perform his/her duties safely, effectively, and competently. The overarching themes of this curriculum are recruitment, selection, and placement of human resources; the development of a positive and participative member/management program; the establishment and evaluation of a list of education and in-service training goals; appraisal of a member assistance program; and the evaluation of an incentive program to determine if the desired results are achieved.

Hours: 36 lecture
Transferable: Not transferable. Degree applicable.

FIRE B52K Executive Chief Fire Officer 4B
1 unit
Prerequisites: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.

Description: This course provides students with a basic knowledge of the budgeting requirements related to the roles and responsibilities of a Chief Fire Officer including developing a budget management system, developing a division or departmental budget, and describing the process for ensuring competitive bidding.
FIRE B62 Fire Fighter I Academy
12.5 units
Prerequisite: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.
Description: Provides the skills and knowledge needed for the entry level professional fire fighter to perform his/her duties safely, effectively, and competently. The curriculum is based on the 2013 edition of NFPA 1001 Standard for Fire Fighter Professional Qualifications. Meets requirements for the California State Board of Fire Services, Fire Fighter II certification.
Hours: 108 lecture, 351 lab
Transferable: CSU and private colleges. Degree applicable.

FIRE B63 Fire Fighter II Academy
3.5 units
Prerequisite: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.
Description: Provides the skills and knowledge needed for the entry level professional fire fighter to perform his/her duties safely, effectively, and competently. The curriculum is based on the 2013 edition of NFPA 1001 Standard for Fire Fighter Professional Qualifications. Meets requirements for the California State Board of Fire Services, Fire Fighter II certification.
Hours: 42 lecture, 76 activity/skills, 8 testing
Transferable: Not transferable. Degree applicable.

FIRE B64 State Fire Fighter I Academy
16.5 units
Prerequisite: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.
Description: Provides the skills and knowledge needed for the entry level professional fire fighter to perform his/her duties safely, effectively, and competently. The curriculum is based on the 2013 edition of NFPA 1001 Standard for Fire Fighter Professional Qualifications. Meets requirements for the California State Board of Fire Services, Fire Fighter I Academy.
Hours: 171 lecture, 378 lab
Transferable: Not transferable. Degree applicable.

FIRE B66 Fire Fighting Skills
8 units
Prerequisite: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.
Description: Provides the skills and knowledge needed for the entry level professional fire fighter to perform his/her duties safely, effectively, and competently. The curriculum is based on the 2013 edition of NFPA 1001 Standard for Fire Fighter Professional Qualifications. Meets requirements for the California State Board of Fire Services, Fire Fighter I Academy.
Hours: 90 lecture, 162 lab
Transferable: Not transferable. Not degree applicable.

FIRE B69 State Fire Fighter II Academy
4 units
Prerequisite: Successful completion of FIRE B62 or FIRE B64 with a grade of C or better.
Description: Provides the skills and knowledge needed for the entry level professional fire fighter to perform his/her duties safely, effectively, and competently. The curriculum is based on the 2013 edition of NFPA 1001 Standard for Fire Fighter Professional Qualifications. Meets requirements for the California State Board of Fire Services, Fire Fighter II certification.
Hours: 32 lecture, 8 lab
Transferable: Not transferable. Not degree applicable.
safely, effectively, and competently. The five overarching themes of the California State Fire Fighter II curriculum are: general knowledge germane to the profession, fire department communications, fire ground operations, rescue operations, and prevention, preparedness, and maintenance. Hours: 45 lecture, 81 lab
**Transferable:** Not transferable. Degree applicable.

**FIRE B70A Hazardous Materials for First Responders**
*1 unit*
**Description:** This class is mandated by law or called upon by necessity to assess, plan for, and initiate mitigation of incidents involving hazardous materials. Content covers the extent and nature of today’s hazardous materials problem, effects of weather, topography, and environmental conditions on the behavior of hazardous materials and the containment efforts these conditions require. Defensive tactics to contain the release from a safe distance, keep it from spreading, and prevent exposures without trying to stop the release. Meets and exceeds the requirements of CFR 29 1910.120 and CCR Title 8. This course meets National Wildfire Coordinating Group and State Fire Marshal CFSTES class.
**Hours:** 24 lecture
**Transferable:** Not transferable. Not degree applicable.

**FIRE B70B First Responder Operational-Decontamination**
*0.5 unit*
**Description:** This course will provide the hazardous materials emergency responder with the processes used in decontamination and methods to limit the spread of hazardous materials contamination in a safe and competent manner. As a National Wildfire Coordinating Group/State Fire Marshal CFSTES/CSTI class.
**Hours:** 9 lecture
**Transferable:** Not transferable. Not degree applicable.

**FIRE B70C Hazardous Materials Incident Commander/Scene Manager**
*1 unit*
**Description:** Provide students with competencies needed to assume the role of an Incident Commander, as well as leadership skills for any other Command of Staff Incident Command System positions which are necessary during a hazardous materials incident. Content will also accentuate personnel safety and Occupational Education.
**Hours:** 18 lecture
**Transferable:** Not transferable. Not degree applicable.

**FIRE B70D Hazardous Materials Technician/Spec 1A: Basic Chemistry**
*2.5 units*
**Description:** Technical training in the physical and chemical terminology important to hazardous materials technicians/specialists and prevention officers, ability to determine properties of a chemical compound by name or formula. Includes study of important terms which describe properties, reactions with other materials, and the effects upon human beings, environment, and property. Applies to Hazardous Materials Technician/Specialist certification. This also meets the State Fire Marshal California State Training Institute and CSTI California State Training Institute course requirements, Occupational Education.
**Hours:** 45 lecture
**Transferable:** Not Transferable. Degree Applicable.

**FIRE B70E Hazardous Materials Technician/Specialist 1B: Applied Chemistry**
*2.5 units*
**Description:** This course will review the basic terminology and theory of chemistry as it relates to hazardous materials incident management. Additional new content to include: hazard and risk management; behavior and effect of toxicant and the major biological systems affected by toxicant; as well as using monitoring equipment to detect hazardous atmospheres and unknown solids and liquids. Applies to Hazardous Materials Technician/Specialist certification.
**Hours:** 45 lecture
**Transferable:** Not Transferable. Degree Applicable.

**FIRE B70F Hazardous Materials Technician/Specialist 1C: Incident Considerations**
*2 units*
**Description:** Content covers hazardous materials data research; meteorological considerations that influence hazardous materials response activities; hazardous materials incidents command concepts associated with response activities; incident specific considerations that influence hazardous materials response activities; and legislative and regulatory policies that impact hazardous materials response activities. Applies to Hazardous Materials Technician/Specialist certification and is a California State Training Institute class.
**Hours:** 32 lecture, 8 lab
**Transferable:** Not transferable. Not degree applicable.

**FIRE B70G Hazardous Materials Tech/Spec 1D: Tactical Field Operations**
*1.5 units*
**Description:** Information on confinement, including diking, dams and sorbent; awareness on plugging and patching; application of chemical protective clothing; preservation of evidence; and emergency medical considerations at a hazardous materials incident. Applies to Hazardous Materials Technician/Specialist certification. Offered: As a California State Training Institute class.
**Hours:** 18 lecture, 27 lab
**Transferable:** Not transferable. Not degree applicable.

**FIRE B70H Hazardous Materials Tech/Spec 1E: Special Mitigation Techniques**
*1 unit*
**Description:** Content covers medical monitoring guidelines; use of Level ‘A’ chemical protective clothing; repair leaks on a rail tank car; procedures to simulate off-loading hydrocarbons from a rolled over DOT MC-306/406 aluminum tank truck; and practice as a member of a hazardous materials team in simulated hazardous materials incidents. Applies to Hazardous Materials Technician/Specialist certification.
**Hours:** 9 lecture, 31 lab
**Transferable:** Not transferable. Not degree applicable.

**FIRE B70I Hazardous Materials Tech/Spec 1F: Advanced Field Operations**
*1 unit*
**Description:** Practical application of methods and procedures to mitigate leaking containers; transferring hazardous materials between containers; classifying known and unknown chemicals; participating as a member of hazardous materials team in simulated hazardous materials incidents; and exercising safe methods while operating at hazardous materials incidents. Applies to Hazardous Materials Technician/Specialist certification.
Materials Technician/Specialist certification.

**Hours:** 9 lecture, 31 lab
**Transferable:** Not transferable. Not degree applicable.

**FIRE B71A Seasonal Firefighter Basic Training 1**

2 units
**Description:** All of the federal fire agencies and many municipal fire departments recognize this course as the foundation to all subsequent wildland fire training. This is “The Basics” it will provide students with an understanding of wildland firefighting principals, tactics, organization, and fireline safety. This class covers NWCG L180, S130, and S190 course material.

**Hours:** 27 lecture, 27 lab
**Transferable:** Not transferable. Degree applicable.

**FIRE B71B Seasonal Firefighter Basic Training 2**

1 unit
**Prerequisites:** Successful completion of FIRE B71A with a grade of ‘C’ or better.
**Description:** Manipulative and technical training in the identification and operation of wildland fire tools and equipment. Includes fire-line construction practices, physical fitness and water-handling equipment. Satisfies one-half of required training standards.

**Hours:** 9 lecture, 27 lab
**Transferable:** Not transferable. Degree applicable.

**FIRE B72A Rescue Systems 1**

2 units
**Description:** Technical knowledge and practical skills necessary to successfully perform team organization, rescue, and environmental considerations, use of ropes, knots rigging and pulley systems, descending, rappelling, and belaying tools and techniques, subsurface rescue techniques, use of cribbing, wedges, cutting/prying and hydraulic tools, use of fire service ladders in specialized rescue situations, and day and night simulated rescue exercises. Accredited by the California Fire Service Training and Education System.

**Hours:** 24 lecture, 16 lab
**Transferable:** Not transferable. Not degree applicable.

**FIRE B72D Swift Water Rescue**

1 unit
**Description:** Basic techniques necessary to perform emergency rescue procedures involving swift water rivers. Emphasizes basic rescue knot practices, handling small rescue boats, emergency care, and controlling special hazard and problems in swift water emergencies.

**Hours:** 18 lecture
**Transferable:** Not transferable. Not degree applicable.

**FIRE B72F Auto Extrication**

0.5 unit
**Description:** A systematic approach to vehicle rescue, and the use of mechanical and hand tools used in the extraction process.

**Hours:** 9 lecture, 7 lab
**Transferable:** Not transferable. Not degree applicable.

**FIRE B72I Emergency Medical Technician I Refresher**

1 unit
**Prerequisites:** Successful completion of FIRE B72H or equivalent with a grade of ‘C’ or better.
**Description:** A review of material in FIRE B72H with updates on EMT-1 issues and new material or skill techniques. An approved refresher course that follows state regulations and leads to a re-certification completion certificate. This course meets the requirements to continue practicing pre-hospital emergency care in the County of Kern.
**Note:** Not open to students who have completed EMTC B50R.

**Hours:** 24 lecture
**Transferable:** Not transferable. Degree applicable.

**FIRE B73 Intermediate Wildland Fire Behavior S-290**

2 units
**Description:** Professional development related to the topic of wildland fire behavior. This course provides instruction in the identification and prediction of wildland fire behavior in various fuel types and under varying weather conditions. Prepares municipal, county, state, and federal fire personnel to meet certification standards set forth by the National Inter-agency Incident Management System.

**Hours:** 36 lecture
**Transferable:** Not transferable. Not degree applicable.

**FIRE B79 Regional Instructor Orientation**

0.5 unit
**Description:** This course is designed to provide instructors with an overview of State Fire Training, instructor registration requirements, instructor responsibilities and accountability, how to schedule and return courses, and manual procedures.

**Hours:** 9 lecture
**Transferable:** Not transferable. Not degree applicable.

**FIRE B85 Special Topics/Fire**

0.5-3 units
**Description:** Various mandated training topics required by California State Fire Marshal (CSFM).
**Hours:** 9 lecture hours for each .5 unit (9-54)
**Repeat:** Legally mandated training.
**Transferable:** Not transferable. Not degree applicable.
FORE - Forestry Courses

FORE B1 Introduction to Forestry
3 units
**Recommended:** BC placement into reading level 06.
**Description:** The ecological, economic and sociological basis of forest management interrelated with the management of other resources. Topics include a history of forestry in America, the economics of forestry, forestry and national planning and forest uses.
**Hours:** 54 lecture
**Transferable:** CSU, UC, and private colleges

FORE B2 Natural Resources
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** Survey of our natural resources and the conservation of those uncaptured natural stores which are useful to humankind. Resources covered are water, soil, air, forests, grasslands, wildlife, oceans, minerals and energy. Ecology, waste management and human resources are also covered.
**Hours:** 54 lecture
**Transferable:** CSU, UC, and private colleges; CSU GE E; BC GE B.1

FORE B3 Wildlife Management
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** The practice of wildlife management. Foundations of wildlife production. The identification, life histories and ecology of selected important wildlife species - mammals including fur bearers, water fowl and fish.
**Hours:** 54 lecture
**Transferable:** CSU and private colleges.

FORE B4 Wildlife Law Enforcement
3 units
**Description:** This course is an introduction into a specialized field of law enforcement, specifically, Wildlife Law Enforcement. This course will present a brief history of the development of wildlife laws and their enforcement. Instruction will include jurisdictional issues regarding Federal versus State wildlife laws, the United States Constitution, citizens’ rights; the role of the wildlife officer, enforcement philosophies, and enforcement practices. The purpose of this course is to acquaint the student with the basic fundamentals of the wildlife law enforcement field as a career. It is designed to provide students, as citizens, with an insight and understanding of the need for conservation and the wise use of our wildlife resources.
**Hours:** 54 lecture
**Transferable:** CSU and private colleges.

FORE B5 Identification of California Wildlife
3 units
**Description:** This course is a survey of game birds, fish and mammals of California and the Western United States. Characteristics of game animals and protected species will be studied. Field identification of various species of animals in their environment will be an essential part of the class. The purpose of this class is to provide the student with an understanding of the various species of animals, including threatened and endangered species, living in California, with special emphasis on those found in Kern County. Students will be exposed to the various habitats in which these animals are found and should be able to identify common wildlife species of the area.
**Hours:** 54 lecture
**Transferable:** CSU and private colleges.

FORE B6 Forestry Skills
3 units
**Description:** Survey of the forestry, wildlife and natural resources management industries. Careers, job requirements, terminology, employment opportunities and the identification and/or use of selected tools and equipment. Field trips may be required.
**Hours:** 18 lecture, 108 lab
**Transferable:** CSU and private colleges.

FORE B7 Wildland Fire Management
3 units
**Description:** This covers the physical theories of wildland fire, the methodology of wildland fire suppression, pre-suppression, and post-fire suppression and equipment. The practice of fire ecology and the use of prescribed control burns to maintain and improve our nation’s forests and rangelands.
**Hours:** 54 lecture
**Transferable:** CSU and private colleges.

FORE B48WE Occupational Work Experience Education/Internship
1-8 units
**Prerequisites:** Declared major or occupational goal and evaluation of student's qualifications and objectives.
**Description:** College credit for forestry related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 55253.
**Hours:** Non-paid 60 hours for each 1 unit (60 - 480). Paid 75 hours for each 1 unit (75 - 600).
**Transferable:** CSU and private colleges.
GEOG - Geography Courses

GEOG B1 Physical Elements of Geography
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: This course is the study of the earth as a physical system and its processes. Topics of inquiry are derived from the earth’s four main spheres, the atmosphere, hydrosphere, lithosphere, and biosphere. They include weather and climate, earth-sun relationships, geology, and landforms. Geographic techniques such as mapping, Geographic Information Systems (GIS) and Remote Sensing are also discussed.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 5.A; CSU GE B.1; BC GE B.1

GEOG B1L Physical Geography Lab
1 unit
Prerequisites: Successful completion of GEOG B1 with a grade of C or better or may be taken concurrently.
Recommended: BC placement into reading level 06 and writing level 06.
Description: Lab portion of Physical Geography is designed to demonstrate how material presented in Geography B1 can be applied in a working environment. Assignments are designed to help students understand and apply the concepts learned in the lecture to real world problems. Exercises include using an atlas, coordinate systems, earth-sun relationships, weather and climate analysis, landform development, and topographic map interpretation.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; IGETC 5.C; CSU GE B.3; BC GE B.1

GEOG B2 Human Geography
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: This course is designed to demonstrate how different human populations interact culturally with their environment. Special emphasis will be placed on concepts such as population, movement, human-earth relationships, languages, religion, economics and politics.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2

GEOG B3 Introduction to Weather and Climate
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: This course is an introduction to the earth’s atmosphere, weather and climate. Topics to be discussed include solar and terrestrial energy, atmospheric composition, earth-sun relationships, temperature changes, wind and pressure systems, destructive weather patterns, frontal systems, and climate.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 5.A; CSU GE B.1; BC GE B.1

GEOG B5 World Regional Geography
3 units
Recommended: BC placement into reading level 06.
Description: Survey of the world’s cultural regions and nations as interpreted by geographers, including physical, cultural, and economic features. Emphasis on spatial and historical influences on population growth, transportation networks, and natural environments. Identify important and significant features within regions.
C-ID: GEOG 125
Hours: 54 lecture
Transferable: CSU, UC, and private colleges. CSU GE D; IGETC 4
GEOL - Geology Courses

GEOL B10 Introduction to Geology
3 units
Prerequisites: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: Introduction to the principles of geology with emphasis on the structure and origin of the earth, its present and past landscapes and the processes at work changing its surface. Students requiring lab experience should enroll in GEOL B10L concurrently with GEOL B10.
Note: At least one Saturday field trip or equivalent optional. Not open to students who have successfully completed GEOL B1A.
Hours: 54 lecture
C-ID: GEOL 100
Transferable: CSU, UC, and private colleges; IGETC 5.A; CSU GE B.1; BC GE B.1

GEOL B10L Introduction to Geology Lab
1 unit
Prerequisites: Successful completion of GEOL B10 with a grade of C or better. GEOL B10L may be taken concurrently with GEOL B10.
Description: Exercises planned to accompany the lectures of GEOL B10. Identification of rocks and minerals, topographic and geologic map exercises demonstrating the work of water, wind, ice and gravity and effects of volcanism and earthquakes. Field trips required.
Hours: 54 lab
C-ID: GEOL 100L
Transferable: CSU, UC, and private colleges; IGETC 5.C; CSU GE B.3; BC GE B.1

GEOL B11 Historical Geology
3 units
Prerequisites: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or B53 or equivalent with a grade of C or better
Description: An introduction to the formation and development through time of the solid Earth, atmosphere and biosphere. Covers past movements and locations of the continents and interpretation of past environments as recorded in rock and fossil records, including the dinosaurs. Students requiring lab experience should enroll in GEOL B11L concurrently with GEOL B11. At least one Saturday field trip or equivalent required.
Hours: 54 lecture
C-ID: GEOL 110
Transferable: CSU, UC, and private colleges; IGETC 5.A; CSU GE B.1; BC GE B.1

GEOL B11L Historical Geology Lab
1 unit
Prerequisites: Successful completion of GEOL B11 with a grade of C or better. GEOL B11L may be taken concurrently with GEOL B11.
Description: Exercises planned to accompany the lectures of GEOL B11. Identification and description of sedimentary rocks and fossils. Stratigraphic section, relative dating, and geologic map exercises. Introduction to classification using cladistics. A Field Trip is required.
C-ID: GEOL 110L
Hours: 54 lab
Transferable: CSU, UC, and private colleges; IGETC 5.C; CSU GE B.3; BC GE B.1

GEOL B21 Topics in Geology
1 units
Recommended: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better, and a college Geology or Earth Science course with a grade of C or better.
Description: Introduces the student to fundamental topics in field geology, where students receive lecture preparation involving equipment use, specific geological processes, aerial photos, topographic and geologic map interpretation for a particular field site, culminating in an actual related field study.
Hours: 18
Transferable: CSU and private colleges.
HEIT - Health Information Technology Courses

HEIT B10 Introduction to Health Information Technology: Hospital Settings
3 Units
Description: This course is an introduction to health records systems in the acute care setting focusing on procedures for completion, maintenance, and preservation of health information. The relationship between health information management and the health care delivery system will also be discussed. Students will become familiar with the concept of accreditation, certification, and licensing of health care facilities with emphasis on the accreditation survey process.
Hours: 54 lecture
Transferable: Not Transferable. Degree applicable.

HEIT B11 Introduction to Health Information Technology: Alternative Settings
3 Units
Description: This course is an introduction to health information management practice in alternative healthcare settings including long-term care, mental health ambulatory care, hospice, home health, and rehabilitation medicine. Focus is on the role of the health information practitioner, regulatory issues, accreditation and licensing requirements, documentation, funding and reimbursement, and electronic information systems.
Hours: 54 lecture
Transferable: Not Transferable. Degree applicable.

HEIT B12 Basic Pharmacology
3 Units
Description: Introduction to pharmacology, basic pharmacological terminology and concepts, drug categories and their uses, mechanisms of drug action, dosage forms, routes of administration, and common generic and trade name medications.
Hours: 54 lecture
Transferable: Not Transferable. Degree applicable.

HEIT B13 Human Disease
3 Units
Prerequisites: Successful completion of MEDS B60 with a grade of C or better.
Description: This course is a study of pathological processes imparting basic knowledge to Health Information Technology students. The student will study the basic concepts, terminology, etiology and characteristics of pathological processes. Diseases are classified according to both causative agent and the body system to which they relate.
Hours: 54 lecture
Transferable: Not Transferable. Degree applicable.

HEIT B15 Health Statistics
3 Units
Description: This course provides instruction for the health information technology student in the basic principles of data collection and calculation of hospital and non-acute facility health statistics. Calculation of Health Information Management department statistics is included. In addition, the course covers the calculation of specific vital statistics as well as discharge analysis reporting. There is instruction in the preparation of monthly and annual medical, administrative, and outside agency reports utilizing tables and graphs. Practice in the interpretation of statistical reports is also provided.
Hours: 54 lecture
Transferable: Not Transferable. Degree applicable.

HEIT B16 Computerized Health Information Systems
3 Units
Description: This course will provide practical experience in the use of software programs commonly used in health information, including master patient index, chart tracking, abstracting, encoders and groupers, release of information, birth registration, and incomplete record management systems. Emphasis will also be placed on the use of spreadsheet and database programs in the manipulation and use of health information.
Hours: 54 lecture
Transferable: Not Transferable. Degree applicable.

HEIT B20 International Classification of Diseases, (ICD) Coding I
4 Units
Prerequisites: Successful completion of HEIT B13 with a grade of C or better.
Description: This is the first of a two-course sequence for Health Information Technology students. It focuses on the International Classification of Diseases (ICD), the most commonly used classification system in the U.S. for coding and reporting diagnostic inpatient and outpatient services and inpatient procedural services. Coding guidelines, conventions and reimbursement methodology are covered in this course. The student uses both the code books and computer software program.
Hours: 72 lecture
Transferable: Not Transferable. Degree applicable.

HEIT B21 International Classification of Diseases, (ICD) Coding II
4 Units
Prerequisites: Successful completion of HEIT B20 with a grade of C or better.
Description: This course is the second of a two-course sequence for Health Information Technology students. The emphasis is on advanced principles of International Classification of Diseases (ICD), the most commonly used classification system in the U.S. for coding and reporting diagnostic inpatient and outpatient services and inpatient procedural services. Coding guidelines, conventions and reimbursement methodology are also covered. Advanced principles include Diagnostic Related Group (DRG) case mix derivation, analysis of compliant coding, documentation improvement for correct code assignment, hospital acquired conditions, and present admission indicators that impact the code assignment and revenue cycle. The student uses both the code books and computer software program.
Hours: 72 lecture
Transferable: Not Transferable. Degree applicable.

3 Units
Prerequisites: Successful completion of HEIT B13 with a grade of C or better.
Description: This introductory course for Health Information Technology students includes the use of Current Procedural Terminology (CPT) coding. The course covers the purpose of CPT, CPT Manual format, code format, and coding steps used to code from the divisions of CPT. In addition, the course includes
national and category III codes. It also includes an overview of reimbursement issues involving physician and hospital payment for outpatient services.

**Hours:** 54 lecture  
**Transferable:** Not Transferable. Degree applicable.

**HEIT B23 Medical Legal Aspects of Health Information**  
**3 Units**  
**Description:** This course for health information technology students covers the legal aspects of health information management, including the American legal system and causes of medical malpractice. State, Federal and other agency rules regarding record access, retention, release of information, processing subpoenas, and confidentiality will be covered. Also included are accreditation, licensing, and certification requirements for acute as well as non-acute health care facilities.

**Hours:** 54 lecture  
**Transferable:** Not Transferable. Degree applicable.

**HEIT B24 Healthcare Quality Management**  
**3 Units**  
**Description:** This course for Health Information Technology students is an introduction to quality and performance management and improvement, utilization review and risk management. The course includes the purpose, principles, historical development, assessment and analysis techniques, and application and program development strategies used in quality management and improvement, utilization review and risk management activities. Also included is the integration of performance improvement activities with the medical staff appointment and reappointment process. Regulatory and privacy requirements will also be addressed. The key concepts, background and statistical tools used in the continuous quality improvement process (CQI) are also provided.

**Hours:** 54 lecture  
**Transferable:** Not Transferable. Degree applicable.

**HEIT B25 Healthcare Reimbursement**  
**3 Units**  
**Description:** This course integrates information about all US healthcare payment systems. The topics covered include reimbursement methodologies, clinical coding and compliance, voluntary and government sponsored insurance plans, revenue cycle management and value-based purchasing. Medicare and Medicaid prospective payment systems are also addressed in acute, post-acute, ambulatory, hospice and long term care settings.

**Hours:** 54 lecture  
**Transferable:** Not Transferable. Degree applicable.

**HEIT B26 Supervision for the Allied Health Professional**  
**3 Units**  
**Description:** This course studies classic and current management principles in the healthcare setting. Students will be introduced to leadership styles, motivation principles, ethical standards, communication principles, and strategies for dealing with difficult behavior in the workplace.

**Hours:** 54 lecture  
**Transferable:** Not Transferable. Degree applicable.

**HEIT B30 Professional Practice: Health Information Technology**  
**4 Units**  
**Prerequisites:** Successful completion of HEIT B10, B11, B12, B13, B15, B16, B20, B21, B22, and B23 with a grade of C or better.

**Description:** This course provides supervised onsite professional practice experience in an assigned affiliate site for students enrolled in the Health Information Technology program. It is designed to help students assimilate theory with practical application in order to work toward achievement of American Health Information Management Association (AHIMA) entry-level competencies in a real-world environment.

**Hours:** 18 lecture, 162 lab  
**Transferable:** Not Transferable. Degree applicable.

**HEIT B31 Professional Practice: Health Information Coding Specialist**  
**3 Units**  
**Prerequisites:** Successful completion of HEIT B20 and HEIT B22 with a grade of C or better.

**Description:** This course is a practicum in application of clinical classification systems, coding, case mix analysis, and use of coded and abstracted data. In addition to discussion which is focused on directed practice activities, supervised clinical experience focus on coding patient care records and are conducted as a non-paid, lab experience with an affiliated health agency or virtual online coding environment.

**Hours:** 36 lecture, 54 lab  
**Transferable:** Not Transferable. Degree applicable.

**HEIT B60 Human Form And Function**  
**3 Units**  
**Description:** Introduction to the structure and function of the human body. Includes structural components, spatial relationships, and body system interactions.

**Hours:** 54 lecture  
**Transferable:** Not Transferable. Degree applicable.
HIST - History Courses

HIST B1 World History from the Origins of Civilizations to 1600
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Survey of the historical development of different world societies' major economic, intellectual, political, religious, cultural and social ideas and institutions from Paleolithic humanity to the Early Modern Era.
C-ID: HIST 150
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; CSU GE C.2; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2

HIST B2 History of the World (Since 1650)
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Interdisciplinary multimedia approach to the development of our interconnected and interdependent modern world since the 16th Century. Emphasis is on comparative history, world systems, modernization theory, cultural diffusion, and ecologies of core/periphery associations.
Hours: 54 lecture
C-ID: HIST 160
Transferable: CSU, UC, and private colleges; CSU GE C.2; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2

HIST B4A European Civilization
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Survey of history of European civilization from its origin to 1650. Course will examine the different economic, intellectual, political, religious, cultural and social ideas and institutions of the different ethnic and national groups of Europe as they developed from its origin to 1650. Course includes critical thinking and evaluation skills development in analysis and interpretation of historical evidence.
Hours: 54 lecture
C-ID: HIST 170
Transferable: CSU, UC, and private colleges; CSU GE C.2; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2

HIST B4B European Civilization
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: A survey history of the early and late modern eras in European History and its influence on other 'westernized' nations. Course will examine the different economic, intellectual, political, religious, cultural and social ideas and institutions of the different ethnic and national groups of Europe as they developed from 1600 to the present. Course includes critical thinking and evaluation skills development in analysis and interpretation of historical evidence.
Hours: 54 lecture
C-ID: HIST 180
Transferable: CSU, UC, and private colleges; CSU GE C.2; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2

HIST B15 Civilizations of the Middle East
3 units
Recommended: BC placement into reading level 06.
Description: An introduction to the history and culture of the Middle East from the rise of Islam in the 7th century to the present. Includes the study of government, family, social classes, religion, politics, and conflict in the region.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; CSU GE C.2; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2

HIST B17A History of the United States
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Survey of the political, economic and cultural history of the United States from earliest colonial times to 1877. Includes a study of the U.S. Constitution and federal government. Partially satisfies the requirements in U.S. Constitution, American history and institutions.
Note: HIST B17A is not a prerequisite to HIST B17B.
Hours: 54 lecture
C-ID: HIST 130
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2; BC GE D.3

HIST B17B History of the United States Since 1870
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Survey of the political, economic and cultural history of the United States from Reconstruction to the present. Includes a study of the U.S. Constitution and federal government. Partially satisfies the requirements in U.S. Constitution and American history and institutions.
Note: HIST B17A is not a prerequisite to HIST B17B.
Hours: 54 lecture
C-ID: HIST 140
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2; BC GE D.3

HIST B18 History of California
3 units
Recommended: BBC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: The social, economic, and political development of California from its pre-European past to its post-industrial present. Examines the historical uniqueness of California's environment, population, institutions, and economy. Emphasis placed on the influence of American political thought and institutions in the historical evolution of California's state and local governments. Partially satisfies the requirements in U.S. Constitution, American history and institutions.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; CSU GE C.2; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2; BC GE D.3
HIST B20A African American History of the United States
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** Survey of the political, economic, and cultural history of the United States from earliest colonial times to reconstruction with emphasis on the role and contributions of African Americans. Includes a study of the U.S. Constitution and federal government. Partially satisfies the requirements in U.S. Constitution, American history and institutions. Meets the Multicultural Requirement.
**Hours:** 54 lecture
**Transferable:** CSU, UC, and private colleges; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2; BC GE D.3

HIST B20B African American History/U.S.
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** Survey of the political, economic, and cultural history of the United States from reconstruction to the present with emphasis on the role and contributions of African Americans. Includes a study of the state and local government of California. Satisfies the requirements in U.S. Constitution, American history and institutions.
**Hours:** 54 lecture
**Transferable:** CSU, UC, and private colleges; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2

HIST B25 Introduction to Women in American History
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** Survey of the history of women in America from the pre-colonial period to the present. Emphasis is on the social, economic, political, and multicultural facets of women's history in the US and includes both the commonalities and diversities of women's roles, the use of gender as an analytic category, and the specific significance of women in the evolution of the major contours of US history.
**Hours:** 54 lecture
**Transferable:** CSU, UC, and private colleges; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2

HIST B30A Early Chicano History
3 units
**Recommended:** BC placement into reading level 06.
**Description:** A survey of the history of the peoples of the Mexican-American borderlands, from Pre-Columbian times until 1848. Examines the social, economic, and political evolution of the region with emphasis upon the inter-relationships between the histories of the United States and Mexico. Partially satisfies the requirements in U.S. Constitution, American history and institutions. Not open to students who have successfully completed CHST B30A.
**Hours:** 54 lecture
**Transferable:** CSU, UC, and private colleges; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2

HIST B30B History of Chicanos in the Southwest
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** Survey of the Chicanos and the U.S. with an emphasis on the developments in California and the Southwest from 1848 to present: relationship of regions within the U.S. area, roles of major ethnic groups, continuity of American experience, derivation from other cultures, aftermath of the U.S. Mexican War, interrelationship of Mexican and U.S. history between 1860 and 1910, effects of Mexican Revolution on the 20th century experience of Chicanos, California State Constitution. Partially satisfies requirements in U.S. Constitution, American history and institutions.
**Note:** Not open to students who have taken the equivalent course, CHST B30B.
**Hours:** 54 lecture
**Transferable:** CSU, UC, and private colleges; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.3

HIST B33 Latin American History
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** Historical survey of the social, economic and political development of Latin America, including the formation of pre-Columbian civilization through establishments of the Spanish and Portuguese colonial systems to nation building of the modern era. Examines the impact of the United States’ foreign policy on the development of Latin America.
**Note:** Not open to students who have completed CHST B33.
**Hours:** 54 lecture
**Transferable:** CSU, UC, and private colleges; CSU GE C.2; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2

HIST B36 History of Native American Indians
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** Survey of the origins, traditions, lifeway and belief systems of various Native American communities. Emphasis on socio-political encounters with Anglo American expansion and indigenous resilience. Partially satisfies the requirements in U.S. Constitution, American history and institutions.
**Hours:** 54 lecture
**Transferable:** CSU, UC, and private colleges; CSU GE D; IGETC 3.B; IGETC 4; BC GE D.2; BC GE D.3
HLED - Health Education Courses

HLED B1 Principles of Health Education
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: A survey of Health as expressed through the interdependence of the intellectual, emotional, environmental, physical, social and spiritual dimensions of wellness.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E
HMSV - Human Services Courses

HMSV B5 Human Services Internship
2 units
**Prerequisites:** Successful completion of HMSV B40 with a grade of C or better, attend a mandatory orientation, and obtain the signature of the Human Services Program Coordinator before enrolling in HMSV B5.

**Description:** Study of human services organizations; Work internship under supervision in a human services field; Emphasizes integrating theory with practical application; Participation criteria may vary among the participating human services agencies; Signature of the Program Coordinator is required to register for this class.

**Note:** Eligible interns may take two units per semester until a total of four units (216 hours of field work) has been completed. Two units equal 18 hours seminar and 108 hours field work.

**Hours:** 18 lecture, 54 lab
**Repeat:** 2
**Transferable:** CSU and private colleges.

HMSV B40 Introduction to Human Services
3 units
**Recommended:** BC placement into reading level 06.

**Description:** Survey of helping institutions and social issues concerning human services, including target populations; survey of human services careers; historical, ethical, and theoretical perspectives of social and public policy; current controversies concerning human services; institutional and community-based services; diversity; models of service delivery; helping process techniques and skills.

**Hours:** 54 lecture
**Transferable:** CSU and private colleges.
HVAC - Heating, Ventilation and Air-Conditioning

**HVAC B50 Principles of Air Conditioning**  
*4 units*  
**Description:** This course is structured to introduce the student to the concepts of comfort and process air conditioning. The student will become knowledgeable in refrigeration systems applied to various types of air conditioning systems, basic electrical systems, sequence of operation, air distribution, humidity control, and the fundamentals of various types of heating systems. The students will learn from lecture and lab projects where they will be introduced to real world systems and components.  
**Hours:** 54 lecture, 54 lab  
**Transferable:** Not Transferable. Degree Applicable

**HVAC B52 Electricity Applied to HVAC**  
*4 units*  
**Description:** This course introduces students to, electron flow theory, magnetism, electrical generation, power distribution, conductors, insulators, fuses, motors, and motor controls applied to air conditioning and refrigerating systems. The students will learn to read, draw, and interpret electrical schematics. This course also includes engagement in lab projects, and simulations where students will acquire basic diagnostics and troubleshooting techniques.  
**Hours:** 54 lecture, 54 lab  
**Transferable:** Not Transferable. Degree Applicable

**HVAC B54 Refrigeration Technology**  
*4 units*  
**Description:** This course introduces students to all aspects of refrigeration application and theory. Students will learn basic thermodynamics, and physics applied to the refrigeration cycle, the function of primary and auxiliary components, typical refrigeration temperatures and pressures, that is critical to the diagnostics of refrigeration systems. Students will learn safety procedures related to the safe handling of refrigerants. Students will also learn codes and standards related to the protection of the environment that is directly applicable to the E.P.A certification that must be acquired by all technicians.  
**Hours:** 54 lecture, 54 lab  
**Transferable:** Not Transferable. Degree Applicable

**HVAC B55 Ice Machine Service and Repair**  
*4 units*  
**Recommended:** Successful completion of HVAC B54 or equivalent with a grade of C or better.  
**Description:** This course introduces students to the concepts of ice machine service and repair. Students will learn the proper methods of diagnosing common failures and deficiencies in ice machines, preventative maintenance, and proper methods of cleaning and sanitizing ice machines. The students will also learn the fundamental differences between the various makes of ice machines, and their sequence of operation.  
**Hours:** 54 lecture, 54 lab  
**Transferable:** Not Transferable. Degree Applicable

**HVAC B60 Industrial Refrigeration Operations**  
*4 units*  
**Recommended:** Successful completion of HVAC B54 with a grade of C or better.  
**Description:** This course introduces students to the intricacies of industrial refrigeration application and theory. Students will learn the properties and use of anhydrous ammonia as a refrigerant, physics applied to the refrigeration cycle, the function of primary and auxiliary components, and application of two stage compression systems. Students will learn safety procedures related to the safe operation and maintenance of industrial refrigeration systems. Students will also learn codes and standards, OSHA emergency response, Personal Protection Equipment, Ammonia Spills and Clean Up.  
**Hours:** 54 lecture, 54 lab  
**Transferable:** Not transferable. Degree applicable.
INDA - Industrial Automation Courses

INDA B100 Industrial Design Graphics I
3 units
Prerequisites: Successful completion of INDR B12 with a grade of C or better and admission to Industrial Automation Bachelor's Degree program.
Description: The application of two-dimensional industrial design techniques (sketching, drafting, and Computer Aided Drafting) taught within the context of automation and process design. Students will gain design and management skills while generating process flow diagrams (PFD’s), piping & instrumentation diagrams (P&I&D’s), and control panel layouts.
Hours: 36 lecture, 54 lab
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)

INDA B105 Materials Science for the Technician
3 units
Prerequisites: Successful completion of PHYS B2A or PHYS B4A and MATH B1A OR MATH B2 OR MATH B6A with a grade of C or better and admission to Industrial Automation Bachelor’s Degree program.
Description: An introduction to materials science for technicians and technologists. Topics to be presented include atomic structure of materials, electrical and mechanical properties, properties testing, basic metallurgy, corrosion and wear, and materials selection. Materials covered include ceramics, polymers and composites, steels, and nonferrous metal alloys. Students will also be introduced to processes including heat treatment, surface treatments, polymer manufacturing, and composite fabrication.
Hours: 36 lecture, 54 lab
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)

INDA B110 Industrial Automation Networks
3 units
Prerequisites: Successful completion of ELET B58 and ELET B61 with a grade of C or better and admission to Industrial Automation Bachelor’s Degree program.
Description: The basic theory and implementation of industrial automation networks, including digital data, industrial control networks, instrumentation and process control bus and network standards, SCADA (Supervisory Control and Data Acquisition) and DCS (Distributed Control Systems), and essentials of human-machine interface (HMI) panels connection, programming, and modification of programs and features.
Hours: 36 lecture, 54 lab
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)

INDA B114 Industrial Safety Principles and Management
3 units
Prerequisites: Admission to Industrial Automation Bachelor’s Degree program
Description: An overview of components of successful safety and industry hygiene programs, best practices, OSHA reporting requirements, legal and ethical obligations of both employer and employee, principles of safety management, assessment of hazards associated with various industrial processes and facilities, and protective measures used to minimize hazards such as personal protective equipment, hazard management, education and training options, and incentive programs.

INDA B120 Industrial Automation Systems - Robotics
3 units
Prerequisites: Successful completion of ELET B4 with a grade of C or better and admission to Industrial Automation Bachelor’s Degree program.
Description: A study of industrial automation systems, including principles of robotics, power supplies and movement systems, sensing and end-of-arm tooling, and control systems and maintenance.
Hours: 36 lecture, 54 lab
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)

INDA B122 Applied Methods of Motion and Process Control
3 units
Prerequisites: Successful completion of ELET B55 or ELET B55a and ELET B56 with a grade of C or better and admission to Industrial Automation Bachelor’s Degree program.
Description: Methods of implementing and documenting industrial instrumentation and control for use in process and motion control. Implementation of controller operations using stand-alone PID (proportional integral derivative) controllers and PLC (programmable logic controllers) including topics such as single and dual loop controller tuning, basic process control strategies, and process safety. Applications of instrumentation will focus on selection, connection, and calibration of industrial sensors and signaling methods. Measurement parameters will include, pressure, flow, temperature, level, distance, pH (potential of hydrogen), RPM (revolution per minute), linear and angular velocity, and position. Applications of control will include Variable Frequency Drives (VFD), electric, pneumatic, and hydrologic actuators, and their application with control valves, motors, and servos for use in process and motion control. Students will research product data sheets and create documentation that cover topics such as process flow diagrams, P&I&D’s, loop diagrams, operation and troubleshooting procedures. Lab activities will be provided with actual equipment and software used in industry.
Hours: 36 lecture, 54 lab
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)

INDA B125 Operations Management in the Automation Field
3 units
Prerequisite: Admission to Industrial Automation Bachelor’s Degree program
Description: An Introduction to Operations Management and study of automation processes. Students will analyze and improve business processes in services and manufacturing, learning how to increase productivity and deliver high quality standards. Key concepts include process analysis, bottlenecks, flows rates, and inventory levels.
Hours: 54 lecture
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)
INDA B132 Project Management
3 units
Prerequisites: Admission to Industrial Automation Bachelor’s Degree program
Description: This course provides hard information and skills to work successfully in a project environment and to accomplish project objectives. It will equip students by explaining concepts and techniques and by using numerous examples to show how they can be skillfully applied. Topics covered in this course include project management life cycle and process; identifying and selecting projects; developing a project proposal; techniques for planning, scheduling, resource assignment, budgeting, and controlling project performance; project risks; project manager responsibilities and skills; project team development and effectiveness; project communication and documentation; and project management organizational structures. The concepts in the course support the project management knowledge areas of the Project Management Institute’s A Guide to the Project Management Body of Knowledge (PMBOK® Guide).
Hours: 54 lecture
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)

INDA B135 Economic Decision Making
3 units
Prerequisite: Admission to Industrial Automation Bachelor’s Degree program
Description: A study of the methodologies for estimating and forecasting product and service costs. Topics include labor and material cost analysis; accounting analysis including financial statements, depreciation, budgeting, and overhead allocation; forecasting techniques; general cost estimating methods; operations estimating and analysis; product cost estimating, and breakeven models
Hours: 54 lecture
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)

INDA B140 Quality Management
3 units
Prerequisites: Admission to Industrial Automation Bachelor’s Degree program
Description: An overview of the various methods of quality assurance (the systematic process of determining whether products meet customers’ expectations), quality control (the systematic process of determining the quality and consistency of products), and efficient manufacturing processes (using techniques that determine the most efficient method of manufacturing and logistics). Strategies such as Six-Sigma, Lean Manufacturing, Failure Mode Analysis, ISO 9001, and various continuous improvement programs will be examined.
Hours: 54 lecture
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)

INDA B143 Materials and Maintenance Management
3 units
Prerequisite: Admission to Industrial Automation Bachelor’s Degree program
Description: Principles and practices of maintenance department organization, prevention procedures, and typical equipment problems. Includes related topics such as plant protection, preventative and plant maintenance. Analytical methods used to support inventory replenishment for the production of goods and services.
Hours: 54 lecture
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)

INDA B144 Leadership
3 units
Prerequisites: Admission to Industrial Automation Bachelor’s Degree program
Description: Fundamental historical basis of ethics and character are studied with emphasis on the origin of the factors that many cultures derive their ethical standards. Relationship of how these standards relate to operations management and business. The characteristics of leadership and the ethical qualities that make a person an effective leader in today's business and industrial environment are analyzed. The laws of leadership and examples that specific leaders exhibit these laws are discussed with emphasis on individual growth as a leader in today's market.
Hours: 54 lecture
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)

INDA B150 Systems Design and Integration (Senior Project)
3 units
Prerequisites: Admission to Industrial Automation Bachelor’s Degree program and successful completion of INDA B132 with a grade of C or better.
Description: Students will work in teams to design, plan for production, and integrate various automation technologies into the production of a simple product; or partner with industry members to analyze and provide recommendations for actual problems.
Hours: 9 lecture, 135 lab
Transferable: Bachelor’s Degree Applicable; Career and Technical Education (CTE)
INDR - Industrial Drawing Courses

INDR B12 Introduction to Drafting and CAD
3 units
Description: An introductory course in technical drawing using both computer aided drafting and design (CAD) software and conventional drafting methods. Students will develop the visualization skills essential for a career in the fields of technical design and engineering-support. Students will learn how to create technical drawings using industry-standard formats typical to the industrial, architectural and engineering fields. Emphasis is placed on basic CAD skills, the creation and layout of drawing views, and sketching.
Note: Not open to students who have completed INDR B10 and INDR B11.
Hours: 27 lecture, 27 lab
Transferable: CSU and private colleges.

INDR B20A Computer Aided Drafting and Design (CAD)
3 units
Prerequisites: Successful completion of INDR B12 with a grade of C or better or equivalent experience to be evaluated by the instructor.
Description: An intensive course utilizing a computer aided design (CAD) program to obtain graphic solutions, design refinements, modifications, and delineations in both 2D and 3D for industrial, architectural, and engineering drawings. Emphasizes technology skills that are necessary to function as an entry-level CAD operator.
Materials Fee: $10.00
Hours: 27 lecture, 81 lab
Transferable: CSU, UC, and private colleges.

INDR B20B Computer Aided Drafting and Design (CAD)
3 units
Prerequisites: Successful completion of INDR B20A with a grade of C or better.
Description: Continuation of the sequence utilizing a computer aided drafting (CAD) program to obtain graphic solutions, design refinements, modifications, and delineations in both 2D and 3D for industrial, architectural, and engineering drawings. Emphasizes technology skills that are necessary to function as an entry-level CAD operator.
Materials Fee: $3.00
Hours: 27 lecture, 81 lab
Transferable: CSU and private colleges.

INDR B40 Parametric Modeling Fundamentals
3 units
Description: This class will introduce basic and advanced parametric modeling techniques. Three-dimensional models of mechanical objects will be used to generate two-dimensional drawings (including views, sections, details, dimensions, and assembly drawings). Emphasis on design and digital prototyping will run throughout the course. The course is project-based and will include the use of a 3D printer and the creation of animations to communicate design concepts.
Hours: 27 lecture, 81 lab
Transferable: CSU and private colleges. Degree applicable.

INDR B42 Introduction to Solidworks
2 units
Description: A foundational course in the use of Solidworks mechanical design software. Students will utilize 3D solid modeling techniques to generate and edit parts, assemblies, and detail drawings.
Hours: 27 lecture, 27 lab
Transferable: CSU and private colleges. Degree applicable.

INDR B48WE Occupational Work Experience Education/Internship
1-8 units
Prerequisite: Prerequisites: Declared major or occupational goal and evaluation of student’s qualifications and objectives.
Description: College credit for Industrial Drawing related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 hours per semester unit at paid work experience; 60 hours per semester unit volunteer work experience per unit.
Repetition allowed per Title 5 55253.
Hours: Non-paid 60 hours for each 1 unit (60-480). Paid 75 hours for each 1 unit (75-600).
Transferable: Not transferable. Degree applicable.

INDR B50 Process Piping
3 units
Prerequisites: Successful completion of INDR B10 and INDR B11 or INDR B12 with a grade of C or better.
Description: This is an intermediate-level CAD course that is structured to impart the foundational knowledge and essential technical skills required to succeed in the field of process pipe drafting and design. Areas of special emphasis include industry standards, pipe drawing conventions, technical calculations, as well as the creation of arrangement plans, isometric drawings, and process flow diagrams.
Materials Fee: $5.00
Hours: 27 lecture, 81 lab
Transferable: Not transferable. Degree applicable.

INDR B51 Electrical Design
3 units
Prerequisites: Successful completion of INDR B12 with a grade of C or better.
Description: Introduces students to the techniques necessary to create professional electrical control drawings using AutoCAD Electrical. Elements included in the class include building circuits, creating panel drawings, ladder diagrams, and generating reports.
Materials Fee: $3.00
Hours: 27 lecture, 81 lab
Transferable: Not transferable. Degree applicable.

INDR B52 Civil Drafting and Geographic Information Systems
3 units
Prerequisites: Successful completion of INDR B20A or equivalent with a grade of C or better.
Description: This is an advanced-level CAD course that is structured to impart the knowledge and skills necessary to create the kinds of technical drawings that are used in the Cadastral (civil engineering, mapping, and surveying fields) using CAD software. Students will also use Geographic Information Systems (GIS) software to perform model-based infrastructure planning and database queries.
Hours: 27 lecture, 81 lab
Transferable: Not transferable. Degree applicable.
INDT - Industrial Technology Courses

**INDT B10 Industrial Technology Careers**
3 units
**Description:** Orientation to Bakersfield College and post-secondary education in California. Survey of career and technical education programs in the field of industrial technology exploring career opportunities and discussing career evaluation. The course explores the options and techniques for creating a unique resume, discusses interview strategies, and includes development of a personal education plan. Other topics include self-evaluation, decision-making, goal setting, time and financial management. Satisfies the .5 unit educational planning requirement for graduation from Bakersfield College. Elective credit only.

**Hours:** 54 lecture

**Transferable:** CSU and private colleges.

**INDT B48WE Occupational Work Experience Education/Internship**
1-8 Units
**Prerequisites:** Declared major or occupational goal and evaluation of student’s qualifications and objectives.
**Description:** College credit for Industrial Technology related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 hours per semester unit at paid work experience; 60 hours per semester unit volunteer work experience. Repetition allowed per Title 5 55253.

**Hours:** Paid 75 hours for each 1 unit (75-600). Non-paid 60 hours for each 1 unit (60-480).

**Transferable:** Not transferable. Degree applicable.

**INDT B72 Special Problems in Electronics**
2 units
**Prerequisites:** Successful completion of ELET B1 with a grade of C or better or equivalent. Requires Instructor approval to enroll.
**Description:** This course provides individual students the opportunity to explore various segments of electronics and automation technology. Development and implementation of meaningful, self-directed studies in areas where the student desires specific technical and related skill development necessary for enrichment or employment.

**Hours:** 18 lecture, 54 lab

**Transferable:** Not transferable. Degree applicable.

**INDT B273 Special Problems in Machine Tool Metal Working**
2-3 units
**Prerequisites:** Completion of minimum of 6 units of machine tool courses with a grade of ‘C’ or equivalent experience or evaluation by instructor. Completed Petition for Individual Study form.
**Description:** Provides individual students the opportunity to explore various segments of machine tool metal working. Development and implementation of meaningful, self-directed studies in areas where student desires specific technical and related skills development necessary for enrichment or employment.

**Hours:** 18 lab hours for each unit (36-54)

**Transferable:** Not transferable. Not degree applicable.

**INDT B274 Special Problems in Woodworking**
2-3 units
**Recommended:** Concurrent enrollment in a woodworking technology related course or previous woodworking and/or cabinetmaking experience.
**Description:** Course is intended to provide students the ability to, on an independent study basis, the opportunity to explore various segments of the woodworking and cabinetmaking industry. The primary intent of this course is to develop and implement meaningful, self-directed studies in areas where the student desires specific technical and/or skill development.

**Hours:** 54 lab hours for each unit (108 – 162)

**Transferable:** Not transferable. Not degree applicable.

**INDT B275 Special Problems in Automotive Technology**
2 units
**Description:** Provides the individual students the opportunity to explore various segments of automotive. Development and implementation of meaningful, self-directed studies in areas where the student desires specific technical and related skill development necessary for enrichment or employment.

**Hours:** 27 lecture, 27 lab

**Transferable:** Not transferable. Not degree applicable.
JAPN - Japanese Courses

JAPN B1 Elementary Japanese I
4 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Introduction to Japanese language and culture. Special emphasis is on speaking and understanding Japanese along with mastering elementary grammar and composition while learning the characters of Japanese alphabets.
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; IGETC 6.A; CSU GE C.2; BC GE C.2

JAPN B2 Elementary Japanese II
4 units
Prerequisites: Successful completion of JAPN B1 with a grade of C or better.
Description: Continuing of elementary course introducing Japanese language and culture. Special emphasis on speaking and understanding Japanese along with mastering elementary grammar and composition while learning the characters of Japanese alphabets. Requires practice with audiotape/CD program outside of class.
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.B; IGETC 6.A; CSU GE C.2; BC GE C.2

JAPN B3 Intermediate Japanese
4 units
Prerequisites: Successful completion of JAPN B2 with a grade of C or better.
Description: Course provides the students with further knowledge and communication skills in Japanese in all 4 areas: speaking, listening, reading, and writing. In addition to the polite/distal style, the course further develops oral communication skills in other speech styles such as direct style and honorific style. Students should be able to read and write about 200 kanji (Chinese characters) in this course.
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; BC GE C.2

JAPN B4 Intermediate Japanese II
4 units
Prerequisite: Successful completion of JAPN B3 with a grade of C or better.
Description: This course provides the students with further knowledge and communications skills in Japanese in all 4 areas: speaking, listening, reading, and writing. In addition to the polite/distal style, direct style and honorific style, the course further develops oral communication skills in other styles such as honorific verbs, extra-modest/humble expressions and passive and causative sentences. 76 new kanji (Chinese characters) are introduced in this course.
Hours: 72 lecture
Transferable: CSU and private colleges.
JRNL - Journalism Courses

JRNL B1 Media and Society
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: A study and evaluation of mass media and how it shapes societies and cultures. The focus provides the media consumer with a historical and a theoretical perspective on newspapers, magazines, books, Internet, television, radio, public relations, advertising, and motion pictures. Course content discusses media law and ethics, controversial topics as well as topics of current interest. Field trips may be required.
Hours: 54 lecture
C-ID: JOUR 100
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2

JRNL B2 Beginning Reporting
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Introduction to journalism through the study of practical application of various techniques. Concentration on recognizing story ideas, gathering information from sources, news judgment, ethics, proper style and writing. Emphasizes news, features, sports and opinion writing. Prepares students for possible role on a student newspaper.
Hours: 54 lecture
C-ID: JOUR 110
Transferable: CSU and private colleges.

JRNL B15 Press Photography
3 units
Description: Study and application of digital photography as applied to journalism. Covers technical aspects of cameras, use of Photoshop, how to photograph assignments in the field and choosing photographs for print. Entry-level photojournalism course prepares students for enrollment in student newspaper. Important: Digital camera required.
Hours: 36 lecture, 54 lab
C-ID: JOUR 160
Transferable: CSU and private colleges.

JRNL B16 Multimedia Reporting
3 units
Description: Study and application of photography applied to emerging changes in the journalism landscape, specifically visual and audio communication through new media. Emphasizes the combined use of still cameras, audio recording equipment and video cameras to produce in-depth, content-rich reporting for journalism Web sites.
Hours: 36 lecture, 54 lab
C-ID: JOUR 120
Transferable: CSU and private colleges.

JRNL B25 Newspaper/Online Production I
3 units
Recommended: JRNL B2 with a grade of C or better and BC placement into reading level 06 and writing level 06.
Description: Production practicum for the print and online editions of 'The Renegade Rip,' BC’s award-winning student-produced newspaper. Offers experience in interviewing research, news, feature, sports, and opinion reporting, design and production of editorial cartoons, headline writing, copyediting, proofreading, introduction to page design, graphics, and computer use. Students wishing to report stories, create editorial cartoons, or create graphics for the college newspaper should be enrolled.
Hours: 18 lecture, 108 lab
Transferable: CSU and private colleges. Degree applicable.

JRNL B26 Newspaper/Online Production II
4 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Designed for editors and second-semester students for production of the online and print editions of The Renegade Rip, BC's award winning student-produced college newspaper. Teaches news content analysis, planning and evaluation using critical-thinking skills, story organization, intensive page design, planning and developing style and design of stories, photography, graphics, and art. Includes numerous discussions of ethics, collaboration with staff, and learning editorial leadership, with editors making all policy and content decisions for student-produced print and online media.
C-ID: JOUR 131
Hours: 18 lecture, 162 lab
Transferable: CSU and private colleges. Degree applicable.

JRNL B27A Newspaper Production/Reporters
3 units
Recommended: Successful completion of JRNL B2 with a grade of C or better and BC placement into reading level 06 and writing level 06.
Description: Production practicum for the print and online editions of The Renegade Rip, Bakersfield College's award-winning student-produced newspaper. Offers experience in interviewing research, news, feature, sports, and opinion reporting, design and production of editorial cartoons, headline writing, copyediting, proofreading, introduction to page design, graphics, and computer use. Students wishing to report stories, create editorial cartoons, or create graphics for the college newspaper should be enrolled.
Hours: 18 lecture, 108 lab
C-ID: JOUR 130
Transferable: CSU and private colleges.
LIBR - Library Courses

LIBR B1 Introduction to Library Research
1 unit
Prerequisites: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent or ENGL B50 or equivalent with a grade of C or better.
Description: Emphasizes developing research skills in order to locate and evaluate relevant and appropriate sources for college-level papers, speeches and other projects. Introduces students to advanced research techniques through the use of electronic databases, print resources, and the web, as well as the ethical use of information. Prepares students for research projects in English B50, English B1A, and other courses with research components.
Hours: 18 lecture
Transferable: CSU, UC, and private colleges

LIBR B55 Information Competency Workshops
0 unit
Description: Variety of hour-long workshops that assist students in gaining proficiency in all aspects of information competency. Workshop topics include research strategies, searching the online catalog for books, finding periodical articles online, using advanced techniques with Internet searching, evaluating Internet resources, evaluating print resources, and examining ethics in research (plagiarism, fair use, and copyright).
Hours: 1 lecture
Repeat: unlimited
Transferable: Not transferable. Not degree applicable.
MATH - Mathematics Courses

MATH B1A Precalculus I
4 units
Prerequisites: BC placement into math level 04 or successful completion of MATH B70 or equivalent with a grade of C or better.
Description: Preparation for calculus; the algebraic and graphical analysis of polynomial, rational, logarithmic and exponential functions and their applications; systems of linear and nonlinear equations, graphing, inequalities, absolute value, and complex numbers.
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; IGETC 2.A; CSU GE B.4; BC GE B.2

MATH B1B Precalculus II
4 units
Prerequisites: BC placement into math level 05 or successful completion of MATH B1A or equivalent with a grade of C or better.
Description: Definitions of trigonometric functions, graphs of trigonometric functions, use of trigonometric functions in problem solving, derivation of trigonometric identities, verification of trigonometric identities, solution of conditional trigonometric equations, study of inverse trigonometric functions, trigonometric form of complex numbers and DeMoivre's Theorem; analytic geometry, mathematical induction, and introduction to sequences and series.
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; IGETC 2.A; CSU GE B.4; BC GE B.2

MATH B2 Basic Functions and Calculus for Business
4 units
Prerequisites: BC placement into Math level 05 or successful completion of B1A or equivalent with a grade of C or better.
Description: Modern concepts in mathematics emphasizing applications to business. Functions and the basic concepts of differential calculus with introductions to integral calculus and multivariable calculus.
C-ID: MATH 140
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; IGETC 2.A; CSU GE B.4; BC GE B.2

MATH B3A Mathematics for Elementary School Teaching
4 units
Prerequisites: BC placement into math level 04 or successful completion of MATH B70 or equivalent with a grade of C or better.
Description: Focuses on the development of quantitative reasoning skills through in-depth, integrated explorations of topics in mathematics, including real number systems and subsystems. Emphasizes the comprehension and analysis of mathematical concepts and applications of logical reasoning. Designed for students intending to teach in K-8. Not recommended for majors in physical sciences nor mathematics.
C-ID: MATH 120
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; CSU GE B.4; BC GE B.2

MATH B3B Analytic Geometry/Calculus I
4 units
Prerequisites: BC placement into math level 06 or successful completion of MATH B1B or equivalent with a grade of C or better.
Description: Limits and differential calculus with an introduction to antiderivatives and integration. Includes analytic geometry and applications.
C-ID: MATH 211
Hours: 72 lecture
Transferable: Transferable: CSU, UC, and private colleges; IGETC 2.A; CSU GE B.4; BC GE B.2

MATH B6B Analytic Geometry/Calculus II
4 units
Prerequisites: Successful completion of MATH B6A or equivalent with a grade of C or better.
Description: Transcendental functions, polar functions, sequences, infinite series and methods of integration. Further exposure to techniques and applications of differential and integral calculus.
C-ID: MATH 221
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; IGETC 2.A; CSU GE B.4; BC GE B.2

MATH B6C Calculus III
4 units
Prerequisites: Successful completion of MATH B6B or equivalent with a grade of C or better.
Description: Continuation of Calculus II. Vectors and parametric equations, vector-valued functions, partial differentiation, multiple integrals, vector analysis, including theorems of Green, Gauss and Stokes.
C-ID: MATH 230
Hours: 72 lecture
Transferable: CSU, UC, and private colleges; IGETC 2.A; CSU GE B.4; BC GE B.2

MATH B6D Ordinary Differential Equations
3 units
Prerequisites: Successful completion of MATH B6C or equivalent with a grade of C or better.
Description: Vector spaces and linear transformations; elementary differential equations; Laplace transforms; series solutions and systems of differential equations; matrices; eigenvalues and eigenvectors.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 2.A; CSU GE B.4

MATH B6E Elementary Linear Algebra
3 units
Prerequisites: Successful completion of MATH B6C or equivalent with a grade of C or better.
Description: Real and complex number fields, vector spaces, linear transformation, matrices, systems of equations and matrix inversion, determinants, eigenvalues and eigenvectors.
Hours: 54 lecture
C-ID: MATH 250
Transferable: CSU, UC, and private colleges; IGETC 2.A; CSU GE B.4

MATH B21 Special Projects in Mathematics
1-2 units
Description: Individually directed work in mathematics in preparation for intercollegiate math competitions, including advanced topics, research projects, special problems and...
applications of mathematics to specific subject areas. Interested students should talk with their math instructors for an evaluation of their math skills. Field trips may be required.

**Hours:** 18 lecture hours for each unit (18-36)

**Transferable:** CSU and private colleges.

**MATH B22 Elementary Probability and Statistics**

*4 units*

**Prerequisites:** BC placement into math level 04 or successful completion of MATH B65 or MATH B70 or equivalent with a grade of C or better.

**Description:** Tabular, graphical, and numerical methods of summarizing data, finite probability, discrete and continuous random variables, binomial probability distribution, normal probability distribution, sampling distributions, point and interval estimation, one and two sample hypothesis testing procedures, analysis of variance, chi-square analysis, linear regression and correlation, and if time allows, nonparametric methods.

**Hours:** 72 lecture

**C-ID:** MATH 110

**Transferable:** CSU, UC, and private colleges; IGETC 2.A; CSU GE B.4; BC GE B.2

**MATH B23 Finite Mathematics**

*3 units*

**Prerequisites:** BC placement into math level 04 or successful completion of MATH B70 or equivalent with a grade of C or better.

**Description:** Solving equations and inequalities in one variable, relations and functions, matrices, linear inequalities in two variables, linear programming, mathematics of finance including simple and compound interest, annuities, sets and counting, and Venn Diagrams.

**C-ID:** MATH 130

**Hours:** 54 lecture

**Transferable:** CSU, UC, and private colleges; IGETC 2.A; CSU GE B.4; BC GE B.2

**MATH B50 Modern College Arithmetic and Pre-Algebra**

*4 units*

**Prerequisites:** BC placement into math level 01.

**Description:** A general review of basic arithmetic including the fundamental operations of addition, subtraction, multiplication and division of whole numbers, fractions and decimals. Emphasis is placed on real life applications, including percents, ratios, proportions, exponents, averages, estimation, graphs and measurement. The introduction to algebra includes operations with signed numbers and solving simple equations.

**Hours:** 72 lecture

**Transferable:** Not transferable. Not degree applicable.

**MATH B60 Beginning Algebra**

*5 units*

**Prerequisites:** BC placement into math level 02 or successful completion of ACDV B72 or equivalent with a grade of C or better.

**Description:** Fundamental concepts and mathematical processes first degree equations, polynomials, special products and factoring, rational expressions and equations, ratios, proportions, exponents, graphs, simultaneous linear equations.

**Hours:** 90 lecture

**Transferable:** Not transferable. Not degree applicable.

**MATH B65 Intermediate Algebra for Statistics**

*4 units*

**Prerequisites:** BC placement into math level 02 or successful completion of ACDV B72 or equivalent with a grade of C or better.

**Description:** An accelerated algebra course for non-STEM majors. Topics include simplifying algebraic expressions, manipulating and applying formulas, solving equations and inequalities in one and two variables, polynomials, and modeling with linear, exponential, and logarithmic functions.

**Note:** This course will only satisfy the prerequisite for MATH B22 and PSYC B5. This course should not be taken by Business majors and Elementary Teacher Education majors.

**Hours:** 54 lecture 54 lab

**Transferable:** Not transferable. Not degree applicable.
MCAG - Mechanized Agriculture Courses

MCAG B2 Introduction to Mechanized Agriculture
3 units
Description: This course covers basic mechanical skills in woodworking, cold metal, electricity, plumbing, concrete, and project construction skills as related to farm maintenance and repair. The use of hand and power tool skills as well as emphasis on safety practices for all mechanical areas are covered. A lab class is required.
Hours: 36 lecture, 54 lab
Transferable: CSU and private colleges

MCAG B3 Small Gas Engines
3 units
Description: This is a complete introductory course in the operation, construction, maintenance, repair, and adjustments of two-cycle and four-cycle engines. It is designed for persons without prior experience in small engines. Theory and practical work, including safety and the care and use of specialized tools used in small engine repair and maintenance, will be covered. Examples of the types of engines to be used will include lawn mower, power saw, pump, conveyor, self-propelled small carts, and any other small engines. Lab required.
Hours: 36 lecture, 54 lab
Transferable: CSU and private colleges.

MCAG B4 Agriculture Safety
3 units
Description: This course involves safety practices and principles, accident causation and prevention in the shop and in the field, as well as with tractors and machinery. Operation, service and normal safety practices common to farming will be stressed, including welding, hand tools, and chemical applicators. Material Safety Data Sheets, Personal Protective Equipment and on-site Worker safety will be explored. Supervised field operation and field trips will be required. Lab required.
Hours: 36 lecture, 54 lab
Transferable: CSU and private colleges.

MCAG B5 Agriculture Irrigation Technology
3 units
Description: An examination of agriculture irrigation systems, Irrigation and drainage problems relating to pumps, motors, sprinkler systems, structures, pipelines, ditches and wells; computation of costs and measurement of water; water law; basic principles of plant-soil-moisture relations, and water movement in soil. Field trips are required.
Hours: 36 lecture, 54 lab
Transferable: CSU and private colleges.

MCAG B10 Farm Power Operation
3 units
Description: This course involves design principles, selection, maintenance, adjustment, and safe operation of wheel and track type tractors and commonly used equipment in agriculture and in the construction industry.
Hours: 36 lecture, 54 lab
C-ID: AG + MA 108L
Transferable: CSU and private colleges.

MCAG B11 Introduction to Diesel Engine Repair
4 units
Description: This course explores the operation and repair of modern diesel engines. Principles and theories are studied by running, testing, diagnosing, disassembling and reassembling components, systems and engines.
Hours: 36 lecture, 108 lab
Transferable: CSU and private colleges.

MCAG B12 Advanced Diesel Engine Repair
3 units
Prerequisites: Successful completion of MCAG B11 with a grade of C or better.
Description: This course explores the operation and repair of modern computer controlled diesel engines, emissions systems and components. Advanced principles and theories are studied by testing, diagnosing, disassembling and reassembling engine components and systems.
Hours: 36 lecture, 54 lab
Transferable: CSU and private colleges. Degree applicable.

MCAG B13 Hydraulics
3 units
Description: This course explores the operation and repair of agricultural and industrial heavy equipment hydraulic systems including: pumps, valves, cylinders, motors, hydrostatic drives, hoses and fittings as well as electronic controls. Advanced principles and theories of operation, pressure and flow are studied by testing, diagnosing, disassembling, repairing and reassembling heavy equipment hydraulic components and systems.
Hours: 36 lecture, 54 lab
Transferable: CSU and private colleges. Degree applicable.

MCAG B14 Heavy Equipment Systems
3 units
Prerequisites: Successful completion of MCAG B13 with a grade of C or better.
Description: This course explores the operation and repair of agricultural and industrial heavy equipment systems including: drive systems, brakes and braking, tracks and tires, auxiliaries, air conditioning, electronics, and computer controls. Advanced principles and theories are studied by testing, diagnosing, disassembling, repairing and reassembling heavy equipment components and systems.
Hours: 36 lecture, 54 lab
Transferable: CSU and private colleges. Degree applicable.

MCAG B48WE Occupational Work Experience Education/Internship
1-8 units
Prerequisites: Declared major or occupational goal and evaluation of student's qualifications and objectives.
Description: College credit for mechanized agricultural related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 55253.
Hours: Non-paid 60 hours for each 1 unit (60 - 480). Paid 75 hours for each 1 unit (75 - 600).
Transferable: CSU and private colleges.
MEDS - Medical Science Courses

MEDS B35 Lifespan Development
3 units
Recommended: BC placement into reading level 06.
Description: Study of normal human growth and development in prenatal, childhood, adolescent, adult and old age periods. Offers a balanced study of basic theories, research, applications; principles of physiological, cognitive, and psychosocial development are discussed. Related observations are required. Health maintenance and safety issues for all age levels are incorporated. Concepts of death and dying are considered.
Hours: 54 lecture
C-ID: PSY 180
Transferable: CSU, UC, and private colleges.

MEDS B52 Cardiopulmonary Resuscitation for Healthcare Providers
0.5 unit
Description: An initial and retraining course in Basic Life Support that provides basic knowledge and skills of Basic Life Support and AED use for victims of all ages. Skills learned in the class will enable the students to recognize emergencies and how to respond to them. At the end of the course, the students will qualify for an American Heart Association Healthcare Provider BLS card. Repeat: As needed for recertification. Note: In addition to the scheduled hours, students must arrange a total of 2 required class hours in which students must obtain materials from the college bookstore. Prior to the first class meeting student must read manual and view DVD.
Materials Fee: $12.00
Hours: 9 lecture
Repeat: Unlimited, legally mandated training
Transferable: Not transferable. Degree applicable.

MEDS B60 Medical Terminology
3 units
Description: A study of basic medical terms related to the major body systems. Three units are required for radiologic technology, medical billing, and transcribers.
Hours: 54 lecture
Transferable: Not transferable. Degree applicable.

MEDS B66 Intravenous Therapy and Blood Withdrawal
2 units
Prerequisites: Enrollment in or completion of an Associate Degree or Vocational Nursing program.
Description: This course introduces the principles of intravenous therapy and blood withdrawal. The course is designed to enable the Licensed Vocational Nurse to safely initiate and maintain intravenous therapy and to perform blood withdrawal in a clinical setting. This course is approved by the Board of Vocational Nurses and Psychiatric Technicians and enrollment in or completion of an Associate Degree or Vocational Nursing Program is required.
Hours: 27 lecture, 27 lab
Transferable: Not transferable. Not degree applicable.

MEDS B68 Home Health Aide
1.5 units
Prerequisites: Successful completion of MEDS B69 with a grade of C or better.
Description: This course follows the California Department of Public Health (CDPH) guidelines and builds upon the foundation of the nurse assistant training. The course is designed to prepare students to work with clients in the home setting and includes a minimum of 20 hours in the clinical setting. Skills competencies will be assessed utilizing objective, measurable criteria. Upon completion of the course the student will be eligible for the State of California Home Health Aide certification.
Hours: 18 lecture, 27 lab
Transferable: Not transferable. Degree applicable.

MEDS B69 Nurse Assistant
6 units
Description: The focus of this course is to prepare the nurse assistant for certification by the State of California as an entry-level worker on a health care team. The curriculum is structured to provide theory and practical application on skills needed to function as a nurse assistant. Correlated lab experiences are provided with emphasis on providing basic nurse assistant care to residents in a long term care setting. Concepts presented in MEDS B69 are applied in the lab and clinical settings.
Materials Fee: $69.00
Hours: 63 lecture, 135 lab
Transferable: Not transferable. Not degree applicable.
**MFGT - Manufacturing/Machine Technology Courses**

**MFGT B1AB Machine Tool Processes**  
3 units  
**Recommended:** BC placement into reading level 06.  
**Description:** An introduction to machine tool technology including the use of precision measuring instruments, drilling machines, saws, lathes, and vertical milling machines.  
**Note:** Elective credit only.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**MFGT B2 CNC Lathe Programming & Operation**  
3 units  
**Description:** Students will learn the set-up, operation and programming of a computer numerical control lathe. Instruction in the use of CAM software is included.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**MFGT B3 CNC Mill Programming & Operation**  
3 units  
**Description:** Students will learn the set-up, operation and programming of a computer numerical control lathe. The use of manual programming techniques to produce a part program with standard G & M codes, utilizing 3 axis CNC Vertical Machining Centers. Content will include exposure to current industry tool types, speeds and feeds, cutter compensation, canned cycles, drilling and tapping cycles. Instruction in the use of CAM software is included.  
**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**MFGT B48WE Occupational Work Experience Education/Internship**  
1-8 units  
**Prerequisites:** Declared major or occupational goal and evaluation of student's qualifications and objectives.  
**Description:** College credit for Manufacturing Technology related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 hours per semester unit at paid work experience; 60 hours per semester unit volunteer work experience. Repetition allowed per Title 5 55253.  
**Hours:** Non-paid 60 hours for each 1 unit (60-480). Paid 75 hours for each 1 unit (75-600).  
**Transferable:** Not transferable. Degree Applicable.

**MFGT B51 Advanced Metal Fabrication and Layout Skills**  
3 units  
**Recommended:** Successful completion of MFGT B1AB or equivalent and WELD B54B or equivalent with a grade of C or better.  
**Description:** This course is designed for people working in or aspiring to enter the Sheet Metal trade in the fields of air conditioning, industrial sheet metal or architectural sheet metal. This course will provide comprehensive instruction in advanced sheet metal layout, including parallel lines, radial lines and triangulation. Students will be introduced to the safe set up and operation of sheet metal fabrication power equipment with emphasis on training equal to industry standards. Students will also be introduced to the materials and fabrication techniques necessary to build projects of sheet metal aimed at emerging “green energy” and Agriculture & Food Processing fields.  
**Hours:** 27 lecture, 81 lab  
**Transferable:** Not Transferable. Degree Applicable.

**MFGT B55 Intermediate Machine Tool Processes**  
3 units  
**Prerequisite:** Successful completion of MFGT B1AB with a grade of C or better.  
**Description:** This is an Advanced Course designed to take the student through machine shop practices with a specific emphasis placed on mathematical speeds and feed formulas, boring processes on mills and lathes, Cutting Tools, and the National Institute for Metalworking Skills (NIMS) Standards. At the completion of this course, students will have completed certain NIMS certification competencies.  
**Hours:** 27 lecture, 81 lab  
**Transferable:** Not transferable. Degree applicable.
MUSC - Music Courses

MUSC B2 Basic Elements of Music
3 units
Description: Designed for the student with little or no previous experience in the reading and writing of music. Development of beginning skills in music notation and basic elements of music theory. Course also serves as pre-requisite for Music B4A Elementary Theory.
Hours: 54 lecture
C-ID: MUS 110
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B4A Elementary Theory
3 units
Prerequisites: Successful completion of MUSC B2 or equivalent with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: A study of common practice harmony. Diatonic harmony including scales, key signatures, triad and seventh chord constructions and 4-part voice leading including phrase structure.
Hours: 54 lecture
C-ID: MUS 130
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B4B Elementary Theory
3 units
Prerequisites: Successful completion of MUSC B4A or equivalent with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: A study of common practice harmony. Chromatic harmony from secondary dominants through augmented sixth chords including simple form analysis and modulation.
Hours: 54 lecture
C-ID: MUS 140
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B4C Intermediate Theory-Contemporary Materials
3 units
Prerequisites: Successful completion of MUSC B4B or equivalent with a grade of C or better.
Corequisite: MUSC B15C must be taken concurrently.
Recommended: BC placement into reading level 06.
Description: Study of compositional styles and practices of Western art music since the late 19th century including practical application in composition: Covers advanced chromaticism, impressionism, serialism, basic set theory, and jazz harmony.
Note: Not open to students who have taken the equivalent course MUSC B4D. Formerly MUSC B4D.
Hours: 54 lecture
C-ID: MUS 150
Transferable: CSU, UC, and private colleges

MUSC B5A Class Piano
1 unit
Recommended: Basic understanding of music fundamentals.
Description: Elementary solo vocal training. Emphasizes breath control, tone placement, posture, diction, and interpretive concepts.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B5B Class Piano
1 unit
Prerequisites: Successful completion of MUSC B5A with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: Solo voice training. Emphasizes repertoire and further technical development beyond the level of MUSC B5A.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B5C Class Piano
1 unit
Prerequisites: Successful completion of MUSC B5B with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: Solo vocal training. Emphasizes repertoire and further technical development beyond the level of MUSC B5B.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B5D Class Piano
1 unit
Prerequisites: Successful completion of MUSC B5C with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: Solo vocal training. Emphasizes repertoire and further technical development beyond the level of MUSC B5C.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B6A Class Voice
1 unit
Recommended: Basic understanding of music fundamentals.
Description: Elementary solo vocal training. Emphasizes breath control, tone placement, posture, diction, and interpretive concepts.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B6B Class Voice
1 unit
Prerequisites: Demonstration by audition of skill of at least MUSC B6A level.
Description: Solo voice training. Emphasizes repertoire and further technical development beyond the level of MUSC B6A.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B6C Class Voice
1 unit
Prerequisites: Demonstration by audition of skill of at least MUSC B6B level.
Description: Solo voice training. Emphasizes repertoire and further technical development beyond the level of MUSC B6B.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B6D Class Voice
1 unit
Prerequisites: Demonstration by audition of skill of at least MUSC B6C level.
Description: Solo voice training. Emphasizes repertoire and further technical development beyond the level of MUSC B6C.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B7 Applied Music
1 unit
Prerequisite: Enrollment open only to students who pass a qualifying audition.
Corequisites: Must be concurrently enrolled in a music ensemble (MUSC B10A, MUSC B12A, MUSC B13A or MUSC B14A) Must be concurrently enrolled in one of the following music theory/
MUSC B11 Jazz Combos
1 unit
Prerequisite: MUSC B4A/B15A, MUSC B4B/B15B, or MUSC B4C/B15C.
Description: Individual and group instruction in solo performance for music majors culminating in a juried performance final. Includes instruction in technique, repertoire, and performance practice. Designed for students with significant prior experience/instruction with a particular instrument or singing.
Hours: 54 lab
Repeat: 3
Transferable: CSU, UC, and private colleges
C-ID: MUS 160

MUSC B12A College Orchestra
1 unit
Prerequisite: MUSC B2 with a grade of C or better or demonstration of skills at least equivalent to MUSC B2.
Description: This course is an introduction to the creative practice of improvisation for all instrumentalists and vocalists. Fundamentals of jazz theory are addressed through practical application, and musicianship skills are developed through dictation, transcription, analysis, and performance of standard jazz tunes, melodic patterns, rhythms, and chord progressions. Students will explore different stylistic and idiomatic approaches including motivic, harmonic, modal, and free improvisation.
Hours: 54 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; BC GE C.1
C-ID: MUS 180

MUSC B13A Jazz Ensemble
1 unit
Prerequisite: Audition required.
Corequisite: MUSC B4A and MUSC B230A.
Description: This course covers the study, rehearsal, and public performance of literature for small jazz groups of three to seven players. Various styles and repertory projects are explored, including traditional jazz, contemporary jazz, Latin jazz, and world music. Students will acquire training in jazz phrasing, ensemble playing, musicality, and creative improvisation. Special emphasis on original student compositions and arrangements.
Hours: 54 lab
Transferable: CSU, UC, and private colleges.
C-ID: MUS 180

MUSC B14A College Choir
1.5 units
Prerequisite: Audition required.
Description: Study of major choral literature of all the historical periods. Public performance required for credit. Field trips for performances are required.
Hours: 81 lab
Repeat: 3
C-ID: MUS 180
Transferable: CSU, UC, and private colleges; BC GE C.1

MUSC B15 Beginning Ear Training and Sight Singing
1 unit
Co-requisite: Must also register for MUSC B2.
Description: This course applies and develops the rhythmic, melodic, and harmonic materials of basic music theory through ear training, sight singing, analysis, keyboard exercises and dictation
Hours: 54 lab
Transferable: CSU and private colleges.
C-ID: MUS 180

MUSC B15A Ear Training and Sight Singing
1 unit
Corequisite: MUSC B4A and MUSC B230A.
Description: Drill in the singing and recognition of intervals, scales, and melodies with solfège syllables using moveable do. Practice in rhythmic, harmonic, and melodic dictation. Practice in conducting and performing rhythms.
MUSC B15B Ear Training and Sight Singing
1 unit
Prerequisites: Successful completion of MUSC B15A with a grade of C or better.
Corequisite: Concurrent enrollment in MUSC B4B and MUSC B230B.
Description: This course applies and develops the rhythmic, melodic, and harmonic materials of MUSC B4B Elementary Theory through ear training, sight singing, analysis, and dictation.
Hours: 54 lab
C-ID: MUS 145
Transferable: CSU, UC, and private colleges

MUSC B15C Intermediate Ear Training and Sight Singing
1 unit
Prerequisites: Successful completion of MUSC B15B with a grade of C or better.
Corequisite: MUSC B4C and MUSC B230C must be taken concurrently.
Description: Aural skill training in chromatic, post-tonal, and jazz oriented materials including exercises in singing, rhythm performance/conducting, keyboard, dictation (melodic, rhythmic, and harmonic), and scale/mode/chord aural recognition.
C-ID: MUS 155
Hours: 54 lab
Transferable: CSU, UC, and private colleges

MUSC B17A Chamber Singers
1.5 units
Prerequisites: Audition required.
Description: A select choral group, specializing in rehearsal and performance of all choral literature for all historical periods. Public performance required for credit. Field trips for performances are required.
Hours: 81 lab
Repeat: 3
C-ID: MUS 180
Transferable: CSU, UC, and private colleges; BC GE C.1

MUSC B18A Drum Line
1-3 units
Prerequisites: Audition required.
Description: Rehearsal and performance of drum line literature suitable for field, parade, and competition. Field trips and performances required.
NOTE: 54 hours of lab for each unit of credit. MUSC B18A has a limit of 3 repeats.
Hours: 54 lab hours for each 1 unit (54-162)
Repeat: 3
Transferable: CSU, UC, and private colleges

MUSC B21A History of Music
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Historical survey of western music from the Greco-early Christian era to the present. Uses recorded music and musical scores to study changing musical styles.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B21B History of Music
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Historical survey of western art music from the music of Beethoven to the present. Uses recorded music and musical scores to study changing musical styles.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B22 Music Appreciation
3 units
Recommended: BC placement into reading level 06.
Description: Introduction to appreciation of music with an emphasis on Western art music: historical development is surveyed with recordings, videos, multi-media computer presentations, and live performances as illustrations for directed listening as a basis for appreciation.
Hours: 54 lecture
C-ID: MUS 100
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B23 Appreciation of Jazz
3 units
Recommended: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better, or BC placement into writing level 06 or successful completion of ENGL B50 or equivalent with a grade of C or better.
Description: Comparative survey of jazz styles, musicians, and representative works. Students learn core musical concepts, engage in directed listening activities, attend live concerts, and discuss the various theoretical, aesthetic, and philosophical ideas that inspire the creation of jazz music.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

MUSC B24 A Survey of World Music
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: An introductory course surveying the dominant musical cultures of the new and non-western world with comparisons to European/western music. Emphasizes listening to and participation in world music through lecture, films, recording, live presentations, and class performance.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.1; BC GE C.1

MUSC B27 History of Rock and Roll
3 units
Recommended: BC placement into reading level 06.
Description: Introduction to the historical and stylistic developments of rock music, with emphasis on its social, economic and political consequences.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1
MUSC B28 Drum and Bugle Corps
2 units
Prerequisites: Audition required.
Description: Rehearsal and performance of drum corps literature suitable for field, parade, and competition. Field trips and performances required.
Hours: 108 lab
Repeat: 3
Transferable: CSU and private colleges.

MUSC B30 Introduction to Music Technology
3 units
Recommended: BC placement into reading level 06.
Description: This course introduces the basics of how technology and music interact. There will be an emphasis on audio software and hardware, basic principles of sound, digital audio workstations, MIDI, synthesis, and sequencing. Particular attention will be paid toward making connections between analog and digital technological contexts. Lab activity consists of self-directed projects which make use of software and hardware found in the typical digital audio studio.
Hours: 54 lecture
Repeat: 3
Transferable: CSU and private colleges.

MUSC B31 Commercial Music Composition
3 units
Recommended: BC placement into reading level 06.
Description: This course explores the process of songwriting and commercial music composition. Songs and compositions will be analyzed on chord structure, form, rhythm, melody, harmony, and lyrics. Original compositions and performances are expected from all students. Emphasis will be placed on relevant repertoire and the composition and performance of original material. Additional emphasis on commercial music composition for multimedia applications (jingles, production music, soundtracks). Includes use of basic recording technology useful for the contemporary songwriter.
Hours: 54 lecture
Transferable: CSU and private colleges.

MUSC B32 Sound Design and Synthesis
3 units
Prerequisites: Successful completion of MUSC B30 with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: This course introduces and builds up properties of sound and how it functions acoustically and electronically. There will be an emphasis on digital and analog synthesis, sampling, MIDI sequencing, film sound design, and other multimedia applications. Crucial to this exploration are considerations of the widespread use of sound synthesis and design in entertainment industry. The course culminates with a sound design reel and portfolio consisting of original electronic music compositions, multimedia applications, and sound design treatments.
Hours: 36 lecture 54 lab
Transferable: CSU and private colleges.

MUSC B33 Live Sound
3 units
Prerequisites: Successful completion of MUSC B30 with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: Introduction to live sound systems and aspects of reinforcement and acoustical design. Emphasis on components and function of live sound systems including microphones, mixers, effects, power amplifiers, and speaker systems. Focus on setup, operation, maintenance, safety, health, and other workplace issue. Student will gain hands-on experience at local venues and/or events with opportunities to troubleshoot, sound check, and mix in live sound situations.
Hours: 54 lecture
Transferable: CSU and private colleges.

MUSC B34 Recording Techniques I
3 units
Prerequisites: Successful completion of MUSC B30 with a grade of C or better.
Description: This course covers the fundamental aspects of work in the modern recording studio. Emphasis on commonalities between project and professional studio contexts. Topics include microphone technique, recording consoles, signal chain, signal processors, patchbays, monitoring, mastering, producing, and synchronization.
Hours: 36 lecture, 54 lab
Transferable: CSU and private colleges.

MUSC B35 Recording Techniques II
3 units
Prerequisites: Successful completion of MUSC B30 and B34 with a grade of C or better, and BC placement into reading level 06.
Description: This course builds upon the fundamental aspects covered in Recording Techniques I. Emphasis on mixing, mastering, advanced automation techniques, production techniques, film sound synchronization.
Hours: 36 lecture, 54 lab
Transferable: CSU and private colleges.

MUSC B36 Music Business
3 units
Recommended: BC placement into reading level 06.
Description: An overview of the music industry including publishing, music merchandising, contracts and licenses, retail concerns, and live entertainment. Additional examination of duties and responsibilities of producers, agents, managers, promoters, and performing artists. Emphasis on new media marketing and exposure to diverse careers and streams of income within industry. Students build portfolio in preparation for career in music industry.
Hours: 54 lecture
Transferable: CSU and private colleges.

MUSC B37 Commercial Music Ensemble
1 unit
Prerequisite: Audition required.
Description: Participation in small ensemble concentrating on popular styles, improvisation, and other aspects of commercial music performance.
Hours: 54 activity
Repeat: 3
Transferable: CSU and private colleges; BC GE C1

MUSC B40 Renegade Marching Band
2 units
Prerequisites: Previous experience in a marching band or similar
ensemble required.

**Description:** Rehearsal and performance of marching band literature suitable for field, parade, and competition. Field trips and performances may be required.

**Hours:** 108 lab

**Repeat:** 3

**Transferable:** Not transferable. Degree applicable.

---

**MUSC B54A College Chorale**

1 unit

**Prerequisite:** Previous experience in a choral group and demonstrated proficiency.

**Recommended:** BC placement into reading level 06.

**Description:** Select choral ensemble of mixed voices specializing in the rehearsal and performance of major choral works. Repertoire is selected from choral literature of all periods. Field trips for performances are required.

**Hours:** 54 lab

**Repeat:** 3

**Transferable:** Not transferable. Not degree applicable.

---

**MUSC B230A Music Lab**

0.5 unit

**Description:** A computer-based, positive attendance course featuring self-pacing programmed system instruction in one of two self-directed music technology areas: reading, transcribing, and performing rhythmic, harmonic, and melodic elements of music and/or generating, manipulating, editing, and producing digital audio content by gaining experience with digital audio workstations (DAWs). Offered on a Pass/No Pass basis.

**Hours:** 27 lab

**Transferable:** Not transferable. Not degree applicable.

---

**MUSC B230B Music Lab**

0.5 unit

**Description:** A computer-based, positive attendance course featuring self-pacing programmed system instruction in one of two self-directed music technology areas: reading, transcribing, and performing rhythmic, harmonic, and melodic elements of music and/or generating, manipulating, editing, and producing digital audio content by gaining experience with digital audio workstations (DAWs). Offered on a Pass/No Pass basis.

**Hours:** 27 lab

**Transferable:** Not transferable. Not degree applicable.

---

**MUSC B230C Music Lab**

0.5 unit

**Description:** A computer-based, positive attendance course featuring self-pacing programmed system instruction in one of two self-directed music technology areas: reading, transcribing, and performing rhythmic, harmonic, and melodic elements of music and/or generating, manipulating, editing, and producing digital audio content by gaining experience with digital audio workstations (DAWs). Offered on a Pass/No Pass basis.

**Hours:** 27 lab

**Transferable:** Not transferable. Not degree applicable.
NRES - Natural Resources Management

Courses

NRES B1 Range Management
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better and BC placement into math level 03 or successful completion of MATH B60 or equivalent with a grade of C or better.
Description: Basic range management and improvement practices. Proper utilization of rangeland resources. Overview of multiple use principles. Maintenance and improvement of range plant communities. Field trips required.
Hours: 36 lecture, 54 lab
Transferable: CSU and private colleges.

NRES B2 Parks and Outdoor Recreation
3 units
Description: An exploration of national, state, county, city, and private park systems. An overview of the history, philosophy, policy and principles of the formation, administration and functioning of recreational facilities and their impact on America. Field trips may be required.
Hours: 36 lecture, 54 lab
Transferable: CSU and private colleges.
NURS - Registered Nursing Courses

NURS B26 Medical Surgical Nursing 3
5.5 units
Prerequisites: Appropriate standing in the Associate Degree Nursing Program.
Description: Level 3 course focuses on the application of previously learned knowledge as well as the development of more in-depth knowledge for adult clients across the lifespan who have more diverse and complex disease states. The nursing process is the framework used in this course to present topics, such as leadership, critical thinking, pharmacology and safety. Correlated clinical experiences are provided with adult patients who have increasingly complex outcomes. The roles of Provider of Care, Manager of Care, and Member of the Profession are integrated and analyzed throughout the didactic and clinical experiences.
Materials Fee: $24.00
Hours: 45 lecture, 108 lab
Transferable: CSU and private colleges.

NURS B27 Pediatric Nursing
3.5 units
Prerequisites: Appropriate standing in the Associate Degree Nursing Program.
Description: This Level 3 course provides a foundation for pediatric nursing using growth and development concepts as a framework for presenting problems and special concerns of the pediatric client. Communication, anticipatory guidance, response to hospitalization, legal and ethical issues and health care of pediatric clients are discussed. Correlated clinical experiences emphasize clinical decision making, patient care management, including prioritization of care, and development of psychomotor skills. The roles of Provider of Care, Manager of Care, and Member of the Profession are integrated in both the theory and the clinical components.
Hours: 27 lecture, 108 lab
Transferable: CSU and private colleges.

NURS B28 Medical Surgical Nursing 4
7 units
Prerequisites: Appropriate standing in the Associate Degree Nursing Program.
Description: This capstone course focuses on the integration of knowledge and skills, though analysis and synthesis. The nursing process is used as the framework for providing nursing care to clients who have critical and complex medical conditions. Correlated clinical experiences emphasize refinement of clinical decision-making, formulating and revising priorities of care; psychomotor skills and patient care management. The roles of Provider of Care, Manager of Care, and Member of Profession are integrated to promote success in transitioning from student to entry level Registered Nurse.
Materials Fee: $24.00
Hours: 54 lecture, 216 lab
Transferable: CSU and private colleges.

NURS B29 Gerontology - Community Nursing
2 units
Prerequisites: Appropriate standing in the Associate Degree Nursing Program.
Description: Level 4 course integrates previous medical surgical knowledge and leadership skills as it applies to the aging adult. The Nursing process framework is used to explore the lifestyle and physical changes that occur with aging, apply the process of initiating health referrals and propose the outcome criteria for evaluating the aging individuals response to teaching/learning. Correlated clinical experiences will emphasize the application of interventions that will increase the older adults functional ability. The roles of Provider of Care, Manager of Care, and Member of Profession are integrated throughout the didactic and clinical experiences.
Hours: 18 lecture, 54 lab
Transferable: CSU and private colleges.

NURS B40 Foundations of Nursing Practice
4.5 Units
Prerequisites: Appropriate standing in the Associate Degree Nursing Program.
Description: This Level 1 course introduces the concepts of the professional nurse, nursing skills, beginning leadership, health care environment, growth and development across the lifespan, basic physiologic and human needs in health and illness, and providing a safe environment. Beginning critical thinking skills are emphasized, within the framework of the nursing process. Correlated clinical experiences are provided with adult patients who have basic health problems with predictable outcomes. The roles of Provider of Care, Manager of Care, and Member of the Profession are introduced and integrated throughout the course.
Limitation on Enrollment: Admission to the Associate Degree Nursing Program and appropriate standing in the Nursing Program.
Hours: 45 lecture, 108 lab
Transferable: CSU and private colleges.

NURS B41 Nursing Care of the Medical Surgical Patient 1
4 Units
Prerequisites: Appropriate standing in the Associate Degree Nursing Program.
Description: This level 1 course introduces medical surgical nursing concepts and practices as they relate to adult clients across the lifespan. Using the nursing process as the framework, the student will begin to recognize alterations in function or illness, and formulate age appropriate nursing interventions. Correlated clinical experiences are provided with adult patients who have basic health problems with predictable outcomes. The roles of Provider of Care, Manager of Care, and Member of the Profession are introduced and integrated throughout the course.
Materials Fee: $24.00
Hours: 36 lecture, 108 lab
Transferable: CSU and private colleges.

NURS B42 Pharmacology for Nursing Practice
3 Units
Prerequisites: Appropriate standing in the Associate Degree Nursing Program.
Description: This Level 1 course provides the foundation knowledge base related to pharmacology in nursing, including both theoretical and mathematical aspects. The course uses the nursing process as the framework, and addresses the roles of provider of care, manager of care, and member of the profession. Fundamental principles of pharmacodynamics, pharmacokinetics, legal and ethical issues, and nursing responsibilities are covered. Information regarding intravenous drug administration is limited to pharmacokinetics. The drug classes most commonly used in clinical
practice are presented. Additionally, information regarding basic mathematical calculations related to medication administration is introduced.

**Hours:** 54 lecture
**Transferable:** CSU and private colleges.

**NURS B43 Nursing Care of the Medical Surgical Patient 2**

5.5 Units

**Prerequisites:** Appropriate standing in the Associate Degree Nursing Program.

**Description:** This Level 2 course focuses on the development of the knowledge base and skills to care for patients across the lifespan, in various settings, who have higher acuity and more complex nursing needs. The nursing process is the framework for identification and treatment of health problems, and other concerns. Correlated clinical experiences emphasize clinical decision making, patient care management, including prioritization of care, and development of psychomotor skills. Leadership and management knowledge and skills are integrated in both the theory and clinical components. The roles of Provider of Care, Manager of Care, and Member of the Profession are integrated throughout the course.

**Materials Fee:** $24.00
**Hours:** 45 lecture, 162 lab
**Transferable:** CSU and private colleges.

**NURS B44 Nursing Care of the Psychiatric-Mental Health Client**

3 Units

**Prerequisites:** Appropriate standing in the Associate Degree Nursing Program.

**Description:** This Level 2 course provides an introduction to Psychiatric Mental Health Nursing, using the nursing process as the framework to promote psychosocial integrity within the context of the health illness continuum across the life span. Emphasis is on therapeutic interactions and communications, bio- psychosocial rehabilitation and therapeutic use of self. Correlated clinical experiences will provide opportunities for students to participate in therapeutic activities in a variety of mental health settings. The roles of Provider of Care, Manager of Care, and Member of the Profession are integrated in both the theory and the clinical components.

**Hours:** 27 lecture, 81 lab
**Transferable:** CSU and private colleges.

**NURS B45 Transition to Registered Nursing**

2 Units

**Prerequisites:** Appropriate standing in the Associate Degree Nursing Program.

**Description:** This Level 3 course designed for the LVN who is pursing licensure as an RN or the RN who wants to update skills to re-enter the workforce. The focus is on the development of critical thinking skills, physical assessment, the nursing process, role transition, and clinical skill competencies. The roles of provider of care, manager of care, and member of the profession are integrated throughout the course. The lab correlates with the didactic portion and provides an opportunity for application of concepts in the Nursing Skills lab.

**Hours:** 27 lecture, 27 lab
**Transferable:** CSU and private colleges.

**NURS B46 Nursing Care of the Medical Surgical Patient 3**

5 Units

**Prerequisites:** Appropriate standing in the Associate Degree Nursing Program.

**Description:** This level 3 course focuses on the application of previously learned knowledge as well as the development of more in-depth knowledge for adult patients across the lifespan who have more diverse and complex disease states. The nursing process is the framework used in this course to present topics, such as leadership, critical thinking, pharmacology and safety. Correlated clinical experiences are provided with adult patients who have increasingly complex outcomes. The roles of Provider of Care, Manager of Care, and Member of the Profession are integrated and analyzed throughout the didactic and clinical experiences.

**Materials Fee:** $24.00
**Hours:** 45 lecture, 135 lab
**Transferable:** CSU and private colleges.

**NURS B47 Nursing Care of Maternal Newborn Patients**

3 Units

**Prerequisites:** Appropriate standing in the Associate Degree Nursing Program.

**Description:** This Level 3 course provides a foundation for theoretical and technical knowledge base while caring for the contemporary family centered childbirth. Parent/newborn issues are viewed from a nursing process approach for the antepartum, intrapartum, postpartum, and neonatal client. Correlated clinical experiences emphasize clinical decision making, patient care management, including prioritization of care, and development of psychomotor skills. The roles of Provider of Care, Manager of Care, and Member of the Profession are integrated in both the theory and the clinical components.

**Hours:** 27 lecture, 81 lab
**Transferable:** CSU and private colleges.

**NURS B48 Nursing Care of Children and Adolescents**

3 Units

**Prerequisites:** Appropriate standing in the Associate Degree Nursing Program.

**Description:** This Level 3 course provides a foundation for Nursing Care of Children and Adolescents using growth and development concepts as a framework for presenting problems and special concerns of the pediatric client. Communication, anticipatory guidance, response to hospitalization, legal and ethical issues and health care of pediatric clients are discussed. Correlated clinical experiences emphasize clinical decision making, patient care management, including prioritization of care, and development of psychomotor skills. The roles of Provider of Care, Manager of Care, and Member of the Profession are integrated in both the theory and the clinical components. Admission to the Associate Degree Nursing Program and appropriate standing in the Nursing Program are required.

**Hours:** 27 lecture, 81 lab
**Transferable:** CSU and private colleges.

**NURS B48WE Occupational Work Experience Education/Internship**

1-8 units

**Prerequisite:** Declared major or occupational goal and evaluation of student's qualifications and objectives.

**Description:** College credit for registered nursing related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 55253.

**Hours:** Non-paid 60 hours for each 1 unit (60 - 480). Paid 75 hours
enrollment in additional semesters will offer the student an opportunity for additional skill and competency development within the subject matter.

Note: Offered credit/no credit grading only. Open entry/open exit.
Formerly NURS B201L.

Hours: 54 lab
Transferable: Not transferable. Not degree applicable.

NURS B201B Learning Lab
1 unit

Prerequisites: Appropriate standing in the Associate Degree Nursing Program.

Description: An on-campus lab designed for self-paced practice and mastery of nursing skills necessary for providing safe client care throughout the program. This level two course builds upon content from level one curriculum and provides instructional guidance to assist students in refining newly acquired skills and to develop the expected competencies for level two students.

Note: open entry/open exit

Hours: 54 lab
Transferable: Not transferable. Not degree applicable.

NURS B201C Learning Lab
1 unit

Prerequisites: Appropriate standing in the Associate Degree Nursing Program.

Description: An on-campus lab designed for self-paced practice and mastery of nursing skills necessary for providing safe client care throughout the program. This level three course builds upon content from level two curriculum and provides instructional guidance to assist students in refining newly acquired skills and to develop the expected competencies for level two students.

Note: open entry/open exit

Hours: 54 lab
Transferable: Not transferable. Not degree applicable.

NURS B201D Learning Lab
1 unit

Prerequisites: Enrollment into the ADN or LVN program or nursing student with evaluation of skills and knowledge by the ADN Program Director.

Description: An on-campus lab designed for self-paced practice and mastery of nursing skills necessary for providing safe client care throughout the program. This level one course provides instructional guidelines to assist students to refine newly acquired skills and develop the competency level expected of entry level nurses. Multimedia and computer assisted instructional materials which support the semester learning objectives are available. Subsequent enrollment in additional semesters will offer the student an opportunity for additional skill and competency development within the subject matter.

Note: Offered credit/no credit grading only. Open entry/open exit.

Formerly NURS B201L.

Hours: 54 lab
Transferable: Not transferable. Not degree applicable.
NUTR - Nutrition Courses

NUTR B10 Elementary Nutrition
3 units
**Recommended:** BC placement into reading level 06 and writing level 06.
**Description:** Basic concepts and principles of nutrition with application to current nutrition issues. Emphasizes improvement of personal health through proper eating habits.
**Hours:** 54 lecture
**Transferable:** CSU, UC, and private colleges; CSU GE E; BC GE E

NUTR B50 Modified Diets
2 units
**Prerequisites:** Successful completion of NUTR B10 or equivalent with a grade of C or better.
**Recommended:** BC placement into reading level 06.
**Description:** Nutrition care for acute illnesses and chronic diseases. Related normal and abnormal physiology, nutrition assessment and care plans and client education techniques are emphasized. Field trips may be required.
**Hours:** 36 lecture
**Transferable:** Not transferable. Degree applicable.
**ORNH - Ornamental Horticulture Courses**

**ORNH B1 Introduction to Ornamental Horticulture**
3 units

**Description:** General course in environmental horticulture with emphasis on nursery operations, landscaping, turf management, and floral industries including; basic botany, cultural practices, propagation, structures and layout, pest management, planting, container gardening and houseplants, floral design, plant identification, turfgrass installation and care, and survey of career opportunities. Lab required. Field trips required.

**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**ORNH B2 Fundamentals of Nursery Management and Plant Production**
3 units

**Recommended:** BC placement into reading level 06 and writing level 06.

**Description:** This is an introductory class in nursery business operations, skills, and processes appropriate to the horticulture industry in California. Emphasis will be placed upon laws/regulations, record keeping, budgeting, computer skills, professional organizations, cooperatives, merchandising, salesmanship, and communications. Propagation media, nursery designs, propagation, structures, seedage, cuttage, plant structure, rooting aids, transplanting, stepping up, and potting will be covered.

**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**ORNH B3 Landscape Installation and Maintenance**
3 units

**Recommended:** BC placement into reading level 06 and writing level 06.

**Description:** Enhancing the function and aesthetic value of public and private landscapes by applying appropriate installation and maintenance techniques in Kern County and California. Topics include; sustainability, planting, pruning, watering, soil fertility, pest management, weed control, and landscape maintenance business practices. Lab required.

**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**ORNH B4 Plant Propagation**
3 units

**Recommended:** BC placement into reading level 06 and writing level 06.

**Description:** Principles of sexual propagation, seedage, and asexual propagation, budding, grafting, cuttings, layering, division and separation. Principles of tissue culture.

**Hours:** 36 lecture, 54 lab  
**C-ID:** AG+EH 116  
**Transferable:** CSU and private colleges.

**ORNH B6 Ornamental Plant Identification-Ground Covers, Vines, and Dwarf Shrubs**
3 units

**Description:** Identification, habits of growth, culture and landscape use of dwarf shrubs, vines, ground covers, annuals, and seasonal plants, adapted to the Central Valley of California and the surrounding regions. Covers those plants best observed and studied in the fall of the year. Plant materials from local regions will also be included. Plants emphasized will come from the current California Association of Nurseries & Garden Centers (CANGC) and Professional Landcare Network (PLANET) Certification Tests Plant Lists. Lab required. Field trips required.

**Hours:** 36 lecture, 54 lab  
**C-ID:** AG+EH 108  
**Transferable:** CSU, UC, and private colleges

**ORNH B7 Ornamental Plant Identification-Large Shrubs, Small Trees, Large Trees, and Palms**
3 units

**Description:** Identification, habits of growth, culture and landscape use of large shrubs, small trees, large trees and palms adapted to the Central Valley of California and the surrounding mountains. Covers those plants best observed and studied in the spring of the year. Plant materials from local regions will also be included. Plants emphasized will come from the current California Association of Nurseries & Garden Centers (CANGC) and National Association of Landscape Professionals (NALP) Certification Tests Plant Lists.

**Hours:** 36 lecture, 54 lab  
**C-ID:** AG+EH 112  
**Transferable:** CSU, UC, and private colleges

**ORNH B8 Introduction to Landscape Design**
3 units

**Recommended:** BC placement into reading level 06 and writing level 06.

**Description:** The study and implementation of the art and science of landscape design, including principles of design, the design process, drafting, graphics, and presentation methods. Project emphasis is placed upon residential and small commercial sites. Course includes introduction to computer landscape design software programs. Lab required.

**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges.

**ORNH B9 Introduction to Tree Care and Urban Forestry**
3 units

**Description:** Principles about urban forestry, arboriculture careers, and tree care; Including tree biology, tree identification, plant health care, soils, nutrition, planting, worker safety, climbing, pruning, tree care tools and equipment. This course provides the knowledge necessary to be successful in the tree care profession. This course prepares the student to obtain a Certified Arborist designation through the International Society of Arboriculture. Field trips may be required.

**Hours:** 54 lecture  
**Transferable:** CSU and private colleges

**ORNH B36 Beginning Floral Design**
3 units

**Description:** Introduction to the fundamentals of theory, techniques and skills currently practiced in the floral industry. Includes applied art principles, cut flower care, handling practices, proper use of florist tools and materials, pricing of floral products and use of current floral business technology. Includes constructing corsages, floral arrangements, and foliage plant items, which meet floral industry standards.

**Hours:** 36 lecture, 54 lab  
**Transferable:** CSU and private colleges; BC GE C.1
ORNH B48WE Occupational Work Experience Education/Internship

1-8 units

**Recommended:** Declared major or occupational goal and evaluation of student's qualifications and objectives.

**Description:** College credit for ornamental horticultural related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit. Repetition allowed per Title 5 55253.

**Hours:** Non-paid 60 hours for each 1 unit (60 - 480). Paid 75 hours for each 1 unit (75 - 600).

**Transferable:** CSU and private colleges.
OSRM - Occupational Safety and Risk Management Courses

OSRM B10 Occupational Safety
3 Units
Description: This course explores the theories and principles of occupational safety with emphasis on the evaluation and control of workplace safety hazards including physical and mechanical hazards and their associated regulatory framework. Risk identification and hazard assessment provide a foundation for determining best practices for controlling unsafe conditions and practices. Topics include accident causation, accident investigation, job safety analysis, facility safety and inspection, machine guarding, enclosed and confined spaces, forklifts and industrial trucks, workplace violence, and the role of personal protective equipment.
Hours: 54 lecture
Transferable: Not transferable, Degree applicable.

OSRM B12 Occupational Health
3 Units
Description: Exploration of the concepts of occupational health as they pertain to appraising and controlling health hazards and occupational diseases. Specific chemical, biological, and physical agents found in the workplace, and their applicable regulatory standard, will be discussed including bloodborne pathogens, ergonomics and human factors engineering, indoor air quality, mold, noise, heat illness, health effects of pesticides, and others. Discussion of techniques for recognition, evaluation, prevention and control of occupational health hazards.
Hours: 54 lecture
Transferable: Not transferable, Degree applicable.

OSRM B16 Managing Employee Safety and Health
3 Units
Description: An examination of the fundamental elements of managing an occupational safety and health program. This course includes discussion of the legal aspects and regulatory framework for managing work-related injuries, cause and control of occupational loss, medical surveillance programs including commercial drivers, occupational drug and alcohol testing programs and requirements, disability discrimination parameters and reasonable accommodation. Application of a work management matrix outlining the major phases of employment including pre-employment identification of essential functions and job hazards will also be discussed.
Hours: 54 lecture
Transferable: Not transferable, Degree applicable.

OSRM B18 Occupational Regulations and Regulators
3 Units
Description: Overview of the state and local regulatory agencies involved in occupational safety and health and the scope of their jurisdiction, subject matter, and enforcement structure. Legal aspects including the employer’s responsibilities, employee rights, and citation/fine applicability will be explored. Special emphasis on the Cal/OSHA regulatory framework and enforcement. The following additional agencies will also be discussed: California Department of Industrial Relations; California Department of Pesticide Regulation; California Department of Toxic Substances Control; Division of Oil, Gas, and Geothermal Resources; and others. Local regulatory agencies and their role/jurisdiction will also be addressed.
Hours: 54 lecture
Transferable: Not transferable, Degree applicable.

OSRM B20 Environmental Health and Hazardous Materials
3 units
Description: This course provides an examination of federal, state, and local regulations applicable to the environment and environmental protection. A broad range of environmental topics will be explored, including the major categories of air, water, waste management, and hazardous materials. Principles and best practices for regulatory compliance, handling, transporting, release prevention and response, and notification systems are also discussed.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.

OSRM B26 Risk Management
3 units
Description: This course provides an examination of risk management principles within the context of occupational safety and health, and commercial insurance. An overview of the risk management process provides the foundation for managing an organization’s risk and exposure. Topics include identifying and analyzing loss exposures, identifying and applying.
Hours: 54 lecture
Transferable: CSU and private colleges. Degree applicable.
PBHS - Public Health Science Courses

**PBHS B20 Introduction to Public Health**
3 units
Description: This course provides an introduction to the discipline of Public Health. Students will gain an understanding of the basic concepts and terminologies of public health, as well as the history and accomplishments of public health officials and agencies. The course will provide an overview of the functions of various public health professions and institutions, and an in-depth examination of the core public health disciplines. Topics will include epidemiology of infectious and chronic disease; prevention and control of diseases in the community including the analysis of the social determinants of health and strategies for eliminating disease; illness and health disparities among various populations; community organizing and health promotion programming; environmental health and safety; global health; and healthcare policy and management.
C-ID: PHS 101
Hours: 54 lecture
Transferable: CSU and private colleges.

**PBHS B21 Contemporary Health Concerns**
3 units
Description: This course focuses on the exploration of major public health issues and behaviors within the dimensions of health. Emphasis is placed on individual responsibility for personal health and the promotion of informed, positive health behaviors with a focus on community wellness and behavioral change. Topics include nutrition, exercise, weight control, mental health, stress management, violence, substance abuse, reproductive health, disease prevention, aging, healthcare, and environmental hazards and safety.
C-ID: PHS 100
Hours: 54 lecture
Transferable: CSU and private colleges.

**PBHS B22 Drugs, Health, and Society**
3 units
Description: This course provides an overview of the epidemiology and toxicology of substance abuse and its relevance to personal and public health. Students will be introduced to the concept of substance abuse and dependence, the definition of licit and illicit drugs, and the pharmacologic, neurologic and physiologic effects of selected substances on the human brain. The course will explore and discuss the political, social and economic factors involved in the supply and demand for drugs. The course will cover epidemiologic data on the prevalence, incidence, and trends of smoking, alcohol, prescription and other drug dependencies in the U.S. as well as risk factors associated with the use and abuse of these substances. Coursework will include a survey of current options for drug addiction recovery, as well as, available resources.
C-ID: PHS 103
Hours: 54 lecture
Transferable: CSU and private colleges.

**PBHS B23 Health and Social Justice**
3 units
Prerequisites: BC placement into reading level 06 or writing level 06 or successful completion of ENGL B50 or ACDV B50 or equivalent with a grade of C or better.
Description: This course provides an introduction to the health inequities in the United States that stem from unequal living and health conditions. Students will explore how education, socioeconomic status, racism and gender shape health epidemics and policy development. The course will provide the basic skills necessary for advocating for health and social justice, as well as provide the theoretical concepts on health disparities and the relationship with social justice.
C-ID: PHS 102
Hours: 54 lecture
Transferable: CSU and private colleges.
PHED - Physical Education Courses

PHED B2SB Aquatics: Beginning Swimming
1 unit
Description: A semester course in beginning swimming in which the focus is on the knowledge and skill necessary to handle the body with ease in the water. The course covers basic mechanical, physiological and psychological concepts, fundamental safety skills and basic swimming strokes for the 4 competitive swimming strokes. (Free, Back, Breast, Fly)
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; BC GE E

PHED B3ADP Adaptive Physical Education
1 unit
Description: Individualized fitness class for the physically challenged (as verified by D.S.P.S.) with activities designed to emphasize resistive circuit training combined, when possible, with aerobic training.
Note: Students who are physically challenged may contact DSPS to determine if they qualify to enroll in the course again. Justification must be documented by a DSPS counselor.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B6A Coeducational and Individual Activity: Archery
1 unit
Description: Archery as a lifelong physiological and social activity. An elementary course in archery to include target archery and field archery.
Note: UC campuses give a maximum of four semester units of credit for appropriate Physical Education activity courses.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B6B Coeducational and Individual Activity: Basketball
1 unit
Description: Basketball as a lifelong physiological, psychological and social activity. Skills, strategies, rules and etiquette of basketball.
Note: UC campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; BC GE E

PHED B6BLB Coeducational and Individual Activity: Beginning Ballet (DANC B6BLB)
1 unit
Description: Co-educational beginning ballet course. Includes warm-up exercises, technical skills and terminology.
Note: Not open to students who have completed DANC B6BLB.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; BC GE E

PHED B6FCX Coeducational and Individual Activity: Fitness Center
1 unit
Description: Circuit training with resistance machines (weights), supplemented with a variety of aerobic based equipment. Stresses the development of muscle mass/tone, endurance and cardiovascular fitness. Not recommended for competitive weight lifters.
Note: UC campuses give a maximum of four semester units of credit for appropriate Physical Education activity courses.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; BC GE E

PHED B6G Coeducational and Individual Activity: Golf
1 unit
Description: This course includes instruction in technique, tactics, and physical conditioning related to the sport of golf.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; BC GE E

PHED B6JD Coeducational Team and Individual Activity: Jazz Dance (DANC B6JD)
1 unit
Description: Fundamental Jazz techniques and fundamental terminology of ballet as they relate to jazz dancing: including warm-up exercises for the preparation of the human body as an instrument for dance. Different styles and rhythms of jazz dance and music for jazz dance will be introduced. Note: Not open to students who have completed DANC B6JD.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; BC GE E

PHED B6SC Coeducational and Individual Activity: Soccer
1 unit
Description: Soccer as a lifelong physiological, psychological and social activity. Training in the fundamental skills of soccer. Understanding of the rules of the game, safety and basic strategy of play.
Note: UC campuses give a maximum of four semester units of credit for appropriate Physical Education activity courses.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; BC GE E

PHED B6T Coeducational and Individual Activity: Tennis
1 unit
Description: Tennis as a lifelong physiological, psychological and social activity. Student will learn basic tennis skills, rules, strategies and etiquette.
Note: UC campuses give a maximum of four semester units of credit for appropriate Physical Education activity courses.
Hours: 54 lab
Transferable: CSU, UC, and private colleges; BC GE E

PHED B6V Coeducational and Individual Activity: Beginning Volleyball
1 unit
PHED B6WT Coeducational Team and Individual Activity Weight Training

1 unit

Description: Coeducational course stressing the safe and effective application of Weight Training as a form of physical activity to enhance overall health and wellness. Instruction will include the development of various physical abilities (i.e. endurance, strength, power) through the safe and effective performance of Weight Training. Note: UC campuses give a maximum of four semester units of credit for Physical Education activity units.

Hours: 54 lab
Repeat: 1
Transferable: CSU, UC, and private colleges; BC GE E

Athletic Code Eligibility Requirements

An athlete must be continuously enrolled in a minimum of 12 units during the season of competition. Students competing in a sport must successfully complete 24 units to be eligible for a second season of competition. A 2.0 grade point average must be maintained to be eligible to participate.

NOTE: All intercollegiate sports may be substituted for physical education requirement for graduation. UC campuses give a maximum of four semester units of credit for appropriate physical education activity courses.

PHED B10 Intercollegiate Competition for Men: Football

3 units

Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.

Description: Intercollegiate competition for Men's Football team. Student must meet athletic code eligibility requirements. Field trips may be required.

Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.

Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B11 Intercollegiate Competition for Men: Basketball

1.5 units

Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.

Description: Intercollegiate competition for Men's Basketball team. Student must meet athletic code eligibility requirements. Field trips may be required.

Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.

Hours: 81 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B12 Intercollegiate Competition: Track and Field

3 units

Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.

Description: Intercollegiate competition for the Track and Field team. Student must meet athletic code eligibility requirements. Field trips may be required.

Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.

Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B13 Intercollegiate Competition for Men: Tennis

3 units

Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.

Description: Intercollegiate competition for Men's Tennis team. Student must meet athletic code eligibility requirements. Field trips may be required.

Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.

Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B14 Intercollegiate Competition for Men: Baseball

3 units

Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.

Description: Intercollegiate competition for Men's Baseball team. Student must meet athletic code eligibility requirements. Field trips may be required.

Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.

Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B15 Intercollegiate Competition Cheer

1 unit

Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.

Description: Practice, participation and competition on cheer, dance and stunt teams for Bakersfield College. Includes development of skills, both individual and group, for successful public performance. Field trips may be required.

Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.

Hours: 36 lab
Repeat: 3
Transferable: CSU, UC, and private colleges.

PHED B16 Intercollegiate Competition for Men: Golf

3 units

Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.

Description: Intercollegiate competition for Men's Golf team. Student must meet athletic code eligibility requirements. Field trips may be required.

Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.

Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E
PHED B17 Intercollegiate Competition Cross Country
3 units
Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.
Description: Intercollegiate competition for the Cross Country team. Student must meet athletic code eligibility requirements. Field trips may be required.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B20 Intercollegiate Competition for Men Wrestling
3 units
Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.
Description: Intercollegiate competition for Men's Wrestling team. Student must meet athletic code eligibility requirements. Field trips may be required. UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B23 Intercollegiate Competition for Women Soccer
3 units
Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.
Description: Intercollegiate competition for Women's Soccer team. Student must meet athletic code eligibility requirements. Field trips may be required.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B23M Intercollegiate Competition for Men Soccer
3 units
Prerequisite: Limitation on Enrollment: Student must meet athletic code eligibility requirements.
Description: Intercollegiate competition for Men's Soccer team. Student must meet athletic code eligibility requirements. Field trips may be required.
Note: UC campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges.

PHED B24 Intercollegiate Competition for Women: Golf
3 units
Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.
Description: Intercollegiate competition for Women's Golf team. Student must meet athletic code eligibility requirements. Field trips may be required.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B25 Intercollegiate Competition for Women Volleyball
3 units
Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.
Description: Intercollegiate competition for Women's Volleyball team. Student must meet athletic code eligibility requirements. Field trips may be required. UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B25B Intercollegiate Competition for Women Beach Volleyball
3 units
Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.
Description: Intercollegiate competition for Women's Beach Volleyball. Student must meet athletic code eligibility requirements. Field trips may be required. UC Campuses give a maximum of four semester units credits for Physical Education activity units.
Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges.

PHED B28 Intercollegiate Competition for Women: Basketball
1.5 units
Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.
Description: Intercollegiate competition for Women's Basketball team. Student must meet athletic code eligibility requirements. Field trips may be required.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 81 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B29 Intercollegiate Competition for Women Softball
3 units
Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.
Description: Intercollegiate competition for Women's Softball team. Student must meet athletic code eligibility requirements. Field trips may be required.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B32 Intercollegiate Competition Cross Country
3 units
Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.
Description: Intercollegiate competition for the Cross Country team. Student must meet athletic code eligibility requirements. Field trips may be required.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B32 Shape Up
3 units
Description: An integration of physiological, psychological and sociological understandings of the human being in relationship to physical activity as a lifelong pursuit. Topics include physical fitness, stress reduction benefits of exercise, nutrition, socialization and individual differences in human behavior.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 18 lecture, 108 lab
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E
PHED B33 Intercollegiate Swimming
3 units
Prerequisite: Limitation on Enrollment, Must meet athletic code eligibility requirement
Description: Intercollegiate competition for Swimming. Student must meet athletic code eligibility requirements. Field trips may be required.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 162 lab
Repeat: 3
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PHED B34C Intercollegiate Conditioning
1 unit
Description: Intercollegiate athletics course emphasizing preseason conditioning. Enrollment is limited to athletic team candidates and includes, sport specific aerobic and anaerobic conditioning, drill technique, strength conditioning, speed development and game play. Students who repeat this course will improve skills and fitness through further instruction and practice.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 54 lab
Repeat: 3
Transferable: CSU, UC, and private colleges.

PHED B34WT Intercollegiate Weight Training
0.5-2 units
Prerequisites: Limitation on Enrollment, this class is designed for identified student athletes.
Description: Intercollegiate athletics course emphasizing weight training. Enrollment is limited to athletic team candidates and includes, sport specific aerobic and anaerobic weight training, appropriate technique, strength conditioning, speed development and explosive exercises. Students who repeat this course will improve strength, flexibility, and fitness through detailed instruction and practice.
Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.
Hours: 81 lab
Repeat: 3
Transferable: CSU, UC, and private colleges

PHED B36 First Aid and CPR
3 units
Recommended: BC placement into reading level 06.
Description: This course involves the theory and detailed demonstration of the first aid care of the injured. The student will learn to assess a victim's condition and incorporate proper treatment. Standard first aid, C.P.R. and AED certification(s) will be granted upon successful completion of requirements.
Materials Fee: $27.00
Hours: 54 lecture
C-ID: KIN 101
Transferable: CSU, UC, and private colleges; BC GE E

PHED B39A Prevention and Care of Athletic Injuries
3 units
Recommended: Successful completion of BIOL B32 and BIOL B33 with a grade of C or better and Recommended: BC placement into reading level 06 and writing level 06.
Description: An introduction to the field of sports medicine.
Evaluation, rehabilitation and prevention of athletic injuries. Major emphasis will be on prevention of injuries and performance enhancement, through pre-screening for potential biomechanical deficiencies, strength training, conditioning, flexibility, nutrition and proper hydration techniques. The instructor will properly advise students who take this course of limitations and proper skills applications. Field trip required.
Hours: 36 lecture, 54 lab
Transferable: CSU, UC, and private colleges

PHED B39B Advanced Athletic Training
3 units
Prerequisite: Successful completion of BIOL B32 and BIOL B33 and PHED B39A with a grade of C or better.
Description: Evaluation and rehabilitation of athletic injuries; exposure to various physical therapy modalities and prevention of injuries will be discussed. The athletic trainer will properly advise students who take this course of limitations and proper skills applications. Field trips required.
Hours: 36 lecture, 54 lab
Transferable: CSU, UC, and private colleges

PHED B41 Recreation Leadership
3 units
Description: Survey of employment opportunities in the field of recreation. Students will learn the meaning and scope of recreation leadership, the problems of organization, types of activities and elements of leadership.
Hours: 54 lecture
Transferable: CSU and private colleges

PHED B42 Introduction to Kinesiology
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: This course is an introduction to the interdisciplinary approach to the study of human movement. An overview of the importance of the sub-disciplines in kinesiology will be discussed along with career opportunities in the areas of teaching, coaching, allied health, and fitness professions.
C-ID: KIN 100
Hours: 54 lecture
Transferable: CSU, UC, and private colleges.
PHIL - Philosophy Courses

PHIL B6A Introduction to Philosophy
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: A method, problems, multicultural and historical approach to philosophy. Epistemology (the study of knowledge), metaphysics (the study of reality), ethics (the study of morality), and philosophy of religion are covered from both traditional Western and non-Western sources.
Hours: 54 lecture
C-ID: PHIL 100
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

PHIL B7 Introduction to Logic
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: Traditional basics of correct reasoning with an emphasis on their relationships to language, thought and argument.
Hours: 54 lecture
C-ID: PHIL 110
Transferable: CSU, UC, and private colleges; CSU GE A.3; BC GE B.2

PHIL B9 Critical Thinking and Advanced Composition
3 units
Prerequisites: Successful completion of ENGL B1A or equivalent with a grade of C or better.
Recommended: Successful completion of ENGL B1A or equivalent with a grade of C or better.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 1.B; CSU GE A.3; CSU GE C.2; BC GE B.2

PHIL B10 Introduction to Ethics
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: Examination of the philosophical approach to morality. Study of the meaning of ethics and morality and methods used in ethical theorizing and reasoning. Emphasizes major ethical issues and theories. Discusses how to set up an ethical system.
Hours: 54 lecture
C-ID: PHIL 120
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

PHIL B12 Ethics of Living and Dying
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: A philosophical yet practical approach to some of the major medical-ethical problems facing human beings today, such as: what patients should be told, the nature and importance of informed consent, the meaning and criteria for living, dying, and death including caring for the dying, and allowing to die, mercy killing. Permeating these problems will be a study of the basis for ethical relationships among human beings through a study of what morality is, consequentialist and nonconsequentialist theories of morality, and how to set up an ethical system. Special emphasis will be placed on the relationship of the professional and the well to the sick, dying, and bereaved.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; CSU GE C.2; CSU GE E; BC GE C.2

PHIL B18 History of Ancient Philosophy
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: A survey of the development of Western philosophy from the Presocratics to the Hellenistic philosophers with particular emphasis on the philosophies of Plato and Aristotle. The focus throughout will be on analyzing and evaluating the central arguments of these philosophers as well as understanding how their views have contributed to the subsequent development of philosophy, science, art, and literature.
Hours: 54 lecture
C-ID: PHIL 130
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2

PHIL B19 History of Modern Philosophy
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: This course addresses 16th through 18th century philosophy with emphasis on broad epistemological and/or metaphysical developments of empiricism and rationalism in philosophical thought from Descartes to Kant and may include approximate precursors and successors.
Hours: 54 lecture
Transferable: CSU and private colleges; BC GE C.2

PHIL B37 Introduction to World Religions
3 units
Recommended: BC placement into reading level 06 and writing level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent and ENGL B50 or equivalent with a grade of C or better.
Description: A survey of the major world religions, which includes both Western religions such as Judaism, Christianity, and Islam, and Eastern Religions, such as Confucianism, Hinduism and Buddhism. Examines each religion’s history, sacred scriptures, geographic dispersion, primary theological concepts and spiritual practices, and contemporary role. Emphasis on understanding the distinct belief and practice of an individual in each of these religious traditions.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.B; CSU GE C.2; BC GE C.2
PHIL B100 Industry Ethics
3 units
Prerequisites: Admission to Industrial Automation Bachelor’s Degree program
Description: The main objective of this course is to stress analytical reasoning and emphasize clear thinking regarding the application of major ethical theories to specific workplace, organizational, and global business and technological issues that students are most likely to encounter once in the workforce. An examination of the responsibilities of the employee, manager, and organization within an industry context will take place, highlighting such issues such as whistleblowing, environment (e.g., asset disposal program), discrimination and harassment, risk, and safety. A key component of the class will also discuss the ethical importance of emerging technologies and their impact on society.
Hours: 54 lecture
Transferable: Bachelor’s Degree Applicable
PHSC - Physical Science Courses

**PHSC B12 Physical Science**

*4 units*

**Prerequisites:** BC placement into math level 03 or successful completion of MATH B60 or equivalent with a grade of C or better.

**Recommended:** BC placement into reading level 06.

**Description:** Introduces facts, principles and laws from physics and chemistry. Includes motion, force, energy, electricity and magnetism, waves, atom, periodic laws, ions, solutions, chemical reaction, organic chemistry.

**Hours:** 54 lecture, 54 lab

**C-ID:** CHEM 140

**Transferable:** CSU, UC, and private colleges; CSU GE B.1; CSU GE B.3; BC GE B.1
PHYS - Physics Courses

PHYS B2A General Physics-Mechanics and Heat
4 units
Prerequisites: BC placement into math level 04 or successful completion of MATH B70 or equivalent with a grade of C or better.
Corequisites: MATH B1A (may be taken concurrently)
Description: The properties of matter, mechanics and heat. Emphasizes understanding laws, principles, and theories. Required for most science, premedical, most other pre-professional and technical majors.
Hours: 54 lecture, 54 lab
C-ID: PHYS 105
Transferable: CSU, UC, and private colleges; IGETC 5.A; IGETC 5.C; CSU GE B.1; CSU GE B.3; BC GE B.1

PHYS B2B General Physics-Sound, Light, Electricity, Magnetism, Modern Physics
4 units
Prerequisites: BC placement into math level 06 or successful completion of Math B1B or equivalent and PHYS B2A or equivalent with a grade of C or better.
Description: The second in a 2-course algebra/trigonometry-based general physics sequence required of many science, pre-medical, and other pre-professional and technical majors. Includes electricity and magnetism, geometrical and physical optics, quantum physics, atomic physics, nuclear physics, and relativity. Emphasizes principles, laws, and problem solving.
Hours: 54 lecture, 54 lab
C-ID: PHYS 110
Transferable: CSU, UC, and private colleges

PHYS B4A Mechanics and Wave Motion
4 units
Prerequisites: Successful completion of MATH B6A or equivalent with a grade of C or better.
Description: The first in a sequence of three semester courses required of physics, engineering, and other majors requiring a thorough physics background. Includes vectors, kinematics, dynamics, momentum, energy, rotation, gravitation, oscillations, fluids, and wave motion.
Hours: 54 lecture, 54 lab
C-ID: PHYS 205
Transferable: CSU, UC, and private colleges; IGETC 5.A; IGETC 5.C; CSU GE B.1; CSU GE B.3; BC GE B.1

PHYS B4B Heat, Electricity, Magnetism
4 units
Prerequisites: PHYS B4A and MATH B6B with grades of ‘C’ or better.
Recommended: Successful completion of MATH B6C with a grade of ‘C’ or better.
Description: Second of a three-course calculus-based physics sequence required of physics, engineering, and other majors requiring a thorough physics background. Includes thermodynamics, electricity, magnetism, AC circuits, electromagnetic oscillations, and electromagnetic radiation. Emphasizes principles, laws and problem-solving.
Hours: 54 lecture, 54 lab
C-ID: PHYS 210
Transferable: CSU, UC, and private colleges
POLS - Political Science Courses

POLS B1 American Government: National, State and Local
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: A study of American government with emphasis on the national government. Includes a comprehensive analysis of governmental structure, functions, principles and problems. Includes analysis of California state and local governments. Partially satisfies the requirements in U.S. Constitution, American history and institutions and California state and local government.
Hours: 54 lecture
C-ID: POLS 110
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2; BC GE D.3

POLS B2 Comparative Government
3 units
Recommended: Successful completion of ENGL B50 with a grade of C or better, and BC placement into reading level 06.
Description: A comparative analysis of government structures and the underlying economic, social, and cultural systems of the principal nations of the industrial world: United States, United Kingdom, France, Federal Republic of Germany, Russia, and Japan. Additional emphasis on certain nations in sensitive geographic area or countries whose size and developing economics make them important, such as the People's Republic of China, Brazil, Mexico, Iran, India and Nigeria.
Hours: 54 lecture
C-ID: POLS 130
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2

POLS B3 International Politics
3 units
Recommended: BC placement into reading level 06.
Description: Surveys the dynamics and ideologies of present-day international politics and rivalries. Development of the national state system and the evolution of the techniques and arts of diplomacy, and the causes of war.
Hours: 54 lecture
C-ID: POLS 140
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2

POLS B5 Current Issues/American Government
1-2 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Study of special current events, such as elections, impeachment proceedings, public policies, or Constitutional revisions.
Note: Offered only as such events occur.
Hours: 18 lecture hours for each unit (18-36)
Transferable: CSU and private colleges.

POLS B12 Contemporary Issues in California State and Local Government
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Analysis of the role of state and local governments, with special emphasis directed to the history and development of these institutions; the state and local political environment; political parties, interest group, citizen and media inputs; current problems and changing functions affecting local governments. Partially satisfies the requirements in U.S. Constitution, American history and institutions.
Hours: 54 lecture
Transferable: CSU and private colleges; CSU GE D; BC GE D.2; BC GE D.3

POLS B16 Vital Political Problems
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Examination of major political problems challenging the United States today. Emphasis on class discussion and individual analysis of controversial topics involving political policy in the context of the study of political science.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2
PSYC - Psychology Courses

PSYC B1A General Psychology
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Emphasis is on the scientific process and research methods employed in psychology. Biological, developmental, cognitive, and sociocultural theories are covered to explain psychological phenomena. Psychological disorders and the evolving corresponding treatment protocols are applied to a diversity of individuals and groups.
Hours: 54 lecture
C-ID: PSY 110
Transferable: Transferable: CSU, UC, and private colleges; CSU GE D; CSU GE E; IGETC 4; BC GE D.1; BC GE E

PSYC B1B Biological Psychology
3 units
Prerequisite: PSYC B1A with a grade of ‘C’ or better.
Recommended: BC placement into reading level 06 and writing level 06.
Description: Ethical standards and current research methodologies for studying brain behavior relationships and mental processes in all life forms. Emphasis placed on using empirical analysis to understand and solve problems related to mechanisms underlying neural conduction and synaptic transmission, sensory and perceptual systems, plasticity, and brain damage, development, learning and memory, hunger, sex, drug use, sleep, lateralization of function and psychological disorders. Designed for psychology majors planning for upper division work in psychology.
Hours: 54 lecture
C-ID: PSY 150
Transferable: CSU, UC, and private colleges; IGETC 5.B; CSU GE B.2; BC GE B.1

PSYC B5 Elementary Statistics for the Behavioral and Social Sciences
4 units
Prerequisites: BC placement into math level 04 or successful completion of MATH B65 or B70 or equivalent with a grade of C or better.
Description: Emphasis on the use of probability techniques, hypothesis testing, and predictive techniques to facilitate decision-making. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-square and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings to various disciplines. Not open to students who have successfully completed BEHS B5.
Hours: 72 lecture
C-ID: SOCI 125
Transferable: CSU, UC, and private colleges; IGETC 2.A; CSU GE B.4; BC GE B.2

PSYC B6 Research Methods for the Behavioral and Social Sciences
4 units
Prerequisites: Successful completion of PSYC B1A and PSYC B5 or equivalent with a grade of C or better.
Description: Emphasis is on behavioral and social science research processes and methods including: problem definition and hypothesis formation, research design, ethical treatment of participants, data collection and analysis, application of statistical software, and professional report writing. Students will collect and analyze data from both experimental and non-experimental research methods.
Hours: 72 lecture
C-ID: PSY 200
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE B.2

PSYC B20 Social Psychology
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Examines the effects of social influence on individual behavior: including the study of conformity, obedience, persuasion, attitude formation and attitude change. The role of social judgment, aggression, prejudice, prosocial behavior, attraction, and interpersonal relationships are also examined. The scientific method and research strategies in social psychology are employed.
Note: Not open to students who have successfully completed SOCI B20.
Hours: 54 lecture
C-ID: PSY 170
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.1; BC GE D.2

PSYC B21 Special Projects in Psychology
1 unit
Recommended: BC placement into reading level 06 and writing level 06.
Description: Development of psychological research and/or preparation for teaching within the psychological field. Focus is on empirical methodology and/or assistance with data entry, development and assessment.
Hours: 54 lab
Transferable: CSU and private colleges.

PSYC B30 Human Sexuality
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Emphasis on the biopsychosocial aspects of human sexuality from childhood to old age: Examination of the human sexual system, the sexual act, changing sexual attitudes and behavior, gender identity issues, sexual health, sexual orientation, sexual problems and their treatments, and sexual communication. Exploration of legal and ethical aspects of sexuality.
Hours: 54 lecture
C-ID: PSY 130
Transferable: CSU, UC, and private colleges; CSU GE E; BC GE E

PSYC B33 Psychology of Personal and Social Adjustment
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Emphasis on the biopsychosocial aspects of personal growth and adjustment: Examination of different psychological perspectives and theoretical foundations and how these are applied.
across a person’s life taking into account the influence of culture, gender, ethnicity, historical, cohort, and social-economic status. A broad understanding of how scientists, clinicians, and practitioners study and apply psychology is emphasized.

**Hours:** 54 lecture  
**C-ID:** PSY 115  
**Transferable:** CSU, UC, and private colleges; CSU GE D; CSU GE E; IGETC 4; BC GE D.1; BC GE E

**PSYC B40 Introduction to Lifespan Psychology**  
3 units  
**Recommended:** BC placement into reading level 06 and writing level 06.  
**Description:** Provides an overview, from a psychological perspective, of human development from conception through death, including biological and environmental influences. Biopsychosocial development and cognitive and physical changes are examined in light of historical and contemporary research and theory for the growing child, adolescent, and adult.  
**Hours:** 54 lecture  
**C-ID:** PSY 180  
**Transferable:** CSU, UC, and private colleges; CSU GE D; CSU GE E; IGETC 4; BC GE D.1

**PSYC B100 Industrial and Organizational Psychology**  
3 units  
**Prerequisites:** Admission to Industrial Automation Bachelor’s Degree program  
**Description:** The application of psychological principles and theories to the workplace: This includes an introduction to the methods, practices, research, and theories necessary to the scientific study of the attitudes and behaviors of employees and employers; interpersonal relationships in the workplace; the structure of organizations and organizational policies; the complex processes of motivation and leadership; individual and organizational performance; and the match between people and jobs.  
**Hours:** 54 lecture  
**Transferable:** Bachelor’s Degree Applicable
RADT - Radiologic Technology Courses

**RADT B1A Introduction to Radiologic Technology**

2 units

**Prerequisites:** BC placement into math level 04 or successful completion of MATH B70 or equivalent with a grade of C or better and admission to the Radiologic Technology Program.

**Description:** Orientation to the duties and responsibilities of the Radiologic Technologist. Emphasizes the medical use of radiation, interpersonal communication, ethics, radiation safety and protection, foundations and futures of medicine and radiology, hospital and departmental operations, professional development and quality assurance. Assistance in understanding program requirements.

**Hours:** 36 lecture

**Transferable:** CSU and private colleges.

**RADT B1B Patient Care**

2 units

**Prerequisites:** Successful completion of BIOL B18 or equivalent with a grade of C or better and admission to the Radiologic Technology Program.

**Description:** Introduction to the basic concepts of patient care in the field of radiography. Instruction and demonstration in aseptic and non-aseptic techniques, infection control, body mechanics, transfer and immobilization techniques, vital signs, oxygen therapy administration, medical emergencies, and contrast media.

**Hours:** 36 lecture

**Transferable:** CSU and private colleges.

**RADT B2A Radiographic Anatomy and Positioning 1**

3 units

**Prerequisites:** Successful completion of RADT B4A and RADT B1B.

**Description:** Instruction and lab practice in radiographic positioning of the chest, abdomen, lower and upper extremities, arthrography, bone surveys and bone densitometry with correlated imaging anatomy.

**Hours:** 36 lecture, 54 lab

**Transferable:** CSU and private colleges.

**RADT B2B Radiographic Anatomy and Positioning 2**

3 units

**Prerequisites:** Successful completion of RADT B2A and RADT B3A and RADT B4B with a grade of C or better.

**Description:** Instruction and lab practice in radiographic positioning of the vertebral column, bony thorax, gastrointestinal, biliary and urinary systems with correlated film anatomy.

**Hours:** 36 lecture, 54 lab

**Transferable:** CSU and private colleges.

**RADT B2C Radiographic Anatomy and Positioning 3**

3 units

**Prerequisites:** Successful completion of RADT B7 with a grade of C or better and admission in the Radiologic Technology Program.

**Description:** Instruction and lab practice in radiographic positioning of the head and skull with correlated film anatomy. Introduction to the principles of mammography, angiography and interventional imaging with correlated anatomy.

**Hours:** 36 lecture, 54 lab

**Transferable:** CSU and private colleges.

**RADT B3A Radiographic Principles 1**

3 units

**Prerequisites:** Successful completion of RADT B1A with a grade of C or better.

**Description:** The principles of radiographic image production and acquisition including tube construction, exposure factors, beam restriction, grids, scatter radiation, image receptors, image processing, sensitometry and digital imaging will be discussed.

**Hours:** 36 lecture, 54 lab

**Transferable:** CSU and private colleges.

**RADT B3B Radiographic Principles 2**

3 units

**Prerequisites:** Successful completion of RADT B3A and RADT B12 with a grade of C or better.

**Description:** The principles of radiographic image production, acquisition and analysis including receptor exposure, contrast, spatial resolution, distortion, exposure control systems, mobile radiography, and fluoroscopy will be discussed.

**Hours:** 36 lecture, 54 lab

**Transferable:** CSU and private colleges.

**RADT B4A Introduction to Clinical Education**

1.5 units

**Prerequisites:** Successful completion of BIOL B18 or BIOL B32 or BIOL B33 with a grade of C or better and acceptance to the Radiologic Technology Program.

**Description:** Introduction to clinical education includes job shadowing and observation in patient transportation techniques, image processing, patient registration, equipment orientation, general patient care and safety.

**Materials Fee:** $44.00

**Hours:** 81 lab

**Transferable:** CSU and private colleges.

**RADT B4B Clinical Education 1**

4 units

**Prerequisites:** Successful completion of RADT B4A with a grade of C or better.

**Description:** Supervised clinical experiences are provided to develop skills in basic radiographic procedures. Fundamentals of anatomy, positioning and technical factors for imaging quality, radiation safety and protection.

**Materials Fee:** $20.00

**Hours:** 240 lab

**Transferable:** CSU and private colleges.

**RADT B5 Radiation Physics**

3 units

**Prerequisites:** Acceptance to the Radiologic Technology Program.

**Description:** Fundamentals of physics, radiologic quantities and units, the atom, electromagnetic radiation, electricity and magnetism, x-ray equipment, x-ray production, filtration, x-ray interaction with matter, radiation protection and quality assurance.

**Hours:** 72 lecture, 18 lab

**Transferable:** CSU and private colleges.

**RADT B6 Clinical Education 2**

5 units

**Prerequisites:** Successful completion of RADT B4B with a grade of
C or better.

Description: Supervised clinical experiences provided to perfect skills in a variety of radiographic procedures. Case studies of radiographic procedures discussing the fundamentals of anatomy, positioning and technical factors of image quality are analyzed. Extension of radiographic procedures demonstrated in RADT B2A, RADT B2B.

Materials Fee: $20.00

Hours: 18 lecture, 216 lab

Transferable: CSU and private colleges.

RADT B7 Clinical Education 3
6.5 units

Prerequisites: Successful completion of RADT B2B and RADT B3B and RADT B6 with a grade of C or better.

Recommended: BC placement into reading level 06.

Description: Supervised clinical experiences provided to perfect skills in a variety of radiographic procedures. Case studies of radiographic procedures discussing the fundamentals of anatomy, positioning and technical factors of image quality are analyzed. Extension of radiographic procedures demonstrated in RADT B2A, B2B.

Materials Fee: $44.00

Hours: 18 lecture, 302 lab

Transferable: CSU and private colleges.

RADT B9A Sectional Anatomy for Medical Imaging
3 units

Prerequisites: Acceptance into the radiologic technology program.

Description: Sectional anatomy of the head, spine, thorax, abdomen and pelvis. Emphasis on computed tomography and magnetic resonance images and other imaging modalities using sectional anatomy.

Hours: 54 lecture

Transferable: CSU and private colleges.

RADT B10 Clinical Education 4
7 units

Prerequisites: Successful completion of RADT B7 with a grade of C or better.

Description: Supervised clinical experiences are provided in advanced radiographic and fluoroscopic procedures. Case studies of radiographic procedures discussing anatomy, pathology, positioning and technical factors of image quality are analyzed on a case-by-case basis.

Materials Fee: $20.00

Hours: 18 lecture, 324 lab

Transferable: CSU and private colleges.

RADT B11 Radiographic Pathology
2 units

Prerequisites: Successful completion of RADT B2C and RADT B5 and RADT B10 with a grade of C or better.

Hours: 36 lecture

Transferable: CSU and private colleges.

RADT B12 Radiobiology and Radiation Protection
2 units

Prerequisites: Successful completion of RADT B1A and B4A with a grade of C or better.

Description: Fundamental concepts of radiobiology including interactions of matter, biological effects on living cells and organ systems, radiation quantities and units, filtration, radiation monitoring, ALARA concepts and radiation protection for occupational and non-occupational populations. Review of current related California and Federal health and safety codes.

Hours: 36 lecture

Transferable: CSU and private colleges.

RADT B13 Clinical Education 5
6.5 units

Prerequisites: Successful completion of RADT B10 with a grade of C or better.

Description: Supervised clinical experiences are provided to perfect skills in advanced radiographic procedures. Designed to prepare the student for program completion and certification examinations.

Materials Fee: $20.00

Hours: 351 lab

Transferable: CSU and private colleges.

RADT B30 Principles of Venipuncture
1 unit

Prerequisites: Admission in the Radiologic Technology Program, or current Radiologic Technologist, and a Current Cardiopulmonary Resuscitation, Healthcare Provider card.

Description: Basic instruction, practice and competency of venipuncture methods and procedures for the administration of contrast agents. Routes of administration, safety, basic pharmacology, dosage calculations and emergency procedures. Course meets California Health and Safety Code, Section 106985, pertaining to Certified Radiologic Technologists performing venipuncture.

Hours: 18 lecture

Transferable: CSU and private colleges.
SOCI - Sociology Courses

SOCI B1 Introduction to Sociology
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: The scientific study of human social behavior: This assumes that external forces shape individual behavior. The focus of this perspective is to identify, explain, and interpret these forces. As such, essential concepts, research methods, social institutions, and applications essential to the sociological perspective are examined.
Hours: 54 lecture
C-ID: SOCI 110
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2

SOCI B2 Problems of Modern Society
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Studies the social problems of modern society, especially in the United States, in order to arrive at alternate methods of identification and measurement of social problems. An attempt to gain understanding by judging the probable results of proposed changes. Problems include deviant behavior, including crime and delinquency, alcoholism, family violence, deviant subcultures, problems of man in industrial society, including the industrial workers and white collar workers and also stress and mental illness.
Hours: 54 lecture
C-ID: SOCI 115
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2

SOCI B20 Social Psychology
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Examines the effects of social influence on individual behavior: This includes the study of conformity, obedience, persuasion, attitude formation and attitude change. The role of social judgment, aggression, prejudice, prosocial behavior, attraction, and interpersonal relationships are also examined. The scientific method and research strategies in social psychology are employed. Not open to students who have successfully completed PSYC B20.
Hours: 54 lecture
C-ID: PSY 170
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.1; BC GE D.2

SOCI B21 Special Projects/Sociology
1 unit
Recommended: BC placement into reading level 06 and writing level 06 and completion of at least one introductory level sociology course or higher and instructor approval.
Description: Student development and completion of an original sociological research project and/or provide assistance with an existing research project. Course may also include student presentation of research findings.
Hours: 18 lecture
Transferable: CSU and private colleges.

SOCI B28 Introduction to Gender
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Sociological analysis of the social construction of masculinity and femininity historically and cross-culturally. It examines the debate on sex and gender and analyzes the impact of economic and political change on gender expectation and practices. It focuses macro-analyses on how institutions shape gender and micro-analyses on how individuals are socialized and how they practice gender.
Hours: 54 lecture
C-ID: SOCI 140
Transferable: CSU, UC, and private colleges; CSU GE D; CSU GE E; IGETC 4; BC GE D.2

SOCI B36 Sociology of the Chicano
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Historical review of the sociocultural and cultural characteristics of Chicanos in the United States. Focus is on the inter-relationships of Chicanos and the society including their immigration history, acculturation, assimilation, minority status and their cultural change, by generation status. Not open to students who have taken the equivalent course, CHST B36.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2

SOCI B45 Minority Relations
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Examination of the relationships among dominant and minority groups and related concepts and theories: Review of the immigration of Northwestern Europeans, Southeastern Europeans, Asians, and North and South Americans, and resultant social patterns reflecting their acculturation and structural assimilation. Those experiences unique to African Americans, women, and religious groups are also included. Not open to students who have taken the equivalent course, HMSV B45.
Hours: 54 lecture
C-ID: SOCI 150
Transferable: CSU, UC, and private colleges; CSU GE D; IGETC 4; BC GE D.2
SOIL - Soil Science Courses

SOIL B1 Introduction to Soil Science
3 units
Recommended: BC placement into reading level 06, writing level 06, and math level 03.
Description: Core agriculture course; required of all agriculture majors. Problems pertaining to the soil which are important in the profitable production of plants, including physical properties of soils, fertilizers, crop rotation, erosion and salt control, cultivation problems and irrigation.
Hours: 36 lecture, 54 lab
Transferable: CSU, UC, and private colleges; BC GE B.1
SPAN - Spanish Courses

SPAN B1 Elementary Spanish I
4 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Introduction to Spanish language and culture by means of a program that involves video, audio, and print media in an integrated method of planned immersion. Students will develop language skills that include reading, writing, listening comprehension and oral production.
Note: Not open to students who have taken the equivalent course, SPAN B1AB.
Hours: 72 lecture
C-ID: SPAN 100
Transferable: CSU, UC, and private colleges; IGETC 6.A; CSU GE C.2; BC GE C.1; BC GE C.2

SPAN B2 Elementary Spanish II
4 units
Prerequisites: Successful completion of SPAN B1 or equivalent with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: This course continues using the “planned immersion approach” begun in SPAN B1. It explores new tenses and moods of the language and continues vocabulary enhancement, development of oral production and writing, integrating aspects of the Spanish culture.
Note: Not open to who have taken the equivalent course, SPAN B2AB.
Hours: 72 lecture
C-ID: SPAN 110
Transferable: CSU, UC, and private colleges; IGETC 6.A; CSU GE C.2; BC GE C.2

SPAN B3 Intermediate Spanish I
4 units
Prerequisites: Successful completion of SPAN B2 or SPAN B2AB or equivalent with a grade of C or better or Native Speaker.
Recommended: BC placement into reading level 06.
Description: Intensive grammar review of the Spanish language, supplemented with reading selections of Spanish and Latin American authors with the purpose of nourishing an understanding of the Spanish culture.
Note: Not open to students who have successfully completed SPAN B35.
Hours: 72 lecture
C-ID: SPAN 200
Transferable: CSU, UC, and private colleges; IGETC 3.B; IGETC 6.A; CSU GE C.2; BC GE C.2

SPAN B35 Spanish for Heritage Speakers I
4 units
Recommended: Heritage speaker or near heritage speaker abilities and skills.
Description: This course is designed for students whose native language is Spanish but need to improve their writing, grammar, vocabulary, and spelling skills. Strong emphasis will be placed on punctuation, accent rules, composition, grammar, vocabulary and reading. The course is taught entirely in Spanish.
Note: Not open to students who have taken the equivalent course, SPAN B3.
Hours: 72 lecture
C-ID: SPAN 210
Transferable: CSU, UC, and private colleges; IGETC 6.A; CSU GE C.2; BC GE C.2

SPAN B36 Spanish for Heritage Speakers II
4 units
Prerequisite: SPAN B35 with a grade of ‘C’ or better.
Description: This course is a continuation of Spanish B35 and is designed for students whose native language is Spanish but need to improve their academic skills in the language. This course will focus on advanced grammar concepts, subjunctive tenses, sequence of tenses, extensive writing and reading. The writing and reading skills will be strengthened as well as vocabulary building. The course is taught entirely in Spanish.
Note: Not open to students who have taken the equivalent course, SPAN B3, or who have taken SPAN B10.
Hours: 72 lecture
C-ID: SPAN 220
Transferable: CSU, UC, and private colleges; IGETC 6.A; CSU GE C.2; BC GE C.2

SPAN B4 Intermediate Spanish II
4 units
Prerequisites: Successful completion of SPAN B3 or SPAN B35 or equivalent with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: Continued advanced readings from Spanish and Latin American authors, and continued intensive grammar review of the Spanish language preparing students for upper division work in literature and language.
Note: Not open to students who have taken the equivalent course, SPAN B36.
STDV - Student Development Courses

STDV B1 Educational Planning
1 unit
**Description:** The course introduces college survival skills and issues, including college expectations, a student's responsibility for education, college resources, and academic policies. This course is designed to assist students in discussing strategies for choosing a major and/or career and to help them in making educational plans based on their individual career goal. AA/AS Associate's Degree applicable.
**Hours:** 18 lecture
**Transferable:** CSU, UC, and private colleges.

STDV B2 Lifelong Learning and Career Planning
2 units
**Description:** This survey course is designed to increase academic motivation and career success throughout the lifespan. In particular, students will learn to examine how an individual's psychological, social, and environmental factors impact academic, career and personal life choices. Through this exploration, students will apply these topics as they relate to their personal and professional self-development and to the discovery of many new options for improving all aspects of their lives. The historical view of careers, current career trends, and employment outlook will be studied. Various methods of researching academic and career opportunities will be explored to assist students. Satisfies the 0.5 educational planning graduation requirement for Bakersfield College.
**Hours:** 36 lecture
**Transferable:** CSU, UC, and private colleges. Degree applicable.

STDV B3 Career and Life Planning
3 units
**Description:** This course guides students through a decision-making process that will help them envision and plan for a future that is productive, achievable, and stimulating. The culmination of this process is the development of a career and educational plan that will create a pathway for students to reach their career and academic goals. Critical thinking skills will be utilized through a systematic approach to career development by examining values, interests, skills, life roles, personality types, personal self-management, decision-making and goal-setting throughout the life span.
**Hours:** 54 lecture
**Transferable:** CSU and private colleges; CSU GE E

STDV B6 Tools for College Success
3 units
**Description:** Integrates personal growth, learning techniques, academic and career success, problem solving, critical, and creative thinking. The course focuses on the following topics: self-evaluation and assessment, goal setting, career decision making, educational planning, time and financial management techniques, instructor-student relationships, cultural diversity, stress management, campus resources, learning styles and strategies including lecture note-taking, test taking, memory and concentration. Satisfies 0.5 unit educational planning requirement for graduation from Bakersfield College.
**Hours:** 54 lecture
**Transferable:** CSU, UC, and private colleges.
TECM - Technical Mathematics Courses

TECM B52 Mathematics for Career Education
3 units

**Description:** Covers the skills and tools (including technology) needed to think critically about quantitative information encountered in daily life. Emphasis on solving real-world problems utilizing open-ended exercises that involve reading, analyzing, calculating, and clearly reporting results. Topics include: using numbers in the real world; financial literacy; statistics; probability; linear and exponential modeling. This course explores connections between mathematics and various facets of modern life.

**Hours:** 36 lecture, 54 lab

**Transferable:** Not transferable. Degree applicable.
THEA - Theatre Arts Courses

THEA B1 Introduction to Acting
3 units
Recommended: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Description: Designed for either theatre majors, or, non-majors. Emphasizes mastery of self as the key to creative process of communication and performance through improvisation, theatre games, concentration, pantomime, etc.
Hours: 54 lecture
C-ID: THTR 151
Transferable: CSU, UC, and private colleges; CSU GE C.1; BC GE C.1

THEA B2A Elements of Acting
3 units
Prerequisites: Successful completion of THEA B1 or equivalent with a grade of C or better or by audition.
Recommended: BC placement into reading level 06.
Description: This course is an exploration of theories and techniques used in preparation for the interpretation of drama through acting. The emphasis will be placed on deepening the understanding of the acting process as it relates to scripted materials such as monologues, scenes and full plays.
Hours: 54 lecture
C-ID: THTR 151 (For taking both THEA B2A and THEA B2B)
Transferable: CSU, UC, and private colleges; CSU GE C.1; BC GE C.1

THEA B2B Elements of Acting
3 units
Prerequisites: Successful completion of THEA B1 and THEA B2A or equivalent with a grade of C or better or by audition.
Recommended: BC placement into reading level 06.
Description: This course is an exploration of theories and techniques used in preparation for the interpretation of drama through acting. The emphasis will be placed on deepening the understanding of the acting process through scripted materials such as plays, scenes, and monologues.
Hours: 54 lecture
C-ID: THTR 152 (For taking both THEA B2A and THEA B2B)
Transferable: CSU, UC, and private colleges; CSU GE C.1; BC GE C.1

THEA B12A Introduction to Shakespeare
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Designed to give the student a heightened awareness of and appreciation for Shakespeare and his works. Patients included will be the study of four representative plays.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1

THEA B27 Acting Theatre Lab
2 units
Prerequisites: Audition required.
Recommended: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Description: This class introduces the student to the fundamental concepts and elements of theatre, drama and entertainment by exploring their origins, history, and functions in society as they are experienced and used by individuals.
Hours: 108 lab
Repeat: 3
C-ID: THTR 191
Transferable: CSU, UC, and private colleges; BC GE C.1

THEA B28 Technical Theatre Lab
1 unit
Recommended: BC placement into reading level 06 and writing level 06.
Description: Participation in set construction, lighting, makeup, costume, properties, or any other technical area of theatrical productions.
Hours: 54 lab
Repeat: 3
C-ID: THTR 192
Transferable: CSU and private colleges.

THEA B31 Introduction to Film Studies
3 units
Recommended: BC placement into reading level 06 and writing level 06.
Description: Designed to give the student a heightened awareness and appreciation of films through viewing, discussing and writing about them. The critical viewing and discussion of film will provide the basis for the development of aesthetic appreciation.
Hours: 54 lecture
Transferable: CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1
THEA B32 Contemporary Film Studies
3 units

**Recommended:** BC placement into reading level 06 and writing level 06.

**Description:** Designed to give the student a heightened awareness and appreciation of genre film categories through viewing various genre films, discussing and writing about them.

**Hours:** 54 lecture

**Transferable:** CSU, UC, and private colleges; IGETC 3.A; CSU GE C.1; BC GE C.1
VNRS - Vocational Nursing Courses

**VNRS B67 Principles of Pharmacology**
2 units
**Corequisites:** VNRS B68 and VNRS B69 and VNRS B69L and appropriate standing in the Vocational Nursing Program.
**Description:** This course is designed to prepare the vocational nurse to function safely when administering medication. Using the nursing process as the framework, concepts of pharmacology, calculations, and nursing considerations that pertain to the safe administration of medication are presented.
**Hours:** 36 lecture
**Transferable:** Not transferable. Degree applicable.

**VNRS B68 Basic Medical Surgical Nursing Practice**
3 units
**Corequisites:** VNRS B67 and VNRS B69 and VNRS B69L and appropriate standing in the Vocational Nursing Program.
**Description:** This Vocational Nursing theory course focuses on the application of the nursing process in common health/illness situations. Using the nursing process as a framework, emphasis is placed on the role of the vocational nurse as a provider of care in assisting the adult and geriatric client with chronic disorders affecting the GI, GU endocrine, integumentary systems. Topics in basic nutrition are also presented including an overview of basic nutrients, basic therapeutic diets, and patient education specific to chronic conditions. Basic mental health concepts are introduced. Concepts in this course are correlated with the clinical settings presented in Foundations for Vocational Nursing Practice Lab.
**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

**VNRS B69 Foundations for Vocational Nursing Practice**
3 units
**Corequisites:** VNRS B67 and VNRS B68 and VNRS B69L and appropriate standing in the Vocational Nursing Program.
**Description:** This Vocational Nursing theory course begins with an introduction to the roles of the vocational nurse and provides a foundation of basic nursing arts and sciences necessary for the practice of nursing including concepts specific to the gerontological client. Using the nursing process as a framework, concepts of professionalism, growth and development, safety, and health concerns for the adult and geriatric population are discussed. Legal and ethical considerations, cultural diversity, the nursing process, and basic data collection are included as theory topics along with the presentation of basic mental health concepts applicable to the geriatric client. Fundamental nursing skills are discussed in detail with concurrent hands-on practice of skills.
**Hours:** 54 lecture
**Transferable:** Not transferable. Degree applicable.

**VNRS B69L Foundations for Vocational Nursing Practice Lab**
6 units
**Corequisites:** VNRS B67 and VNRS B68 and VNRS B69 and appropriate standing in the Vocational Nursing Program.
**Description:** This Vocational Nursing lab course concentrates on the provider of care role of the vocational nurse in assisting the adult and geriatric patient to meet essential activities of daily living. A beginning knowledge of nursing techniques and medication administration with an understanding of the principles, rationales, and procedures for each technique is emphasized. Using the nursing process as a framework, students will provide basic care for adult and geriatric patients with various uncomplicated diseases and disorders who require nursing intervention to meet basic human needs. Basic communication techniques for the adult and geriatric client with mental health disorders are integrated throughout. This clinical course includes experiences primarily in long term care clinical settings.
**Materials Fee:** $24.00
**Hours:** 324 lab
**Transferable:** Not transferable. Degree applicable.

**VNRS B79 Intermediate Medical Surgical Nursing**
9 units
**Prerequisites:** Appropriate Standing in the Vocational Nursing Program and concurrent enrollment in VNRS B79L.
**Description:** This Vocational Nursing theory course uses the nursing process as a framework to guide the development of critical thinking skills used to determine nursing actions for adult and geriatric patients with cancer and conditions affecting the cardiovascular, lymphatic, musculoskeletal, endocrine, and respiratory system. The role of the vocational nurse as a provider of care and manager of care related to leadership, supervision, and rehabilitation are also discussed. Care of the medical surgical patient with mental health disorders will be integrated. Concepts in this course will be correlated in the various lab settings presented in VNRS B79L (Intermediate Medical Surgical Lab).
**Hours:** 162 lecture
**Transferable:** Not transferable. Degree applicable.

**VNRS B79L Intermediate Medical Surgical Nursing Lab**
6 units
**Prerequisites:** Appropriate Standing in the Vocational Nursing Program and concurrent enrollment in VNRS B79.
**Description:** This Vocational Nursing lab course concentrates on the application of the nursing process and the continued development of the manager and provider of care roles for adult medical-surgical patients from various cultural and social backgrounds. Clinical experiences build on the basics of the first semester as students perform more advanced skills when providing nursing care to patients. Incorporated into the course is the utilization of intermediate assessment, planning, intervention and evaluation under clinical supervision. This clinical course includes acute care and rehabilitation settings which correlate with the topics presented in VNRS B79 (Intermediate Medical Surgical).
**Materials Fee:** $24.00
**Hours:** 324 lab
**Transferable:** Not transferable. Degree applicable.

**VNRS B83 Critical Thinking and Leadership for the Vocational Nurse**
1.5 units
**Prerequisite:** Appropriate standing in the Vocational Nursing Program.
**Corequisite:** VNRS B89L
**Description:** This Vocational Nursing theory course will focus on the concepts of critical thinking skills and clinical reasoning strategies utilizing a case study approach. Leadership skills, capabilities, and knowledge essential to the vocational nurse including roles and responsibilities, application of the nursing process to problem solving methods, and supervision and evaluation of the effectiveness and quality of care are discussed. Managerial traits,
styles, roles, and models are also explored. Critical thinking skills and utilization of the nursing process in clinical decision-making will be presented and correlated to the lab setting in VNRS 89L (Advanced Medical Surgical Nursing Lab).

**VNRS B84 Maternal Child Pharmacology**

*1 unit*

**Prerequisite:** Appropriate standing in the Vocational Nursing Program.

**Corequisite:** VNRS B88L

**Description:** This Vocational Nursing theory course will reinforce and emphasize the basic principles of pharmacology and calculations necessary for safe and effective medication administration. The primary focus is on the pharmacology content and variables that influence drug therapy when caring for the childbearing family and the pediatric patient. Utilization of the pharmacological principles from this course will occur in the maternal/child clinical lab course (VNRS B88L Maternal/Child Nursing Lab).

**Hours:** 18 lecture

**Transferable:** Not transferable. Degree applicable.

**VNRS B88 Maternal Child Nursing**

*3 units*

**Prerequisite:** Appropriate standing in the Vocational Nursing Program.

**Corequisite:** VNRS B88L

**Description:** This Vocational Nursing theory course provides an overview of contemporary family-centered childbirth and a foundation for pediatric nursing using growth and development concepts as a framework for presenting health problems and special concerns of the pediatric client. This course focuses on the provider and manager of care role for the vocational nurse in assisting families experiencing common health/illness situations associated with their age group. Using the nursing process and developmental theory as a framework, topics and nursing responsibilities for the normal aspects of the child-bearing family and the pediatric client will be discussed. The course concepts will be correlated with the lab setting in VNRS B88L (Maternal/Child Nursing lab).

**Hours:** 54 lecture

**Transferable:** Not transferable. Degree applicable.

**VNRS B88L Maternal Child Nursing Lab**

*3 units*

**Prerequisite:** Appropriate standing in the Vocational Nursing Program.

**Corequisite:** VNRS B88

**Description:** This Vocational Nursing lab course is correlated with the corresponding Maternal/Child Theory course in the Vocational Nursing Program. Using the nursing process and developmental theory as a framework to guide the plan of care, students will provide care for the childbearing family and the pediatric client. This lab course focuses on the advanced application of the nursing process in the care of multiple patients from various ethnic and social backgrounds. Clinical experiences will provide opportunities for the demonstration of leadership skills, capabilities, and knowledge essential to the role of the vocational nurse as a member of the health-care team and supervisor of other vocational nurses and unlicensed health care givers. This clinical course includes setting in acute care, clinics, and Physician offices for obstetric and pediatric patients. Clinical content correlates with VNRS B88 (Maternal/Child Nursing).

**Hours:** 162 lab

**Transferable:** Not transferable. Degree applicable.

**VNRS B89 Advanced Medical Surgical Nursing**

*3.5 units*

**Prerequisite:** Appropriate standing in the Vocational Nursing Program.

**Corequisite:** VNRS B89L

**Description:** Using the nursing process as a framework, this Vocational Nursing theory course reinforces the critical thinking skills necessary to care for adult and geriatric patients with acute and complex medical surgical disease states, including multi-system involvement. The care for the patient with increasingly complex mental health conditions will be explored. Role expectations related to being a member of the profession are also discussed. Knowledge of nursing principles and leadership/management techniques to determine and prioritize nursing actions will be correlated with the lab setting presented in VNRS 89L (Advanced Medical Surgical Nursing Lab).

**Hours:** 63 lecture

**Transferable:** Not transferable. Degree applicable.

**VNRS B89L Advanced Medical Surgical Nursing Lab**

*3 units*

**Prerequisite:** Appropriate standing in the Vocational Nursing Program.

**Corequisite:** VNRS B89

**Description:** This Vocational Nursing lab course focuses on the advanced application of the nursing process in the care of multiple patients from various ethnic and social backgrounds. Clinical experiences will provide opportunities for the demonstration of leadership skills, capabilities, and knowledge essential to the role of the vocational nurse as a member of the health-care team and supervisor of other vocational nurses and unlicensed health care givers. Application of critical thinking skills and the utilization of the nursing process in clinical decision making will be assessed. Students will provide care for patients with acute medical surgical illness and families experiencing common health/illness situations. This clinical course includes acute and sub-acute settings which correlate with topics in VNRS 89 (Advanced Medical Surgical Nursing) and VNRS B83 (Critical Thinking and Leadership for the Vocational Nurse).

**Materials Fee:** $24.00

**Hours:** 162 lab

**Transferable:** Not transferable. Degree applicable.
WELD - Welding Courses

WELD B1A Introduction to Oxygen Acetylene Welding and Cutting
2 units
Recommended: BC placement into reading level 06.
Description: Properties and characteristics of metals. Safety, theory, and practical experience in oxy-acetylene welding, cutting, and joint design, codes and weld testing.
Materials Fee: $30.00 for project materials.
Hours: 27 lecture, 27 lab
Transferable: CSU and private colleges. Degree applicable.

WELD B1B Introduction to the Welding Processes
2 units
Recommended: BC placement into reading level 06.
Description: Properties and characteristics of metals and a survey of metal welding processes. Safety, theory, and practical experience in shielded metal arc, PAC, MIG, TIG, FCAW, Shear & Brake, joint design, codes and weld testing.
Materials Fee: $30.00 will apply towards steel, welding rods, and welding resume for industry AWS certification.
Hours: 27 lecture, 27 lab
Transferable: CSU and private colleges. Degree applicable.

WELD B48WE Occupational Work Experience Education/Internship
1-8 units
Prerequisites: Declared major or occupational goal and evaluation of student's qualifications and objectives.
Description: College credit for Welding related learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational work experience credit may accrue at the rate of 1 to 8 units per semester for a total of sixteen units, and students must work 75 hours per semester unit of paid work experience; 60 hours per semester unit of volunteer work experience. Repetition allowed per Title 5 55253.
Hours: Non-paid 60 hours for each 1 unit (60-480). Paid 75 hours for each 1 unit (75-600).
Transferable: Not transferable. Degree applicable.

WELD B53A Shielded Metal Arc Welding
2 units
Recommended: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.
Description: Basic arc welding theory and manipulative skills related to the shielded metal arc welding process, including welding in all positions with various electrodes.
Materials Fee: $30.00
Hours: 27 lecture, 27 lab
Transferable: Not transferable. Degree applicable.

WELD B53B Shielded Metal Arc Welding 2
2 units
Recommended: Successful completion of WELD B1A and WELD B1B with a grade of C or better and BC placement into reading level 06.
Description: Basic arc welding theory and manipulative skills related to the shielded metal arc welding process, including welding in all positions with various electrodes.

WELD B55A Structural Plate Certification I
2 units
Prerequisites: Successful completion of WELD B53A or WELD B74A with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: Safety, introduction to welding codes, welding discontinuities and practical welding. Experience on plate with SMAW or FCAW, based on the American Welding Society DI. 1 structural code. Weld 1/2" plate in 1G, 2G, 3G, & 4G fixed position for certification.
Materials Fee: $30.00
Hours: 27 lecture, 27 lab
Transferable: Not transferable. Degree applicable.

WELD B55B Structural Plate Certification II
2 units
Prerequisites: Successful completion of WELD B53A or WELD B74A or equivalent with a grade of C or better.
Recommended: BC placement into reading level 06.
Description: Safety, introduction to welding codes, welding discontinuities and practical welding. Experience on plate with SMAW or FCAW, based on the American Welding Society DI. 1 structural code. Weld 1" plate in 1G, 2G, 3G, & 4G fixed position for certification.
Materials Fee: $30.00
Hours: 27 lecture, 27 lab
Transferable: Not transferable. Degree applicable.

WELD B55C ASME Pipe Certification
2 units
Prerequisites: Successful completion of WELD B55A or WELD B55B or equivalent with a grade of C or better or evaluation of students’ welding skills and knowledge equivalent to WELD B55A or WELD B55B.
Recommended: BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better and WELD B1A or WELD B53A with a grade of C or better, or
one year of work experience as a welder.

**Description:** Safety, welding pipe in the 5G rolled, 5G fixed and 6G fixed positions. An examination of the ASME Welding Code will also be covered.

**Hours:** 27 lecture, 27 lab

**Transferable:** Not transferable. Degree applicable.

**WELD B55D ASME Pipe Certification**

2 units

**Prerequisites:** Successful completion of WELD B55A or WELD B55B or equivalent with a grade of C or better or evaluation of students' welding skills and knowledge equivalent to WELD B55A or WELD B55B.

**Recommended:** BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better and WELD B1A or WELD B53A with a grade of C or better, or one year of work experience as a welder.

**Description:** Safety, welding pipe in the 5G rolled, 5G fixed, and 6G fixed positions. An examination of the ASME Welding Code will also be covered.

**Materials Fee:** $30.00

**Hours:** 27 lecture, 27 lab

**Transferable:** Not transferable. Degree applicable.

**WELD B55E API and Related Certification Testing**

2 units

**Prerequisites:** Successful completion of WELD B55C or WELD B55D or equivalent with a grade of C or better or evaluation of student's skills and knowledge equivalent to WELD B55C and WELD B55D.

**Recommended:** BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better and WELD B1A or WELD B53A with a grade of C or better, or one year of work experience as a welder.

**Description:** Safety, and welding pipe in 5G rolled, 5G fixed and 6G fixed positions. The API 1104 pipe welding code will also be covered. This course prepares students for certification testing.

**Materials Fee:** $30.00

**Hours:** 27 lecture, 27 lab

**Transferable:** Not transferable. Degree applicable.

**WELD B55F API and Related Certification Testing**

2 units

**Prerequisites:** Successful completion of WELD B55C and WELD B55D or equivalent with a grade of C or better or evaluation of student's welding skills and knowledge equivalent to WELD B55C and WELD B55D.

**Recommended:** BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better and WELD B1A or WELD B53A with a grade of C or better, or one year of work experience as a welder.

**Description:** Welding safety, and welding pipe in the 5G rolled, 5G fixed, and 6G fixed positions. The API 1104 pipe welding code will also be covered.

**Materials Fee:** $30.00

**Hours:** 27 lecture, 27 lab

**Transferable:** Not transferable. Degree applicable.

**WELD B65AB Welded Steel Structures**

3 units

**Recommended:** Previous class or experience in GMAW (Gas Metal Arc Welding), and BC placement into reading level 06.

**Description:** Introduction to welded metal fabrication. Safety related to welding and fabrication tools and equipment. Emphasizes layout, cutting, shaping, forming and welding structures together. Calculating material and labor costs will be covered as well. (This course is equivalent to combined WELD 65A and 65B).

**Materials Fee:** $55.00

**Hours:** 27 lecture, 81 lab

**Transferable:** Not transferable. Degree applicable.

**WELD B74A Introduction to GMAW (Gas Metal Arc Welding) and FCAW (Flux Core Arc Welding)**

2 units

**Recommended:** Successful completion of WELD B1B or WELD B53A with a grade of C or better, or one year work experience as a welder and BC placement into reading level 06.

**Description:** Theory and application of GMAW (Gas, Metal Arc Welding) and FCAW (Flux Core Arc Welding) welding processes. Emphasizes safe and proper operation of these welding processes while welding on mild steel.

**Hours:** 27 lecture, 27 lab

**Transferable:** Not transferable. Degree applicable.

**WELD B74B Introduction to Gas Tungsten Arc Welding**

2 units

**Recommended:** Successful completion of WELD B1B or WELD B53A with a grade of C or better, or one year work experience as a welder and BC placement into reading level 06 or successful completion of ACDV B50 or ACDV B61 or equivalent with a grade of C or better.

**Description:** Theory and application of GTAW (Gas Tungsten Arc Welding) welding processes. Emphasizes safe and proper operation of this welding process while welding on mild steel, aluminum, and stainless steel.

**Note:** Not open to students who have taken WELD B74AB.

**Materials Fee:** $30.00 will apply towards steel, welding rods, and welding resume for industry AWS certification.

**Hours:** 27 lecture, 27 lab

**Transferable:** Not transferable. Degree applicable.
WEXP - Work Experience Courses

Registration Instructions: The Work Experience Program offers variable unit classes. Students desiring to enroll in a Work Experience class must go online to the Bakersfield College website, select Program and Classes, click on Work Experience and begin the application process. The six (6) step process must be completed to ensure enrollment in the course. It is the responsibility of the student to complete all the steps in the application process. For more information, please contact the Work Experience Office at 661/395-4580.

WEXP B248 Occupational Work Experience Education - Paid
1-8 units
Prerequisites: Declared major or occupational goal and evaluation by Work Experience department of student’s qualifications and objectives.
Description: College credit for learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational cooperative work experience credit may accrue at the rate of one to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit earned. Repetition allowed per Title 5, §55253.
Hours: Paid 75 hours per unit (75 – 600)
Transferable: CSU and private colleges.

WEXP B248 Occupational Work Experience Education- Unpaid
1-8 units
Prerequisites: Declared major or occupational goal and evaluation by Work Experience department of student’s qualifications and objectives.
Description: College credit for learning experiences obtained on the job in accordance with a training plan developed cooperatively between the employer, college, and student. Occupational cooperative work experience credit may accrue at the rate of one to 8 units per semester for a total of sixteen units, and students must work 75 paid hours or 60 non-paid hours per unit earned. Repetition allowed per Title 5, §55253.
Hours: Unpaid 60 hours per unit (60 – 480)
Transferable: CSU and private colleges.

WEXP B250 General Work Experience Education - Paid
1-3 units
Prerequisites: (a) Pursue a planned work experience program, (b) concurrent enrollment in seven or more units (including GWE units) except summer school, (c) evaluation by Work Experience department of students planned work experience program, qualifications and objectives.
Description: Offers students an opportunity to combine a planned occupational program with progressive on-the-job experience (OJT) and practical learning experience in the world of work.
Hours: Paid 75 hours per unit (75 – 225)
Transferable: Not transferable. Degree applicable.

WEXP B250 General Work Experience Education - Unpaid
1-3 units
Prerequisites: (a) Pursue a planned work experience program, (b) concurrent enrollment in seven or more units (including GWE units) except summer school, (c) evaluation by Work Experience department of students planned work experience program, qualifications and objectives.
Description: Offers students an opportunity to combine a planned occupational program with progressive on-the-job experience (OJT) and practical learning experience in the world of work.
Hours: Unpaid 60 hours per unit (60 – 180)
Transferable: Not transferable. Degree applicable.
WOOD - Woodworking Courses

WOOD B1 Introduction to Woodworking
2 units
Description: An introduction to the basic woodworking processes related to industry. Course topics include safety in the woodworking and cabinet work environment, use and care of hand and portable power tools, use and care of stationary power machines, basic joinery, and wood finishing.
Materials Fee: $45.00 to cover cost of expendable materials (abrasives, adhesives, millwork items, etc.)
Hours: 18 lecture, 54 lab
Transferable: CSU and private colleges.

WOOD B2 Furniture and Cabinetmaking
3 units
Recommended: BC placement into reading level 06.
Description: Skill development on the use and care of portable and stationary woodworking machines. The use of basic wood joint techniques, surface preparations, gluing, clamping and assembly are emphasized.
Materials Fee: $45.00 to cover the cost of materials for the required student projects.
Hours: 27 lecture, 81 lab
Transferable: CSU and private colleges. Degree applicable.

WOOD B5 Intermediate Cabinetmaking
3 units
Prerequisite: Successful completion of WOOD B1 with a grade of C or better, or evaluation by instructor.
Description: An intermediate class teaching woodworking processes related to industry. Course topics include furniture and cabinet design, intermediate use and care of portable and stationary power machines, intermediate joinery, and intermediate wood finishing.
Materials Fee: $45.00 for lumber, hardware (if applicable), and finishing products, etc.
Hours: 27 lecture, 81 lab
Transferable: CSU and private colleges.

WOOD B50 Advanced Woodworking
3 units
Prerequisite: Successful completion of WOOD B5 with a grade of C or better, or evaluation by instructor.
Description: An advanced class teaching woodworking processes related to industry. Course topics include furniture and cabinet design, advanced use and care of portable and stationary power machines, advanced joinery, and advanced wood finishing.
Hours: 27 lecture, 81 lab
Transferable: Not transferable. Degree applicable.

WOOD B65B Advanced Cabinetmaking
3 units
Prerequisites: Successful completion of WOOD B65a or equivalent with a grade of C or better.
Description: Machine and hand techniques necessary for top-end construction emphasized. Non-residential type cabinets studied. Economical use of solid lumbers will be shown. Architecture millwork such as frame and panel wainscot, bookcases, desks, bars, doors, skylights and windows demonstrated. Also included are commercial applications such as store fixtures, counters and reception desks.
Hours: 27 lecture, 81 lab
Transferable: Not transferable. Degree applicable.
WTRT - Water Treatment Courses

**WTRT B51 Basic Water Treatment**
3 units
**Description:** Prepares the beginning level student for the lower level California Department of Health Services (CA/DHS) Water Treatment Operator Certification (grades 1 and 2), and to inform the interested public in the science and technology involved in the purification of drinking water. (Possible field trips required.)
**Hours:** 54 lecture
**Transferable:** Not transferable. Not degree applicable.

**WTRT B52 Basic Water Distribution**
3 units
**Description:** Prepares the beginning level student for the lower level California-Nevada Section of the American Water Works Association CA/NV AWWA (grade 1) and/or California Department of Health Services CA/DHS (grades 1 and 2) Water Distribution Operator Certification and to inform the interested public in the science and technology involved in the purification of drinking water. Field trips may be required.
**Hours:** 54 lecture
**Transferable:** Not transferable. Not degree applicable.

**WTRT B53 Water and Wastewater Analysis**
3 units
**Recommended:** BC placement into reading level 06, and high school chemistry or job related experience.
**Description:** Prepares the student to take California SWRCB, grades 1 and 2, Waste Water Operation exam. Covers environmental influences, composition of natural water, analysis, interpretation of results and application to treatment problems.
**Hours:** 54 lecture
**Transferable:** Not transferable. Not degree applicable.

**WTRT B61 Advanced Water Treatment**
3 units
**Prerequisites:** Successful completion of Basic H20 treatment or comparable course.
**Description:** Prepares the advanced level student for upper level California Department of Health Services (CA/DHS) Water Treatment Operator Certification (grades 3 through 5) and to inform the interested public in the science and technology involved in the purification of drinking water. Field trips required.
**Hours:** 54 lecture
**Transferable:** Not transferable. Not degree applicable.

**WTRT B62 Advanced Water Distribution**
3 units
**Prerequisites:** Must have completed a basic water distribution course acceptable to Bakersfield College or the instructor, with a minimum of 36 hours.
**Description:** Prepares the advanced level student for upper level CA/NV AWWA (grades 2 through 4) and/or CA/DHS (grades 3 through 5) Water Distribution Operator Certification and to inform the interested public in the science and technology involved in the distribution of drinking water.
**Hours:** 54 lecture
**Transferable:** Not transferable. Not degree applicable.

Achan, Jennifer
Director, Financial Aid
B.A., Sonoma State University
M.A., University of Laverne

Bonds, Lesley
Director, Student Success & Equity
B.A., University of North Carolina, Wilmington
M.Ed., University of Georgia

Commiso, Grace
Dean of Student Success and Counseling
B.A., Rutgers, The State University of New Jersey, Camden
M.S.W., Rutgers, The State University of New Jersey, Piscataway

Cordova, Anthony
Director, Career & Technical Education
B.S.B.M., University of Phoenix
M.B.A., University of Phoenix

Coston, Todd
Director, Information Technology
B.S., University of Phoenix
M.A., Pepperdine University

Counts, Christopher
Director, Public Safety

Dadabhoy, Khushnur
Director, Transfer Pathways
B.A., University of Bombay
M.A., University of Wisconsin, Milwaukee
Ph.D., University of Colorado, Denver

Damaania, Nicky Pessi
Director, Student Life
B.A., Colorado College
M.S., Bowling Green State University
Ph.D., University of Colorado, Colorado Springs

Esquibias, Chelsea
Director, Inmate Education
A.A., Bakersfield College
B.S., California State University, Bakersfield
M.S., National University
Administration (continued)

Ford, Keith
Associate Director of Athletics
B.S., State University of New York College at Brockport
M.S.S., The United States Sports Academy

Gard, Carla
Associate Dean, Director of Nursing
A.D.N., Bakersfield College
B.S.N., P.H.N., California State University, Bakersfield
M.S.N., ACNP, University of California, Los Angeles

Gelder, Tom
Director, Bakersfield College Foundation & Institutional Development
B.B.A., University of Michigan
J.D., Indiana University

Goldstein, Terri
Director, Disabled Students Programs & Services
B.A., California State University, Northridge
M.S., San Diego State University
Ed.D., University of California, Los Angeles

Guzman, Abel
Interim Director, Delano Center and Rural Initiatives
B.A., University of California, Santa Barbara
M.P.A., California State University, Bakersfield

Hayward, Craig
Dean, Institutional Effectiveness
B.S., Boston University
M.A., Ph.D, University of California, Irvine

McCrow, Richard
Dean of Instruction
Director, Delano Campus
M.A., California State University, Fresno

Moseley, William
Dean of Academic Technology
M.A., Pepperdine University
Ph.D., University of Nebraska, Lincoln

Mourtzanos, Emmanuel
Dean of Instruction
B.R.E., Tyndale University
M.A., Providence College & Theological Seminary
Ed.D., Seattle Pacific University

Peña, Michelle
Acting Director, Enrollment Services
B.A., University of Phoenix
M.S., California State University, Bakersfield

Potter, William
Director, Maintenance Operations & Facilities
B.S., M.P.A., California State University, Bakersfield

Purcell, Raymond M.
Director, Student Health & Wellness Services
A.A., College of the Siskiyous
B.A., Humboldt State University
B.S., California State University, Bakersfield
M.N., University of California, Los Angeles

Rice, Billie Jo
Interim Dean of Instruction
A.A. Bakersfield College
B.A., M.A., California State University, Bakersfield

Rodriguez, Cornelio
Dean of Instruction
B.A., California State University, Fullerton
M.P.A., California State University, Bakersfield

Taylor, Sandra
Director of Athletics
B.A., M.A., California State University, Fresno

Thorson, Andrea
Interim Dean of Instruction
B.A., Bradley University
M.A., California State University, Long Beach

Vaughn, Sue
Director, Enrollment Services
B.A., University of California Los Angeles
M.A., California State University, Sonoma

Valdez, Imelda
Director, Extended Opportunity Program & Services (EOP&S), Cooperative Agencies Resources for Education (CARE), and California Work Opportunity and Responsibility to Children (CalWORKS)
B.S., University of Phoenix
M.A., California State University, Bakersfield

Waller, Stephen
Dean of Instruction
B.A., Kutztown University
Ph.D., Texas A&M University

Watkin, Steven
Director, Outreach and School Relations
B.S., M.A., Fresno Pacific University

Wright, Maria
Director, Student Support Services
B.A. California State University, Long Beach
M.A. California State University, Bakersfield
Faculty

Acosta, Helen Rose  
Professor, Communication  
B.A., M.A., California State University, Northridge

Aderhold, Patrick  
Assistant Professor, Engineering  
B.A., B.S., University of Dayton  
Ph.D., Michigan State University

Agard, Stephen  
Associate Professor, Counselor  
B.S., Bridgewater State University  
M.A., Northeastern University

Allard, Roy  
Professor, Electronics  
B.S., University of LaVerne  
M.S., University of Arkansas

Allen, Diane  
Professor, Counseling - Disabled Students Programs & Services  
B.A., M.A., California State University, Fresno

Amin, Karimeh  
Professor, Sociology  
B.A., Birzeit University  
M.A., California State University, Bakersfield

Anderson, Duane  
Professor, AutoCAD  
A.A., Bakersfield College  
B.A., Fresno Pacific University

Anderson, Gayla  
Professor, Child Development  
A.A., Bakersfield College  
B.A., Pacific Oaks College

Andrasian, Ararat  
Professor, Mathematics  
B.S., M.S., University of Missouri

Andrasian, Savanna  
Associate Professor, English  
A.A., Bakersfield College  
B.A., M.A., California State University, Bakersfield

Ashraf, Hibba  
Associate Professor, Biology  
B.S., University of California, Davis  
M.S., San Francisco State University/UCSF

Auerbach, Erin  
Associate Professor, Journalism  
B.A., University of Arizona  
M.A., University of Southern California  
M.A., University of Nevada, Las Vegas

Awrey, Aneesha  
Associate Professor, Counselor, CTE  
B.S./M.S University of San Diego

Ayuk, Gilbert  
Associate Professor, Physics  
B.S., M.S., University of Buea  
M.S., Wayne State University

Baltis, Heather  
Associate Professor, Agriculture Business  
B.S., M.S., California Polytechnic State University, San Luis Obispo

Barnes, William  
Professor, Agriculture  
A.S., Bakersfield College  
B.S., California State University, Fresno

Baron, Sarah  
Professor, Public Health Sciences  
B.A., M.P.H., Tulane University  
Ed.D., California State University, Fresno

Beckworth, Paul  
Associate Professor, History  
B.S., Toccoa Falls College  
M.A., Clemson University

Bell, Vanessa  
Associate Professor, Counseling  
B.A., M.A., California State University, Bakersfield

Benker, Christian  
Professor, Geology  
B.S., Bridgewater State College  
M.S., Eastern Kentucky University  
Ph.D., University of Texas

Besst, David  
Professor, English  
B.A., M.A., California State University, Bakersfield

Bhogal, Sheena  
Professor, English  
B.A., University of California, Santa Barbara  
M.A., Loyola Marymount University

Bligh, Kimberly  
Professor, Academic Development  
B.A., M.A., California State University, Bakersfield  
Ed.D., University of Phoenix

Bohan, Timothy  
Professor, Academic Development  
B.S., California State University, Fullerton  
M.A., California State University, Bakersfield
Faculty
(continued)

Bolar, Allen
Professor, Political Science
M.A., Ph.D., University of California, San Diego

Bolton, Reggie
Professor, Health and Physical Education
B.A., M.S., Humboldt State University

Bond, Andrew
Professor, English
B.A., California State University, Northridge
M.A., University of California, Riverside

Bono, Angela
Associate Professor, Communication
B.A., University of California, Santa Barbara
M.A., California State University, Fresno

Borgens, Ed
Professor, Political Science
B.A., M.A., University of California, Davis

Boyles, Pamela
Professor, English
B.A., M.A., California State University, Bakersfield

Braden, Jo’L
Professor, Child Development
A.S., Bakersfield College
B.A., Pacific Oaks College

Bradham, Faith
Associate Professor, Library
B.A., Trinity University
M.L.S., Indiana University

Brady, Don
Assistant Professor, Fire Technology
A.A., Bakersfield College
B.A., Fresno Pacific University

Brown, Jonathan
Professor, Mathematics
A.A., A.S., Victor Valley College
B.S., B.S., California State University Stanislaus
M.S., Ph.D., University of Hawaii at Manoa

Buggs, Malissa
Associate Professor, Nursing, RN/LVN
B.S., M.S., Thomas University

Burton, Brent
Assistant Professor, EMS/Fire Tech
A.S. Bakersfield College

Campbell, Kren
Associate Professor, Nursing
A.S., Bakersfield College

Caras, Sean
Professor, Electronics
B.A., California State University, Fresno

Carter, Leah
Professor, Nutrition
B.S., California Polytechnic State University, San Luis Obispo
M.P.H., Loma Linda University
R.D., Registered Dietitian

Cason, Diana
Professor, Academic Development
B.A., M.A., California Polytechnic State University, Pomona

Castro, Dinorah
Assistant Professor, Counselor
B.A., M.S., California State University, Bakersfield

Chang, Guanghsu
Professor, Industrial Automation
B.S., National Taiwan University of Science and Technology
M.S., Ph.D., University of Texas at Arlington

Chicca, John
Associate Professor, Heating, Ventilation and Air-Conditioning
A.S. San Joaquin Valley College
A.S. Bakersfield College

Chin, Kimberly
Professor, Theatre Arts
B.A., California State University, Fresno
M.F.A., University of Nevada, Las Vegas

Chudy, Jeff
Professor, Health and Physical Education
B.A., California State University, Fresno
M.S.S., U.S. Sports Academy

Citialin, Noelia
Associate Professor, Nursing
A.S., Bakersfield College
B.S.N., California State University, Bakersfield
M.S.N., Walden University

Cluff, Greg
Professor, Agriculture
B.S., University of Nevada, Las Vegas
M.S., University of Nevada, Reno
Ph.D., New Mexico State University

Cooper, Wilson
Professor, Chemistry/Physics
B.S., Northeastern Oklahoma State University
M.S., Ph.D., University of Arkansas
Faculty
(continued)

Cummings, Tina
Professor, Health and Physical Education
A.A., Ventura College
B.A., University of California, Santa Barbara
M.A., California State University, Chico

Da Silva Tavares, Ximena
Professor, Chemistry
A.A., Miami Dade College
B.S., Florida Atlantic University
Ph.D., California Institute of Technology

Dahl, Paula
Professor, Health & Physical Education
B.S., Brigham Young University
M.A., San Diego State University

Dallara, Alexandra “Zannie”
Professor, Biology
B.A., M.S., Sonoma State University
Single Subject Biology Teaching Credential, Dominican University

Dameron, Scott
Professor, Health and Physical Education
B.A., Vanguard University
M.S., California State University, Fullerton

Damron, Brent
Professor, Health and Physical Education
B.S., M.A., California State University, Bakersfield

Daniel, William (Mike)
Professor, Chemistry
B.S., Louisiana State University, Shreveport
M.A., Ph.D., University of Texas, Austin

Darke, Richard
Professor, Physics
B.S., California State University, Bakersfield
M.A., University of Texas, Austin

Davis, Pamela
Professor, American Sign Language
A.A., Bakersfield College
B.A., California State University, Northridge

Davis, Sandra
Professor, Nursing
B.S., California State University, Fresno
M.S.N., Grand Canyon University

Dean, Carl
Professor, Health and Physical Education
B.S., B.A., M.A., San Jose State University

Diaz, Victor
Associate Professor, Counseling
A.A., Bakersfield College
B.S., California State University, Bakersfield
M.S., University of La Verne

Dison, Christopher
Associate Professor, English
B.A., B.A., M.A., California State University, Bakersfield

Dixon, Jason
Professor, Engineering and Industrial Technology
A.S., Bakersfield College
B.S., California State University, Sacramento
M.E.T., Pittsburg State University

Doyen, Chris
Professor, English
B.A., California State University, Long Beach
M.F.A., California Institute of the Arts

Dumler, Gloria
Professor, English
B.A., M.A., California State University, Bakersfield

Ekern, Darrin
Professor, Ceramics/Sculpture
B.F.A., M.A., University of Tennessee, Knoxville

Elliott, Leah
Associate Professor, Nursing, OB
A.S., Bakersfield College
B.S.N., M.S.N.-Ed., Western Governors University

Ellis, Wade
Professor, Chemistry
B.S., Weber State University
Ph.D., Brigham Young University

Feldman, Philip
Professor, Academic Development
B.A., Stanford University
B.A., California State University, Bakersfield

Fernandez, Manuel
Professor, Industrial Automation
B.S., University of Southern California
M.S., M.S.E., University of Arkansas

Ferreira, Carl
Professor, Health and Physical Education
B.S., California State University, Fresno
Faculty (continued)

Flint, Justin
Associate Professor, Automotive Technology
A.A., A.S., Reedley College
B.S., M.S., California State University, Fresno

Freaney, Brenda
Professor, English
A.A., Bakersfield College
B.A., M.A., California State University, Bakersfield

Fredenberg, Michael
Professor, Mathematics
B.S., M.S., Montana State University
Ph.D., University of California, San Diego

Fulks, Janet
Professor, Biological Sciences
B.S., M.S., University of the Pacific
Ed.D., Nova Southeastern University

Fulks, Patrick
Professor, Biological Sciences
B.S., California State University, Sacramento
M.S.P.H., Emory University of Public Health

Ganster, Katherine
Associate Professor, Biology
B.S., M.S., California Polytechnic State University, San Luis Obispo

Garcia, Olivia
Associate Professor, History
A.A., Bakersfield College
B.A., California State University, Fresno
M.A., California State University, Bakersfield

Garrett, Jennifer
Professor, Music
B.M., Brigham Young University
M.M., University of Nebraska, Lincoln
D.M.A., Arizona State University

Garrett, Matthew
Professor, History
B.A., Brigham Young University
M.A., University of Nebraska
Ph.D., Arizona State University

Garza, Ricardo
Associate Professor, Mathematics
B.S., California State University, Bakersfield
M.S., University of California, Santa Barbara

Garza, Rosa
Professor, History
A.A., Bakersfield College
B.A., San Jose State University
M.A., California State University, Bakersfield

Gerhold, John
Professor, Music
M.F.A., B.M.U.S., University of California, Irvine
D.M.A., University of British Columbia

Giblin, Dillon
Associate Professor, Mathematics
B.S., California State University, Bakersfield
M.S., Washington State University

Giertz, John
Professor, Communication
B.A., California State University, Northridge
M.A., San Francisco State University
Ph.D., Regent University

Gomes, Daniel
Professor, English
B.A., Shippensburg University
M.A., University of Nebraska-Lincoln
Ph.D., University at Buffalo

Gomez, Alex
Professor, Family and Consumer Education
A.O.S., California Culinary Academy

Goodman, Casandra
Associate Professor, Health and PE, Softball Coach
B.S., University of Louisiana at Monroe
M.S., Western Kentucky University

Grays, Ronald
Professor, Engineering and Industrial Technology
A.A., Bakersfield College
B.V.E., California State University, Long Beach

Greenwood, Thomas
Professor, Mathematics
A.A., Moorpark College
B.A., University of California, Santa Barbara
M.S., Northern Arizona University

Haney, Andrew
Associate Professor, Automotive Technology
A.S., Universal Technical Institute

Harding, Lisa
Professor, Nursing
B.S.N., Walla Walla University
M.S.N., Holy Names University
D.N.P., Grand Canyon University

Harker, Christine
Professor, Paramedic Program
B.S., University of Laverne
Faculty (continued)

Hart, John  
Professor, English for Multilingual Students  
B.A., California State University Bakersfield  
M.A., University of Utah

Hart, Mary Michelle  
Associate Professor, Academic Development  
A.A., Porterville College  
B.A., California State University, Chico  
M.A., National University

Harvath, Michael  
Professor, Economics  
A.A., Cypress College  
B.A., California State University, Long Beach  
Ph.D., University of Chicago

Hatridge, Neeley  
Associate Professor, Communication  
A.A., Bakersfield College  
B.A., M.A., California State University, Fresno

Haycock, Christy  
Professor, Mathematics  
A.A., Bakersfield College  
B.S., California State University, Bakersfield  
M.S., California State University, Fresno

Head, Rebecca  
Professor, Mathematics  
B.S., University of Colorado, Boulder  
M.S., California State University, Northridge  
M.S., Colorado State University, Fort Collins  
M.E., Colorado State University

Heasley, Timothy  
Associate Professor, Music  
B.A., California State University, Bakersfield

Heins-Gelder, Dana  
Associate Professor, Anthropology  
B.A., California State University, Northridge  
M.A., University of California, Santa Barbara

Hernandez, Nicole  
Associate Professor, Nursing  
A.A., Taft College  
A.S., Bakersfield College  
B.S., California State University, Bakersfield  
M.S., University of California, Davis

Hicks, Eleonora  
Professor, Sociology  
A.A., College of Lake County  
B.A., University of Wisconsin-Parkside  
M.A., University of Chicago  
PhD, University of Wisconsin-Madison

Hill, Ayan  
Associate Professor, Health Information Technology  
A.S., American River College  
B.S., California State University, Sacramento  
M.S., California State University, East Bay

Hill, Jacelyn  
Associate Professor, Radiologic Tech  
B.S., M.A., California State University Bakersfield

Hill, Traci  
Professor, Nursing  
B.A., Chadron State College, Nebraska  
B.S.N., University of Nebraska Medical Center  
M.S.N., Walden University

Hirayama, Bryan  
Professor, Communication  
A.A., College of the Sequoias  
B.A., M.A., California State University, Fresno

Hoffman, Dianthe  
Associate Professor, Nursing  
B.S.N., M.P.A., California State University, Fresno  
M.S.N., California State University, Dominguez Hills

Holmes, Steven  
Professor, Political Science  
B.A., University of California, Santa Barbara  
M.P.A., California State University, Chico

Hubble, Cynthia  
Professor, English  
A.A., Bakersfield College  
B.A., M.A., California State University, Bakersfield

Huerta, Victor  
Associate Professor, Welding  
A.A./A.S., Santa Ana College

Hughes, Richard  
Professor, Health and Physical Education  
B.A., California State University, Dominguez Hills  
M.S., Emporia State University

Hukill, Regina  
Professor, Mathematics  
A.A., Bakersfield College  
B.S., California State University, Bakersfield  
M.S.T., University of Wyoming

Hunter, Harlan G.  
Associate Professor, Criminal Justice  
A.A., Bakersfield College  
B.A., University of California, Berkeley  
M.P.A., California State University, Bakersfield
Faculty (continued)

Huston, Jeffrey  
Associate Professor, Art  
B.A., Azusa Pacific University  
M.F.A., Vermont College of Fine Art

Ivey, Michael  
Professor, Business Management and Information Technology  
B.S.A., M.S.A., East Carolina University

Jett, Jennifer  
Professor, English  
B.A., California State University, Bakersfield  
M.A., Boston College

Jett, Shane  
Professor, English  
B.A., University of California, Los Angeles  
M.A., Boston College

Jimenez, Qiu  
Professor, Spanish  
B.A., Beijing University  
M.A., University of Cincinnati  
Ph.D., University of California, Los Angeles

Johnson, Daymon  
Professor, History  
A.A., Bakersfield College  
B.A., M.A., California State University, Bakersfield  
Ph.D., Florida State University

Johnson, Fabiola  
Professor, Counseling  
B.A., California State University, Bakersfield  
M.S., University of La Verne  
M.A., National University

Johnson, Jennifer  
Professor, Nursing  
B.S.N., California State University, Bakersfield

Johnson, Shae  
Professor, Nursing  
A.S., Bakersfield College  
B.S.N., University of St. Mary  
M.S.N., Walden University

Jones, A. Todd  
Professor, Communication  
B.S., Brigham Young University  
M.A., Arizona State University

Jones, Catherine  
Associate Professor, Industrial Safety  
A.A., Bakersfield College  
B.S., California State University Fresno  
M.A., Naval Postgraduate School

Jones, Matthew  
Professor, Instructional Technology  
B.A., California State University, Bakersfield  
M.A., Pepperdine University

Keckley, Sondra  
Professor, Library  
B.A., Alma College  
M.A., California State University, Bakersfield

Kelley, Pamela Sue  
Professor, Health and Physical Education  
B.A., M.A., University of the Pacific

Kelly, William W.  
Professor, Agriculture  
A.A., Bakersfield College  
B.S., M.S., California State University, Fresno

Kennedy, Debra  
Professor, Nursing  
B.S.N., M.B.A., California State University, Bakersfield

Kennedy, Keri  
Associate Professor, Counseling  
B.A., San Jose State University  
M.S., California State University, Fresno

Kim, Charles  
Professor, Political Science  
A.A., Bakersfield College  
B.A., M.P.A., California State University, Bakersfield

Kimball, Dan  
Professor, Chemistry  
B.S., Brigham Young University  
M.S., San Diego State University

Kimbrough III, Ishmael  
Associate, Professor, History  
B.A., McPherson College  
M.A., Emporia State

Klopstein, Kurt  
Professor, Mathematics  
B.S., M.A., University of California, Santa Barbara

Knabe, Ronnie  
Associate Professor, Nursing  
A.D.N., Bakersfield College  
B.S.N., M.S.N., University of Phoenix

Koeth, David  
Professor, Art  
B.F.A., University of Akron  
M.F.A., California State University, Fullerton
Faculty
(continued)

Korcok, Michael
Professor, Communication
B.S., Southern Illinois University
M.A., Kansas State University

Krause, Jaclyn
Associate Professor, American Sign Language
B.A., California State University, Northridge

Krausse, Lynn
Professor, Business Management and Information Technology
A.A., Golden West College
B.S., California State University, Long Beach
M.S., Golden Gate University

Kuby, Kathryn
Professor, Music
B. Mus., Belmont University, Nashville
M.M., University of North Texas
D.M.A University of Connecticut, Storrs

Kumelos, Rae Ann
Professor, English
B.S., Arizona State University
M.A., New Mexico Highlands University
M.A., Ph.D., Pacific Graduate Institute

Lahorgue, Claire
Associate Professor, Mathematics
B.S., California State University, Bakersfield
M.S., California State University, Northridge

Lamers, Andrew
Professor, English
B.A., M.A., University of Kansas

Larkin, Lora
Professor, Psychology
A.A., Bakersfield College
B.A., California State University, Bakersfield
M.A., California School of Professional Psychology

Larson, Michael
Associate Professor, Electronics
A.S., Mount San Antonio College
B.S., California State University, Bakersfield

LeBlanc, Ginger
Professor, Psychology
B.S., Dana College
M.S., M.S., Ph.D., Colorado State University, Fort Collins, Colorado

LeGrant, Pete
Professor, Philosophy
B.A., Millikin University
M.A., Northern Illinois University
Ph.D., University of Iowa

Lewis, Joshua
Professor, Mathematics
B.S., M.S., University of California, Irvine

Liles, Roxanne
Professor, Biological Sciences
B.S., Northwestern State University
Ph.D., Louisiana Health Sciences Center

Lilles, Milena
Associate Professor, Biological Sciences
B.S., Eastern Washington University
M.S., San Jose State University

Liu, Li Kang
Professor, Mathematics
B.S., University of California, Davis
M.A., California State University, Fresno

Loken, Alisha
Professor, Nursing
A.D.N., Los Angeles County College of Nursing and Allied Health
B.S.N., University of Phoenix
M.S.N., Walden University

Lowe, Julie
Professor, Chemistry
A.S., Sacramento City College
B.S., M.S., California State University, Fresno

Lucas, Veronica
Professor, Counseling
B.S., California State University, Long Beach
M.S., California State University, Bakersfield

Luiz, Laura
Professor, Library
B.A., California State University, Fresno
M.L.I.S., San Jose State University

Magers, Creighton
Professor, Business Management and Information Technology
B.A., M.A., California State University, Bakersfield

Marquez, Marisa B.
Associate Professor, Counseling
A.A., Bakersfield College
B.A., M.Ed., California State University, Bakersfield

Marquez, Richard
Professor, English
B.A., M.A., California State University, Bakersfield

Martin, Gabriele
Professor, Nursing
A.D.N., Bakersfield College
B.S.N., M.S.N., Holy Names University
Faculty (continued)

Martinez, Elvira
Associate Professor, Counseling
A.A., Porterville College
B.A., Chapman University
M.S., San Diego State University

Martinez, Robert
Professor, Music
A.A., San Bernardino Valley College
B.A., M.A., San Diego State University

Martinez, Vayron
Associate Professor, Men’s Soccer Coach/PE
B.A., California State University, Northridge
M.A., Concordia University

McAllister, Teresa
Associate Professor, Academic Development
B.S., California State University Bakersfield
M.A., Point Loma Nazarene University

McCraw, Christopher
Associate Professor, Agriculture
B.S., M.S., California Polytechnic State University, San Luis Obispo

McEnroe, James
Professor, Animal Science
B.S., University College Dublin
D.V.M., Purdue University

McGarrah, James
Professor, Chemistry
B.S., University of California, San Diego
M.S., Ph.D., University of Rochester

McLaughlin, Linda
Professor, American Sign Language
A.S., Bakersfield College
B.S., Gallaudet University
M.A., Western Maryland College

McNellis, Michael
Professor, Philosophy
A.A., Moorpark College
B.A., University of California, Santa Barbara
M.A., Harvard University

Menchaca, Erica
Professor, Academic Development
B.S., Stanford University
M.S., Point Loma Nazarene University

Mendiola, Jaime
Professor, Nursing
B.S.N., California State University, Bakersfield
M.S.N., ACNP, University of California, Los Angeles

Mendoza, Harold
Professor, Business Management and Information Technology
B.S., California State University, Sacramento
M.S., California State University, Fullerton
M.S., Stanford University

Menzies, John
Professor; Geography
B.S., University of Winnipeg
M.S., University of North Dakota
Ph.D., Indiana State University

Mercer, Kristen
Associate Professor, English
B.A., University of California, Los Angeles
M.A., California State University, Bakersfield

Meyers, David
Professor, Mathematics
B.A., M.S., California State University, Humboldt

Mieh, Thomas
Professor, Mathematics
B.S., University of Liberia
M.S., St. Louis University

Miles, Richard
Associate Professor, Business Management and Information Technology
M.S., University of North Texas
B.A., University of Hawaii at Manoa

Miller, Erin
Professor, History
A.A., Bakersfield College
B.A., California State University, Bakersfield
M.A., University of Notre Dame

Mitchell, Denise
Professor, English
A.A., West Los Angeles College
B.A., M.A., California State University, Bakersfield

Monks, Rebecca
Professor, English
B.A., M.A., California State University, Bakersfield

Moon, Matthew
Professor, Health & Physical Education - Intercollegiate Swim
B.S., University of the Cumberlands
M.A., Union College, Kentucky

Mooney, Rebecca
Professor, English
B.A., San Francisco State University
M.A., California State University, Fresno
Faculty (continued)

Moran, Thomas  
Professor, American Sign language  
A.A., Golden West College  
B.A., M.A., California State University, Northridge

Moreland, Krista  
Associate Professor, Anthropology  
B.A., California State University, Bakersfield  
M.A., University of Leicester

Moton, David  
Professor, English  
B.A., M.A., California State University, Bakersfield

Moya, Kendall  
Professor, Philosophy  
B.A., University of California, Davis  
M.A., University of California, Santa Barbara

Mulder, Beth  
Professor, Nursing  
B.S.N., Long Beach State University  
M.S.N., Loma Linda University Graduate School of Nursing

Nasiatka, Dylan  
Assistant Professor, Health & Physical Education  
A.A., Bakersfield College  
B.A., California State University, Bakersfield  
M.S., California University of Pennsylvania

Neville, David  
Professor, Spanish  
B.A., Brigham Young University  
M.A., University of Arizona

Newton, Chad  
Professor, Biological Sciences  
B.A., M.A., University of California, Santa Barbara

Newton, Kimberly  
Professor, Biological Sciences  
B.A., University of California, Riverside  
M.S., California Polytechnic State University, Pomona

Nickell, Kimberly  
Professor, Academic Development  
B.S., M.A., California State University, Bakersfield

Nyagwachi, Brenda  
Professor, Child Development  
A.A., Bakersfield College  
B.A., M.S., California State University, Bakersfield

Ocean, Mia  
Professor, Substance Abuse  
B.S.W., University of West Florida  
M.S.W., University of Michigan  
Ph.D., Boston University

Ono, Lindsay  
Professor, Horticulture  
A.A., Bakersfield College  
B.S., California Polytechnic State University, San Luis Obispo

Osea, Mark Edward  
Professor, Counseling  
B.S., M.A.T., University of California, Irvine  
M.S., California State University, San Bernardino

Ottum, Joshua  
Professor, Commercial Music  
B.A., Seattle Pacific University  
M.F.A., University of California, Irvine  
Ph.D., Ohio University

Painton, Timothy  
Professor, Health and Physical Education  
B.A., M.S., California State University, Fresno

Palasch, Sara  
Professor, Spanish  
Bachelaureatte of Law, Mexico  
M.A., Université de La Sorbonne Nouvelle Paris III

Parent, Jeannie  
Professor, English for Multilingual Students  
B.A., University of California, Santa Barbara  
M.A., San Francisco State University

Park, Sung Soo  
Professor, Physical Science  
B.S., Ed.M., Kyungpook National University  
M.S., University of New Mexico, Albuquerque

Parker, Christian  
Professor, History  
B.A., Simpson University  
M.A., California State University, Sacramento

Parks, Paula  
Professor, English  
B.A., University of California, Irvine  
M.S., Columbia University  
M.A., California State University, Bakersfield  
Ph.D., Capella University

Peat, Scott  
Professor, Biological Sciences  
B.S., M.S., California State University, Fresno  
Ph.D., Brigham Young University

Peet, Laura  
Associate Professor, English  
B.A., M.A., California State University, Bakersfield
Faculty
(continued)

Perkins, Nancy
Professor, Radiologic Technology
A.S., University of Nevada, Las Vegas
B.S., Loma Linda University
M.A., California Lutheran University

Peters, Zackaria
Associate Professor, Health & Physical Education - Strength & Conditioning
B.A., Tabor College
M.A., Fresno Pacific University
M.A., California University of Pennsylvania

Pierce, Jack
Professor, Geology
B.S., San Diego State University
M.S., University of Idaho

Pimentel-Stratton, Lily
Professor, Child Development
B.A., California Polytechnic State University, Pomona
M.A., California State University, Los Angeles
Ed.D., Walden University

Pinza, Susan
Professor, Academic Development
B.A., Stanford University
M.A., California Polytechnic State University, San Luis Obispo

Plett, Timothy
Professor, Physics
B.S., Biola University
M.S., Ph.D., University of California, Irvine

Poetker, Anna
Professor, Philosophy
B.A., University of California, Los Angeles
M.A., Loyola Marymount University
Ed.D., California Lutheran University

Posey, Vic
Professor, Automotive Technology
A.S., Bakersfield College

Powell, Cynthia
Professor, English
B.A., B.A., M.A., California State University, Bakersfield

Pruett, Talita
Associate Professor, Communication
B.A., Escola Superior de Propaganda e Marketing, São Paulo
M.A., Brigham Young University

Quintanilla, Cynthia
Associate Professor, Counseling
A.A., Bakersfield College
B.A., California State University, Bakersfield
M.Ed., California State University, Bakersfield

Rachal, Jennifer
Associate Professor, Academic Development
B.A., National University, Fresno
M.Ed., Concordia University, Portland

Rahman, Shohreh
Professor, Counseling
Coordinator, International Student Services
B.A., M.A., California State University, Bakersfield

Ralls, Josh
Professor, Welding
B.A., California State University, Bakersfield

Rangel, Edward, Jr.
Associate Professor, Business Management and Information Technology
A.S., Bakersfield College
B.S., California State University, Bakersfield
M.S., California State University, Fullerton

Recinos, Rony
Associate Professor, Automotive
A.O.S., Universal Technical Institute

Richardson, Gayle
Professor, Business Management and Information Technology
A.A., College of the Redwoods
B.S., California State University, Humboldt

Richardson, Jana
Assistant Professor, EMT/Paramedic
B.S., Columbia Southern University

Riess, David
Associate Professor, Sociology
B.A., M.A., California State University, Bakersfield

Rigby, Klint
Professor, Engineering and Industrial Technology
B.A., California State University, Fresno
M.A., Point Loma Nazarene University

Riley, Leann
Associate Professor, Agriculture Business
B.S., M.S., California State University, Bakersfield

Riley, Matthew
Associate Professor, Agriculture Mechanics
B.A., California State University, Bakersfield

Robinson, Valerie
Professor, Business Management and Information Technology
A.A., Detroit Institute of Technology
B.A., Davenport University
M.A., California State University, Bakersfield
Faculty (continued)

Rodacker, Elizabeth  
Professor, English for Multilingual Students  
A.A., Modesto Junior College  
B.A., M.A., California State University, Stanislaus

Rosales, Oliver  
Professor, History  
B.A., University of California, Berkeley  
M.A., California State University, Bakersfield  
Ph.D., University of California, Santa Barbara

Rosas, Manuel  
Professor, Counseling  
B.A., California State University, Bakersfield  
M.A., California State University, Bakersfield

Rosenthal, Deborah  
Professor, Chemistry  
A.S., Oakland Community College  
B.S., University of Michigan  
M.Ed., University of North Carolina  
D.A., Middle Tennessee State University

Rude, Jordan  
Associate Professor, Psychology  
B.A., M.A., California State University, Bakersfield

Rush, Kathleen  
Professor, Mathematics  
B.S., Saint Peter’s College  
M.S., University of Maryland  
M.A., Antioch University

Rush, Thomas  
Associate Professor, Industrial Automation  
A.S., Labette Community College, Parsons KS  
B.A.S., Pittsburg State University, Pittsburg KS  
M.E.T., Pittsburg State University, Pittsburg KS

Russell, Bryan  
Professor, Philosophy  
B.A., Saint Mary’s College  
M.A., St. John’s College  
M.A., Georgia State University

Russell, Kirk  
Professor, Library  
B.A., M.L.I.S., Brigham Young University

Rutuku, Naomi  
Associate Professor, English  
B.A., M.A., California State University, Northridge

Ryan, Catherine  
Associate Professor, Counseling  
B.A., California Polytechnic State University, Pomona  
M.A., California State University, San Bernardino

Saldivar, Jose  
Professor, Biological Sciences  
B.A., California State University, Fresno  
Ph.D., University of California, Irvine

Salgueiro-Carisle, Maritza  
Professor, Foreign Language  
B.A., University of Puerto Rico  
M.A., University of Illinois

Sanchez, Isaac  
Associate Professor, English  
B.A., M.A., California State University, Bakersfield

Scanlon, Bernard  
Professor, Mathematics  
B.S., Allegheny College  
M.A., M.S., University of Iowa

Schock, Brynn  
Associate Professor, Counselor  
B.A., M.S., California State University, Bakersfield

Schultz, Jonathan  
Professor, Counseling  
B.S., The Masters College  
M.S., California State University, Bakersfield

Selgrath, Jim  
Professor, Agriculture Business  
B.S., California Polytechnic State University  
M.S., Utah State University  
Ph.D., Washington State University

Serpa, Patrick  
Professor, Mathematics  
B.S., San Jose State University  
M.S., California State University, Hayward  
M.A., University of California, Los Angeles

Shaffstall, Heather  
Associate Professor, Health Information Technology  
B.A., California State University, Bakersfield

Shafik, Adel  
Professor, Art  
B.F.A., Helwan University  
M.F.A., Indiana University

Shi, Nigie  
Professor, Mathematics  
M.S., Biology, University of the Pacific  
Ph.D., University of California, Riverside

Silva, Tanya  
Associate Professor, Philosophy  
B.A., M.A., San Francisco State University
Faculty
(continued)

Sivesind, Brian
Professor, Theater Arts
B.A., California State University, Bakersfield
M.F.A., University of California, Irvine

Skipper, Alicia
Professor, English
B.A., Coastal Carolina University
M.A., University of North Carolina, Wilmington
Ph.D., Arizona State University

Smith, Carol
Professor, Mathematics
B.S., California Polytechnic State University, San Luis Obispo
M.S., California State University, Northridge

Smith, Patricia
Associate Professor, Criminal Justice
A.A., Bakersfield College
B.A., California State University, Bakersfield
B.A., University of Texas, Houston
M.A.O.M., University of Phoenix

Staat, Jeremy
Professor, Welding
B.A., Arizona State University
M.Ed., Liberty University

Staller, Mark
Professor, Communication
B.A., Saint Mary’s College of California
M.A., University of California, Berkeley

Stallworth, Kristopher
Professor, Art
B.A., Southern Illinois University
M.F.A., The University of Memphis

Stambook, Jeff
Associate Professor, Counseling
B.A., Azusa Pacific University
M.S., California State University, Bakersfield

Stanifer, Neal
Professor, English
B.A., University
M.A., California Polytechnic State University, San Luis Obispo

Starr, Donna
Professor, Mathematics
B.S., University of California, Los Angeles
M.S., California State University, Fresno

Steele, Travis
Associate Professor, Engineering
B.S., Boise State University
M.S., University of Utah

Stewert, Robert
Associate Professor, Manufacturing and Fabrication Technology
A.S., Bakersfield College

Stierle, Isabel
Professor, Biological Sciences
B.A., B.S., M.S., University of Illinois, Chicago

Stowers, Misty
Associate Professor, Economics
A.A., Antelope Valley College
B.A., M.A., California State University, Bakersfield

Stratton, Jason
Professor, History
B.A., University of LaVerne
M.A., University of California, Riverside

Strobel, Nicolas
Professor, Astronomy/Physics
B.S., University of Arizona
M.S., Ph.D., University of Washington

Tarjan, Janet
Professor, Mathematics
B.S., University of Illinois, Chicago
M.S., Northwestern University
Ed.D., Nova Southeastern University

Tatum, Ann
Professor, English
B.S., California Polytechnic State University, San Luis Obispo
M.S., California State University, Bakersfield

Tavoni, Stephen
Associate Professor, Biological Sciences
B.S., University of California, Santa Cruz
M.S., Sonoma State University

Tiner, Kris
Associate Professor, Music (Jazz)
B.A., California State University, Bakersfield
M.F.A., California Institute of the Arts

Toler, Kristopher
Professor, Mathematics
B.S., California State University, Bakersfield
M.S., California Polytechnic State University, San Luis Obispo

Torres, Lidia
Professor, Architecture
A.S., Bakersfield College
B.A., California Polytechnic State University, San Luis Obispo
M.A., University of LaVerne

Torres, Robert
Professor, History
B.A., M.A., California State University, Fresno
Faculty (continued)

**Towns, Bernadette**  
**Professor, Child Development**  
B.S., Bridgewater College  
M.S., California Lutheran University  
Ph.D., Walden University
