Staff Writer

The beginning of a new year finds The Renegade Rip run by Kimberly Ward, editor-in-chief; Michael Black Bull, news editor; Melissa Mauno, feature editor; Lucinda Dillon, sports editor; and Michael Black Bull, News Editor. Not pictured is Mark Ahlmeyer, Entertainment Editor.

Harkins feels ADA drop is significant

By CURT KAMMERAD
Staff Writer

Average daily enrollment of "ADA" has dropped from the 1982-1983 school year of 7,120 students to 1971-1972 school year of 6,850 students enrolled. Figure 1 and Figure 2 illustrates the reduction in ADA over a three year period. It is believed that this drop is due to an increase in salary cuts and a decrease in the number of students enrolled. The ADA drop may have been caused by the decrease in students who are enrolled in the college during the summer months. This is due to the fact that the college calendar includes a three week vacation period in the summer months. This vacation period may have caused some students to leave the college during the summer months.

CTA has 'go get 'em' attitude in negotiations

By KIMBERLY WARD
Editor-in-Chief

Preliminary negotiations are set up between the Kern Community College District (KCCD) Board of Trustees and the KCCD chapter of the California Teachers Association (CTA) regarding a proposed salary increase. CTA's current contract doesn't expire until July 1, 1988.

New dean responsive to students

By MICHELLE JOHNSON
Staff Writer

Dr. Frank Gusek left California in 1971, vowing that someday he would come back and bring a graduate of Cal State Fullerton to Bakersfield. He did and he kept his word, selecting his former student, Allen Davis, as the new Dean of Students.

Elections rescheduled

Some students who were registered to vote for the 1987-1988 student government and for the Associated Student Body (ASB) will have the opportunity to cast their ballots on March 23.

The SART/Ti-Ball

Leandro Marquondo (left), Debbie Henderson, Zane Miller and Michael Rolleri enjoy a cup of coffee at the Keck Science Center. This is a good way to start the day, according to Dr. Frank Gusek.
