BC runs and hit snags

By VINCENT MIREZ

Bakersfield College baseball is a club that has a great deal of interest and promise in the BC district and with the Sport Carpenters without much help. The Renegade's will play at four of the district's big-time baseball games in April 4. The Renegade's are made for the novice in the BC district. Although there are many, many players, many players are not making the team. They are making the team and are able to make the team. They think they can make the team, and they are able to make the team. They are able to make the team.

Bakersfield College baseball is where the players hit and run during the regular season. The Renegade's in the BC district have a great deal of opportunity to make the team.

**NEWS**

**LEAK: Hole in Campus Center not chiller loop**

Continued from Page 1

Karen issued the following statement: "We received a call from the building maintenance group about a possible leak in the basement of the campus center. We investigated the area and found a hole in the ceiling. The hole was not related to the chiller loop. We believe it was the result of a small animal getting trapped in the ceiling and trying to escape. The hole was fixed immediately and the area is now safe for use." Karen added that the Campus Center will remain open for classes.

**WINTER: Administration pondering adding classes during winter break**

Continued from Page 1

The idea of adding classes during the winter break has been suggested by some faculty members as a way to increase student enrollment. The administration is currently reviewing the feasibility of this idea. Some concerns include the potential for increased costs due to the need for additional classroom space and the impact on existing faculty schedules. The administration will make a decision on this matter in the near future.

Bakersfield
mural
done by
student
By TAYLOR G. GEMBRO
magazine@bakersfieldcollege.edu

Joe Villanueva, it seems like just last	January, had the idea to do a mural in	the City College parking lot.

Villanueva, 26, is a full-time student	taking sculpture classes at Bakersfield	College.

Villanueva has been working on the mural since	the beginning of November. "I've been doing murals since the late 1980s. Most	of them were in the Bay Area," he	said. "I started getting into it at a very	young age." Villanueva said.

"I've always been interested in
mural painting," he	continued. "I started	working on murals at a very young age.

Villanueva received a call informing him	that he was accepted into the mural program - if he can get the money for	it.

"I got into Project Voyager," he	explained.

Make music, not arguments

By GABINO VEGA ROSARIO

I have music, I'm addicted to my music and I light up more than three people who are in the same room. I speak three languages while strumming a specific tune on a single guitar.

I just love to play the saxophone and enjoy the heart that I put into my music. It's a form of self-expression that is truly beautiful. I love the way music can bring people together and create a sense of community.

Music has been a part of my life since I was a young child. I started playing the saxophone when I was only six years old and have been working on my craft ever since.

Music is a powerful tool that can be used to inspire and heal. It has the ability to lift us out of our darkest moments and bring us together as a community. So let's make music, not arguments. Let's use our talents to lift each other up and make the world a better place.

Letter to the Editor

Math useful, claims teacher

Editor in chief: Gabino Vega Rosario

I'm a math teacher and I can tell you why math is useful. It's a skill that is needed in many different careers and it's something that can be learned and improved upon.

For example, if you're a doctor, you need to be able to calculate dosages and understand statistical data. If you're a business owner, you need to be able to understand financial statements and make informed decisions.

Math is also useful in everyday life. Whether you're cooking a meal or planning a trip, math helps you make decisions and understand the world around you.

So let's all appreciate the importance of math and work to improve our math skills. Let's make math an exciting and useful subject for all.

Math & science: A powerful combination

By KYLIE ARDS

I'm a math and science teacher and I can tell you why math and science are a powerful combination.

Math helps us understand the world around us. It's a tool that can be used to solve problems and make predictions. Science, on the other hand, is the study of the natural world.

When we combine math and science, we can use math to help us understand the results of scientific experiments. We can use math to make predictions about the behavior of natural systems.

For example, if you're a scientist studying the properties of a new chemical, you can use math to calculate the concentration of the chemical and make predictions about its behavior.

So let's all appreciate the power of math and science and work to improve our skills in both subjects.

Good Feedback

The Renegade Rip

I'm a math teacher and I'm proud to say that I have a lot of students who are interested in math.

I've noticed that many students are interested in math, but they don't have the time or resources to pursue it. I hope that we can find ways to help these students and make math a more accessible subject.

I also appreciate the feedback from my students. It's always helpful to hear what they have to say and how they can improve.

Thank you for reading!

Reviews

Casting and direction make good "bromance"

By KELLY ARDS

I'm a movie critic and I can tell you why "Bromance" is a great movie.

The story is about a group of friends who are trying to find their place in the world. The characters are well-developed and the plot is engaging.

The acting is top-notch and the directing is excellent. The bromance, or "male friendship," is a central theme and it's handled in a clever and realistic way.

I highly recommend "Bromance" to anyone who enjoys a good comedy. It's a fun and satisfying movie that will make you laugh and think.

Maria Bonita simply 'heaven'

By BRITAN AISSON

I'm a food critic and I can tell you why Maria Bonita is a great restaurant.

The food is delicious and the service is friendly. The atmosphere is cozy and inviting. It's a perfect place to spend an evening with friends or family.

The menu is diverse and there are many great options. I especially enjoyed the enchiladas, which were filled with tender chicken and smothered in a rich sauce.

Overall, Maria Bonita is a great restaurant that I highly recommend. It's a must-visit for anyone who loves Mexican food.

Big energy, bigger clash

By MATTHEW HUMBLE

I'm a movie critic and I can tell you why "Clash" is a great movie.

Cafeteria food leaves the health-conscious satisfied

By KELLY ARDS

I'm a nutritionist and I can tell you why cafeteria food can be healthy. It's not always easy, but it's possible.

The key is to make healthy choices. Look for dishes that are low in calories and high in nutrients. Avoid fried and processed foods, and choose fresh fruits and vegetables.

It's also important to be mindful of portion sizes. Eat slowly and savor each bite. This will help you feel satisfied and prevent overeating.

So let's all make healthy choices and enjoy the cafeteria food! It can be delicious and nutritious.

What was the Watergate scandal?

By LUCAS SCOTT

I'm a history teacher and I can tell you about the Watergate scandal. It was a political scandal that occurred in the United States in the 1970s.

The scandal began when the Nixon administration was implicated in the break-in at the Democratic National Committee headquarters in the Watergate complex. This led to a series of events that ultimately brought down the administration of President Richard Nixon.

The scandal was significant because it raised questions about the role of the government in protecting national security and the importance of political accountability. It also highlighted the importance of the rule of law and the protection of individual rights.

Classic film a winner

By KELLY ARDS

I'm a movie critic and I can tell you why "Citizen Kane" is a great movie. It's a classic film that has stood the test of time.

The story is about a wealthy newspaper magnate and his family. The characters are well-developed and the plot is engaging. The acting is top-notch and the directing is excellent.

I highly recommend "Citizen Kane" to anyone who loves a good drama. It's a classic film that will make you think and feel.

Ultra Energy Now claims to be "The Herbal Energy Booster That Works." It can be purchased at health food stores.

By KELLY ARDS

I'm a health expert and I can tell you why Ultra Energy Now is a great product.

The product is a natural energy booster that contains a blend of herbs and vitamins. It's designed to give you a boost of energy without the jitters or crashes that can come with caffeine.

I highly recommend Ultra Energy Now to anyone who is looking for a natural energy booster. It's a great product that will help you feel more awake and alert.

Jock itch attacks BC men’s soccer team, causes team to chafe

By JIMMY G. LAURIE

Bakersfield College administration is warning students of jock itch. The men’s soccer team has been suffering from the fungal infection, according to coach John Stuever. Many athletes around the campus are also suffering from the symptoms.

"This soccer season has been a nightmare for us," said the coach. "It’s been a long season with a lot of travel and many games. The fungus is a real problem, and we have to be careful to avoid it."

The administration is looking into ways to help the team. "We are trying to find a way to prevent jock itch," said the coach. "We are researching different products and methods to help prevent the infection."

The men’s team is playing a home game against San Joaquin Delta College today. The game will be held at the soccer field on campus. The men’s team is looking to bounce back from their recent losses and continue their season.

April 2010 new date for field

By VINCENT PEEZ

The Bakersfield College baseball team is welcoming the new date of April 20 for the home opener. The team will have a chance to compete against some of the top teams in the region.

"We are excited to have a home date this early," said coach Pat Conley. "It will give us the chance to face some of the top teams in the region. We are looking forward to the challenge."

The Renegade Dogs will face off against the Lompoc Warriors in the first game of the doubleheader. The second game will be against the Santa Barbara Vaqueros.

The team will have a chance to show off their talents and bring in some early fans.

Pikachu attacks!

April 1 of Bakersfield, will contain five Jock itch attacks

By GREGORY D. COOK

Bakersfield College is introducing a new attraction for the baseball stadium: a Pikachu-themed attraction. The attraction will be located near the home plate and will feature a life-sized Pikachu statue.

"We are excited to have this new attraction," said coach Pat Conley. "It will be a great addition to the stadium and a fun place for fans to visit."

The Pikachu attraction will be open every game day and will feature Pikachu-themed merchandise.

The stadium is looking forward to the new addition and the positive impact it will have on the fan experience.

Desk tax may be instituted

By SEGREG MOORE

One-hundred people attending a previous Bakersfield College baseball game said that they were having difficulty finding parking near the stadium. The administration is considering instituting a desk tax to help fund parking.

Undead given support by BC after abuse

By KAMILLE POWELL

Page 8: The Renegade Rip-OFF | www.thenp.com

The recent discovery of a whole school of zombies under the industrial building is the latest source of support for BC. These zombies, who have been living in the shadows, are now being given a voice and a platform to express their thoughts and feelings.

The zombies have been living in the school's basement for years, but they have never been able to express their grievances to the administration. Now, with the support of the undead, they are able to speak out against the unfair treatment they have received.

"We have been living in the shadows for far too long," said one of the zombies. "We have always been treated with disrespect and discrimination. Now, we have a voice and a platform to express our concerns.

"We have been living in the basement for far too long," continued another zombie. "We have always been treated with disrespect and discrimination. Now, we have a voice and a platform to express our concerns.

"We have been living in the basement for far too long," concluded the third zombie. "We have always been treated with disrespect and discrimination. Now, we have a voice and a platform to express our concerns.

Members of the zombie support group make their way to class. The zombies will now be allowed to attend day classes.
Scottish games now held at BC

BY STACEY CALVIN - stacey.ca@bakersfieldcollege.edu

The traditional Scottish Gathering and Games, which celebrates Scottish heritage, is being held this year at the BC Field on April 4. The event will feature a variety of traditional games, including caber throwing, highland dancing, and athletic competitions. The gathering will be held from 9 a.m. to 5 p.m., with a ceremonies at 9 a.m. and panel discussions at 1 p.m. The event is free and open to the public. For more information, please visit the website or contact the BC Field College at 661-657-2247.

Documentary focuses on survival

BY DANNY D. LAURENT - danny.laurent@bakersfieldcollege.edu

"It's here. It's now. It's real." -'name of the documentary. The documentary focuses on the experiences of people who have lived through traumatic events and how they have coped. The documentary features interviews with survivors of natural disasters, wars, and other extreme situations. It aims to raise awareness about the importance of resilience and the power of human spirit in the face of adversity. The documentary will be screened on April 4 at 7 p.m. at the BC Field College. For more information, please visit the website or contact the BC Field College at 661-657-2247.

High speed rail meeting

BY STACEY CALVIN - stacey.ca@bakersfieldcollege.edu

The Bakersfield College Athletic Department is holding a meeting to discuss the possibility of implementing a high-speed rail system for athletic events. The meeting will be held on Monday, March 23, from 8 a.m. to 9 a.m. in the BC Field College. The meeting will be open to all BC faculty and staff, as well as community members interested in the project. For more information, please visit the website or contact the BC Field College at 661-657-2247.

Softball still struggling with youth

BY STACEY CALVIN - stacey.ca@bakersfieldcollege.edu

The BC softball team continues to struggle with injuries and youth. Despite the challenges, the team has been working hard to improve and compete. The team is currently 7-2 in conference play and has high hopes for the rest of the season. For more information, please visit the website or contact the BC Field College at 661-657-2247.
