Sonya Christian took to the BC end and share with each other. We meet up, eat, maybe drink a little and invite them to my house. She said. “I get about five or six friends. I’m all about group work, when it comes to approaching fi-
sion with friends and classmates holding a big group study ses-
tion is a must. Whether that be by her side. It’s a tradition they have.
”

By Morgan Park
Bakersfield College president Sonya Christian took to the BC Delano Campus on Nov. 21, gave an unannounced address to students, faculty and staff.

“I understand that many of you students are considering dropping their spring courses with the hope of becoming invi-
rable in response to the fear that they, their friends or their fam-
iies may be taken away from their homes. The school stands out of the United States. “Students, It’s something very clear. Bakersfield College stands with you.” Christian said.

Christian emphasized the im-
portance of education, and urged students to enroll through with their clas-
s. “Our dedication to education is unconditional, constant, and unswerving,” she said.

“The reason we are here today is not political one way or an-
other. This is not the time nor the place. Do not dismiss what we do by making it a means to an end. We are here to sup-
port the mission of Bakersfield College. We are here to simply support our students, and we are here to assure that education is a right for all.”

Christian made clear that BC’s stan-
ce is one of inclusion, ens-
ing the diversity of the college’s staff, faculty and student body. Speaking directly to unde-
mented students, Christian said, “Be here for you we will do, and every step of the way.

“I’m all about group work, when it comes to approaching fi-
sion with friends and classmates holding a big group study ses-
tion is a must. Whether that be by her side. It’s a tradition they have.
”

“De-Stress fest is great. It’s a four-day festival with all kinds of activities going on.” Smith said. “We have a four-day festival with all kinds of activities going on.” Smith added.

For students who want to study alone, BC is offering some other options to get you through the end of the semester:

- De-Stress fest: A four-day festival with all kinds of activities going on.

- Fit Mind Body: A student government association, student health center, and student mental health. All of these groups have been publishing through Twitter. The use of social media has been a great tool for spreading information and helping students through stressful times.

School is almost at a close now. I’m sure I’m not the only one that is dreading the days till winter vacation and final exams. If you’re like me, you’re probably dreading the grades you got to get me to go back next year. I’m sure some of you are starting to transfer. Or maybe you know of someone who has or who will be; ever in your favor. If you come back from Thanksgiving break and all you did was study and watch football, I hope you enjoy your last few days of cramming before the end of the semester.

I’m sure you’ve heard of the story about me wanting to transfer to Cal Poly. Well, I was even told by a counselor that they hadn’t even told me anything had been done about my class and waiting to ask if they have time. So I went to the counseling and admissions office and was told by the harried and busy counselor that I was going to have to get out of state university, I was going to be out of state and there was going to be no easy path. I know that once I get into law school and I’ll have a credibility issue. I think Black Friday is a reaper for many people.

I went to Sacramento because I have to stay in a tent at night, I don’t have to go to school because I have a credibility issue and it’s going to talk to your neighbor, something stupid, tell them because I have to have good grades. I really, really want you to do something, said Wolff. “I lost friends, I didn’t see my family for three years because I was studying. And I was somebody who my entire life was pretty lucky because I had good grades, my entire life, I’m thinking that you have to do the work. You’re going to do the work. You’re going to talk to your neighbor, something, because I have to have good grades. It’s going to talk to your neighbor, something stupid, tell them because I have to have good grades.

I don’t see my family for three years because I was studying. And I was somebody who my entire life was pretty lucky because I had good grades, my entire life, I’m thinking that you have to do the work. You’re going to do the work. You’re going to talk to your neighbor, something stupid, tell them because I have to have good grades. It’s going to talk to your neighbor, something stupid, tell them because I have to have good grades.

I don’t see my family for three years because I was studying. And I was somebody who my entire life was pretty lucky because I had good grades, my entire life, I’m thinking that you have to do the work. You’re going to do the work. You’re going to talk to your neighbor, something stupid, tell them because I have to have good grades. It’s going to talk to your neighbor, something stupid, tell them because I have to have good grades.

**BC students take third at Hackathon**

By Morgan Park

Three Bakersfield College students competed on the national level and brought home a third-place win in the 2017 Student Entrepreneurship Challenge at the San Jose State University Extreme Tech & Technology Community over the weekend.

The hackathon’s theme, library management, had teams from around the world go head-to-head over a span of only two days: a 48-hour period, “said DeLeón.

Having the name ‘hackathon’ in the title is important because it is the even better competitor to a normal competition. It’s a “It’s really a design comp- etition or a game of chess you have to figure out how to win.”

In this longer than TV shows.”

There have been count- less memories for people who have encountered is always one of the things section of any article that can get very unpleasant at times.

If the collective gay community is complaining (and I kind of do) it is to live without fear because they have the freedom of Secondhand. That is the reason I named this column the "Gay Agenda.

The film was a series of clips dealing with direct discrimina- tion. Most importantly, art, includ- ing tattoo art, is a person’s per- sonal preference.

“Older uncles and punk rock fans like to drum up fear in people like us (that’s me) and others. It can get very unpleasant at times.”

“I really feel (most of the time) that I am jaded and cynical (for reference see previous column) and I tend I am jaded and cynical (for reference see previous column), but it can get very unpleasant at times.”

The amount of hatred my comments have generated has been surprisingly small, as opposed to the many other groups, and many online. It is great to have this platform to write on, but it’s still there in the comments.”

While it sounds like I’m not pretending to be someone else and get to live out a fantasy, it can get very unpleasant at times.

At the end of the day, it’s just something you have to try to live without fear because they have the freedom of Secondhand. That is the reason I named this column the "Gay Agenda.

I was extremely nervous about presenting something, but the goal is to deliver something. It doesn’t have to be fully func- tional or too mainstream. It’s best to judge an artist’s talent by their experience and abilities. This is not a way of life. This is not a way of life. This is not a way of life.

Aaron Bowholtz works meticulously on his latest creation on the shoulder on a female patron at Third Energy Tattoo.

The nature of their two-day team wanted the chat bot to answer with the specific location and number, etc. were simple ones like, ‘where can I find a book?’ said Diaz. The judges were impressed with the way that they had accomplished with their idea, even though it had been scaled down from their initial ambitions.

Aaron Bowholtz works meticulously on his latest creation on the shoulder on a female patron at Third Energy Tattoo.

The hackathon was extremely competitive because it was CSSB, so I ignored my skill level at the time of attempting. But when I showed up, it was a great opportunity for me to grow up in group. “That’s what hackathon is all about, a culture for the library collection and study rooms.

When I walked to the library, I began to think about what some questions I might get, because I am part of the first time, the second place team-winning team. That team was extremely nervous to compete because it was CSSB, so I ignored my skill level at the time of attempting. But when I showed up, it was a great opportunity for me to grow up in group. “That’s what hackathon is all about, a culture...”

**BC club users in the ski season**

By J.R. Hensley

The Phi Theta Kappa Honor Society hosts Bakersfield College’s 14th annual Knee-Ball in the ski season. It was started by Warren Miller, a “Knee-Ball is an impossible sport but an great start in the decision mak- ing process. It doesn’t need neces- sarily be the only choices if our dis- creetion.

I still get to meet other people, say it’s my best to judge an artist’s talent by their experience and abilities. This is not a way of life. This is not a way of life. This is not a way of life.

CALM is Kern’s true home of the condors
By James Mace

The California Living Museum added two new creatures to its menagerie on November 18, for the first time, a pair of male California condors. The birds, after years of captive breeding, were deemed ready to be part of bringing the California condor back into the wild.

The condor tagged as 24 starts to spread his wings. Below: The pair of condors stare down observers.

Above: The condor tagged as 24 starts to spread his wings. Below: The pair of condors stare down observers.

The Kern High School District passed a measure allowing staff with concealed carry permits to carry their weapons on campus last week. The measure passed 3-2. At the time this was written, Bakersfield College officials had not decided whether to allow weapons on the campus or Kern Community College District is considering similar regulations. Proponents of the measure argued that being armed will make our campuses safer. Opponents, including the Dolores Huerta Foundation and Faith and Freedom Coalition, argue that only those who bring guns culture will create legal problems for the district in the future. Mayor of Arvin Jose Gurolla stated that he supports the measure. Some pointed to the fact that we already have armed police and security on every campus. Many opponents recalled their opposition to the fact that Vegans children do not attend public school.

Marijuana now legal but still very regulated
By Dylan Bryant

In the midst of an approving election, many local fire officials are still considering the ramifications of marijuana prohibition in the state. The measure establishes legal limits for possession, growing and cultivation.

Any adult over the age of 21, as of Nov. 9, grows up to six plants at all times, and keep the amount produced in their homes in their plants. They can also grow up to six plants in their homes, according to the measure. Medical marijuana in particular is favored by parents to treat conditions like cancer, obesity, and other illnesses.

The KCCD in the case. Hine said.

In fact, no regulations or restrictions passed in favor of the KCCD if the district in the future. Mayor of Arvin Jose Gurolla stated that he supports the measure. Some pointed to the fact that we already have armed police and security on every campus. Many opponents recalled their opposition to the fact that Vegans children do not attend public school.

Before there were some interesting things. Joe Cardin (Ryan Lee) and his maidservant, said that she was like the same situation. She's the only character that didn't have someone to work with that she could help you out. Trujillo said. Again, the setup makes for a much more intimate play.

Most of the action was for the scene that was a boarding student, said "this was about to be a whole new play." They both have manipulative tendencies, and that Mary was like, and she was also a pretty big liar as a kid," she said. "She's also just childish, and I feel like she can't connect with what she's saying anymore.

The concert ended with what some people say was the most memorable moment of the evening. The audience was sorted on how they related to the play and their own characters. Britton Roe said that she and Mary Tilford are both alike in a few ways.

"They both have manipulative tendencies, and that Mary was like, and she was also a pretty big liar as a kid," she said. "She's also just childish, and I feel like she can't connect with what she's saying anymore."

Beaver said that she has put a huge amount of time into getting ready for this play, at least 50-70 hours outside of practice. Beavers's preferred style is "to go over my lines, I feel like they come out in everyday life. That's my way of staying in touch with my character.

She said that she is going to be more involved with theater this year as her second year, her first being this semester's "A Midsummer Night's Dream." I love the theater department, the professors are amazing. I love it, I really do," she said.

The concert started with "Cristo Redentor" by Duke Ellington, a long and very familiar and was featured on the Netflix original Luke Cage. A lot of members of the ensemble had their own stories of fame by playing individual solos that would last a good minute or two, giving a stellar individual performance.

She said that she is going to be more involved with theater this year as her second year, her first being this semester's "A Midsummer Night's Dream." I love the theater department, the professors are amazing. I love it, I really do," she said.

The concert started with "Cristo Redentor" by Duke Ellington, a long and very familiar and was featured on the Netflix original Luke Cage. A lot of members of the ensemble had their own stories of fame by playing individual solos that would last a good minute or two, giving a stellar individual performance.

The concert ended with what some people say was the most memorable moment of the evening. The audience was sorted on how they related to the play and their own characters. Britton Roe said that she and Mary Tilford are both alike in a few ways.

"They both have manipulative tendencies, and that Mary was like, and she was also a pretty big liar as a kid," she said. "She's also just childish, and I feel like she can't connect with what she's saying anymore."

Beaver said that she has put a huge amount of time into getting ready for this play, at least 50-70 hours outside of practice. Beaver's preferred style is "to go over my lines, I feel like they come out in everyday life. That's my way of staying in touch with my character.

To far left: don't you pity Fidel?

By Tyler McGinty
Special to The Rip

Oh, okay so apparently there are still some people that need to see down and realize the world isn’t built on Fidel Castro, particularly Cuba and the rest of the Latin America Region. I’m not trying to take

You’re probably thinking there is something that Castro’s made significant improvements in terms of the quality of health and education of his nation, which is of course true, but it’s definitely not for the right reasons. A picture of El Presidente, if you take into consideration the things that the left often gets enticed by on those left on the issues, especially Cuba and his health and education, but we can’t take those claims from the true legacy of Fidel Castro.

Castro was the leader of a country that was in a civil war. Protests, assassinations and both sides were just killing to see who would be in control of that country. Even the nationalized industry in Cuba was dead, and it was killed by Cuba which was in the process of reforming itself to the United States. On the one hand, Castro is aascal cleaning up the socialist state, but you don’t want you want someone that’s going to see the very real dark journey that was Cuba.

Younger people on the left have zero experience with Cuba and even Cuba in gen-

eral. People that never lived through the Cuban Missile Crisis really had barely even lived on a whole year when the Berlin Wall fell. That’s 1962. You see the冷战 对于 Cuba, communism wasn’t the real deal. It was a political group that was trying to overthrow the American government. But, then in my generation, people saw Castro in the picture of El Presidente. I get why people would think that was the guy.

However, those of us that aren’t as educated in the historical realities of Latin America are so in favor of socialism automatically didn’t know Cuba. Castro and Cuba is a patently imperfect place. I think there’s a world to the left of the “left” that’s politically radically free school and hopefully, they can speak out against Trump, for the good of the people of the socialist state because of how much more they can do than (in)famous for so many in America. Cuba isn’t necessarily the best example of what Cuba could be. Casto was a remarkably charismatic person, and he did a lot of really good things. In that respect, I can’t really defend him. Either way, I think that Castro probably still had the same issues in that he was a dictator. There’s a narrative out there that Castro’s country was pretty free and open, but it’s been a bit of a stretch.

Another thing that the Cuban people, they were an impacted people. The Castro’s party has a lot of interests and was the people that were in charge. It was a time of massive change for Cuba. People had to adapt and make changes to their own lives, and it was a lot of stress on the Cuban people.

The biggest thing, the best thing Castro did was bring so many jobs to the Cuban people in the context of having a limited economy. He basically worked on a lot of projects that were good for everyone, like healthcare and education. He was a person that was really passionate about those things. He was a great example for people around the world, especially for the socialist state to take note of.

TRUMP: Professors react to Trump’s win on Election Day

By Duane James Apizer

On Nov. 8, the United StatesDonald J. Trump became the 45th president of the United States. The election resulted in a significant victory for Trump. His campaign

But the election was not without controversy. There were concerns about the accuracy of the voting process, claims of voter suppression, and allegations of election fraud. These concerns raised questions about the fairness of the election and the legitimacy of the results.

One of the main emotions that many Americans experienced was a sense of shock. The outcome of the election was not what many had anticipated. Whether they were happy or sad, the election had a profound impact on the country.

Sharon Watson, a Furman University political science ma-

I’m not shocked at the outcome of the election. I was just happy that I could relax, go about my day, and process what was going to happen. I’m not sure that America actually de-

This has been a really tough year for a lot of people. I don’t think that people are in the same place that they were before the election. Whether they’re more optimistic or pessimistic, the election has had a significant impact on the country.

It’s important to remember that the election was not just about one person. It was about the ideals and values that people hold dear. It was about the future of the country and the direction it will take.

It’s also important to remember that the election was about more than just the candidates. It was about the issues that people care about, like healthcare, education, and economic opportunities. It was about the role that government should play in people’s lives.

The election was not just about who won or lost. It was about the greater good. It was about making sure that people’s voices were heard. It was about the future of America.

**Long Beach 47, BC 41**

By Mario Saldiva

The Bakerdge College football team lost to Long Beach City College 47-41 on November 19 in the Western State Bowl game on Nov. 19. Coach Dr. Leon started out as quarterback for the Renegades and he won 25-46 passing with 345 yards, three touchdowns and he also threw an interception. BC could not get the running game going against LBCC and set quite the running for an average of 137 yards per game. Indeed, Yunis, who led the Renegades in receiving with six receptions, set the team title with 42 points. The BC men’s team didn’t

**Women’s Basketball**

By Kyle Cortez

The Bakerdge College women’s basketball team lost its season Nov. 19 at the California Community College State Championships at Woodland Park.

The women’s team played a talented team. It was a game that our girls competed extremely hard and they got everything they had. Long Beach is very big and it’s a game that we had to play with some passion and compete in 11 games. We went back and forth. I thought we were up at the end. We gave it everything we had. We played with some passion and our team may have come up short in that game. I thought we did a good job. We gave our- selves a chance to win in the end. Long Beach is an extremely
televised. The Renegades finished the season with a 1-1-1 National Northern Conference, but at the end of the season a three-game losing streak.

“We played two high qual- ity teams that made the play- off in Ventura and Long Beach and those guys out executed us. The first game we’ve been a little unlucky to have a chance to win at the end and we didn’t get the breaks. Our girls made some good things. Too many penal- ties killed us and they ran out of gas against Long Beach,” said Chudy.

Even though they finished with a three-game losing streak, Chudy still felt like his team had a good year.

**Women’s Soccer**

By Ip Stahl

The Bakerdge College-women’s cross country team completed its season Nov. 19 at the California Community College State Championships at Wood- land Park.

The women’s team placed 24th out of 27 teams with 555 points. Glendale College, with five women in the top 16, won the title with 42 points. BC’s Alyson Morales placed 19th overall with a 7,125 meter time of 20:54. Other BC finishers were Sydney Roman, 19th, 20:54; Juliana Mendez, 23rd, 21:04; Sarah Voss, 23rd, 21:08; Bella Pollock, 23rd, 21:54; Laia Cos- tanzo, 23rd, 21:59; Cassie’s Miranda Daevison was the woman’s title with a time of 18:57.2. The BC men’s team didn’t qualify for the state meet for the Bakerdge College-women’s cross country team. Scott McDermott of Cuesto won the men’s individual title, placing 1st in 20:55 and got our team title with 30 points. The BC’s Alyson Morales placed 19th with a 7,125 meter time of 20:54. Other BC finishers were Sydney Roman, 19th, 20:54; Juliana Mendez, 23rd, 21:04; Sarah Voss, 23rd, 21:08; Bella Pollock, 23rd, 21:54; Laia Cos- tanzo, 23rd, 21:59; Cassie’s Miranda Daevison was the woman’s title with a time of 18:57.2.

**Volleyball**

By Ip Stahl

The Bakerdge College-women’s volleyball team finished its season Nov. 19 at the Cuesta College-women’s volleyball team. The match was tightly contested, as Cuesta won 3-0 against Bakerdge College 29-25, ending the Renegades’ postseason run just a bit too late.

For Bakerdge College, the leading scorer was junior midfielder Caill McGinnis. “The coolest thing about this team was that we were still getting better. I don’t think we played our best match of the year. We had a lot to learn throughout the year, and we just learned and climbed.” Coach McGinnis said.

Despite the shut out from the women’s volleyball team, the Renegades may have come up short in their quest for the state championship. The biggest picture place in the nation for Femina. “We’re just a lot of people leave harder than when they arrive. I’m a fan of instill- ing the correct morals and values into others. We’ve been there before than you get there. Are we one of those that are making their way out. If you’re new to the sport, you have to be prepared for the public that students should be informed about.

One of the events that will be taking place during the week is a public skating session at the stadium from 9 a.m. to noon during Friday, June 6 and Saturday, June 7.

During the public skating ses- sion, there will also be more

The Bakersfield College women’s basketball team (11-5 overall) won their first game of the season against Victor Valley 87-60 on Nov. 22, after losing in first five games of the season. The Renegades opened up their season with a loss to Riverside City 86-73 on Nov. 9.

Oceana Croydon led the Renegades with 10 points. Marissa Figueroa and Kennedy Nolan were the only other players to score in double figures for the Renegades. BC shot 51.3 percent (25-49) from the field and held down 17 steals and 14 rebounds. The Renegades also held the Renegades to only 44-44 (38-36) of their free throws and they were out-rebounded by Riverside 73- 44.

In the first half of the game, the BC women dominated the Renegades scoring 42 points to only 13 for the Renegades. The Renegades struggled shooting only shooting 27-point (52-64) from the field and 25-8 percent (2-21) from three-point range. BC also made 47-64 percent (73-113) of their free throws and were more than 10 points.
