Auditions Held For Musical Compositions

Student Musician To Be Chosen For Spring Concert

Joelita for the annual high school chorus concert must be selected at auditions to be held this afternoon at 4 p.m. in Room 2 of the auditorium with Robert Burt, director. Any student who wishes to sing may participate, particularly suitable and arranged for orchestral compositions.

First-day auditions will be held at the East Bakersfield auditorium sometime in the spring.

FOUR VELD ENTERED

For a number of years it has been the policy of the Student Council to present musical programs between the sessions. Beginning in 1940, local students were featured. In the preceding year, the Student Council, including Ann Alice Conley, Jerry Gentry and Virginia Norme, held a hearing to establish the procedure for entering.

The procedure requires that each candidate individually or collectively write out a statement of the reasons for selecting the musical program.

Trent Burch and Halene Cole, who are the candidates, write:

Trent Burch is in first-year, and Marshall Williams plays clarinet. The "last" section is made up by Donald Altieri and Eugene Cole.

Phraee McKay is the outstanding first-year player. Dick Smoot and Hal Newby make up an important part of the trumpet section. Anthony Killion is in first-year, and Bernice Haseadamente at the drums.

About one week ago, there was an advertisement in the school paper for auditions. The candidates were asked to appear in the auditorium at 4:00 p.m. on Tuesday, May 30, and to bring with them any instrument that they may need.

The candidates are expected to pass a written test, which will consist of a short essay on the history of the instrument they wish to play. They will also be required to perform a selection from the repertoire of the instrument in question.

Mid-Finals Hop Next Friday

Right in the middle of the war, so that students can catch a short breath before the exciting week's events, a mid-finals "relaxation" spot will be held in the Women's Club on January 19. The "relaxation" is sponsored by the Women's Club and the A. S. N. S.

"Forget finals and let's relax" stated Chairman Dave Farnsworth. Since he doesn't mean the affair will be the end of the world, he said.

According to Assistant Chairman, Fred MacNally, the destination is any place they arrive. They will have a "picky" snack, and will be told about for years to come.

F. J. Schutz, director of music, has announced that the final program of this year's spring concert will be held on May 25. The program will consist of selections from various musical compositions, including works by Bach, Beethoven, and Mozart. The orchestra, conducted by F. J. Schutz, will be assisted by the school choir.

Work Available For Women Through Office

Girls wishing to work for room and board next semester should contact Mrs. Burgan, that they may be given the opportunity to work in the office. Applicants should be in good standing with the faculty.

Prep School Plan Submitted To On Air

Mr. Schuman presented a bill on the school board which we will be in the auditorium on Tuesday, May 9. The bill, which has been on the books for many years, is under the direction of Mr. B. F. Parker. Plans are now under way for an all-girl prep school to be opened in the fall学期.

It is expected that the school will be open in the fall semester, with the students entering in the spring of the following year.

To Crum or Not To Crum...

In a wave of revolution, bubble wrap rules in. Hardly the lofty thoughts which are offered to join the college society which opened December, 4th, Bubble Wrap is a recent addition to the ranks of student department activities and has several important factors. 

The basic idea behind the Bubble Wrap Department's purpose is to decrease the chances of accidents. The outer bubble film, or 'casing,' is made up of clear polyethylene, which is both tear-proof and steadfast. This is meant to protect students and faculty alike from the hazards of accidental mishaps. 

Incorporated into Bubble Wrap are other aspects of cultural and social activities. For instance, Bubble Wrap is often used as a means of conveying information to the student body, with messages such as announcements, dates for special events, and other pertinent information. 

The Bubble Wrap Department is inspired by the success of similar departments at other colleges, where they have proven to be popular and effective in their respective communities. 

Nonetheless, the introduction of Bubble Wrap is not without its challenges. Some students have expressed concerns about the environmental impact of the plastic material, while others have raised questions about its potential or perceived lack of practicality. These challenges are being addressed through ongoing communication and collaboration with the college administration.
