Market offers organic choices, fresh Bakersfield

By Bennie Fields

A crowd gathered on April 28 for the Brimhall Farmer’s Market, which offered locals a chance to shop for fresh fruits, vegetables and other organic products directly from farmers and local producers.

Located on the corner of Brimhall and Calloway in the Brimhall Square Shopping Center, the farmer’s market occurs every Saturday from 9 a.m. to 1 p.m. Managed by Jacilyn Allen, the market has grown since it first opened two years ago.

“Brimhall was on such a small budget when I started this,” said Allen. “If you Sinus the market, there used to just be old women and men, old people, and the occasional creep. There was a crowd of about 100 people, but now there are a few thousand people coming out.

“Every Saturday, people come out and shop for fresh produce,” said Allen. “We have a wide variety of products, from fresh eggs to fresh vegetables and fruits.”

One of the major attractions of the market is the fresh organic produce available to visitors. Some of the products include fresh vegetables, fruits, and other fresh produce items.

“People love the fresh organic produce,” said Allen. “It’s a great way to support local farmers and get fresh, healthy food.”

In addition to the fresh produce, there are also a variety of other options available at the market, including baked goods, fresh flowers, and other handmade products.

“People love the handcrafted products,” said Allen. “It’s a great way to support local artists and get unique, one-of-a-kind items.”

Visitors to the market on April 28 could choose from a variety of fresh, organic produce items, such as fresh vegetables, fruits, and other fresh produce items. Marijuana Celebrated with 420 Festivities

By Jennifer Morgan & Thea Durocher

It’s been a long winter and the weather is warming up, but before we know it, another winter will come around. While we may not be able to control the weather, we can control our moods and enjoyment. Smoking marijuana, along with the Rancho's outdoor smoking of marijuana, has become a popular activity for many. It’s a drug that’s legal for adults over the age of 21 in California, and has been used for centuries around the world.

Marijuana has been around for centuries, and has been used for various purposes throughout history, including as a medicine, for religious purposes, and as a recreational drug. It is currently illegal in many countries, but is legal in some states in the United States and is being considered for legalization in others.

Marijuana is a type of plant that contains a compound called THC, which is responsible for the psychoactive effects of marijuana. THC binds to receptors in the brain, causing a range of effects that can include feelings of relaxation, euphoria, and altered perception of time and space.

Marijuana has many uses, from medical to recreational, and has been used for thousands of years. It is used for a variety of purposes, from pain relief to anxiety reduction, and has been found to have many health benefits.

Marijuana is illegal in many countries, but it has been legalized in some states in the United States. In California, marijuana is legal for adults over the age of 21, and it is legal in some countries in Europe.

Marijuana is a controversial issue, with some people supporting its legalization and others opposing it. However, the debate is ongoing, and it is likely that we will see changes in marijuana laws in the future.

**Wise wine tips to ace your finals**

By Crystal Mecher

Finals are quickly approaching for most students, but that’s no reason to study for them. Many students are putting off doing their work for a while, which is why The Renegade Rip recently held an event on campus called the “Wine Me Up” event. The event included live music, a tasting, and even a Jeopardy game. The event was hosted by the owners of Neko Press Company, Matt Dunn and Laura Bailey, who also own the store’s sister company, Wine Me Up. Dunn said that the event was a way to give students a break from studying and a chance to have fun. Bailey said that the event was also a way to give students a chance to win different wines and have a chance to talk about them. "We want you to make it a chance to try different wines and enjoy each other’s company," Dunn said.

"We have a local wine bar that serves a variety of wine and beer, located on 3900 Coffee Road, Suite 2 and we are eager for any help they can get," Dunn said.

"We want people to experience all different types of wine that they can’t find anywhere else," Dunn said. "We have a local wine bar that serves a variety of wine and beer, located on 3900 Coffee Road, Suite 2.

By Crystal Mecher

"We complete changed the place where we bought our wine," Dunn said. "We want people to come in and enjoy the wine."
