Song Assembly Scheduled For November 13

With the belief that the music of the ancient world should be preserved just as we today study and try to preserve the music of the American Indian, the Negro, and other racial groups, Mr. J. Phillips-Robertson, musicologist, will present "Songs Hts of 1944 (B.C.V.)" for a B.C.C. audience third period, November 13, in JC 117.

Mr. Phillips-Robertson's baritone voice made him a member of a Ziegfeld cast starring Eddie Cantor, and a confidante with Fred Astaire and Victor Moore on Broadway. While singing on Broadway at night, he taught the study of music at Teachers' College, N.Y., during the day and also his voice and music in Oriental music. Later, during visits to states in Syria, Palestine, and Egypt, he saw many displays of curious and archaic devices for making music which had come from excavations of old buildings by archaeologists. Using these models, he reconstructed his own collection of musical instruments which includes the long-neck lute, symphara, timbrel, rebab, ten-string palmyra, and others.

Mr. Phillips-Robertson makes every instrument himself, and throughout the presentation he wears an authentic Palestinian costume.

The dance will be held in the Palm Room of Bakersfield Inn with music furnished by Gwynn Black and his orchestra.

Are You An Average Student?

Are you working to your greatest ability? Are you perhaps working beyond your greatest ability? You may feel that you are just stuffing along, hoping to maintain a "C" average, and not really trying to achieve any greater things. Probably very few of us live up to our fullest potential. It has been stated that we should be in school to develop our skills and to be interested in learning about the world around us. In order to do this we must try our very best. The purpose of school is to teach us how to think, how to evaluate and to keep a continuous interest in learning.

Occidental Offers Scholarships

Occidental College has announced that every year, in order to attract and encourage college students, Occidental offers full scholarships to qualified students. In preparation for the college entrance examinations, it is important to keep an eye on the requirements for obtaining a scholarship. Classroom work, however, is not the only thing one should worry about. One must also be aware of the financial aid available from the government, as well as the financial aid programs offered by colleges and universities. Many scholarships are available for students who are interested in a particular field of study, and the requirements for obtaining a scholarship will vary depending on the subject.

Furloughs Interrupt Normal School Life

With the end of the Thanksgiving holiday, the students of the Occidental College campus are returning to the normal school schedule after the two-week furlough. During the furlough, the students are able to relax and enjoy the holidays, but the furlough also allows them to reflect on their academic goals and to prepare for the rest of the semester.

Pranksters Cheat Students

The Occidental College campus has experienced a recent surge in cheating among the students. The pranksters have been targeting students who are preparing to take exams, and are attempting to steal their answers. This behavior is disruptive and unfair to the students who are trying to achieve their academic goals. It is important for the students to take the necessary precautions to prevent cheating, and to report any suspicious activities to the appropriate authorities.

Who's Who On the J. C. Campus

By JUAN ANBERN

In every student body, there are the socially polished, the part-time politicians, the grumblers, the fast talkers, the sincere students, the hard workers, the lazy ones, the intellectual, the athlete, the tycoon, the job-minded, the political, the musical, the art-minded, and the silent majority. 

But there are also the most interesting people among them. I am sure you know of some, but I'll bet you haven't thought of them before. Here are a few of the most interesting ones at the J. C. campus:

Randy is Collective
Stamp, Cole, and Fashions
Randy is the brash, big, loud, and rowdy type. He is always looking for a fight, and he is never afraid to start one. He is always ready to lend a hand. Randy is also known for his intelligence and his charm.

Beverly is the Girl
She is the girl who is always ready to help. She is always ready to lend a hand. She is also known for her intelligence and her charm.

James is the Teacher
He is always ready to help. He is always ready to lend a hand. He is also known for his intelligence and his charm.

You are all interesting, and you all have a unique personality. You are all important, and you all have a unique role to play. You are all unique, and you all have a unique identity.

The J. C. campus is full of interesting people. You are all unique, and you all have a unique personality. You are all important, and you all have a unique role to play. You are all unique, and you all have a unique identity.

This is the last page of the J. C. campus. You are all unique, and you all have a unique personality. You are all important, and you all have a unique role to play. You are all unique, and you all have a unique identity.
Future Decisions Rest On Us

Too many of us take a very small interest in events of nationwide importance. We are not aware of what's going on in the world. Not only that, we are not informed about the events that are happening in our own communities. There are many things that are happening in our own community that we are not aware of.

Students at UC Davis are just as interested in what's going on in the world as you are. They are just as interested in what's going on in their own community as you are. They are just as interested in what's going on in their own school as you are. They are just as interested in what's going on in their own lives as you are.

So why don't we all get involved and make a difference? If you're interested, there are many ways to get involved. You can join a club, volunteer, or even run for office. Whatever you choose to do, make sure you're making a difference and being part of the solution.

The faculty members are busily teaching the students. Everyone is focused on their lesson plans. The students are engaged and attentive. The atmosphere is one of learning and growth.

Some students are working on their research projects, while others are studying for upcoming exams. The library is a popular spot for quiet study, with students snuggling up in comfortable chairs and using the extensive resources available. The cafeteria buzzes with activity as students grab their meals and chat with friends.

As the day winds down, the school community comes together for events and activities. There are sports games, concerts, and other extracurriculars that bring everyone together to celebrate their shared experiences.

Overall, the school is a vibrant and welcoming place where students are encouraged to explore their interests, develop their skills, and build meaningful relationships.
