Enrollment drop puts BC in financial trouble

By DEBRA SANDLER

Bakersfield College

Due to unforeseen circumstances, the college's enrollment has dropped significantly, leading to financial difficulties. The decrease in enrollment has resulted in a decrease in tuition revenue, which is a major source of funding for the college. The budget for the upcoming fiscal year has been significantly reduced, affecting the college's ability to provide quality education and support its programs.

The college administration is currently working on a comprehensive plan to address the financial challenges. This includes exploring options such as increasing fundraising efforts, seeking grants and scholarships, and possibly reducing administrative expenses. The college is also considering options to enhance its online and distance learning programs in order to attract more students who may not be able to attend on-campus classes.

In the meantime, the college is focusing on retaining the current students and ensuring that they have access to the resources they need to succeed. They are also reaching out to potential new students to encourage them to enroll.

The college community is proud of its commitment to providing a high-quality education to its students, and they are determined to overcome this challenging period and emerge stronger.
We want to be living in a nation of hypocritical people. We are shocked, at least when, what appears to be a true statement of a person's values is made, and of course the only credible "excuse" defense of the Warren Court.

We have set our hopes on an ideal and we don't expect much from our public officials. We especially don't expect anything involving real people. Liberals, though genuine and sincere, are expected to be ideal and straight and narrow. When Fred's seen admitted to the world of the expression of these values, thinking it red, right, but it is far far to expect perfect moral behavior from our officials when we commonly are guilty of the same "values".

The red flag of "good" is being waved in the face of all radical public officials. The idea that we could stop the violence through ideal instead of by radical means is a complete delusion. When Jack Ford admitted to have "come in on the" and that his parents had raised him to be a good citizen, he may be good to his children.

My idea of combating the actions of our officials, but rather suggest that makes the difference. The idea of taking the most things we said "hateful" in them.

Politicai Perspectives by Forest Phinney

The red flag of the 1968 Congressional District which includes the California coastal area was raised by the California State Senate.

We're happy to see the red flag continue to wave in this area. The idea of a red flag is to raise awareness of the need for political action. We're happy to see this area continues to be a focal point for political action.

We're not sure if the red flag is the answer to the problems of our society. We're not sure if the red flag is the answer to the problems of our society.

Lancers next BC tilt

By Bob Young

Lancers head to BC in search of revenge

The Lancers will have revenge on their minds when they face the BC Lions in the next game. Last year, the BC Lions defeated the Lancers in the BCAA championship game, ending the Lancers' season.

According to Lancers head coach, Mark McCallum, the team is looking for redemption.

"We were disappointed last year," said McCallum. "But we're ready to put that behind us and focus on this season."
**Political Perspectives**

**Running for the Assembly seat in the 33rd District will be independent Bill Thomas and businessmen Stephen Bagley.** The 38-year-old Bagley, who was born in Bakersfield, has two children, Chris and Amy. Before he was elected to the city council, Thomas was a political science teacher at BC and was the Republican Central Committee Chairman for Kern County.

**Politics as usual**

Many people believe the current political situation is the same as it was in the past. But if Robert Dole thinks he can use the same state capital strategy that worked in the past he will be disappointed. California has always been a "one-man state," and the governor's race is always the most important. This year's race is no exception. Each candidate is trying to outdo the other in terms of campaign spending and media exposure. The candidates are trying to appeal to the most voters and win the election. The outcome of this race will determine the future of the state and its residents.

**ART OF ECUADOR**

The We and our Society show, "Art of Ecuador," will be held through Nov. 18 in the main gallery of the Bakersfield oil museum. An exhibit of Ecuadorian art will be included in the show, which will be accompanied by a series of lectures and demonstrations by local Ecuadorian artists.

**STANDARD FIRST AID**

A class on first aid begins Tuesday, 7-10 p.m., at the BC Enid Bolling Hall. The class is open to anyone who wants to learn first aid. The cost is $15 per person, which includes all supplies.

**EXHIBIT**

A new exhibit opens at the Bakersfield Oil Museum on Oct. 26, featuring works by local artists.

**FILM FESTIVAL**

The Bakersfield Film Festival will begin Oct. 26 and run through Nov. 18. The festival will feature a variety of films from around the world, including documentaries, shorts, and features.

**COOKING**

The BC Enid Bolling Hall will host a cooking class on Oct. 26, offering recipes and techniques for cooking Ecuadorian cuisine.

**CONCERT**

A concert will be held at the Bakersfield Oil Museum on Oct. 26, featuring local musicians.

**SPORTS**

A local soccer team will play an exhibition match at the Bakersfield Oil Museum on Oct. 26.

**Fresno hands BC last second loss**

By Bob Young

The Sports Desk

Last second victory by the Fresno City College Rams, as a roller-coaster season continued at Garage 6.

Pointed to in as the closest thing to a thriller among the local competition, the Colleges of Chico, Chico State and Butte all were included in the mix of involvement. But, no, the scissors shouldn't come out just yet, but the chances of a last-minute goal are just that much stronger as the Rams take down Butte.

**Renegades**

**vs. Rams**

**Score:** 40-0

**Date:** 9-24-76

**Stadium:** Homefield

The Rams this week against the Renegades, despite winning 40-0, still have the Rams favored by 5 to 1. The BC Renegades, as well as adverse conditions, with only 55 yards gained by the Rams, are expected to have their hands full against the Rams this week. The Gavels, as well as adverse conditions, are expected to have their hands full against the Rams this week. The Rams, as well as adverse conditions, are expected to have their hands full against the Rams this week.

**Polo games**

By James M. Meadows

Rip, Sorensen

The Renegade water polo team will have plenty of work to do this week, with seven of 10 planning on water polo. Both teams are expected to have their hands full against the Rams this week. The Rams, as well as adverse conditions, are expected to have their hands full against the Rams this week.

Dear Editor:

The presumption of innocence—the right to assume that a person accused of a crime is innocent until proven guilty—is a cornerstone of our justice system. It is based on the principle that the burden of proof lies with the prosecution and that the accused should not be held guilty without evidence. This system is designed to protect individuals from the risk of wrongful conviction. In the words of former Supreme Court Justice Hugo Black, "Scarcely a greater absurdity than the American practice of holding the accused, who were innocent when arrested, to prove their innocence under penalty of conviction and to do so in the face of the State's powerful apparatus for the discovery of guilt." (Black, 1948)

In cases where the assumption of innocence might be called into question, evidence and expert testimony are crucial. In the case of the R. Collins photo, the judge's description of the evidence and process adds a layer of transparency and accountability. However, the broader implications of the R. Collins photo and the handling of the case by the police and courts raise questions about the effectiveness and fairness of law enforcement and judicial practices.

Law enforcement agencies and courts must ensure that the presumption of innocence is upheld, and that criminal cases are thoroughly and impartially investigated. The public has a right to be assured that justice is fair and that innocent persons are not wrongfully convicted. In the words of civil rights attorney Thurgood Marshall, "In our system of justice, a man is not considered guilty unless the State proves him guilty beyond a reasonable doubt. The standard of proof is far higher than the need to show guilt beyond all doubt. The question is whether the State has proved the accused guilty beyond a reasonable doubt." (Marshall, 1951)

In conclusion, the presumption of innocence is a vital principle that safeguards individuals from wrongful conviction. It is essential that law enforcement and courts uphold this principle, and that the presumption of innocence remains a cornerstone of our justice system.

Sincerely,

[Your Name]

Gades ready for Homecoming tilt

From the Sports desk

Cosell in baseball booth

By Bob Young

Baseball, in my opinion, takes a giant step backward last week when ABC TV inaugurated Howard Cosell's talent in the broadcasting booth, during play-off action. Cosell is a man about which there is no middle of the road, one either is awed by the range of words, or disparages his program. For example, he repeatedly demanded that a line drive out, should have been hit behind the runner during game two of the American League play-offs.

At press time, the Reds had captured the National League pennant, and the New York Yankees needed one more win over the Kansas City Royals to win the series. --

Whichever fleetly garners the American League title, they will have to reckon with the powerful Reds, for either team will be an uphill fight.

Belated congratulations are in order to

Volleyiers to face Merced

Coach George Biddle's Vaquero squad is in electric stride heading into a red-letter date, the end of a three-game match for BC going out west to meet a strong Merced team that will be here the week of Jan. 20-21.

LINDA WILLIAMS

Susie Fox

Women's track to debut at BC

Women's Intramural Track and Field will debut on the Bakersfield College campus this spring. Local high schools have entered participants in women's track and field for the past few years, and according to head coach Myra Coleman, many women from high schools are interested in continuing to compete in track.

The BC team will compete in 100, 200, 400, and 800 meter events, as well as sprints. The field events will be long jump, high jump, shot put, and discus.

All athletes interested in participating should meet with the coaches in South Gym on Tuesday, Jan. 18 at 3:30 p.m.
Famed pianist to play at BC

Anthony di Bartolomeo, pianist, will perform all of Beethoven’s Piano Concerto in the London Beethoven Festival. Performances will feature major albums in the major cities in the U.S. including: Chicago, San Francisco, Pittsburgh, Cleveland, Baltimore, and Philadelphia. During his sold-out tour of Australia, New Zealand, and this area, di Bartolomeo has been invited for the opening concert at the famous Sydney Opera House. He has appeared on major television and concert halls in the world.

Local arts flx clinics will be held at BC Community Center, main campus (between the cafeteria and conference center) on the following dates:

Nov. 1-6 p.m.  
Nov. 2-3:30 to 12 noon and 6 p.m.  
Nov. 3-4 to 4 p.m.  
Nov. 4-5 to 2:30 p.m.  
Nov. 6 to 12 noon and 6 p.m.

The course is free and open to the public.

Raconteur editorship applications due

Qualified, interested applicants from the 1977-1978 class are invited to apply for the following positions:

1. President  
2. Managing Editor  
3. Business Manager  
4. News Editor  
5. Features Editor

Applications are due in the Business Manager's Office at 12 noon, Monday, May 1.

Registration begins

Don't wait till the last minute! Pre-registration counseling and registration for Spring semester, 1977, will begin Monday, Oct. 31. All students planning to enroll in 12 or more units must either register at counseling center or check in through the Counseling Center, Student Services 40 before the registration period can be completed.

Students enrolled during Fall Semester, 1976 should report to the Counseling Center when they receive their cards. The Counseling Center, Room 123, will be open from 8:30 a.m. to 5:30 p.m. Monday through Friday.

All students attending during Fall Semester, 1976 should report to the Counseling Center where they will receive their cards. The Counseling Center, Room 123, will be open from 8:30 a.m. to 5:30 p.m. Monday through Friday.

Upon completion of the registration period, the Counseling Center will be open from 8:30 a.m. to 5:30 p.m. Monday through Friday.

Part time students (those receiving less than 12 units) may register directly at the Business Office, Adj. 9, to be processed.

Brown backs Schilling

GOV. JERRY BRWON, speaking in Sacramento last week, called for a campaign for legislative democratization in the quadrennial elections. Brown said that he would support a campaign for democratization in the legislature in spite of the fact that they differ along lines of Proposition 14 (Photo: Jon Woodland).

ANITA MILLER, director of the National Right to Life Committee, speaking at BC last week, said that the committee had been fighting against the ERA and had been fighting for people with disabilities.

Another question that is frequently neglected by our leaders is how to deal with discrimination. According to Miller, the ERA will have no effect on discrimination at the present time since there are so few cases.
A plea for the nation's future

This is written with one thought in mind. How to best get across to you, the public, the vital necessity of standing by the administration. I have discussed this matter with many people individually. I have yelled, and even gone so far as peeping over the shoulders of those who were not looking at the issue, and I, like others, have used a little practical reasoning so as to win them over.

In many countries the right to vote would be very cherished. But it is not so here. To reap the benefits of democracy, we must stand by the administration. Because of officers, employment, President and whatever. President Kennedy is essentially a fellow citizen, and as such, he is not just an official, but a fellow citizen. But the administration is not the only one. There are also the heads of the various departments, who are the heads of the various departments. And they are the heads of the various departments.

In order to present another offer of the administration of the various offices, and to avoid the creation of the various offices, the administration should not rely on the power of the offices, but should rely on the power of the people. For example, the administration should not rely on the power of the police, but should rely on the power of the people. The administration should rely on the power of the people.

Deficit spending needed to improve economy

by Dean Close

There is the school of thought which holds that only federal government can do anything right, and that it is absolutely essential to avoid inflation. If the government is not spending enough money, they say, "Anflation is not a problem, it's an eperimental braas!ch! In the Bank is not full of the "American needs," had to be solved, so that in order to the American (Kem 600) and his family to to that they are downtown downtown in their own webala."

As a wise man once said, ""Ammalnrt is an inanaa. Are you a political scientist, or are you a student of government?"" But I am not going to try to live up to their personal record of poor attendance or success in the community banking.

We have been studying the subject of federal government spending for quite some time now. We are not going to go into the details here, but I will say that in my view, the government is spending too much money. However, there is no way I can divide the government by itself because the government is not spending enough money.

There are numerous forms of federal investments of deficit spending which would, in the long term, end up helping the economy. We can see such a system as a way to diversify the economy and make it more efficient. We can also see it as a way to diversify the economy and make it more efficient.

However, we have to be careful not to confuse federal spending with deficit spending. Federal spending is a different matter. It is not a matter of whether the government is spending too much money, but whether the government is spending too much money. It is not a matter of whether the government is spending too much money, but whether the government is spending too much money.
Country animal scene studied by SPCA

By DIANE MARIE CROSS

The center is located at B11, and the hours are 9 a.m. to 5 p.m., Monday, Tuesday, Thursday and Friday, Wednesday the center is open from 8 a.m. to 9 p.m. of the week.

I think this is indicative of the future," said Nancy Pence of the new center's director, "and what this means is that there will be more and more people who are interested in learning about their pets."

The center has the ability to provide educational programs on computer sciences, and with pets already being part of many households, it's becoming possible for even small businesses to have their own computers for billing, accounting, and research purposes.

The young person who has an interest in learning about computer operations could have a definite advantage in finding a job.

Several data processing, computer science, and math classes currently are using the center's equipment, including the Business Oriented Language (BOL), a computer language that can be used to create and test programs. In addition, the center is available to students who want to study in the computer sciences. Some students have put these programs to good use, including Steve and Mike, who are working on developing software for a local business.

SPCA's educational programs include animal care, computer hardware, and arithmetic. The center also offers classes in DECAL (Dedicated Educational Computing and Administrative Linkage), a computer language that can be used to create and test programs. In addition, the center is available to students who want to study in the computer sciences. Some students have put these programs to good use, including Steve and Mike, who are working on developing software for a local business.

Around the world, computer sciences are becoming more and more important in everyday life. With the increasing popularity of personal computers, it's becoming easier for people to learn about computer programming and design. At the same time, the demand for skilled computer professionals is growing, creating opportunities for those who want to pursue careers in this field.

The SPCA's educational programs are designed to help people develop the skills they need to succeed in the computer sciences. Whether you're just starting out or you're looking to advance your career, the SPCA can provide the education and training you need to reach your goals.

In addition to providing educational programs, the SPCA also offers computer assistance and advice. If you have a question or problem with your computer, the SPCA's staff can help you find the solution. Whether you're looking for information on a specific program or you're having trouble with a particular piece of hardware, the SPCA can provide the guidance you need.

The SPCA's educational programs and computer assistance are designed to help people of all ages and backgrounds. Whether you're a student, a business owner, or a computer enthusiast, the SPCA can provide the resources you need to succeed in the computer sciences.
Third ranked Renegades to tackle Long Beach...

By ROB YOUNG
Rip Sports Editor

Gerry Collins and his Bakersfield College Renegades meet the Long Beach City College Vikings in tonight's homecoming classic for game number 37 between the two bachelors.

. The Renegades, combining tough defensive line play and depth in the offensive positions, put up a 6-1 record on the line against a staunch LBCC team, who last week was dealt its first conference setback by the Warriors of El Camino.

Either Steve Denman or Tony Stokes will get the starting quarterback and from Collins tonight, both having relatively good nights last week against the Golden West Rustlers. Denman completed 5 of 11 passes in the contest for 72 yards, while Stokes added 50 yards by completing 3 of 6. Prior to the Rustler contest, Stokes was introduced to the 18,892 Gade fanatics as the starting quarterback, but on the first play of the contest he was Denman, leading the bachelors.

Mike Kelley, who was the hero in offensive backfield last week, is a sophomore quarterback, and his first conference start was against LBCC at Delano High School.

The Renegade defensive front seven is led by the Jockey Club athletes of the month Rod Pearson, Mike Georgino, Mike Kelley, a sophomore White quarterback, Mike Georgino, a sophomore from Garces; and John Chavez of Burroughs, a sophomore from Garces.

Rip Sports reporter Gary Blackford, raised a question last week if the Gades defense was ready for action against the Vikings.

The Renegades defensive front seven was listed as the leading ground gainers sustaining an injury last week in the Cardinal contest, and may not participate in the Gades-Viking clash. After the second year runningback Andy Gray is listed as doubtful.

In the Gade-Rustler game last week in which the Gades manhandled the GWC offense, it proved to be the Rustlers tendency to cough up the ball and Collins' golden ability to capitalize which led to the 26-0 score following the third period. 68% reflexes of the statistics, especially those in the aerial department.

In Homecoming classic

The defensive line is the starting linebacker, after being introduced to the 18,892 Gade Coach Kelley, a sophomore.

The three top offensive performers in tonight's homecoming contest to Steve Denman, Denman, as well Tony Stokes, should see plenty of action against the Rustlers. (Photo: Jim Haddow)

ONE OF TWO top quarterbacks rating for the Uchicago quarterback position in tonight's homecoming contest is Steve Denman. Denman, as well Tony Stokes, should see plenty of action against the Vikings. (Photo: Jim Haddow)
WHORDEFULDEAUFUL Dazzle Crowd oatwork

BY JAMES E. MEADOWS

When many people think of a radio show, they think of a plastic imitation personality satellite delivered by a space probe. This does not hold true for Billy Manders. Billy Manders, who fills the role of announcer, will be heard next Sunday from 7 to 9 on KSL. The annual AM radio show, "I Can't Wait to Get on the air!" will feature the personality of Billy Manders.

As the host of the show, Billy Manders will have the opportunity to present a wide variety of music and entertainment. The show will feature music from various genres, including rock, country, and jazz. Billy Manders will also have the opportunity to interview special guests, such as musicians, athletes, and other entertainers.

The show will be broadcast live from the campus of Long Beach City College, allowing viewers to experience the show as if they were there in person. The show will be sponsored by the college's student radio station, KSL, which is known for its commitment to diversity and inclusivity.

Billy Manders has been involved in the radio industry for many years. He has hosted various radio shows, including "I Can't Wait to Get on the air!", which has been running for over 10 years. He has also worked as a radio producer, writer, and reporter.

Billy Manders is a native of Long Beach and has a deep love for the city's music and culture. He is a graduate of Long Beach City College, where he earned a degree in broadcasting. He has been a member of KSL's staff for over 10 years and is a valued member of the Long Beach community.

"I Can't Wait to Get on the air!" is a show that brings the local music scene to the ears of listeners throughout the Long Beach area. The show features a variety of music, including local bands and artists, and provides a platform for up-and-coming talent to be heard.

The show will be broadcast from 7 to 9 on Sunday, April 15th, at the Long Beach City College, and will be available for streaming online. To listen, visit the KSL website at www.kslradio.com.

For more information, contact Billy Manders at (562) 496-4275 or billymanders@kslradio.com.

Veteran Coach Collins becoming local legend

By STEVE DONOUE
Big Sports Writer
Govy Collins, chief engineer of the "Big Red" football machine, is on top of the world.

Adhering to that dependable old ballad refrain, "Bakersfield is the best football town in America. BC is the best college in America, and the color is the outfit in the country."

Collins, who is from McGill, Nevada, where he attended high school, accepted a scholarship to play baseball and football at the University of Denver. He appreciated the scholarship, because he was a need baby, putting up college.

Upon graduation from college he signed a contract with the professional baseball team, the New York Yankees farm system. After four years of cooperation, Collins entered the army where he served for two years. He then came to Bakersfield and assumed the roles of baseball coach and assistant football coach.

A native of Bakersfield, coach Collins was the all-time Most Valuable Player in the Eastern Pleasure Drive. The Bakersfield Optimist Club voted Coach Collins its Valhalla Man of the Year. The Mariner Club honored Coach Collins with its Most Valuable Player Award.

The Bi-Centennial Club of Bakersfield honored Coach Collins. Coach Collins was named to the Bakersfield Stars Hall of Fame.

Recently, Coach Collins was elected to the Hall of Fame for the Southern California Baseball League.
