Welcome to InsideBC

Welcome to our new portal. Once you login here, you can get directly to myBanWeb, Moodle and your student or employee email without having to login again. You will also get customized content and messages based on your major, status and other information we know about you.

What's Inside?

At some point in the future, almost all your interactions with the college will begin in this portal and you will only have to login once to get to most of our sites.

Webmail
Now that you have an insideBC account, the easiest way to get to your webmail is by logging into the portal and clicking on the Email icon in the upper right hand corner.

MyBanWeb
Anything you would have gone to myBanWeb for in the past can now be done through the portal. Depending on what you want to do, the links will either be on the Student, Faculty, or Employee tab.

Moodle
You access all your Moodle courses through the portal now. All you have to do is login, click on the link in the "My Courses" tab and click the link for the appropriate course.

Training Resources

We've put together a few resources to help you get acquainted with the portal that include documentation, videos and step-by-step instruction on how to do a few common things.
