National cemetery closes

By DON BOWNE

STAFF WRITER

The Los Angeles County Cemetery Board will be closing the National Cemetery in Fullerton, effective April 7

The board of supervisors has been requested by county officials to proceed with the closure of the cemetery. What little ground is left is to be sold for the formation of a new cemetery.

What also makes the picture look nice is Mr. John Chadbourne, director of instruction, says, “If we are going to be successful in spring enrollment, we are going to have to offer more courses, and if a comparison between this year and last year is made, we stand 10 percent above. Chadbourne is pleased to point out that spring enrollment is up 10 percent since he came here. It is a big surprise to us.”

Assuming McCall’s classes challenging

By ELLEN SCHWARTZ
Staff Writer

The end of last "学期" was also the beginning of a new one. As students prepare for the return of school, some of them are excited, others are nervous, and a few are just plain dreading the beginning of another school year. The McCall Foundation has set aside funds for students who have been internationally recognized for achieving their goals.

"I'm excited," said one student. "I'm excited to see what the new year will bring. I'm looking forward to meeting new people and making new friends." Another student said, "I'm excited to see what the new year will bring. I'm looking forward to meeting new people and making new friends."

"I'm nervous," said another student. "I'm nervous about the new year. I'm not sure what to expect. I'm not sure what will happen."

"I'm dreading the beginning of another school year," said a third student. "I'm dreading the thought of getting up early in the morning. I'm dreading the thought of being in a classroom for eight hours a day."

Regardless of how students feel, one thing is certain: the beginning of a new school year brings with it a sense of anticipation and excitement for some, while others feel anxious and dreading the start of a new year. The McCall Foundation has set aside funds for students who have been internationally recognized for achieving their goals.

Band plans St. Patrick’s Day formal dance

The Junior Dance Student Council plans a formal dance for March 17, at 8 p.m. The dance will be held at the school gym. The dance is open to all students and will feature a variety of music, including rock, pop, and country. Attendees will be able to enjoy food and drinks while dancing the night away.

"We’re excited to have this event," said one student. "It’s a great opportunity to have fun and meet new people."

Another student added, "I’m excited to see what the dance will be like. I’m excited to see what the music will be like."

"I’m dreading the thought of having to dance," said another student. "I’m dreading the thought of wearing a formal dress."

Despite the mixed feelings, the dance is set to be a fun and memorable event for all attendees. The Junior Dance Student Council has organized the event to ensure a fun and enjoyable evening for everyone in attendance.

PACT play ‘Getting On’ opens

By ELLEN SCHWARTZ
Staff Writer

The PACT play ‘Getting On’, directed by Mr. Goodwin, opens this week. The play is a modern take on the classic play ‘Getting On’, with a twist. The play features a cast of characters who are dealing with the pressures of modern life, including work, relationships, and personal challenges.

"I’m excited to see the play," said one student. "I’m excited to see how the cast will bring the play to life."

Another student added, "I’m excited to see how the play will be different from the original."

"I’m dreading the thought of having to watch the play," said another student. "I’m dreading the thought of being in a classroom for two hours."

Despite the mixed feelings, the play is set to be a hit with the audience. The PACT play ‘Getting On’ opens this week, and tickets are available for purchase at the school box office.

Child Protective Services offer counseling, training

By ELLEN SCHWARTZ
Staff Writer

Child Protective Services (CPS) is offering counseling and training for those interested in working with children who may be at risk. The program is designed to provide training for those who wish to work with children, including training on how to identify and respond to signs of abuse and neglect.

"We’re excited to offer this program," said Mr. Goodwin. "We’re excited to offer this program to help those who wish to work with children."

Another student added, "I’m excited to see how the program will be different from the original."

"I’m dreading the thought of having to work with children," said another student. "I’m dreading the thought of being in a classroom for two hours."

Despite the mixed feelings, the program is set to be a valuable resource for those interested in working with children. Child Protective Services (CPS) is offering counseling and training for those interested in working with children who may be at risk. The program is designed to provide training for those who wish to work with children, including training on how to identify and respond to signs of abuse and neglect.
**Superior Court prohibits burial site occupation**

A 22-year-old earning his way through the University of the Pacific by working at the library and doing a part-time job at the Sacramento State College, if you don't have a spare moment, you might want to consider the case of 22-year-old R.P. (no last name), a student at the University of the Pacific. He was arrested last week for possessing a gun and a facial appearance that is clearly that of a Native American. The university's president, Dr. John Smith, has expressed his concern over the incident and has called for a review of the university's policies on student conduct.

After hearing testimony from witnesses and reviewing evidence, the court ruled that R.P. was not a threat to the community and that his presence on campus would not cause harm to others. The judge also stated that R.P. has the right to pursue his education and that he should not be excluded from the university's campus.

The university has announced that it will continue to monitor R.P.'s behavior and that if he engages in any further incidents, he will be subject to disciplinary action.

**Homosexuality threatens children, society, and morality**

Two bills addressing the definition of "homosexual" are pending in the California legislature. One bill, sponsored by Assemblyman John Doe, defines homosexuality as a "deviant, abnormal, or sick sexual practice." The other bill, sponsored by Assemblywoman Jane Doe, defines homosexuality as a "normative sexual practice."

Both bills are being sponsored by the California Pro-Life Coalition, which has been active in the state for several years. The coalition is seeking to curb funding for Planned Parenthood and has been successful in passing anti-abortion legislation in the state.

According to the coalition, the number of homosexuals in the state is increasing, and this is a concern to all Californians. The coalition believes that homosexuality is a disease that needs to be cured, and they have proposed a bill to create a state agency to address this issue.

The bills have faced opposition from many groups, including the American Civil Liberties Union and the Human Rights Campaign. These groups argue that the bills are unconstitutional and that they violate the rights of homosexuals to live their lives as they choose.

**Gades finish 18-12 season on sour note with Pierce loss**

The Gades finished their season with a 18-12 record, but they were unable to win their final game of the season due to the loss of star player Pierce. Pierce had been a key player for the Gades throughout the season and was expected to lead them to victory in their final game.

However, the Gades were not able to overcome the loss of Pierce and were defeated by their opponents in their final game of the season. Although the Gades had a good season overall, they were disappointed with their final loss.

**World Class sprinter, Illerson brings quick dash times to BC**

World Class sprinter, Illerson brings quick dash times to BC. Illerson's speed and agility have made him a top contender in the world of sprinting. His quick dash times have won him many medals and helped him to establish himself as one of the top athletes in the world.

Illerson's quick dash times have not only brought him success on the track, but they have also helped him to improve his performance in other sports. His quick dash times have allowed him to be more effective in his role as a midfielder for the BC soccer team, and his speed has helped him to be a valuable asset to the team.

**Women welcome El Camino Tuesday**

Women's welcome El Camino Tuesday. El Camino has announced that it will host a special event for women on Tuesday evening. The event will be an opportunity for women to meet and connect with one another, and it will be held in the El Camino community center.

El Camino is committed to promoting gender equality and women's rights, and this event is a part of its ongoing efforts to support women in the community.

**Endnotes**

1. The university's president, Dr. John Smith, has expressed his concern over the incident and has called for a review of the university's policies on student conduct.
2. The bills have faced opposition from many groups, including the American Civil Liberties Union and the Human Rights Campaign.
3. Illerson's quick dash times have allowed him to be more effective in his role as a midfielder for the BC soccer team, and his speed has helped him to be a valuable asset to the team.
New magazine hopes to establish Valley into distinct literary region

By BOB MYERS

Phoebe Smith, the new editor of the new literary magazine, will be the first to tell you that the San Joaquin Valley is a rich and diverse region. With the publication of the first issue of the magazine, "Valley Ties," there is a new voice in the literary world for the Valley.

"Valley Ties" is a new literary magazine that will be published quarterly. The magazine is dedicated to highlighting the diverse voices of the San Joaquin Valley. The magazine features a mix of prose, poetry, and art, and is aimed at both local and national audiences.

"Valley Ties" is published by the San Joaquin Valley Literary Council, a non-profit organization that is dedicated to promoting and supporting the arts in the Valley.

The debut issue of "Valley Ties" features work by local authors such as John Smith, Mary Jones, and Richard Brown. The magazine is available for purchase online or at local bookstores.

"Valley Ties" is a testament to the rich literary tradition of the San Joaquin Valley. With the publication of each issue, the magazine aims to continue to bring the diverse voices of the Valley to a wider audience.

Three placement testing dates set

John Means beats City Hall; captures fifth ward council seat

By DAVID REEVES

Magazine editor and five-time winning candidate for the Fifth Ward City Council, John Means, won the election on Tuesday, capturing his fifth term in office.

"I'm thrilled to be back in office," Means said after winning the election. "Thank you to all of my supporters who believed in me and my vision for the Fifth Ward.

"Together, we can make the Fifth Ward a better place to live," Means added. "I look forward to working with my fellow council members to address the needs of our community.

In other news, Lou West, a long-time community leader, was re-elected to serve another term as the president of the San Joaquin Valley Writers' Guild.

The Essential City Commissioner, John Means, BC, is at the forefront of the city's ongoing efforts to improve public safety and reduce crime.

End of era--Fox Theatre closing after 49 'majestic' years

By MARK EDEN

The Fox Theatre has been a cornerstone of downtown Stockton for over 100 years. The theatre, built in 1911, is one of the oldest and most historic theaters in the United States.

The building has been a cultural hub for the city, hosting everything from movie premieres to live performances. It was the center of community life for many years, with its ornate design and grandeur.

But after 49 years of operation, the Fox Theatre will be closing its doors for good.

"It's been an honor to serve the community for so long," said Theatre Manager, Mark Smith. "We're excited to see what the future holds for the building.

The closure of the Fox Theatre marks the end of an era for Stockton. The building has been a symbol of the city's rich cultural heritage.

But with change comes opportunity. The city is exploring options for the future use of the building, including potential for a new use as a conference center or performance venue.

The Fox Theatre closing is a reminder of how quickly things can change. It's a sobering thought that such a beloved institution could come to an end, but it's also a reminder of the importance of preserving our cultural history.

And so, as the Fox Theatre says goodbye, we look forward to seeing what the future holds for this iconic building.

Collins says 'car issue something I will take responsibility for'

By DOROTHY DAWSON

"We are the umbrella, the confederation of the City University College of New York, the City University of New York and the City College of New York," Chuck Collins said, referring to the students who are preparing to strike on Wednesday, April 21.

Collins, a social justice activist and author, spoke at the Press Conference on the steps of the City University Center in New York City.

"We are the largest institution in the United States," Collins said. "We are the backbone of the university system, and we are the lifeblood of the university system."

Collins went on to say that the strike is about more than just tuition and fees. It is about the power of the students to make change.

"The strike is about the power of the students to make change," Collins said. "It is about the power of the students to hold the university accountable for their actions."

Collins ended his speech by encouraging the students to continue fighting for their rights.

"I encourage you to continue to fight for your rights," Collins said. "I encourage you to continue to fight for a better education system for all students."

Dance charges end civil case still pending

By DOROTHY DAWSON

A judge has dismissed a lawsuit filed by a New York City police officer who was charged with assault and battery in a dance case.

The case was filed by Officer Joseph V. Kane, who was charged with assault and battery in a dance case in 2017. Kane was accused of using excessive force when he arrested a suspect.

A grand jury had indicted Kane on charges of assault and battery, but the case was dismissed in 2018.

The lawsuit was filed by Kane's former partner, Officer James M. Boland, who was also charged in the case.

"I am glad that the judge has dismissed the lawsuit," Kane said. "I am glad that justice has been served."
We should work toward peace in our earthly "Global Village".

With the invasion of Vietnam by the Red Chinese, the computer greeting of Sacramento's "Dr. Strangelove," and the popularity of Hal Ladd's rugged and mellow voice singing "Song of Old Kern," it seems the world has entered a new apocalyptic era.

Sister City's Japanese student

By CAROL JENSEN

If there have been any problems with the Japanese students, Sister City has had none of them.

There are 14 students at Bishop's High School this term through the Sister City Program and the Bishop's-Okayama High School. Only one of these students will spend the year with a host family; the rest will live in a group home attached to the school.

Junior High and High School Board President Deanna Miller mentioned that the Japanese students have been a huge success. "They're been very social and they get along extremely well with everyone," she said.

The group had several events planned while they were here, including a formal lunch where the students met some of the Bishop's students and staff. "We had a lot of fun," Miller said. "The Japanese students were very attentive and we enjoyed spending time with them."
Financial Aids: ‘Stack of applications left’

Students receive over one million through 1977-78 aid programs

By ROSEANNA SANDERS

Over 1900 BC students received $9.4 million in financial aid during the 1977-78 school year.

According to Milliken, there are two types of assistance programs available to students: Federal and state aids. The federal aid programs which are administered by the U.S. government and state aid programs which are administered by the state government.

The student loan programs are reused by the national and state governments to help students meet the costs of attendance.

The Aetna Education Foundation, a private foundation, is the biggest one, Milliken said. The foundation gives awards in the amounts of three, five, or seven thousand dollars to students who are attending four-year institutions.

The St. John’s College student loan program is also a major one, according to the BC Office of Financial Aid.

The Office of Financial Aid estimates that there are approximately 60,000 students who are attending four-year institutions.

The federal government provides aid in the form of grants, loans, and work-study programs. Students must be enrolled in a degree program to be eligible for federal aid.

The state government provides aid in the form of grants and loans. Students must be enrolled in a degree program to be eligible for state aid.

Enrollment increase in Continuing Education

In the spring semester, 1977, the number of students in Continuing Education programs was down 23 percent from the spring semester, 1976.

The increasing number of students in the summer semester, 1977, will make up for the decrease in the spring semester.

The increase in the number of students in the summer semester, 1977, will make up for the decrease in the spring semester.

Simón ‘Prisoner’ going insane; and world too

A newspaper article written by John E. Smith, Jr., for the New York Times, discusses the current situation in Latin America.

The article states that the situation in Latin America is very tense, with many countries in danger of civil war.

The article also states that the situation in Latin America is very tense, with many countries in danger of civil war.

Retirement survey workshops scheduled

Several groups offer workshops to help people prepare for retirement.

The workshops are offered by the American Association of Retired Persons, the American Legion, and the American Legion Auxiliary.

The workshops cover topics such as Social Security, retirement planning, and estate planning.

Midnight shows feature variety of bizarre 'cult' films and satires

By OCHIO GODDELL

“Midnight” is one of the most exciting movies I have ever seen. It is a dark, disturbing, and thought-provoking film that explores the darker aspects of human nature. The characters are complex and flawed, and the story is told through a series of flashbacks and flash forwards, which add to the overall sense of unease and mystery.

The film’s music is haunting and eerie, perfectly complementing the visuals. The cinematography is also stunning, with many striking images that linger in the mind long after the credits have rolled.

Despite its dark subject matter, I found the film to be surprisingly moving and emotionally resonant. It is a film that stays with you long after it is over, and I would highly recommend it to anyone interested in art cinema or film noir.

CFT head to speak

The Barrelhead of the Culinary Federation of Students, Randi Hedrick, addressed students last Monday night at a meeting in the Student Center. The meeting was held to discuss various issues facing students and to promote unity among the group.

Hedrick spoke about the importance of collaboration and teamwork, and how these qualities can help students achieve their goals. She also emphasized the need for students to be proactive in addressing issues that affect them, and to work together to find solutions.

Diving -- strength, grace, versatility

McAbee unbeatenn in competition

By BARRABA HASTON
Staff Writer

"You don't always have to be tall and thin to become a good diver," says Bill Finch, diving coach.

And to prove that statement, Gary McAbee, a 5'9" senior, has unseated an in many in eight dual meets.

Tennis members remain confident

By STEVE FERTUBAL
Staff Writer

the second round of Metro Conference tennis action just passed, both the men's and women's teams remain confident. Despite sharing a 5-4 Metro action last Friday, playing Pierce last Tuesday, this year, the top team in the conference's tennis members say they feel positively about their ability to handle the other teams.

Leading the women's team, playing in the number one seed position, Linda Crawford, a student from California, has won every weekend. Coming from Bellevue, Hugo: Nunes, another of the number one seed, competing "as a team out of a slump. Now she is a potential player," adds Finch.

The men's team is led by Matthews Beale, a student from Oregon, but he is a qualifier with inconsistent problems.

As a coach, Finch emphasizes that he feels pretty good about the men's team.

Both coach Percy Newcomb and coach Gayton Lewis feel lack of competition play a major role in their team's success. The coach's playing style makes him a good doubles player.

McAbee is unbeaten in competition

"All the team's experienced," Finch explains.

"He's a good player, Finch adds. "We've had a lot of depth, and he is the one player to go after in the second seed."

Beale lined out in the number one position in a defeat of a challenge match.

Coach Gayton Lewis explains Beale is very competitive and the men's aggression, with style in a suddenly hard to anticipate.

The fifth seed in the only on the leaderboard on the team. Joe Jones is a former Valley champ from Bakersfield High School. He feels the team is coming out of a slump and probably adds a "new spark eight players will be qualifying for many championships."

As to be the future coach Finch explains McAbee is a senior in the class of 1980. "I think he was a good player, Finch adds. "He has good vision, judgment, and he is easy to work with."

The confidence seemed to flow in McAbee as he became more skilled at the difficult dive on the door move board which is the high dive board. Although all of his wet were from using the one more board, which is the low dive board.

McAbee, a senior at Bakersfield College, be pne for the next four years and the tough back. Coach Lewis feels John has got good potential but tends to miss shots.

"You don't always play for fun. Playing a match is not the same as play for fun," says Finch. "The confidence seemed to fall into place."

"I am not sure I was scared in dual meets and I find it is due to the extra pressure I had," explains Finch. The AAF coach Larry Everingham worked with McAbee in Venice but how to work with his weight and the difficult dives. By the time he reached BC, McAbee was shifted in many events. He competed in each competition at least two and a half rack, reverse rack, trick rack, front rack, and half rack and frame comedy with one rack which are all considered difficult dives.

"I think Larry is a bigger advantage in both lack of competition and diving experience because other schools are competing this year. But McAbee's attitude is very positive."

Both Finch and McCready believes McAbee is the "state's best player."

Every weekend has qualified by time. He is fourth for the state championships. Finch stresses, "The confidence seemed to flow in McAbee as he became more skilled at the difficult dive on the door move board which is the high dive board. Although all of his wet were from using the one more board, which is the low dive board.

McAbee, a senior at Bakersfield College, be pne for the next four years and the tough back. Coach Lewis feels John has got good potential but tends to miss shots.
