EDITOR'S NOTE: Bakersfield College President Bruce Finlinson welcomes the following list of new students and returning students of the 1968-69 academic school year.

It is a privilege to welcome students to Bakersfield College for the academic year, 1968-69. This year will be helpful and valuable year for all.

There are many things that can be done with each and every one of us. Each of us should seek the education that is so necessary for our successful future.

Once again, we must remember that the world is changing around us. It is not enough to just go through the motions of doing what you do or what you know.

Often when we see something that is not right, we must speak out against it. What we see, we must not stand against it. For what we have, what are there against it.

"Art" is a term used to describe the world. Art is not something that can be taken for granted. It is something that must be taken seriously.

If you want to support your college and the arts, you must support them. If you want to make sure that the arts are supported, you must support them.

The fall season will offer many opportunities to be involved with the arts. There will be a variety of programs offered, ranging from music to theater to film.

The Bakersfield College Art Department has a variety of programs and events planned for the fall semester. These programs will include lectures, workshops, and gallery exhibitions.

The art department is committed to providing a variety of opportunities for students to explore different art forms. We encourage everyone to participate in these programs and events.

We hope you will join us for the exciting opportunities that the fall season has to offer. Thank you for your support of the arts at Bakersfield College.
