Choir Presents "Symphony Of Psalms"

Bennett Cert Here April 17

by Lucille Parnay

By a vote of 3-2, the City Council has decided to rename the Bakersfield College campus the "University of the West," effective July 1. The new name will reflect the fact that the college is one of the top 10 in the nation for its "open admission" policy. The college currently has 10,000 students enrolled, with a goal of increasing enrollment to 15,000 by 2020.

Community College
Expansion Proposed

Senator Donald C. Keck of Yorba Linda has introduced SB 511, which would provide for development of a "California Community College District" system in the state to replace the existing 72 community college districts. The new system would be composed of 10 regional districts, each serving a different area of the state. The districts would be responsible for coordinating and administering education programs at the community college level. The bill has been referred to the Senate Education Committee for further consideration.

BC-Study: Students Offered
European Study Trip

Black St., a survey of contemporary European students, has opened at the Bakersfield College theater. The play, which was written by British playwright Arnold Wesker and directed by Edward Albee, is being performed in a limited, off-Broadway production. The play is about a group of British students who are being shipped to the United States to study American culture. The audience is invited to participate in the play, which is set in a student dormitory. The play has received critical acclaim and is being shown at several theaters in the United States.

Studio Band Takes Second Place In Contest

"European Student Study Trip" at the University of California, Berkeley, has taken second place in the annual "European Student Study Trip" contest. The students are now planning to travel to Europe and study at various universities in France, Italy, and Spain. They will also have the opportunity to study at various universities in the United Kingdom and Ireland. The trip will include visits to historical sites and cultural events, as well as the opportunity to learn about the history, culture, and language of Europe.

High School Testing

High School students in Bakersfield are taking the "California High School Exit Exam" (CHSSE), which is the state's standardized test for high school graduation. The exam covers English language arts, mathematics, science, and social sciences. The results will be used to determine whether students have met the state's academic standards and are ready to graduate.

Operas Soloist Due Tonight

Opera soloist will be performing at 8 p.m., Thursday, March 23, at the Bakersfield College theater. The program will feature operatic works from a variety of composers, including Verdi, Puccini, and Bizet. The concert will be conducted by Dr. James Smith, director of the college's music department.

APOLLO 13 FAILURE

Really a Success

The recent failure of the Apollo 13 mission caused considerable excitement, and the news that the astronauts survived their near-catastrophe has prompted much speculation about the future of space exploration. The accident serves as a reminder of the dangers involved in space travel and the importance of safety measures. The NASA administration has announced plans to review the mission and identify any shortcomings to ensure future missions are safer.

NOISE

A Monster In Our Society

Noise pollution is a growing concern in urban areas. The constant hum of traffic and industrial activity can have serious health implications. The noise level in many cities is already at dangerous levels, and efforts to reduce it must continue.

UNBEATEN TRACK TEAM CRUSHES PASADENA 81 - 55

By Steve Christiansen

The Whittier track team, "pounding without the inches," captured their second straight undefeated dual track meet and triumphed over Pasadena by a score of 81-55.

Although sophomore Frank Heren collected the 100 yard dash laurels, Whittier's teamwork was so outstanding that it would tie for first place with Pasadena in the "points" column.

In the 100 yard dash, Frank Heren was able to outpace Pasadena's stocky Joe Photosy by a second with a time of 10.8. AlthoughPhotosy suffered a muscle pull in his leg, the feat would have been a significant accomplishment had he continued without injury.

Sophomore George Austin, who had been placed in the 200 yard dash, showed a last minute burst of speed to overtake Pasadena's speedy Joe Franklin, who had already reached the finish line. Austin's time was 25.2, while Franklin's was 25.4.

For the 440 yard dash, the Whittier crew placed one runner in the first place and two runners in the last place. The Whittier runner, which placed first, was only a half second under the approved time of 56.6.

The 880 yard dash was another 1-2-3 for Whittier.

BC Opens Tourney To Kern Girls

By Joe Scoggins

The first Kern Girls' Regional was held on the Whittier campus on Tuesday.

Surprisingly, the Whittier team placed first, scoring 90 points, with Los Angeles coming second, and Kern Girls third with 80 points. Whittier Girls' coach, George Austin, said, "We were able to place all of our runners in the top three positions, which was our goal." The Kern Girls did well in the regional as well, scoring 80 points and placing third overall.

The BC Girls' Regional was held on the same day, and Whittier placed second with 80 points. Kern Girls placed third with 60 points.
