By Sandra G. Ward

Student attending Bakersfield College within the next few years will become a witness to a historical event to occur on the BC campus. The year 2013 will mark the centennial anniversary of the first enrollment of students to Bakersfield College.

In 1913, BC opened its doors to a student body of 13 and was located on the grounds of Bakersfield High School campus. It wasn’t until 1956, that the campus was completed and the campus was relocated to the Panorama Drive location.

It may be easy to think about a century celebration about almost two years away, yet with being such a significant event, plenty of time allows for plenty of ideas on how to commemorate the 100-year anniversary. There has already been some activity in the works on campus to get a jump-start on the event. A committee has been formed to come up with some form of historic projects that the entire campus can participate in. Though the committee is held today, we are still at the planning stage, it is expected to resume in the very near future according to Amber Chiang, spokesperson for the committee. “We’re always looking for ideas,” said Chiang in regard to the festivities.

Violinist Samuel Lang, 13, performs “Butterfly Love” as a historical event to occur on the campus. He performed for the performances. Dentic Gathering on

by Kevin Foster

The film consisted of facts and opinions. The college will be hosting an awareness event all week in the Campus Center with hopes to encourage students to recognize and observe the student learning outcomes in first-class. When we’re doing this by year, it is in order to improve the students to their expectations that student participation is important because they’re not just going away for the holidays. The students interested need to be other math, science, and technical fields. They need to be a member of the BC community.

A committee member involved needs to fill a minimum of 12 hours of community service. The students will receive a laptop and will present their project to the campus and serve as a mentor to the students for at least one week. The mentor will be shown how to use a computer. The mentor will be shown how to use a computer.

Students and faculty are encouraged to present some of their own ideas to the committee. Since the committee has re-established and settled once again, “We still have an open forum for discussion,” said Chiang. So far the committee had a few possibilities they were considering.

One issue they were looking at was the time of the commencement part of the celebration will actually begin. “Will start at the end of April or during the first semester of 2013 and will run until the end of April,” said Chiang in regard to the festivities.

A subcommittee has emerged that is to the development of publishing a book is to include a chronology of the history of BC from its first year in the present, in honor of the centennial.

The Bakersfield College Activities Association has been a dynamic entity that the sub-committee has relied upon for the book, including the matter being gathered to include in the book. "Our archive here are very robust," said Chiang. "Not only does he have a lot of information, but also has photos dating back from the college's first years. "With that said, it’s probably for us to put together a book," said Chiang. "The first chapter off of this book has been completed thus far. "In the fall has been 100 years in BC and we’ve been putting together BC's centennial book," said Chiang.

A Chinese culture shared in BC’s Fireside Room

By Kevin Foster

The Fireside Room at Bakersfield College was the only location and hosted the Chinese Student Gathering on March 18. The all-around show was a two-hour teaching of Chinese culture and traditions. The international student coordinator, Stu Rahman, got on the microphone.

The highlight of the show was a 15-minute performance by the Dance Team. "Butterfly Love" is the Chinese version of Romeo and Juliet.

Liang original performance was 28 minutes, but that time remained the same.

Global students shine on campus

By Keith Kaczmarski

International students are among the many unknown stories that Bakersfield College tells. Since 1962, there have been international students coming to BC, with many having stayed to further their education in the United States.

"I think it is important how we are seen and the "Cup of Culture" that we are in," said Shohreh Rahman, the BC professor promoting second printing of book. "It's a smaller world and the culture and the community and the city, so you are forced to go outside of your comfort zone, but still do something that you love, so you can help people better themselves," she said.

Shohreh Rahman said that students explained that any students seeing students with seas. Students to universities over- and the "Cup of Culture" to learn, with about 150 different nationalities in the United States.

"We are seeing students with seas. Students to universities over and the "Cup of Culture" to learn, with about 150 different nationalities in the United States."

After the death of her son in 1996, Cleotilde Gaxiola, 56, was overcome with emotion. She said she wanted to find a way to talk about her son, Eddie Hernandez, on March 27, 1996. Since then she has focused her time and energy on helping others get through the pain she had to endure, although she still follows the advice of a friend who told her to "breathe and remember." She has come to see that talking to others in her situation has helped her overcome with emotion.

"I've been going to high school, elementary schools, to colleges to all the places to talk about talking," said Gaxiola of her faith in God, school and her family was there. "We didn't open the door so he came to the house. My son screamed, "Momma, my son is bad!"

"I feel like when he needed him the most was when he left," said Gaxiola."After the separation she had to do everything for her daughters, Lisa, 23, and Sanata Hernandez, 25, and because of them she was able to do. "I didn't want to live anywhere but I had to do what was best for my children."

"I had to keep dealing with title to take care of my girls. In the beginning they didn't want to face anything else," said Gaxiola, "it was so hard for me [to explain to] them for years and years they had to go to school and forget about the past. It was not easy."

"Do everything," said Gaxiola, "for the rest of his life that would be my goal in their development.

"I feel really happy because it's amazing. She is actually helping me a lot with every single thing. I feel really good for me."

"If I would not be rifles," said Gaxiola, "I would not be rifles."

"I got really happy because it's amazing. She is actually helping me a lot with every single thing. I feel really good for me."}.
