Agricultural Business Management Associate in Arts Degree

The Agricultural Business Management major is made up of agriculture and agricultural business courses pertaining to the agriculture industry.

Many jobs in agriculture require training in business courses such as accounting, typing and salesmanship. With a combination of agriculture and business courses, many employment opportunities are available. Agriculture Business Management Associate in Arts Degree is recommended for students planning to transfer to a 4-year college.

Forestry Associate in Arts Degree

The program provides a broad general experience in the arts and science to develop an individual with a well-rounded education, and a core of basic courses which furnish the student with a perspective of the scientific and professional area of forestry, natural resources, fisheries and wildlife. The pre-forestry, resource conservation and wildlife management program at Bakersfield College should conform to the recommended program as prescribed by the school to which the student wishes to transfer. Students planning to go to work after completing a 2-year degree should complete the A.S. degree and not the A.A. degree.

Pre-Veterinary Medicine Option

See Agriculture faculty advisor. The veterinarian diagnoses and treats diseases and disorders of animals; determines the nature of disease or injury and treats animals medically or

surgically; performs autopsies to determine causes of death; gives advice on care and breeding of animals. Some engage in general practice, some become involved in research and development, while others are active in such fields as consultation, teaching, technical writing, sales or promotion of commercial products, or provide technical services for commercial firms. ANTHROPOLOGY

Anthropology Associate in Arts Degree

The objective of this program is to prepare the student for upper-division study in anthropology at a four-year college or university. Anthropology focuses on the variety of human cultural patterns, both past and present, to create an awareness and understanding of the science of human behavior. Most graduates with a degree in anthropology are likely to pursue careers in teaching, government service, research, law, and business.

APPRENTICESHIP PROGRAMS

Apprenticeship courses are designed for indentured apprentices under the Shelley-Maloney California Apprenticeship Standards Act. The Apprentice Agreement states that the student will supplement on-the-job training with related classroom instruction during each year of apprenticeship.

Apprentice classes meet three to eight hours per week and yield two to six units of credit. Joint Apprenticeship Committees administering each program are composed of representation from labor, management, California State Division of Apprenticeship Standards, and Bakersfield College. These committees adopt state approved standards for operation and

assure equal opportunity for applicants. Related training in apprenticeable occupations, in addition to those listed below, may be offered as the need arises.

Information for entry into apprenticeship programs may be obtained from the college coordinator of apprenticeship training. Interested persons are encouraged to apply for any of these programs and may contact the BC Apprenticeship Department at 395-4408 for further information.

Carpentry
Electricians
Operating Engineers
Plumbers and Steamfitters

Suggested Transfer Programs for The College of Architecture & Environmental Design, California Polytechnic University, San Luis Obispo

The following curriculum is designed for students planning to transfer to the College of Architecture and Environmental Design at California State Polytechnic University, San Luis Obispo. The student is advised to keep a portfolio of *all* work done in all architectural classes, since the level of advanced standing is dependent upon an evaluation of this portfolio by faculty at Cal Poly, S.L.O. Entry as a transfer student to Cal Poly, S.L.O. is based upon a strong grade point average (G.P.A.), certification of general elective courses, including MATH B1b and MATH B6a, PHYS B2a and PHYS B2b and the architecture courses listed below for the Multi-Criteria Application (MCA) or supplemental information form.

In the College of Architecture and Environmental Design at Cal Poly SLO, there are five majors: Architecture, Architectural Engineering, Construction, City and Regional Planning, and Landscape Architecture. The Bachelor of Architecture and Bachelor of Landscape Architecture degrees are five-year programs. The other three majors are four-year degree programs. It is the exceptional student who is able to complete these programs in the allotted time. Many students find that it takes an additional year or two of study to complete any of the five programs listed. This may mean taking course work during the summer or spending an additional year at Bakersfield College and/or at Cal Poly SLO.

In addition, Cal Poly, SLO offers two graduate programs. The Master of Science in Architecture and the Master of City and Regional Planning for those students interested in advanced professional studies.

Recommended courses for Cal Poly, S.L.O. common to all five majors. Key courses for transfer to all five majors are shown in bold below: The courses with an asterisk (*) should be completed by the Fall semester prior to transferring.

Section One: Specific Coursework Requirements

- *English Composition** ENGL B1a
- *Critical Thinking** PHIL B7, B9, or ENGL B1b, B2, or COMM B5
- *Speech** COMM B1
- *Mathematics Requirement** See Major requirement(s) for each major.
- Physics Requirement** See Major requirement(s) listed below for each major.

In addition the following areas must be completed or addressed as well:

Section Two:

- *General Education (G.E. or IGETC) completion** (Certification of completion of General Education courses expected.)

Section Three:

- *GPA - Students must accumulate a high GPA while at the community college to be competitive for transferability.**

Section Four:

- *Work Experience and extra-curricular activity participation:**
Work experience related to the major of choice over the most recent 12 months.
Involvement in community service, arts, clubs and other extra-curricular activities during the last 12 months.

Listed below is the *additional specific coursework* required by each major for Section One. These courses should be completed prior to transferring to be competitive at entry.

Cal Poly, Pomona

California State Polytechnic University, Pomona offers three undergraduate majors leading to the Bachelor of Science Degree in Architecture, Landscape Architecture, and Urban Planning. The student while attending Bakersfield College should plan on taking the same basic Architecture program as for Cal Poly, San Luis Obispo. Substitute MATH B1a for MATH B6a and take only one Physics course, PHYS B2a. Entry into Cal Poly, Pomona is based on a strong G.P.A., the above Math and Physics courses, ENGL B1a, ENGL B2, COMM B1 and PHIL B7. These critical general education courses should be completed by the fall semester prior to the student applying for transfer. The student should take as many architecture courses as possible. A portfolio will be required for advanced placement into the architecture program. A Master's Degree is available in all three areas of study.

UC Berkeley

Students planning to transfer to the University of California, Berkeley should expect to take the following recommended courses. Berkeley has a 4-year curriculum leading to the B. A. Degree in the College of Environmental Design, with majors in Architecture Design, Landscape Architecture and City Regional Planning. A Master's Degree in Architecture, Landscape Architecture, or City Regional Planning would require an additional two years.

Recommended Courses for the University of California, Berkeley

Course Number	Title	Units
ARCH B11	Introduction to Drawing, Perspective & Graphics	4.0
ARCH B12	Basic Graphics, Analysis & Communication Skills	4.0
ARCH B21	Architectural Design Fundamentals I	4.0

PHYS B4a	Mechanics & Wave Motion	4.0
PHYS B4b	Heat, Electricity, & Magnetism	4.0

Private Colleges and Universities

The following list are those private universities/colleges offering degrees in architecture within the State of California.

- California College of Arts and Crafts-San Francisco
- New School of Architecture-San Diego
- Southern California Institute of Architecture-Santa Monica
- University of Southern California-Los Angeles
- Woodbury University-Burbank

Students interested in one of the above programs offered at these campuses should consult with the individual dean of the college they are interested in as to entry requirements. UCLA offers an architectural graduate degree only.

BIOLOGY

See also Primary Care Associate

Biology is the study and application of principles of cell biology, ecology, evolution, genetics, anatomy and physiology as it relates to humans and other organisms. Laboratory and field trip activities emphasize the integrated and interdependent nature of living systems. Course work trains students to use observation and investigation to identify questions and pursue answers using the scientific method.

Graduates with biology degrees may pursue jobs in a variety of fields including; biochemistry, biotechnology, botany, ecology, entomology, genetics, health, immunology, medicine, molecular biology, oceanography, pharmacy, teaching, wildlife management, zoology and related clinical fields. Biology majors may choose to specialize in research based on a particular organism or an aspect of biology related to those listed above.

Candidates for an AS in Biology may select the emphasis that facilitates their interests most closely. The two areas of emphasis are General Biology and Human Biology.

Courses required for the General Biology emphasis include biology and chemistry courses necessary for transfer to 4 year institutions as a biology major, however numerous other courses as well as specialized requirements are necessary for specific institutions. Please refer to the Suggested Program information and check with a counselor concerning requirements for specific transfer institutions. Please note that some courses have prerequisites that should be taken in the appropriate order; it is essential to get counseling to facilitate a smooth pathway to transfer.

Courses required for the Human Biology emphasis include biology and chemistry courses necessary for transfer to allied health programs such as nursing, radiology and physician’s assistant. Please refer to the Suggested Program information and check with a counselor concerning requirements for specific transfer institutions. Please note that some courses have prerequisites that should be taken in the appropriate order.

Note: Students transferring to a 4-year institution for a B.S. in Biology generally take the CHEM B1a, B1b sequence. They should consult the university of their choice as to whether CHEM B8 and B9 should also be taken before transfer.

Note: Students transferring for a B.S. in Nursing should consult the university of choice as to which chemistry sequence meets transfer needs.

Suggested Program for Biology Majors

This suggested program meets all Intersegmental General Education Transfer Curriculum (IGETC) requirements. This program is a series of courses that community college students

can use to satisfy lower-division general-education requirements at any California State University (CSU) or University of California (UC) campus. It will permit a student to transfer to a campus of the CSU or the UC system without the need, after transfer, to take additional lower-division general-education courses to satisfy campus general-education requirements. The program also meets or exceeds the minimum entrance requirements for most medical schools and other health professional programs. This program assumes you are academically prepared for university-level courses. Students requiring additional preparation in mathematics, reading or English will require at least one additional semester and should consult a counselor for advice.

First Semester

Course Number	Title	Units
BIOL B3a	General Biology I	5.0
CHEM B1a	General Chemistry	5.0
ENGL B1a	Expository Composition	4.0
	Art or Humanities Elective	3.0

Second Semester

Course Number	Title	Units
BIOL B3b	General Biology II	5.0
CHEM B1b	General Chemistry and Chemical Analysis	5.0
ENGL B2 or PHIL B9	Advanced Composition and Critical Thinking Critical Thinking and Advanced Composition (4.0)	5.0

Third Semester

Course Number	Title	Units
MATH B6a	Analytic Geometry and Calculus I	4.0
PHYS B2a	General Physics-Mechanics and Heat	4.0
COMM B1	Public Speaking	3.0
	Art or Humanities elective	3.0
	Social or Behavioral Science elective	3.0

Fourth Semester

MATH B6b	Analytic Geometry and Calculus II	4.0
PHYS B2b	General Physics-Sound, Light, Electricity, Magnetism, Modern Physics	4.0
	Art or Humanities elective	3.0
	Social or Behavioral Science elective	3.0

Note: Some UC campuses now require calculus-based physics for biology majors and other particular courses. If you are planning to transfer to a UC campus, contact their admissions office for advice.

Suggested Program for Nursing Majors (and Some other Allied Health Majors)

The following program of study for those interested in the RN degree encourages students to begin their science courses early and apply for the program during the fourth semester as they finish the General Education requirements. Science courses

can be quite difficult; the suggested sequence of courses is recommended for students with the following assessment scores and life situations:

1. Reading: Level 5 or 6
2. Math: MATH BD (level 3) or transfer level (level 4 or higher)
3. Strong study skills and limited work hours per week

First Semester

Course Number	Title	Units
BIOL B32	Human Anatomy & Physiology I	4.0
MEDS B60	Medical Terminology	2-3.0
	Electives	

First or second semester should include

CHEM B11	Principles of Inorganic, Organic and Biochemistry	5.0

Third or fourth semester should include:

NURS B100	Strategies for Success in a Nursing Program	2,0
-----------	---	-----

Fourth Semester

Course Number	Title	Units
	Electives	

Third or fourth semester should include:

NURS B100	Strategies for Success in a Nursing Program	2,0
-----------	---	-----

Note: General Education courses should be completed prior to the Nursing Program. The following are required but not specified as to timing or sequence: COMM B1, B2, or B3; ENGL B1a; MATH BA; SOCI B1 or ANTH B2; PSYC B1a; HIST B17a or other social science course, PHIL B12 or other humanities course (all 3 units)

Note: Students who intend to transfer to a four-year program in nursing should contact the transfer campus in order to satisfy additional requirements. In addition to the requirements for the BC Nursing Program, many nursing schools require nutrition, lifespan, pathophysiology, and statistics.

BUSINESS ADMINISTRATION

The Business Department strives to promote and enhance the economic development of the community; to provide for life-long learning and academic excellence through course content, application, and technology; to serve diverse populations with a sense of worth and dignity; to establish work ethics relative to a positive work environment; to meet workforce needs through skills development, training, and personal growth; and to communicate a sense of vision and renewal through a creative utilization of productive and innovative resources.

Administrative Office Assistant

The Administrative Office programs are designed to provide the skills and competencies needed to become an efficient, productive member of an office support team. Courses are designed to help students learn to analyze and coordinate office duties and systems, develop proficiency in the use of integrated software, and improve oral and written communication. Emphasis is placed on non-technical as well as technical skills. Students have the option of completing certificates and/or a two-year degree program.

Office Assistant Certificate of Completion

This certificate prepares students as entry-level office support staff. Students are urged to continue beyond this Completion Certificate and earn a Certificate of Achievement or Associate of Arts Degree.

Upon completion of the following courses with at least a “C” grade in each course, the student will be awarded an Office Assistant Certificate of Completion.

Total Units: 11.5

Required Courses:

Course Number	Title	Units
OFFT B252abc	Computer Keyboarding, Beginning, Parts 1-2-3	3.0
OFFT B257	Filing	1.5
BUS B75/B275	Business English	3.0

COMS B5	Introduction to Microcomputer Operations	3.0
BUS B264	Ten-Key Proficiency	1.0

Office Assistant Certificate of Achievement

An Office Assistant Certificate of Achievement increases the student’s employability as office support staff. Students who have completed the Certificate of Completion courses can quickly upgrade to the Certificate of Achievement by completing the following courses with at least a “C” grade.

Total Units: 28

Required Courses:

Course Number	Title	Units
OFFT B252abc	Computer Keyboarding, Beginning, Part 1-2-3	3.0
OFFT B257	Filing	1.5

Business Administration Associate in Arts Degree

The general purpose of the program in Business Administration at the university and state college is twofold. First, it is organized to help students to develop a broad understanding of our economy and our society in order to serve as a basis for responsible administrative and executive positions in business and government. Second, it offers the opportunity for students to acquire skills in specialized and professional types of employment.

Since requirements vary, the current catalog of the chosen college or university should be consulted for specific requirements of the School of Business Administration.

This suggested program will meet most of the lower division requirements at the California State colleges and universities as well as fulfilling the major requirements for the Associate in Arts Degree from Bakersfield College.

The courses listed below are required for the above institutions and for most other four-year colleges and universities in order to transfer into the third year of a chemistry major program. Before planning a study list, the community college student should consult his/her counselor and study the catalog of the senior institution to which he/she intends to transfer.

The introductory courses in Physics (Physics B2a-B2b or B4a-B4c) and Chemistry (Chemistry B1a-B1b, B2a or B11) are designed to provide a foundation and understanding of the laws and principles of the physical world (matter and en-

ergy). These courses should be completed early in a student’s academic program to insure greater success in subsequent courses.

ECONOMICS

Economics Associate in Arts Degree

The major in economics is designed for students interested in preparing for advanced degrees in Economics, Business, Law and for those students concerned with the economic behavior of consumers, businesses, and governments. Economics majors have a wide variety of career opportunities in business, law, journalism, education, politics, finance and banking, government, public and private overseas service, and labor leadership. Many economics majors go on to pursue graduate study in a related professional area, such as law, business, or public administration.

EMERGENCY MEDICAL TECHNOLOGY

Emergency Medical Technician I Certificate of Completion

The Emergency Medical Technician (EMT-1) Program is a 152-hour certificate program which will prepare the student to perform basic emergency care as part of a mobile emergency care team. Upon successful completion of the course, students are certified by the Kern County Emergency Medical Services for a two-year period. Re-certification every two years is required to maintain EMT-1 status (see EMTC B50r course description).

Enrollment in the Emergency Medical Technology Program

Statement of Philosophy: All persons who are able to perform satisfactorily the responsibilities and tasks required in education and training program and in subsequent employment in the field should have an opportunity to succeed. It is recognized that the need to protect the safety and welfare of the student and the community is a primary consideration in the health occupations.

Enrollment Period: This course is offered each fall and spring semester. Interested students must enroll through the Bakersfield College Admissions and Records Office.

Pre-Admission Requirements:

1. The student must be at least 18 years of age by the completion of the program.
2. The student must possess a current CPR card (American Heart Association Healthcare Provider).
3. MEDS B60 (3 units), Medical Terminology is highly recommended.

Physical Examination/Drug and Alcohol Screening/Background Screening:

The student must be free from communicable diseases, infection, psychological disorders, and other conditions that would prevent the successful performance of the responsibilities and tasks required in the education and training program of the college. Any condition described above which is developed by the student after enrollment to the program may be considered sufficient cause for suspension from the program. If possible, such a student should be counseled to enter a more appropriate program. Costs of meeting health requirements are paid for by the student.

1. Physical Examinations - This exam, completed by a physician of the student's choice, will be required **after** enrollment into the program. The applicant must have a level of emotional and physical health necessary to meet program requirements.
2. Immunizations/health tests - As needed for acceptance in a clinical and training facility, and to protect the health and welfare of the student and community. Immunization may include, but not limited to, Rubella and Hepatitis B. Tuberculosis screening is also required.
3. Drug and Alcohol Screening - As a condition of enrollment in the program, all students are required to submit to, and pass, a designated drug and alcohol screen. Students will be required to purchase uniforms, textbooks and selected equipment and provide transportation to off-campus sites for laboratory experience and pay current college fees.
4. Background Screening - As a condition of application in any Allied Health Program with a clinical laboratory component, students are required to submit to and pass a designated background check. These screenings are performed at the student's expense.

NOTE: Students with a misdemeanor and/or felony arrest or conviction may not receive certification or licensure from the State or County. Call Allied Health, 395-4284 for more information.

University of California, California State University and Private Universities

People working in the field of engineering and related technical fields “bridge the gap” between scientific principles and the application of these principles to the needs of society. The field is quite diversified with exciting job opportunities for people with varied mathematical, scientific, and technical skills.

An engineer uses experience and judgment, as well as advanced training in engineering, science, and mathematics to formulate ideas and designs, and to determine standards, specifications, work orders and schedules so that projects can be economically beneficial to mankind. A Bachelor of Science Degree in Engineering is required. Many engineers earn Master’s or Doctor’s degrees.

Working together with a counselor or academic advisor, a student may develop a program of study leading to transfer into the upper division of a Bachelor’s Degree program in Engineering. The programs which follow will help the student plan an appropriate program.

Bakersfield College offers all of the courses required for two full years of engineering education. Completion of these courses, called the “engineering core” prepares students for transfer at the junior level to the colleges and universities offering Bachelor’s degrees in engineering. This is in accordance with the Summit Articulation Agreement of the Engineering Liaison Committee which states that “any students of a California Community College, with a stated major in engineering, who presents a transcript showing satisfactory completion of the engineering core program in lower division will be eligible to enroll in any four-year California university or college (which graduates engineers) with regular junior standing; and

further, said student can complete an engineering program in four additional semesters (or six additional quarters) and obtain a Bachelor’s Degree.

The engineering core curriculum is the basis for Transfer Admission Agreements between Bakersfield College and the engineering colleges at several universities including the University of California at Davis and Rensselaer Polytechnic Institute in Troy, New York. The following Bakersfield College courses are required to completely satisfy the engineering core program:

Course Number	Title	Units
MATH B6a	Analytic Geometry & Calculus I	4.0
MATH B6b	Analytic Geometry & Calculus II	4.0
MATH B6c	Calculus III	4.0
MATH B6d	Ordinary Differential Equations	3.0
CHEM B1a	General Chemistry	5.0
ENGL B1a	Expository Composition	4.0
PHYS B4a	Mechanics & Wave Motion	4.0

ENGR B24	Engineering Graphics & Descriptive Geometry	2.0
ENGR B36	Engineering Mechanics-Statics	3.0
ENGR B45	Properties of Materials	3.0
ENGR B19c	Computer Programming for Science, Engineering & Technology	3.0

The following technical electives are highly recommended for all branches of engineering:

Course Number	Title	Units
MATH B6e	Elementary Linear Algebra	3.0
ENGR B47	Introduction to Engineering & Design	3.0
INDR B10	Introduction to Industrial Drawing & Graphics	1.0
INDR B11	Introduction to Computer Aided Drafting & Design (CAD)	1.0
CHEM B1b	General Chemistry & Chemical Analysis	5.0
ENGR B37	Engineering Mechanics - Dynamics	3.0

The following technical electives are recommended for the particular branches listed:

GEOL B1a	Physical Geology (geological petroleum)
MFGT B1a	Machine Tool Processes (manufacturing, industrial)
MFGT B2	Lathe Programming (manufacturing, industrial)
WELD B1a	Introduction to the Welding Processes (manufacturing, industrial)

Four-year colleges and universities neither require, nor recommend, that engineering majors complete lower division general education requirements prior to transfer. For students transferring to campuses of the University of California or to California Polytechnic University, San Luis Obispo, the following courses are recommended if they can be included in the student’s schedule:

Course Number	Title
COMM B1	Public Speaking
PHIL B9	Critical Thinking and Advanced Composition

Two-year Engineering Program

The program shown below assumes satisfactory prior completion of the following:

- a. high school mathematics through trigonometry and mathematical analysis; or MATH B1a and MATH B1b at Bakersfield College
- b. one year of high school mechanical drawing or INDR B10 at Bakersfield College
- c. one year of high school chemistry or CHEM B2a at Bakersfield College
- d. eligibility for ENGL B1a

Students missing one of the requirements (b), (c), or (d) still may be able to complete the program within two years, as long as requirement (a) is met on entrance. Students completing the two-year program will not be able to earn an A.S. Degree from Bakersfield College unless they have satisfied general education requirements with summer courses or courses taken prior to entering the program.

Three-Year Pre-Engineering/Engineering Program

Those students who have not met the requirements for the two-year program will need more than four semesters to complete the engineering core program. The program shown below assumes only satisfactory completion of high school mathematics through intermediate algebra or MATH BD at Bakersfield College and eligibility for ENGL B1. It allows students to complete the general education requirements for the Associate in Science Degree while completing the engineering core program before transferring to a university as a junior. Students completing the A.S. Degree should select general education courses which will also satisfy university general education courses, and should understand that, while they will have completed more than 70 transferable units, the university will give them credit for satisfactory completion of all transferable courses but for only 70 units toward the Bachelor's degree.

First Semester

Course Number	Title	Units
MATH B1a	Precalculus I	4.0
ENGL B1	Introductory Composition	3-4.0
INDR B10	Introduction to Industrial Drawing & Graphics	1.0
INDR B11	Introduction to Computer Aided Drafting & Design (CADD)	1.0

Second Semester

Course Number	Title	Units
MATH B1b	Precalculus II	4.0
CHEM B2a	Introductory General Chemistry	4.0
ENGR B24	Engineering Graphics & Descriptive Geometry	2.0

Third Semester

Engineering Technology Associate in Science Degree

Cal Poly Pomona; California State University, Sacramento; California State University, Long Beach

Engineering technologists and engineering technicians are members of a technical team that also includes scientists, engineers and craftsmen. The members of the technical team perform job functions that are complementary and sometimes overlapping. By virtue of their education, training and interests, engineering technologists and engineering technicians are usually differentiated as follows:

An engineering technologist uses applied and basic training in mathematics, science, and engineering classes, engineering methods learned through classes and experience, and developed technical (hands-on) skills in direct support of engineering activities. A Bachelor of Science degree in Engineering Technology is required.

An engineering technician operates in a support role to aid in design, production, manufacturing, operations, and maintenance. Under professional direction, the engineering technician conducts tests, trouble shooting and analysis, and other similar projects, or carries out functions such as drafting, surveying, designing and technical sales. An Associate in Science degree or a Certificate of Engineering Technology is required.

Bakersfield College offers courses required for two years of engineering technology education. Completion of these courses, called the “engineering technology core” prepares students either for transfer to the colleges and universities offering bachelor’s degrees in Engineering Technology, or for completion of an Associate in Science degree in Engineering Technology. A beginning engineering technology student should have completed high school mathematics through intermediate algebra or MATH BD at Bakersfield College, one year of high school drafting, and be eligible for ENGL B1.

The following courses are required to satisfy the engineering technology core and Associate in Science program:

Total Units: 40

Required Courses:

Course Number	Title	Units
ENGR B47	Introduction to Engineering and Design	3.0
ENGR B45	Properties of Materials	3.0
ENGR B24	Engineering Graphics and Descriptive Geometry	2.0
INDR B10	Introduction to Industrial Drawing & Graphics	1.0
INDR B11	Introduction to Computer Aided Drafting and Design (CAD)	1.0
*CHEM B2a	Introductory General Chemistry	4.0
*PHYS B2a	General Physics-Mechanics and Heat	4.0
PHYS B2b	General Physics-Sound, Light, Electricity, Magnetism, Modern Physics	4.0
*MATH B6ab	Analytic Geometry and Calculus	8.0
ENGR B19c	Computer Programming for Science, Engineering and Technology (C)	3.0

*May be used to also fulfill general education requirements

In addition, seven or more units from the following approved programs and/or subject areas are to be selected. See counselor or advisor for specific courses.

Electronics/Electrical Technology; Construction Technology; Manufacturing Processes Technology; Welding/Fabrication; Industrial Drawing and Graphics.

ENGLISH

Studies in English provide preparation for the professions, government service, and politics. Career opportunities in English include teaching, journalism, publishing, advertising, and copywriting.

Students seeking an Associate Degree must take a writing course, either English B1 or B1a, and may take a literature class to fulfill the humanities requirement. Students seeking a Baccalaureate Degree should take English B1a and may take English B1b and other literature courses to fulfill specific General Education requirements. Students planning to major in English should take English B1a and B1b and at least two of the following: English B5a, B5b, B20a, B20b, B30a, B30b. Students planning to transfer to the University of California should consider English B2. For specific information, students should consult the catalog of the school to which they intend to transfer.

FIRE TECHNOLOGY

Bakersfield College’s Regional Fire Technology Academy (RFTA) was authorized by the California Fire Service Training and Education System (CFSTES) in 1980, with programs of study leading to Certified Fire Officer, Certified Chief Officer and Certified Fire Chief. RFTA sponsors many cooperative training programs with federal, state and local fire protection agencies.

Individuals may develop a program suitable to their career goals with the aid of a college counselor. Courses may lead to the achievement of specific career goals, immediate employment, an Associate Degree, or transfer credits that satisfy requirements for a Bachelor’s Degree in Criminology, Police Science, Correctional Administration or Fire Technology.

HISTORY

The major in history is designed for students interested in gaining an understanding of our political, economic and social past. The major is an important part of the liberal arts program and can serve as preparation for graduate study in education, law, business, government and journalism. Many employers value the writing and thinking skills acquired by History majors. The knowledge gained in history is fundamental for an understanding of many of the other fields of learning.

Bakersfield College offers a wide variety of history courses in addition to those listed below. The student should select courses according to his/her area of specialization as well as the requirements of the college to which he/she plans to transfer. The student should also consult his/her counselor and the appropriate four-year college catalogs in determining an appropriate minor, foreign language requirements, and other core requirements.

LIBERAL ARTS

Liberal Arts Associate in Arts Degree

The Liberal Arts major at Bakersfield College is designed to provide students with the opportunity to earn an associate in arts degree in a broad area of study. The major is interdisciplinary and allows students to develop a variety of skills transferable to numerous occupations and fields of study. The major is intended to provide general knowledge and to develop the intellectual capacities, such as reasoning and judgment, as opposed to professional or vocational skills. This major is suitable for transfer students preparing for upper division study in a variety of fields in the liberal arts and for those students undecided as to major or further study. Students may satisfy requirements for the Liberal Arts major by completing one of the three options listed below. With any option selected, students must also complete all graduation requirements for Bakersfield College including a total of 60 degree applicable units with an overall grade point average of 2.00.

Select one of the following options:

1. Completion of 18 units in the Liberal Arts and Sciences beyond those used to satisfy Bakersfield College general education requirements. These courses must be designated as Liberal Arts and Sciences under the Bakersfield College Course Classification System (CCS); see course descriptions for specific designations. No course work may be double counted as meeting both BC General Education and major requirements.

OR

2. Completion of the California State University General Education transfer requirements.

OR

3. Completion of the Intersegmental General Education Transfer Curriculum (IGETC).

CVHEC Liberal Arts Transfer Associate in Arts Degree

The CVHEC Transfer Associate Degree guarantees admission into any of the CVHEC universities that have approved the degree (as listed below). It is not a guarantee for impacted majors. Please see a counselor or consult the Transfer Center for specific requirements for impacted majors. This associate degree is not recommended for majors that require extensive lower division preparation. Consult your counselor or the Transfer Center.

Select one of the following options:

1. Option One. Guarantees admission to CSU Bakersfield, CSU Fresno and CSU Stanislaus, with a 2.4 gpa; Fresno Pacific University, University of the Pacific and UC Merced with a 2.8 gpa.
 - a. Complete the Intersegmental General Education Transfer Curriculum (IGETC) with a “C” grade or better in each course.
 - b. The remaining units may be selected from recommended lower division major preparation for the major

- at the approved CVHEC university of your choice.
- c. UC transferable elective units, if needed, to total 60 units for the CVHEC Transfer Associate Degree.
- d. Achieve a minimum 2.4 gpa for transfer to CSU Bakersfield, CSU Fresno or CSU Stanislaus; achieve a minimum 2.8 gpa for transfer to Fresno Pacific University, University of the Pacific, or UC Merced, and be in good standing at the last institution attended.
- e. At least 12 of the 60 units must be completed at Bakersfield College.

OR

2. Option Two. Guarantees admission to CSU Bakersfield, CSU Fresno, and CSU Stanislaus with a 2.4 gpa.
 - a. Complete CSU General Education Breadth with a “C” grade or better in each course.
 - b. The remaining units may be selected from recommended lower division major preparation for the major at the approved CVHEC university of your choice.
 - c. CSU transferable elective units, if needed, to total 60 units for the CVHEC Transfer Associate degree.
 - d. Achieve a minimum 2.4 gpa for transfer to CSU Bakersfield, CSU Fresno, or CSU Stanislaus.
 - e. At least 12 of the 60 units must be completed at Bakersfield College.

Important Notes:

1. File an application to the university of your choice during the initial filing period for the semester you wish to transfer. The CVHEC website lists the filing periods for each campus: www.CollegeNext.org
2. All community college campus specific graduation requirements are waived for this transfer associate degree. Demonstrated competency in reading, written expression, and mathematics is required if not met through general education coursework. Note: Students are encouraged to complete matriculation including the educational planning component so they will have early registration rights.
3. Students who achieve a 2.0-2.39 gpa will earn the CVHEC Transfer Associate Degree but will not be guaranteed admission to a CVHEC University.
4. Please consult with a community college counselor or an outreach counselor, at the university where you plan to transfer, to inquire about requirements for your major and/or impacted programs.

LIBERAL STUDIES

Liberal Studies Associate in Arts Degree

Courses listed are based on information available at the time of publication of this catalog for the Liberal Studies Major Credential Track at CSU Bakersfield and are intended for students who plan to obtain a multiple subjects teaching credential. Students are advised to see a counselor for the most current requirements for a Liberal Studies major at CSU Bakersfield. Students transferring to other colleges or universities are advised to consult the catalog of the school they plan to attend.

MUSIC

Students who plan to major or minor in music should commit themselves to the highest possible level of proficiency in theory, piano, literature, group performance, and applied (individual) instruction in their performance area. Students should take the required courses in music and complete courses in general education for the transfer college of their choice. Elective courses will both enrich the student's background and balance weak areas of knowledge for later academic growth.

Enrollment to Nursing Programs

I. Statement of philosophy concerning enrollment into Allied Health Programs:

All persons who are able to perform satisfactorily the responsibilities and tasks required in an education and training program and in subsequent employment in the field should have an opportunity to succeed. It is recognized that the need to protect the safety and welfare of the student and the community is a primary consideration in the health occupations.

II. Application Procedures

A. Determination of eligibility for enrollment: The student must meet educational and health requirements established for the program.

1. Educational Requirements

a. A high school diploma or equivalent is required for the Registered Nurse and Vocational Nurse Programs.

b. Meet specific program prerequisites.

2. Health Requirements

The student must be free from communicable diseases, infection, psychological disorders, and other conditions that would prevent the successful performance of the responsibilities and tasks required in the education and training program of the college. Any condition described above which is developed by the student after enrollment to the program may be considered sufficient cause for suspension from the program. If possible, such a student should be counseled to enter a more appropriate program. Costs of meeting the following requirements are

***Different from the printed catalog (correcting an omission).**

paid by student.

- a. Physical Examinations - This exam is to be completed AFTER the student receives notification of acceptance into the program. The applicant must have a level of emotional and physical health necessary to meet the essential technical standards.
 - b. Immunizations/health tests - As needed for acceptance in a clinical and training facility, and to protect the health and welfare of the student and community. Immunization may include, but not be limited to, rubella and Hepatitis B. Tuberculosis screening is also required.
 - c. Drug and Alcohol Screening - As a condition of acceptance to any Nursing Program with a laboratory component, all students are required to submit to, and pass, a designated drug and alcohol screen.
 - d. Background Screening - As a condition of application in any Allied Health Program with a clinical laboratory component, students are required to submit to and pass a designated background check. These screenings are performed at the student's expense.
3. Eligibility for Enrollment.
Applicants who have completed their application, have their high school and college transcripts on file, and have met the educational and health requirements will be designated as eligible for enrollment. Information regarding criteria for selection may be obtained in the Allied Health Office.
4. Students will be required to purchase uniforms, textbooks and selected equipment, provide transportation to off-campus clinical education sites and pay current college fees.

If a Nursing Program has more applicants for enrollment than space available, priority is provided to residents of the Kern Community College District.

NOTE: Students with a misdemeanor and/or felony arrest or conviction *may* not receive certification or licensure from the State or County. Call Allied Health, 395-4282 for more information.

Certified Nurse Assistant

The Certified Nurse Assistant (CNA) course prepares the student to provide services to those who need health care. The student will learn the role of the caregiver, the healthcare environment, healthcare safety, adult needs in health and illness and basic care giving skills. Students successfully completing both the Basic Patient Skills course and the laboratory component will be eligible to take the State of California, Certified Nurse Assistant examination. For enrollment in the Basic Patient Skills laboratory course, the student must meet health requirements. For more information, contact the Allied Health Department at 395-4281.

Students with a misdemeanor and/or felony record may not receive certification or licensure from the State or County - clarification can be provided by the Certified Nurse Assistant

Coordinator.

Registered Nursing Associate in Science Degree

Nursing education prepares the graduate to provide services to those who need health care. As needs are varied so are educational programs, which may proceed from the simpler to the more complex in accordance with the career ladder concept. The progression reads: nursing assistant, licensed vocational nurse, registered nurse, and other nurses with Bachelor of Science, Master of Science, Doctorate in Nursing and special certifications. The role of a new graduate is usually that of a staff nurse. With additional education, a nurse may advance to a position of supervisor, administrator, clinical specialist, educator, or researcher.

Curriculum Framework

The curriculum is based upon the following concepts which provide a framework for theory and practice at each level:

- 1. Utilization of the nursing process to assess, plan, implement, and evaluate nursing care.
- 2. Man as a bio-psycho-social-spiritual being.
- 3. The personal and professional development of the student to prepare for the role of a Registered Nurse.
- 4. The implementation of the roles of the student as a provider of care, manager of care and member of the profession.

Applying to the Associate Degree Program

General Information

- 1. This is a four-semester Associate Degree Nursing Program (ADN). Students must also complete all the Bakersfield College General Education Requirements for graduation in addition to the prerequisite courses.
- 2. Upon successful completion of the ADN Program, graduates are eligible to take the National Council Licensure Examination for licensure as a Registered Nurse.

Application Filing Periods

- 1. March 1 - March 31 for fall semester.
- 2. Month of September for spring semester.
- 3. All application forms must be received in the Allied Health Office during the stated filing period. Forms received prior to these dates will be returned. Late forms will not be accepted.

Application Procedures

1. Enroll at Bakersfield College.
2. Obtain application form from the BC Allied Health Office in room MS 178 or by telephone, 395-4281.
3. Arrange for **official** copies of all college transcripts to be mailed directly to the Associate Degree Nursing Program, Bakersfield College, 1801 Panorama Dr., Bakersfield, CA 93305. Students attending BC must furnish a BC transcript.
4. Students not accepted must complete a program application form until admitted to the program.

Prerequisite Course Requirements

All prerequisites must be completed with a “C” grade or higher.

- a. ENGL B1a (Expository Composition) 4 units at Bakersfield College or equivalent course at another accredited college.
- b. MATH BA or B200A (Elementary Algebra) or higher, 3 units at Bakersfield College or an equivalent course at another accredited college, or two semesters of high school algebra. (If you met this requirement with high school algebra you must submit an official high school transcript and students still must satisfy the Math requirement for the Bakersfield College general education requirements.)
- c. CHEM B11 or B2a or B1a (Chemistry) a minimum of 4 units is required at Bakersfield College or an equivalent course at another accredited college. (CSUB requires CHEM B11.)
- d. The Anatomy and Physiology requirement can be met by either:
 BIOL B32 (Anatomy & Physiology I) 4 units at Bakersfield College or equivalent course at another accredited college, and BIOL B33 (Anatomy & Physiology II) 4 units at Bakersfield College or equivalent course at another accredited college.
 Or
 BIOL B14 (Human Anatomy) 4 units at Bakersfield College or equivalent course at another accredited college and BIOL B15 (Human Physiology) at BC or equivalent course at another accredited college.
- *e. BIOL B16 (General Microbiology) 5 units at Bakersfield College or equivalent course at another accredited college.
- f. Graduation from high school or equivalent education.
- g. Overall cumulative GPA of 2.5 overall (without repeats or ‘W’), minimum GPA of 3.0 in all English courses.
- h. MEDS B60 Medical Terminology - highly recommended prior to BIOL B14 Human Anatomy.
- i. Nurse Assistance course/certification - highly recommended.
- j. NURS B100 Success Strategies in a Nursing Program, is recommended 1-2 semesters prior to entering the program.

General Education Requirements and Board of Registered Nursing Required Courses

1. The following courses are also required by the California Board of Registered Nursing (BRN) and to graduate from the Bakersfield College Associate Degree Nursing

program.

All BRN required courses must be completed with a “C” grade or better and it is suggested that most of them be completed prior to application to the program:

- a. *COMM B1 or B2 or B3
- b. PSYC B1a
- c. SOCI B1 or ANTH B2
- d. MATH BA/B200A or a minimum of 3 units in Mathematics, Logic or Computer Studies

*COMM B1 is recommended for CSU nursing transfers.

2. The following courses are also required to graduate from the Bakersfield College Associate Degree Nursing Program and it is suggested that most of them be completed prior to applying to the program:

- a. HIST B17a or other social science course
- b. PHIL B12 or other humanities course
- c. STDV B1 or B201 (should be taken during the first semester of prerequisites)
- d. Students who complete the ADN program are exempt from the Health Education requirement.

Note: Equivalent courses taken at other accredited colleges must be verified by official transcripts. Requests for consideration of courses for equivalency must be made to the Bakersfield College Admissions and Records Office.

PHILOSOPHY

A major in philosophy has always been and continues to be one of the strongest traditional liberal arts majors in higher education. Some students major in Philosophy as a precursor to graduate work and academic careers, teaching and doing research in Philosophy and Education. Philosophy’s emphasis on critical thinking, theories of knowledge, value and reality, truth, rational argument and proof make it an excellent pre-professional undergraduate major (e.g., for law, theology, medicine, business, computer science) or minor (e.g., for the natural, physical and social science and humanities majors).

POLITICAL SCIENCE

Political Science Associate in Arts Degree

The majors in Political Science are designed for students interested in gaining an understanding of the structure and functions of governments. The majors are an important part of the liberal arts program and prepare students for further study and careers in education, law, business, government, international

relations and journalism.

The student should select the major emphasis, and courses according to his/her area of specialization as well as the requirements of the college to which he/she plans to transfer. The student should also consult his/her counselor and the appropriate four-year college catalogs in determining an appropriate minor, foreign language requirements, and other requirements.

**PRIMARY CARE ASSOCIATE
(Physician’s Assistant)**

Stanford University Medical Center administers a program to train individuals who function in association with physicians in the maintenance and delivery of primary health care to medically underserved communities.

Upon completion of the prerequisite pre-clinical program at Bakersfield College or other accredited institutions, students admitted to the program have 15 months of clinical experience coordinated through Stanford University Medical Center. Students participate in didactic course work full-time for the first quarter (3 months) at Stanford Medical Center in Palo Alto, California. Then they complete an equivalent of five days of didactic instruction each month (12 months) thereafter. All clinical experience occurs in an office practice preceptorship. Contact Counseling Department for further information.

Prerequisites:

- Minimum requirements for application and admission include:
1. United States citizen or permanent visa.
 2. High School Diploma or equivalent.
 3. A minimum of 18 months direct patient care experience.
 4. Satisfactory completion of the following academic prerequisites or their equivalents.

General Education courses are required for the P.C.A. Program. It is recommended that an AA or AS degree at BC be completed prior to applying to the program.

The student must have a preceptor site established in order to complete the clinical experiences necessary for the program. Some assistance may be available in locating a preceptor.

Upon successful completion of the P.C.A. program. The graduate will sit for a certifying examination administered by the National Commission on Certification of Physician’s Assistants. Passing this examination allows the Physician’s Assistant to perform direct patient services under the supervision of primary care physicians certified by the California Board of Medical Quality Assurance.

Pre-Clinical Program Requirements

A minimum grade of “C” must be attained in each of these courses. Only work from a regionally accredited college can be accepted.

Algebra - Elementary. One year of high school math or MATH

BA/B200a at Bakersfield College.

Anatomy (BIOL B14) and Physiology (BIOL B15) at Bakersfield College or equivalent. Must be at least 10-12 quarter units or 7-8 semester units.

Chemistry - Introductory. One year of high school chemistry or equivalent.

Cultural Anthropology or Sociology: ANTH B2, SOCI B1 at Bakersfield College, or another acceptable course.
English Composition - Freshman level: ENGL B1, ENGL B1a at Bakersfield College, or other acceptable course.

General Psychology - PSYC B1a at Bakersfield College or other acceptable course.

Microbiology with laboratory; BIOL B16 at Bakersfield College, or other acceptable course.

*American History and Institutions. See Graduation and General Education Section of this catalog.

*Computer Literacy - Two semester units. Must include experience at a terminal (COMS B2 or COMS B12) at Bakersfield College, or other acceptable course.

*Ethnic Studies - A course that reflects the experience of an American ethnic group.

*Humanities - One course from List A and one course from List B. (A) Literature, Philosophy (not Logic), or Western Civilization. (B) Art Appreciation, Music Appreciation, or Theatre Arts Appreciation.

*Physical Education - Four quarter courses or three semester courses.

*Speech - Public Speaking or interpersonal communication: COMM B1 or COMM B2 at Bakersfield College, or other acceptable course.

*These courses are required if candidate does not possess an A.A., A.S. or higher academic degree.

RADIOLOGIC TECHNOLOGY

Radiologic Technology

Radiologic Technology is a health care profession whose practitioners work in hospitals, imaging centers, and private physicians' offices. The radiologic technologist (radiographer) is a member of the health care team who works directly with the patient and the physician performing a wide variety of diagnostic x-ray procedures. The role of the graduate radiographer may be that of staff radiographer, special imaging radiographer, supervisor, administrator or educator, depending upon the level of education and experience obtained.

The Bakersfield College Associate in Science Degree Radiologic Technology Program provides concurrent didactic and clinical education. The program is 24 months in length (excluding prerequisite coursework) and begins each year in June.

The program provides the theory, skill and experience necessary to apply for admission to the certification exam administered by the American Registry of Radiologic Technologists (ARRT); and for certification from the State of California, Department of Health Services as a Certified Radiologic Technologist (CRT). The student is also eligible to write the State Fluoroscopy Permit exam. Students must earn a minimum of "C" in all radiography and related general education courses, have met the State mandated curriculum and clinical hours and have met all clinical education competencies to be recommended for these examinations/certifications.

Radiologic Technology Program Mission and Goals

The mission of the Bakersfield College Radiologic Technology Program is to promote student success by providing quality instruction for graduates to competently practice radiography at the entry level.

The Program promotes its mission by preparing graduates to: 1) Succeed by the establishment of fair and informative educational practices; 2) maintain and promote professional ethics; 3) recognize and apply quality patient care of management in cooperation with the healthcare team; 4) maintain a safe environment for the patient, healthcare team and self; 5) apply the knowledge and skills of imaging principles to produce diagnostic radiographs; 6) effectively communicate,

critically think and problem solve; 7) competently perform radiography procedures; and 8) receive an associate degree in radiologic technology and be eligible to write both the national certification exam administered by the ARRT and the California CRT exam.

Radiologic Technology Program Prerequisite Requirements

All prerequisite coursework must be completed prior to the start of the program. When there are more applicants for enrollment than space available, priority is provided to applicants with all prerequisite courses completed at the time of submitting an enrollment form.

The following courses must be completed with a "C" grade or higher (except where otherwise noted):

1. BIOL B32 (Human Anatomy and Physiology I) **and** BIOL B33 (Human Anatomy and Physiology II)
OR
BIOL B18 (Essentials of Anatomy and Physiology)
OR
BIOL B14 (Human Anatomy) **and** BIOL B15 (Human Physiology)
OR
equivalent course(s) at another accredited college.
2. MATH BD/B200D (Intermediate Algebra) at BC **OR** equivalent course at another accredited college or completion of high school Algebra 2 with a minimum grade of "B."
3. MEDS B60 (Medical Terminology - 3 units) at BC or equivalent course at another accredited college.
4. Eligibility for ENGL B1a as demonstrated by qualifying scores on the BC assessment tests; or completion of ENGL B1 at BC; or an equivalent course from another accredited college with a minimum grade of "C."
5. Graduation from high school or an equivalent education (GED/CHSPE).

Enrollment Procedures and Filing Period

Enrollment forms must be received by the Radiologic Technology Program Office during the month of February for the program scheduled to start in June.

Enrollment Procedures

1. Complete required prerequisite courses (see above).
2. Enrollment forms for the Radiologic Technology Program may be obtained in the Allied Health Division, Room 178 of the Math-Science Building, OR in the Counseling Center located in the Student Services building on the main campus.
3. Official transcripts for all high school and college coursework must also be submitted and mailed directly to Radiologic Technology Program, Bakersfield College, 1801 Panorama Drive, Bakersfield, CA 93305. All transcripts must be received during the application dates listed above. Students attending Bakersfield College may request an unofficial copy of their transcript to be sent to the program

- from the Admissions and Records Office. A display unofficial transcript from the college website is also acceptable.
- Students not enrolled must reapply for each program cycle to keep their file active. If the student does not reapply, the file will be destroyed.
 - If the Radiologic Technology Program has more applicants for enrollment than space available, priority is provided to residents of the Kern Community College District.

NOTE: Equivalent courses taken at other accredited colleges must be verified by *official* transcripts. Submit the official copy of your transcript along with the form “Request for Evaluation” to the college Admissions and Records Office. It is the student’s responsibility to see that the equivalency is provided to the program within the enrollment filing period; therefore students are urged to complete this equivalency prior to the program enrollment period as this process takes significant time.

General Education Requirements

General education courses are required to graduate from the Bakersfield College Associate in Science Degree Radiologic Technology Program. It is suggested that most be completed prior to program enrollment. Refer to the BC General Education and Graduation Requirements in this catalog for more information.

- Educational Planning: It is recommended that students complete this component as they begin college coursework.
- English - English B1 minimum required; English B1a recommended
- Communication (Speech) - COMM B1 recommended; or COMM B2, B3 or B8
- Social Science - History B17a or other Social Science* course
- Behavioral Science - Psychology B1a recommended; or other Behavioral Science course
- Humanities - Philosophy B12 recommended or other Humanities* course
- Computer Science (3 units) - COMS B2 or COMS B5 or equivalent is *necessary* to meet program completion requirements.
- Health Education - Students that successfully complete the Radiologic Technology Program are exempt from the Health Education requirement for graduation.
- An individual who has previously received an associate degree or higher must meet the A.S. Degree requirements in Radiologic Technology.

Health Requirements and Screenings

- A physical examination completed by a physician of the student’s choice will be required after the students receive notification of enrollment into the program to demonstrate that a student meets the technical standards necessary to meet the objectives of the program. A copy of the *Essential Technical Standards* required for Radiologic Tech-

- nologists may be obtained in the Allied Health Division Office located in the Math-Science building, room 178 or on the program website at www2.bakersfieldcollege.edu/alliedhealth.
- As a condition of enrollment to the Radiologic Technology Program, all students are required to submit to and pass a designated drug and alcohol screen.
 - As a condition of enrollment in any Allied Health Program with a clinical component, students are required to submit to and pass a designated background check.
 - Immunizations/health tests are needed for acceptance in a clinical education center, and to protect the health and welfare of the student and community. Immunizations may include, but not be limited to, rubella, varicella, and Hepatitis B. Tuberculosis screening is also required.
 - The medical exams, drug/alcohol screens, background screen, immunizations and tests are performed at the expense of the student.

Program Supply Information

Students will be required to purchase uniforms, textbooks and selected equipment, provide transportation to off-campus clinical education centers and pay current college fees. Estimated costs for books, uniforms, fees and required equipment for the first year of the program are approximately \$800-900. Subsequent semesters usually require college enrollment and other fees, books and course syllabi. Expenses for the last semester of enrollment also include the program pin and application fees for national and state licensure/registration examinations (approximately \$350).

Licensure/Certification Eligibility

Record of any conviction, misdemeanor or felony, is subject to review by the American Registry of Radiologic Technologists (ARRT) before eligibility for certification is granted. Individuals requiring clarification may contact the ARRT, 1225 Northland Drive, Mendota Heights, MN 55120, (651) 687-0048, or www.arrt.org.

Accreditation

Bakersfield College is accredited by the Western Association of Schools and Colleges. The Radiologic Technology Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), 20 N. Wacker Drive, Suite 2850, Chicago, Illinois 60606-3182, (312) 704-5300 or www.jrcert.org. The program is also approved by the State of California, Department of Health Services, Radiologic Health Branch, P.O. Box 997414, MS-7610, Sacramento, CA , 95899-7414, (916) 327-5106 or www.dhs.ca.gov/rthb.
