Wanted: More Candidates

Most students should clip for student body; they not only help and fight for the betterment of school, but would raise the moral in elections because of more competition.

In previous elections some offices had only one candidate because a student ran for several offices. This makes the election unequal as students have to decide their votes wisely. Another problem is that some offices have too many candidates, with the result that the election will not be fair.

This problem will be solved in the future elections, as we are going to have more students run for more offices. If some students will participate in more offices, it will make the election more interesting to everyone.

Visitor's Day Set

Jim Perrin will be the main attraction of the Visitor's Day on May 18. He will be accompanied by a group of friends from the college, who will be interested in hearing about the college life and facilities.

MODESTO RELAYS NEXT FOR RENEGADES

What’s With Whit

BY STEVE WINTER

RENEGADE SPORTS

Bakersfield College scoops in track: this year, we would have to confess we failed to send the same number of our boys and girls to the April 26th Relays in Lockesville. This year, however, we managed to top the field in our own way by sending 11 athletes. Our efforts were rewarded in the form of 11 points. We were a bit ahead of our nearest rival, Los Angeles City College, who got only four points. The fact that Bakersfield and Los Angeles City College will each compete this week is nice, but we hope that the local teams will discipline themselves better and that they can support the local teams better.

Gades Nab 4th in State Swimfest

Most of the teams had been working on the All-American relay since the swim meet season ended. The team had been working hard on the relay for months, and the team knew that the relay was going to be their main focus. The relay involves four swimmers who swim for a specific distance and then pass the baton to the next swimmer. The relay is a team event, and the team that has the fastest time wins.

Award Assembly to Honor Athletes

The assembly will be held on the football field on Wednesday, May 11th. The assembly is open to all students, faculty, and staff. The assembly will feature a keynote speech by the school's athletic director, who will discuss the importance of athletic participation in the lives of young people.

Dreams Come True; Trudy No Exception

Dear Student:

There can't be anything truer than the fact that dreams do come true. I've been hearing that all my life and it's been implied to me that the answer to all of my problems was to try to make my dreams come true. But it almost sounds more like a trick than a solution.

I'm sure you've heard of Trudy. Trudy is a local girl who has been a constant presence in all our lives. She used to be a secretary in the office next to the one I sit in. She was always the most pleasant, the most helpful, and the most efficient of all the secretaries. Her work was always top-notch, and her attitude was always positive. She was the kind of person who made everyone feel better just by being around.

Well, Trudy didn't dream of anything extraordinary. She dreamed of being an outstanding secretary. And she worked hard to make her dream come true. She was always striving to be better, always looking for ways to improve her work and her attitude. And she succeeded.

Trudy is now the office manager of our company. She's in charge of all the secretaries in the office. She's the one who makes sure everything runs smoothly. And she's the one who makes sure that the work is done efficiently and effectively. She's the one who makes sure that the office is a pleasant place to work.

So, dear student, don't let anyone tell you that dreams are just a waste of time. Dreams can come true. And when they do, they can make all the difference in the world.
