JUNIOR COLLEGE
Vol. I, No. 16

K. C. J. C. IN C. C. C. MEET TOMORROW

For the first time in the history of our school, we have representatives in a C. C. C. meet. For two years our football teams have done well, but we have been unrepresented in track. The men who are competing for our college are Capt. Newberry, Scotty Gunn, Chris Freeman, and Louie Brandt.

The fellows left yesterday morning shortly after the second period started. They were accompanied by Mr. Sagen who will see that Louie hits all the chuck-holes. They expected to be in Sacramento by 8:30 P. M. They will have all of today to get their bearings in and tomorrow we may be sure they'll do their stuff.

Newberry should place in the 220. He is also entered in the 440 and broad jump. Gunn will run the mile.

Brandt is entered in the 100, 440 and broad jump. Freeman should place in the shot and discus, besides being entered in the broad jump. The men will finish the day by running the mile relay--each man doing a quarter mile.

SUBJECT "A" AGAIN

Miss Bird has received a communication from B. M. Woods, assistant dean of the University of California, in regard to Subject A.

Mr. Woods states that all students entering Junior College next year must take Subject A. Then, should the student flunk, he must take a Subject A course which will give no credit. At the end of the semester he must again take the ex. If he passes, he may begin college English. Should the student again fail, however, he must again take the Subject A course, and so on until the ex is finally passed.

"B" DANCE SUCCESSFUL

The Big B's annual dance which was given last Friday was as big a success as ever. The dance was attended by about eighty-five couples and everyone had a merry time.

The decoration committee exceeded expectations by thoroughly decorating the gym with blue and white. Four football blankets were used very effectively. On the north wall, glowed throughout the evening a Big B which was a swell feature of the moonlight waltzes.

Balloons were also used for decorating although they did not last long after the dance had started. A popular orchestra played and the spirit of informality that prevailed resulted in one of the best dances of the year.

FINAL EXAMINATION SCHEDULE

May 23

8:45 A. M.--Constitution examination for graduating J. C. students

May 29

A. M.--Subject A
P. M.--French 5A
P. M.--French 5B

BASEBALL TONIGHT

For the first time this year the J. C. baseball nine will perform. After school tonight the boys are taking on the faculty. Don't miss this game. Perfect baseball won't exactly be played, but there will be plenty of competition and rivalry. Everyone should see this game. Turn out 100% strong right after school.

C. C. C. MEET

The four men who have gone to Sacramento are going to do their best. We know that, don't we? All right. Show a little interest. Call Miss Bird tomorrow evening and find out how things went for our J. C.

DULCY

The play presented last Thursday and Friday was very much enjoyed by the city in general and us in particular. Mrs. Campbell directed and the result was as usual--a well planned, entertaining show. Scotty was among those present!

The plot was mainly concerned with the dumb bell stunts of an adoring wife whose antics caused a lot of trouble, but, by a streak of luck, everything came out all right.

Art Morris and Don Sollenberger were in the performance. Art was one all in himself, and despite the fact that Don's work was almost entirely pantomime, he was exceptionally good.

FORESTER SPEAKS TO SCIENCE CLASSES

The science classes had the privilege last week of learning a lot about forestry. All the science classes were dismissed one period to hear the lecture which was very entertaining. The ranger who spoke showed very plainly how forest fires were discovered and put out. More important, though, he told us why our forests must be conserved. Few people realize that forests are good for anything besides camping. The fact is that the amount of forest near often determines the rainfall, and of course the lumber is very valuable. The young trees must be saved. Not only was the lecture an eye opener, but it was interesting as well.

GIRLS' AUXILIARY DANCE

The Girls' Auxiliary is putting on a leap year dance tomorrow evening. The young ladies are escorting their "gent" friends and are even getting the dances.

No admission for stags! This dance will be held in the Women's Club Hall. All H. S. and J. C. men are invited.

HAWAII

Ellen O: How is p-r-z-e-m--y-s-l pronounced?

Harriet C: I don't know, but it sounds like the mating call of a wild onion.

Miss Bird: No, it sounds like a Chinaman playing "The Star Spangled Banner" on a bagpipe in Franco.

Miss Forker: Arthur, you will have to put some time on your Spanish hereafter.

Artie B: All right, senorita, I will set my alarm clock on it tonight.

I loved her in a gym suit and knickerbockers. I loved her in a golf suit and those checked socks of hers. I loved her in a bathing suit as we dived into the pool. But last night on the back porch I loved her best of all.

"When the old hen clucks that's a signal for her youngsters to go and get fed."
"Oh, I see! Cuc clucks, eh?"

I
There was a man and his name was Martin
He was a bum and that is sartin
He smoked P. A. and chewed Star plug.
He was a handsome guy except for his mug.

A: Paul sure was a dumb guy!
B: How's that?
A: They had to burn down the school house to get him out of the first grade.

What did the librarian say, Lloyd?

"Does Chris Freeman live here?"

J. C. GIRLS' TRACK MEET
We've been working for the track meet

For the last two months
And those who haven't had such practice
Are going to put on stunts!

On your marks. Got set. Go!
And tomorrow we will. Our track meet will be held at the same time as the high school meet; but our records will be compared with the records of the leading colleges in the United States. Just think!

Those of the hearty Renegadettes who will compete are: High jump--Frances Victor and Bernice Platt; running hop-step-jump--Frances Victor and Ellen Owen; basketball throw--Jessie Winn, Ellen Owen, and Goldie Branch; baseball throw--Goldie Branch, Jessie Winn, Evelyn Derby; hurdles--Bernice Platt.

There will be two J. C. 220 relay teams. In one team --Bernice Platt, Frances Victor, Genevieve Hoar, Evelyn Derby; and in the other--Harriet Coleman, Georgia Rupp, Jessie Winn, and Lillie Dewey.

The rest of the J. C. girls will be judges and officials. A special treat in new yells and motions is promised.

All together--Saturday--
At the High School!

Mr. Spindt (in assembly): There will be a short teachers' meeting tonight.
Mr. W. A. Vivian: Ah, that's me.

Emilie A: Tom blushed when he saw I was trying to read his face.
Edna S: That's Natural. People usually blush when their faces are getting road.

Police Judge: With what instrument did your wife inflict these wounds on your head?

Michael Mooney: Did a mottor, her onner.

Police J: A what?

Mike: A mottor--wan-o' these frames wid "God Bliss Our Home" on it!

SCIENCE LECTURE

Mr. C. B. Williams of the Braun Corporation, a chemical apparatus outfitting company of Los Angeles, visited the J. C. chemistry class recently and gave an interesting talk on the manufacturing of chemistry beakers, test tubes, etc. His talk followed the line of a comparison of the old and new methods of glassware manufacturing.

Before the war, Mr. Williams said, Germany controlled the keystone industry of chemistry, namely the manufacturing of chemical apparatus. But as soon as the war started and America had to fall back upon her own resources, she started experimenting. Fourteen of the leading manufacturers of the United States joined together and gave a million dollars apiece for this experimental work. The result was Pyrex glass, a piece of glass ten times superior to the old Kavalier brand, made by Germany. This new glass, which is used in our own laboratory, is capable of withstanding severe shocks. It may be placed in boiling water and heated to 100 degrees and then instantly plunged into cracked ice and water without breaking. Beakers of this material have been dropped in testing, sometimes from a height of thirty-six to forty inches, without breaking.

In Germany beakers were made by taking a hollow pipe, dipping it repeatedly into molten glass until a large ball had adhered to it, and then blowing on it until a large bubble had formed. It was then placed in a mold and the pipe blown through until the beaker was shaped. The beaker then had to be re-heated twice to put the flare on the

(continued on page 5)

FACULTY-J. C. GAME

This afternoon after school the faculty plays our team of baseball stars. The faculty have already tasted defeat, while our team's record is still 1000%, as they have not played a game yet. The faculty have this much in their favor: They know something about the game now, and Potter has the stiffness out of his legs. So it may not be a slaughter after all.

TAFT GAME TOMORROW

Tomorrow the Drillers journey to Taft to engage in their second league game. This will not be a walk-away, but the Drillers should win as they have already defeated Taft this season.

The locals have won eight games and lost one up to date. That's a pretty good record. Journey to Taft tomorrow and see McKown pitch the team to another victory.

THE FOLLOWING THEMES FOUND IN

A. 5 B ENGLISH TEXT

1. Love is a great help to a girl who wants to make herself miserable.
2. Common sense is very uncommon.
3. Be good and you'll be lonesome.
4. Curiosity is one of the few forms of effeminate bravery.
5. There are few wild beasts more to be dreaded than a communicative person having nothing to communicate.
6. Man is born barbarous. He is ransomed from the condition of beasts only by being cultivated.

Jessie certainly rose to the occasion when she unconsciously sat on the cactus Pavey carefully planted on her chair. Her feelings are so sensitive!

"Brownie" also had a painful experience in Pol. Sci. when he reposed on the tack which was awaiting him.

Chris is getting to be a regular locksmith--you ought to see him in botany.

Lucille seems to relish exceedingly the dirt which clings to the grounded life-savers!

Hoy, Lloyd--Leslie did it!

Well, Emilio, what did you do with them dice after you took 'em away from Louis?

Most unpopular man in J. C.--the towel man.

Pleasant reminiscences--picture Mr. Potter kicking around among the tree stumps excavating baseballs.

All jokes report to Leslie???

Lloyd: At what time of day are we going to distribute the Mav baskets, Vera?

So Walter Smith got his inspiration from Hor!

J. C. MEETING LAST MONDAY
The Junior College held a business meeting in Mr. Vivian's room Monday during the eighth period. At the same time the H. S. boys were having an assembly in the auditorium. The girls went to their regular eighth period classes.

Miss Coleman read the minutes of the preceding meeting. There were no corrections.

Miss Dorby made a report on the progress of the Scorpion and announced that Wednesday would be snap day. She urged that everyone contribute to this year's annual.

Miss Anderson reported that there were no definite plans regarding the party, but that if the quarantine were lifted from the Kern River Country Club within the next two weeks, it would be held there.

President Brown announced that J. C.-Faculty game would be today.

Leslie Riggs announced that he had Oracle tickets to distribute and urged that everyone do his best to make the 1924 Oracle a success. The students were very enthusiastic regarding their ability to deliver the goods.

Science Lecture

(Continued from page 4)

top and the spout. By new American methods, the complete beakers are turned out by machinery faster than one can count.

At the close of his talk, Mr. Williams told of a new poisonous gas, created by Germany, which is so deadly that \$5000 worth would, in one hour's time, kill every man, woman, child, insect, and animal, every blade of grass and every tree in the City of London.

How does it feel to be best man, Scotty?

Cockney Visitor: What's that awful noise outside?

Country Host: Why, that's an owl.

Visitor: I know it's an owl, but oo's 'owling?

SPORTS

BLACKS WIN MEDLEY RELAY!

The Irish Medley Relay, which was bitterly contested in the Stadium Friday after school, was won by the Blacks by the close margin of one hundred and sixty-three and two-thirds yards.

This relay was the first of its kind this year. Two teams competed, with nine men on each team. Each man ran a different distance. Everything was run from the 75 to the mile, even both hurdle races. The men and the distance run:

| <u>Rods</u> | <u>Distance</u> | <u>Blacks</u> |
|-------------|-----------------|---------------|
| Spawn.... | 100 yd..... | Griffith |
| Selby.... | Low sticks... | Van Osdol |
| Dickey... | 880 yd..... | Johns |
| Carnakis. | Mile..... | Lockhart |
| Mercer... | 440..... | Stockton |
| Hay..... | 75 yd..... | Sadocchi |
| Brown.... | 100 yd..... | Lightner |
| Riggs.... | High sticks.. | Hansen |
| Newberry. | 220 yd..... | Brandt |

The Blacks got off to a bad start, but took the lead when Johns wrecked all records in the half-mile. When Hansen handed the stick to Brandt, Riggs was just going over the second hurdle. Newberry was completely demoralized when Brandt turned the 220 into a 440. By cutting across the baseball field, Newberry was able to finish only a hundred and sixty-one yards to the worse.

MARICOPA, 0--DRILLERS, 20

The Drillers were successful in their first step toward the county championship Saturday when Maricopa was goose-egged. The game wasn't so bad till the fourth inning, but then things started when Harder knocked a two-bagger. Two Maricopa pitchers were used, but to no avail.

The Drillers who were responsible for the score were: Beardsley, catcher; McKeown, captain, pitcher; Leimbach, 1 b; Burke, 2 b; Harder, ss; Kurth, 3 b; Smith 1 f; Kelley, c f; Van Brenk, r f.

HI Y BEGINS ITS WORKINGS

Great excitement reigned Monday during the noon recess when a traffic cop made his appearance at 14th and F Streets. With a whistle in his mouth and a tall hat on his head, he began a perilous job of remaining on the button in the middle of the street. Traffic, which is always heavy opposite Robesky's, became three times as heavy as countless students mounted their trusty steeds to prove that a miss is as good as a mile. Needless to say, some of these "misses" were not only close; they were affectionate.
