Letter to the editor

Bakersfield College is a school deeprooted in tradition and loyalty. We are a community that is proud of the students from all parts of the field; all breathing life into the activities of this community, the most important aspect of which is our mutual concern for the students of this institution. This is why we are at stake unless something is done to change the administration of our school.

When we talk about shrinking BCC, that means making cuts in transfer, remediation, work-study, developmental work, and all the activities that are so dear to our students, staff, neighbors, and friends. Cars will run slowly, fewer students, fewer employees and fewer opportunities for us all. It is a sad situation that we are experiencing, but we are doing this with the utmost respect.

I feel that it is the responsibility of our students to be as vocal and as powerful in our communities as possible, and to help us make a change in this regard. We are the voices of our community, the people who are affected by this decision.
