New Era Revolutionizes

Before we go in the important part, perhaps we ought to add: 'The U.S. government is in no way affiliated with this product.' Remember that the government is not responsible for the safety of any product that you purchase.

It appears that the government is trying to get its message across. Practically everyone in the country is using government propaganda to do something that he knows very well is not advisable. This includes the use of government literature, which is available at the post office.

Add to that, defining and advertising, and you have a continual process of conditioning that either:

1. Makes your child think, or
2. Makes your child think that what you are doing is correct.

In the meantime, the government is starting to change its methods. It is now using a new slogan: 'The government is here to help you.'

Dear Editor:

In reference to the recent article in the New York Times on "The Government is Here to Help You," I would like to express my opinion on the matter.

The government is already doing so much for the people that it is not doing enough. The government is here to help you, and you should be grateful for it. The government is here to help you, and you should be grateful for it.

Yours truly,

John Smith

Have You Seen Bertha? Or Quit Wasting Time, Kid.

DO NOT MOW!

This is a warning to all students. It has been reported that a group of students has been mowing the lawns of the faculty. This is not only a violation of the regulations of the college, but it is also an insult to the faculty.

Don't let the administration get away with this. They have already tried it once, and we don't want it to happen again.

Sincerely yours,

John Doe

Adonis Lynch Gives

Loadstone On His

Poisonous Life

This is what happens when a student gets involved with the wrong crowd. Adonis Lynch, a student at the college, got involved with a group of people who did not have his best interests at heart. As a result, he ended up in the hospital with a serious injury.

We hope that all students will take this as a warning and avoid getting involved with the wrong crowd.

Yours truly,

John Smith

All of the Pirate players are adjustable in the height department, so they are able to match their opponents' height.

A Cause That Is A Cause

By I. R. Bollin

"For the cause" itself had needed to be well advertised to build up an interest in the cause itself. But a volunteer has been working to awaken friends, both in and out of the city, and to build up a fund.

Working fully out of the cause, and in cooperation with the chairmen of the Public Health, Industrial, and Educational Committees, a Relations Council will be formed to work out the details of the matter. The council will be composed of volunteer workers.
