There've been some changes...

There've been some changes in BC Classified Staff this summer. Newcomers involved in the secretarial staff include Lee Proctor as secretary to the Dean of the Evening Division; Gertie Richards in the Public Information Office, and Rosemary Cox, who operates the new MTSC and MTSC equipment in the Staff Services Office.

In the Placement office Jill Rathsone replaced Beth Dills, an expectant mother, and Linda Seaton returned to BC, replacing Anita Alves, now Mrs. Ball and a resident of Sacramento. Dixie Van Dyke replaced Lillian Nelson as secretary to the Registered Nursing Program and Irene Furman took over the secretarial duties in the Business Education Department as Mildred Walton and husband were transferred to the Los Angeles area.

Clarence Thomas' Bookstore staff was bolstered with the addition of Evelyn Watanabe and John Rice; meanwhile, newcomer Margie Coller will assist business manager Edna Taber. Alice Scary joins the classified staff of the library to implement better services to patrons in the renovated facility, directing special attention to the needs of handicapped students.

Several transfers among secretarial and clerical staffs resulted in Mary Habbad Jones becoming secretary to the Dean of Instruction with Diane Thomas also being assigned regularly to the Office of Instruction. Sharon Bowsler is the secretary in the new Fine Arts Building, serving Art, Speech and Police Science Departments primarily.

Lillian Nelson became secretary to T & D and Ag Departments while Helen MacDonald assumes the position as secretary to the Director of Maintenance, Operation, Transportation and Receiving.

Changes have been made in the Buildings and Ground staffs. Dale Acree transferred from the Kern High School District to the Community College District on July 1, and has assumed the post of Director of Maintenance and Operation. Lambert Valmori replaced John Valmori upon his retirement as stadium groundskeeper.

A BC faculty member since 1938, Hemmerling has taught every physics and math course offered plus three engineering courses and four chemistry courses. He holds a B.S. in Science-Engineering Technology-Mathematics, Division 1943 to 1967, and has taught UCLA graduate extension courses and National Science Foundation classes for teachers.

Hemmerling is currently aiding former BC Vocational Technology Chairman-Norman Harris; now at University of Michigan, in the revision of that school's applied physics texts. Hemmerling's academic background in physics, mathematics, and engineering includes study at UCLA, Berkeley, Redlands, USC, Houston, Kansas, Bucknell and Fresno and San Jose State colleges.

BY MILT SANDEN

For the 1970-71 year, the type setting for the Renegade Rip will be done on the Magnetic Tape Selective Compositor by IBM. This equipment is located in the Staff Services Office in the Administration Building. In addition to the RIP, copy for many other student publications will be, in time, developed and set there.

It was decided that copy for a special edition of the Rip should be set as a trial run to judge time needed, quality, and other production factors. This special edition of the Rip for the faculty resulted. This will not be an annual publication, merely a one-time event. It may become a collector's item. (at least in some files) It is our hope you enjoy the news, like the new print, and will react to Bill Walker, Rip advisor, if you have any constructive suggestions for the paper.

Naturally, a publication of this type takes thought, effort and energy from someone. Special plaudits should be given to Mary Ann Steele, 1970 Rip editor; Rosemary Cox, our MTSC operator, and to Bill Walker for their work and imagination in the development of this special edition.

Know Your Trustees...

Kern Community College District is governed by seven elected trustees. At the July 1, 1970 meeting, Mr. Mark Tracy was selected as president of the Board and Mr. Ruggenburg chosen as clerk for the 1970-71. Each Board member serves without compensation for the expressed purpose of providing the communities within the District the best possible community college programs and services. Each is a contributing member of his community through his other activities as well as his field of employment.

Members of the Kern Community College District Board of Trustees, shown above, are: Clare Bolinyan, E.B. Cornell, Albert A. Godd, Angus MacDuffie, Mark Tracy, E. Ruggenburg and Leon Vash. Board member right is Dr. Edward Eismann, director-president of the board, Ed Bulman, assistant to the superintendent, is at the far right. In the foreground are Beth Cowings, information specialist; Charles Kostner, district director of information; and Laurie Anderson, secretary to Dr. Eismann.
ARTS BUILDING OPEN; LIBRARY ANNEX STARTED

There's a feel of building activity on the BC campus these days with a flurry of activity under way that will almost double the size of the campus library and the arts building. The crescent of the Campus Quad will be the key entry for the next 20 years, according to Robert Hindman, BC's director of planning and development. The arts building will house the School of Music and the School of Fine and Applied Arts. The library annex will be a major addition to the present library, which will be expanded to accommodate the new building. The new buildings will be ready for use by the fall of 1976.

Faculty summer activities reveal wide interests

Dickerson Hall to open in fall

Dickerson Hall, a new dormitory for male students, will open in the fall. The hall will house 400 students and will have a capacity of 500. The hall will be located on the north side of the campus, adjacent to the new library annex.

DR. MERSON APPOINTED

Dr. Robert Merson has been appointed to the faculty of the School of Fine and Applied Arts. He will teach courses in art history and criticism.

1970 Enrollment Exceeds Past Figures

According to BC President William E. Hensley, the current 1970 enrollment exceeds past figures. The total enrollment is expected to reach 3,000 students. The high enrollment is due to the increasing popularity of the arts program and the growing number of students from other states.

Comedy of Errors

"Comedy of Errors," the first campus production of the fall season, was opened in the renovated Dickerson Hall. The play, which is a series of short scenes, was directed by John Kiefer, a junior in the School of Fine and Applied Arts. The play features a cast of ten students, and the production will run for four nights. The play will be performed at 8 p.m. each night.

1970 Football Schedule

The football schedule for 1970 includes games against California State University, Fullerton, and UCLA. The team will also play two exhibition games against the University of California, Los Angeles, and the University of Southern California. The games will be held on the BC campus, and admission is free for BC students.

BC Instructor Takes Part in Exchange Program

Brenda Shriver, a BC instructor in the School of Fine and Applied Arts, is taking part in an exchange program with the University of California, Los Angeles. She will be studying painting techniques at UCLA for two weeks.

Your ASB card-a valuable asset

Your ASB card is a valuable asset because it provides you with access to many benefits, such as discounts on meals and textbooks, as well as free admission to campus events. It is important to keep your card in good condition and to report any loss or theft immediately.

On behalf of the Associated Student Body of Bakersfield College, I would like to welcome you to our institution of higher education.

Students at Bakersfield College are expected to show a level of responsibility and commitment to their studies. The ASB is committed to providing a supportive and safe environment for all students.

Thank you for choosing to be a part of the BC community. We look forward to seeing you on campus soon.

Sincerely,

ASB President

MARY A. STEELE

This is my first editorial in effect of the Personnel Rip.

The Personnel Rip which evolved into The Personnel Rip was a daily newspaper published in the fall of 1971. At that time, the newspaper had a circulation of around 300 copies, and it was distributed to all students, faculty, and staff.

The purpose of the newspaper was to provide a platform for students to express their opinions and concerns. It was open to all students, and they could submit articles, editorials, and letters to the editor.

One of the most controversial issues covered in The Personnel Rip was the question of whether or not to include a political affiliation in the newspaper. This debate was sparked by a letter to the editor by a student who argued that including political affiliation would limit the newspaper's ability to present a wide range of views.

The Personnel Rip was known for itsriotous and provocative content. It often featured articles critical of the university administration and the local community.

The Personnel Rip was discontinued in 1972 due to financial difficulties and a lack of student interest. Since then, there have been several attempts to revive the newspaper, but it has never been successful.

RIP OFF

FRANKLY SPEAKING

by Joe Franks

Last Friday's performance at the Homecoming football game was a beautiful sight to behold. The team was wearing their new uniforms, which were designed by a local fashion designer. The uniforms were a combination of black and gold, with intricate patterns and logos.

The game itself was a thrilling experience. The team played with great intensity and determination, and they were able to overcome several obstacles to secure a hard-fought victory.

I must admit that I was a bit apprehensive before the game, but I was quickly put at ease by the energy and enthusiasm of the crowd. It was clear that the students and faculty were truly invested in the success of the team.

As a student, I feel that it is important to support our athletic teams and to exhibit a sense of pride and enthusiasm. This game was a great example of how our community can come together to celebrate a shared passion.

Talent Gal

Cindy Robinson

Cindy Robinson, a talented graduate student, has been selected as this year's recipient of the Talent Gal award. This award is given to the student who demonstrates exceptional talent and dedication in their studies.

Cindy is an exceptional student, and she has consistently excelled in her coursework. She is also an active member of several student organizations and has volunteered extensively in the community.

I had the pleasure of meeting Cindy during her graduate studies, and I was impressed by her passion and commitment to her work. I am confident that she will continue to make a positive impact in her field.

Free Advice

UCR Educator

Schools Are Failing

Free Advice

Dear Parent,

I am writing to you today to express my concern about the state of our public schools. Over the past few years, we have seen a decline in the quality of education that our children are receiving. This is a serious problem that requires immediate attention.

One of the most pressing issues facing our schools is the shortage of qualified teachers. Many schools are struggling to attract and retain experienced educators, which is leading to a decrease in the overall quality of instruction.

In addition, our schools are facing significant budget cuts, which are forcing them to make difficult decisions about the programs and services they provide. This is putting our children at a disadvantage and limiting their opportunities for success.

I urge you to become involved in the education of your children. This is not just a matter of personal pride, but it is a responsibility that we all share as members of the community.

Sincerely,

[Your Name]
RENEGADE GRIDDERS FACE COMING OF THE 'DON'

FRANCOIS LISS

Behind the A Mike

The grand old sport of football is in a state high with
mishandling in the line and a fast tempo when.

Don't miss the opening game with a rush of
touchdowns, and don't miss it.

The Renegades have had their ups and downs,
but they're back on the field for the 1970 season.

This year's team is expected to be a strong one,
with several returning players.

Students disappointed by post-game altercation

Athletic Coup

By Dan Hallock

After the loss to the San Luis Obispo Vaqueros, it seems fitting to address the topic of sportsmanship. This loss has left a sour taste in the mouths of many Radicals, and it is important to remember that sportsmanship is just as crucial as the outcome of the game. It is disappointing to see members of the student body engage in unsportsmanlike conduct, which reflects poorly on our school. Let us all work towards maintaining a positive and respectful environment.

EXCHANGE EDITOR COMMENTS

Writer Refutes Truly Concerned

Dear Editor,

I read the letter from Truly Concerned and feel compelled to respond. As an advocate for free speech and equality, I strongly believe in the importance of open discussion and the right to express differing opinions. The letter mentions the need for tolerance, but it is important to remember that this does not mean we have to agree with everything said. Our differences should be respected and discussed in a constructive manner, but not silenced.

Frankly Speaking

by Phil Frank

"Wow! I just discovered the secret to longevity - I only eat the last piece of pizza!"
**RENEGADES IN PASADENA PREVIEW**

BY JAY ERICKSON

"We got to run the same play on the first two downs, and that's what we did," said Coach Bob Dodge. "We've been working on that for a long time."

The Gaels were 2-1 in the conference, and they knew they needed to play a tight game to keep their hopes alive for a conference title. They were in the thick of the race, and every win counted.

The first quarter saw the Gaels take a 7-0 lead, but the Renegades fought back to tie the game at halftime, 14-14. In the second half, the Renegades took control, scoring three touchdowns and taking a 28-14 lead into the fourth quarter.

Despite the Gaels' efforts, the Renegades were able to hold on, winning 28-14. The victory was a huge boost for the Renegades, who now sit in second place in the conference standings.

**POLOGADES SPLIT IN MEET**

The Pologades split their dual meet with the Harriers, winning 13-12 and losing 12-13. The meet was held at the Pologades' home track.

The Pologades were led by John Smith, who set a new meet record in the 100m dash with a time of 10.2 seconds.

The Harriers were led by Emily Johnson, who set a new meet record in the 400m hurdles with a time of 58.3 seconds.

The meet was a close one, with the Pologades winning the 200m dash and the Harriers winning the 4x400m relay.

**HARRIERS FACE AR**

The Harriers face the Ridgeview Lions in their next meet, which will be held at the Ridgeview track.

The Lions are currently in second place in the conference, and the Harriers will need to perform well to keep up with them.

The Harriers' star performer will be Sarah Lee, who has set a new meet record in the 800m run with a time of 2:15.5.

**FIREY SNACKS**

The Firey Snacks are set to host their annual Chili Cook-Off this weekend. The event will feature a variety of chili dishes from local restaurants and food vendors.

The grand prize for the best chili is a trip for two to New Orleans, Louisiana, to attend the World Championship Chili Cook-off.

Forty restaurants and food vendors are expected to participate in the event, which will be held at the Firey Snacks' main location.

The event is open to the public, and admission is free. Prizes will be awarded for the best chili in several categories, including best overall, best vegetarian, and best hot chili.
