Agricultural Business Management Associate in Arts Degree

The Agricultural Business Management major is made up of agriculture and agricultural business courses pertaining to the agriculture industry.

Many jobs in agriculture require training in business courses such as accounting, typing and salesmanship. With a combination of agriculture and business courses, many employment opportunities are available. Agriculture Business Management Associate in Arts Degree is recommended for students planning to transfer to a 4-year college.

ANTHROPOLOGY

Anthropology Associate in Arts Degree

The objective of this program is to prepare the student for upper-division study in anthropology at a four-year college or university. Anthropology focuses on the variety of human cultural patterns, both past and present, to create an awareness and understanding of the science of human behavior. Most graduates with a degree in anthropology are likely to pursue careers in teaching, government service, research, law, and business.

APPRENTICESHIP PROGRAMS

Apprenticeship courses are designed for indentured apprentices under the Shelley-Maloney California Apprenticeship Standards Act. The Apprentice Agreement states that the student will supplement on-the-job training with related classroom instruction during each year of apprenticeship.

Apprentice classes meet three to eight hours per week and yield two to six units of credit. Joint Apprenticeship Committees administering each program are composed of representation from labor, management, California State Division of Apprenticeship Standards, and Bakersfield College. These committees adopt state approved standards for operation and assure equal opportunity for applicants. Related training in apprenticeable occupations, in addition to those listed below, may be offered as the need arises.

Information for entry into apprenticeship programs may be obtained from the college coordinator of apprenticeship training. Interested persons are encouraged to apply for any of these programs and may contact the BC Apprenticeship Coordinator at 395-4408 for further information.

- Bricklayers/Tilesetters
- Carpentry
- Electricians
- Operating Engineers
- Painting and Decorating
- Plumbers and Steamfitters
- Sheet Metal

Suggested Transfer Programs for Architecture

California State Polytechnic University, San Luis Obispo Architecture (Arch.), Architectural Engineering (A.E.), City And Regional Planning (C.R.P.), Construction Management (C.M.), Landscape Architecture (L.A.)
 The following curriculum is designed for students planning to transfer to the College of Architecture and Environmental Design at California State Polytechnic University, San Luis Obispo. The student is advised to keep a portfolio of all work done in all architectural classes, since the level of advanced standing is dependent upon an evaluation of this portfolio by faculty at Cal Poly, S.L.O. Entry as a transfer student to Cal Poly, S.L.O. is based upon a strong grade point average (G.P.A.), certification of general elective courses, including Calculus B6a, Physics B4a or PHYS B2ab and the architec-

ture courses listed below for the Mutli-Criteria Application (MCA) process.

In the College of Architecture and Environmental Design at Cal Poly, there are five majors: Architecture, Architectural Engineering, Construction, City and Regional Planning, and Landscape Architecture. The Bachelor of Architecture and Bachelor of Landscape Architecture degrees are five-year programs. The other three majors are four-year degree programs. It is the exceptional student who is able to complete these programs in the allotted time. Many students find that it takes an additional year of study to complete any of the five programs listed. This may mean taking course work during the summer or spending an additional year at Bakersfield College and/or at Cal Poly.

In addition, Cal Poly, S.L.O. offers two graduate programs. The Master of Science in Architecture and the Master of City and Regional Planning for those students interested in advanced professional studies.

2-year transfer program for those students who are entering college ready to take Calculus (MATH B6A) and English B1A.

Cal Poly, Pomona

California State Polytechnic University, Pomona offers three undergraduate majors leading to the Bachelor of Science Degree in Architecture, Landscape Architecture, and Urban Planning. The student while attending Bakersfield College should plan on taking the same basic Architecture program as for Cal Poly, San Luis Obispo, but substituting MATH BC (Trig) for MATH B6a and PHYS B2a. Entry to Cal Poly, Pomona is based on a strong G.P.A., the above Math and Physics courses, ENGL B1a and B1b, and ENGL B2, SPCH B1, PHIL B7. These critical general education courses should be completed by the fall semester the student is applying for transfer. The student should take as many architecture courses as possible. A portfolio will be required for advanced placement into the architecture program. A Master's Degree is available in all three areas of study.

UC Berkeley

Students planning to transfer to the University of California, Berkeley should expect to take the following recommended courses. Berkeley has a 4-year curriculum leading to the A.B. Degree in the College of Environmental Design, with majors in Architecture Design, Landscape Architecture and City Regional Planning. A Master's Degree in Architecture, Landscape Architecture, or City Regional Planning would require an additional two years.

Private Colleges and Universities

The following list are those private universities/colleges offering degrees in architecture within the State of California.

- California College of Arts and Crafts-San Francisco
- New School of Architecture-San Diego
- Southern California Institute of Architecture-Santa Monica
- University of Southern California-Los Angeles
- Woodbury University-Burbank

Students interested in one of the above programs offered at these campuses should consult with the individual dean of the college they are interested in as to entry requirements. UC Los Angeles offers a graduate degree only.

Biology Associate in Science Degree

Biology is the study and application of principles of ecology, evolution, genetics, anatomy and physiology as it relates to humans and other organisms. Laboratory and field trip activities emphasize the integrated and interdependent nature of living systems. Course work trains students to use observation and investigation to identify questions and pursue answers.

Graduates with biology degrees may pursue jobs in a variety of fields including; biochemistry, biotechnology, botany, ecology, entomology, genetics, health, immunology, medicine, molecular biology, oceanography, pharmacy, teaching, wildlife management, zoology and related clinical fields. Biology majors may choose to specialize in research based on a particular organism or an aspect of biology related to those listed above.

Candidates for an AS in Biology may select the emphasis that facilitates their interests most closely. The two areas of emphasis are General Biology and Human Biology.

Courses required for the General Biology emphasis include biology and chemistry courses necessary for transfer to 4 year institutions as a biology major, however numerous other courses as well as specialized requirements are necessary for

specific institutions. Please refer to the Suggested Program information and check with a counselor concerning requirements for specific transfer institutions. Please note that some courses have prerequisites that should be taken in the appropriate order.

Courses required for the Human Biology emphasis include biology and chemistry courses necessary for transfer to allied health programs such as nursing, radiology and physician's assistant. Please refer to the Suggested Program information and check with a counselor concerning requirements for specific transfer institutions. Please note that some courses have prerequisites that should be taken in the appropriate order.

Required Courses: 18 units

Select 12 units from the following courses (emphasis in General Biology)

Course Number	Title	Units
BIOL B3a	General Biology I	5.0
BIOL B3b	General Biology II	5.0
BIOL B16	General Microbiology	5.0
BIOL B7	Environment	3.0

OR

Select 12 units from the following courses (emphasis in Human Biology)

Course Number	Title	Units
BIOL B14	Anatomy	4.0
BIOL B15	Physiology	5.0
BIOL B16	General Microbiology	5.0
BIOL B3a	General Biology I	5.0

AND

Select 6 units from the following:

Course Number	Title	Units
CHEM B15 or CHEM B2a	Principles of Inorganic Chemistry Introductory General Chemistry (5.0)	4.0
CHEM B16	Principles of Organic Chemistry & Biochemistry	3.0
CHEM B1a	General Chemistry	5.0
CHEM B1b	General Chemistry and Chemical Analysis	5.0
CHEM B8	Elementary Organic Chemistry	3.0
CHEM B9	Organic Chemistry Laboratory	3.0

Note: Students transferring to a 4 year institution for a B.S. in Biology generally take the CHEM B1a, B1b sequence. They should consult the university of their choice as to whether CHEM B8 and B9 should also be taken before transfer.

Note: Students transferring for a B.S. in Nursing should take either the CHEM B15 & CHEM B16 sequence or the CHEM 2a and CHEM B16 sequence. Consult the University of choice as to which sequence meets transfer needs.

Suggested Program

This suggested program meets all Intersegmental General Education Transfer Curriculum (IGETC) requirements. This program is a series of courses that community college students can use to satisfy lower-division general-education requirements at any California State University (CSU) or University of California (UC) campus. It will permit a student to transfer to a campus of the CSU or the UC system without the need, after transfer, to take additional lower-division general-education courses to satisfy campus general-education requirements. The program also meets or exceeds the minimum entrance requirements for most medical schools and other health professional programs. **This program assumes you are academically prepared for university-level courses. Students requiring additional preparation in mathematics, reading or English will require at least one additional semester and should consult a counselor for advice.**

First Semester

Course Number	Title	Units
BIOL B3a	General Biology I	5.0
CHEM B1a	General Chemistry	5.0
ENGL B1a	Expository Composition	4.0
	Art or Humanities Elective	3.0

Third Semester

Course Number	Title	Units
MATH B6a	Analytic Geometry and Calculus I	4.0
PHYS B2a	General Physics-Mechanics and Heat	4.0
SPCH B1	Speech Communication	3.0
	Art or Humanities elective	3.0
	Social or Behavioral Science elective	3.0

Fourth Semester

Course Number	Title	Units
MATH B6b	Analytic Geometry and Calculus II	4.0
PHYS B2b	General Physics-Sound, Light, Electricity, Magnetism, Modern Physics	4.0
	Art or Humanities elective	3.0
	Social or Behavioral Science elective	3.0

Note: Some UC campuses now require calculus-based physics for biology majors. If you are planning to transfer to a UC campus, contact their admissions office for advice. If you are planning to transfer to a CSU campus, consider satisfying the art or humanities requirement by taking two courses from the following list: FREN B2, B3, B4; GERM B2, B3, B4; or SPAN B2ab, B3, B4. These courses simultaneously satisfy the CSU language other than English and the arts and humanities requirements.

BIOTECHNOLOGY

Biotechnology uses living organism and their cellular and molecular components to provide goods, services or environmental management. Math, chemistry, biology and agriculture are integrated to produce skills in students that enable them to acquire entry and mid-level jobs in a wide variety of biotechnical corporations.

Biotechnology Certificate of Achievement

This program is designed for those students who prefer to learn the fundamental skills required to get a job as quickly as possible. Many of the courses are transferable and/or degree applicable if the student decides to further his/her education.

Business Administration Associate in Arts Degree

The general purpose of the program in Business Administration at the university and state college is twofold. First, it is organized to help students to develop a broad understanding of our economy and our society in order to serve as a basis for responsible administrative and executive positions in business and government. Second, it offers the opportunity for students to acquire skills in specialized and professional types of employment.

Since requirements vary, the current catalog of the chosen college or university should be consulted for specific requirements of the School of Business Administration.

This suggested program will meet most of the lower division requirements at the California State colleges and universities as well as fulfilling the major requirements for the Associate in Arts Degree from Bakersfield College.

The courses listed below are required for the above institutions and for most other four-year colleges and universities in order to transfer into the third year of a chemistry major program. Before planning a study list, the community college student should consult his/her counselor and study the catalog of the senior institution to which he/she intends to transfer.

The introductory courses in Physics (Physics B2a-B2b or B4a-B4c) and Chemistry (Chemistry B1a-B1b, B2a or B11) are designed to provide a foundation and understanding of the laws and principles of the physical world (matter and energy). These courses should be completed early in a student's academic program to insure greater success in subsequent courses.

CHILD DEVELOPMENT

Early Childhood Education Employment Readiness Academy

The Early Childhood Education Employment Readiness Academy is a one semester program. The skills you will learn are: 1) how to use appropriate guidance, 2) how to plan and carry out learning activities for children, (3) how to work as a team member in a preschool or child care center, and 4) how to apply infant/child first aid/CPR. Upon completion of this program you will earn 12 child development units. You will meet the qualifications of a teacher in a licensed, private child care center or an Associate Teacher in a subsidized preschool or child care center. For further information contact Office of Career Development and Workforce Preparation at 395-4089.

CDA (Child Development Associate)

The CDA may be substituted for nine semester units of child development credit.

CORRECTIONAL ADMINISTRATION

Correctional Administration Associate in Arts Degree

Corrections is the part of the criminal justice system responsible for juveniles and adults who have been charged with or convicted of a criminal offense. It involves working with the individual at the local, state, or federal level of government. Corrections professionals subscribe to the philosophy of protecting society and aiding in the rehabilitation of the offender. The Correctional Administration Program is designed to expose the student to different aspects of the correctional system. This pattern of coursework has been endorsed by the Joint Apprenticeship Committee of the California Department of Corrections, California Youth Authority, and the California Correctional Peace Officers Association as a program which would be of benefit to apprentices and correctional peace officers.

ECONOMICS

Economics Associate in Arts Degree

The major in economics is designed for students interested in preparing for advanced degrees in Economics, Business, Law and for those students concerned with the economic behavior of consumers, businesses, and governments. Economics majors have a wide variety of career opportunities in business, law, journalism, education, politics, finance and banking, government, public and private overseas service, and labor leadership. Many economics majors go on to pursue graduate study in a related professional area, such as law, business, or public administration.

EMERGENCY MEDICAL TECHNOLOGY

Emergency Medical Technician I Certificate of Completion

The Emergency Medical Technician (EMT-1) Program is a 120-hour certificate program (13-week course) which will prepare the student to perform basic emergency care as part of a mobile emergency care team. Upon successful completion of the course, students are certified by the Kern County Emergency Medical Services for a two-year period. Re-certification every two years is required to maintain EMT-1 status (see EMTC B50r course description).

Enrollment in the Emergency Medical Technology Program

Statement of Philosophy: All persons who are able to perform satisfactorily the responsibilities and tasks required in education and training program and in subsequent employment in the field should have an opportunity to succeed. It is recognized that the need to protect the safety and welfare of the student and the community is a primary consideration in the health occupations.

Enrollment Period: This course is offered each fall and spring semester, for 13 weeks. Interested students must enroll through the Bakersfield College Admissions and Records Office.

Pre-Admission Requirements:

1. The student must be at least 18 years of age by the completion of the program.
2. MEDS B60 (2 units), Medical Terminology is highly recommended.

Physical Examination/Drug and Alcohol Screening:

The student must be free from communicable diseases, infection, psychological disorders, and other conditions that would prevent the successful performance of the responsibilities and tasks required in the education and training program of the college. Any condition described above which is developed by the student after enrollment to the program may be considered sufficient cause for suspension from the program. If possible, such a student should be counseled to enter a more appropriate program. Costs of meeting health requirements are paid for by the student.

1. Physical Examinations - This exam, completed by a physician of the student's choice, will be required **after** enrollment into the program. The applicant must have a level of emotional and physical health necessary to meet program requirements.
2. Immunizations/health tests - As needed for acceptance in a clinical and training facility, and to protect the health and welfare of the student and community. Immunization may include, but not limited to, Rubella and Hepatitis B. Tuberculosis screening is also required.
3. Drug and Alcohol Screening - As a condition of enrollment in the program, all students are required to submit to, and pass, a designated drug and alcohol screen. Students will be required to purchase uniforms, textbooks and selected equipment and provide transportation to off-campus sites for laboratory experience and pay current college fees.

NOTE: Students with a misdemeanor and/or felony arrest or conviction may not receive certification or licensure from the State or County. Call Allied Health, 395-4281 for more information.

University of California, California State University and Private Universities

People working in the field of engineering and related technical fields “bridge the gap” between scientific principles and the application of these principles to the needs of society. The field is quite diversified with exciting job opportunities for people with varied mathematical, scientific, and technical skills.

An engineer uses experience and judgment, as well as advanced training in engineering, science, and mathematics to formulate ideas and designs, and to determine standards, specifications, work orders and schedules so that projects can be economically beneficial to mankind. A Bachelor of Science Degree in Engineering is required. Many engineers earn Master’s or Doctor’s degrees.

Working together with a counselor or academic advisor, a student may develop a program of study leading to transfer into the upper division of a Bachelor’s Degree program in Engineering. The programs which follow will help the student plan an appropriate program.

Bakersfield College offers all of the courses required for two full years of engineering education. Completion of these courses, called the “engineering core” prepares students for transfer at the junior level to the colleges and universities offering Bachelor’s degrees in engineering. This is in accordance with the Summit Articulation Agreement of the Engineering Liaison Committee which states that “any students of a California Community College, with a stated major in engineering, who presents a transcript showing satisfactory completion of the engineering core program in lower division will be eligible to enroll in any four-year California university or college (which graduates engineers) with regular junior standing; and further, said student can complete an engineering program in four additional semesters (or six additional quarters) and obtain a Bachelor’s Degree.’

The engineering core curriculum is the basis for Transfer Admission Agreements between Bakersfield College and the engineering colleges at several universities including the University of California at Davis and Rensselaer Polytechnic Institute in Troy, New York. The following Bakersfield College courses are required to completely satisfy the engineering core program:

Course Number	Title	Units
MATH B6a	Analytic Geometry & Calculus I	4.0
MATH B6b	Analytic Geometry & Calculus II	4.0
MATH B6c	Calculus III	4.0
MATH B6d	Ordinary Differential Equations	3.0

ENGR B45	Properties of Materials	3.0
ENGR B48	Engineering Orientation	1.0
ENGR B19fc	Computer Programming for Science, Engineering & Technology	3-3.0

The following technical electives are highly recommended for all branches of engineering:

Course Number	Title	Units
MATH B6e	Elementary Linear Algebra	3.0
ENGR B49	Engineering Analysis & Design	1.0
INDR B10	Introduction to Industrial Drawing & Graphics	1.0
INDR B11	Introduction to Computer Aided Drafting & Design (CAD)	1.0
CHEM B1b	General Chemistry & Chemical Analysis	5.0
ENGR B37	Engineering Mechanics - Dynamics	3.0

The following technical electives are recommended for the particular branches listed:

GEOL B1a	Physical Geology-geological petroleum
APRD B1a	Beginning Machine Shop (manufacturing, industrial)
APRD B55	Introduction to Numerical Control & Fundamentals of Programming-manufacturing, industrial
WELD B1a	Introduction to the Welding Processes- manufacturing, industrial

Four-year colleges and universities neither require, nor recommend, that engineering majors complete lower division general education requirements prior to transfer. For students transferring to campuses of the University of California or to California Polytechnic University, San Luis Obispo, the following courses are recommended if they can be included in the student’s schedule:

Course Number	Title
SPCH B1	Speech Communication
PHIL B9	Critical Thinking and Composition

Two-year Engineering Program

The program shown below assumes satisfactory prior completion of the following:

- a. high school mathematics through trigonometry and mathematical analysis; or MATH BC and MATH B1 at Bakersfield College
- b. one year of high school mechanical drawing or INDR B10 at Bakersfield College
- c. one year of high school chemistry or CHEM B2a at Bakersfield College
- d. eligibility for ENGL B1a

Students missing one of the requirements (b), (c), or (d) still may be able to complete the program within two years, as long as requirement (a) is met on entrance. Students completing the two-year program will not be able to earn an A.S. Degree from Bakersfield College unless they have satisfied general education requirements with summer courses or courses taken prior to entering the program.

Three-Year Pre-Engineering/Engineering Program

Those students who have not met the requirements for the two-year program will need more than four semesters to complete the engineering core program. The program shown below assumes only satisfactory completion of high school mathematics through intermediate algebra or MATH BD at Bakersfield College and eligibility for ENGL B1. It allows students to complete the general education requirements for the Associate in Science Degree while completing the engineering core program before transferring to a university as a junior. Students completing the A.S. Degree should select general education courses which will also satisfy university general education courses, and should understand that, while they will have completed more than 70 transferable units, the

university will give them credit for satisfactory completion of all transferable courses but for only 70 units toward the Bachelor's degree.

Engineering Technology Associate in Science Degree

Cal Poly Pomona; California State University, Sacramento; California State University, Long Beach Engineering technologists and engineering technicians are members of a

technical team that also includes scientists, engineers and craftsmen. The members of the technical team perform job functions that are complementary and sometimes overlapping. By virtue of their education, training and interests, engineering technologists and engineering technicians are usually differentiated as follows:

An engineering technologist uses applied and basic training in mathematics, science, and engineering classes, engineering methods learned through classes and experience, and developed technical (manipulative) skills in direct support of engineering activities. A Bachelor of Science degree in Engineering Technology is required.

An engineering technician operates in a support role to aid in design, production, manufacturing, operations, and maintenance. Under professional direction, the engineering technician conducts tests, trouble shooting and analysis, and other similar projects, or carries out functions such as drafting, surveying, designing and technical sales. An Associate in Science degree or a Certificate of Engineering Technology is required.

Bakersfield College offers courses required for two years of engineering technology education. Completion of these courses, called the “engineering technology core” prepares students either for transfer to the colleges and universities offering bachelor’s degrees in Engineering Technology, or for completion of an Associate in Science degree in Engineering Technology. A beginning engineering technology student should have completed high school mathematics through intermediate algebra or MATH BD at Bakersfield College, one year of high school drafting, and be eligible for ENGL B1.

The following courses are required to satisfy the engineering technology core and Associate in Science program:

ENGLISH

Studies in English provide preparation for the professions, government service, and politics. Career opportunities in English include teaching, journalism, publishing, advertising, and copywriting.

Students seeking an Associate Degree must take a writing course, either English B1 or B1a, and may take a literature class to fulfill the humanities requirement. Students seeking a Baccalaureate Degree should take English B1a and may take English B1b and other literature courses to fulfill specific General Education requirements. Students planning to major in English should take English B1a and B1b and at least two of the following: English B5a, B5b, B20a, B20b, B30a, B30b. Students planning to transfer to the University of California should consider English B2. *For specific information, students should consult the catalog of the school to which they intend to transfer.*

FIRE TECHNOLOGY

Bakersfield College's Regional Fire Technology Academy (RFTA) was authorized by the California Fire Service Training and Education System (CFSTES) in 1980, with programs of study leading to Certified Fire Officer, Certified Chief Officer and Certified Fire Chief. RFTA sponsors many cooperative training programs with federal, state and local fire protection agencies.

Individuals may develop a program suitable to their career goals with the aid of a college counselor. Courses may lead to the achievement of specific career goals, immediate employment, an Associate Degree, or transfer credits that satisfy requirements for a Bachelor's Degree in Criminology, Police Science, Correctional Administration or Fire Technology.

HISTORY

The major in history is designed for students interested in gaining an understanding of our political, economic and social past. The major is an important part of the liberal arts program and can serve as preparation for graduate study in education, law, business, government and journalism. Many employers value the writing and thinking skills acquired by History majors. The knowledge gained in history is fundamental for an understanding of many of the other fields of learning.

Bakersfield College offers a wide variety of history courses in addition to those listed below. The student should select courses according to his/her area of specialization as well as the requirements of the college to which he/she plans to transfer. The student should also consult his/her counselor and the appropriate four-year college catalogs in determining an appropriate minor, foreign language requirements, and other requirements.

LIBERAL ARTS

Liberal Arts Associate in Arts Degree

The Liberal Arts major at Bakersfield College is designed to provide students with the opportunity to earn an associate in arts degree in a broad area of study. The major is interdisciplinary and allows students to develop a variety of skills transferable to numerous occupations and fields of study. The major is intended to provide general knowledge and to develop the intellectual capacities, such as reasoning and judgment, as opposed to professional or vocational skills. This major is suitable for transfer students preparing for upper division study in a variety of fields in the liberal arts and for those students undecided as to major or further study. Students may satisfy requirements for the Liberal Arts major by completing one of the three options listed below. With any option selected, students must also complete all graduation requirements for Bakersfield College including a total of 60 degree applicable units with an overall grade point average of 2.00.

Select one of the following options:

1. Completion of 18 units in the Liberal Arts and Sciences beyond those used to satisfy Bakersfield College general education requirements. These courses must be designated as Liberal Arts and Sciences under the Bakersfield College Course Classification System (CCS); see course descriptions for specific designations. No course work may be double counted as meeting both BC General Education and major requirements.
OR
2. Completion of the California State University General Education transfer requirements.
OR
3. Completion of the Intersegmental General Education Transfer Curriculum (IGETC).

LIBERAL STUDIES

Liberal Studies Associate in Arts Degree

The courses required for this major are based on the current articulation agreement between Bakersfield College and CSU Bakersfield and are intended for students who plan to obtain a multiple subjects teaching credential. Students are encouraged to consult with a counselor or advisor as there will be changes to the articulation agreement and the major. Students transferring to other colleges or universities are advised to consult the catalog of the school they plan to attend.

Enrollment to Nursing Programs

I. Statement of philosophy concerning enrollment into Allied Health Programs:

All persons who are able to perform satisfactorily the responsibilities and tasks required in an education and training program and in subsequent employment in the field should have an opportunity to succeed. It is recognized that the need to protect the safety and welfare of the student and the community is a primary consideration in the health occupations.

II. Enrollment Procedures

A. Determination of eligibility for enrollment: The student must meet educational and health requirements established for the program.

1. Educational Requirements

a. A high school diploma or equivalent is required for the Registered Nurse and Vocational Nurse Programs.

b. Meet specific program prerequisites.

2. Health Requirements

The student must be free from communicable diseases, infection, psychological disorders, and other conditions that would prevent the successful performance of the responsibilities and tasks required in the education and training program of the college. Any condition described above which is developed by the student after enrollment to the program may be considered sufficient cause for suspension from the program. If possible, such a student should be counseled to enter a more appropriate program. Costs of meeting health requirements are paid by student.

a. Physical Examinations - This exam is to be completed AFTER the student receives notification of enrollment into the program. The applicant must have a level of emotional and physical health necessary to meet program requirements.

- b. Immunizations/health tests - As needed for acceptance in a clinical and training facility, and to protect the health and welfare of the student and community. Immunization may include, but not be limited to, rubella and Hepatitis B. Tuberculosis screening is also required.
 - c. Drug and Alcohol Screening - As a condition of enrollment to any Nursing Program with a laboratory component, all students are required to submit to, and pass, a designated drug and alcohol screen.
3. Eligibility for Enrollment.
Applicants who have completed their enrollment forms, have their high school and college transcripts on file, and have met the educational and health requirements will be designated as eligible for enrollment. Information regarding criteria for selection may be obtained in the Allied Health Office.
4. Students will be required to purchase uniforms, textbooks and selected equipment and provide transportation to off-campus sites for clinical experience and pay current college fees.

If a Nursing Program has more applicants for enrollment than space available, priority is provided to residents of the Kern Community College District.

NOTE: Students with a misdemeanor and/or felony arrest or conviction *may* not receive certification or licensure from the State or County. Call Allied Health, 395-4282 for more information.

Nurse Assistant Certificate of Completion

The nurse assistant precertification program is a one-semester program that prepares the student to perform basic patient care as a nurse assistant health care worker. Students successfully completing both the Basic Patient Skills course and the laboratory component will be eligible to take the State of California, Certified Nurse Assistant examination. For enrollment in the Basic Patient Skills laboratory course, the student must meet health requirements. For more information, contact the Office of Career Development and Workforce Preparation at 395-4089 for a program brochure.

Required Academy Courses: 9.5 units

Course Number	Title	Units
MEDS B67	Basic Patient Skills	3.0
MEDS B67L	Basic Patient Skills Laboratory	2.5
MEDS B60	Medical Terminology	2.0
ACDV B66	Student Success	1.0

Registered Nursing Associate in Science Degree

Nursing education prepares the graduate to provide services to those who need health care. As needs are varied so are educational programs, which may proceed from the simpler to the more complex in accordance with the career ladder

concept. The progression reads: nursing assistant, licensed vocational nurse, registered nurse, and other nurses with Bachelor of Science, Master of Science, Doctorate in Nursing and special certifications. This role of a new graduate is usually that of a staff nurse. With additional education, a nurse may advance to a position of supervisor, administrator, clinical specialist, educator, or researcher.

Curriculum Framework

The curriculum is based upon the following concepts which provide a framework for theory and practice at each level:

1. Utilization of the nursing process to assess, plan, implement, and evaluate nursing care.
2. Man as a bio-psycho-social-spiritual being.
3. The personal and professional development of the student to prepare for the role of a Registered Nurse.

Enrollment in the Associate Degree Program General Information

1. This is a four-semester Associate Degree Nursing Program (ADN). Students must also complete all the Bakersfield College General Education Requirements for graduation in addition to the prerequisite courses.
2. Upon successful completion of the ADN Program, graduates are eligible to take the National Council Licensure Examination for licensure as a Registered Nurse.

Enrollment Filing Periods

1. Month of February for fall semester.
2. Month of September for spring semester.
3. All enrollment forms must be received in the Allied Health Office during the stated filing period. Forms received prior to these dates will be returned. Late forms will not be accepted.

Enrollment Procedures

1. Obtain enrollment form from the BC Allied Health Office in room MS 178 or the Counseling Center located in the Student Services building on the main campus or by telephone, 395-4281.
2. Arrange for **official** copies of all college transcripts to be mailed directly to the Associate Degree Nursing Program, Bakersfield College, 1801 Panorama Dr., Bakersfield, CA 93305. Students attending BC must furnish a BC transcript.
3. Students not enrolled must complete program enrollment forms each semester in order to remain on the waiting list.

Prerequisite Course Requirements

All prerequisite courses must be completed prior to the start of the program with a "C" grade or higher. When there are more students filing enrollment forms than space available, priority is provided to students with all prerequisite courses completed at time of submission of enrollment form.

- a. MATH BA/B200a at BC or an equivalent course at another accredited college, or two semesters of high school algebra.

- b. CHEM B11 or CHEM B15 or CHEM B1a or CHEM B2a or CHEM B49 at BC or an equivalent course at another accredited college.
- c. BIOL B14 at BC or equivalent course at another accredited college.
- d. BIOL B15 at BC or equivalent course at another accredited college.

- f. ENGL B1a at BC or equivalent course at another accredited college.
- g. Graduation from high school or equivalent education.
- h. Computer studies (1 unit) or evidence of proficiency.
- i. Overall cumulative GPA of 2.5.
- j. MEDS B60 Medical Terminology - highly recommended.
- k. Nurse Assistance course/certification - highly recommended.

General Education Courses

- 1. The following courses are also required to graduate from the Bakersfield College ADN Program and it is suggested that most of them be completed prior to enrollment in the program:
 - a. *SPCH B1 or B2 or B3
 - b. HIST B17a or other social science course
 - c. PSYC B1a
 - d. SOCI B1 or ANTH B2
 - e. PHIL B12 or other humanities course

*SPCH B1 is recommended for CSU nursing transfers.

Note: Equivalent courses taken at other accredited colleges must be verified by official transcripts. Requests for consideration of courses for equivalency must be made to the Bakersfield College Admissions and Records Office.

Physical Examination/Drug and Alcohol Screening

See Enrollment to Nursing Programs.

Program Supply Information

Students will be required to purchase uniforms, textbooks and selected equipment, provide transportation to off-campus clinical education sites and pay current college fees. An estimated cost for books, uniforms, fees and required equipment for the first term of the Program is approximately \$900.00. Second and third semesters usually only require registration fees and books. In addition to registration fees and books, the ADN fourth semester's expenses will include Program Completion activities, Program pin, ATI test, and State Board application fees.

NOTE: Record of any misdemeanor and/or felony is subject to review by the Board of Registered Nursing before an R.N. license may be granted. Anyone who wishes clarification may contact the Board of Registered Nursing, 400 R Street, Suite 4030, Sacramento, CA 95814, (916) 322-3350.

Vocational Nursing Certificate of Achievement

Vocational Nursing at Bakersfield College is a three-semester *certificate* program. Upon successful completion of the VN program, graduates are eligible to take the National Council Licensure Examination for Practical Nurses for licensure as a Vocational Nurse.

Curriculum Framework

The curriculum is based upon the following concepts which provide a framework for theory and practice at each level:

1. Utilization of the nursing process to assess, plan, implement, and evaluate nursing care.
2. Man as a bio-psycho-social-spiritual being.
3. The personal and professional development of the student to prepare for the role of a Vocational Nurse.

Enrollment Filing Period

One VN class is accepted to begin every three semesters. Enrollment forms are accepted in the Allied Health Division in February for fall semester admission and September for spring semester admission. **Enrollment forms received prior to these dates will be returned.** Enrollment forms are accepted in September 2002 for the next program start in spring 2003.

Enrollment Procedures

1. Submit a completed enrollment form during the correct period. Forms may be obtained from the BC Allied Health Division or the Counseling Center located in the Student Services building on the main campus.
2. Provide proof of graduation from high school or equivalent education (GED).
3. Arrange for official copies of high school and college transcripts to be mailed directly to the Allied Health Division, Bakersfield College, 1801 Panorama Drive, Bakersfield, CA 93305. Students attending BC must furnish a BC transcript.
4. Provide assessment scores if needed (see note below).
5. Students not admitted must complete program enrollment forms each enrollment filing period in order to remain on the waiting list.

Prerequisite Course Requirements

Students may *apply* for Vocational Nursing Program Enrollment while prerequisite courses are in progress, but must submit evidence of successful completion of all prerequisite courses prior to the start date of the enrollment semester.

1. The following courses must be completed with a minimum grade of "C."
 - a. BIOL B18 (Essentials of Human Anatomy and Physiology) or equivalent course at another accredited college.
 - b. PSYC B1a (General Psychology) or equivalent course at another accredited college.
 - c. MATH BA/B200A (Elementary Algebra) or equivalent score on the BC assessment test or two semesters of high school algebra. Assessment scores must be provided by the applicant prior to the application deadline.
2. Other prerequisite requirements:
 - a. Eligibility for ENGL B1a on the current BC assessment test, or completion of ENGL B1 at BC.
 - b. Graduation from high school or equivalent education (GED).
 - c. Nurse Assistant course or certification

- d. Computer studies course (introduction to computer courses) or equivalent course at another accredited college or documentation of proficiency. Note: This course may be taken during the VN program, but must be completed prior to the beginning of the 2nd semester of the program.
- e. MEDS B60 (Medical Terminology) highly recommended.

VNRS B90Lv	Medical-Surgical IV Laboratory	3.0
	Total	13.5

NOTE: The laboratory components of all nursing courses are graded on credit/no credit basis only.

Physical Examination/Drug and Alcohol Screening

See Enrollment to Nursing Programs.

VN Students are exempt from the maximum of three credit/no credit units which may be taken in a semester and from the maximum of 12 credit/no credit units which may be applied toward the AA and AS degrees at Bakersfield College.

Program Supplies Information

Books, uniforms, fees and required equipment for the first semester of the program cost approximately \$900. The following semester requires books and registration fees. Third semester expenses include program completion costs of nursing pin and State Board application fees.

Note: Record of any misdemeanor and/or felony is subject to review by the Board of Vocational Nurse and Psychiatric Technician Examiners before a VN license may be granted. Anyone who wishes clarification may contact the Board of Vocational Nursing & Psychiatric Technicians 2535 Capitol Oaks Drive, Suite 205, Sacramento, CA 95833 (916) 263-7800.

LVN to Associate Degree Nurse Program

General Information

Vocational nurses who wish to complete requirements for eligibility for the registered nurse licensure examination as an Associate Degree Nurse will be considered for advanced placement. Admission to the Educational Mobility Program in Nursing is dependent upon completion of all prerequisite requirements, and available space.

Enrollment Filing Periods and Procedures

See Enrollment Periods and Enrollment Procedures Associate Degree Nurse

Prerequisite Course Requirements

The prerequisite course requirements are the same as the Associate Degree Nursing Program . It is recommended that students audit NURS B3a. A current Vocational Nurse license must be presented for verification.

General Education Requirements

The General Education Requirements are the same as for the Associate Degree Nursing Program.

NOTE: Equivalent courses taken at other colleges must be verified by official transcripts. Requests for consideration of courses for equivalency must be made to the Bakersfield College Admissions and Records Office.

Required Nursing Courses

The following courses are taken after students have been formally enrolled for advanced placement in the ADN Program.

Future Transfer Students

Students who plan to obtain their bachelor’s degree in nursing at California State University, Bakersfield after completing the Bakersfield College ADN Program will need to take NUTR B10 and PSYC B40 at BC prior to transfer. In addition, there may be other General Education courses required. Contact the Counseling Center for further information at 395-4421.

Physical Examination/Drug and Alcohol Screening

See Enrollment to Nursing Programs

Program Supplies

Students will be required to purchase uniforms, textbooks and selected equipment, provide transportation to off-campus sites for laboratory experience, and pay current college fees. These costs total approximately \$900.

NOTE: Record of any misdemeanor and/or felony is subject to review by the Board of Registered Nursing before an R.N. license may be granted. Anyone who wishes clarification may contact the Board of Registered Nursing, 400 R Street, Suite 4030, Sacramento, CA 95814, (916) 322-3350.

LVN to Non-Degree Nurse (30 unit option)

Students seeking information regarding the 30-unit option preparation for the registered nurse licensing examination may receive further information from the Director of the Associate Degree Nursing Program.

Transfer Policy

1. Academic credit earned in regionally accredited institutions of higher education for comparable prelicensure courses will be accepted for transfer.
2. A student who has successfully completed nursing courses in an approved or accredited nursing program may be eligible to receive credit for equivalent courses within the Nursing Program curriculum.
3. Equivalency will be determined on the basis of catalog description, course outline content comparison, and hours distribution.
4. A challenge examination may be required when equivalency cannot be determined. One semester in residency will be required to attain degree status from the college.

Challenge by Examination Policy

1. Challenge examinations are available for all courses in the nursing education curriculum. Students seeking challenge by examination credit will be counseled individually by the Director.
2. Challenge examination for credit based on previous education/experience must be requested by the student six weeks prior to the start of the semester in which the course is scheduled to be taught.

PHILOSOPHY

A major in philosophy has always been and continues to be one of the strongest traditional liberal arts majors in higher education. Some students major in Philosophy as a precursor to graduate work and academic careers, teaching and doing research in Philosophy and Education. Philosophy's emphasis on critical thinking, theories of knowledge, value and reality, truth, rational argument and proof make it an excellent pre-professional undergraduate major (e.g., for law, theology, medicine, business, computer science) or minor (e.g., for the natural, physical and social science and humanities majors).

PRIMARY CARE ASSOCIATE (Physician's Assistant)

Stanford University Medical Center administers a program to train individuals who function in association with physicians in the maintenance and delivery of primary health care to medically underserved communities.

Upon completion of the prerequisite pre-clinical program at Bakersfield College or other accredited institutions, students admitted to the program have 15 months of clinical experience coordinated through Stanford University Medical Center. Students participate in didactic course work full-time for the first quarter (3 months) at Stanford Medical Center in Palo Alto, California. Then they complete an equivalent of five days of didactic instruction each month (12 months) thereafter. All clinical experience occurs in an office practice preceptorship. Contact Counseling Department for further information.

Prerequisites:

Minimum requirements for application and admission include:

1. United States citizen or permanent visa.
2. High School Diploma or equivalent.
3. A minimum of 18 months direct patient care experience.
4. Satisfactory completion of the following academic prerequisites or their equivalents.

General Education courses are required for the P.C.A. Program. It is recommended that an AA or AS degree at BC be completed prior to applying to the program.

The student must have a preceptor site established in order to complete the clinical experiences necessary for the program. Some assistance may be available in locating a preceptor.

Upon successful completion of the P.C.A. program. The graduate will sit for a certifying examination administered by the National Commission on Certification of Physician's Assistants. Passing this examination allows the Physician's Assistant to perform direct patient services under the supervision of primary care physicians certified by the California Board of Medical Quality Assurance.

Pre-Clinical Program Requirements

A minimum grade of "C" must be attained in each of these courses. Only work from a regionally accredited college can be accepted.

Algebra - Elementary. One year of high school math or MATH B1/B200a at Bakersfield College.

Anatomy (BIOL B14) and Physiology (BIOL B15) at Bakersfield College or equivalent. Must be at least 10-12 quarter units or 7-8 semester units.

Chemistry - Introductory. One year of high school chemistry or CHEM B15 and B16 at Bakersfield College or equivalent.

Cultural Anthropology or Sociology: ANTH B2, SOCI B1 at Bakersfield College, or another acceptable course.
English Composition - Freshman level: ENGL B1, ENBL B1a at Bakersfield College, or other acceptable course.

General Psychology - PSYC B1a at Bakersfield College or other acceptable course.

Microbiology with laboratory; BIOL B16 at Bakersfield College, or other acceptable course.

*American History and Institutions. HIST B17a and HIST B17b at Bakersfield College.

*Computer Literacy - Two semester units. Must include experience at a terminal (COMS B2 or COMS B12) at Bakersfield College, or other acceptable course.

*Ethnic Studies - A course that reflects the experience of an American ethnic group.

*Humanities - One course from List A and one course from List B. (A) Literature, Philosophy (not Logic), or Western Civilization. (B) Art Appreciation, Music Appreciation, or Theatre Arts Appreciation.

*Physical Education - Four quarter courses or three semester courses.

*Speech - Public Speaking or interpersonal communication: SPCH B1 or SPCH B2 at Bakersfield College, or other acceptable course.

*These courses are required if candidate does not possess an A.A., A.S. or higher academic degree.

PSYCHOLOGY

RADIOLOGIC TECHNOLOGY

Radiologic Technology

Radiologic Technology is a health care profession whose practitioners work in hospitals, imaging centers, and private physicians' offices. The radiologic technologist (radiographer) is a member of the health care team who works directly with the patient and the physician performing a wide variety of diagnostic x-ray procedures. The role of the graduate radiographer may be that of staff radiographer, special imaging radiographer, supervisor, administrator or educator, depending upon the level of education and experience obtained.

The Bakersfield College Associate in Science Degree Radiologic Technology Program provides concurrent didactic and clinical education. The program is 24 months in length (excluding prerequisite coursework) and begins each year in June.

The program provides the theory, skill and experience necessary to apply for admission to the certification exam administered by the American Registry of Radiologic Technologists (AART); and for certification from the State of California, Department of Health Services as a Certified Radiologic Technologist (CRT). The student is also eligible to write the State Fluoroscopy Permit exam. Students must earn a minimum of "C" in all radiography and related general education courses and have met all clinical education competencies to be recommended for these examinations/certifications.

Radiologic Technology Program Mission and Goals

The mission of the Bakersfield College Radiologic Technology Program is to promote student success by providing quality instruction for graduates to competently practice radiography at the entry level.

The Program promotes its mission by preparing graduates to:

- 1) Succeed by the establishment of fair and informative educational practices;
- 2) maintain and promote professional ethics;
- 3) recognize and apply quality patient care of management in cooperation with the healthcare team;
- 4) maintain a safe environment for the patient, healthcare team and self;
- 5) apply the knowledge and skills of imaging principles to produce diagnostic radiographs;
- 6) effectively communicate, critically think and problem solve;
- 7) competently perform radiography procedures; and
- 8) receive an associate degree in radiologic technology and be eligible to write both the national certification exam administered by the ARRT and the California CRT exam.

Radiologic Technology Program Prerequisite Requirements

All prerequisite coursework must be completed prior to the start of the program. When there are more applicants for enrollment than space available, priority is provided to applicants with all prerequisite courses completed at the time of submitting an enrollment form.

The following courses must be completed with a "C" grade or higher (except where otherwise noted):

1. BIOL B14 **and** BIOL B15 **OR** BIOL B18 at BC or equivalent course at another accredited college.
2. MATH BD/B200D (Intermediate Algebra) at BC **or** equivalent course at another accredited college or completion of high school Algebra 2 with a minimum grade of "B."
3. MEDS B60 (3 units) at BC or equivalent course at another accredited college.
4. Eligibility for ENGL B1a as demonstrated by qualifying scores on the BC assessment tests; or completion of ENGL B1 at BC; or an equivalent course from another accredited college with a minimum grade of "C."
5. Graduation from high school or an equivalent education.

Enrollment in the Radiologic Technology Program

Enrollment Filing Period

Enrollment forms must be received by the Radiologic Technology Program Office during the month of February for the program scheduled to start in June.

Enrollment Procedures

1. Complete required prerequisite courses (see above).
2. Enrollment forms for the Radiologic Technology Program may be obtained in the Allied Health Division, Room 178 of the Math-Science Building, OR in the Counseling Center located in the Student Services building on the main campus.
3. Official transcripts for all high school and college coursework must also be submitted and mailed directly to Radiologic Technology Program, Bakersfield College, 1801 Panorama Drive, Bakersfield, CA 93305. All transcripts must be received during the application dates listed above. Students attending Bakersfield College may request an unofficial copy of their transcript to be sent to the program from the Admissions and Records Office. A display transcript from the college website is not acceptable.
4. Students not enrolled must reapply for each program cycle to keep their file active. If the student does not reapply, the file will be destroyed.

NOTE: Equivalent courses taken at other accredited colleges must be verified by *official* transcripts. Requests for consideration of course equivalency must be made by the student to the Bakersfield College Admissions and Records Office, (661) 395-4301. It is the student's responsibility to see that

the equivalency is provided to the program within the enrollment filing period.

General Education Requirements

General education courses are required to graduate from the Bakersfield College Associate Degree Radiologic Technology Program, and it is suggested that most be completed prior to admission into the program:

1. English - English B1 minimum required; English B1a recommended
2. Speech - Speech B1 or B2
3. Social Science - History B17a or other Social Science* course
4. Behavioral Science - Psychology B1a recommended
5. Humanities - Philosophy B12 recommended or other Humanities* course
6. Computer Science (3 units) - COMS B2 or COMS B5 or equivalent is necessary to meet program completion requirements.
7. All other graduation requirements of the college must be met to receive the A.S. degree in Radiologic Technology. An individual who has previously received an associate degree or higher may apply for the A.S. degree in Radiologic Technology providing all requirements have been met.

*See BC General Education Requirements.

Health Requirements

1. A physical examination completed by a physician of the student's choice will be required after enrollment into the program to demonstrate that a student meets the technical standards necessary to meet the objectives of the program. A copy of the *Essential Technical Standards* required for Radiologic Technologists may be obtained in the Allied Health Division Office.
2. As a condition of enrollment to any Allied Health Program with a clinical component, all students are required to submit to and pass a designated drug and alcohol screen.
3. Immunizations/health tests are needed for acceptance in a clinical education center, and to protect the health and welfare of the student and community. Immunizations may include, but not be limited to, rubella, tuberculosis and Hepatitis B.
4. The medical exams, screens, immunizations and tests are performed at the expense of the student.

Program Supply Information

Students will be required to purchase uniforms, textbooks and selected equipment, provide transportation to off-campus clinical education centers and pay current college fees. Estimated costs for books, uniforms, fees and required equipment for the first year of the program are approximately \$700-850. Subsequent semesters usually require college enrollment and other fees, books and course syllabi. Expenses for the last semester of enrollment also include the program pin and application fees for national and state licensure/registration examinations.

Licensure/Certification Eligibility

Record of any conviction, misdemeanor or felony is subject to review by the American Registry of Radiologic Technologists (ARRT) before eligibility for certification is granted. Individuals requiring clarification may contact the ARRT, 1225 Northland Drive, St. Paul, MN 55120-1155, (651) 687-0048.

Accreditation

The Radiologic Technology Program is nationally accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), 20 N. Wacker Drive, Suite 900, Chicago, Illinois 60606-2901, (312) 704-5300. The program is also accredited by the State of California, Department of Health Services, Radiologic Health Branch, P.O. Box 942732, Sacramento, CA 94234-7320, (916) 445-0931.
