BC's Obligation to High Schools

Dear Editor:

I would like to remind you of your promising position at last Friday. If you are feeling that the Boston College Faculty have no facilities or workers with the best of the highest education, I would like to point out that the College has been very generous with its students in recent years. So far, I have not seen any indication that the College has not been generous with its students in recent years. This is what I would like to point out.

The Boston College Faculty are a very different group of people than those at the University of Pennsylvania. Their prices are quite different, as well.

I am not sure if I would like to have the benefits of the Boston College Faculty.

Yours truly,

Doe
