Scholarships To Be Awarded By Boeing School

Aeronautical scholarships totaling $7,000.00 in tuition value are being offered for the fourth consecutive year to aviation-inclined students of universities and colleges by W. E. Boeing School of Aeronautics, located at Oakland, California. Four college undergraduates who successfully pass an aeronautical examination on aeronautical subjects to be held in the Boeing School, will be given flying and ground training at no tuition cost.

First prize is the W. E. Boeing Pilot Ground and Flying Course, covering 250 hours of flying and 924 hours of ground school, and exceeding qualifications necessary for a transport pilot license. Second and third place winners will receive ground school training, with the second award candidate also receiving flight instruction.

The scholarship competition will close on April 15, 1933, and essay subjects selected by candidates must be approved prior to March 15, 1933. The candidate who is selected for the first award must be able to pass the Department of Commerce transport pilot license examination within two years after awards are announced. Three alternate candidates will be selected for possible awards in the event winners are unable to qualify physically.

Roscoe Morgan and Barbara Shields will be the only graduates from Bakersfield Junior College at the final registration. Both expect to attend the University of California at Los Angeles next semester.

date Society To Convene Here

Phi Rho Pi, national honorary junior college debate society, has chosen Bakersfield for its annual Pacific southwest—debate convention, which will be held on March 3 and 4. The plans for the convention were completed at Los Angeles under the leadership of R. H. Johnson, Long Beach, president of the southwest region. There will be fifty debating teams taking part in the tournament. These teams will represent ten junior colleges: Bakersfield, Taft, Glendale, Long Beach, Pasadena, Los Angeles, Santa Ana, Viciana, Redlands, and Phoenix, Arizona.

At present it is planned that the preliminary round of the debate tournament will begin Friday afternoon, March 3, and carry over to Saturday afternoon for the finals. A unique feature of the Phi Rho Pi tournament is that each team participates in five debates before the outcome of any debate is known; then the losers, which have lost three or more debates are eliminated; those which have won three or more debates are entered in the finals.

There is also to be an extramural contest which will take place during the banquet, to be held Friday night; the Phi Rho Pi tournament that is each team participates in five debates before the outcome of any debate is known; then the losers, which have lost three or more debates are eliminated; those which have won three or more debates are entered in the finals.

For the benefit of those who aren't sure of the dates, preliminary registration started yesterday. Final registration will take place during the last week of the month, January 23-27. Members of the faculty who, have no third period classes will be in charge of the registration in the junior college study hall.

New Courses Offered For Spring Semester

There will be seven new courses offered during the spring semester of 1933. Mathematics I, a three-unit course, will be given by Mr. Buck. It is a course in intermediate algebra which includes practically the same contents as high school algebra 1B-1A, and is therefore not open to those who have taken it.

The pre-requisite for this course is high school algebra 1B-1A. Mr. Taber will give Astronomy I, which is a survey course in elementary practical astronomy. It is a required course at the University of California for sophomores in civil engineering. The prerequisites for the course are Civil Engineering 1A. A four-unit course in general bacteriology will be conducted by Mr. Baldwin. Chemistry I required as a prerequisite.

Because the enrollment in this course will be limited, the permission of the instructor is necessary for enrollment in the class.

Mr. Cullmore will give a study of architectural forms and compositions. Mr. Bolen will offer two courses—a four-unit botany course and a five-unit physics course.

Fred Patterson, formerly a student in Bakersfield Junior College, and a graduate of South St. Paul high school, was selected last week to be a member of the University of Hawaii debate team which will meet the University of California in a debate in Honolulu in February. Cancellation of war debts over the United States will be the subject for the debate.

Patterson is one of three students selected for the team from the 48 who competed for positions on the team. He was a member of the senior class team in the University of Hawaii intramural debate series this year.

He came to the University of Hawaii as an exchange student from Bakersfield Junior College Y. M. C. A., Bakersfield, Calif., in September. Mr. Taber is majoring in foreign languages and expects to receive his degree in June, 1933.

Narrow Escape For Radio Operator Estep

Fire raging in her holds, eight hours out of the Panama Canal bound for Los Angeles, the Gulf Pacific line freighter "Point Chico," from which Harold Estep resigned his position as radio operator to return to B. J. C. last February, is in distress.

Had he not resigned his position to return to Bakersfield, the experiences of Harold Estep would have been closed those of his twin brother, Gerald, who returned to Bakersfield at the beginning of the current semester, following a harrowing experience when the Atlantic Line freighter "Constance Chandler," on which he was radio operator, was engulfed in the Panama Canal. Estep had been in her holds for many months.

Both boys had had many exciting experiences, and anticipate more if they "ship out" next summer.

Registration for "Second Semester"

Preliminary Registration on Thursday, Jan. 12, 3d Period Thursday Will Report to J. C. 12

Final Registration on—Jan. 23-27, J. C. 12

New Students Register on—Jan. 30, J. C. 12
CLEARING THE DECKS

With the ringing of bells and blowing of horns, the old year was recently accosted last year, and the new year was ushered in with an accompaniment of ringing sound, merry-making, and of celebration. However, the new year carried with it not only the spirit of gaiety and fun, but a clearing-up and a new beginning.

Business houses closed their fiscal years with inventories and book-balancing. Private individuals summed up their achievements or failures and resolved to do better next time. The process of summing up and starting out with a clean slate was in operation.

The "new" year for Bakersfield Junior College will begin on January 16, as the students and faculty sum up their affairs and classified them as "good," "bad," or "ugly." The trial examinations are classified as a definite test as to what should be charged to the debit side of the account, and what should be listed on the credit side.

PASSING THE BUCK

The editorial below is one which recently appeared in the "Viking" from Long Beach Junior College:

"It seems to me that the whole world is around us, and life gets itself a limb born, and blows for all its worth to welcome in the new year. If we are not careful, the hogs are going to overrun our city, along with the hogs of civilization upon the back of a drowsing old man and carrying the hopes of the world in a mere picture of us.

It is a very difficult task to pass the buck to anyone, even to God. He is such a high official that it is difficult for us to even think about him. It is the responsibility of making a mess of things. The easiest way to do it is to pass the buck to ourselves."

APRROUGHS PLANS TO HOLD NOVEL MEETING

Plans for novel meetings were announced through the offices of the Arapogus. There is to be a special meeting on the afternoon of January 30, and 2-3 p.m. on J. 10, B.19. The meeting is open to all students, and anyone interested is urged to attend.

The meeting will consist of a discussion of the Arapogus, its history and future, and will be held in the A.R.T. room. All members are encouraged to attend.

ENGINEERING CLUB TO HAVE MEETING SOON

New activities and many interesting projects are planned for the engineering club for the new year.

The club will have its regular meeting on Tuesday evening, January 16, at 7:30 p.m. The meeting will be held in the A.R.T. room.

The club will focus on several projects, including the design and construction of a simple wind turbine for a small model plane. The students will also be working on a project to improve the efficiency of a wind turbine, using computer simulations and physical experimentation.

The club is open to all students interested in engineering and renewable energy. Members will be encouraged to bring ideas and suggestions for future projects.

RIPPING 'EM

UP ONE SIDE

Down the Other

Jr. Lewis trying to swill the U.C. L.A. enrollment or has she really got it all wrong? "RIPPPING' EM UP ONE SIDE, DOWN THE OTHER."

Don't say Marlene D'Onofrio isn't that a dirty dig from Yel-lowhammer over to San Joaquin.

Cherie Van Houten and Bobby Miller have agreed to disagree over many things, but they are still friends. "Our life's like that," Cherie told Bobby. "We just have to accept what's happening in our lives and move on.""
**LOCAL QUINTET TRIPPED UP IN HARD-FOUGHT GAME BY WOODBURY**

The Renegade quintet dropped a hard-fought decision to the Woodbury five by the close score of 24-21.

Coach Peterson started the game with his shock troops in order to feel out the strength of his opponents. The starting line-up was as follows:

Seniors, center; Mulvaney and Matlock, forwards; Buchanan and Wattenger, guards.

The opening minutes of the first half were rather slow with the Woodbury team showing a slight edge over the Renegades and taking advantage of the weakness in the latter's defense.

In the middle of the first half, Pete sent in a new quintet with Benton at center, Puter and Hawkins, forwards; and Strohm and Woodbury guards.

From this point in the game, Bakersfield showed more precision and threat in their offense and Woodbury had greater difficulty in penetrating the Renegade defense. Haworth and Barrett replaced Voorhis and Harrell.

Gardener, former U.C. hopster and Capt. of the Woodbury five, entered the game and proved to be a menace that had to be watched closely by the J.C. guards. The half ended with the score showing Bakersfield 5, Woodbury 12.

The second half started with the same quintet that finished the first period and the game took on all the aspects of a hard-fought battle. The two teams appeared to be on a par and the scoring was distributed fairly evenly between them. Harrell went in for Voorhis in the middle of the second half. Shortly afterward, Mulvaney went in for Harrell.

The closing minutes of the game were extremely fast and hard-fought with Bakersfield endeavoring to make up the slim three-point margin which separated the two scores.

The game ended: Woodbury 24, Bakersfield 12.

Bryan Haworth was high-point man for the Renegades, scoring nine points out of the total of twenty-one.

**FOOTBALL TO BE PRACTICED BY GYM CLASSES**

"Spud" Harder is already on the lookout for next year's football team. In his search he has devised a scheme by which he may develop any men with the ambition to become football stars.

The theory is: All men who intend to come out for football next year and all others who would like to learn the game, should sign up for the 7th period gym class next semester.

The men who are in this class will be organized into teams, and the period will be spent on the field in light drill. The drill will be comprised mostly of the art of passing, throwing and kicking. In addition many different football games will be played between the opposing teams.

"Spud" believes that this will be a good way for men to learn the game and give them a chance to "spot" any stars among the heretofore "unheralded road, fields, ditches and fences, and finally wind up signing the school record and crossing the tape at the hundred yard mark.

The record for this course is held by Herb Martin, J.C. Miller, with a score of 20 minutes flat.

Spud has a very unique idea for remedying the stiff muscles, etc., of his tracksters. He has made arrangements with the men who can enjoy the privilege of hot mud baths, two or three times a week at Kern County Park.

Martin says it's great stuff. The men have decided to enter the race and Spud expects more men to turn out before Feb. 4.

**RENEGADES PLAY CALIFORNIA FROSH AT BERKELEY SATURDAY**

The annual junior college cross-country run will be staged on Febuary 4. The run will cover the regular cross-country course which was chosen last year by Coach Harder ("Butch" to you)! The course is four miles in length, covering streets of highway, country roads, fields, ditches and fences, and finally winding up at the school track and crossing the tape at the hundred yard mark.

The record for this course is held by Herb Martin, J.C. Miller, with a score of 20 minutes flat.

Spud has a very unique idea for remedying the stiff muscles, etc., of his tracksters. He has made arrangements with the men who can enjoy the privilege of hot mud baths, two or three times a week at Kern County Park.

Martin says it's great stuff. The men have decided to enter the race and Spud expects more men to turn out before Feb. 4.

**CONTEST MAKES "SECOND TILT" BETWEEN RENEGADES AND FROSH**

**LOCAL BOYS CONCEDE EVEN CHANCE**

The Renegade "basketball" will tangle with the California Frosh on the evening of Saturday the 14th, at Berkeley. The Bear squad has an edge over the Renegades because of the fact that they have been practicing longer and are, in general, a heavier and faster squad.

However, the Renegades are in perfect physical condition and are conceded an even chance to hand the Frosh the lower end of the outcome.

This game will be the second meeting of the two teams and will be watched with a great deal of interest on the part of both the fans and players who make the trip to Berkeley.

Coach Peterson is a former basketball star of the University of California and it's his sincere desire to have his team emerge victorious over his alma mater. Fifteen men will make the trip north.

The student body is in wishing "Pete" and the squad the best of luck. Go get 'em!
### Conference Cross Country Run Feb. 4

The annual junior college cross-country run will be staged on February 4. The run will cover the regular college course which has been laid out by Coach Harder ("Bud") to your liking. The course is four and two-tenths miles in length, covering stretches of highway, country road, fields, ditches and fences, and finally winds up by lapping the school track and crossing the tape at the hundred yard post.

The record for this course is held by Herb Martin, J. C. miler, with a time of 27 minutes flat.

Spud has a very unique idea for remediying the stiff muscles, etc., of his tracksters. He has made arrangements whereby the men of the college of hot mud baths two or three times a week at Kern County Park. Martin says it's great stuff. Fifteen men have declared their entrance in the race and Spud expects more men to run out before Feb. 4.

### Did You Know?

Kenneth Ritter, ex-Renegade athlete, acted as captain for Santa Barbara State College in the Santa Barbara-La Verne football game on Thanksgiving Day... Ralph Stokel, football and basketball star of two years ago, made his letter in football at Santa Barbara this season. He is considered as one of the main performers for the Santa Barbara team... Coach Howard Jones makes the statement that Dave Packard "should come along" for next year's S. C. football team... Marion Smith is number two on the Bakersfield club tennis ladder. Percy Chamberlain of the faculty is number three. Percy Chamberlain reached the finals in the county tournament. He defeated Gates, ex-U. C. S. C. star, in the semi-finals. Jack Lynch of Taft J. C. defeated Chamberlain in the finals. Jack Lynch was champion in the national singles... At present he is national doubles champion. Lynch will be on Taft J. C. team.

### Did You Know?

"Spud" Harder is already on the lookout for next year's football team. In his search he has devised a scheme by which he may develop any men his ambition to become football stars.

The theory is: All men who intend to come out for football next year, and all others who would like to learn the game, should sign up for the 7th period gym class next semester.

The men who are in this class will be organized into teams, and the period will be spent on the field in light drill. The drill will be comprised mostly of the art of passing, kicking and tackling at the game and having a lot of fun, one will receive one unit counted as a physical education credit. It is "Spudly" hopes that three or four teams can be organized. In case there are enough men for that many teams, the gym classes will be played between the opposing teams.

"Spud" believes that this will be a good way for new men to learn football and also give him a chance to "spot" some new stars among the heretofore "untested men."
