Psycho-Cybernetics

Barrios lectures next Friday

Barriers at the Community Service Learner’s Workshop will present, Fred Barros of the College, Thursday, November 21 at 2 p.m. The topic of this session will be Self-Program Control: A New Approach to Learning. There will be an introduction to the educational process, which is more positive and motivating for the student. The workshop will be held on the main campus.
How does BC stack up?

The main theme of the world is its economy. The most likely contributor to this is the great depression, which affected all of BC's industries. Many people think that BC's economy is weak because the industries are not as strong as they used to be. This is not true, however. BC has been able to adapt and grow as the world economy changes. 

I, Chauvinist??

To the Editor:

As a BC student, I feel that we are often perceived as the inferior side of the BC economy. This is due to the fact that we are not as prestigious as the other BCs. However, I believe that we are just as good as the other BCs. We have a strong history and culture, and we are just as capable of succeeding as the other BCs.

Jana Johnson

That 'unfinished business' spindle

The spindle is a tool that was used in the past to create yarn. Today, it is still used in some industries to create yarn. However, it is not as common as it once was. The spindle is a simple tool that is used to create yarn. It is made up of a stand, which holds the thread in place, and a bobbin, which holds the finished yarn.

Letter to the editor

Dear Editor:

I would like to express my concern about the lack of diversity in our college's student body. I believe that our college should be more inclusive and welcoming to all students, regardless of their background.

Sincerely,

O. Richard Baker

Managing Editor

Proposition 1—What way should you deal?

On November 6, the people of California will be asked to vote on Proposition 1. This proposition is a simple yes or no question. It is important that you vote on this proposition, as it will have a significant impact on the future of California.

In the most simple terms, Proposition 1 would impose term limits on state and local officials. This means that elected officials would be limited to a certain number of terms. If they exceed this limit, they would be barred from further office.

BC Economist urges 'no' vote

In my opinion, Proposition 1 is a bad idea. The main reason is that it is a political solution. It does not address the root causes of our problems, but only治表 them. Furthermore, it is a way for politicians to gain power and control over the government.

In short, I urge everyone to vote 'no' on Proposition 1.
Applications still available for 1974-75 State Scholarships

Applications for the 1974-75 State Scholarship Program are still available at all high schools and during the administration period at the Community College Foundation, 203 E. University Avenue. The program is open to all California residents who have completed their senior year of high school and have been classified as an "income needy" student by the local Board of Education. The scholarship, amounting to $1,000, is payable to the accredited California college or university of the student's choice. Applications may be obtained at the high school office or by writing to Community College Foundation, 203 E. University Avenue, Los Angeles, CA 90001.

KBCC into third year

KA-BCC, the radio station of the Kern County Junior College, KBAK, is in its third year of operation. The station has grown in popularity and is now broadcast from a new studio on the college campus. KA-BCC's programming includes a variety of music, news, and sports, and is available on the air from 9 a.m. to 1 p.m. every weekday.

Recognition for women's sports on upswing throughout country

Recognition for women's sports on upswing throughout country

By Houghton (AS)

Women's sports have made great strides in recent years, and this trend is expected to continue in the future. The increase in popularity of women's sports can be attributed to several factors, including increased media coverage, improved facilities, and the growing number of female athletes. Women's sports have gained acceptance and recognition, and they are now on par with men's sports in terms of funding and prestige. The future looks bright for women's sports, with a growing number of female athletes competing at the highest levels of competition.

Homecoming Faire should be bigger and better than ever

By Houghton (As)

The Homecoming Faire, a popular event on the campus, is scheduled for this weekend. The Faire will feature a variety of activities, including music, food, and games. The event is a great opportunity for students to socialize and have fun. The Faire is open to the public, and admission is free. The fair will run from 1 p.m. to 6 p.m. on Saturday, and from 1 p.m. to 5 p.m. on Sunday.

Chlorine leak: Three injured

By Houghton (As)

A chlorine leak at the Kern County Junior College caused a temporary closure of the campus. Three students were injured, and were taken to the hospital for treatment. The leak occurred in the chemistry lab, and was caused by a faulty valve. The lab was immediately evacuated, and the area was sealed off to prevent further incidents. The campus was reopened after the area was cleared of any hazardous materials.

"Westworld-slick sci-fi"

By Houghton (As)

"Westworld," a slick sci-fi film, is now showing at the local theater. The film is a thrilling and exciting adventure, and is sure to please sci-fi fans. The story follows a group of explorers who are sent to the futuristic world of Westworld, where they encounter a variety of challenges. "Westworld" is a must-see film for anyone who enjoys sci-fi and adventure.

"Guess Who" to appear Nov. 8

By Houghton (As)

"Guess Who" is a popular movie that is currently being shown in theaters. The movie is a comedy that is sure to make you laugh. The story follows a group of friends who are on a road trip, and they encounter a variety of situations along the way. "Guess Who" is a must-see film for anyone who enjoys comedy and adventure.

Edmonds gives lecture

By JESSIE HOCHWALD

"Women should be ended at
the top of the food chain," said
Professor William King in his
philosophy class last week.

"Witches are by nature stupid
and evil," said King. "They are
not meant to lead, but instead
are meant to be ruled.

"Women have failed America
due to their lack of education,
" said King. "They have no
brain, no mind, no nothing.

"Women are history's
ultimate failings. They are
the ultimate mistake."

On the contrary, many
women express their opinions
and are not afraid to speak up.

"Women are not meant to
lead," said King. "They are
meant to be led."

"Women have never been
able to lead," said King. "They
are as stupid as a rock.

"Women are not meant to
be leaders," said King. "They
are meant to be followers.

"Women are not meant to
be teachers," said King.
"They are not meant to
teach others.

"Women are not meant to
be leaders," said King.
"They are meant to be
leaders.

"Women are not meant to
be leaders," said King.
"They are meant to be
followers.

Renegades duel defending Metro champs in Homecoming

By ALLEN COLMAN

The defending Metro champion PASadena Harriers will face off against the defending Metro champ BC Renegades in tonight's Homecoming game.

The Renegades have a perfect 5-0 record and are looking to continue their dominance in the Metro conference. On the other hand, the Harriers have a strong defense and will be looking to take down the Renegades.

The game is expected to be a hard-fought battle, with both teams looking to secure the Metro championship. The winner will move on to the Metro final, while the loser will have to face the toughest competition in the Metro conference.

Harriers compete in Metro final

The Harriers have been the underdogs in the Metro conference all season, but they have shown they can compete with the best of them. Tonight, they face off against the defending Metro champ BC Renegades in the Metro final.

The Harriers have a strong defense and will be looking to use it to their advantage. They have also shown that they can put up points on the board, and will be looking to do so tonight.

Pologades return to BC tank after first Metro victory

The Pologades have been a force to be reckoned with in the Metro conference this season. They won their first Metro victory last week and will be looking to keep their momentum going against the defending Metro champ BC Renegades.

The Pologades have a strong offense and will be looking to use it to their advantage. They have also shown that they can put up points on the board, and will be looking to do so tonight.

The game is expected to be a hard-fought battle, with both teams looking to secure the Metro championship. The winner will move on to the Metro final, while the loser will have to face the toughest competition in the Metro conference.

Letters to the Editor

Is Homecoming irrelevant?

Homecoming this year was the same routine while being different: the parade, football game, and other activities. The same old questions arise: why do we spend so much money on Homecoming? Who benefits and who does not? And most importantly, why is Homecoming so important?

Many people feel that homecoming is a tradition that should continue because it is a great event. However, others feel that it is a waste of money and time. Some people believe that there are better ways to spend the money that is allocated to Homecoming.

Barber vs. the long haired

Mr. Thomas McBride, the secretary of the county's black council in Chicago, has told the school board that he plans to file a complaint against the school because of the long hair policy. McBride said that the policy is unfair and discriminatory.

Arabs hold destiny of world industries

As the Arab oil embargo continues, the world is becoming increasingly dependent on Arab oil. The Arab nations have used their oil as a weapon against the West, and this has had a profound impact on the global economy.

Philippine club debuts
