Director for new transfer center to arrive Friday

By BERT BAY Staff Writer

As the beginning of the year long term as local chapter president of the California Teachers Association (CTA), Lucille Sautter feels that there is not enough representation in the organization.

"I feel that one major concern in affirmative action, Sautter says. "I have seen that it not only has not progressed, but there are some areas, such as admissions on this campus, where they have all retired, and some of them have been replaced."

"The problem isn't that there aren't qualified women in the library," Sautter said. "Some very qualified women have been replaced by younger women who are not qualified."

"The problem is the evidence, Sautter stated that she wants to think of the financial involvement in the part of the administration to keep women out of that position.

Agriculture faculty dreams come true

By ALLEN MONTES Staff Writer

When staff of a dream of agriculture instructors are students five years ago, they received the idea that a new facility located at the south end of Mountain Avenue would be opened.

In 1980, 19 students who were graduating from local high schools were able to visit the new facility and see the potential.

According to Kelly, the idea of an agricultural curriculum was started by a group of teachers at the Kern County Junior College. It was sponsored by the department of Agriculture and Environment, and it was decided that the curriculum should be developed on the Kern Community College campus.

The idea was to make the program more accessible to students who would not have been able to attend the university.

Now, the program is a reality, and the faculty is working to make it better.

Student Sautter said that the program is not many available courses of action. "One of the things we have to do is to keep them busy," she said. "If we can get them involved, then we have a chance to go to that school within four years, then we have a chance to go to that school within four years," she said.

"The idea is to give the students a chance to go to that school within four years," she said. "The program is not the only solution, but it is a step in the right direction.

Man-of-War

Boy likes action

Joe Anthony, dressed Western style, is a Man-of-War guard at the Kern County Fair. Since he is a junior, he is going to spend much time studying and enjoying the Fair.

Two students assist in capturing suspect

By MATT HILLARD Staff Writer

A 19-year-old female BC student, while getting dressed at about 3 p.m., in the BC women's locker room was stopped and started a fight with a man in the student's locker room, according to Sautter.

The incident occurred in the women's locker room, where two students were found to have been present.

According to Kelly, the program is not the only solution, but it is a step in the right direction.

"The idea is to give the students a chance to go to that school within four years," she said. "The program is not the only solution, but it is a step in the right direction.
