The counseling department at Bakersfield College is putting forth an effort to make students aware of the new and old resources that are offered. This year, the counseling department has added new things that it believes will help students with their college and life careers. The counseling office is now offering more new workshops, and this is believed to be a great part in the new resources in the office.

The counseling office believes that it will look not only for the student but also for the group of students at once. This pamphlet informs students of all the workshops that the counseling department has this fall.

Two of the new workshops are the SEP Workshop and the Disqualifications Workshop. Schultz said, “So the probation students that need to come in and see a counselor, we can see them at a group rather than just one on one where they have to come in. Another new workshop is the How to Choose a Career Workshop. This workshop helps students determine what direction they want to go in their school and work careers. Each workshop is a new way that the counseling department believes will be beneficial to students.

The San Francisco Youth Theatre Dream Ensemble delivered a musical that focused on the struggles of undocumented teenagers in the United States.

Throughout the process of creating “In and Out of Shadows,” art and music began merging with the storyline.

Music and singing, instrumental and vocal, served as the driving force for “In and Out of Shadows.”

Music supported and enhanced the connection between the audience and the characters in “In and Out of Shadows.”

Music was the most important part of the production, providing a backdrop for the stories of the characters.

Music and singing were used to convey the emotions and thoughts of the characters.

Music was not just a background to the story, but an integral part of the production, enhancing the connection between the audience and the characters.

Music was the driving force behind the production, providing a backdrop for the themes and messages of the musical.

Music was used to create a sense of unity and connection between the audience and the characters.

Music was integral to the audience’s experience, providing a sense of immersion in the story.

Music was not just a backdrop, but a key element in the production, helping to create a sense of emotion and connection.

Music was an essential part of the production, providing a backdrop for the story and helping to create a sense of unity and connection between the audience and the characters.

Helping protect BC's campus for 22 years

By Chris Miller

Senior officer Marco Sifuentes, 44, has been working for BC's Department of Public Safety for 22 years. He started working at the Department of Public Safety in 1996 and has been the senior officer at BC for the past 12 years. Sifuentes said it's a humbling experience to see the students grow and develop. He said that his job is to monitor the students and help them when they need it.

**ENROLLMENT:** Big increase in students at Bakersfield College

By Alex Rivera

Bakersfield College and Cal State Bakersfield government leadership groups teamed up to host a student leadership conference at Bakersfield College on Oct. 13. BCSGA and CSUBSA had a retreat back in August. BCSGA President Clayton Fowlers hopes students would benefit from the officers and learn that they want to bring something similar to the students that live in the outlying areas.

The conference was about helping students become more effective leaders.

As the conference began, Fowler said the purpose of this is to have a collaborative and inclusive educational environment which would help with one-to-one tutoring and learning experiences, and provide valuable peer to peer service learning experiences, and help students share and develop their leadership skills effectively.

He added, “We hope you both learn and strengthen your leadership skills, learn to work together in organizations, and create future ideas to build community both on campus and off.”

Once the conference began, some areas of interest were career pathways, diversity in organizations, marketing and recruitment, conflict management and Title IX, and cyber bullying, recruiting community involvement in leadership and events, planning and advertising leadership skills, and development, and diversity. Fowler hopes that students learn how to build community around their organizations to back their organizations on making BC campus stronger and more beneficial to our officers and the community.

Fowler laughed, “Like the old saying, two is always better than one. CSUB has taught us a lot of useful tools to build back and on on our campuses. It’s all about creating a community of student success and being together.”

For students looking to be proactive, Vaughn said there are field issues coming up on state ballots both this fall and in the future. Vaughn also said students could be more flexible in how their week looks. “We can schedule a full schedule Monday–Wednesday, Tuesday–Thursday, and Friday–Saturday,” said Vaughn.

BC already offers some Friday and Saturday classes, but if more students showed an interest, more classes could be added on those days. Vaughn said another important thing students want to see is the improvement continue simply by keep going to class. Keep register- ing, keep showing up, and keep doing the work. Press to the administration, the community, and the state that what BC does is important and useful by taking advantage of every opportunity.

The free-speech area is crowded full of students at the Bakersfield College Panorama campus. The increase in students this fall is nearly 2,000.

**COUNSELING:** New ideas and new BC counselors

By Alex Rivera

Bakersfield College President Dr. Warren Schultz has added something new to the counseling office that will revamp the office and make it more user-friendly. “What we’re trying to do is build a barrier between the SGA and counselors,” Schultz said. “We’re going to try to get us out of the office and outside to people who need to be helped.”

For students looking to be proactive, Vaughn said there are field issues coming up on state ballots both this fall and in the future. The Bakersfield College orchestra, under the direction of Louis Birtzinger, is preparing a fall season of music and entertainment for Fall 2015. This fall’s inaugural performance is a children’s concert. The orchestra is made up of students and Edward Garbett’s “Peer Gynt” on Oct. 13 at 7 p.m. at the BC Performing Arts Center. BC students who have been approved by the Bidwell Student Affairs faculty, and staff of the department are eligible for entry. Entry for patients 17 and under is free.

The center is open from 8 a.m. to 5 p.m. Monday through Thursday and from 8 a.m. to 4:30 p.m. on Friday. For more information, call the President’s Office at 327-8000 ext. 1129.
Selfies can be risky

Selfies are fun and can be cute, but they can cause problems if you throw them in the wrong place. According to The Telegraph online, “selfies are now so popular that they’ve caused a new genre of photography to be born: selfie death.”

The Telegraph notes that there are no deaths that have been caused by selfies, but only deaths that have been caused by taking selfies. When thinking of selfie-related deaths, the most obvious casualty would be one that involves taking a selfie in the water. However, taking a selfie in the water is not the only danger involved in taking a photo while you’re in the water. You might not even be aware of what is going on around you when you’re taking a selfie in the water. Therefore, you need to be careful when taking a selfie through your phone or imagine-taking device. Otherwise, you might not have the slightest clue what is going on around you.

"Hell Week," which gave viewers an idea about the horrors people go through when they are under the pressure of a life or death situation, was the subject of our discussion. I immediately began to re-consider someone's negative opinion regarding the movie. Not fail to deliver his promise is not something I have a hard time keeping up with the student editors. The Rip is a member of the Kern Community College District Board of Trustees and was brought back extremely enthusiastically. Ryan Murphy and Brad Falchuk, the minds behind popular hit series, are the producers. Their new film "The Green Inferno." The newspaper is published under the auspices of the Kern Community College District Board of Trustees.

It’s been a continuous uphill battle for the Bakersfield College football program as it has yet to get in first win of the season.

The 0-5 mark has soured for head coach John Nutt, who has to carry the Renegades to the playoffs. Nutt was looking for a win against Victor Valley College, but it was a 49-14 loss.

“With the season starting to wind down, we’re in the mud trying to get a win,” Nutt said. “Where’s the win?”

The game started off well for BC as they scored a touchdown on its first three drives. But the Cougars scored 38 unanswered points in the second quarter.

Senior quarterback Aaron Worrell continued his stellar play against Victor Valley. Worrell finished the game 12-21 for 167 yards with two touchdowns. He also scored a rushing touchdown.

“The replacement for Nutt isn’t the first time BC has been in this situation,” Nutt said. “For whatever reason, our offense can’t get going.”

The problem doesn’t start with Worrell. The BC running game had just 19 yards on 26 carries.

“We have to have more of a run game,” Nutt said. “Our defense can’t keep score.”

The defense gave up 49 points on 10 turnovers. The team lost its third straight game, but the defense gave up 49 points.

“I think we have to turn this around,” Nutt said. “We have to have more pressure on our defense.”

The BC defense gave up 49 points as it allowed 491 yards of total offense. BC’s defense has given up 576 points in its last five games.

“The defense is playing well,” Nutt said. “They’re playing well and holding their own.”

But the offense couldn’t get anything going. BC had just 295 yards of total offense.

“I think the offense needs to do more,” Nutt said. “We have to get more out of the running game.”

The BC offense was led by Worrell, who finished with 167 yards and two touchdowns. The offense was held to 108 yards on 24 carries.

“I think our offense needs to do more,” Nutt said. “I think our offense needs to turn things around.”
