Steps to Tuesday’s Nightmare

SCENE ONE
Candidates for student body office sign their declarations of candidacy, saying they’ll be available for the Nominating Convention on that they wish to appear on the ballot. Here’s where the scrolls start.

SCENE TWO
The Nominating Convention, an experiment in informing voters on candidates’ platforms and creating interest in elections, has all the trappings of the national "unace-filled room" type convention.

SCENE THREE
Just like a good drama, the suspense builds in when the voting booths are opened. The campaign is over, and the candidates—hoping this gentleman has needed their plans—have delivered their case to the voters.

SCENE FOUR
The climax is when the juror delivers his verdict, a seemingly simple, yet a hard-fought and well-planned political campaign. It’s over now, in a ceremony which will be repeated by an estimated 800 Tuesday.

“Check-and-Balance System Proposed”

Parker, candidate for Associated Student Body president, has almost four basic topics in his campaign platform, the most important of which is constitutional reform.

Parker says, “Several changes in the A.S.B. constitution, separation of the ‘executive’ department from the ‘legislative’ board (of Representatives) is one of his changes.” Separation of the executive and legislative has worked in the past, especially in the United States. The executive department has another voice, vote or veto at 98, and I am determined it shall have the three or two of the three,” stated Parker.

The Road to Destruction

There has been a lot of discussion recently about the potential for war in the Middle East. The situation is complex and requires careful consideration. It is important to approach this issue with a clear and rational mindset.

Don't Be Fooled by the Numbers

It is crucial to remember that the numbers of troops and weapons deployed in a conflict can be misleading. The real impact of a war goes beyond the immediate battlefield. It is important to consider the long-term consequences of military actions.

Praise for the Court

Judge Smith continues to be praised for his thoughtful and fair rulings. He is known for his ability to listen to all sides of a case and make informed decisions.

The Rise and Fall

In recent years, the growth of social media has had both positive and negative effects on society. While it has provided a platform for connection and communication, it has also led to the spread of misinformation and divisiveness.

College Equipped as CD Disaster Monitor

Disaster recovery planning is a necessary part of any organization's preparedness. This week, Bakersfield College unveiled its new CD disaster monitor, a state-of-the-art device that can quickly assess the damage caused by a CD disaster and provide comprehensive recovery solutions.

The CD disaster monitor is equipped with advanced technology that can identify the extent of damage to electronic devices and data storage systems. It can also simulate various disaster scenarios to test the effectiveness of the disaster recovery plan.

"We are excited to have this new tool to help us recover from CD disasters," said Brian Johnson, Bakersfield College's IT manager. "With this monitor, we can ensure that our systems are prepared and ready to handle any disaster that may occur."

Prerequisites For Goldwaters’

Conscience’

In the Dec. 20 issue of the Renegade Rip, the Opinion Editor, read my article and took offense at what I wrote to the effect that we (as college students) have a conscience and so should all the Goldwater people.

Of course, we have a conscience but it doesn’t mean we are all apathetic as to the quality of the candidates’ programs. Since many of the Goldwater groups are big on pragmatism, I think it is far-fetched to say that they are apathetic to the quality of the candidates’ programs.

KOREAN CONFLICT

Editor, Renegade Rip:

I was very surprised to read your very misleading article on the Korean Conflict in the Dec. 20 issue. The article was very biased and one-sided. I was very disappointed to see such a poor article in the Renegade Rip.

Activities Board Kills Two Club Merit Awards

The Activities Board decided to eliminate the merit awards given to the clubs by the Student Senate. This decision was made because the clubs were not adequately represented on the Student Senate.

At the last meeting of the Activities Board, the merit awards were voted down by a vote of 5-3. The vote was taken after a heated debate between the members of the Activities Board.

The merit awards were given to the clubs on the basis of their performance during the semester. The clubs were judged on their ability to participate in activities, their ability to get members, and their ability to handle finances.

Bonilla Still Critical; Will Play Again-Doctor

Bakersfield College football star Joe Bonilla was still in critical condition in the Salinas hospital from injuries received during a holiday traffic mishap.

Bonilla underwent surgery Wednesday morning to determine the full extent of his injuries. His physician reported that the 19-year-old quarterback's liver was repaired in two places and that there was no serious damage. The doctor and family feared at first that his spleen might also be ruptured.

"He's making a wonderful fight," commented the physician, but he had no word on the condition of his other vital organs.

"He came through the operation very well. He was awake and talking and asking questions shortly after undergoing surgery and is doing as well as can be expected," he added.

Bonilla was almost fataly injured during the New Year's weekend when he was driving his car in a fog-concealed truck that had pulled across Highway 99 near Salinas.

A companion with Bonilla was injured in the accident and the truck was later found on a remote dirt track.

The bitter griller is still not allowed to receive visitors, but a member of his family is with him 24 hours a day.
