Time-Life Vice-President Speaks Before BC Faculty On Blacks In Education

“Students, demand for minority education is very high, but they are not demanding the specific education that we, as educators, should provide,” said the Rev. Dr. James H. M. Keeling, vice-president of Time-Life World Publications, to faculty members of Black College on Tuesday (Nov. 19). ‘"Time’s goal is to bring about the growth and improvement of minority education through the use of various media in order to help the Negro and other minorities.”

Dr. Keeling cited two recent examples of Time-Life’s efforts in this direction. The first was the establishment of a book series on Negro history, which will consist of ten volumes to be published over the next two years. The second example was the launching of a new magazine, "Black College," which will be devoted to the education and culture of Negro students.

Dr. Keeling also discussed the importance of education in the future of the Negro. He stated that education is the key to the Negro’s future prosperity and that it is the responsibility of educators to provide the necessary preparation for this future. He also stressed the importance of research in education, stating that it is necessary to understand the Negro’s present situation in order to plan for his future.

Dr. Keeling concluded his speech by saying that Time-Life is committed to the improvement of minority education and that they will continue to work towards this goal.

State Board Of Education Gives Journalism Full Academic Status

A long and necessary step towards the establishment of a full academic program of journalism education at the State Board of Education was taken when the Board approved the establishment of a journalism program at the College of Education.

The new program will be offered as part of the College of Education’s curriculum and will provide students with a comprehensive education in journalism. The program will include courses in reporting, editing, writing, and production, as well as a strong emphasis on practical experience.

The Board’s action was hailed as a major victory for the journalism profession, which has long been pushing for recognition of the importance of journalism as a professional field.

The new program will be offered in the fall of this year, and it is expected that it will attract a large number of students.

bc staff preparing for ‘luv’

Five members of the BC teaching staff were recently appointed as members of the LUV organization, which is dedicated to the improvement of minority education. The new LUV members are:

- John Smith, math
- Mary Johnson, English
- David Brown, history
- Sarah Davis, biology
- James Lee, chemistry

The appointment of these individuals to the LUV organization is seen as a major step forward for the improvement of minority education.
chris' words about

THE 'COMMIE' RIP

by Chris Friest

For his whole life, searching after Anne Deutscher's "Pink of Periwinkle," Senior John T. Woods Jr. has done nothing but look for Anne. He is tired of the whole thing. Although many wonder why John, 23, a senior at the University of Texas, has never found what he is looking for, he says that he has had enough. John was quoted as saying, "If I can't find Anne, I'm not going to look any more."

The story of Anne Deutscher is one of the many stories that John has tried to solve over the years. John, a self-proclaimed "sleuth," has spent countless hours searching for Anne and has never found her. John is now moving on to other things and is determined not to look for Anne anymore.

John also spoke about his feelings towards Anne. He said, "I have been searching for Anne for years, and I am tired of it. I have never found her, and I am not going to look for her anymore."

The story of Anne Deutscher is one of many that John has tried to solve. He is now moving on to other things and is determined not to look for Anne anymore.

"Romeo and Juliet" Coming

Mother Nature never planned on contact lenses

Black students active

Last year, February 28, 1907, is the day Black History Week begins. It's a time to celebrate the contributions of African Americans to our society. This year, the theme is "Black Achievers in Science and Mathematics." The week will feature guest speakers, workshops, and a luncheon. Everyone is invited to participate and learn more about the achievements of African Americans.

Black students active

The University of California at Berkeley is proud to announce the formation of a new student organization dedicated to promoting black excellence in science and mathematics. The organization, known as the "Black Achievers in Science and Mathematics," aims to provide opportunities for students to network and support each other in their academic pursuits.

"Romeo and Juliet" Coming

The classic romantic tale of "Romeo and Juliet" is coming to the UC Berkeley campus. The play will be performed by the university's theatre department and is expected to be a sell-out event. Tickets are available now through the UC Berkeley ticket office.

Mother Nature never planned on contact lenses

Mother Nature never planned on contact lenses. This is a reminder to always properly care for your contact lenses to prevent issues. Regular cleaning and storage are crucial to keeping your lenses in good condition.

administration "knocked out"

Every college has been told that it is a "warning" to have students arrested on its premises which are considered to be in violation of university regulations. The warning is based on the fact that if the administration of a college is not acting promptly to control the situation, the consequences could be more severe. The recent increase in arrests has led to concerns about the effectiveness of the college's policies in controlling behavior.

Disruptors Labeled

by Robert Anderson

Disruption is considered a form of behavior that has negative consequences for the college community. The disruption of classes and other activities can lead to a sense of disruption and chaos, which can affect the learning environment and the overall atmosphere of the college. The college administration has taken steps to address disruption, including increasing the number of security officers on campus and implementing new policies to prevent disruption.

BC Grad

Composer To Conduct Concert

BC grad composer, Danny Johnson, will conduct a concert on campus next semester. Johnson, who is a well-known composer in the field, has been invited to conduct the concert as a way of showcasing his talent and promoting his music. The concert will feature a variety of works by Johnson, including pieces that have been commissioned by major orchestras and other music organizations.

Nursing class sets deadline

by Mark Novack

The Nursing class sets a deadline for completing a project. The assignment will be completed in the next week, and students are expected to submit their work on time. The project is designed to assess the students' understanding of the course material and their ability to apply it in a practical setting. The deadline is intended to encourage students to work hard and stay focused on their studies.
OFFSET—REBIRTH

Once upon a time at the morning meetings of copy-room editors, there lived a group of young, can-do pamphleteers. They published a weekly editorial called the Renegade Rip. In those days, major reporters would type out their stories, hand them in to the page editors, who in turn would paste them into the pages.

The page editors would then send their layouts to copy editors, who were responsible for ensuring that the content was accurate and grammatically correct. The copy editors would then send their proofs to the printers, who would print the newspaper.

The finished product would then be delivered to the newsstand, ready for distribution. The process was labor-intensive and required a lot of teamwork.

Now, the Renegade Rip is no more. It has been replaced by a new, more modern process called offset printing. Offset printing is a method of printing in which an image is transferred from a cylinder to a rubber blanket, which then transfers the image to the paper.

This new process is faster and more efficient than the old one. It is also more accurate, as there are fewer chances for errors to occur in the printing process.

With the introduction of offset printing, the Renegade Rip has been reborn. No longer do reporters have to worry about the challenges of the past. Now, they can focus on creating高质量 content that will engage their readers.

Swimmers Sink Lancers 59-36
by Tim Heinecke

Swinburners and ployers say the Panorama pool has been the perfect place to work on their swimming strokes.

The Panorama pool has made a big splash in the past few months, with swimmers from across the country training here.

The pool's popularity has been attributed to its crystal-clear water and well-maintained facilities. Swimmers say they feel refreshed and energized after their sessions.

BC track team walks away with METRO relays

The relay race was a exciting event with both teams giving their best to win. BC track team emerged victorious, setting a new record that will be remembered for years to come.

The winning team was led by their captain, who gave a rousing speech to his teammates after the race. The atmosphere was electric as the crowd cheered them on.

The relay race is an integral part of the track and field events and is always a highlight of the competition.

Falcons bump Gades mats in Metropolitan Conf. finals
by Paul Cohen

The Class Falcons pulled off a stunning upset against the Gades in the Metropolitan Conference finals, winning 45-24 to capture the league title.

The Falcons have been a surprise team all season, but they have shown they are capable of competing with the best in the conference.

Coach Cohen said the team's hard work and dedication paid off in the win.

Racquettes Handed Loss

The Racquettes were no match for the powerful Blues in their recent match, losing 6-4 in a tough battle.

The Blues' defense was solid, limiting the Racquettes to just a few scoring opportunities. The Racquettes, on the other hand, struggled to find their rhythm.

BC gets second in relay, Hitchcock on his way to Metro honors

Although BC got second in the relay, Hitchcock has his eye on the Metro honors.

Hitchcock has been a shining star for BC all season, and his performance in the relay was a testament to his abilities.

are your contact lenses more work than they're worth?

If you're tired of using two or more separate solutions for your contact lenses, you might consider switching to a multi-purpose solution like Lensine. Lensine is designed to care for your lenses in a single solution, making it easier to manage your contact lenses.

Lensine exclusive for Bacteria cannot grow in improper lens hygiene. It has been demonstrated that Lensine can provide superior care for your lenses, ensuring they remain clean and fresh.

The得意之处 of Lensine is its versatility. It can be used for a variety of contact lenses, including hard and soft lenses, making it a convenient choice for many users.

In conclusion, if you're looking for a solution that can simplify your lens care routine, Lensine is certainly worth considering. It offers a convenient and effective way to maintain your contact lenses, ensuring they remain clean and comfortable to wear.
