### Athletics

Bakersfield College Athletics has a long and storied history of quality, sportsmanship, and success that started back in 1922. One of the goals is to continue to build upon the foundation and rich tradition that previous Renegade coaches, players, and support staff have worked so tirelessly to create. Another goal is to indoctrinate all Renegades to be not just an athlete, but also a well-rounded student-athlete and a productive member of the community.

Bakersfield College has an enormous amount of community support that can only truly be appreciated after the student-athletes have experienced their time in the athletic program. Many former Renegades enjoy their experience so much that they return to work for the college. Others support the program in many other ways. Bakersfield College has first-class facilities, coaches, and the support staff is second to none. Most four-year universities would be envious of our athletic facilities, locker rooms, training room, and support staff.

Bakersfield College is a member of the Western State Conference and is governed by the Commission On Athletics. Bakersfield College has an excellent athletic support staff that includes: an athletic secretary, three certified trainers with a student staff, two equipment personnel, and an athletic counselor for scheduling and NCAA compliance. There are over three hundred Renegade student-athletes that compete for one of the sixteen different programs.

The Bakersfield College athletic department encourages all students to be participants either as athletes, fans, or student helpers.

There are eight men's and eight women's teams. The men's teams include football, cross country, wrestling, basketball, baseball, tennis, golf, track and field. The women's teams include soccer, volleyball, tennis, basketball, softball, cross country, track and field.

For those students seeking part-time employment, an effort is made to locate work that is related to their major or occupational goal. It is not always possible to secure employment immediately and new students who plan to be self-supporting should not begin their college courses without sufficient funds to cover the major expenses of at least the first semester.

Referrals for interviews are made on the basis of employer hiring requirements. Since employers rely upon the college to furnish them with information helpful in evaluating applicants, the Job Placement Office works in close cooperation with department chairpersons and instructors.

Regularly scheduled workshops are offered on job interview techniques, job search skills, and resume preparation.

The goals of the program work in conjunction with the college's goals to provide opportunities for leadership and personal development, group cooperation and collaboration and the enrichment of student life on campus.

The legislative power of SGA is contained within the Executive Board and Student Senate, whose members are elected by the students. All official actions undertaken by the SGA stem from the decisions of the Executive Board and Student Senate.

Bakersfield College has broad club and organizational participation representing academic, service, spiritual and special interest organizations. The ICC coordinates campus activities through representation from each club and organization.

Campus organizations stimulate new interests, provide opportunities to develop necessary life skills and enhance campus and community life. In addition to general coordination, SGA seeks to cultivate a meaningful activities program. In particular, SGA stages Homecoming in the fall and Spring Fling in the spring, which are two of the major events held on campus during the year. Students interested in any of the clubs or organizations at Bakersfield College may obtain further information at the Student Activities Office in the Campus Center, 395-4355.

Students shall respect constituted authority. This shall include conformance to state laws, board regulations, college regulations, and applicable provisions of civil law.

Students are expected to observe high personal standards of decency, morality, honesty, and social relationships. Student conduct should reflect consideration for the rights of others, and students are expected to cooperate with all members of the college community.
