

SUMMER SESSION NEWS

BAKERSFIELD COLLEGE, CALIFORNIA JUNE 16, 1969 VOL. 1, NO. 2

KILBURN PREDICTS 2,000 ENROLLMENT

by Ralph Nielsen

Dr. H. Parley Kilburn, Dean of the summer session of Bakersfield College since 1964, predicts an enrollment of about 2,000 students for the 1969 summer session. This is slightly over that of the 1968 session.

Kilburn, who was recently elected to the Community College Continuing Education Association, said that this year's enrollment tended more toward the social sciences. The three Speech I classes were filled with the first two weeks of enrollment. The English 8-A classes, History 17-B, and Philosophy 6-A classes were also closed soon after enrollment began.

ATTENDANCE VITAL

Most of the students attending summer session are students who plan to transfer to a four-year college and need transferable courses to do so. Said Kilburn, "The length of time in the summer session is about one third of the regular session, yet there

Dr. H. Parley Kilburn

are more actual class hours involved in the summer session. It is very important that the summer student not miss any classes if he is serious about passing the course. Due to the lack of time, missing one class can affect the student's grade."

"Summer school has some definite advantages over the regular session," said Kilburn. "For instance, the summer student has only one or two classes, and can concentrate more on those classes without having his learning of one course interrupted by four or five other classes."

"At the time of publication of this article, the enrollment for summer session will be closed. However, extenuating circumstances may allow a student to enroll late."

pre-registration for fall semester urged

by Chris Jimenez

Approximately 2,000 students have pre-registered for Bakersfield College next fall. Students who have not yet registered are advised to do so immediately since the onslaught of high school graduates will cause an overload in August.

Early registration also assures a returning sophomore of enrolling in a class that may be closed for the fall. Steps to be taken are:

1. Report to the records office and complete necessary forms. You will receive a Permission Slip to make a counseling appointment.
 2. Report to the Career Information Center, A-16, where you will receive a schedule of classes being offered next fall semester, a Class Schedule worksheet, etc.
 3. Complete all forms, including the worksheet.
 4. Report to the Counseling office and present your Permission Slip while making your appointment. Your Permission Slip and proper completion of all forms, including your proposed schedule of classes, is a pre-requisite to making an appointment.
- IMPORTANT: If you are unable to keep your counseling appointment, notify the Counseling Office in advance so another student can take your place.

BC LIBRARY HOURS POSTED

The Bakersfield College library will remain open this summer for the benefit of all Summer Session students, according to Mr. Clafre Larson, librarian.

During the summer, the library will be open from 8:00 a.m. to 4:45 p.m. every day. Students should note that the library will not be open evenings and Sundays.

Mr. Larson reminds all students that the library has a large selection of books, periodicals, and records for use by students. All students must have a registration card to check out materials. The overnight reserve loan period will remain the same, but the regular loan period will be reduced from 3 weeks to 2 weeks, because of the length of the summer session. Fines will remain the same also: 50¢ a day for reserve material maximum (5¢ an hour), and 5¢ a day for books.

Mr. John Wetzel and his staff will be on duty to help all students with any questions they may have.

Audio Visual open for students

For the first time in summer school history the Audio Visual Department will be open for student use.

Dell Whelster, director of the Audio Visual Department, related that regular Audio Visual services such as listening lab, film viewing, and assistance with film orders and materials will be available to students and instructors this summer.

Whelster also pointed out for the benefit of summer school instructors that the procedure for the use of Audio Visual equipment will be the same as in past summers except that films, etc. will be checked out through the Audio Visual Department instead of through the library check-out desk.

COMMUNITY COLLEGES SHOW LOW COST OF OPERATION

According to a report released by the Florida Department of Education recently, California's Community Colleges show the fifth lowest average cost of operation in the Nation.

Among the states supporting two-year colleges, Delaware, Hawaii, Illinois, Iowa, New Hampshire, New Jersey, New York, Rhode Island, South Carolina, Vermont, Virginia, Washington and Wisconsin all have an average cost of operation well over \$1,000 per full-time student.

Based on 1967-68 data, California's average cost per full-time student was \$7.27.

1969 SUMMER SESSION DIVERSIFIED; 22 NEW COURSES LISTED

by Jackie Sanders

Bakersfield College Summer students have a wider variety of classes to attend than in previous summer sessions with the addition of twenty-two new courses to the class roster.

Agricultural Entomology, Agriculture 42, is a non-prerequisite Introduction to the classification, life history, morphology, physiology and ecology of insects, with a study of insecticides and their application.

Welding, Apprentice 88, deals with theory and safe practices in the operation of oxy-acetylene and arc welding equipment. Gas welding consists of welding in all positions, silver soldering, bronze welding, forging and heat treatment, while arc welding consists of theory and safe practices in the use of AC and DC arc welding equipment to cover all positions of welding in all common types of joints. Oxy-acetylene and propane cutting for weld preparation and fabrication are also included.

Introduction to Oil Painting, Art 5AB, deals with the techniques and materials of oil painting. Sculpture, Art 11AB, is an exploration of the three dimensional materials and their relationship to design and form with creative expression through the manipulations of clay, wood, metal and stone.

Introduction to Business, Business 52, surveys how business is owned, managed and controlled. A broad background in common business practices is provided, together with an understanding of common business terms. Areas covered are analyzing our business economy, forms of ownership, banking, insurance, management, retailing, labor relations, production, marketing, advertising, statistics and business ethics.

Principles of Real Estate, Business Administration 59, studies the fundamentals of real estate practice with emphasis on principles, rather than on

sales techniques. The real estate business, liens, taxes, bonds, contracts, leases, deeds and other real estate instruments are studied in connection with brokerage and home ownership. Although the point of view of the consumer is stressed, the student is thoroughly oriented to the vocational aspects of the field.

Menu Planning, Food Service 47, deals with planning and writing menus for community and institutional food service operations. Work Simplification, Food Service 60, deals with principles of motion economy and development of time-saving methods as they apply to the food service operation.

Elementary French, French 2, is a continuation of the fundamentals necessary for speaking, reading, writing and understanding with the enlargement of vocabulary through French readings and exercises. Elementary Conversational French, French 52B, continues the structural elements necessary for understanding, speaking, writing and reading the language with emphasis on understanding and speaking.

Black History, History 20, is a survey of the role in and contribution of the Negro American to US History. It also includes a history of the Negro in American life and an analysis of the current status of the Negro in American society.

Metal Technology, Metal 55, is designed to give engineering and technical majors practical experience in the processes and materials of industry including machine tool metal working, foundry procedures, sheet metal working and oxy-acetylene welding.

College Choir, Music 14, performs choral work in conjunction with the summer musical production. Applied Music-Piano, Music 20P, is beginning and advanced instruction in the per-

formance of orchestral instruments in conjunction with the summer musical production. Applied Music-Strings, Applied Music-Voice and Applied Music-Winds and Percussions have the same course descriptions as above.

Nutrition 10 deals with principles of nutrition and their application to diets under normal conditions.

The Arts in Western Civilization, Philosophy 31, studies the great ideas and values of man through an integrated, philosophical approach to literature, music and the visual arts from the seventeenth to the twentieth century.

Child Psychology in the Classroom, Psychology 52, deals with the study of growth and development with emphasis given to the handling of behavior problems through guidance and discipline and to the special problems of dealing with disadvantaged children in the classroom. Teacher Aide Training, Psychology 55, assists teacher aides in better understanding their duties and responsibilities, to help them in understanding educational and psychological needs of children and to develop skills and techniques that may be helpful in the classroom.

Race and Poverty, Sociology 21, is an examination of race and poverty in American life with special emphasis on the need for improved communication between the representatives of society such as teachers, social workers and policemen and the poor.

Any person who wants a few extra credits and doesn't know what to take should check into these new classes offered by the summer school session at Bakersfield College.

FINLINSON GREETSS SUMMER STUDENTS

Summer session at Bakersfield College continues to grow. This year we are expecting 1800 to 1900 students. Many will be using summer session to speed up their training program; many will be taking courses for personal enjoyment and satisfaction. Some will be engaged in musical and dramatic activities which we hope will prove exciting to them and pleasurable to their audience.

To students who are new to Bakersfield College, may I encourage you to make a real effort to get acquainted with your instructors. They have much to offer and I am sure they will appreciate points of view which you may have.

Best wishes for a profitable and pleasant summer.

Burns L. Finlinson
President
Bakersfield College

Photo by Alfred V. Noriega

ridgecrest campus planned for 1972

A desert campus at Ridgecrest moved a step nearer reality by recent action of the Kern Junior College Trustees. The board okayed a preliminary master plan for the Eastern Kern County campus, to be built in the foothills south of Ridgecrest.

The new campus will serve 500 students when it opens its doors for the first classes in September, 1972. Phase I of the master plan will cost about \$3 million for construction of a library, classrooms and other facilities.

ONE HUGE BUILDING

A unique feature of the new college, according to architects Frank Ghezzi and Bob Frawell, will be a single huge building which would house all areas for the two-year college. As enrollment grows (1000 students expected in 1975) additions would be made to the one central building. The facility will be designed to fit into the contour and landscape of the desert, providing shelter against high winds and intense heat.

The district is making an application to the federal government for construction funds for the campus, to be located on 160 acres presently managed by the Bureau of Land Management.

Funds could be made available by the Health, Education and Welfare Department under Public Law 815, which grants money to school districts serving areas with a high percentage of government employees.

The district also plans to apply for capital outlay funds from the state under the State Junior College Construction Act. Such a grant is determined by a formula of the district's ability to pay, and can run anywhere from 60 per cent state and 40 per cent local, to 40 state and 60 local. If the state grants any money, it also applies a specified tax rate levied against property owners to bring in the amount of local money needed to complete construction. The district has no say in what the tax levy would be.

LIBRARY UNDER STUDY

The board still has before it a proposal to construct an addition to the Bakersfield College Library which would cost the district about \$190,000. If approved it would add 5.6 cents to the district's tax levy. Review of the preliminary \$8.3 million budget will continue until June 17 when it will be adopted.

journalism courses listed by katzman

Will you have a few free hours for the next six weeks? For those interested in writing, public relations and news media, three two-unit courses in journalism will be offered in the summer session at Bakersfield College according to Charles Katzman, chairman of the journalism department.

Journalism 25, Internship in Public Relations; Journalism 25B, Internship in News Media; and Journalism 25C, Internship in Arts and Education will be taught by Katzman 9:30 a.m. daily.

An unusual opportunity is offered the student in that the courses may also be taken by arrangement. For those wishing to attend class at a time other than that scheduled, Katzman will work out a program suitable to the individual student.

Students may register in the records office (Administration Building, Room 9) from 8 a.m. to 3:30 p.m. Monday through Friday. There is no registration fee or tuition except for out-of-state students. Classes will be closed when a maximum enrollment has been reached. Summer session is from June 16 to July 25.

MUSICAL COMEDY SLATED FOR JULY PERFORMANCE

by Connie Creitol

History will be made this summer at Bakersfield College when the drama department for the first time will present a summer musical, "Westside Story", on July 24, 25, 31 and August 1 and 2.

Also known as the summer theater workshop, the drama department opened auditions to anyone eligible in the community who wishes to perform in "Westside Story" or work on the stage design. Featuring music by Leonard Bernstein, BC's production of "Westside Story" will be enhanced by a full orchestra under the direction of Mr. Charles Wood of the Bakersfield College music department.

Other members of the BC faculty who will aid in the production are Mr. Phillip Simons of the drama department who is the set designer and stage director, and Mr. Henry Horwege, also of the drama department. Lenore Smith, a local dancing instructor, will provide choreography techniques.

LARGE CAST

Being such an elaborate musical, "Westside Story" contains 50-60 performers. Students and others wishing to participate in this production could do so by enrolling in this particular drama workshop for two units of credit.

Everyone is urged to attend one of the performances this summer. Tickets will be on sale for \$2.00.

SONG AND YELL LEADERS NEEDED

If you've got spirit and plan to attend BC for the fall and spring semesters of 1969-70, why not consider running for a song or yell leading position?

Two spots are available for BCites who enjoy exercising their lungs, while there are four spots open for BC coeds who'd like to try for song, according to Will Eisenhower, head yell leader.

"Yell and song leading are in the greatest tradition of Alexander Hamilton, John Q. Adams, Barry Q. Goldwater and other great 18th century Americans," declared Will.

Interested students should contact either Will or Mary Loken, head song leader. Grade point average requirements are a 2.3 average to run and maintenance of a 2.0 while in office. Also required is an ASB card and a minimum of 12-1/2 units.

KILBURN ELECTED EVE. DEAN

by Mike Bohl

At a meeting of the evening deans held on Friday and Saturday, May 16 and 17, at the Hilton at the San Francisco Airport, Bakersfield College Evening Division Dean, Dr. Parley Kilburn, was elected president of the Evening Deans Association.

The assembled membership, approximately 40 representatives, voted unanimously in favor of the election of the BC official, as well as the rest of the administration staff for the 1969-70 college term. The officers elected included Kilburn, vice-president, Jack Healy, Santa Rosa College; secretary, Russell Lewis, Santa Monica Junior College; and treasurer, Roger Ellis, Siskiyou College.

MANY ACCOMPLISHMENTS

Other accomplishments of the annual conference included the combining of the Northern Deans of Evening Division and the Southern Deans of the Evening Division into a new organization. Also, a tentative title for the organization was suggested: "The Community College Continuing Education Association."

It was recommended that the officers draft a constitution for submission to the membership during the summer, and that it be presented to the membership in the fall. It was recommended that the four elected officers serve on the California Junior College Association Continuing Education Committee and to work more closely with the CJCA.

1968-'69 Sports Summary...Gades' Taste Victory And Defeat

by Phil Carlos

It is my pleasure as sports editor to note that once again the Bakersfield College Renegades have had a tremendous year in the area of athletics. The Metropolitan Conference is one of the toughest conferences in the state in almost all sports and although Bakersfield is one of the smallest schools in the conference, it consistently manages to turn out more talented athletes per capita than the large Los Angeles Colleges. Credit for this achievement have to be split between Kern County's fine high school athletics program and the excellent coaching at BC. These two factors must go hand in hand because without one, the other would be pointless.

Bakersfield competed in 10 of the 11 Metropolitan Conference sports (no gymnastics team here) and managed to garner fourth in the Iron Man standings in which the Metro schools are rated by points compiled over a school year.

FOOTBALL

The Gades kicked the season off by turning the Fresno City College Rams into ground round with a 34-6 score. The second game, another non-conference tilt, saw Big Red chew up Arizona-Western 21-0. With a head of steam up, the Renegades ploughed into the Metropolitan football season with a 35-21 opener against the Pierce Brahmas.

Although BC was 19 points in the hole in the second quarter of the second Metro game, they came roaring back with 28 for a 28-19 victory over the Long Beach City Vikings.

The Pasadena Lancers had their sides kicked in by the Renegades in the last minute of the game. The score was 24-21 when the Gades pushed over a touchdown for the final score of 28-24.

Home-coming put a zing in the Gades' game as they shut

down the Cerritos Falcons 22-12 before a near capacity crowd. The Gades rolled up 480 yards in that game.

The next home-coming was bad luck for the Renegades though as they saw their number one national rating go up in smoke with the 13-7 loss to the El Camino Warriors. It was a hard day's night for the Gades as the Warriors broke a 10-year streak of losses.

Bakersfield's 33-24 victory over a tough Santa Monica. The BC team placed second in the Metro while El Camino was beaten 33-12 by Fresno City in the state semi-finals.

CROSS-COUNTRY

Twelve Renegades climbed hills, ran in mud and in general covered all types of terrain in the four mile cross country race and their efforts brought them a third in the dual meet season with losses only to number one LA Valley and number two Pasadena. Freshman Rick Hitchcock was the Gades number one piston as he took first in all but one race.

In the Metro final the Gades were again third to Valley and Pasadena. The week after that they placed fourth in the SoCal finals and came back very tough to take third in the state meet as Rick Hitchcock, suffering from bronchitis, placed second to Valley's Mark Covert.

Hitchcock set new course records at nearly all the courses he ran in, including a fantastic 18:38 clocking on the BC four mile course.

by Tim Heinrichs

The BC swim team was tied for fourth at the end of the regular dual meet record of 4-3, but took third in the Metropolitan Conference tournament. The swimming team also captured fifth place in the Southern California tournament and 20th in the state.

Four swimmers were named to the Junior College All-American team. Dennis Fiddler was named

to the 100 yard backstroke. Phil Toper was named in the 100 and 200 butterfly. Greg Artz was named in the 100 butterfly. And Rich Miller was named in the one and three meter diving.

The Renegade water polo team was fourth in the league with a 3-4 record and the aquapoloists overall record was 5-10.

High point man for the Gades, over the season, was Larry Pearson and runner-up was Rich Valejo.

WRESTLING

Bruce Pfutzenreuter's grapplers mopped up all opponents this year and went all the way as they capped their season by winning the State Tournament at San Bernardino. Dual meet competition saw the Gades with a 19-0 record including 55-0 shutouts over Fullerton, Santa Monica, Long Beach and LA Valley.

The Renegades had three individual state champs: Joe Nigos successfully defended his title and Bruce Burnett and Joe Smart captured the crowns in their weights. Eugene Walker was third, and Jim Robusky was second.

by Sam Heath

The Bakersfield College Gade netters started off their season as did all other sports -- with postponed games because Mr. Rain didn't know how to turn off a good thing.

For the most part the racketeers came out in pretty good condition. They finished the Metropolitan Conference season with a 75-112 victory over the El Camino Warriors and ended the season with an overall dual meet record of 17-3 and a Metro dual record of 13-2. And for the first time in history, BC qualified more than one player for the Southern California Regional tennis tournament. The Gades acquired this privilege by advancing three men to the quarterfinals.

BC racketeers started off their season with a 6-3 loss to Foot-

hill College in a non-league match. The netters began tallying victories with the advent of a bout with Pasadena College. This was BC's first conference meet. Gades then knocked off Cerritos with a staggering score of 7-2, after which they were beaten by the Fresno State Bulldogs 7-2.

Success was with the Gade netters as they again claimed a 7-2 victory over LA Pierce College in a double of nothing match. This match gave BC a chance for a shot at the Metro title.

After the Easter vacation BC's squad ripped up the Ojai tournament by maintaining a third place. Playing as a team, they managed to reach the finals before being defeated, claiming the position as second best doubles team in California.

Among other great feats, Bakersfield College netters qualified two singles players for the California Junior College Tennis Championships as both advanced to the quarter-finals before losing in the SoCal championships. These outstanding Gade players were Steve Newbrough and Jim Wood. They are the first doubles team to qualify for the state championships. The two finished in the SoCal behind Santa Monica, San Diego City College and Fullerton.

In the first and second singles competition Newbrough tallied 14-0 for the Metro Conference season. Wood ended with a 13-2 score. Margot finished 13-2. Champlin slated a 12-3 and Hank Hoss won 11 and lost four.

As a result of the doubles tennis playing of Renegades Gary Champlin and Alan Margot, BC ranked third in the Ojai tourney.

Alan Margot, Steve Newbrough, and Jim Wood qualified for the SoCal. Newbrough and Wood were also the first Renegade team to qualify for the state championship.

Gade Golfers didn't do too well this season, winning only one match after 11 consecutive losses. The credit for the win goes to the fifth and sixth men, Bob Radcliff and Rick Garcia. The six linksmen lost the last dual match to Cerritos.

El Camino	12-2
Pierce	11-2-1
LBC	10-3-1
PCC	8-4-1
Valley	5-9
Cerritos	2-11-1
BC	1-13

TRACK

As always, the Renegades were tough in track. Although they won the Metropolitan finals they missed winning the dual meet competition by two points as they lost a dual with Cerritos 69 1/2-66 1/2. Rick Hitchcock shown on the freshman half of the squad, running the fastest JC two mile in the nation at 8:59.6. Robert Reader, sophomore triple jumper, tied the national JC record at 51-10 1/4. The spikers were third in the Southern California meet and went on to finish fourth in the state with Rick Hitchcock and Robert Reader winning their specialties.

by Don Simmons

The 1969 Bakersfield College Basketball team under the guidance of Coach Bill Nelson wound up in seventh place in the tough Metropolitan Conference with a record of four wins and ten losses. Their over-all record was (conference and non-conference games) 13-16. The Gades were hurt considerably by the loss of 6-8 center Steve Smith who went out early in the season due to injuries.

Forward Charles Anderson with 412 points led all Gade scorers; he was followed closely by Chuck Collins with 396 points. Both Anderson and Collins made the All Metro Conference second team. One bright spot of the '69 season was the Renegades winning the 14th annual Bakersfield Invitational Tournament.

BASEBALL

Coach Walt Johnson and the 1969 Renegade Baseball team got off to a good start; after five games they were in second

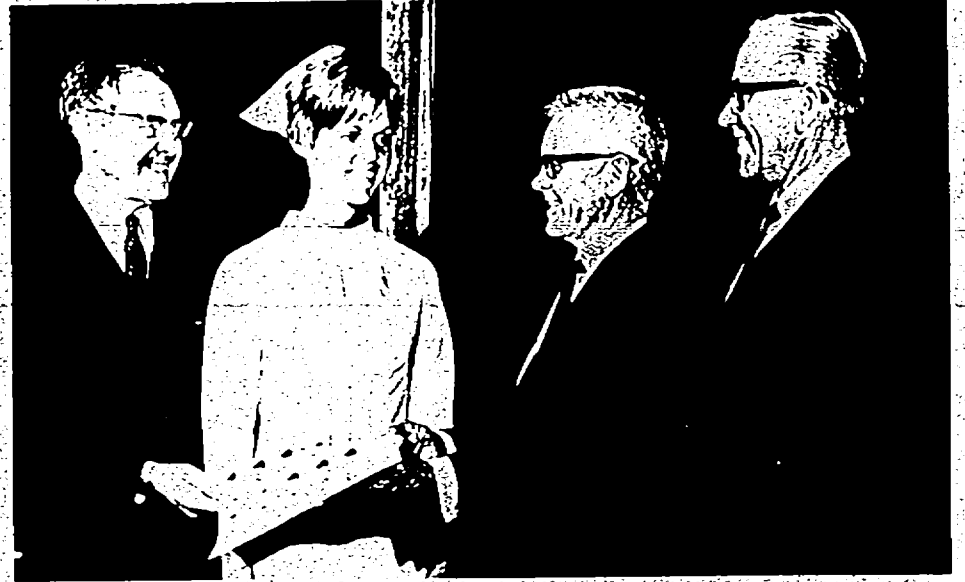

place, one game behind league-leading Cerritos, with a 4-1 record. At this point, the Gades, went into a horrible slump and couldn't buy a win. Before they could shake off their frustrating slump, the Gades string of losses had reached an unbe-

livable thirteen. Their final Metropolitan Conference record stood at six wins and fifteen losses.

In their annual game with the local pro team (the Bakersfield Dodgers) the Gades lost 5-4 in ten innings before a crowd of

about 1500. Centerfielder Chuck Berg, a freshman who will be back next year, hit for a .333 average for the season and was named to the All Metropolitan first team. Pitcher Bill Czerwonka made the Honorable Mention list.

Seventeen 17 Nurses Honored During Pinning Ceremonies

Seventeen candidates were honored at the 11th annual presentation of pins recently at bc. participating in the ceremony were, left to right, dr. ralph prator, former bc president; mrs. linda kyle; president burns finlinson, and trustee loren voth. Photo by Alan Ferguson

by Gloria Shaw

Seventeen RN candidates were honored at the 11th annual presentation of pins for the Bakersfield College Associate Degree program in nursing.

Dr. Ralph Prator, professor of education at San Fernando Valley State College and former BC president, congratulated the nurses on the completion of "this prized and rewarding educational experience." "However," he said, "the greater blessing will be on the community itself."

191 candidates have graduated from the nursing program between 1959 and 1969, according to Dr. Prator, and 80 have stayed to contribute their services to local hospitals. 13 members of the 1969 class will remain in Kern County. "BC provides and maintains unexcelled progress in nursing education," he said.

President Burns Finlinson told the audience of relatives and friends that Dr. Prator was the president of BC when the nursing program was initiated. After many debates about the advisability of changing from a three-year hospital program to an Associate Degree nursing program, Dr. Kathryn W. Cafferty was brought from Columbia University to build the program. She remains today as chairman of the nursing department.

DR. MERSON PRESIDES

Presiding over the program was Dr. Thomas Merson, dean of instruction at BC. Sister Mary Brenda, R.S.M., assistant administrator at Mercy Hospital, represented the participating hospitals. She said, "these pins represent the beforeness and foreverness of a long tradition." Present on the platform were other hospital

Leadership camp scheduled for Sept. 5, 6, 7

Bakersfield College student officials are planning the eighth annual Leadership Camp to be held at the YMCA Poso Heights Camp on September 5, 6, and 7.

Tim Revell, ASB President said, "The camp this year will send two delegates to represent

their club. Freshmen are encouraged to attend as this will provide an excellent opportunity to "get into the swing of things" as a BC student."

Administration and faculty leaders will be on hand to assist student officials in any possible way. Revell stated.

remember those dates in September - 5, 6, and 7. Sign-ups will be taken at the Campus Center student Affairs office during the month of August.

SUMMER PARKING RULES EASIER

Parking for the summer session student is being made much easier this summer.

There will be no guessing as to whether you, the summer session student, should park in a student parking lot, for you must park in a student parking lot. This, it is believed,

will result in the obtainment of much higher grades by this year's summer students. For no longer will you sit in class worrying about whether you got a ticket, because you will be in the proper parking area. This will leave your mind to focus its entire attention upon what is being said in class.

CAMPUS PACS ARE HERE

Campus pacs have arrived at the BC Bookstore according to Mr. Thomas, bookstore manager. The Campus pacs, which are distributed through Guest Pac Corp. of America, offer a wide selection of toiletries for men and women for only \$1.49.

The men's pac, for example, holds a Technic razor and adjustable band, along with shaving cream and after shave, as well as several other useful items and coupons for other goods. The razor and band alone sell for the \$3.00. The women's pac, too, offers many
